### BUB, TRAVIS RETURN

## Folk Singing Duo Arrives; Will Perform Tomorrow

Bud and Travis, nationally famous folk-singing duo, returning to campus for the first time in two years, will appear in the Men's Gym at 8:30 p.m. tomorrow. The duo's highly successful repertoire of songs and between-songs humor will feature numbers from a dozen different countries.

The modern style folk singing developed by Bud and Travis has rocketed them to national popularity. Included in tomorrow night's program will be many of the songs that have put the group on top of the best seller list, including "Sloop John Bee."

playing folk-singers in three different categories: "Most Promising," "Most Played," and "Favorite."

Bud and Travis have widely different backgrounds, but one basic thing in common.

On matters musical they are unanimous.

This is rather strange, considering that one was an artillery battery commander in Korea, the other an outstanding anthropology student who was made a member of the Yaqi Indian tribe. He is the only white man ever to be so honored.

After Korea Bud performed as a single, as did Travis, though hundreds of miles apart. It was only when Bud visited Travis' brother, an army buddy, in Arizona, that he met Travis.

Some months later in San Francisco, where the boys were appearing at different night clubs, they met again, had coffee, and talked "music." In fact, they talked music for three days, before they even tried to work out together the musical theories they had been discussing.

The formula must have been right.

Almost overnight the partners became the talk of the music world and were hailed by press, public, music magazines and top musicians as the outstanding musical duo in the country. Yet they do not fall into any of the usual categories, either as instrumentalists, singers, comedians, folk singers or jazz singers.

They're just Bud and Travis.

HUD & TRAVIS

Tickets are available in the ASB office for \$1.50 general and \$2 reserved for student body card holders. \$2.50 general and \$3 reserved for non-card holders.

"We were never apart," says Bud, "physically maybe, but not mentally," he continued in explanation of their recent 18 month absence from the world of music.

"We just needed a rest," says Travis, "just too much work. Now happily — we've resumed our partnership."

Before their separation, their most outstanding honor was the 12th Annual Disc Jockey Poll in Billboard Magazine. American deejays selected the guitar-

### Aggie Teams Place High At Portland

Intercollegiate judging teams took first, second and third place at the Pacific International Livestock Exposition held recently in Portland, Ore.

The dairy cattle judging team placed first in competition with six other western college teams. The team was high in both Jersey and Guernsey cattle judging third in Brown Swine, and first in reasons given on their placings.

George Nunes, Dairy Husbandry sophomore from San Rafael, finished high individual overall. Other team members were Ralph Loya, Animal Husbandry sophomore from Lemore and Louis Souza, sophomore Animal Husbandry major from Riverdale.

Dairy products judges placed second overall, one point behind the leading team. A first in milk and butter judging, second in cottage cheese and ice cream, and a third in Cheddar cheese placing was taken by the team.

All three members place within the top six individuals overall. Leading was Dennis Hill who took high man in the products judging by winning one second and three fourth places.

Third place in livestock judging went to the Cal Poly team. Leading the quietest was Del Clement, senior Animal Husbandry major from San Luis Obispo. He was fifth overall and high individual in Thoroughbred Hunter judging.

The team placed tip in Red Angus judging. Other team members, include Tom Brazil from San Luis Obispo, Tom Norton from Ashwood, Ore., Clayton Oilar from McArthur, and Carol Ramsey from Abertown. All team members are senior Animal Husbandry majors.

The teams are now "bonning up" for the Grand National Livestock Exposition to be held in San Francisco this weekend.

### Communication's Future Will Be Topic of Address

Dr. J. D. Tebo of Bell Telephone Laboratories will address the student chapter of the Institute of Radio Engineers Thursday, Oct. 25, at 7:30 p. m. in Sc. B-5. The public is invited.

Dr. Tebo's talk is entitled "A Look Into the Future of Communication Technology." He will speak on the advancement of communication from cable transmission to microwave radio relay systems to direct distance dialing.

Discussion of the use of optical masers, which use light as a means of transmitting intelligence, will constitute the main part of the lecture. Its principle and its uses will be presented.

Dr. Tebo received his doctorate in engineering from the Johns Hopkins University in 1928. Immediately after he joined the Bell Telephone Laboratories and worked on radar and sonar development during World War II.

He was editor of the Bell Systems Technical Journal and Bell Laboratories Record from 1949-1957, and is currently head of the Technical Relations Department.

A senior member of the Institute of Radio Engineers, Dr. Tebo is also a Fellow of the American Institute of Electrical Engineers.

Dr. Tebo is a scientific and creative, and has been honored by several engineering institutions.

### Second Sabin Sugar Available Next Sunday

The second part of San Luis Obispo County's polio immunization program will be held Oct. 28. Type II oral Sabin sugar will be distributed at Pacheco and Teuch schools and the Veteran's Memorial Building.

Dr. Arthur James, Health Center medical officer, urges all students to participate—even those who have not received type I.

Type II oral Sabin polio vaccine protects against paralytic polio and lasts a lifetime.

# Homecoming Is Huge Success

BEAUTY AND THE BEAST... Queen Pat Bright and King of Uglies Chuck Lee, lead off dancing at the Coronation Ball. Her Majesty and Court reigned over the gala weekend festivities climaxed by the above revelry.

### Harvest Weekend Reaps Bumper Crop Of Fun

It was autumn's big weekend, and Cal Poly's "Fall Harvest" turned out to be a bumper crop. That is just one way of saying that Homecoming 1962 was judged by almost all participants to be a huge success. From the heartfelt clasps of hands as old friendships regained their newness, to the "Holy Cow!" of a little boy to his dad as a boisterously musical hand marched by in the parade, to the somewhat belated transformation of the residence halls' huge water tank to the biggest bear can in the world, the sights and sounds of Homecoming were everywhere. And they were the sights and sounds of success.

According to Owen Savatiano, national secretary of the Cal Poly Alumni Association, this year's Homecoming attracted "the biggest crowd we've ever had."

With the theme "Fall Harvest" on the minds of most of the participants, Cal Poly's 56th annual Homecoming got its kick-off with one of the biggest bonfire rallies in the college's history. Although someone jumped the gun and set what was to be part of the fire ablaze Thursday night, there was still more than enough wood left to build a fire that towered more than 15 feet in the air and 30 feet around.

And while some students were rallying 'round the fire, others were stuffing crepe paper into chicken wire to create the 20 floats that drew the "oohhs" and "aahhs" from the San Luis Obispo parade watchers Saturday morning. Some students worked all Friday night to ready floats that would be on display for little more than an hour.

Parade judges picked the following floats as the most outstanding among the parade's 20 entries:

Overall parade Sweepstakes Award went to the Agricultural Engineering Club for its Green Machine. It depicted a huge green reaper moving down the Arizona Lumberjack.

Los Lecheres Dairy Club won the second place award for its float.

In addition, the Association chose a new official float that will make its debut on the eve of many Cal Poly alumni. Submitted by Robert Engman, a senior Architectural Engineering major, the new emblem features the name "Cal Poly" underscored by two thin bars of green and gold, and the word "alumni" under that. Engman was awarded \$100 by the Alumni Association for his design.

And, as the Homecoming Committee people say, "Beauty and the Beast" did their best to enchant the crowd of approximately 800 who attended the Coronation Ball.

"Beauty" was Homecoming Queen Patricia M. Bright, a 19-year-old Social Science sophomore from La Canada. Her court, which consisted of Caroline Cooper, Maridel Kennedy, Sandy Wright and Pat Palmer, added their own touches of beauty to the affair.

Then there was the "Beast." His name is Chuck Lee. Lee had the dubious distinction of being dubbed the ugliest man at Cal Poly in a campus-wide penny poll last week.

The "Ugly Man," whose candidacy was sponsored by Freeman Hall, collected 12,227 of the 27,263 votes cast in the election.

The Queen was crowned, "Beauty" danced with the "Beast," the Jimmy Dorsey orchestra conducted by Lee Castle was impressed with the students and Cal Poly, and the students were impressed with the Jimmy Dorsey orchestra.

And the Homecoming climax of Homecoming 1962.

The event was many things to many people. It was a clasp of hands, a holiday, a parade, a dance—and a lark.

And in the words of one casual observer, it was the "most successful ever!"

### Peace Corps Slate Viewed By Europeans

Representatives from three foreign countries will visit campus this week to evaluate the newly installed Peace Corps program.

Interested in establishing similar Peace Corps programs in their own countries, Arne Arnesen, Norway; Hans Knechtenstein, West Germany; and Marcel Pochet, Belgium, will talk with officials about the overall implementation of the Cal Poly Peace Corps program.

Dr. William McComber, Peace Corps Division of Selection, who is responsible for the total assessment of each trainee, visited campus last week to talk with trainees, instructors and directors about requirements for completion of the three-month program.

The recently conceived Peace Corps program at Cal Poly is preparing trainees for a two-year assignment in Morocco—the Peace Corps' first endeavor in the north African country.

Of the 83 trainees slated to complete the course late in January, 23 are studying surveying, 27 are training as irrigation foremen and the remaining 33 are studying the teaching of English as a foreign language.

Peace Corps Director and Coordinator, Dr. Fearn Stout, and Project Director J. Cordner Gibson, will greet the three foreign visitors when they arrive.

### 'Job Spirit' Emphasized

The spirit and the inter-

### 'Grab Him Girls' For Sadie Hawkins

Dating procedures will reverse Saturday night for the annual Sadie Hawkins Dance.

Under the reverse system, the girl must do the inviting, pay for the ticket and provide transportation and a corsage.

The dance, held in the Men's Gym from 9 p.m. to 1 a.m. will be a costume affair with prizes given for the best costume.

Free dinners at a local restaurant will be awarded to the couple with the best-matched costumes. A \$5 gift certificate will be given to the boy and girl with the best costumes.

Costumes will be judged on interest and imagination, and should maintain the Sadie Hawkins theme.

Girls are to provide dates with a vegetable corsage and a prize will be given to the girl making the best corsage.

Music will be provided by the Collegians.

Tickets are 25 cents per person and are on sale in the ASB office.

### Apathitis is Target At Student Confab

"Apathitis," a disease prevalent among college students, will be the topic of discussion at the Fall Leadership Conference to be held this weekend at Camp Ocean Pines near Cambria.

This topic, selected because of the trend toward student disinterest in school activities, will be the target of the conference.

Rev. Don Hartnoch, Los Angeles minister who was a speaker at Religion in Life Week in 1960, will give the keynote address.

All interested students are invited to attend and tickets are available in the ASB office until Thursday at 5 p.m. Students active in school affairs are especially urged to participate.

Registration fees are \$2 and meals are free with a meal ticket. Students not having a meal ticket will have to buy meals at regular cafeteria established prices.

Buses are being provided to and from the camp.

### Celebration Set

Cultural Society of India is celebrating the "Festival of Lights" on Sat., Oct. 27 in the AC auditorium.

Diwali, the festival of lights, is one of the few festivals in India celebrated by the millions of people regardless of cast, creed or class.

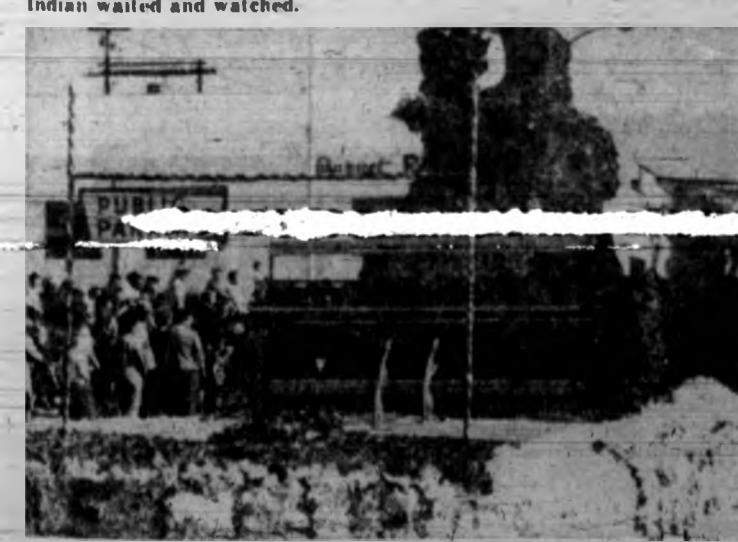

Illuminated houses and streets throughout the country are spectacular scenes through the months of October and November.

Documentary movies on "Festivals of India," "Spring Comes to Kashmir," "Music of India" and "Tiger Shikar" will be shown.

Everyone is invited to attend and celebrate this festival. Refreshments (sweets prepared as in India) will be served.

DAIRY FLOAT... Second place sweepstakes winner was "Cream of the Harvest" by Los Lecheres Dairy Club. The cow on the rear of the float attempted to keep footing on the rocking boat, while Pilgrims and Indian waited and watched.

A. E. FLOAT... Sweepstakes winner in the parade was "Green Machine" by the Agriculture Engineering Club. The float featured a complicated animation and ran under its own power.

QUEEN'S FLOAT... Riding high and pretty on the lead float in Saturday's Parade was the Queen and her court. The float was built by Blue Key.

SIXTY-SIX TROMBONES... Poly Lettergirls put their best foot forward in support of Proposition 1-A while 76 trombones and a few other instruments provide music for the parade.

GET 'EM... As Jim Ramos is taken out of play by a Lumberjack guard, Dave Keirade scampers through the vacated hole. Mustang Gary Chilcott made the tackle.

AXE THAT IS SHERRILL... warty Bill of the Arizona State Lumberjacks is brought down by Mustang Gary Walker, Jim Stireman, and John Salcido after a short gain. The Mustangs lost the battle in the four minutes of play by a 21-20 defeat.

Don't be a meat-head! Get Vitalis with V-7. It keeps your hair neat all day without grease. Naturally, V-7 is the greaseless grooming discovery. Vitalis with V-7 fights embarrassing dandruff, prevents dryness, keeps your hair neat all day without grease. Try it!

## X-CHANGE

By BETSY KINGMAN

ORANGE STATE COLLEGE—Three OSC students wanted to do something different this summer, so they embarked on a 10-day bike trip from Southern California to the World's Fair in Seattle. The cyclists noted that the further one gets from L.A., the friendlier the people become. "Up north people are really willing to help out when you're in trouble," one said. But, he added, if he was to make a similar trip he would take a bus home.

Titan Times

UNIVERSITY OF MIAMI—Students this week made the first bid to take over the campus parking authority. One of the first actions under the new power would be the slashing of current high fines. Currently parking fines are given by campus police.

Under the present system, a student is liable for disciplinary action or suspension for repeated violations. With the new proposal, the student court would examine closely the \$5 parking sticker fee now charged.

The Miami Hurricane

CAL POLY, POMONA—A record 110 reserved parking spaces have been purchased this quarter by students. The reserved spots entitle the purchaser a select parking space for an extra \$6 per quarter.

Students park in fields and behind bushes and risk getting citations rather than park in the far-off gymnasium parking lot. Some 200-300 parking spaces are going to waste as students refuse to make the long walk from the Gym parking lot.

Poly Post

SAN FRANCISCO STATE COLLEGE—Jefferson Poland, recent candidate for representative-at-large, who based his platform on the sale of contraceptives in the college bookstore, was defeated by his opponent, and is now in city prison. He was arrested last week in a raid conducted by the narcotics detail of the SF Police Department.

The 20-year old SF State junior was booked on charges of possessing a hypodermic and syringe, possessing dangerous drugs, and contributing to the delinquency of a minor.

Golden Gator

SAN JOSE STATE COLLEGE—Highway authorities in Idaho and Wyoming turned thumbs down on a SJS student's effort to reach New York by wheel chair. Leaving San Francisco in the middle of July, the student planned to reach New York by his own hand-propelled wheel chair via U.S. highways. The state highway patrol's objections cancelled his trip after six weeks. A specially built wheel chair, valued at \$4000 was built for the trip by a Los Angeles firm.

Spartan Daily

UNIVERSITY OF MIAMI—Men can be campused and lose cooking privileges this year at Miami. Punishment will be meted out according to the student's attitude, past record, reputation, and offense.

The Miami Hurricane

SAN FRANCISCO STATE COLLEGE—Some 800 SF State students showed their support for James Meredith in a rally last week while 200 others huddled around the transistor radios supporting the Yankee-Giant game. The rally was part of a simultaneous demonstration held on campuses throughout the nation. In a four-hour session, members of the student government, the faculty, students and former students mounted the speakers' platform to voice their feelings on the Mississippi affair.

## "YOUR AFTER-SHAVE LOTION, SIR"

"Jason, you doll! You know I use only  
Mennen Skin Bracer after shave lotion."  
"Of course, sir. And this..."

"Indeed so, sir. And..."  
"Tonight I need Skin Bracer. I'm going to  
the Prom. So take that stuff  
away and get me some Skin Bracer!"

"I've told you that Skin Bracer  
cools rather than burns.  
Because it's made with Menthol-ice."  
"Quite, sir. And this..."  
"Besides, that crisp, long-lasting Bracer  
aroma has a fantastic effect on girls."

"But sir, this is Skin Bracer. They've  
just changed the bottle.  
Shall I open it now, sir?"

ACTUALLY, YOU DON'T NEED A MIRROR TO APPRECIATE MENNEN SKIN BRACER. ALL YOU NEED IS A FACE!

## Foreign Speakers Featured At Monterey Convention

Guest speakers from Germany, England and South America highlighted the 17th annual California Council of the American Institute of Architects, held recently at the Monterey County Fairgrounds.

Registered members of the American Institute of Architects and students from Cal Poly, the University of California, Berkeley and the University of Southern California attended the council.

George Hunsley, Cal Poly Architecture Department head, handled programming. Guest speakers included: Dr. Mario Salvadori, Felix Candela, Dr. Frei Otto, Joseph Stein, and Sir Hugh Casson. Each speaker addressed the architects and held student seminars to discuss problems and new ideas.

The convention brings together different ideas from architects throughout California.

Artists were invited to display their work in the Fine Arts Exhibit which was designed and built by Cal Poly student architects. Visitors could view new ideas in sculpture, painting, murals and weaving. Student wives served as hostesses during the exhibit and members of the Producers Council exhibited new products for homes and buildings.

William Rodeto, president of the campus AIA chapter, Carl Schubert, Ed Lennie and C. K. Allen were in charge of construction. Other students who assisted were Bill Ehrlich, Robert Caddes, Warren Ludvigson and Stewart McIndoe.

Fifty students represented Cal Poly at the convention.

## College Hour Show Featured on Radio

The College Hour Show, a program about campus activities, can be heard on KVEC radio from 10:30 to 11 p.m. Monday through Friday.

The show features news and commentary on the college scene as reported by the student body officers and other campus leaders.

Frank Mayhew, who has been a student and staff member of KVEC for the last three and one-half years, moderates the program.

The show is designed to inform the students, faculty and people in this area of the many activities on campus. The program is open to anyone who has need of reaching people and informing them of past, present and future activities.

On Monday nights, student body officers report on the agenda of the Student Affairs Council meeting coming up the next night. If SAC covers by 10:30 Tuesday night, Vice Dolente gives a report over the air of what went on and what was decided.

In the future the program hopes to have interviews with various administrators and faculty members.

Published twice-weekly during the regular school year except holidays and exam periods by the Associated Students, California State Polytechnic College, San Luis Obispo, California. Printed by students majoring in Printing Engineering and Management. Opinions expressed in this paper are those of the writers and do not necessarily represent the opinions of the staff, views of the Associated Student Body nor official opinions. Subscription price is \$2 per year in advance. Offices: Rm. 224, Graphic Arts Building.

## IRE Officers Set For Coming Year

Student chapter of the Institute of Radio Engineers now lists its officers, according to Harold Hendricks, advisor. Club officers, all seniors from Electronics, are Wendell (Steve) Ensor, chairman from Salinas; Larry Owens, vice-chairman from Oakland.

Treasurer is Richard E. Bonsack, Northridge; secretary, Robert W. Carlson from Granada Hills; and Richard Palm, Newport Beach, membership chairman.

## Seven Instructors Added To Agriculture Staff

In keeping with expansion of the ever-growing campus family, seven new faculty members have been added to the Agriculture Division. Gordon Gibbs and Charles Ray, both Poly graduates, are new additions to the Animal Husbandry Department. Gibbs served in the Air Force and managed a drive-in dairy before accepting his teaching position. Ray spent much of his college time working in the campus feed mill. He also was employed by the Kern River Land and Cattle Co. and Lockheed Aircraft.

Mortimer Lewis and Norman Hilsley have been added to the Agricultural Engineering Department. Lewis graduated from the University of Utah. A world traveler, he has worked in Lebanon as Chief of Land Resources; in Nagoya, Japan on the Aichi project, and in South Vietnam on a water resources project.

Hilsley attended Michigan State College and Syracuse University and was graduated from Cal Poly in Agricultural Engineering. He received a master's degree in Anthropology at the University of Oregon and studied further at the University of Michigan. He has been employed by the Optical Coating Laboratory, the University of Maryland and the American Friends Service for the Indian project.

The Food Processing Department has one new staff member.

There are 532 cities and towns in the United States with pulp and paper mills. Federal taxes paid annually by the paper industry amounts to \$600 million.

## Unionizing

By ESTHER ALEXANDER

"Bud & Travis" will be here tomorrow night for an evening of fast moving entertainment. Well-known for their folk-singing style, the duo will play the songs that sent them to the top of the list of recording stars. Tickets are available at the ASB office for \$1.50 general admission and \$2 reserved with a student body card, and \$2.50 general and \$3 reserved without an ASB card.

Costumes are in order for the Sadie Hawkins dance Saturday night, Oct. 27 from 9-1 in the Men's Gym.

It's a "girl-ask-boy" affair with the girls footing the bill. Prizes are being offered for the best costumes.

Tickets are on sale for 25 cents per person in the ASB office.

"Three Coins in the Fountain" will be the feature attraction at the Little Theater Friday. Starring Clifton Webb, Dorothy McGuire, Jean Peters, Louis Jourdan and Rosanna Brazzi, the movie follows the experience of three American girls in Rome looking for romance.

The movie will be shown at 7 p.m. and again at 9:30 p.m.

"Forbidden Planet" starring Walter Pidgeon, Anne Francis and Leslie Nielsen, will be shown Saturday night in the Little Theater at 7 and 9:30 p.m. The movie is a science fiction story and is in color.

General meeting for all Welcoming Week counselors will be held Thursday, Nov. 8 in Ag. 221 at 7 p.m.

Nominations and elections of next year's chairman will be held.

Deadline for getting refunds for rooster's caps and meal tickets purchased for Welcome Week camp is Friday, Oct. 26. No refunds will be granted after this date.

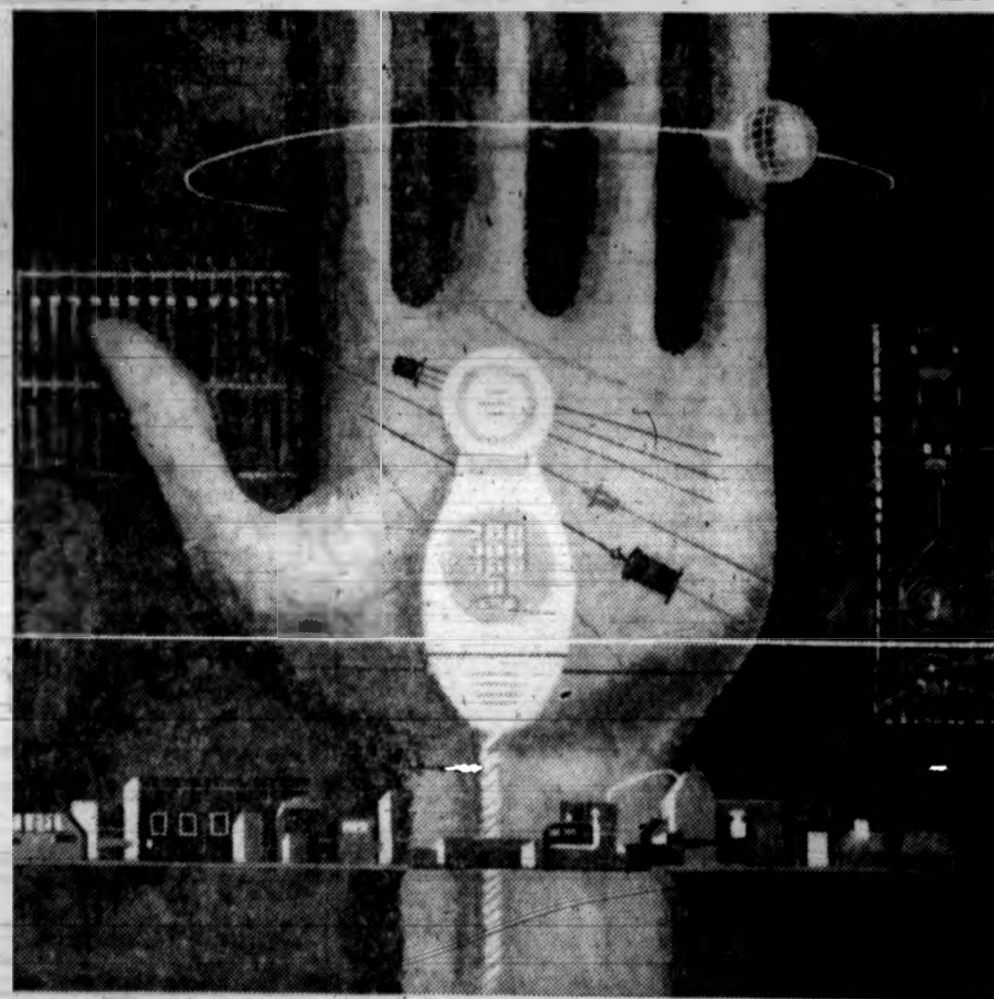

Openings are still available for Fall Leadership Conference to be held this weekend at Camp Ocean Pines near Cambria. All interested students are invited to attend.

Tickets are available in the ASB office for \$2 until Thursday at 5 p.m.

## Health Center Offers

Free Tetanus Shots

"The tetanus bug will get you if you don't watch out," according to Dr. Billy Mounts, Health Center medical officer. All freshmen and transfer students should take precaution by getting two free shots at the Health Center between 8 and noon or 1 to 4 p.m. Monday through Friday. Dr. Mounts advised.

Our future is in the hands of men not yet hired

At Western Electric we play a vital role in helping meet the complex needs of America's vast communications networks. And a career at Western Electric, the manufacturing arm of the nation-wide Bell Telephone System, offers young men the exciting opportunity to help us meet these important needs.

Today, Western Electric equipment reduces thousands of miles to fractions of seconds. Even so, we know that our present communications systems will be inadequate tomorrow, and we are seeking ways to keep up with—and anticipate—the future. For instance, right now Western Electric engineers are working on various phases of solar cell manufacture, miniaturization, data transmission, futuristic telephones, electronic central offices, and computer-controlled production lines—to name just a few.

To perfect the work now in progress and launch many new communications products, projects, procedures, and processes not yet in the mind of man—we need quality-minded

engineers. If you feel that you can meet our standards, consider the opportunities offered by working with our company. In a few short years, you will be Western Electric.

Challenging opportunities await now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6204, 222 Broadway, New York 28, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

**Western Electric**

MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J.; Telephone Corporation, Booth, Highland Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 18 cities. General headquarters: 195 Broadway, New York 7, N. Y.

## Biologist Studying Undulant Fever

Dr. Clay Hatfield of the Biological Sciences Department has been awarded a one-year grant by the National Institutes of Health, and the U. S. Public Health Service to do research work in epidemiology on brucellosis, better known as undulant fever.

Working for the World Health Organization in Argentina, Dr. Hatfield, who joined the Cal Poly faculty in 1949 from UCLA, left Los Angeles by freighter on September 8, with his wife and three children. Hatfield will study the disease which is a medical and socio-economic problem in the Americas. A member of the International Union of Biological Sciences and numerous scientific societies, he is listed in *American Men of Science* and *Who's Who in the West*. Among his publications is a widely used bacteriological text, now in the third printing of the second edition.

Iowa marketed a total of 5,586,000 head of fat cattle during 1961, to lead the nation as the No. 1 beef producing state. California was third with 1,694,000 head.

## LATE REGISTRATION FIGURES

# Record High Enrollment Totals 5845 Students

Late enrollment of 140 students boosted the original figure of 5,705 to a new enrollment high of 5,845. Of this total figure, 5,505 are regular students and 340 are limited.

Divisional enrollment increased proportionately with the Engineering division still leading with a total of 1915 majors. Applied Arts division ranks second with an enrollment of 1746, and the Agriculture and Applied Science have a total of 1,401 and 740 majors respectively.

The number of student drop-outs had not yet been tabulated, and there was no indication of how much a decrease in enrollment will occur.

A total of 9,383 program changes have been tabulated from the add-drop cards. This is an average of approximately one and a half program changes per student.

Enrollment figures increased by 1,009 over last year's 4,839 enrollment. Engineering division lead in enrollment last year also with a total of 1,805 majors. Agriculture was then second with an enrollment of 1,276.

The Applied Arts division, which now ranks second and boasts an enrollment of 1,746, was ranked last year with only 817 majors. This enrollment has nearly tripled in one year.

Applied Science, with an enrollment of 740 this year, was the only division to record a loss from the 1,141 students last year.

Ten years of progress makes an even bigger difference in enrollment figures and divisional standings. Only 2,259 students studied at Poly during the 1952-53 school year. Agriculture students were in the majority that year with the division leading with an enrollment

of 1,089. Engineering division totaled 962 students and the Arts & Sciences division, then a combined division, had a total of only 228 students.

## Electronic Students Win Scholarships

Three Electronic Engineering majors were honored recently in Pasadena at a quarterly meeting of the Western Electronic Manufacturers Association. They were honored at a banquet with scholarship winners from Cal Tech, USC, Loyola, and UCLA.

Gary Beck, freshman from Santa Barbara; David Swanson, sophomore from Brea; and Donald Olsen, senior from Santa Maria, were each awarded \$250 scholarships by the Western Electronic Education Fund of the Industry Association.

A panel of investment bankers discussing the financial structure of the electronic industry, was also on the program.

William Miller, president of the association, presided at the meeting. He said that one of the highlights of his duties as president was attending the annual Cal Poly Institute of Radio Engineers banquet last spring.

Dean of Engineering Harold P. Hayes and Clarence Radius, Electronic Department head, also attended the meeting.

## Billets Available For Navy Reservists

Reports from the local Naval Reserve Facility announced this week new opportunities for college students and Navy veterans.

Students may fulfill their military obligation while remaining in school by attending once-a-week drills and annual two-week summer cruises. This program is with pay and offers an opportunity to qualify for the Naval Reserve Officer Programs.

Two local reserve divisions have pay billets available for up to 30 enlisted men and two officers. Billets are open to first enlistments or Navy veterans, under a new policy, may now be re-enlisted in the rating held at discharge, with no limit on the time since discharge.

Enlisted personnel are also being accepted for up to 24 months active duty on a voluntary basis. This applies to Navy veterans who might desire a one or two-year tour of active duty.

Students interested in these opportunities may visit the Naval Reserve Facility at the county airport Monday or Tuesday evening, or call LI 3-7862. On campus they may contact Lt. Cmdr. George R. R. Mach in the Mathematics Department.

NO CONFUSION... Steve Matzner, college chess champ, takes all comers—five at a time—at the recent activities carnival. Even the \$10 incentive to those who could beat him proved no help to the challengers.

## Display Is Popular At Tool Convention

The student chapter of the American Society of Tool and Manufacturing Engineers participated in a recent five-day ASTME convention held in the Pan Pacific Auditorium in Los Angeles.

Commuting to Los Angeles for day shifts, members manned a unique weighing apparatus installed in their club booth.

## Faculty Hosts Frosh At Crops Bar-B-Que

Crops Department faculty hosted freshmen and transfer crops majors at a recent barbecue.

Highlights of the event were talks by Warren Smith, dean of agriculture; J. C. Gibson, assistant dean of agriculture and Doug Frago, president of the Crops Club.

The scale determined weight by measuring the strain of a five-foot-long supported aluminum beam. Strain gages and an empirically derived weight placed on the beam.

## Circle K Initiates New Members

More than two dozen students have been made members of Circle K, the collegiate branch of Kiwanis organization sponsored Princess International.

The group, a service organization, held its initiation and installation of officers at the Tower Cafe.

Installed as president was Steve Scofield. Other officers include: Steve San Filippo, vice-president; Connie Lankey, corresponding secretary; Roger Greene, recording secretary; and Larry Myhre, treasurer. Circle K's adviser is E. L. Fryberger, Electrical Engineering instructor.

The club performs a number of service functions during the year. After tomorrow's Homecoming parade, it will serve refreshments to all parade participants. The group also decorates the college's official Christmas tree each year.

The Poultry Survey Committee predicts a 93 million bird crop (turkeys)—during September through December with a U.S. average price of 23 cents per pound.

## People-Society Will Be Reviewed

Dr. Philip Overmeyer of the Business Department will review "The Sands of Kalahari" by William Maltrill at the Tuesday, Oct. 30 meeting of Books at High Noon. All interested students are invited to attend the meeting to be held in the Staff Dining Hall.

The book tells of six people who are cast from a mechanized society into a primitive and hostile environment. The author, an authority on Africa, has laid his struggle in the African desert.

## Health Center Busy Giving Flu Shots

The Health Center reports that 813 students, instructors and staff members were given flu shots during the first two weeks of October.

Officials said that students, when warned of a possible influenza epidemic in a story in *El Mustang*, flocked to the Health Center to acquire flu shots.

In September 173 students were given shots at the clinic. However, 1682 students were given the vaccine at the time of admission examinations.

The shots are given free to students. A 50-cent charge is made to faculty and staff members. Health Center hours are 9 to 11 a.m. and 2 to 4 p.m.

## Large enough to hold your future, small enough to know you

**ENGINEERS:** American Air Filter Company, Louisville, Kentucky, is the world's largest manufacturer of air filters, dust control, heating, ventilating and air conditioning equipment. Yet AAF is small enough for you to know well.

AAF needs graduate engineers to fill responsible jobs in sales, product engineering, research and industrial engineering. Eventual location might be in any of AAF's six plant cities or one of the more than 150 sales offices throughout the U.S.

Men who join AAF will be enrolled in the Company's full-time formal Training Program. Interested seniors should make an appointment now through the Placement Office. An AAF representative will visit the Campus on

## BEYOND THE PLANE OF THE ECLIPTIC...

Whether in the forefront of space exploration or in bionics research, Lockheed Missiles & Space Company's almost limitless fields of endeavor offer a challenging choice to graduate engineers and scientists. Lockheed's location on the beautiful San Francisco Peninsula, its outstanding facilities, its sophisticated programs, its excellent employee benefits, among many other advantages, have all contributed to the Company's position as a leader in the aerospace industry.

## SPECIAL CAMPUS INTERVIEWS

will be held

THURSDAY and FRIDAY

NOVEMBER 8 & 9

See your placement office for details

Lockheed, Systems Manager for such projects as the Navy POLARIS FBM and the AGENA vehicle in various Air Force Satellite programs, is also an important contributor to various NASA programs involving some of the nation's most interesting and advanced concepts. As one of the largest organizations of its kind, the Company provides the finest technical equipment available; for example, the Sunnyvale facility houses one of the most modern satellite tracking and control centers in the world. Every opportunity is given members of the technical staff to participate in the initiation of advanced technological developments.

Further, Lockheed strongly encourages continuing education and advanced degree work, maintaining two programs in their support.

Lockheed's Tuition Reimbursement Program remits seventy-five percent of the tuition for approved courses taken by professional and technical people who are working full time.

The Graduate Study Program permits selected engineers and scientists of outstanding scholarship and professional potential to obtain advanced degrees at company expense while on research assignments.

Candidates for degrees in all of the following should investigate opportunities at Lockheed:

Aeronautical      Mathematics  
Chemistry          Mechanical  
Electrical/Electronic      Physics

Lockheed is an equal opportunity employer.

**LOCKHEED MISSILES & SPACE COMPANY**

## Colts Suffer Second Loss At Hands Of Santa Barbara

Cal Poly's frosh football team suffered its second defeat of the season last weekend at Santa Barbara when they were dumped 27-6 by the UC Santa Barbara Gauchos.

The Colts drew first blood in the game as Linzie Daniels intercepted a Gaucho aerial and scampered

the 25 yards to paydirt and the Colts' only score which counted. Later the Colts scored on a 70-yard romp by Quinn Paige, but the play was nullified by a penalty.

The remainder of the offensive thrust of the game belonged to the Gauchos as they rolled to 27 points after the Colts had scored first. The Gauchos scored both running and passing and also added a 60-yard return to paydirt on a Colt punt. The second Gaucho score was set up as a result of pass interference being called on the Colts. The Gauchos immediately plunged over from the one-yard line.

Coach Vic Buccella, although not pleased with the outcome of Saturday's game, felt that the Colts were working together better than any of the previous encounters but they still make a few mistakes due to inexperience.

Pointed out as turning in exceptionally fine performances for the Colts were Dick Eshback, Chuck Jones, Martin Baccaaglio, Dan Heibel, John Davis and Linzie Daniels.

The Colts will receive another tough test this Saturday when they travel to Taft to play Taft JC. Taft is noted for its fine speed and a big line of rough and ready veterans. Game time at Taft is set for 8 p.m.

Cal Poly's all-time great end, Curtis Hill, caught a record 48 passes in 1959 for a total of 714 yards.

## Tennis Players Urged To Attend Meeting

Are you interested in playing on the tennis team or in the schools' intramural tennis program. If so, you are urged to attend a meeting Thursday, Oct. 25, in MPE at 11 a.m. Coach Ed Jorgensen reminds tennis enthusiasts that freshman are eligible to play on the team and should attend the meeting.

## INTRAMURAL FOOTBALL

## League Leaders Emerge; Play Enters Third Week

Intramural football leagues completed second-round play last week with Fremont Heights, Animals United, and Mat Pica Pi topping the Tuesday League, Sequoia Woods the Wednesday leader, and Deuel, Fremont No. 2 and Sheep Unit No. 1 in Thursday's to spot. In the Tuesday slot all four games were shutout victories. Animals United took Sequoia No. 1, 15-0, while Mat Pica Pi ran all over Lassen Hall, 33-0, and Fremont Heights won over Crops House, 21-0. Sonoma Hall defeated the Plumas Landas, 20-0, to round out action.

The Wednesday League shapes up as the most evenly matched circuit as three of their four second-round contests ended in ties. The 344 Californians, who romped 34-0 last week, were held to a 7-7 tie by a stubborn Muir Hall Fagan team. Sequoia gained sole possession of first place by way of a 20-0 victory over the Palomares Pirates.

The Thursday League's top spot is claimed by three squads following last week's action. The Sheep Unit No. 1 took over part of the lead by virtue of their 7-0 victory over Diablo Hall. They were joined in the top slot by Fremont No. 2, who defeated the 48ers, 14-7, and Deuel Hall who beat the Collegians, 20-0. Tanya No. 2 tied with Tehama 6-6 to round out action.

## Mustang Runner Sets

## Mark But Fresno Wins

Don Fields, Mustang cross-country runner, Saturday ran the 3.4 mile course in 17 minutes and 19 seconds to set a new record on Cal Poly's course, in a meet which was won by Fresno State College, 23-38.

In cross country, the winners places are totaled and the team with the lower score wins the meet. Saturday morning at 11 a.m., the Mustangs will host Westmont College with the race beginning at the track, says Walt Williamson, Mustang cross-country coach.

Howie O'Connell, the current football line coach, was head coach of the Mustangs from 1933 - 1941.

## Local Gridders Lose After 20-7 Third Quarter Margin

By David Jones

The Cal Poly Green Machine defeated 17th ranked Arizona State of Flagstaff for their first Homecoming victory in . . . Well it almost happened anyway.

The Lumberjacks had to go spoil everything by living up to their reputation as Homecoming villains, capturing a 21-20 thriller from the Mustangs in Saturday's big game.

The Poly eleven, an inspired and victory hungry football team, played by far their best game of the campaign. After last week's Fresno humiliation, the Mustangs came on the field determined to prove they were a varsity football team to be reckoned with, and they succeeded 100 per cent.

The Mustangs held a 11-7 bulge at intermission and returned to add another touchdown to run their lead to 40-7 in the third quarter. The team seemed to "run out of gas" late in the fourth period. The TD gave the Axers just the lift they needed as they went on to score the go-ahead touchdown and deciding point after.

Arizona started the first real drive late in the first quarter and marched for a score. Poly scored in 12 plays, the big gainer being a 31-yard burst by Clark. Ramsey rolled out around left end from one yard out for the score. Crowley's all-important PAT was wide and the score stood 20-7.

Nine plays into the fourth stanza Arizona scored on fourth down from one-yard out and added the PAT to bring the score to 20-14, with 11 minutes, 10 seconds left to play.

Second-line quarterback Dick McBride couldn't get the Mustangs moving after the kickoff and they were forced to kick. Arizona took the ball on their own 42-yard line and started what was to be the deciding touchdown drive. Halfback Wally Hill scored from 14 yards out on a double-reverse; a play that had the Mustangs mystified all afternoon. Monte Harris kicked the deciding extra point for a 21-20 Arizona lead with 4:15 left in the game.

## Table Tennis, Badminton Tournies Start Tonight

Intramural table tennis and badminton doubles tournaments open first round play this evening in the Men's Gym at 7 o'clock. Fourteen teams are competing in badminton while 20 entries are participating in table tennis. The tournament will continue through Friday with the championships being held next week.

Vaughan Littlebeck, intramural coordinator, has moved the novice wrestling meet and the basketball free throw contest up one week.

The basketball free throw contest is now scheduled to start Tuesday, Oct. 30, which is also the last day for entries in the wrestling meet. A meeting of all contestants will be held Oct. 30 at 7:30 p.m. in room 122 of the Men's Gym. All entrants in the tournament may practice in the wrestling room from 4-6 p.m. every week.

Tonight's Table Tennis Contests: Jacobson-Marsh (Canterbury) vs Chang-Chung Shan (Fremont); Dean-Thompson (Sonoma) vs Shiu-Dickinson (Muir); LaBarre-Calkins (Hewson House) vs. Hunkertoff-Robinson (Sequoia).

Plasma-Uchida (Sequoia) vs Le-ovic-Beutler (Mat Pica Pi).

Tonight's Badminton Play: Vienneman-Lang (Sequoia) vs Jurgens-Springer (Tanya No. 2); Herbat-Uchida (Sequoia No. 1) vs Sanchez-Scott (Sonoma); Hochek-Jackson (Mat Pica Pi) vs Duncan-Teen (Fremont Hgts); L.Cluse-Browning (Tanya No. 2) vs Brown-Rowe (Plumas); Bents-Holzman (Fremont Hgts) vs Eastman-Beutler (Mat Pica Pi); Montero-Kanachi (Caphers) vs Valles-Chesebro (Sequoia Woods); Woodcock-College (Sequoia No. 1) and Nielson-Hoffman (Plumas) bye.

# SPORTS

BILL RICE, Sports Editor

## Cagers Lack Depth Says Coach Ed Jorgensen

Ed Jorgensen, basketball varsity coach has expressed concern over the over-all depth of his squad this season.

He commented, "Our first five men will do a good job, but the reserves are not of the quality that a championship team must have."

The basketballers began practice last weekend and are rounding into shape by running cross country and twice weekly trips to the "P."

Coach Jorgensen said he is "very pleased with the attitude and desire of the players to get into shape."

With this news came the fact that Lawson Maddox, number six man last year, will be unable to play this year because of personal reasons.

It is too soon in the season for a definite first team to be established, but Coach Jorgensen named a possible unit. This consisted of veterans forward Bob Wilmont, guard Ken Andersen, and center Bob Horwath.

## WHY BUY A DIAMOND THE OLD FASHIONED WAY?

By Rudy Silva, R. I. American Gem Society

One of the chief factors that determine DIAMOND VALUE and beauty is colour. In fact, diamond value is tremendously affected by even slight colour variations. And so, to colour grade diamonds today, American Gem Society jewelers use MASTER GUIDE DIAMONDS to assure you an honest value.

Master Guide Diamonds are themselves graded in a marvelous electronic device known as the colorimeter—a machine sensitive to the slightest amount of colour in the diamond.

So colour grading of your diamond amounts to colour comparison with known standards—standards assured by modern scientific equipment. Whereas in grandpa's day, yes, even in papa's day, the jeweler had no true means to accurately determine colour.

A diamond expert insists on knowing the exact colour of diamonds before buying. You should insist on the same privilege since it is your own pocketbook you are protecting. A colour variation of only one step actually could cost you an extra FIFTY DOLLARS for the same diamond weight!

Why not let us show you how your diamonds are graded at:
