## REPORT

California Polytechnic State University, San Luis Obispo

Vol. 42, No. 22

March 2, 1989

### CSU efforts to end term papers sale

A business which had been supplying term papers and other work for students was ordered by the Superior Court for The County of Los Angeles to stop selling such material under the terms of a preliminary injunction requested by the California State University. The action was brought to the Court by the Attorney General's office with the assistance of the CSU's Office of General Counsel.

The business had placed leaflets throughout the CSU Los Angeles campus offering to do research, write papers and do other work for students for a fee. Services such as that are prohibited under Section 66400 of the Education Code of the State of California which prohibits the sale of term papers, theses or dissertations.

Standard policy at all CSU campuses is to give a failing grade to students who are caught using purchased material in classes.

### Teaching science is theme for conference

A NASA astronaut-scientist, a NASA expert on the search for intelligent life in space, and TV weatherman "Dr. George" Fischbeck will be the keynote speakers for a Central Coast Regional Science Conference March 10-11.

"Teaching Science Through the 1990s" is the theme for the two-day event. It is designed for teachers interested in science education from kindergarten through university.

It will begin on Friday, March 10, with the option of a six-hour field trip to either the Diablo Canyon nuclear power plant or the Morro Bay estuary and wetlands by canoe.

NASA scientists Lodewijk van den Berg and Lynn Griffiths will speak at a banquet scheduled from 6 to 9 p.m. March 10 at the Embassy Suites Hotel.

Saturday, March 11, will include a welcome at 8:30 am in Chumash Auditorium as well as workshops in various classrooms on such subjects as astronomy, the greenhouse effect, chemistry for kids, and how to integrate science into other curricula.

Fischbeck will speak on teaching science at a Saturday lunch scheduled from 11:30 am to 1 pm in Chumash Auditorium.
