## 10 Seek Homecoming Queen Title

The polls are open, and the 1963 Homecoming Queen election is underway. Ten anxious Cal Poly girls are in for a long two days until the final votes are tallied. Polls will remain open today until 5 p.m. and will open tomorrow at 8 p.m., closing at 1 p.m. Polling places are located in the Cafeteria patio, the Math and Home Economics Building lawn, and at the Post Office. In case of rain, they will be changed to the new Library Entrance, inside the Post Office, and under the overhang on the Cafeteria patio. With a record vote expected, IBM machines will count the ballots to insure accuracy and speed.

Students are reminded to use the IBM pencils provided so that all votes will be counted. The Homecoming Queen and her court of four princesses will be selected from a group of 10 finalists chosen two weeks ago by seven San Luis Obispo business leaders during the first Homecoming Queen Pageant.

Those vying for the title are Carla Barber, sponsored by Circle K; Ann Englebrecht, sponsored by the Farm Management Club; Beatrice Lewanika, sponsored by the African Students Association; Christine Lord, sponsored by the Poly Corinthians; Pattie McKinnis,

sponsored by Poly Phase; Jacquelyn Minatta, sponsored by the Crops Club; Madeline Quarisma, sponsored by the American Institute of Architects; Taffy Rowe, sponsored by Interclass Council; Sandy Simms, sponsored by Seaboard and Blade; and Jean Stueve, sponsored by the Food Processing Club.

With a busy Homecoming schedule ahead, the queen and her court will appear at all homecoming festivities. They will ride in the 1968 Homecoming Parade, which will begin Saturday morning, Nov. 16. Cal Poly clubs and other represented groups will display floats,

which will be judged by a board also consisting of a group of downtown business leaders. The winner will receive a perpetual trophy during the afternoon football game with UC Santa Barbara beginning at 2 p.m. Homecoming floats will again be on parade during half-time activities.

The celebration will culminate with the Coronation Ball that evening in the Men's Gym. The ball will officially begin when the queen is crowned. She will receive her perpetual crown from Brown Jewelers, who donated it last year.

According to tradition, Cal Poly's Homecoming Queen will be escorted to the ball by the

Ugliest Man on campus.

This "prince charming" will receive a 25-inch perpetual trophy from the queen. His sponsoring club will be the actual recipient of the trophy, but this most unfavorable man will receive an engraved key to wear attributing to his ugliness.

The Ugly Man Contest, Nov. 12 through 15, is sponsored by Alpha Phi Omega, and is conducted in a somewhat unorthodox manner—stuffing the ballot box is encouraged. This contest has been in existence since 1953 and each year the money raised by the "penny-a-vote" system is used for some worthwhile project.

## Couldn't Hold This Tiger; Is Champion

Tiger V, an 820-pound Aberdeen-Angus steer raised as a student project on campus, was named grand champion market steer at the Grand National Livestock Exposition held recently in San Francisco's Cow Palace.

The steer was shown by four agricultural students. The animal brought one of the highest prices at the livestock auction, a price of \$4,85 a pound. The students are Chris Dermody, Ray DeRube, Lynne Heringer and Sally Chapman.

The same team exhibited the grand champion carcass steer on the hoof, the first place junior

Angus calf and the first place senior Angus calf.

Project owners showed the second place Angus summer yearling, second place group of three Angus steers, third place junior Hereford yearling; third place junior Hereford calf and second place group of three Hereford steers.

A team of five students showed the reserve champion carcass of the show, a lot of Angus fat cattle, which also won its breed category. The team included, Pete Fagerlin, Mike Giles, Larry Bonnikson, Flint Freeman and Wayne Pigrud.

In the Swine area, Cal Poly fared rather well also. Student entries

walked off with the first, second and third place light-weight Poland China market hogs, Champion pen of Poland China market hogs, Reserve Grand Champion Poland China and a second place on the Cross-bred barrow pen in the heavy weight division.

In the livestock judging department, the results were reversed from the Portland International Contest in which Cal Poly won the champion team title but at the Cow Palace Cal Poly's team walked off with reserve championship placing just 21 points behind the champion team from Fresno State College.

The second unit of the livestock judging team participating in the

Intercollegiate Livestock Judging Contest at the 1963 Grand National consisted of Melanie Dudley, James Ellis, Kenneth Fowle, Stan Sears and James Warren.

Cal Poly placed first in the beef cattle judging, and second in judging of swine and sheep.

Stan Sears, junior Animal Husbandry major, placed third high man overall in the contest, with James Warren in fifth place and Kenneth Fowle in tenth place.

Richard F. Johnson, livestock judging team coach, noted that the college contest was under the management of Henry Stone, 1962 Poly graduate and former judging team member now with the agricultural loans division of Wells Fargo Bank.

Johnson said students made a wide visitation to Lucky Hereford Ranch at Gilroy on the way up to the livestock show, and had the opportunity to inspect the lamb carcasses from the cut-out contest and a tour of the Allan Packing Company's two plants in the San Francisco area. Frank Louisa, Poly '62, a member of the ownership Allan Family was their host.

The middle of this week will find the livestock team members traveling to the Golden Spike National Livestock Show at the Union Stockyards in Ogden, Utah where they will participate in an intercollegiate livestock judging contest Saturday Nov. 9.

### Placement Annual Still Available

Eugene Rittenhouse, college placement officer, reminds all seniors that they are still eligible to pick up a free copy of "The College Placement Annual," in Adm. 208.

The publication is on a non-profit basis as a service to college and university seniors, graduate students and alumni of Canada and the United States. The College Placement Annual presents listings of the corporate and governmental employer.

The annual provides students with data concerning those firms which ordinarily recruit on the college campus.

### Drop Deadline Here Next Friday

Nov. 8 is the last day that students will be able to withdraw from classes, warns Gerald Holley, college registrar.

Holley emphasizes the importance of that date as it coincides with the regulations in the college catalog. Only exception to the rule will be regular college recognized emergencies.

### Bids Strong At Annual Bull Sale

Strong bidding by both commercial and registered Hereford breeders set an average of \$704 for 94 bulls offered by the Tri-County Hereford Breeders Association and 9832 for 58 test bulls offered by the members of the California Hereford Association during the recent mid-October bull sale held on campus.

Lynman L. Renshaw, head of the Cal Poly Animal Husbandry Department, said, "The averages were probably some of the highest prices paid for a bull sale in the fall of the year."

Top price in the sale, \$1,325, was paid by Kenneth Morrison, Agoura, for the top indexing bull in the gain trial, consigned by the E. & K. Ranch, Watsonville. Morrison also purchased the second high-selling test bull, one of the three to earn a 100 grade, for \$1,000. It was from the group from the Tejon Ranch Co., Bakersfield, that brought an average of \$787, highest among the gain-tested bulls.

Careful selection and good fitting paid off for consignors to the Tri-County section of the sale as 24 head brought an average of \$704.

During mid-December each year, 10 ranchers of the San Luis Obispo area deliver six bulls each to the campus. This is the beginning of a cooperative program which terminates with the sale of the animals at the Tri-County Hereford sale in October.

## 100 Hear Dean Chandler Explain Policy To SAC

More than a hundred students were present at last Thursday's Student Affairs Council meeting to listen to Dean of Students Everett Chandler explain the college's policy toward off-campus student relations.

The main purpose of the meeting was to give the students a chance to ask questions concerning the school's stand on certain policies.

Malcom Kemp, chairman of the Resolution and Fact Finding Committee, opened the question and answer period by stating, "A change of policy is being considered by the administration." He mentioned that the students should try to help the committee, not try to settle all the half-line decisions when addressing Chandler.

It was brought out during the discussion that the administration does not recognize the existence of off-campus fraternities. From one student came, "How can the administration perform disciplinary action with something that doesn't exist?"

Chandler was bombarded with many questions. He explained that a qualified chaplain for off-campus functions could be on the payroll of the college, or could be adults approved by the college.

He also explained that the intent of student visits is determined by the college by value judgements.

"We expect our students to be in a wholesome situation," whether on campus or off," he said.

Kemp said that the committee formed by SAC to clarify school policy has been meeting in a closed session up to now in order to speed up the work that has to be done. He mentioned that any student who has any constructive suggestion about improving college off-campus policy, may send suggestions to the Engineering Council Box 54 in the ABB office.

Kemp said his committee, when needed information is available, will draft a general suggested policy to be submitted to the administration.

Another comment from the students was that the administration might say, "that's a real nice policy you drafted, but we don't want to do it that way."

Chandler said that he will head an administrative committee which will work long side of the committee formed by SAC, in order to clarify school policy to the students.

ABB President Roy Killgore told the students present that some concrete result will be given

by the committee before the beginning of the Winter Quarter.

One of the main topics at the Nov. 5 SAC meeting will be the question of student body incorporation. Further information about incorporation will be presented by Mike Burns. The meeting will be held in Lib. 126 at 7 p.m.

DEAN CHANDLER... bombarded with questions

## Visitor Says Americans 'Don't Enjoy Life Much'

BY LANI CAIN  
"Americans don't enjoy life as much as the Greeks," observed Prodromos S. Oecallides on his tour of Cal Poly last week.

Oecallides, business manager and vice-president of the Thessalonian Agricultural and Industrial Institute (Agricultural Farm School), explained that our lives seem to be more isolated. Even our mode of transportation is a form of isolation, he said. In Greece people walk from place to place and take time to enjoy nature and life, but in the United States people are in a hurry to get around and they wall themselves out of nature.

Oecallides is taking part in a program in which 270 educators from 70 foreign countries are visiting United States schools to observe methods of education and administration.

The Greek visitor desires training in financial administration and general administration of institutions, and vocational guidance of students. He is viewing Cal Poly with the help of Dr. Walter F. Schroeder, head of the Education Department.

Cal Poly is a step in the tour between Stanford and UCLA. Some other schools on his tour are in Georgia and Kentucky.

"There are two types of courses offered by our school," Oecallides said. "One is a four-year course which handles about 250 students and the other is an adult education program where many short courses are given all through the year on different subjects. This accommodates about 1,000 people."

"This school plays an important role in a country of eight million people where 55 to 60 percent of the economy is derived from agriculture," he continued.

Oecallides said that one of the major differences between the American system of education and that of Greece is that American schools are independent in educational methods and of each other, in Greece the government controls schools.

"American educational facilities are much better than those in Greece, however," Oecallides said. The visitor from Greece continued with other comparisons of Greece and the United States.

"The standard of living in America is relatively higher, but I can't understand why Americans spend so much money helping the underprivileged people of other nations, and seem to overlook so many poor people in their own country." He said that the standard of living in Greece was very low after the war, but since 1945 it has been going up.

Oecallides said that he just had his first encounter with television in America and, "I've heard many Americans complain about the standard of television programs and after viewing some of them, I tend to agree."

He also said that he has been particularly impressed with the manner in which the American people worship God. He said that he has had close contact with many different American families and that he has had the opportunity to attend many different church services.

Two other employees of the American Farm School are attending school at Cal Poly. One is a Soil Conservation major and the other is working in Farm Crops.

## Injury Suit Goes To Court

A former Cal Poly student's personal injuries suit against the Associated Student Body for more than \$200,000 is scheduled to go to trial Dec. 10 in San Luis Obispo County Superior Court.

The suit, which stems from an accident that occurred during the 1961 Poly Royal Rodeo, was filed by Dale Coyer, a former Technical Journalism student, who was injured in the event.

Named as defendants in the action are the Associated Student Body, the college, the Cal Poly Rodeo Club, the 1961 Poly Royal Rodeo Executive Board and 31 "John Dees."

Specifically, Coyer is asking for \$200,000 in general damages, \$2,400 in medical expenses and court costs.

The accident that brought about the suit occurred April 27, 1961, when Coyer was butted by a bull while participating in the Poly Royal Rodeo at Collett Arena near the college.

In the suit Coyer claims the defendants "negligently and carelessly conducted a rodeo with improper supervision and insufficient control of wild animals."

According to Gerald W. Shipsey, one of the attorneys representing Coyer in the action, the former student was knocked unconscious and permanently injured in the accident.

Coyer is being represented in the action by Shipsey and Selts and Andre and Wood, San Luis Obispo law firm.

Representing the defendants is

John R. Lamareaux, a representative of the California State Attorney General's office.

Although the rodeo in which the accident occurred was sponsored by the Associated Student Body organizations, the college and the state are being named in the action, "because they are integral parts (and) . . . official arms of the college," according to Coyer's pleadings filed in the San Luis Obispo County Clerk's office.

El Mustang learned late last week that a number of persons connected with the staging of the rodeo have been subpoenaed for the Dec. 10 trial.

Robert L. Spink, Associated Student Body graduate manager, said the ABB has insurance that will cover any losses that it may incur in the suit.

GRAND CHAMPION—An 820-pound Aberdeen-Angus steer, Tiger V, from the Parker Barn student beef project, was named Grand Champion market steer at the recent Grand National Livestock Exposition at San Francisco's Cow Palace. Standing (l. to r.) are Harvey McDougall, one of

the cattle judges, Frank Richards, Aberdeen-Angus Breeders Association secretary, and project members Ray DeRube, Sally Chapman, Lynne Heringer and Chris Dermody, holding the steer.

VERY UGLY... Five Ugly Men line up to display their "charms" to the public eye. They are (l. to r.) Bob Hana, Stan Glavin, Rodney Egan, Dave Bizeg and John Fanning. Contest is being sponsored by Alpha Phi Omega. Students

who feel they are ugly enough to enter the Ugly Man Contest should contact Chuck Burns in Room 111 of the Power Plant located next to the M&E shop. (Photo by Leap)

## PAIN KILLERS?

Of all suicides in the United States last year, more than half were effected by barbiturates. Estimates indicate that between 400,000 and 750,000 Americans suffer from some form of addiction to these drugs.

## WORK IN EUROPE

Grand Duchy of Luxembourg  
Nov 6

Summer jobs are available for students desiring to spend a summer in Europe but who could otherwise not afford to do so. Among available jobs are office and sales work, tutoring, lifeguard and high paying (to \$400 a month) resort and factory work.

The American Student Information Service also awards \$200 travel grants to students. Interested students may obtain the ASIS 24 page prospectus listing all jobs, and a travel grant and job application by writing to: Dept. N, ASIS, 22 Ave. de la Liberté, Luxembourg City, Grand Duchy of Luxembourg. Send \$1 for the prospectus and airmail postage. The first 8000 inquiries receive a \$1 credit towards the book, "Learn, Learn & Travel in Europe."

## Dairy Judges Win At Cow Palace

The dairy cattle judging team placed first in competition recently at the Cow Palace in San Francisco.

The team was led by Ralph Laya, first high individual. The rest of the team was composed of Art Perry, fifth high individual; John Winters, tenth. Russell Nelson is coach.

## Field Day Attracts 100 FFA Members

Some 100 members of Future Farmer of America Chapters located at high schools throughout Santa Barbara and San Luis Obispo Counties took part in a field day Saturday at Cal Poly. Sponsored by the Agricultural Education Club and Young Farmers chapter, the event began with welcoming remarks from dean of Agriculture, Warren T. Smith, and concluded with attendance at the Cal Poly-Long Beach State College football game.

Members of the Cal Poly Agricultural Education Club concluded the formal presentations of Chapter Farmer Degrees to qualified members of various high school FFA Chapters and the presentation of awards for the "best informed" chapter.

## CU Show Has Night Clubbish Air

By LYNNE PRINDLE

The setting was wrong Thursday evening when the College Union Assemblies Committee presented the Dick Gregory show in the Men's Gym.

There were no glasses clinking, no tables and no cover charge, just an entrance fee. Three night club acts performed behind pink lights used to try to give the night clubbish feeling to the affair.

Vince Guaraldi's trio headed by a little man covered with a handle bar moustache, binged out its impressions of such songs as "Limehouse Blues," "Fly Me To The Moon" and their interpretation of Henry Mancini's "Mr. Lucky." Highlight of the trio act was the song Guaraldi wrote and recorded, "Cast Your Fate To The Wind."

Miss Margie McCoy, the femme fatale of the concert, sang everything from ballads to an encore of rock and roll. Entertaining the audience with such hits as "Joey" and the American folk song "The Careless Love," Miss McCoy screwed up her eyes, doubled her fists and throtled the microphone to give them everything she had. She gave an excellent performance, although her true vocal qualities came through only during her softer, more subtle numbers.

The audience waited their way through these prior performances in eager anticipation of hearing Dick Gregory, star of the tour.

With a sly, bottomless capacity for understatement the dark, stooped figure perched on a stool before an audience of 3,000 people and

attacked everything from the President of the United States to the public school system. The rounded figure of Dick Gregory did not seem compatible with his sharp edged wit.

Able to localize some of his material before his appearance on stage, Gregory delighted his audience with such quips as "If you want an easy way out of an embarrassing situation of flunking out of school, I'm throwing a barbecue in town in the morning." A little later on he was heard to say, "I have a definite idea what you people call barbecuing, we call it something else."

As he dodged in and out of a cloud of smoke created by eight cigarettes, he attacked the public school system with a Kennedy man's vigor.

"Clemson College said they will accept any person who can pass the entrance requirements whether they're black, white or green, and I'll be damned if I'm going to send my kid to the same school as the Jolly Green Giant." And of prayer, he commented, "Pretty soon when kids gather in the back of class, the teacher yells, 'Hey, what are you doing back there? Telling dirty jokes? That's O.K., I thought you were praying.'"

The little man with the crescent-shaped moustache who remarked, "If the Russians are hungry send 'em cranberry sauce and tuna fish," captured his audience with his cataloguing of wrongs and his reading of indictments. The stronger his satiric comments, the more coveted they were. He captured the spectators and then let them loose as it was his time to go "sit-in on a South Carolina restaurant."

The entire show was fast moving and with a few exceptions left little to be desired by the audience.

## LITTLE MAN ON CAMPUS

SO MUCH FOR WHAT'S EXPECTED OF A "C" STUDENT - NOW IF YOU WISH TO EARN A "B"...

## EDITORIALS

## Voting Is Very Easy

Today and tomorrow some 3,000 Cal Poly students will exercise a right that few Americans hold most dear to their hearts.

They will vote.

This campus-wide election concerns Homecoming—choosing from among 10 beautiful and lovely coeds the four that will be princesses and the most "queenly" as Queen.

We hope that more than the 1,829 students who voted last year will exercise that fundamental right to cast their ballot and select the girl of their choice.

But we still wonder why only half the student body will step forth and be counted at the polls today and tomorrow.

This is a college campus, where supposedly the cream of today's young people who will form tomorrow's leading citizens are educated and taught the intricacies of living in a complicated and changing world.

However, this world must be complicated indeed if only half the student body can find the time to vote. The campus' 50 per cent voting record doesn't even meet the national average.

Just how complicated is this process of voting?

Not very. We have no registration procedures, no residency requirements, allegiance oaths, poll taxes, literacy tests or long voting lines. We don't even have discrimination.

And finding a polling place on campus is easier yet. Not one or two, but three booths are located around campus in strategic places. There are polling booths located in the El Corral Snack Bar patio, near the Math Building, and in front of the Post Office.

Homecoming election will run for two days instead of the usual 7 a.m. to 7 p.m. one day rush in the national, state and local elections.

Polling will be done on IBM cards to facilitate counting and speed the process of voting. Results will be known within hours after the election closes.

Although coffee and doughnuts won't be served in this election, members of Election Committee will be on hand to supervise and help with the balloting.

All in all the process of voting here on campus is made as easy as possible.

Placing the "X" by the most "queenly" candidate is the only hard part.

D.K.

## 'Culture Lag' Eliminated

The first in a series of monthly College Hour musical programs was presented recently by Emanuel Heifetz and Ronald Ratcliffe of the Music Department.

A near capacity crowd in the Little Theater heard and saw Ratcliffe on the harpichord and Heifetz on the violin play a stirring duet concert.

It is heart warming to know that the Poly student has an opportunity to hear music played in such a high caliber and by such artists.

For on a campus with what is normally a "cultural lag society," the chance to see a live performance is virtually nil.

However, we do have complaints about the College Hour performance.

It only lasted an hour. And we will have to wait a month for another concert.

D.K.

## Braceros Exploited

Editor:

I attended the Agriculture Council's program featuring a speech by Milton M. Teague and the movie, "Why Braceros?" I would like to comment on the program.

Teague said that some growers will move operations to Mexico if the bracero program is not renewed. His comment tells us much about some of our growers.

These growers boast of their contribution to the economy of the state as long as they can hire cheap bracero labor. But when the cheap labor source is threatened, do these growers consider paying higher wages to attract domestic workers?

No! Their main concern is having a cheap labor supply.

Teague simply pointed out that agriculture pays billions of dollars into circulation in California. The paradox is that domestic agricultural workers remain one of the most exploited groups in our labor force.

The movie, "Why Braceros?" said that farm workers' wages have risen. True, they have risen from the Depression rate of 15 cents an hour. Now braceros are entitled to a minimum wage of \$1 an hour. Yet, adult male domestic workers are not protected by any minimum wage law and under some piece rate arrangements not even \$1 per hour is paid. (See "California Farmer," Sept. 7, 1963; p. 47)

The movie implied that domestic workers are offered the same benefits that braceros get. The truth is that the growers oppose a Senate amendment to the bracero law that would give domestic workers benefits equal to those given braceros in workmen's compensation, housing, transportation and minimum work guarantees. (See "California Farmer," Sept. 7, 1963; p. 6)

The facts are clear. The bracero program, for all its merits, is the growers' ploy to exploit domestic agricultural workers. And it is obvious that the growers want the exploitation to continue.

## 2-Year Hitch Vs. Coeds

EDITOR:

Perhaps from a woman's standpoint the situation Lynne Prindle describes is a natural and practical reaction to JFK's recent decree.

However, looking at this campus at the hair curlers and manured boots many of us eligible males are inclined to believe that two

## College Union Calendar Jam-Packed

By DONNA BOCKEMUEHL and LEE OLSON

Let's have a "barbecue."

Sound good? Then come to the College Union Outings committee meeting Tuesday in ScA 11 at 7 p.m. to help make plans for a get-together at Santa Margarita Lake in the Spring Quarter.

For Winter Quarter, this committee is planning a snow trip. And at the present, all systems are "go" for a student body tour of Hearst Castle Saturday, Nov. 23.

Details of the trip will be disclosed at a free movie about Hearst Castle Nov. 17 in AE 123 from 11 to 12 a.m. (College Hour). The Homecoming Queen and her court will be presented at the showing and will receive complimentary entry tickets for the tour.

Through the magic of color photography, the story of Easter Island comes to life Nov. 18 at 8 p.m. in the Little Theatre. The people, the history, the mysterious stone images of this strange land 2,200 miles from the nearest mainland and 1,600 miles from the nearest inhabited island and whose only contact with the outside world is a yearly supply ship will be shown that night.

Authoritatively narrated by Gaea de Rosner, noted motion picture producer and author, the film shows the giant stone images up to 50 feet tall on an island where there is no metal and very few trees. How were these images carved

and erected? This film will be one you won't forget!

Our congratulations to the Assembly Committee for the Dick Gregory program held last Thursday night. Many people have the impression that this is just an ag school with no trace of culture. Programs such as this do a great deal to show the public that our college is becoming more cosmopolitan and cultured every year.

Calling all volleyball players! There will be a two-man-team tournament, 7 p.m. Nov. 12 in the Men's Gym. Beach court rules will be followed and there are trophies for the top three teams.

No pregame is necessary, just show up at the Men's Gym. For more information contact Carl Carlson in Fremont 302.

An organizational meeting for a Coin Club will be held Wednesday, Nov. 20 in ScE 47 at 7:30 p.m. and for a Stamp Club on Thursday at the same time and place. Trading and selling will take place in both clubs, so come in and fill out your collection.

Any and all students who play bridge or would like to learn, are invited to attend the first meeting of the Bridge Club on Nov. 18 at 7 p.m. in AE 241. Refreshments will be served.

We have heard from a reliable source that the movie this Friday will be "High Time," starring Bing Crosby. Check Friday's column for details. CU soon.

## Ike Urges Contribution To Peace

Former President Eisenhower is urging college and university students to make a personal contribution to peace by joining People-To-People, the world friendship movement which he heads.

Eisenhower characterizes the seven-year-old movement as "an epidemic of friendship among peoples of the world" and says its activities "should be increased a hundredfold."

Thousands of local projects have been undertaken already—by People-To-People, Eisenhower says. University chapters have been effective in many of these.

"The university program extends the hand of friendship in a dozen ways to many of the 65,000 foreign students now studying in this country," he adds. "It is difficult for a foreign student, who usually knows nothing of our employment procedures, to get a job without such assistance."

Other examples of the People-To-People activities include the following:

A PTP chapter in Joplin, Mo., arranges for foreign visitors to have dinner and spend an evening with local families. PTP has sent hun-

dreds of thousands of books to book-hungry towns in Asia and Africa. Sports teams have been exchanged and sports equipment sent to cities and towns abroad. Hundreds of thousands of Americans correspond with foreign "pen pals."

More than 250 American communities have formed "sister-city" exchanges with an equal number of cities in 52 foreign countries. Among these "sister cities" are New York and Tokyo; Washington D. C. and Bangkok; Oakland, Neb. and Hammahog, Sweden; Chicago and Milan.

Sister cities regularly exchange teachers, students and other visitors. Books, photographs and tape recordings are also part of the two-way flow. York, Pa. and Arles, France carry on a flourishing exchange which some years ago led to a York teacher marrying the mayor of Arles.

Chief value of PTP, says Ike, is to strengthen friendship among free countries of the West. But he believes the program will ultimately reach behind the Iron Curtain, "for the citizens of Communist countries want peace and friendship just as much as we Americans do."

of Audio-Visual's agricultural film strips. Looking on is Dr. J. Barron Wiley, coordinator of Audio-Visual Education. (Photo by Leap)

# SLO, Pomona Campuses Top West In Undergraduate Engineer Enrollment

By BRUCE McPHERSON

A total of 3,381 students are enrolled in the Engineering Division on Cal Poly's San Luis Obispo and Pomona campuses, making the largest undergraduate school of engineering in the West. Dean of Engineering, Harold Hayes, says a total of 783 freshmen are enrolled in the eight engineering departments making 2,085 students enrolled in the Engineering Division at San Luis Obispo. At the Kellogg-Voorhis campus, 1,296 students are enrolled in five engineering departments.

Included in the five departments at Pomona are Civil Engineering, Aerospace, Electronics, Industrial, and Mechanical Engineering. Aside from the last four mentioned as being taught at Pomona, the San Luis Obispo campus also includes Air Conditioning, Architecture, Electrical Engineering and Welding and Metallurgy in its curriculum.

Architectural Engineering has the most regular students enrolled here with 565 and the Electronics Department is second with 527. There are 389 majors in Mechanical Engineering, 139 in Electrical Engineering, 108 in Industrial Engineering, 100 in Air Conditioning and Refrigeration and 44 in Welding and Metallurgy. Electronics is the favorite at the Pomona campus with 613 majors in

the department, 350 more than any of the other departments.

Of the 2,000 plus engineering majors here, 316 are seniors, 465 are juniors, 571 are sophomores and 733 freshmen.

A total of 75 architects should complete degrees this year, according to Hayes, along with 68 Electronics, 70 in Mechanical Engineering, 31 in Aeronautics, 31 in Industrial Engineering, 21 in Electrical Engineering, 14 in Air Conditioning, and 6 in Welding and Metallurgy.

Asked why students came to Cal Poly for study in Air Conditioning and Refrigeration, Instructor Rodney Keif said, "Mainly because it is the only one in the United States offering a bachelor of science degree."

Job opportunities available for engineers are plentiful, as any

student may find in the Placement Office, Hayes said.

For instance an EL major with three to five years experience may earn \$600 to \$800 a month; an IE major without any experience may earn \$600 to \$850 a month; an EE major may be eligible for a job offering \$625 a month.

"Among state colleges our reputation and nature of our program has influenced many students to come here. Our method of emphasizing practical application is somewhat different from other schools, and this is why we get a large bulk of students entering the engineering departments," Hayes said.

The first engineering department BA degree was granted in 1942. The Aeronautical, Mechanical, Electrical, and Air Conditioning and Refrigeration Engineering Departments were established before degrees were being granted in 1942. Since that time, the Architectural and Electronic Departments were established in 1946, and the Industrial Engineering

and Metallurgy Departments about 10 years later.

Covering a spectrum of fundamental research and semi-routine operations, engineering includes understanding problems, analyzing them and applying them to technical systems for a solution. General experience, mathematics and science are all of importance to the engineer.

"Our most important goal of instruction at Cal Poly is to provide industry with engineers who have the ability to succeed in the business world today. We feel we are teaching many capable engineers," Hayes concluded.

## \$100 REWARD

On Thursday, Oct. 24, a Honda 250 CC Black Scrambler was missing from in front of the Little Theater. \$100 offered to anyone with information leading to the return of the Honda.

### Ski Fashion Show

A ski fashion show will be presented by the Ski Club Nov. 19. The clothes will be from Hub Bauer Sporting Goods of Fresno. Everyone is invited to attend.

Jay Mitchell is this year's president and is assisted by Jerry Hitchcock, vice-president; Jack Chapman, treasurer; Candi Yeager, secretary; Hurt Curtner, race chairman, and Wendy Pirog, publicity chairman.

This year the club has planned three weekend trips to Yosemite, the first will be the second weekend of Winter Quarter.

Meetings for the Ski Club are held every second and fourth Wednesday. Watch the Pony for details.

### Sponsors Ground School

Attention future fliers! Starting Nov. 12 in GA 304 at 7:30 p.m. the Mustangs Flying Club will sponsor a pilot ground school.

Any student wishing to attend may do so. The class will be taught by Frank Mayne, a certified flight instructor, and it will contain all the knowledge you need to know to pass the written examination. The class will last for two hours a night for 10 weeks. There will be a charge of \$20 per person. Normally it costs \$65 for this instruction. You do not need to be a member of the Mustangs Flying Club to participate in the class.

Any student interested in flying is invited to attend the weekly meeting of the Flying Club at 7:30 p.m. in Adm. 200. This year's officers are president, Tom Harris; vice-president, John Goodell, and treasurer, Mark Greenhalgh.

### Coronation Ball Plans

Herb Miller's Band will furnish the music for the Coronation Ball which will top off the Homecoming activities with the crowning of the Homecoming Queen. The big event will be held at 9 p.m. on Saturday night, Nov. 16 in the Men's Gymnasium.

The Coronation Ball is being sponsored by the Ag. Business Club, which besides providing the Herb Miller Band, will provide the setting of a very enjoyable evening for students and alumni.

### Candle Making

Christmas candle making will be the topic for the evening of the Cal Poly Student Wives Club meeting Nov. 5 at 7:45 p.m. in the Lib. 129.

There will also be a turkey door prize so bring canned goods and 25 cents. All student wives are urged to attend.

### Placement Man To Speak

Eugene Rittenhouse from the placement office will be the guest speaker at the Bolis Club meeting Nov. 7 at 7:30 p.m. in Sci A-12. Rittenhouse will talk on placement procedures for promising senior students. Any student interested may attend and refreshments will be served after the meeting.

### WAA Wins At Fresno

Cal Poly's Women's Athletic Department sent its first volleyball team to compete in extramurals at Fresno State College Oct. 19.

Out of six games played, the Cal Poly team remained undefeated. Winning members on the team include Kathy McBride, Donna Jones, Carolyn Johnson, Captain Pat Gardner, Karen Brown, Chris Iverson, Peggy Heddy, Moira Henderson, Pat Stone and Ruth Rusk. Miss Doris Thomas is the team advisor.

### Gas Company PR

William A. Hynes of San Francisco, manager of the Public Activities Department of the Pacific Gas and Electric Co., was guest speaker Tuesday to a class in customer relations.

Title of the special presentation was "Public Relations as it is Applied to the Pacific Gas and Electric Co."

### Corinthians For Sailors

Are you interested in sailing? If you are, then the Cal Poly Corinthians is for you.

The main purpose of the club is to promote sailing at Cal Poly. Both black board and practical experience on the water instruction is offered.

For the more advanced sailors who qualify as skippers there are two club boats which can be checked out at any time.

Some of the activities that are planned this year are club membership sailing day ending in a barbecue in the evening and handicapped racing with outsiders from Morro Bay and San Luis Yacht Clubs. Most of the sailing is being done in Morro Bay this fall. During the spring Laguna Lake will be used.

The Corinthians Club is closely associated with the Intercollegiate Sailing Team. This is an ASB budgeted group and competes with other schools. So far the team has a second and third in this seasons competition out of eight schools participating.

The officers for this year are Commodore, Bill Lee; vice-commodore, Bob Segeman; treasurer, John Gilbert; fleet captain, Bob Ritchie; secretary, Anne Framp-ton; and sailing team captain, Jim Davies.

The Corinthians meet every Thursday evening in Sc-E 46 at 6:30 o'clock. The membership is open to all Cal Poly students and faculty. So far there are 75 paid members in the club.

### Westinghouse Speaker

Dr. Klaus K. Schuegraf, manager of device design and development group for integrated semiconductor circuits for Westinghouse Electric Corp. will speak on "Microminiaturized Circuits" at the November meeting of the Cal Poly Student Branch of IEEE.

Dr. Schuegraf holds his BS and MS degrees in physics from the University of Tuebingen. His PhD in Physics was earned at the Technische Hochschule, Stuttgart. The meeting will be Thursday, Nov. 7 at 7:30 p.m. in the Air Conditioning Auditorium.

Work being done in this area is revolutionizing the industry.

### Press Club Sides Shows

"A Trip to Europe" will be featured at the Press Club meeting Thursday night at 7:30 in GA 106. A brief news film made about the Ag Journalism program here will also be featured. Pictures for the journalism show case will also be taken and plans for future trips will be discussed.

All students that are interested in publications are urged to attend. Refreshments will be served.

## Cotton Maid Candidate Is English Major

Miss Julie Aborn, a 20-year-old English major from Whittier, is a finalist in the Maid of Cotton contest to be held in Fresno Nov. 16-17.

She has won an all expense paid trip to Fresno. While in Fresno, Julie will appear on television and also participate in a press conference. She also will have a personal interview with the judges and will make her first public appearance at an afternoon luncheon where she will give a two minute extemporaneous speech.

The pageant will be at the Rainbow Ballroom, Saturday evening when the State Maid of Cotton will be chosen.

The pageant will include introducing of each contestant, announcement of State Maid, dinner and dancing. The girl's escorts will be from the Lemore Naval Air Base. The luncheon and the pageant will be open to the public.

The girl selected as the California Maid of Cotton will receive a \$1,000 scholarship, an extensive cotton wardrobe and an all state tour as a goodwill representative of the Cotton Industry and also a trip to the National finals in Memphis.

### Personal Office Visit To VA Seldom Necessary

A personal visit to a Veterans Administration office is seldom necessary, Mort Webster, manager of VA's Southern California Regional Office, said today.

Information regarding any phase of the program for veterans can be secured by writing. Application for benefits may be made by mail to the Veterans Administration Regional Office, 1380 South Sepulveda Blvd., Los Angeles.

Only when a physical examination or similar personal contact is necessary does the veteran have to come to the office in person, Webster said. He explained that the VA had purposely established a thorough service by mail to save veterans the inconvenience of taking time from personal affairs to travel to a VA office.

"The VA is as close as your mailbox," Webster said.

## 8 Named To Faculty Library Committee

Appointment of the 1963-64 Faculty Library Committee became official recently when the Executive Council approved the nominations of the four instructional division deans.

Appointed to two year terms on the campuswide committee were Dr. LeVerne Buxy, Alfred E. Andreoli, Dr. Bernice Loughran and Dr. Howard Walker. Appointed to fill one-year terms were Dr. Gary Fuller, Dr. Oscar Reese, Ed Stoffel and Roger Sherman.

The committee, which will elect its own chairman, has a three-fold purpose to increase the effectiveness of the instructional use of the library; to serve as liaison between the teaching staff and the library staff and to serve as an advisory body to the college librarian and the dean of the Applied Sciences Division, under whose jurisdiction the library has been placed for administrative purposes.

## THE BELL TELEPHONE COMPANIES SALUTE: DICK KUSSMAN

Dick Kussman (B.A., 1953; M.A., 1959), in the short span of three years, has advanced through Pacific Telephone's management achievement program to what the company terms "district level."

In his new job as divisional commercial supervisor, he assists in the administration of over 276,000 subscriber accounts in the Los Angeles area.

During his short telephone career, Dick has had responsible assignments in the marketing, traffic and plant departments. Prior to his latest promotion, he spent nearly a

year as commercial staff supervisor in charge of management and non-management training.

Dick has shown his capacity for increased responsibility, and has opened up a bright future for himself with the Telephone Company. The proof is in his rapid advancement to a managerial position at the district level.

Dick Kussman, like other young men, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

## THE SAFE WAY to stay alert without harmful stimulants

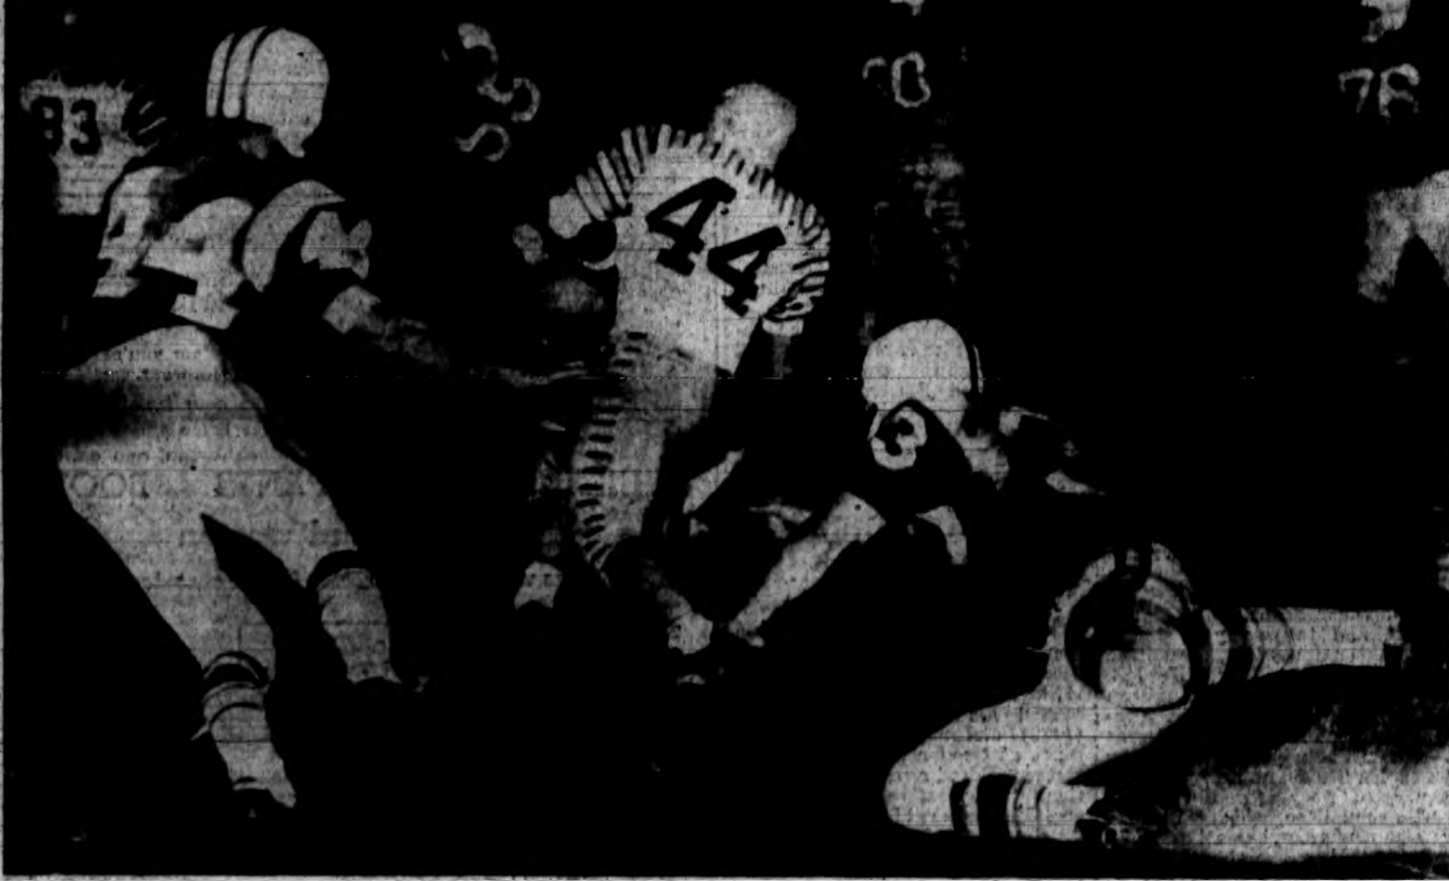

NoDoz keeps you mentally alert with the same safe refreshment found in coffee and tea. Yet NoDoz is faster, handier, more reliable. Absolutely no habit-forming.

Next time monotony makes you feel drowsy while driving, working or studying, do as millions do... perk up with safe, effective NoDoz tablets. Another fine product of Grove Laboratories.

# Same Old Story—Mustangs Lose Another

## El Mustang SPORTS

WHAT AM I DOING HERE? ... This must have been the feeling of Long Beach State's Hichman (44) who finds himself in the center of a group of Mustangs in Saturday's game. Identifiable Mustangs include Steve Howell (44), Jack Clark (33), Frank

Blakemore (55), Anthony Tomasso (61), John Roque (30), and Bob Maties (76). Hichman's only support comes from end Rex Barrell (85) on the left. The Long Beach team romped to a 28-6 win over the Mustangs.

## Fourth Quarter Rally Gives 49ers Victory Over Faltering Poly

Like an early spring flower, an early Cal Poly lead wilted and died Saturday night as the Long Beach 49ers defeated the Mustangs 28-6 on the losers field.

The loss leaves the Mustangs with a 1-6 over all record and with a 1-4 league mark.

With the Mustangs completely dominating play in the first quarter, local spirits rose to unaccustomed heights in the opening stanza.

Long Beach put the game out of reach in the fourth quarter with a 21-point spurt to take the victory.

Electing to receive the opening kickoff, the Mustangs controlled the ball for the first 15 minutes letting the visitors have the ball for only six plays in the first quarter.

Midway in the first quarter the Mustangs began a drive from their own 15 yard line.

With fullback Jack Clark carrying most of the load, they moved to the Long Beach 12 as the quarter ended. On the second play of the second period, quarterback Howard Taylor passed to end Wayne West in the end zone for the Mustangs only touchdown of the game.

Bill Crow's try for the extra point was blocked.

The 49ers wasted little time in evening the score following the kickoff. Dee Andrews, 49er scab-back, toured the left end for 42 yards to the Mustang 30, and five plays later, Andrews dove two yards for the score. The kick for the PAT was good.

Mustang halfback Steve Howell gave the local fans something to yell about as he took the kickoff following the Long Beach TD and raced 60 yards to the 49er 22 before Andrews caught him from behind.

From here quarterback Fred pass to West was intercepted by Richelleu moved the Mustangs to the Long Beach five but a look-in the 49ers. It was returned 100 yards for a touchdown that was nullified by a clipping penalty.

Long Beach retained possession on their own two-yard line and moved to their own 45 where they were forced to punt.

For the rest of the half, the play remained in the center of the field with neither team able to mount a scoring drive. On the last play of the half, the 49ers tried a 30-yard field goal. It fell short and was returned 14 yards by end Bill Brown as the gun sounded.

In the third quarter, the visitors moved to the Mustang 18 where they ran out of downs. Two plays later, the Mustangs gave the ball right back to the Long Beach eleven on a fumble. Three plays later with the ball on the Mustangs seven, tackle Joe Faria recovered an Andrews fumble to stop another threat.

Then came the fourth quarter. On the fourth-play of the final period, the 49ers culminated a 37-yard drive with a nine yard scoring play to give them a 14-6 lead.

With eight minutes left to play, 49er Jim Anderson picked off a Taylor pass and raced 65 yards for another Long Beach score as the fans began to pack their bags and leave.

The visitors added icing to the cake with only 45 seconds left to play in the game with a 48-yard pass play.

Leading ground gainer for the Mustangs was fullback Clark who picked up a net of 44 yards in 11 carries. In the passing department, the Mustangs completed 16 out of 23 passes for 194 yards. Taylor completed 10 out of 13 while Richelleu hit on six out of 10 attempts.

Andrews led the 49ers in rushing with a net of 64 yards in 16 carries. Fullback Bill White was not far behind with a net of 78 yards in 13 tries.

Next week, the Mustangs will travel to Los Angeles for a Saturday night game with the L A State Diablos, who are currently battling for the top spot in the California Collegiate Athletic Association race.

Score by Quarters  
L B STATE 0 - 7 - 0 - 21 - 28  
CAL POLY 6 - 0 - 0 - 0 - 6

Scoring plays  
CP—West, 10 yard pass from Taylor, kick failed  
LB—Andrews, 2-yard run, kick good  
LB—Michaelian, 9-yard run, kick good  
LB—Anderson, 64-yard pass interception, kick good  
LB—Brown, 67-yard pass from Otterson, kick good

seidom could move the ball into scoring position.

Against the northern invaders, UOP, the Mustangs defensive unit held the visitors to below their average points per game, but couldn't take advantage of the situation.

Gary Cappell, Roger Mohlad and Deaton led the locals attack during the two game set.

Len Deaton managed to get the Mustangs on the scoreboard against the 49ers late in the fourth quarter with a 10-foot shot from the left of the cage.

The Mustangs lack of offensive punch hampered them throughout the game with the 49ers as they

## Cagers Drill Strong Second Half Gives USC 33-6 Victory Over Fighting Colts

## 33-6 Victory Over Fighting Colts

By WILBUR C. MILLER

Coach Ed Jorgensen and his Mustang basketball players are now entering their fourth week of pre-season drills as they prepare for the season's opener Nov. 30, against the Alumni.

Over 40 candidates for both varsity and freshman squads have shown up for practice during the past weeks. Cal Poly will play without the services of last year's graduating seniors Bob Wilnot, Ken Anderson and Fred Brown, who helped Poly wind up with an 11-13 season record.

This year's Mustang cagers will feature Bob Horwath who captured the California Collegiate Athletic Association individual scoring crown last season. He ended the season with 246 points in 12 games for a 20.5 per game average. Horwath has a good chance of drawing All-American mentions this season.

Mike Williams and Mario Pectie, both 6-1 guards who dropped off last year's team because of grades, will be back this season. Coming up to the varsity from last year's freshman squad will be Norm Angell, a 6-4 center from Albany, and forward Jim Nash, 6-4, who came to Poly from La Puente High School.

Junior transfers who will be bidding for berths include Howard Utterback, Ernie Bray, Steve Maszoni, Gary McArthur, Jim Triplette and Jim Elliott.

Utterback is a 6-4 center from Hartnell Junior College. Elliott, 6-3, from Pleasant Hill, didn't play ball while attending junior college but is considered a fine prospect who could help the Mustangs if he continues to develop. McArthur is a 6-3 forward from Carrizo Junior College. Guards in the 6-10 range are Maszoni from Fresno City College, Bray of Marin Junior College and Triplette from Juneau, Alaska.

Jorgensen reports, "The 1968-69 squad appears to have a lot of hustle and is looking good in the early drills." The freshmen are being coached by Dick McElveny, a new instructor who graduated from Poly six years ago. They have good size and will help the varsity in the future.

Vic Buecola's Colt gridders sent USC's halfback Steve Grady, who states, "I am the greatest," to the showers after the first scrimmage play of the contest, but the Trojans bounced back to route Cal Poly 33-6 Saturday morning in Mustang Stadium.

The Trojans scored minutes after the opening kick-off. Grady powered his way 6 yards up the middle and then hauled to leave the game because of a leg injury. Twelve plays later signal caller Dick Elliott passed to Ty Salness for a 25-yard touchdown play. Fullback Robert Young kicked for the PAT giving USC an early 7-0 advantage.

Poly bounced right back with what appeared to be a scoring drive as halfback John Davis scampered 4 and 23 yards on consecutive plays for first downs, placing the ball deep in Trojane territory. However, a fumble turned the ball over to USC, then stopping that drive.

After holding SC with a terrific defense, the Colts assembled a

powerful scoring drive early in the second quarter. On a fourth down and 14 yards to go situation, the Colts went into punt formation.

The pigskin was centered to halfback Joel Hall instead of punter Jack Wool and Hall romped 21 yards for a first down to the Trojane's 30-yard strip. Halfback Josh Carter then drove up the middle 4 yards.

Signal caller Wool then fired a missile into the waiting hands of end Michael Schwerm all alone in the end zone for the Colt score. Wool's pass to end Larry Cromier for a two point conversion try was overthrown thus making the score Cal Poly 6, USC 7.

The Trojans starting line-up, worth well over \$12,000 in scholarships, rallied again in the second quarter for a score. Elliott passed to fullback Dave Buck for 35 yards and a first down on the Poly 40 yard line. Quarterback Paul Nyquist then elected to bootleg the ball for a 15 yard gain. Three plays later, the ball was on Poly's 10-yard strip.

Elliott again passed to Buck this time for 4 yards down to the Colt's 2 yard line. Halfback Rick Lilly carried the ball over 2 yards for the second Trojane score of the contest. Young again kicked for the PAT giving USC a 14-6 halftime advantage.

Both squads were held scoreless during the third period. Two of Poly's defensive men, Schwerm and Mickey Workman, did a tremendous job during the third quarter in stopping the Trojans.

Early in the final stanza of the game, Nyquist was thrown for a 25 yard loss. It was now second and 40 yards-to-go for USC on their own 25-yard strip.

Elliott came back into the game and fired a beautiful pass to Salness for a 75-yard touchdown play. Young's kick for the conversion was good as SC increased its lead to 21-6.

The Trojans scored four minutes later as Elliott again passed to Salness for a 29-yard touchdown play. The extra point was missed giving USC a 27-6 advantage.

The final score of the contest came as Colt Ron McNabb's pass was intercepted by Buck on the USC 30-yard line. USC's quarterback Jack Morea then elected to

keep the ball for a 41-yard gain, placing the skin on the Poly 18-yard strip.

After three running plays the Trojans were down on the Cal Poly 2 yardline where Morea carried the ball over for the final score. Young's kick for the conversion was no good giving SC a 33-6 advantage.

The final play of the game saw McNabb pass to end William Jackson for a beautiful 39 yard play, giving Poly the ball deep in USC territory. However, the gun sounded before another play could be run thus ending the game.

In the statistics department for the Colts Davis was the leading ground gainer with a plus 42 yards. In the passing department Jackson, Cormier and Schwerm racked up 66, 46 and 37 yards respectively. Cal Poly gained a total of 246 net yards for the game. The Colts finished their 1968 season with a 2-3 overall record.

## Mermen Lose Two

Scoring only four goals in two games, the Cal Poly water polo team suffered a pair of setbacks last weekend in non-league action.

The Mustangs were dumped by strong Long Beach State 14-1 on Thursday and lost to UOP on Friday, 5-3.

Murdock Fraser was the big gun for the Long Beach squad that scored at ease throughout the game. Fraser scored five times to lead the team.

Len Deaton managed to get the Mustangs on the scoreboard against the 49ers late in the fourth quarter with a 10-foot shot from the left of the cage.

The Mustangs lack of offensive punch hampered them throughout the game with the 49ers as they

seidom could move the ball into scoring position.

Against the northern invaders, UOP, the Mustangs defensive unit held the visitors to below their average points per game, but couldn't take advantage of the situation.

Gary Cappell, Roger Mohlad and Deaton led the locals attack during the two game set.

Gary Cappell, Roger Mohlad and Deaton led the locals attack during the two game set.

LOW, HARD TACKLE ... Colt Robert Howard (84) makes driving stop of Trojane Jack Morea (18) in second period action of Saturday's game. The USC team put on a second half spurt to defeat the Colts, 33-6.

## Facility Men Lick Animals In Big Game

Do they like to see mail in the boxes? Do they exist?

The ASB office reports an abundance of mail piling up in the boxes of certain clubs and organizations on campus. How about taking them out?

For the benefit of those in doubt the following list of offenders has been compiled: Chase Hall, Residence Hall Council, CSTA, Baptist Student Union, Bowling Club, Bridge Club, Farm Center, Hill Honor Society, Hui O'Hawaii, Model United Nations, Mustang Flying Association, Semper Par, Soil Conservation Society, Technical Arts, WAA, Wool Growers, Writers' Forum, Young Democrats, Palomar Hall and Art Club.

A strong North Facility football team took a big step towards the intramural championship by defeating the previously undefeated Animals United team, 13-0, in the feature game last week.

A quick opener up the middle in the first series of plays, and a 45-yard pass play put the North Facility team on the scoreboard twice in the first half, enough for the victory.

In other important games, Circle K continued its winning ways with a 14-0 victory over the Dairy Project in the Wednesday league and Trumbull won its fourth in a row with a 47-0 romp over Monterey Downs in the Monday league.

Because of the change back to standard time, the early games will now start at 3:45 with the late games to follow immediately announced Vaughn Hitchcock, intramural coordinator.

WEEKS RESULTS  
Monday League  
Garfield Arms 19, Industrial Engineers 0.  
Tenaya Penthouse 16, Lassen Loosers 0.  
Fremont 47, Monterey 0.  
Tenaya Woods defeated Air Conditioning (forfeit).

Tuesday League

seidom could move the ball into scoring position.

Against the northern invaders, UOP, the Mustangs defensive unit held the visitors to below their average points per game, but couldn't take advantage of the situation.

Gary Cappell, Roger Mohlad and Deaton led the locals attack during the two game set.

Len Deaton managed to get the Mustangs on the scoreboard against the 49ers late in the fourth quarter with a 10-foot shot from the left of the cage.

The Mustangs lack of offensive punch hampered them throughout the game with the 49ers as they

seidom could move the ball into scoring position.

ALL CCAA ... Mustang backcourt ace Bob Horwath will attempt to set many school records this year in league action. The 6-foot-2 guard will lead his team against the alumni on Nov. 30.

## Wrestlers Open Season

Looking forward to another winning season, the Cal Poly varsity wrestling team will officially open practice today at 4 p.m. in the wrestling room of the Men's Gymnasium according to Vaughn Hitchcock, head coach.

One of the highlights of this seasons grappling schedule will be held on the Cal Poly campus as the Mustangs host the Pacific Coast Intercollegiate Wrestling Championships this year.

All interested in wrestling and those interested in trying out for the squad should report to Hitchcock today at 4 p.m.

**The Eloquent Gift**  
By RUDY ELVA, R.J.  
Registered Jeweler  
American Gem Society  
Diamonds are today the most heartwarming of all gifts, not just for their brilliance and beauty, but because they are so eloquent. Without uttering a sound, a diamond says everything you can say and more. Diamond jewelry is all things to all women—a mark of quiet elegance on one and a banner of brilliant fashion on another. The man who gives diamonds shows that he knows what is smart for women to wear. The diamonds best able to speak for you are on display at:
