

# Pat Bright 1962 Homecoming Queen

By JIM McLAINE  
Pat wasn't Bright Wednesday night—she was radiant.  
For it was at 9 p.m. Wednesday that Patricia M. Bright, a 19-year-old Social Science sophomore from La Canada learned that she is to be Cal Poly's 1962 Homecoming Queen.

"I'm hungry; I feel all funny inside," the pretty new Queen said shortly after she heard that most of the 1,829 students who voted in Wednesday's election had chosen her to reign over this year's Homecoming celebration, Oct. 19 and 20.

"I feel like running to the top of the 'I' and shouting to the whole world!" she said.

Pat, a blue-eyed strawberry blonde, said she was nervous during the election that she had eaten nothing but Jell-o all day. When the final count was in, Pat was ready for a full-course meal.

She had reason to be nervous about the election outcome. In making the announcement of her

victory, Jim Clark, Election Committee chairman, said the race was "very close."

This year's Homecoming Queen likes dancing. "I could dance all night and my feet would never get tired," Pat says. The lovely Queen also likes farm animals, competitive swimming, watermelons and parties.

But she doesn't like math, narrow minded people and people who judge on first impressions.

"And I am snowed by econ," Pat says.

During next week's Homecoming festivities, Pat and her four princesses will welcome alumni back to the campus, ride a special float in the parade and try to make everyone feel at home.

Pat's four princesses include:

**CAROLINE COOPER**  
Cute 5 feet 3 Caroline Cooper is from Templeton. Caroline, a 21-year-old brown-eyed, brown-haired Home Economics Education senior is sponsored by CAPHER Club. Caroline's ambitions are to

teach Home Economics and Physical Education or to be a dress shop fashion buyer and travel.

Minor in Physical Education, Caroline naturally likes all sports, especially swimming. She likes the college and its policies and particularly the opportunity students get to exercise their leadership abilities through the college's many co-curricular activities. She also likes the versatility and wide range of people at the college and the unlimited opportunity to meet them.

**MARIDEL KENNEDY**  
Green-eyed, bronze-haired Maridel Kennedy is from Claremont. A Home Economics sophomore, the 5 feet 5, 19-year-old beauty is sponsored by Circle K Club.

On her list of "likes" she rates top honors to dancing and "oakie stomps," followed closely by water skiing and plays. She is also fond of green—especially green dresses—and small foreign cars.

Her ambition is to be a home appliance demonstrator and eventually a wife and mother.

QUEEN PAT BRIGHT

**PATRICIA PALMER**  
Brown-eyed, brunette Patricia Palmer is from Santa Cruz. Pat, a 19-year-old, 5 feet 8 Elementary Education sophomore, is sponsored by the Crops Club.

Teaching in a rural school district is Pat's ambition. "The proverbial one-room school," she says.

As might be expected with her ambition of rural teaching, Pat loves the outdoors, especially the mountains and sea shore. Also being fond of agriculture and animals, she feels "everyone should have the opportunity to experience nature on a one-to-one basis."

Other "likes" include dancing, snow skiing, tennis, reading and people—especially children. She also likes the wonderful student-faculty relationship that exists on this campus. Her dislikes are forced conformity and the social pressures of big city life.

**SANDY WRIGHT**  
Pet, brown-eyed, brown-haired (Continued on Page 3)

**Livestock Judges Travel to Portland**  
An intercollegiate livestock judging team will compete at the Pacific International Livestock Exposition to be held in Portland, Ore. Oct. 13.

Representing the college will be senior Animal Husbandry majors, Thomas Brazil from San Luis Obispo, Del Clement from Hanford, Thomas Norton from Ashwood, Ore., Clayton Oiler from Day, and Carol Rumsay from Atherton. The team will be accompanied by Richard Johnson, Animal Husbandry instructor and team coach.

The team will compete with other teams from throughout the U.S. in judging 12 classes of beef, sheep, swine and horses.

The team members were chosen from 21 students who participated in a practice session last weekend at the Fresno District Fair.

The Pacific International is the only international livestock exposition on the Pacific Coast and has been held annually for 50 years.

## Cabinet Member Sets Poly Visit

**No Politics In Freeman Stopover**  
United States Secretary of Agriculture Orville L. Freeman will address students, staff and the public in the Men's Gym Tuesday at 4 p.m.

The speech, which will be sponsored by the college's Agricultural Division, will be "non-political," according to Warren T. Smith, dean of the division. It will concern current U.S. farm programs.

"While Mr. Freeman's talk will be of particular interest to students in our agricultural program it will be open to all students and interested persons in the central coast region," Smith said.

A member of the Kennedy administration since the president took office, Freeman has been attempting to "chart a course for the future of American agriculture." His program envisions plans for both commercial and subsistence agriculture.

Freeman's proposals include such concepts as production quotas, marketing orders, land-use adjustments, food-for-peace, rural development, rural renewal, outdoor recreation and vocational training for rural people.

The secretary expects to include most of these concepts in his Tuesday speech.

Freeman, 44, was governor of Minnesota from 1955 to 1961 and has held various positions in the city of Minneapolis during his political career. He is a deacon in the Lutheran church and graduated Magna Cum Laude from the University of Minnesota in 1944.

## Scripps Newspaper Director To Speak

Julius Gius, editorial director of the John P. Scripps Newspaper chain, will speak to Technical Journalism and Printing Engineering and Management students in the Staff Dining Hall at 7:30 p.m. Thursday. Gius's speech will be presented by the Cal Poly Student Press Association as part of the group's activities to commemorate National Newspaper Week, Oct. 14-20. As editorial director of John P. Scripps Newspapers, Gius heads the combined news staffs of seven small to medium-sized west coast papers, six of them dailies and one a twice-weekly.

The chain includes the San Luis Obispo County Telegram Tribune, the Ventura County Star-Free Press, the Redding Record-Breaker, the Concho (Thousand Oaks) News, the Watsonville Register-Pajaronian, the Tulare Advance-Register and the Bremerton, Wash. Sun.

While serving an editorial director of the chain, Gius is also editor of the Ventura paper, the largest in the organization.

Jim Grundman, Press Association president, said all interested students and staff members are invited to hear Gius speak. It is expected that the topic of the editorial director's talk will center around the future of American newspapers.

Gius has had long experience in the field of journalism. He helped start one of the Scripps (Bremerton) in 1935, before it became a part of the organization.

Editor of the paper for 25 years, Gius helped make the Bremerton Sun one of the strongest links in the Scripps chain.

Appointed to the editorial directorship of the organization in 1960, Gius heads a news organization that is unusually liberal in allowing its editors to take independent editorial stands.

In contrast to many newspaper chains in which editors are obliged to follow the lead of the home office in endorsing political candidates and taking stands on public issues, John P. Scripps editors are encouraged to use their own judgment and arrive at their own opinions.

In the 1956 Presidential campaign, Gius endorsed Eisenhower, while the rest of the editors chose Stevenson. He received a note of congratulations from John P. Scripps for taking the independent stand.

"In such an association, and entrusted with such responsibility any man would be a fool to do less than his best," Gius once said.

The Telegram-Tribune will sponsor a coffee hour before Gius speaks Thursday.

**Common Market Talk Fills Theatre**  
"Why should we of California be concerned with the European economic community?" asked J. Earl Coke, vice president of the Bank of America, in an Agriculture Council speech to an overflowed crowd Wednesday night.

In answer to this question Coke stated that one-half billion dollars of the products annually grown in California are exported, and half of that is shipped to Europe.

One hundred eighty six years ago the 13 colonies formed an Economic Community. The goals of the European Economic community which are closely related to the colonies are, 1. to have common internal and external tariffs in the community, 2. to gradually eliminate the tariff barriers of all kinds between the countries, 3. Abolish restrictions on the movement of services, labor and capital, 4. Coordinate the monetary and fiscal policies of the countries, and 5. Ultimately to achieve political integration.

Already the Common Market countries have cut tariffs 50 per cent, and the timetable only called for a 30 per cent cut by this time. Internal quotas have been eliminated, the Green National Product has gained 50 per cent, and labor shortages have developed.

Progress has been made in all phases except agriculture. This field is the real problem in the formation of the Common Market. Because of the large numbers of different price support programs, various levels and kinds of restrictions among the countries, an agricultural program is difficult to realize.

Many U. S. corporations are spending money and time establishing business inside the common market, so they will be within the tariff walls when established.

Many other countries have the desire to join the Common Market, besides the original six.

The U. S. is mainly concerned with the basis and how England gets into the Community, as this country has politically sensitive crops such as feed grains, cotton and rice.

As an example of the results if our market for exports was closed, the 30 per cent of our prunes which we now export would have to be consumed. In other words, when you go into a hotel and order prunes for breakfast, they will give you five instead of four.

As a result of the unification action, if able to eliminate the factors, the standard of living in the countries would be raised. We should be for the Common Market for no other reason than to increase the standard of living of the people in this area.

Also this unification would serve the countries which are "at each other's throats" could live peacefully. It would be an advantage to the world.

"In my lifetime, due to the commitment we need to retain, I see no opportunity for the U. S. to join the Economic Community. The answers to the problems in the formation of this community you will have to answer," stated Coke.

## Coronation Ball Features Jimmy Dorsey Orchestra

This year's Fall spectacular, the Coronation Ball, will provide world renowned musical entertainment with "The Fabulous Jimmy Dorsey Orchestra," featuring singing star Jackie Good, under the direction of Lee Castle. Held in the Men's Gym Sat. Oct. 20, the ball will last from 9 p.m. until 1 a.m. Dress will be semi-formal. Lee Castle, hailed as one of the best trumpet players in the country, has often been called "Mr. Trumpet" and "Prince of Trumpets." When Castle decided to play professionally, he started with Joy Hyams band and from there went to the better known bands of the day, such as Artie Shaw, Glenn Miller, and Tommy Dorsey.

Dorsey immediately noticed the potential talent of Castle and insisted that he leave Pennsylvania to study with the "Kaplan Dorsey." He spent a great deal of the next few years studying under the Dorsey name, and became so popular with the family that they accepted him as their "third son."

When the call finally came for the Dorsey boys to again join forces, Tommy and Lee both disbanded their organizations and joined with Jimmy to create a new group known as "The Fabulous Jimmy Dorsey Orchestra." Lee became the musical director and featured trumpeter of the group. Even though many talented performers achieve stardom in show

## Leadership Confab Tickets Available

Tickets are still available for this year's Fall Leadership Conference which will be held Oct. 26, 27, and 28 at Camp Ocean Pines near Cambria.

The conference, which will have as its theme "Apathy and the Wave of Student Disinterest in Campus," will include both student and faculty-student discussion groups, according to Sam Burke, conference chairman.

Registration fee for the conference will be \$2. There will be an extra charge of \$5.00 for students who do not have Cafeteria meal tickets.

Burke said the College Foundation took a \$668.13 loss at last year's conference because of the expenses involved in hiring cooks and dishwashers.

"This year the Foundation estimated costs would come to \$240, which has now been included in this year's conference budget he said.

"We feel the theme of this year's conference will be more concrete and practical than the themes of past conferences," Burke said.

According to Burke, a maximum of 140 students will be allowed to attend this year's conference and that ticket sales are "going very well."

The event will mark the 11th Fall Leadership Conference conducted by Cal Poly students.

## SAC REPORT Bragg Wants Evaluation, Improvement Of Criteria In Homecoming Election

Student Affairs Council decided Tuesday night to investigate the criteria on which candidates for Homecoming Queens are selected and to evaluate this year's election to ascertain whether improvements can be made. Action came on the contentions of a few members that many students were dissatisfied with this year's selection of candidates. The vote for investigation was unanimous.

"This doesn't mean that SAC necessarily agrees with this contention," said Jim Clark, ASB vice-president. "We just want to know what the criteria are and how much weight was put on each quality."

Senior Class Representative Tom Bragg, brought the candidate selection to the council's attention with this year's matter of Homecoming Queen candidates.

"But the problem doesn't seem to really be the candidates; it's the criteria on which they were selected," Bragg said. He said some students told him they felt too much emphasis was placed on personality and looks and not enough on other qualifications.

"The students felt appearance was secondary," Bragg said. The senior class representative said he felt most of the problems lay in the fact that Homecoming Queen candidates qualification had not been publicized.

The candidates were selected by a committee of four students and three faculty members. There was no provision for written votes on Wednesday's ballot.

But the criteria for selecting candidates to run for queen wasn't the only complaint about Homecoming aired at SAC Tuesday night.

John Eggers, Poly Royal board chairman, said he had talked with students who felt that it wasn't fair of some of the yell leaders to promote one candidate at last week's football game with San Fernando State.

Associate Dean of Activities Dan Lawson said the students who had carried the banners for the candidate (Pat Bright) were members of Rally Club and not the Associated Student Body-sponsored Rally Committee.

He said about the only kind of protest that could be launched on the students' actions would be "one of poor judgment."

## Easy To Win \$100 In Decal Contest

Alumni decal contest closes at 5 p.m. Wednesday, Oct. 17, and according to the Cal Poly Alumni Association National Secretary, Owen Servatius, only a few entries have been received.

The designs do not have to be professionally done, he reminded, and it is a quick and easy way to pick up \$100. Entries should be turned into George Haselein, head of Architectural Engineering.

## Aero Engineers Outline Projects

Outlines for 18 proposed senior projects were submitted by 27 Aeronautical Engineering students earlier this month. The outlines mark the formal beginning of the projects which are due April 19, 1963.

The list of projects includes construction of a Rogallo wing, fuel injection system for an aircraft engine, liquid and solid fueled rocket engines, hypersonic wind tunnel, and reports on space and hypersonics.

## Off Campus Permits Due

All unmarried females under the age of 21 and living off-campus are required to turn in permits of parental consent, warns Arlene Volkoun, associate dean of women.

Women living with their parents are exempted. Permits may be obtained in AgEd 101 at the reception desk in the Counseling Center.

**FROSH-SOPH BRAWL**  
Don't forget the Soph-Frosh Brawl tomorrow at 10 a.m. on the Track Field.

## December Deadline For ASB Budgets

ASB budgeted groups are requested to turn in budgets on or before Dec. 3. It was announced today by Lee Foreman, Finance Committee chairman.

"In the past, budgets have been due in January," says Foreman, "but this year we would like to get a head start, and this additional month of dead time (Christmas vacation) is just what we need."

Budgets should be turned into Graduate Manager Bob Spink. Forms and additional information are available in the ASB office.

## Poly Float To Vie For Fresno Trophy

Poly will be well represented at Fresno State's Homecoming Parade tomorrow with a float that depicts the Mustang spirit and confidence in the outcome of the game.

Rally Committee, under the chairmanship of Mac Dyer, has spent a week constructing the float which was built in a pre-fabricated state so that final touches can be applied in Fresno before the parade. An allotment of \$198.80 was granted by Students-Affairs Council for the construction of the float.

In keeping with the Fresno Homecoming theme of "Building Rodeo," the Poly float depicts a rodeo arena with a Mustang chasing a Bulldog.

"Two years ago Poly brought home the trophy for the best float in the parade and we'd sure like to do it again," commented Dyer. "This year's float is twice the size of any we have ever before entered," he added.

Approximately 100 Rally Committee members and pledges are going to the game in a group and will be setting up an organized routing section.

A 1000 seat routing section has been reserved for visiting Poly students and an open invitation to the Coronation Ball has been extended.

Admission to the game will be free with an ASB card.

## Thief Advertises; Horse Head Stolen

An anonymous letter from a horse rustler early this week informed El Mustang that our mascot, "Musty the Mustang," a paper-mache horse head worn by a cheer leading roster at the football games—is missing.

The letter, signed "The Horse's Tail," said that the purpose of the theft was to bolster the game enthusiasm that they felt was missing since Musty ceased appearing. Ransom price is set at 100 per-cent school spirit.

According to Musty's captors, the "other end" and fans at the Fresno game will be satisfied only if the school spirit quota is met.

Born in 1959, the mascot head was to be a lasting tradition to the campus. However, when he failed to appear recently, inquiries were made and he was located and kidnapped.

## WELCOME TRAINEE

Among the first Peace Corps trainees to arrive on the Cal Poly campus early last night was Beverly Bowie of Cumberland, Md. She is shown being greeted by J. Cordey Gibson, Cal Poly's assistant dean of agriculture and director of the Peace Corps program on campus. She was among a group of 12 trainees who arrived yesterday. More than 50 additional trainees were to arrive on campus today.

## Girl Crazy Columbus

Celebrating today is the umpteenth annual Columbus Day in a manner probably not unlike what old Chris and his crew would have done had they been Natchez (Gorbiteiko, Home Economics major from San Francisco, are (l to r) John (Cum, Business major from Belvedere and Steve Canada, Aeronautical Engineering major from Monterey. The three wish to remind all of the College Union Drama Committee's "Girl Crazy" musical slated for December production. (Photo by Norum)

## Dairyman Receives \$600 Scholarship

James R. Seiler, Dairy Manufacturing major from Elk Grove, has been named the recipient of California Dairy Industries' \$600 scholarship award.

As an outstanding senior student, Seiler will receive three \$200 payments each quarter for the 1962-63 college year.

He is an active participant on the Dairy Products judging team and Dairy Club. He has also served as the Poly Royal chairman for the Dairy Manufacturing department.

Seiler is also the recipient of a \$100 Harmony Valley scholarship.

Statistics released by the ladies Pacific Golf Association late in August showed Mickey Wright to be the leading money winner. She had collected \$14,137 and had won seven tournaments.

### Do You Believe That Peacetime Conscription Should End?

Carl Schubert, Architectural Engineering... "I don't believe it should. I feel that every man should do what he can for his country. It's not what your country can do for you, it's what you can do for your country. The armed services is a place for an individual to mature and discover fundamental values. It would be impossible to maintain armed forces by volunteers, so for common defense the draft is necessary."

Brenda Bonin, Elementary Education... "I believe that it should be continued, but it should be more loosely applied to the needs and goals of the individual. More consideration to the college student should be shown. It shouldn't be dropped because many presently don't voluntarily join. Many have the prospect hanging over their head, but for the good of the country and to remain with a maximum defense force, they should do their part."

Penny Phillips, Elementary Education... "I don't believe it should. We've been at war against communism since the last war and we should keep at military preparedness. The draft, plus education, is one way of doing this."

C. K. Allen, Architectural Engineering... "It's essential that the U.S. maintain a strong military force, the draft is one way of doing this. It's necessary for us to maintain the strongest military readiness now for an eventual workable peace in the arms race in the future."

Chick Goss, Elementary Education... "I think the draft should be continued, because the majority of the male population today won't volunteer and everyone should do their part. The service does them good and most of them could use the experience."

## X-CHANGE

By BETSY KINGMAN

**SAN JOSE STATE COLLEGE**—Any change of name for state colleges will have to be done on an individual college basis unless there is widespread support for a uniform state college designation, Louis Heilbron, Board of Trustees chairman, stated.

"If colleges indicate a desire for a name change," Heilbron said, "The board would consider it. On the other hand, if a name change is not desired, the board does not intend to initiate one on its own."

Spartan Daily

**SAN FRANCISCO STATE COLLEGE**—Jefferson Poland, a candidate for Representative-at-Large, has based his platform on birth control. Among other policies, Poland believes the bookstore should sell contraceptives at a discount and the Student Health Service should make information and counsel on contraception readily available to students. Poland has had experience in the Southern Civil Rights movement, three sit-ins resulting in two arrests, expulsion from college, the AFL-CIO, peace activities and the Student Senate at Florida State University.

Golden Gate

**FRESNO STATE COLLEGE**—"Wishing you the best of luck in the game." By itself — not very comforting, but with the signatures of about half the student body at a cost of 10 cents apiece, this short note offers untold encouragement to the FSC football team. The practice of sending an encouraging telegram to the team when they're on the road began last year, a telegram was sent and a game was won.

The Collegian

**FRESNO STATE COLLEGE**—Student runners carrying torches from the Oregon and Mexican borders and meeting in Fresno are part of tentative plans scheduled by California college students in support of the bond issue Proposition 1A.

The Collegian

**COLLEGE OF SAN MATEO**—The public image of students has switched from the "silent generation" of the '50's to the "articulate generation" now. Katherine A. Towle, dean of students at the University of California, believes.

A great majority of the articulate ones are not the extremists, Dean Towle said. Although the "sandal set" of student fringe political groups has been highly publicized, the majority are seriously and constructively concerned with the community and world beyond the campus, the dean asserted.

The San Matean

**HUMBOLDT STATE COLLEGE**—In a move to restore tranquility to HSC dormitories, Housing Manager Jack Altman has issued orders that Redwood Hall residents who own guns must check their hardware at the corporation yard. Authorities caused a minor controversy last spring when they ruled that firearms would not be permitted in the dorms. The ruling resulted when furtive marksmen shot out two lights in the dormitory quadrangle.

Lumberjack

**FRESNO STATE COLLEGE**—Western dress will be acceptable attire Friday, according to Sue Kolby Houser, president of AWS. In order to generate spirit for the big clash, FSC coeds will be allowed to come in their levis, ten-gallon hats, and the like.

Collegian

## Motorcycle Scrambles At Atascadero

Atascadero Speedway will host two motorcycle scrambles this weekend. Top feature will be the California Central Coast Championships for heavyweight machines.

Racing will begin 8 o'clock Saturday night with a regular scramble at the Speedway, located six miles south of Atascadero on the old 101 highway.

Sunday at 1 p.m. the races will begin with from 75 to 100 riders coming from Salinas to Bakersfield. Among the local competitors in both events will be several members of Cal Poly's Penguins Motorcycle Club.

Championship classes will include beginner, amateur and expert riders on 350cc, 500cc, and open class machines. Trophies will be awarded winners.

Admission for either race will be \$1.50 per person or \$1 with student body card. A combined ticket for both events will be \$2.

According to officials of the sponsoring San Luis Obispo Trailers Motorcycle Club, several nationally-known professional racers will compete, including Wayne Sumner, Sid Hayne, and Clark White. White nearly won the AMA National TT Championship at Ascot Stadium in Los Angeles last week before mechanical trouble dropped him from the race.

## Bio Science Reaches New Enrollment High

The largest enrollment in Biological Science Department history was achieved this quarter with 204 students. This is an increase of 40 students over last year's 164 enrollment, reports Dr. Glenn Noble, department head.

Class breakdown of students shows there are 28 seniors, 44 juniors, 42 sophomores, 63 freshmen and 7 limited students.

Wear a sport coat and tie to the Fresno Game.

## Scholarships Available For European Summer Jobs

The first 1,000 students applying for summer jobs in Europe will be offered from \$10 to \$175 by the American Student Information Service, the only official authorized organization placing American college students in summer jobs in Europe on a large scale.

Summer jobs in Europe include factory work, resort-hotel work, farm work, construction work, office work, hospital work, child care and camp counseling. Jobs are available throughout Europe and wages range from \$175 a month for the highest paying jobs in Germany to only room and board in Spain.

Jobs are offered in conjunction with package arrangements costing from \$180 to \$700. Among

other things, each applicant is provided with an album of the language records of the country in which he will be working, a student pass allowing the bearer discounts throughout Europe, complete health and accident insurance coverage and a choice of tours ranging from six to 24 days.

Although ASIS offers complete scheduled jet trip flight, students are free to make their own travel arrangements. ASIS expects that many students participating in college charter flights will also want summer jobs in Europe.

For a complete 20-page program, contact the placement office or write directly to ASIS, 22 Avenue de la Liberté, Luxembourg City, Grand Duchy of Luxembourg. Enclose 20 cents for airmail reply.

## Our future is in the hands of men not yet hired

At Western Electric we play a vital role in helping meet the complex needs of America's vast communications networks. And a career at Western Electric, the manufacturing arm of the nation-wide Bell Telephone System, offers young men the exciting opportunity to help us meet these important needs.

Today, Western Electric equipment reduces thousands of miles to fractions of seconds. Even so, we know that our present communications systems will be inadequate tomorrow, and we are seeking ways to keep up with—and anticipate—the future. For instance, right now Western Electric engineers are working on various phases of solar cell manufacture, miniaturization, data transmission, futuristic telephones, electronic central offices, and computer-controlled production lines to name just a few.

To perfect the work now in progress and launch many new communications products, projects, procedures, and processes not yet in the mind of man—we need quality-minded

engineers. If you feel that you can meet our standards, consider the opportunities offered by working with our company. In a few short years, you will be Western Electric.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6206, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

**Western Electric**

J.; Teletype Corporation, Natick, Mass.; and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 36 cities. General headquarters: 195 Broadway, New York 7, N. Y.

# HOW TO BE RICHER THAN YOU ARE

(Starting October 1)

Does that sound like a come-on? It is. It's an invitation to come on and join the many who are already richer because they read The New York Times regularly.

Starting October 1, The New York Times will be available on campus for the first time. A Western Edition will be printed in Los Angeles every weekday morning simultaneously with the New York edition—and delivered to you the same day—for only 10c a copy.

You'll find The New York Times a wonderful way to enrich your college days and studies—because The New York Times is richer in the news and information it supplies you about Washington, national and world affairs—as well as the world of sports, fashions, entertainment and the arts.

You'll find your conversation richer, your understanding deeper, your chances brighter to achieve the goals you set for yourself. See your campus representative today to enjoy convenient delivery of The New York Times throughout the academic year.

Starting October 1

CU 'Club Indigo' Stated For Tonight

Strains of folk music will be filtering from the Staff Dining Hall tonight as this year's first "Club Indigo" gets underway. Sponsored by College Union, the "coketall night club" will be open from 9:30 p.m. to 1 a.m. and will feature the entertainment of "The Eddystone Singers."

Dancing will be to the mellow music of the Ross Sears Band and refreshments will be available. Tickets may be purchased at the ASB office or at the door for \$1 per couple.

Oops, Jenkins Was Missed

Dr. Eli Jenkins was omitted from the list of new instructors in the Applied Arts Division which appeared in last week's El Mustang.

A very unpopular cranky old woman was bitten by a mad dog and was advised by her lawyer to make a will because there was a possibility of robbery. She demanded paper and pen and wrote furiously for two hours. "It looks like an unusually long will," her lawyer said. "Will? Who's writing a will?" she snapped. That's a list of people I'm going to bite."

GLIDDEN PAINT CENTER 894 Foothill Blvd College Square Shopping

PLACEMENT OFFICE INTERVIEWS

Monday, October 15 CUTLER-HAMMER, INC., Los Angeles Mr. Kenneth L. Smith, District Sales Manager, will interview seniors in EE, IE, and ME for positions in the field of sales engineering.

Monday, October 15 CARRIER AIR CONDITIONING COMPANY, Los Angeles Mr. John A. Morse, Jr., Western Regional Engineering Manager, will interview seniors in AC&R, Arch (structural option), EE, IE, and ME for engineering careers in application, sales, construction, service, manufacturing, product, and research.

Monday, October 15 DOUGLAS AIRCRAFT COMPANY, INC., Santa Monica and Long Beach Representatives from the Aircraft Division and the Missile and Space Systems Division will interview seniors in AC&R, Aero, Arch (structural option), EE, IE, Math, ME and Physical Sciences (physics) to engage in research, analysis, design, development, laboratory and flight testing of aircraft, missiles, space vehicles and their associated systems.

Tuesday, October 16 FEDERAL AVIATION AGENCY, Los Angeles Mr. Frank J. Daily, Chief, Recruitment and Examining Branch, will interview seniors in Arch (structural option) EE, and EL.

Wednesday, October 17 SOCIAL SECURITY ADMINISTRATION Mrs. Arlene P. Herzig, District Manager, will interview seniors in all majors for Claims Representative positions. Vacancies may be located in any of the sixty odd district offices in the West Coast region, including Hawaii and Alaska.

Thursday, October 18 HUGHES AIRCRAFT COMPANY, Los Angeles Mr. Edward R. Beaumont, Professional Personnel Representative, and Mr. Paul Lange, Supervisor, Engineering, will interview seniors in EE, IE, and ME.

Thursday, October 18 PACIFIC GAS AND ELECTRIC COMPANY, San Francisco, Mr. T. V. Adams, Director of Employment and Placement, and Mr. L. A. Oliver, Employment Representative, will interview seniors in EE, IE, and ME for training programs leading to employment in system planning, design, analysis operations, construction, and sales.

A free copy of the College Placement Annual for 1963 is now available for seniors in the Placement Office, Administration 203. Published on a non-profit basis as a service to college and university seniors, graduates, students and alumni of the United States and Canada, the College Placement Annual presents the occupational needs normally anticipated by the more than 1800 corporate and governmental employers included. Distributed without cost by the major college placement offices of the two nations, the publication serves the dual purpose of providing the student with data concerning firms which ordinarily recruit on the campus as well as alerting him to the full range of opportunities in business, industry, and government service. The annual will be held until the close of business, Friday, October 17, 1962.

Medical I. D.'s Ready

"Students should pick up medical identification cards at the Health Center if they have paid the optional medical fee," Dr. Billy Mounts, Health Center medical officer announced today.

gort

Old friend, comrade, companion and erstwhile associate, GORT!!

Breath! You old knave! What on earth have you been up to?

...other than drinking.

disgusting!

Go on... tell me about yourself!

Well, first and foremost, I have imbibed a few! Other than that, I've published a book of poems, written three plays, and discovered that I'm not.

HARSHMUT!

What sits that chap?

A productive drunk is the basis of all moralists.

Is Sunday A Drag? You Can Join Dance Group In Crandall Gym

Want something to do on Sunday afternoons? Why not drop by Crandall Gym and join the fun and dancing?

Every Sunday afternoon between 1 and 6 o'clock there is round and folk dancing for international and American students. It is not a class or club, but a group of students interested in learning more about the ethnic dances and the rest of the world. Its purpose is to acquaint foreign students with American dances and to make students from abroad feel more at ease with our culture.

Ray Hesse, supervisor of the maintenance department on campus, and his wife, Shirley, sponsor the weekly event. They have both done volunteer work for hospitals and the Community for many years.

Shirley is known by the name of "mamji" which means mother. On Ray's car is written in Panjabi the words "Our home is your home." They welcome all students to their home which is always an "open house" and is considered by many foreign students as their "home away from home."

New Foundry Expands I. E. Department

The Industrial Engineering Department's expanded metal casting and forming facilities in the Graphic Arts building have enabled other engineering departments to schedule this year a course for freshmen.

The addition of the new course metal casting, to the courses of the processes program completes the engineer's introduction to the basic metal-working processes.

Permanent shell molding and investment casting processes—methods of providing molds to shape molten metals—are included in the foundry course with conventional sand molding.

Homecoming Queen

(Continued from Page 1)

Sandy Wright is from Downey. Sponsored by the Agricultural Business Management Club, 19-year-old Sandy is a Home Economics sophomore.

Sandy's immediate ambition is to join the Peace Corps for South America and teach Home Economics.

Her "likes" list includes swimming, dancing, music, activities and "cooking and all domestic chores." She likes the casual atmosphere of the college and its friendliness and acceptance of all people.

Veterans To Benefit From Disability Law

Veterans with either a service-connected kidney disability or a service-connected loss of sight in one eye may benefit by a law passed by this session of Congress and signed by the President recently, Mort Webster, Manager of VA's Southern California Regional Office, pointed out.

The new law authorizes the VA to grant a total service-connected disability rating for the payment of compensation to any veteran with service-connected blindness of one eye who loses the sight of the eye in a like situation, the new law authorized the VA to grant a total service-connected disability rating for the payment of compensation to any veteran who lost the use of one kidney from a service-connected cause and who sustains a severe involvement of his remaining kidney not related to his service.

Mailbag

The Early Bird Gets ...

Editor:

Three cheers for the fellow who wrote in about the hours of the dining hall. I agree with him wholeheartedly. I am very pleased with the new change in hours which the Foundation made, but would like to suggest that the Dining Hall consider extending the hours for breakfast on the weekday mornings.

A friend who works during the breakfast line in the cafeteria mentioned that very few people come in between 8:30 a.m. when the doors open and 7:10 a.m. when the crowds come in.

It seems to me that it would be much better and definitely more convenient for those students who don't have early classes if they would reapportion the hours to be more appropriate for the majority of students. I've heard quite a few hungry students grumbling because they were denied service on their meal tickets after 8:15 a.m.

I would like to suggest that the Foundation consider opening the dining halls for service at 7 a.m. and continue to serve at least until 8:30 and possibly 8:45 a.m.

MARY LUCY HOTTELLING

Beat the Bow-Wow's

Editor:

This is an open letter to the student body of Cal Poly.

Recently a letter was sent by Fresno State to Mac Dyer, Rally Committee chairman, inviting us to their Homecoming game and Coronation Ball. The invitation, in part, read as follows:

"To make you feel at home, we have decided on the theme of Bulldog Rodeo. We hope to carry out the theme as much as possible and we are asking your help. The dress for the game will be western and I am sure you will have no trouble following through."

Is this a dig? Or is it? Fresno has offered a challenge. Are we going to accept it?

Are we going to wear our western duds to the game and Coronation Ball? No! Instead, Rally Committee has asked us to dress up for the occasion. That means suits and ties for the fellows and dresses for the coeds. They are expecting a thousand of us, let's make two thousand.

Let's support our team and college and really let them know that they are tops. Come on MUSTANGS and let's knock those bow-wows to their knees.

A RALLY COMMITTEEMAN

Flying Club Slates 'Wings To Alaska'

Mustang Flying Association, Inc. will hold its first club meeting on Tuesday Oct. 16, at 7:30 p.m. in Adm. 206. All new and interested students are invited to attend. Officers and members will explain the club's membership, rules and finances.

For entertainment a film "Wings to Alaska" will be shown. The club also announces a new addition to its fleet, an Aerona Champion 7AC. The plane is being purchased this weekend and will be used for instructing new students in the art of flying. The present ship, a Cessna 120, is used for advanced training in instruments, for precision maneuvers, and radio instruction, including cross-country work.

With two planes in the flying club the members are able to fly a variety of aircraft to add to their experience.

The officers of the club are Brent Jobs, president; Woody Fowler, vice-president.

Pall Mall Presents - GIRL WATCHER'S GUIDE

WHITE-COATED LAB-LOON

CAMPUS TYPE II

Don't let this girl's costume fool you. She's not really a mad scientist. She's a girl—a real, live girl. It's just that she has to prove something—to herself and to her family. She has to prove that she has a brain and that, if she ever has to compete with men on their own terms, she can do it—and win. But she really doesn't want to compete with men. In her heart she wants to attract men and eventually, marry one. The girl watcher should not let this situation disturb him, however.

If the girl is watchable, she should be watched, no matter what her motives or ambitions may be. The same thing is true of a cigarette. If it's smokeable, it should be smoked—and Pall Mall is the most smokeable of all!

Pall Mall's natural mildness is so good to your taste!

So smooth, so satisfying, so downright smokeable!

© 1962 Product of The American Tobacco Company "Relax—in our mildness"

# Mustangs, Bulldogs Tangle Tomorrow

## Fresno Seeking Sixth Straight CCAA Crown

Following an impressive 38-7 win over San Fernando Valley State in a league contest last Saturday, the Cal Poly Mustangs will face their toughest opponent of the year tomorrow when they meet Fresno State in Fresno at 8 p.m. The Mustangs will meet the defending CCAA champion Bulldogs in the Fresno Homecoming game before an anticipated crowd of 14,000 in Radcliffe Stadium. Cal Poly currently holds a 1-2 record with losses to San Diego State and the San Diego Marines while the Bulldogs have a 2-1 season mark with wins over Whitworth College and UC, Santa Barbara.

The Bulldogs' only defeat came last weekend when they were beaten 21-14 by Abilene Christian to end a 13-game winning streak. Prior to the defeat, the highly-touted Bulldogs had been rated the second best small college grid squad.

Offensively, the Bulldogs are in top condition as they have tallied 98 points in the three contests this season. They are led by quarterback Beau Carter and John Anabo. Anabo made Little All-Coast while Carter led the CCAA in total offense last season. On the line, the powerful Bulldogs boast two All-CCAA players in Monte Day and J. R. Williams.

The Bulldogs also boast a total of 16 returning lettermen from last year's CCAA championship team which coasted to a 10-0 mark and trounced Bowling Green in the Mercy Bowl last Thanksgiving in the Los Angeles Memorial Coliseum.

Fresno Head Coach Cecil Coleman utilized two units. A red squad operates the first seven and one-half minutes of each quarter and then the blue unit comes into the game to play the remaining seven and one-half minutes.

Mustang Coach Sheldon Harden, impressed with the performance of Wayne West, Jim Ramos and Jim Fahey in the game against San Fernando, will send a rough and ready squad against

## Colts Eye Second Win; Face San Jose Jayvees Today

The Cal Poly Colts will take to the gridiron at 2:30 p.m. today in an effort to defeat the San Jose State JV squad and put another notch on their 1-0 record.

Opening at quarterback for the Colts will be Dick Eschbach who was second-string signal caller for the Marines last season and showed some very fine moves last week as the Colts defeated the Fresno State JV's 25-7.

Coach Vic Buccola was pleased with his squad's effort last week and impressed with his quarterback's ability to lead the team. He commented that the speed in his backfield played a big part in the victory.

Stated to start in the backfield with Eschbach are John Davis from Edison High in Fresno at fullback, Dan Cathy at left half from South Gate High School, and Gunn Page from LaGrande, Ga. where he was selected to the all-state team at halfback.

Up front at the end positions

## Intramural Football Leagues Underway

The intramural football season opened Tuesday, kicking off what promises to be the most extensive intramural program ever held.

Intramural Coordinator Vaughan Hitchcock has tentatively set up a league competition program for badminton, basketball, football, handball, softball, table tennis, tennis and volleyball. Tournaments and meets are to be scheduled for swimming, track and wrestling.

The team that wins each sport, including those teams that finish in the top four spots, will receive points. The organization that attains the highest number of points for the entire year will be crowned All-College Intramural Champ.

The next competition this quarter will be in table tennis doubles and badminton doubles. Play begins on Wednesday, Oct. 17, with the last day to enter being Tuesday, Oct. 23.

The basketball free throw contest and novice wrestling tournament are also planned. Entries for both of these events open Oct. 15, and competition will begin Oct. 22. Hitchcock encourages organizations to enter teams for the wrestling tournament.

A new event proposed by Hitchcock is the turkey trot. Scheduled just before Thanksgiving, it will pit teams of runners on a distance race, with the winner being the first team of 10 to cross the finish line. The prize will be one turkey—of course, alive.

Next week's touch football schedule is as follows:  
Monday League, October 15  
4 p.m. Muir Woods vs. Tanaya no. 8  
Crops Club vs. Canterbury Hall  
5 p.m. Air Conditioning Club vs. Dairy Project, Judges House vs. Poultry Club

Tuesday League, October 16  
4 p.m. Shasta Male vs. Plumas Pandas  
Fremont no. 2 vs. Lassen Hall  
5 p.m. Fremont Heights no. 3 vs. Crops House, Sequoia Woods vs. Animals United.

Wednesday League, October 17  
4 p.m. 344 California vs. Muir Hall  
Parsons Mower vs. Tanaya no. 1  
5 p.m. Palomar Pirates vs. Sequoia no. 1  
Industrial Engineering Club vs. Fremont First Floor Friends.

Thursday League, October 18  
4 p.m. 49ers vs. Mat Pina Pl  
Tanaya no. 2 vs. Tehama  
5 p.m. Sheep Unit no. 1 vs. Diablo Hall  
Deuel Hall vs. Collegiate

## Three Starters Returning As Hoop Practice Begins

Varsity and frosh basketball practice opens Monday at 4 p.m. with coach Ed Jorgensen welcoming back three starters from last year's squad plus his number one alternate.

Returning are Bob Horwath, All-CCAA guard; forward Ken Anderson and center Bob Wilnot. Lawson Maddox, a letter winner at guard, is expected to move up to a first string spot.

Also returning are Dave Howard, Ken Johnson and Jim Huson.

The varsity will get some help from junior college transfers this season, notably from Glenn Cooper, a 6-8 center from Hartnell—and a 6-8 forward from two years ago. Also sure to be heard from are Mike Ferguson, a 6-1 forward from Oakland City College; Mario Peule, a guard from College of Sequoia; Jack Bangs, a guard from Ventura JC; and Mike Williams, a guard from Palomar.

In addition to transfers, 1961 frosh members back to help include Bill Weger, Bill Frouit, Tom Stammer, Curtis Perry, Bob Meacham, Bob Davis and Paul Wertz.

The Mustangs open their season Nov. 30 at San Francisco State. The team will compete in the Cal Western Tournament in San Diego and the Chico State Christmas Tournament, where they are the defending champions. At the San Diego tournament they'll compete against four college teams, including Whittier and Westminster of Utah, and four service teams.

Planning the first meeting's activity were the club's new officers: Carol Orona, president; Kathy Albee, vice-president; Cheri Francis, secretary; Jeanie Glenn, treasurer and Mary Bransuela, hospitality chairman.

Mrs. William Hicks, Poly Wives Club president, will be the guest speaker.

A "Get Acquainted Coffee Time" will be held for all wives of PE majors on Tuesday, Oct. 16 at 7:30 p.m. in the home of Dr. and Mrs. Robert Mott, 110 Kentucky Ave.

Tomorrow's match will be a CCAA event with the Mustangs currently supporting a 1-0 conference record.

Top starters for the Mustangs

include Frank Brooks, Jeff Capel, Roger Mobad, Bob Murr, Roger Svendsen, and Jim Wilson. Leading scorer in the first two contests is Wilson with 11 points.

Coach Richard Anderson's water polo team meets Fresno State College tomorrow at 4 p.m. in the Bulldog's home pool. Cal Poly won its first two contests with Santa Monica CC and San Diego State College by considerable margins, but were expected to face a rough foe last night when they hosted the Falcons from El Cerritos Junior College.

Beginning Monday practice will be held five days a week at 4 p.m. Anyone interested in playing report to Coach Jorgensen.

## Mermen Battle FSC Tomorrow

Coach Richard Anderson's water polo team meets Fresno State College tomorrow at 4 p.m. in the Bulldog's home pool. Cal Poly won its first two contests with Santa Monica CC and San Diego State College by considerable margins, but were expected to face a rough foe last night when they hosted the Falcons from El Cerritos Junior College.

Tomorrow's match will be a CCAA event with the Mustangs currently supporting a 1-0 conference record.

Top starters for the Mustangs

include Frank Brooks, Jeff Capel, Roger Mobad, Bob Murr, Roger Svendsen, and Jim Wilson. Leading scorer in the first two contests is Wilson with 11 points.

## CCAA ROUNDUP

California Collegiate Athletic Association football followers are anxiously awaiting the night of Oct. 27 when the current leader, San Diego State, takes on the conference dominator of past years, Fresno State.

The Aztecs from San Diego are currently riding in the top spot with a 3-0 record and have only the Bulldogs and San Fernando to play following this week's game against the Gauchos from Santa Barbara. Fresno has played only one conference game in which they humbled Santa Barbara, 36-0.

Cal Poly and UC, Santa Barbara are tied for the third position this week as they both support 1-1 records. Actually Cal Poly is a little ahead as they have scored 52 points to the Gauchos 23 digits.

In the fifth spot are the Long Beach State 49ers with an 0-1 record while the Diablos from Los Angeles State are riding in the bottom spot with an 0-2 conference mark.

A new event proposed by Hitchcock is the turkey trot. Scheduled just before Thanksgiving, it will pit teams of runners on a distance race, with the winner being the first team of 10 to cross the finish line. The prize will be one turkey—of course, alive.

Next week's touch football schedule is as follows:  
Monday League, October 15  
4 p.m. Muir Woods vs. Tanaya no. 8  
Crops Club vs. Canterbury Hall
