### Polys Unite For 2-Day Festivities

A weekend of organized entertainment is in store for student body members of both campuses of Cal Poly, Feb. 21-23, during All-Poly Weekend.

Students from Cal Poly's Kellogg campus will join the San Luis Obispo campus student body members in a myriad of activities planned especially for the weekend, which will be the first effort on the part of both student bodies to promote an annual exchange event between the two Cal Poly campuses.

Registration of incoming students from the Kellogg campus will take place on Friday, Feb. 21, when chartered buses begin arriving from the southland.

Kellogg and San Luis Obispo students will attend a performance of "Antigone," enjoy dancing nightly, Friday and Saturday (Feb. 21 and 22) and participate in campus tours, intercampus competitive sports and a hootenanny during the weekend.

Visiting students will be housed on campus and in student homes on campus during their three-day stay and will have an opportunity to compare food at the campus here along with everything else by eating in the Student Dining Hall.

A special reception in the Temporary College Union on campus is also scheduled for Friday night in order to give everyone an opportunity to become acquainted.

A full schedule of events for Saturday include a film, a double-header baseball game, and a wheelchair basketball game which students may attend.

Total cost of lodging and food for the visiting students will be \$4.50 and pre-registration will take place on the southern campus prior to the event.

Cal Poly students here will register for the activities during the week preceding All-Poly Weekend.

### Pomona Wrestlers In Car Accident; 2 In SLO Hospital

Two student wrestlers from the Kellogg-Voorhis (Pomona) campus were injured Sunday afternoon in a one-car traffic accident about one mile south of Santa Margarita on Highway 101.

Robert E. Anderson and Anthony C. Chou, both 22, were hurt when the right rear tire of the car in which they were riding blew out, causing the vehicle to overturn on the divider strip.

The two members of the school's wrestling team, were returning from a match in San Francisco when the accident occurred. Raymond Charles Daugherty, 35, of Glendora the team's coach, was driving when the accident occurred, according to the California Highway Patrol.

Anderson and Chou were taken to Sierra Vista Hospital in San Luis Obispo immediately after the accident and were reported to be in satisfactory condition yesterday. A hospital spokesman said it was expected that both would be released from the hospital sometime today.

"I heard a bumping noise and we slowed down. Then the tire blew and we swerved into the divider strip and rolled," Anderson told an El Mustang reporter yesterday. Anderson received head lacerations, and Chou incurred shoulder injuries in the accident, according to hospital spokesman.

The rest of the team returned to the southern California campus Sunday night.

Besides Anderson, Chou and Daugherty, Cal Poly wrestling members in the car included Joe Campbell, 19; Lawrence R. Miller, 23; Robert E. Hather, 19; Eugene Hutchins, 21; Harold Beach, 22; and Walter J. Shaw, 20. All are Southern California residents.

The car in which the team members were riding was a Plymouth station wagon, a CHP spokesman said. He said he did not know how old the vehicle was.

### Seniors Map Plans For Spring Events

Students planning on a June graduation will automatically have their curriculum evaluated during this quarter, according to Ralph Kechn, publicity director of the senior class.

Anyone having trouble should be sure to check with department heads in order to avoid difficulties in the spring.

After the curriculum has been evaluated here, students will be instructed to pay \$10 for their senior class card. The payment should be made at the El Corral Book Store.

The \$10 payment includes: \$6.25 for engraved parchment and folder for diploma and printing, \$2.50 for class dues which includes senior gift, barbecue breakfast, baccalaureate, ball and other activities, and \$1.25 for cap and gown rental. Included in the cap and gown rental fee are tassel, newsletter, commencement programs and mailing costs for fall and winter graduates.

When students receive class cards, they will also be asked to fill out an information sheet in which they are to designate the activities they plan to attend.

CALIFORNIA STATE POLYTECHNIC COLLEGE

VOL. XXVI, No. 24 SAN LUIS OBISPO, CALIFORNIA TUESDAY, FEBRUARY 11, 1964

## College Delegates Plan CU Promotion

When a state college builds a college union building, the students have to pay for it. Getting them to pay is a problem.

This problem was the subject of a special California State College Student President's Association (CSCSPA) meeting held here last weekend. Representatives from 12 state colleges discussed promotional methods for college union campaigns.

Cal Poly students are at present the campaign subjects of the College Union Committee headed by Mac Dyer. Through several informational articles in El Mustang the CU Committee has begun a promotion that will increase in tempo up to the Spring Quarter.

In the election students will be asked to agree to finance a CU Building by paying a special fee of up to \$20 per school year. At least two-thirds of the student body must approve the measure.

To achieve approval the CU approval campaign must be planned carefully. The length of the campaign, the use of speakers' bureaus, campus clubs, slide shows, the newspaper, brochures,

tang the CU Committee has begun a promotion that will increase in tempo up to the Spring Quarter.

In the election students will be asked to agree to finance a CU Building by paying a special fee of up to \$20 per school year. At least two-thirds of the student body must approve the measure.

To achieve approval the CU approval campaign must be planned carefully. The length of the campaign, the use of speakers' bureaus, campus clubs, slide shows, the newspaper, brochures,

stunts, signs, fighting the opposition—these factors and more play a role in promotion, the special meeting revealed.

Representatives from two state colleges which recently held successful CU elections, San Diego and San Jose, told the other delegates how they did it. They analyzed their strong and weak points, and their campaign expenses—\$8,500 for San Jose, \$2,600 for San Diego.

Also on the program were four design proposals for Cal Poly's union building by architecture students and a banquet speech by

Business Department instructor Rol Ryder.

The architecture presentations began the business of the conference Saturday morning. Conference moderator Mac Dyer urged the delegates to note the effectiveness of the manner of presentation through slides, models, chalk talks—as well as the plans themselves.

Dyer emphasized that the plans, developed as a five weeks' design project by a senior architecture design class, were proposals only. When the campus votes, said Dyer, students will not know what

the building will be like. We will specify what will be in it, he explained, but the plans themselves will be drawn up after students approve the idea of a union at the polls.

Commenting on campaign length, the delegates from San Jose and San Diego agreed that a short two-week campaign was probably best. It was assessed as less expensive, easier to control and less likely to encounter effectively organized opposition.

At the banquet Saturday evening, attended by President Julian A. McPhee and several other college officials, speaker Rol Ryder ended the conference with his expert advice.

"Success is a sometime thing," said Ryder in his title statement. Success can be thwarted by gimmicks and too much promotion, he continued.

Give your students good rational reasons to vote yes on a college union and they'll say yes, because they want it, Ryder told the delegates.

Don't insult the intelligence of students with your promotion, he said, and be honest in your campaign policy.

"Honesty is the best policy," Ryder concluded.

### 10 Candidates After Crown

"Mirror, mirror on the wall, whose the fairest of them all?" Ten Cal Poly coeds were presented to the college student body Saturday as the final candidates for Poly Royal Queen.

Chosen by the Poly Royal Board through interviews Thursday and Friday night, these coeds represent the fairest of the top 25 per cent of the Senior Class.

Chosen were Sharon Boyesen, Home Economics major, sponsored by Circle K; Cathy De Gasparis, Home Economics, sponsored by Ag Business Club; Nancy Goldsmith, Elementary Education, sponsored by Los Lecheros Dairy Club; Rowena Huen, Mathematics, sponsored by Institute Aeronautics and Astronautics; Gloria Lanini, Home Economics, Mustang Flying Club; Jana Mosgar-Koubek, Social Science, Farm Management Club; Ann Prout, Home Economics, Mat Fica Pi; Carol Rotollo, Elementary Education, Crops Club; Sondra Shaw, Elementary Education, Rally Club; Linda Wolf, Elementary Education, Ornamental Horticulture Club.

Election will be held Feb. 28-29.

### College Hour To Feature Music Groups

The combined talents of the Cal Poly musical groups will be featured during College Hour at 11 a.m. Thursday, Feb. 12.

"With the exception of the Christmas program, this is the first time the student body will be able to see the different musical groups on campus," said H. P. Davidson, Music Department chairman.

The performance, given in the Little Theater, will be by the Women's Glee Club who will sing religious songs and wind up with the ever-popular "Green Leaves of Summer."

Also on hand for the musical hour will be the Collegians, formally in concert for the first time this year. They will play such numbers as the boss nova by Dave Brubeck and a real swinger entitled, "One for the Money." The Collegians will not play any numbers previously given at school dances," Davidson said. They will also do a number by Joe Mells called "Sam-Bari-Bo" featuring Harold Hinkle on the piano.

The Quartet, under the direction of Ken Slocum, will present interesting numbers geared to the reaction of the audience.

"This is one of the best Majors and Minors group we've ever had," said Davidson. "They will present two or three barber shop songs under the student leadership of Bill Borah."

Davidson explained that this should be one of the finest college hour presentations for the students because there will be enough variety in the numbers to satisfy all tastes.

## Strumming Singers Here Thursday In Performance

Rob Flick, Mike Kirkland, John Paine and Dick Foley are just a bunch of names, but put them together and they form the Brothers Four.

Add Cal Poly and you have "The Brothers Four" in concert in the Men's Gym this Thursday, Feb. 12, at 8 p.m.

Price for the two-hour concert, sponsored by the College Union Assembly Committee, will be \$2.25 for general admission and \$1.75 for students. Tickets may be purchased at the ASB office, Allen's Music Center or Brown's Music Store.

The group attended the University of Washington where, as fraternity brothers, they quickly became the Brothers Four and sang informally around campus.

One day, a cheerleader friend called them up identified herself as a secretary to the manager of a popular night spot in Seattle and invited them down for an audition.

The next day, the four hauled their instruments down to the club

only to find out it was a joke. But the manager asked them to sing as long as they were there. They were hired.

The Brothers Four have been on tour around the college campuses of this country and Canada for the last couple of years and, if anything, are gaining mileage.

In the time that has elapsed since they burst upon the scene with their first recording and national hit "Green Leaves of Summer," the Brothers Four have had one successful venture after another.

It's amazing that four young men all in their early 20's can float a folk song out to you that makes you cry a little and laugh a lot.

It's more amazing when you realize that these top recorders do all of their own arranging, yet none has a formal musical education and not one can even read music.

Some of their Columbia albums include "The Brothers Four," "Rally Round," "Roamin' With

the Brothers Four," and "The Brothers Four: in person," recorded live at the U.S. Naval Academy and at Vanderbilt University.

The Brothers Four have made nationwide TV appearances on the Dick Clark show, Ed Sullivan show, Mitch Miller show, Bell Telephone Hour, and the NBC Spectaculars: "Highways of Melody," and "Home for the Holidays."

They have just recently returned from a successful tour of Japan.

The strumming folk singers are replacing Roger Williams who was unable to keep his engagement slated for last week.

Since the rise of folk music, the college has enjoyed concerts from top vocalists in this field, including Bud & Travis, The Limelights and Peter, Paul and Mary.

Folk singing concerts are especially popular at Cal Poly because there are several campus groups which sing professionally and for their own enjoyment.

### SAC Considers Propositions, Proposals, Petitions Tonight

A major issue of tonight's Student Affairs Council meeting will be the consideration of several propositions concerning student body by-law changes to be put on the ballot for the Feb. 26 and 27 election.

The meeting will be held at 7 o'clock in Lib 128.

Among these is an amendment stating that notice of a student body election must be published in three consecutive issues of El Mustang and posted in conspicuous places around the campus one week prior to the election.

The Music Board of Control will also introduce a proposal to raise their representation from two members on SAC to three.

Agriculture Council also has a proposal concerning SAC class representation. It is their feeling that instead of having a representative from each class on SAC there should be an upper and lower division representative from Inter Class Council, thus making voting for representatives less restrictive and achieving a more desirable delegation.

This evening's committee reports will consist of the Livestock Judging Team and the Constitution and Codes Committee.

Steve Scofield, Student Body Vice-President, will discuss a forthcoming press conference and an International-American Relations Committee will be considered.

Under the heading of old business will be the discussion of plans for All-Poly Weekend and a report given by Jim Quick on the progress of the Incorporation Election.

In other action at last Tuesday's meeting, Finance Committee's recommendation to take \$490 from contingency to give to the Model United Nations for travel expenses to Spokane, Wash., was defeated. MUN will have to work with the original budget of \$350.

A proposal to remove \$40 from contingency to help send the college track team to the indoor invitational meet at the Cow Palace in San Francisco was referred to the Finance Committee.

Other matters considered: The Poly Royal board gave a report on plans for this year's Poly Royal.

Gary Walker's year-end report on football was accepted by the council.

The Wool Growers' Club told of its plans for a donation drive Feb. 17-March 6.

The proposal to put to student body vote whether to have a regular Spring Spring Committee was passed. The election will be held Feb. 28-29.

Groups wishing to have the SAC by-laws changed should submit resolutions to SAC Vice President Steve Scofield on or before Feb. 11.

Jana Mosgar-Zoulal gave a report on the election held last Friday and Saturday.

The motion to have a blood bank drive April 2 for the Cal Poly reserve at the Tri-County Blood Bank was passed unanimously.

Under new business, a report was given by Scofield on a recent conference held by the California State College Student Presidents' Association about intercollegiate athletics.

### Tensions of Math Will Be Relieved By Lecture Series

Johnny's math nowadays presents as much of a problem to his parents as it does to him.

In an effort to relieve some of the tension that parents are currently undergoing, the Mathematics Club and Kappa Mu Epsilon, honorary mathematics society, will present a lecture series dealing with the new concepts of mathematics which are currently being introduced and taught in the elementary and secondary school systems.

The lectures will be held in the Air Conditioning Auditorium from 7:30 p.m. to 9:30 p.m., and reservations may be made by calling Steve Corlett at 544-1195. Reservation forms are also available at the Spruance-Reitz Variety Store, Morro Palms Shopping Center, Morro Bay, or the Greyhound Bus Office, Atascadero.

The series of five Monday night lectures, to be presented by mathematics instructors, began yesterday with a discussion of "Number Bases" by Dr. Milo Whitson, head of the college's Mathematics Department.

A \$5 donation per family, which may be paid at the door, will cover the cost of the entire lecture series, including supplementary materials and summaries.

### Papacy Is Subject Of Thursday Talk

The Rev. Francis Marien, assistant professor of philosophy at the University of San Francisco, will speak on "The Papacy and the World Situation" at 8 p.m. in the Little Theater Thursday. The Social Science Club is sponsoring the talk. The meeting is open to all students.

He is currently finishing a book entitled "On Understanding History."

### Math Majors Pick Queen This Week

Voting for the Miss Mathematics Contest will take place today, tomorrow and Thursday in the front office of the Mathematics Building.

All math majors are eligible to vote.

Voting for the Miss Mathematics are Beverly Billings, 20, a junior from Carmichael; Elaine Daehler, 20, sophomore from Glendale; Thoma Gaither, 21, senior from Watsonville; Pat Hartig, 21, senior from Lindsay; Sandy Lister, 20, senior from San Jose; Anna Nettleton, 19, junior from Lynwood and Esther Wilson, 23, senior from Hemet.

The candidates are all mathematics majors and have a 2.0 grade point average or above.

Miss Mathematics is official hostess for the Math Department during Poly Royal and she will also assist Dr. Milo Whitson during the high school mathematics contest held during Poly Royal.

### Grad Will Speak On Conservation

Robert J. Jasper, 1962 graduate and now in charge of the Tehachapi Flood Control Water Shed will speak at a Soil Science meeting Thursday night in Se A 12 at 7:30 o'clock.

### Magician, Words On 'People' Agenda

Semantics will be discussed tonight at the People-to-People meeting to be held at 8 o'clock in Se R 5. The science of the meaning of words and their implication in international understanding will be studied under the leadership of Benny Kaplan, Soil Science senior from Chile.

Darshan Baisin, India, part time magician, will entertain the club with his sleight of hand. Refreshments will be served. The meeting is open to all students.

## Recall Dateless Freds? Dorms Not Date Bureau

Remember the case of the two dateless Freds who wandered from residence hall to residence hall in search of a date for the night? The two Freds, and perhaps many other male students are still wondering why the residence halls weren't more cooperative in finding them a date.

"Residence halls will not run a date bureau," commented Mrs. Arlene Yokoun, associate dean of women.

"If they did do so, this would actually be infringing upon a girl's privacy."

"For anyone working on the residence hall desk to reveal the fact that a woman student is interested in a date, doesn't have a

date, or simply not in the hall, reveals something private," said Mrs. Yokoun. "It is not proper to reveal such information, and could be very embarrassing to a woman student."

During regular visiting hours, men students are always welcome to visit whoever they wish, provided that they specify by name who they want to see.

If the girl on duty at the desk were to call down one of the women students from her room, it would tend to indicate that the guest was well known by the girl on the desk. This might not be the case at all, and the girl could be given a false sense of security about the unknown date.

"If the halls were to act as

date bureaus it might encourage men who aren't in anyway associated with the college to come on campus and arrange dates with the women students," said Mrs. Yokoun.

"We are not saying that blind dates are disapproved of, or that dates are arranged through friends are looked down upon," said Mrs. Yokoun.

Some dates made through friends can be most enjoyable."

Mrs. Yokoun indicated that there are many ways in which you can get acquainted with the opposite sex. Some of these include, hall exchanges, dances, while eating in the dining hall, and even through classes.

COLLEGIANS MOVIN'... The Women's Glee above are the Collegians, who will play all new and the Collegians Band will be featured in this numbers for the performance. (Photo by Tyler) Thursday's 11 a.m. College Hour program. Shows

### Star Bright, First Star Thursday Night

By DONNA BOCKEMUEHL

Look to the stars people, and let me read your astrological forecast for February.

Aquarius rises early, at 8 p.m. this Thursday, in the form of the Brothers Four. This is a good evening for you to sit back, relax and enjoy excellent music. Follow the fates to the stars in the Men's Gym. Admission is \$1.75 for students and \$2.25 for general admission. Tickets are on sale at the A&S Office. Early preparation is wise, so buy your tickets now.

As Aquarius rises, he leads you to the Staff Dining Hall at 8 p.m. Saturday for the College Union Social. The social will be a cocktail party (nonalcoholic) with beverages, canapes, and dips served by cocktail waitresses. Membership cards will be awarded which are good for free admission to the stomp during All-Poly Weekend. Astrologer Don Woods will receive his award for designing the winning CU pin.

Feb. 19, Aquarius strongly advises attendance at the CU Fine Arts Lecture "Taiwan Today" in the AC Auditorium at 8 p.m. This is a good day to broaden intellectual horizons by witnessing the struggle of Formosa (Western name for Taiwan) which, under the constant threat of communism, has achieved one of the highest living standards in Asia. Margaret Baker, who will present the movie, is a noted lecturer, photographer and authority on the Far East. She has followed the stars to Taiwan 10 times since 1951, viewing the progress of the island since the Communist took over the mainland in 1949.

When Aquarius sets, Pisces rises, commanding you to the ping-pong tournament on Feb. 25. Men's and women's singles will be played in the Men's Gym at 1:30 p.m. Trophies will be awarded for first and second places in each category.

Pisces advises you to prepare for the future by watching for information concerning the College Union Yosemite snow trip. Transportation and housing are \$8.50 per student. Food and activities are extra. Reservations should be made as soon as possible in the Activities Offices with a \$5 deposit necessary at that time.

College Union has read your fortune, and what a fortune! Accepting advice is advisable this month, and I advise you to attend all of these activities. Good fortune awaits you, so, CU there

### New Remedy Makes 'Kissing' Safe

By JOAN LEVI

A new medication is reducing the competition between classes and the "kissing" disease.

Dr. Billy Mounts, head of the college Health Center, said this week that a new drug is making infectious mononucleosis, commonly known as the "kissing disease," a rarity. Prior to medication, Dr. Mounts explained, students have been forced to drop from classes for a full quarter.

Cause of the virus is unknown and treatment should not be neglected.

Before coming down with the disease there are visible symptoms said Dr. Mounts. These include sore throat, swollen glands in the back of the neck, and fatigue.

"The symptoms closely mimic other respiratory diseases. Therefore, just because one of these symptoms presents itself doesn't necessarily mean that you have Infectious Mononucleosis," said Dr. Mounts.

According to Dr. Mounts, the only real way to detect the disease is through a blood test.

The "kissing disease" makes its appearance most often at the college-age level.

Students most susceptible to the disease are those who get very little sleep and rest. Infectious Mononucleosis is caught by direct contact with a person or an item, such as in class or from a drinking fountain, the doctor said.

Dr. Mounts indicated that the virus is not contagious, as are measles, mumps, or chicken pox. It appears in nonepidemic proportions, and is equally prevalent throughout the year.

"Although the 'kissing disease' is here to stay, it is not impossible to cure or even prevent. It doesn't present the usual black picture as presented in the past; it is quite treatable," concluded Dr. Mounts.

### Colleges Raise \$25,000 in Aid Money

The colleges and universities, including two-year and four-year colleges and independent schools, in the 10 states of the West Coast Region of World University Service raised over \$25,000 last year for aid to the international student community.

Money raised in over 60 countries and channeled through international WUS was used for scholarships, health programs, the building of cafeterias, dormitories, equipping libraries, labs, and the sending of foodstuffs, clothing and books overseas. WUS International Headquarters is located in Geneva, Switzerland and has been operating for 44 years.

Alan Paton, author of "Cry, the Beloved Country" says, "The work done by WUS for the student communities in many parts of the world is of the greatest importance. Nothing does more to build international understanding."

The world scope of WUS Program for 1963-64 in which students and faculty will have opportunities to share include: the building of a university center for adult education in Rhodesia, equipping a student union in Tanganyika and in South Africa, building dormitories in Basutoland and Nigeria, and reconstructing university facilities in Algeria.

In Asia, projects will be directed toward the establishing of cooperative cafeterias in India and Nepal, sending x-ray units to Pakistan, and equipping a health clinic for a new Chinese university in Hong Kong. In Latin America the urgent needs for the establishing of two dorms in Nicaragua, equipping a student restaurant in Chile, and completing a student center with dining, housing and study facilities in Peru.

**MISCELLANY**

Disabled veterans and dependents of deceased veterans throughout Southern California who receive monthly pension payments and are reporting their annual income to the Veterans Administration are urged to remember to sign the reports.

Mort Webster, manager of the VA regional office in Los Angeles, said that every year thousands of income reports have to be returned to the pension recipients for a signature.

## EDITORIALS

### GPA -- A Status Symbol?

There's a fallacy which is swallowing too many students. The fallacy is known as GPA, short for the sophisticated term "Grade Point Average." Just three little words that mean disaster.

Many critical commentaries have been written concerning the "false idols" which Americans as a whole tend to worship. The Cadillac, the "key club" and the color TV, it is said, have displaced all values of a real or ethical nature.

One expects, or at least hopes, that a college education would put a restraint on the public's worship of such idols.

A professor once wrote, "Being in college implies at least some sense."

And yet, one wonders if the GPA has not become some status symbol on the college level; as grand in proportion and as hallow in content as any counterpart in the business world.

Can anyone say definitely what 4.0 means? It may mean something admirable, but then it can mean something not so admirable.

With the idea of attaining a high GPA there comes a terrific pressure of failure. The "what if" complex takes over and the student becomes involved in a mania that captures his entire learning process.

If you were to tell him that he came to college to expand and enrich his mind, he would probably drop from shock.

To memorize facts, figures and the professor's notes is not so terribly hard. And to forget them is a snap. But, true enlightenment comes with great difficulty and that glittering golden calf, the GPA, is a terribly inadequate measure of it.

A measure of intelligence, how exciting. But is it really? Pressure can do funny things to a student and when he's faced with failure, teacher evaluations through grades and the thought of an employer checking his record may make a student forget why he came to college.

The great emphasis the administration and the students themselves place on GPA is the cause of most cheating and cribbing in the classrooms. It's become so prevalent that a campus committee on student cheating has been formed to investigate and make recommendations.

However, the question that always arises is "What can be done about it?" It's a question that's been pondered for years. And the answer that always comes forth is "Nothing." Nothing unless the student himself takes the initiative.

If he realizes that sharing his neighbors paper or having his own open-book test is not attaining an education, and has the courage to change, then something can be done.

It's like the story of the wise old hermit on the hill and the young men who thought they'd prove he wasn't always right.

One of the fellows took a bird and placed it between the palms of his hands and said to his cohorts, "Let's go ask the wise old man if the bird in my hand is dead or alive. If he says it's dead, I'll let it fly; if he says it's alive, I'll crush it." And so they went and questioned the wise old man and the wise old man stopped and thought and then said, "It is as you will it."

So it is with our intelligence. We can be brilliant for an hour with outside help; or, we can learn and digest our knowledge and be intelligent for all time. It is as we will it.

What'll it be?

## Engineering Week Slates Feb. 16-22 Celebration

Engineering Week, Feb. 16-22, promises diverse activities and attractions which will encompass almost every phase of the Cal Poly Engineering Division.

Students in the division are planning to participate in the nationwide celebration of Engineering Week. Highlights of the week-long celebration will include an address by U.S. Navy war hero Marshall H. Austin, currently a research consultant for Lockheed Aircraft.

Austin will speak to local professional engineers and Cal Poly students on "Anti-Submarine Warfare Systems—How Much Is The U.S. Doing In This Respect and What Are The Latest Developments," at the annual banquet, Thursday, Feb. 26, at 6:30 p.m., in the Main Dining Room.

Honored guest at the banquet will be Robert H. "Pappy" Kece, Mechanical Engineering instructor for the past 14 years, who is retiring in June.

Mrs. Alice Pickton, wife of Ray Pickton, a senior Electronics major, was selected Friday as Mrs. Engineering from the wives in the divisional wives club. Mrs. Engi-

neering will be the official hostess for the week's events and will reign over the dance.

On Saturday, Feb. 15, the Engineering Week Ball will be held in the Men's Gym from 8 p.m. to 1 a.m. The Collegians will entertain and Mrs. Engineering will be presented to the students and guests.

Thursday, Feb. 20 will find the various divisions at banquets and dinners. Included in these will be an EL banquet at the Anderson Hotel where majors will discuss "Wave Motions Simplified." Guests at the noon banquet will be the Kiwanis Club of San Luis Obispo.

Air Conditioning Department will hold a banquet at the Hotel Inn at noon, also on Thursday. The subject of the student speakers will be "The Hows and Whys of Refrigeration." This program will be presented to the Lion's Club of San Luis Obispo.

At 6:30 p.m. in the Main Dining Hall, the Engineering Week banquet will be held. The price is \$2.75 and the public is invited.

Mrs. Engineering will again be presented and the Tau Sigma pledges will be introduced. Tickets for the event may be purchased at the AMH office.

## Health Center Physician Explains Procedures

Inconvenient hours, long waits and being asked to come back later have been some of the criticisms recently voiced by the students about the Health Center.

Dr. Billy Mounts, head medical officer, this week explained some of the policies and procedures of the Health Center.

Dr. Mounts gave a brief history of the enrollment growth of Cal Poly.

In 1959 the total enrollment of Cal Poly students was about 4,000 students, with five full-time physicians to serve the group. However today in 1964, with a total enrollment of more than 6,000 students we have four full-time physicians, and are looking for a fifth. This in itself is an obvious handicap.

"Clinic hours in the Health Center are from 9 to 11 a.m. and 2 to 4 p.m. Monday through Friday. However, these are not the only hours that the physicians are at work," said Dr. Mounts.

He explained that the doctor's day starts at 8 a.m. and is over around 5 p.m.

"However, when surgery is scheduled the day may start as early as 7 a.m.," he said.

Between these hours the physicians are making hospital

rounds, holding meetings, reading X-rays and charts, working in the dermatology and orthopedic clinics, and taking care of any other emergencies that may arise throughout the day. Doctors also work on detailed evaluations of cases for students who could not be worked into the regular clinic hours.

According to Dr. Mounts, each physician sees on the average of 30 patients each day, which is more than most private physicians see per day.

Cal Poly is the only state college with an infirmary, and also the only state college that has 24 hour emergency service. After 5 p.m. there is always a nurse in the infirmary and a doctor on call. The physicians receive no extra monetary compensation for extra emergency hours, the doctor explained.

Students who have purchased the \$4 medical fee are entitled to hospital care, emergency care, pharmacy service, and physiotherapy.

"All regular students are entitled to these services; only those with foresight to participate receive the monetary benefits," said Dr. Mounts.

"Physicians work by the appointment system. However, there is always a physician free to work on an emergency case," concluded Dr. Mounts.

## 50 Begin Initiation Into Alpha Zeta

Approximately 50 neophytes began yesterday a week of informal initiation into the national honorary agricultural fraternity, Alpha Zeta.

Chancellor Chris Dermody reports that the prospective members will be wearing sport coats, white shirts and ties, top hats and above all levis and boots.

He said that the primary aim of initiates will be that of obtaining signatures from active members of Alpha Zeta. The week of pledging will close Feb. 15 with an informal ceremony and free barbecue. On Feb. 22 the new members will be ushered into the fraternity in formal ceremony to be attended only by active members. The ceremony climaxes the pledging period for the new members.

## Editing Posts Open In Publications

Letters of application for editorship of El Rodeo and El Mustang are now open, announces Darryl Skrabak, Board of Publications chairman.

Applications will be taken until Feb. 14. All regularly enrolled students with at least a 2.0 grade point average are eligible.

Elections for 1964 El Rodeo editor and El Mustang editor for Spring Quarter will take place Feb. 18 at the board's regularly scheduled meeting.

Application letters should be turned in to Skrabak at the El Mustang office, G.A. 326. Letters should list name, major, year in college, reasons why candidates feel they should have the job, and qualifications.

"Prime consideration will be given to candidates with experience," Skrabak said.

## Speakers To Discuss ROTC Careers Tonight

Three leaders in the construction equipment industry will speak at the TA evening construction equipment class in EW 206 this evening at 7 o'clock.

E. A. Ricks, national chairman of the Education Committee of Associated Equipment Distributors, an employee of Allied Equipment Co., Fresno; Ray C. Bryant, Ray C. Equipment, Inc., Oakland; and W. S. Wornoch, Buncraft Co., El Monte, will be presented by instructor George Zanetti.

It will be an informal discussion session in which 25 class members and other persons present, may participate.

All students interested in learning about career opportunities in the construction equipment industry are invited to attend, says J. McRobbie, TA Department head.

## Moe Will Review Galileo Text Today

David Moe, instructor in the Physical Sciences Department, will review "Dialogue on the Two World Systems" by Galileo, in the staff Dining Room during Books At High Noon today.

Galileo was born Feb. 14, 1564, which was within a month of the birth of William Shakespeare. As can be noted, this will be the 400 year anniversary since the birth of both men.

Galileo's writing, which may be described as the first textbook of modern science, has been basically influential in present day acceptance of the Copernican system and of developments rising therefrom, including the latest satellite.

## Margaret Fannin Rules As ROTC Ball Queen

Margaret Fannin, a Social Science sophomore from Gardena, was crowned queen of the ROTC Military Ball before 500 to 600 couples attending the dance held recently in the Men's Gymnasium.

The large crowd danced to the music of Les Brown's 10-piece orchestra which featured Butch Stone, assistant leader; Stumpy Brown, vocal stylist and bass trombonist; and Susan Maro, vocalist.

Queen Margaret was radiant in an emerald green satin full length formal. A full crown studded with rhinestones was placed on her head by last year's queen Sandy Martin. Cadet Col. Charles Peake, brigadier commander, draped a red velvet robe over her shoulders and had the first dance with the new queen.

## Col. Boyce Heads ROTC Conferences On Summer Camp

The first of three conferences and liaison visits to prepare for the six-week ROTC summer camp in Ft. Lewis, Wash. was held last week.

Col. William Boyce, head of the ROTC Department, has been assigned as camp operations and training officer by Lt. Gen. Fredric J. Brown, commander of the 6th Army.

The conferences are to plan the training and prepare the men who are normally stationed there so that the cadets who will attend the camp may be released as early as possible.

The preparation, planning and the actual arrangement of the facilities speeds up the processing and receiving of the men. They plan to receive and process 1,800 cadets within a 12-hour period. Previously the process took two days.

The other two conferences are scheduled for the week of March 9 and May 4. The 6th Army encompasses 11 western states and the summer camp involves 39 colleges and universities from these states.

Queen Margaret represented head quarters.

## Journalists Will Attend Farm Bureau Confab

Lani Cain, junior from Encino, and Nancy Hart, freshman from Bakersfield, have been chosen to represent the Technical Journalism Department as a team at the 15th Annual California Farm Bureau Young People's Leadership Conference at Asilomar, Feb. 13-16.

There will be talks by Allan Grant, new president of the California Farm Bureau Federation, and Charles B. Schuman, president of the American Farm Bureau Federation.

## ECONOMICS CAN BE CHUCKLES

Many of you have been avoiding economics because it is so widely known as "the dismal science." Oh, good friends, stop cheating yourselves of many a laugh and cheer, because economics is a positive riot! True, it is called the dismal science, but that is only because it was invented in 1681 by Walter C. Dismal.

It is easy to understand why Mr. Dismal's discovery of economics is today almost forgotten, for the fact is that he himself only stayed with the subject for two or three days. After that he took up embonpoint, which means fatness. It is said that at his apogee, Mr. Dismal reached 1200 pounds. This later became known as Guy Fawkes Day.

It was not until 1776 when Adam Smith published his *Wealth of Nations* (or *Oxymanias*, as it is usually known as) that the world came to realize what a rosy, twinkly, fun subject economics is. As Mr. Smith showed in his jocular little treatise, there is nothing complicated about economics.

*This later became known as the Louisiana Purchase*

When there is a great demand for a product, a great supply is placed on the market. When there is a small demand, there is a small supply. Take, for example, castanets. You walk into any average American town today and I'll wager you won't see more than eighty or ninety castanet shops. That is because the demand is small.

For Marlboro Cigarettes, on the other hand, the demand is great. Thus, you will find Marlboro— with all their yummy rich tobacco flavor and pure white Selectate filter and pliable soft pack and unipliable Flip-Top box—at any counter where cigarettes are sold in every one of our fifty great States and Duluth.

To Adam Smith, I say, belongs the distinction of popularizing economics. Mr. Smith was followed by David Ricardo. In fact, every man who went he was followed by David Ricardo. Mr. Smith finally got so annoyed that he summoned a bobby, as British policemen are called, and had Mr. Ricardo arrested. This later became known as the Louisiana Purchase.

Upon his release from jail, as a British jail is called, Mr. Ricardo reported to his parole officer, Thomas Robert Malthus. They soon became fast friends, and one night over a game of whist they invented the stock exchange, or chutney, as it is called in England.

Well sir, with the British having, you might say, a corner on economics, the French decided that they wanted some economics too. Being, however, a proud nation, they refused simply to borrow British economics, but insisted on inventing their own. At first they tried using the truffle hound as a medium of exchange. When this proved less than satisfactory, they switched to pomade. Discouraged by this second disappointment, they finally shrugged and said, "Oh, who cares about economics anyhow?" and returned to the guillotine and Maurice Chevalier.

America, I am pleased to report, had much better success with economics. Our early merchants quickly broke down economics into its two major categories—coins and folding money—and today, as a result of their wisdom, we can all enjoy the automatic toll station.

Well sir, I could go on and on about this fascinating subject, but I know you're all in a tearing hurry to rush out and sign up for Econ I. So I will leave you now with two kindly words of farewell: Graham's Law.

We, the makers of Marlboro Cigarettes, are tobaccoists, not economists. But this much we know about supply and demand: you demand full flavor in a Marlboro cigarette; we supply it—Marlboro!

## Pottery Art On Display

The Architectural Engineering Department is sponsoring a ceramic showing of recent pottery produced by seven of its students.

The exhibit is now being shown in the Architectural Display Gallery and will be on display until Feb. 16. There will be a special showing from 7 p.m. until 11 p.m. on Feb. 13-14.

With the encouragement of George Hasslein, Architectural Department head, and with the guidance of Roger Bailey, art instructor, the students, Nat Antler, Mel Fielding, Ted Sekino, Denis Wagner, Roger Jones, Pat Sheehy and Roger Marshall, have been able to correlate their knowledge of architectural design with ceramics.

Hasslein stresses the value of architectural students participating in the allied arts by choosing such activities for elective credit, and perhaps with its continuing growth the Architectural Department will eventually incorporate a ceramics class into its curriculum.

## MORE CALORIES

The average sherbet contains more calories than the average ice cream, due to the amount of sugar required to sweeten the fruit in the sherbet.

## Sierra Club Sets County's High Point As Goal of Climb

A 10-mile round trip Sierra Club hike to the highest point in San Luis Obispo County will begin in front of the Buckhorn Cafe in New Cuyama on Sat., Feb. 15, at 9 a.m.

According to Sierra Club officials students interested should bring a lunch and water. Further information on this event may be obtained from Enrico Bongio at 543-1184.

Other events on the club's schedule for February include an "Almond Blossom Stroll" and a Carro Alto Mountain Climb.

The stroll will be held on Feb. 22. Participants will meet in front of Paso Robles High School at 10 a.m.

The climb up Carro Alto Mountain is slated for 9:30 a.m., Feb. 29. The group will meet at the Carro Alto Guard Station, which is nine miles from Atascadero on Highway 908.

Students are welcome and are urged to participate in all events, according to Mrs. Dorcen Case, club publicity chairman. Any students needing a ride to or from the event should contact Mrs. Chase at 543-7138.

CONGRATULATIONS, CHAMP... Caldwell Black (31), guard of the Los Angeles State team, celebrates with Bob Horwath after the latter had fouled out in the fourth quarter. Because of his point production over the weekend, Horwath holds the CCAA league scoring record of 578 points and has three games yet to play. At left is Coach Ed Jorgensen.

## Mustang Quint Wins First CCAA Game; Horwath Sets Mark

Led by twice All-CCAA guard Bob Horwath who broke the conference's three-year scoring record Saturday night, the Mustangs will travel to San Diego State and Long Beach State Friday and Saturday nights respectively.

The squad won its first league victory by beating San Fernando Valley State Matadors, 86-83 in a Friday night overtime contest but lost 96-84 to the Diablos of Los Angeles State the next night. Horwath was high-point man in both games. He made 21 against the Matadors and 17 against Los Angeles State.

Horwath's 38 point output over the weekend gave him a total of 578 digits in three years of league competition and broke the previous record of 577 points held by Mike McPherson of Fresno State. Moments after scoring his record-breaking field goal, he was sent to the bench by the referees with five fouls but was given a standing ovation by the crowd.

In previous meetings, the 49'ers of Long Beach State led by John Ramicoat and John Rambo's 21 and 28 points outputs, respectively, defeated the Mustangs in a crucial 93-92 three overtime contest.

Against San Diego State, the Aztecs were led by junior All-CCAA guard Jack Shawcroft who scored 23 points and was victorious 84-72 on the Mustangs home court.

## Preedy, Davie Star As Colts Win, Lose

The Colts fell before a more experienced Vandenberg Air Force Base team, 109-89 and topped Security Title, 89-72, in games over this weekend.

For the Colts, Ray Preedy and Frank Davie contended for top honors with 22 points apiece in the Vandenberg games. John Russell and Tim Higgins were other high scorers.

Vandenberg had four men in double figures to outpoint the Colts.

Saturday night the Colts, with four men in double figures, tripped Security Title, 89-72. Frank Davie was high with 16 points, while Preedy followed with 13. Russell and DePue hit for 12 apiece.

Security Title Roundballers, a group of Poly graduates, were led by Theo Dunn who scored 30 points. Fred Brown and his brother Bill each scored 11 for Security.

Coach McElveny felt that the Colts played good games this weekend. He was especially pleased about Friday's game against Vandenberg. Many of the flyers were ex-college stars.

The Colts now have nine wins and three losses and have only three games left.

This Friday they will again play Vandenberg Air Force Base and will meet Colinga a week from today. The season will end as Poly travels to Fresno on Feb. 21.

## Horsehiders Look For Good Season

With 10 diamondmen returning for the 1963-64 season skein, the varsity baseball squad is out for a "grand slam" season, according to horsehiders coach Bill Hicks.

"We've got the best and toughest conference in the nation as our 1962-63 6-11 CCAA record proves," Hicks said, but with a battery of five returning hurlers and Jim Ramos, shortstop on the '62-63 all CCAA second team, "we have a real good chance to finish well in the league."

Returning to this year's diamond nine are hurlers Steve Fox, 4-7; Jim Nowlin, 3-5; Tommy Kempf, 3-0; Terry Curbuck, 3-5; and Butch Jones, 1-1.

Covering the infield are returnees Jim Ramos, Wayne West, Mike Williams, Ernie Bingham, and Bob Phillips.

Out of the original 40 that turned out for this season's play, 25 remain. Newcomers to the Mustang baseball nine are prospective pitchers Pete Cocconi, transfer from San Mateo College; Rich Johnson, 62-63 JV player; and Terry Ward, up from the Poly Fresh team.

With no returnees in the catching battery, Coach Hicks has three hopefuls out for the spot.

Ernie Burton, Poly JV horsehider; Joe Zinani, moving in from the frosh outfield; and Bernie Angel, a junior college transfer, are the hopefuls.

Fielders Ray Duran, transfer from Ventura College, Ed Schum, frosh fly-up, Fred Delotto, Madera to JC transfer, and Don Yoshito, Fresno JC, are in "excellent spirit," says Hicks.

The Mustangs face UC Santa Barbara Feb. 22 in a doubleheader on the Poly diamond at 12:30 p.m. Tentative starters for the diamond nine are Wayne West, center, Jim Ramos, left, Mike Williams, right, Ed Schum, first, Ernie Bingham, second, Bob Phillips, third, and Ray Duran, shortstop. On the mound will be either returnee Steve Fox, Terry Curbuck, or JV transfer Rich Johnson.

## Matmen Return Today After Rough Road Trip

Cal Poly's matmen will be grappling for their eighth win in dual competition when they meet the Gauchos of UC Santa Barbara this afternoon at 3 o'clock in the Men's Gym.

The Mustang matmen posted a 3-2 dual meet mark in a busy four day schedule by defeating Chico State 25-4, Wednesday; Southern Oregon 24-8, Thursday; and Portland State 18-12 Saturday. The Green and Gold varsity wrestlers dropped matches to Oregon State 17-13 Friday and University of Oregon 19-8 Saturday night.

In the 123 pound weight bracket, Pete Franklin wrestled to a 3-2 overall record for the Oregon matches with his best showing coming against Gary Wilson of SO pinning him in 8:36 of the third period.

Jim Teem, weighing in at 130, posted a 3-1-1 record. Teem pinned Frank Isal of SO in 5:44 of the second period for his best effort. Teem drew two decisions, one 0-0 tie, and was pinned by Gary Head in the Oregon State match.

Undefeated in the road trip was Sam Huerta, 137-pound matman. Huerta won by decision in each of his out-of-town matches. Regional champ for the 1963 season, 147-pound Spencer Tamoto dropped two matches, tied one and won one match to break his undefeated dual match competition record.

Santa Cereceres, wrestling in the 157-pound class, ended up with a 2-3 record against the northern STAPPLERS. Cereceres' best showing was against Ken Harris of Chico State when he pinned Harris in 1:59 of the second period. Terry Wigglesworth ended up with a 2-2-1 record in competition. Wigglesworth won both his matches by decisions.

Harvey Wool, former 167-pound regional and conference champ, finished with a 2-2-1 record. Wool wrestled 177's on the road trip and posted two decisions, 5-0, 5-3 for his victories.

Poly entered only one match in the 181-pound class. Bill Fife won the lone match by pinning Mike Flowers of Chico in 3:20 of the first period. Heavyweight Bill Dauphin scored a 2-3 skeln for the trip. Dauphin's best showing came against Selanders of Portland State. Dauphin pinned his man in 1:40 of the second period.

## Aquamen Invade Pool For Intramural Meet

The annual intramural swimming meet will be held tonight in the pool beginning at 7. Varsity water polo letterman Len Deaton will be the chairman of the meet and will conduct all the heats.

The events in the order that they will be conducted are as follows: 100 yd. Medley Relay (4 man-one length each); 25 yd. backstroke; 25 yd. breaststroke; 25 yd. butterfly; 25 yd. freestyle; 50 yd. freestyle; 50 yd. breaststroke; 100 yd. backstroke; 50 yd. butterfly; 100 yd. individual medley; and 100 yd. freestyle relay.

The diving will play a great part in the success of the meet. Each contestant will be allowed four dives with one front dive required.

The relays will start with 16 points for the winner and the following places being awarded 2 less with the exception of the second place which will receive 4 less than the champions.

Persons may participate in no more than three events. Places will be determined strictly by times. The first place finishers in each event will receive intramural awards. Each member of the first and second place relay teams will receive an award.

Anyone who has lettered in varsity swimming at a four year college or university will be ineligible. Anyone who is currently out for the Cal Poly swim team will be ineligible.

There was no pre-sign up for the meet and all registration will be conducted at 7 p.m. The intramural office does not assume responsibility for checking eligibility for participants unless specifically requested by a group intramural manager. However, the intramural office reserves the right to investigate the eligibility of any participant.

## Ex-Mustang Cage Star Tourney Coordinator

Cal Poly graduate, Bob Wilmot, '63, acted as communications coordinator for the recent Bing Crosby Pro-Amateur Golf Tournament held in Monterey.

As Monterey chief transmission man for Pacific Telephone, Wilmot was responsible for the installation of television, radio and teletype transmission circuits, which provided for nationwide coverage of the tourney at the Pebble Beach golf course.

The 5 foot 7 inch athlete played three years of varsity basketball for the Mustangs. In his senior year the veteran center was the team's leading rebounder and averaged 8.5 points per game.

Months of planning were required so that TV viewers across the nation could watch the play at the Crosby tourney. Wilmot's job was to coordinate work between the telephone company and the National Broadcasting Company and many other smaller radio stations.

Commenting on the immensity of the Crosby golf tourney Wil-

mot said more than six miles of cable and wire were employed to provide radio, television and teletype transmission. Televised tournament play was carried over a portable microwave tower on a hill-top near Point Lobos. From there, the TV pictures were microwaved to the NBC studios in Burbank and eventually to armchair golfers across the United States.

"Special radio circuits were also set up," Wilmot said. "Besides the radio and television facilities," he continued, "the phone company had to provide service for teletypewriter, and telephoto machines for the major news services. Phones for the press corps covering the tournament were also provided."

The Bing Crosby golf tourney is the largest single annual event in Northern California for which Pacific Telephone has to provide television, radio, and teletypewriter facilities, Bob noted.

Bob remarked, "I can't think of any greater challenge than coordinating this Crosby golf tourney."

## Intramural Memo

After two weeks of the intramural basketball league, the powerhouses are already starting to show themselves. In the much publicized renegade league, the CVI Nads have a perfect 3 win, no loss record with every other team having at least one loss.

In the Monday roundball league, the leaders to date are the Rounders and the AIA in the 7 p.m. league. In the later league, the Hangovers, Monterey Hall and Campus Village are each supporting perfect slates.

Tuesday shows North Facility and The Big B on top of the earlier league with The Runners, Hewson House No. 1 and Boysen Humers setting the pace in the later league.

Wednesday A leagues have Hewson House No. 2 and the Freeloaders on top in the 7 p.m. league with IEEE, Mat Pica Pi and the Beachcombers riding high in the 8 p.m. session.

Poultry Club, Sequoia Heights and the IFC Bonds have the right hand while Circle K's, Muir Woods and the Speedsters are the big guns in the later league in Thursday action.

## WAA NEWS

Three games took place recently in Crandall Gym as part of the Winter Quarter intramural basketball competition.

The Off Campus Bods defeated Palm Royal by a score of 12-5. Off Campus came out on top in a game with Santa Lucia, 13-1; and Heron defeated Trinity, 11-6. Top scorers for the night's activity were Patsy Walker and Mary Lou McGill, both of the Off Campus team. Both scored six points each.

### LONGEST GAME

The longest game played in the National League was played in 1920 between Brooklyn and Boston. After 23 innings and 8 hours and 50 minutes of baseball, the game was called, on account of darkness with the score, 1-1.

## C P Bowling

Despite a 4-0 loss to the Whackers last week, the Cherry Pickers maintained a one game lead in the Cal Poly Bowling League over the Pro Foes, who also dropped four games.

Ernie Bray was credited with the high game honors of the week with a 232 score. Len Helfetz bowled the highest series, 572.

Aside from the top teams losing four games, the VIP's lost four to Zott's and the Holy Rollers and Team No. 8 split.

Currently the Cherry Pickers lead the Pro Foes by one game, the Inconsistent are in third place three games back, and the Whackers stand forth, 11 games back. The latter two gained four games on the leader last week.

## ELECTRONIC ENGINEERING MAJORS

If you want to become affiliated with a progressive electronic firm, consider the following information about I.T.T. Gilfillan Inc.:

- A major designer and manufacturer of advanced electronic equipments since 1943.
- Recognized by the Department of Defense as one of the preferred top twenty suppliers of electronic equipment.
- The recognized leader in the field of electronic air navigation systems.
- Completely equipped laboratories to conduct the most advanced electronic system development.
- Neither "very large" nor "very small". Sufficiently large to conduct all phases of research, design and development, but not so large that individual accomplishment goes unnoticed.

The following are typical major electronic development programs in which we are currently engaged:

- TPN-8 Lightweight Tactical GCA Radar (Marine Corps).
- TPS-32 Frequency Scan Height Finder Radar (Marine Corps).
- SPS-48 Long Range Height Finder Radar (Navy).
- 15D2 Countermeasures Trainer (Army).
- AN/GPQ-16 Countermeasures Trainer (Air Force).
- AN/APA-115 Pictorial Situation Display (Air Force).
- Regal Automatic Landing System (F.A.A.).

Our representatives will be on campus March 11, 1964. See your Placement Counselor for interview appointments. U. S. Citizenship required. An equal opportunity Employer.
