

WHAT'S THIS... Cal Poly's Regatta pass in a Beatle-type picture, hoping to get with big-time swing (money). Even though they were complete with genuine synthetic hair Beatle wigs, no screaming girls or Ed Sullivan show offers came around. Clockwise, starting from the bottom, they are Steve Schlosser, Charles Bell, Jim Biles, Russell Hanis and Corkey Wood. (Photo by Leap)

## Enduro Runs 100-Mile Trip Sunday

Motorcycle riders from all over California will gather at the Ag Shop mall Sunday morning for the start of the 14th annual HI Mountain Enduro.

Before the riders leave on their 100-plus mile trip over back roads and trails of San Luis Obispo County, members of the Penguin Motorcycle Club will hold a meeting at 8:30 a. m. to brief riders on the event.

At 9:01 a. m. groups of four riders per minute will begin leaving the Ag Shop. They will follow a carefully prepared and marked course which the Penguins have laid out for them.

Among the competitors will be some of the best cross-country motorcycle riders in the United States.

Last year's overall enduro winner, Al Rogers from Los Angeles, will be back again this year on his fast 10 cubic inch Triumph twin. Rogers is one of Southern California's best desert riders.

Probably the best-known of the motorcyclists will be actor Steve McQueen, whose two-wheeled exploits are well respected in Hollywood.

An American name well known, European motorcycle enthusiasts, Bud Ekins, also appears on the entry list. Ekins is a veteran competitor and is reputed as one of the greatest of Southern California cross-country riders.

Ekins is a three-time winner of the world's biggest motor race, the Big Bear Run (more than 800 entries). He has won a medal in each of the last three years in Europe's most important enduro-type event, the International Six Days Trial.

The total entry list for the HI Mountain Enduro is expected by Penguin club members to approach 100 competitors.

## Peace Corps Test Here Tomorrow

Students wishing to meet the challenge and opportunities offered by the Peace Corps will be able to take the Peace Corps Placement Test on campus tomorrow in the Agricultural Education Building.

The Peace Corps needs 4,000 qualified volunteers to begin training this summer and for the convenience of students and persons interested in serving with the corps, the college is administering the tests in Ag Ed 102 from 9 a.m. to 12 noon.

In addition, the Peace Corps will invite 700 college juniors available for service in June 1965 to begin a six-week training program during the summer of 1964.

The test may be taken by individuals who have not previously applied to the Peace Corps who are interested in taking the initial steps toward placement, as well as by those who have already applied and are scheduled for the Saturday testing appointment.

## Scholarships Help 2 School Educators

Two future elementary school administrators have recently been awarded scholarships by the Scholarship Committee here.

The Scholarship Committee, in conjunction with a special committee from the college's Education Department, has awarded \$250 California Elementary School Administrators scholarships to Mrs. Juanita Abajian and Frank McElrath to help defray their advanced school expenses.

Mrs. Abajian is the principal of San Luis Elementary School, San Luis, and is working toward her masters degree in education and her Elementary School Administrators Credential.

McElrath teaches fifth grade at Ocean View School in Arroyo Grande and is working toward the master of arts in education degree and the Elementary School Administrators Credential.

## Unique Workshop Brings Together Community, College

A unique workshop experiment on community-foreign student relationships took place recently at the San Luis Obispo Elks' Club.

Some 125 San Luis Obispo citizens representing government, business, religion, civic clubs and other groups took part in the workshop which was sponsored jointly by the college's Foreign Student Council, People to People and United Voluntary Services.

The all-day meeting opened with an official welcome by San Luis Obispo Mayor Clay P. Davidson and concluded with an address by M. H. McDonald, manager of the city's Crocker-Citizens National Bank branch.

Dr. Fund Tellew, chairman of the Foreign Student Council, spoke on "World Affairs, Foreign Students, and You" and Cal Poly Dean of Students Everett M. Chandler, City Administrator Richard Miller, Mrs. Elmer Brown, president of United Voluntary Services, Rev. Ray Heer, Joe Zallen, president of the student People to People chapter; George Brand, editor of the San Luis Obispo Telegram-Tribune, and Walter Clark of the U.S. Immigration Service all spoke during before-noon sessions.

Following a luncheon made possible by the Flagg Family Foundation, during which Alice King, president of the Association of Foreign Student Advisors, was the featured speaker, a series of discussion groups took place. McDonald's closing address was, "Where Do We Go From Here?"

All sessions of the workshop, whose theme was, "The World As Our Neighborhood," were open to the public.

# All-Poly Festivities Begin Today

By NIKKI HOFFMANN

Neither rain nor wind nor gloom of day will stop the two Cal Poly campuses from enjoying a swinging weekend here starting tonight.

Over 200 students will be arriving today from the Pomona campus, according to Miss Ruth Dietterle, activities advisor. Featured during the three-day event will be a sports day, Antigone, a hootenany, dances and many other activities.

A reception sponsored by the College Union Social Committee will be held in the TCU at 7 p.m. tonight. This will give the students from both campuses an opportunity to get to know each other.

Miss Dietterle said.

"Antigone," a Greek tragedy will be staged from 8:30 to 10:30 p.m. in the Little Theater. Admission is 75 cents for students and \$1.50 for the public. A stump will be held in Crandall Gym from 10 p.m. to 1:15 a.m. with music by the Squires. Admission is 50 cents.

Saturday's festivities will begin with a movie in the Little Theater at 10 a.m. Admission is 25 cents. Campus tours will be conducted from 10 a.m. to 3 p.m. Brunch will be from 9-11 a.m.

Field games will be from 2-4 p.m. and will include an ice tug, polka relay, six-legged race, egg in a tablespoon with mixed teams; women only in a balloon destroyer, the back to back barrel race; and for men only, the wheelbarrow race and the ungreaased pole climb.

The Mustang baseball team will play a double-header baseball game starting at 12:30 p.m. with UC Santa Barbara.

"Antigone" will premier at 8:30 p.m. in the Little Theater.

A Wheelchair Basketball game will be held at 8 p.m. in the Men's Gym. The admission is 50 cents for students.

Also at 8 p.m. in Crandall Gym there will be a hootenany. The hootenany will contain local talent from the two campuses.

Appearing from this campus will be Bob Davis and Steve Black singing folk music; Bob Newsom and Mike Sheehy; Ken Slocum, Jack Mayes and Pat Bright will form the "New Pickens County Bog Trotters." Pat Ball and Jean Campbell and the "Bourbon Street Singers."

Ending Saturday night's events will be a Sock Hop in the Men's Gym starting at 10:30 p.m. 'till 1:15 a.m. "Students who attend the dance Saturday night must wear tennis shoes or socked feet," said

Gordon Jones, chairman of All-Poly weekend.

Beginning Sunday, breakfast will be held in the snack bar from 9-11 a.m. Rides to church will be provided.

Any student may participate in the activities during the weekend, Jones said. Women students from Pomona will be housed in the Crandall Gym Annex while male students will occupy the two vacant jungle dorms.

Rehearsal for the hootenany will be Saturday morning at 12 a.m. in the lobby of the Little Theater.

CALIFORNIA STATE POLYTECHNIC COLLEGE

VOL. XXVI, No. 27

SAN LUIS OBISPO, CALIFORNIA

Friday, February 21, 1964

## ASAE Will Recognize New Student Chapter

Some 200 members of the American Society of Agricultural Engineers' Southern California Chapter will meet here tomorrow.

Occasion for the meeting will be the society's formal recognition of the college's agricultural engineering curriculum and issuance of a charter to Cal Poly's newly-organized student branch of ASAE.

According to James Merson, head of the college's Agricultural Engineering Department and host for the event, a special luncheon, after-noon sessions featuring members of the college's staff and student body, a tour of the department's facilities and an evening dinner meeting are all on the agenda.

Warren A. Hall of Los Angeles, program chairman for the Southern California Chapter, said today, "the meeting here Saturday will be one of the most important events in the ASAE Pacific Region history."

"The program will be focused on the student. The new Cal Poly student ASAE branch will be the only one active on the

Pacific Coast," Hall said.

In addition to Dean of the College Dr. Dale W. Andrews, members of the Cal Poly staff who are scheduled to address the afternoon meetings include Dean of Agriculture Warren T. Smith, and William Kirkpatrick and E.L. LeBay, both instructors in the Agricultural Engineering Department.

Patrick Ngohy, a student from Nigeria, and Paul F. Buckner of Stockton and Oliver C. Illia of Valley Ford, AE students, will also speak during the afternoon.

The dinner meeting, planned for 6:30 p.m. in the college's Staff Dining Room, will feature an address by Roy Bainer, dean of the College of Engineering at University of California's Davis Campus and past president of the society. Title of his speech will be, "The Engineer and ASAE."

Also planned during the dinner meeting will be formal presentation of the charter for Cal Poly's student ASAE branch, installation of the new student group's officers and a response from Loren C. Schiller of Santa Maria, president of the new ASAE branch.

## Otto Tops Class Using 2 Languages

Dieter Otto Beermann, Architectural Engineering major from Hannover, Germany, evidently got pretty flustered in a recent military history examination.

The sophomore cadet began the long and difficult test using perfect English, but after the first 15 questions he switched, apparently unconsciously, to German.

Luckily, Capt. David Kingsbury, instructor of the ME-2 course, speaks and reads German so he was able to translate the paper.

When all was done Otto had the highest mark in the class.

Capt. Kingsbury wrote a short note to the student in German on the back of the test congratulating him, but also suggesting that next time he try it in English.

He signed it "Hauptman (Captain) Kingsbury."

## Tomorrow Last Day To Drop Classes

Tomorrow is the last day to withdraw from classes, according to various university officials.

In order to drop a class, students must have a green slip signed by both advisor and instructor. The green drop class slips are available in the administration building.

After this deadline, no classes may be dropped, unless for a college recognized emergency.

## AV Equipment For Poly Royal? Make Contact Now

Do you need audio-visual equipment for your Poly Royal activities? A tape recorder? A movie projector? A public address system? A slide projector?

If a club or organization plans to use such equipment, waste no time in contacting the AV Department.

"During Poly Royal every piece of equipment in the department is in use," says John Helms, department head. "When all of the equipment is checked out, there isn't any more. It is first come, first served. So get your order in now."

Usually AV equipment is on quarter loan to the various departments of the college, but for Poly Royal, all equipment is called in.

After Poly Royal, the "loan" equipment is returned to the different departments for classroom use. However, a club cannot count on using the equipment in the club's department.

## Campus Security Reviews Rules For Bicycles, Riders

The Security Office announces that students should be aware of the responsibilities they incur when operating a bicycle on and off campus and be familiar with the rules governing bicycle operation.

The State of California Vehicle Code defines a bicycle as a cycle propelled by human power upon which any person may ride, having two tandem wheels either of which is 20 inches or more in diameter.

"Persons operating such a vehicle should be sensitive as to their use," says Chief G. W. Cockriel of the Security Office.

Equipment requirements for bicycles include operating brakes, handle bars which may be grasped at or below shoulder level, pedals, which at their lowest position are at least within twelve inches of the ground, a white light, capable of being seen 300 feet ahead in darkness and a red reflector on the rear fender which may be seen 300 feet to the rear.

The Security Office reminds all students that these rules apply to the campus as well as San Luis Obispo.

## Council Approves Judiciary Study; Incorporation Signing Underway

By LANI CAIN

A comprehensive study of student judiciaries will be undertaken by a Student Affairs Council committee as a result of a short but efficient council meeting last Tuesday night.

Named to the committee were four students and Dean of Students Everett Chandler.

## Miss Mathematics Still Unknown

Due to a tie in last week's voting, a re-vote for Miss Mathematics is taking place today in front of the Mathematics Building.

The two girls vying for the title are Beverly Billings, 20, a junior from Carmichael, and Esther Wilson, 23, a senior from Hemet. Both candidates are Mathematics majors and have a 2.0 grade point average or above.

The winner of the contest will be announced at the March 5 Mathematics Club meeting.

Miss Mathematics is official hostess for the Math Department during Poly Royal and will also assist Dr. Milo Whitson, department head, during the high school mathematics contest held during Poly Royal.

## Security Office Cautions Students

G. W. Cockriel, chief security officer, announced this week that the parking problem has increased in recent weeks in and around the lot adjacent to the Cafeteria.

Chief Cockriel asks that students refrain from parking near the entrance to this site, as it will be used in the coming weeks as access routes for heavily laden cement and construction vehicles.

Referring to local traffic ordinances, Chief Cockriel said: "It is prohibited to stop, stand or park in front of a public driveway, except when driving a bus or taxi-cab loading or unloading passengers, and only when authorized by local authorities pursuant to the ordinance."

Cockriel also explained that students should be careful when parking near the site, especially when parking in lot nine, adjacent to the English Building. The gate on that side of the site will be used for construction traffic in the near future.

## Spring Registration Preferential List Posted At Library

A list of students entitled for preferential registration for the Spring Quarter is posted in the foyer of the library, according to Gerald Holley, registrar.

These students will be able to register the first hour and a half of the March 20 registration.

If you have taken, or are enrolled in senior project, or are near graduation, you are urged to check the list, Holley explained.

The purpose of the committee will be to survey other schools as to their handling of student disciplinary problems and to determine the possible applications of a student judiciary system to this campus.

The committee consists of Catherine Ytini, Home Economics major; Steven Davidson, Agricultural Business Management major; Russell Cooper, a graduate student in Math; and Larry Hubbell, a printing major.

In other action, it was announced by Jim Quick that copies of the Articles of Incorporation will be available for signing by council members the latter part of this week.

Student Body President Roy Killgore expressed the wish that all members sign the document by next Tuesday's meeting.

SAC also passed a resolution to complete corporate proceedings.

Under the heading of committee reports came a message from Finance Committee stating that it is still working on a readjustment of the budget for this year and expects to have a proposal for SAC consideration at the next meeting.

This action stems from an expected \$1,946.40 deficit in this year's budget.

Constitution and Codes Committee reported no by-law considerations for the week, followed by the Engineering Council report on the year's activities with emphasis on Engineering Week activities and the new Engineering Newsletter.

Election Committee presented two ballot forms to be used in the Feb. 28 and 27 election on by-law amendments and Poly Royal Queen candidates. The council also passed the dates of April 14 and 15 for the general student body officer election in the Spring.

## 'Their Week' Celebrated By Engineering Division

This week saw the engineering division busy in ceremonies and banquets concurrent with the 1964 Engineering Week.

Acting as official hostesses for the week was Mrs. Alice Pickton, wife of senior Electronics major Shay Pickton. Mrs. Pickton was chosen as Mrs. Engineering from a group of student engineering wives and, reigned over the Engineering Week Ball held Saturday, Feb. 15 in the Men's Gym.

Highlight of the week was the annual Engineering Week banquet, held Thursday, Feb. 20 in the Staff Dining Hall.

Speaker at the banquet was U.S. Navy war hero Marshall H. Austin, currently a research consultant for Lockheed Aircraft. Austin spoke on "Anti-Submarine Warfare Systems—How much is the U.S. Doing In This Respect And What Are The Latest Developments."

Guest of honor at the banquet

attended by Cal Poly engineering majors and instructors, was Robert H. "Pappy" Reece, retiring after eighteen years as an instructor at Cal Poly.

Other highlights of the week included banquets presented by two of the engineering departments, Air Conditioning and Electronics.

The EL banquet was held in the Anderson Hotel yesterday and was marked by a student presentation on "Wave Motions Simplified." Guests at the banquet included the local Kiwanis Club and instructors of the EL department.

The Air Conditioning banquet was held in the Hotel Inn, also on Thursday. The subject for the student presentation was "The Hows and Whys of Refrigeration." Guests of the Air Conditioning banquet included the San Luis Obispo Lion's Club and Air Conditioning instructors.

## Trustees Will Review Science Building Plans

Plans for a \$1,500,000 Biological Science Building for this campus will be reviewed by the trustees of the California State Colleges Feb. 26 and 27 in Los Angeles, according to Douglas Gerard, building coordinator.

The firm of Falk and Booth of San Francisco, consulting architects for the Cal Poly campus, will be presenting the project for approval to develop working drawings of the 48,000 square foot edifice.

The money for the building is in the Governor's 1964-65 budget, said Gerard.

The building is planned to be

located where the temporary parking lot is now, directly north of the Science and east of the English Buildings.

The structure will have three levels.

The lower level will consist of a greenhouse, an animal area, two nature study laboratories, a vertebrate zoology laboratory and a marine biology laboratory.

The middle level will have five classrooms which will be used in part by the Physical Sciences Department. There will also be nine offices.

The upper level is designed to

have a physiology laboratory, an advanced biological laboratory, three botany laboratories and a herbarium.

For each laboratory there are preparation rooms, project rooms, stock and storage rooms.

Dr. Glenn Noble, head of the Biological Sciences Department, said that he hopes to have the building within two years if it is approved. "As the college grows we grow beside our 240 majors, there are many students from other majors taking science courses, so we are in need of this building," he said.

## EDITORIALS

## Don't Waste Column Space

Cal Poly students go to the polls next Wednesday and Thursday to pick their Poly Royal Queen and her court.

Of lesser significance but still of importance are twelve propositions that will also appear on the ballot. For the most part, eleven of the propositions can be negated, for they deal with special groups and their Associated Student Body by-laws.

The ninth proposition, however, affects all the students. This amendment would require, among its two stipulations, that the notice of the election, the date of filing of the petition and a full statement of the amendment be published in the paper of the Associated Students for three consecutive issues prior to the election.

El Mustang questions this proposition. From the student's point of view, it would take valuable column space from the newspaper to perform the function of a bulletin board (the second part of the proposition calls for the posting on campus bulletin boards of the same notices, date of filing and statement of the amendments for one week prior to the election, already required by the present ASB by-laws.)

We also question the intent of the amendment. The makers of the proposition claim the intent is to "let the students know what the proposition states so that if a change is desired, they can appear before their respective councils and make their wants known."

This would be defeating the election itself, for a ballot change made a week before an election would only confuse the issues.

And how many students are familiar with that particular brand of legalese practiced by Student Affairs Council members and which subsequently appears in the ballot statements? Much reference is made to articles, sections, and various parts of the codes, which may as well be in Greek to the average Cal Poly student.

Requiring an editor to publish a specific article in a newspaper takes away the editor's prerogative to publish only those stories he feels would best reflect student interest.

Our opinion is that printing an entire ballot statement is not justified. There are not that many students interested, as evidenced by the recent incorporation election. (During the same election, the ballot statement was approved only a week before the election.)

Since El Mustang is a campus newspaper serving over 6,000 students, it must weigh the news value of all stories appearing in its columns.

We hope that these same columns will not have to be used to publish dry ballot statements which will never be read. Hopefully you will not either.

Vote no on nine.

Editors reserve the right to edit and/or condense all letters received and to decline publishing letters that are in the opinion of the editor in poor taste or libelous. All communications must be signed by the writer. If a non-de plume is desired as a signature, it is permissible but the editor must know the true name of the author.

### Incorporation Praised

Editor:

At the Feb. 18 meeting of the Student Affairs Council, final approval was given for the "Associated Student Body Articles of Incorporation."

At this time, the undersigned wish to publicly thank SAC, the Incorporation Committee, and their chairman Jim Quick for initiating steps which we feel were both appropriate and necessary for Cal Poly. Much thought and foresight has been taken to insure that we, the members of Cal Poly, will benefit through this change. Although final negotiations will not be completed until later this year, we feel that the thoroughness of procedure taken by the above mentioned should be brought to the attention of the student body and commended.

### Health Center Delay?

Editor:

On page three of the Feb. 11 issue of the paper an article appeared which outlined the procedures of our Health Center. This article gives an "explanation" for some of the complaints from students who are inconvenienced by the procedures, but says nothing to account for the instances of inefficiency.

There have been no serious mishaps as a result of the occurrences, but I believe that this is due to a certain amount of luck.

At a recent basketball game, a player was knocked down and received a cut over his eye that bled quite freely. He went directly to the Health Center's emergency section. He was in a state of dizziness, but before he was given aid he was made to stand at the desk and fill out at least two forms for the nurse on duty. It was an hour and fifteen minutes before a doctor got to examine the injury. Considering sporting events where injuries are likely to happen, is it not a wise policy to have a physician at least on the campus?

On a Sunday afternoon, a friend had a bad cold and wanted only to get some kind of pills to relieve her until she could see the doctor on Monday. After a long conversation a nurse gave the girl some simple pills that required no prescription. This was all that was requested at first, and there was no need for any other detention.

A final instance is one which happened to myself. During regular office hours I requested that a simple cauterization be performed as I have frequent nose bleeds. I wanted it to be performed before

the weekend, but the doctor said that I should come back next week after having some tests done.

During the weekend I had a nose bleed, and I went to the King City Hospital for treatment. In only a few minutes and with no unnecessary questions asked, the cauterization was performed.

Cal Poly is proud of the Health Center maintained here at our campus. It is mentioned as being a complete, well-equipped Center. If this is so, and I do believe that we have excellent facilities on our campus, then there must be other reasons for the instances I have cited.

The persons whom I have mentioned are quite willing to be known in connection with this matter. They feel, as I do, that an explanation, and a correction is owed to us, and all of the students here at Cal Poly.

DONELL A. STOVER

### How About Those Posters?

Editor:

It's election time on this campus. You can tell easily enough. Just look on every corner, on every available wall, on the lawns, in windows, on desks, (in the sky?) Posters, Posters.

When it comes time to vote, what is the deciding factor or factors that make a student cast his ballot for a particular girl? It is the posters, the El Mustang publicity, the portrait pictures at the polls, or the girls' popularity?

I don't think flashy posters make a candidate qualified for queen. Anyone can make a poster, but not everyone is qualified to represent the college as queen.

This morning I came on campus and was greeted at the entrance with two huge posters broadcasting queen hopefuls. There were also posters near the library and who knows where else?

After awhile, the posters just become posters. I mean, we know there is a poster there but after seeing so many of them, the meaning is lost.

Then there are the posters that fall down, blow across the lawn, or smear when it rains. I don't think this is good publicity and if this was a campus publication I would use a stronger word to say what they do look like.

Queens, stop and think about your campaign. P. T. Barnum would handle it one way, but would you handle it the same way? Every other candidate in past election has spread posters from campus corner to campus corner. Is it necessary? If this type of screaming approach is the only way, I suggest sky-writing, flagpole sitting, sandwich sign carrying, dropping leaflets from a helicopter, giving away silver dollars, or riding through campus on a white stallion.

Good luck, girls.

MITCHELL HIDER

## School Aid May Total \$138.5 Million

Gov. Edmund G. Brown said today California schools will receive \$138.5 million in increased aid under legislative and budget proposals presented to the legislature.

The governor issued his statement "to clarify my own proposals and put in proper light those advanced by others." The governor pointed out that his plan for increased aid could be accomplished without raising taxes. "All other plans advanced would mean an increase in taxes," he said.

Gov. Brown said the total aid to schools in the 1964-65 budget includes the following: \$51 million under constitutional and statutory provisions for population growth; \$25 million voted by the last legislature for the 1964-65 budget; \$35 million increase in state aid; \$27.5 million through the passage of a countywide tax equalization program.

Both the \$35 million increase and the \$27.5 million from a countywide tax program would have to be voted by the legislature, the governor said.

"This is a realistic program based on both need and ability to pay," the governor said. "I repeat,

it does not call for a tax increase. Any aid over and above that which I have proposed must come from new taxes. I made it clear in 1962 and I do so again that we can and should hold the line on taxes. Those who are proposing increased expenditures should make it perfectly clear that they are also proposing, and supporting more taxes to pay for their programs."

The governor said that he "could not stress too much the importance of securing a countywide tax equalization program this year."

"The inequity of rich school districts side by side with poor districts must be eliminated," he said. "It is an anachronism in public policy directly opposing our principle of equal educational opportunity for all."

He pointed out, for example, that in Alameda County "we have the case of a \$1.04 tax rate in highly industrialized Emeryville and a \$3.89 tax in nearby Albany."

At the high school level each Emeryville child is backed by \$316,000 of assessed valuation compared with only \$23,000 in Albany, he said.

## Fresno Librarian Makes Survey Here

Dr. Raymond F. Wood, reference librarian at Fresno State College, conducted a survey in the library last week, according to Mrs. Joy Burghell, acting head of the reference section.

On sabbatical leave, Dr. Wood is visiting and studying libraries at approximately 50 colleges and universities throughout the United States.

In making his study he is concentrating on two areas of special emphasis, the relationship of the library to the graduate program of the institution and the special collections of the library. Cal Poly was selected for study on the basis of similarities to Fresno State College, particularly in the size of enrollment, type of financial support and general academic program especially the graduate program.

During his one-day study, Dr. Wood conferred with librarians Harry Strauss, Arthur J. Stobbe, Miss Catherine Schneider, Mrs. Dorothy Gates, Mrs. Lois Higman and Miss Pearl Turner and reserve library assistant, Mrs. Gwen Lighthall, and library assistant, Mrs. Margaret Johnson.

## Welding Students Get Scholarships

Four Welding and Metallurgical Engineering students are the recipients of scholarship awards totaling \$500. The awards were made by the American Welding Society, Santa Clara and the Golden Gate Sections, announces C. Paul Winick, chairman of the Scholarship Committee.

Carl Dietrich and William Oliver are being awarded \$150 each. David Cutting and Richard Pavlick are the recipients of \$100 each. Each student will receive half of the allocated money during the Winter and Spring Quarters of this year.

## Alpha Zeta Men 'Spruce Up' Park

Santa Rosa Park is sporting a new look thanks to the efforts of 42 Alpha Zeta pledges.

Furnished with paint and brushes by Superintendent of Parks and Recreation Ralph Flory, the new members painted park benches, play equipment and rest rooms fulfilling requirements for initiation into the national honorary agriculture fraternity, and at the same time conducting a service to the community as well.

### MATHEMATICS SOLVES

the problems in today's engineering. And it has solved the problem in Diamond cutting too. Drop in and ask about this fascinating detail when you're in the neighborhood of:

BRASIL'S JLRS.

## NUCLEAR ENERGY RESEARCH AT LAWRENCE RADIATION LABORATORY

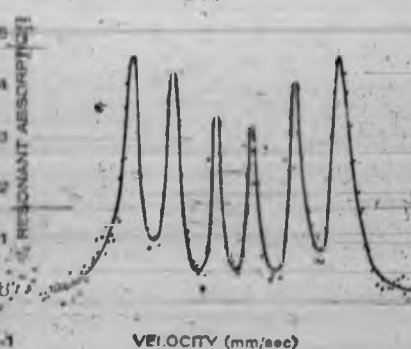

LIVERMORE, CALIFORNIA

MAJOR PROGRAMS NOW UNDER WAY: PLOWSHARE—Industrial and scientific uses of nuclear explosives. WHITNEY—Nuclear weapons for national defense. SHERWOOD—Power production from controlled thermonuclear reactions. PLUTO—Nuclear reactor for propulsion of a ramjet missile. BIOMEDICAL—The effects of radioactivity on man and his environment... far-reaching programs utilizing the skills of virtually every scientific and technical discipline.

This high-resolution Mössbauer spectrometer, used to study nuclear properties and solid state phenomena, is one of many research tools (ranging from the micro-miniature to the multi-ton) designed and built by LRL scientists and engineers. The spectrometer has less than 2% velocity jitter over a speed range of 100. The functions of the spectrometer are automated so that the resonant absorptions for 160 positive and negative velocities are obtained in a normal run. Data obtained from print-out scalars are processed and plotted by electronic computers.

THE BELL TELEPHONE COMPANIES  
SALUTE: ERNIE SELZER

Five assignments in less than two years would indicate Ernie Selzer (B.S., 1961) is a man on the move at Pacific Telephone. He is presently a senior engineer working on the design of a worldwide data system for a large customer in the Los Angeles district.

Men with technical and scientific backgrounds are needed to understand the new concepts and growing complexities of communications. Ernie has been involved in engineering toll switching equipment, data transmission

lines, and the design of private switching systems. Ernie has made rapid strides to earn a reputation as a competent, versatile engineer. He has proved his abilities on every assignment and has gained the personal satisfaction and recognition that go with a job well done.

Ernie Selzer, like many young engineers, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

TELEPHONE MAN-OF-THE-MONTH

Holstein Association  
Honors College Herd

The college has qualified for the Progressive Breeder's Award, the highest recognition attainable by a breeder of registered Holstein cattle.

The Holstein-Friesian Association of America has accorded this honor to only 512 Holstein breeding establishments, including 14 in California. This is the 14th consecutive time that a college has been recognized.

To qualify for the Progressive Breeder's Award, a Holstein breeder must meet strict require-

ments in all phases of dairy cattle breeding and management, including production, type improvement, herd health and the development of home-bred animals.

A certificate of this award has been sent to the college by the Holstein-Friesian Association of America, national organization of the Holstein breed representing nearly 41,000 members.

A bronze year-plate was presented Cal Poly at the annual banquet held in Modesto recently.

Wood Welding  
New Art In TA

Want to weld wood? Yes, it can be done. It is done. Technical Arts Department students weld wood in seconds with an electronic welder.

While wood welding is unusual, it has been done before. However, the old process was an overnight job.

The wood welder in the TA Department operates on the same principle as the electronic oven that roasts a turkey in 90 seconds, says J. "Mac" McRobbie, department head. It was selected after intensive evaluation of electronic welders by the students.

To speed mass production is the use for which the 2-foot square piece of equipment is intended.

In the TA Department, says McRobbie, its use is threefold: to acquaint students with current industrial equipment; to familiarize students with teaching options on its use and advantages so they may be prepared to operate or counsel when and if they are in a high school that may buy such equipment; and to prepare industrial sales and service option students for work in their areas.

## FOOD FOR HUNGRY

Each \$1 CARE Food Crusade package sent by Americans contains 18 to 50 pounds of food for the hungry in other lands.

Flower Shop Class  
Visits Mortuary

Members of the flower shop management class were guests of a local mortuary recently.

The 16 students and instructor Jeanne Tucker were shown phases of mortuary work which involve the florist business and mortuary-florist team work.

The mortician demonstrated the placement of funeral pieces for best display of the florist's work.

The mortician explained the construction of caskets as an aid to the florist's understanding of how casket flower pieces are, or can be placed. He explained the materials that the florist may use in funeral arrangements and why some materials may be better than others.

Gimbel Loan Fund  
Again Available

The Jake Gimbel Scholarship Loan Fund, offered through the Bank of America, is again available for male students wishing to pursue a master's or doctor's degree.

Everett Chandler, dean of students said, "Recipients of the scholarship, consisting of no interest loan funds up to \$1,000, are chosen from a group of qualified students who submit their applications."

Those interested should contact the dean of students' office prior to April 1 for further information.

## Floral Shop Visitors

Twenty-three members of the Beginning Flower Arranging class inspected four florist shops in the Salinas area recently.

Students were accompanied by Mrs. Jeanne Tucker, instructor, and Russ Comer, a student who has completed advanced flower arranging.

Aero Sophomore  
West Point Bound

Cadet Sgt. James B. Schindler, Aeronautical Engineering sophomore, will attend the West Point Military Academy beginning in July, announces Capt. Tommy Price, instructor in Military Sciences.

Schindler is the son of Lt. Col. and Mrs. W. J. Schindler USAF (Ret) now living in Torrance. He was born in Albuquerque, N. M., and is a transfer student from Iowa State University.

Young Farmers Place  
At Madera Convention

The Cal Poly chapter of the Young Farmers placed second in the State Parliamentary Procedure Contest held recently in Madera in conjunction with the annual Young Farmers Convention.

Team members were Alan Meeder, Dairy Husbandry; Bob Maitland, Soil Science; Benny Veligas, Dairy Manufacturing; Floyd Perry, Fruit Production; and Jeff Jeffery, Animal Husbandry.

The Modesto Junior College team was winner of the contest. Seven other college teams competed.

## Grapplers Host Three Teams This Weekend

A do or die match with Fresno State tonight in the Men's Gym at 7:30 faces coach Vaughan Hitchcock's wrestling squad.

A win over Fresno will mean at least a tie for the California Collegiate Athletic Association title with San Diego State.

Fresno State has been called the "toughest team of the season" Cal Poly will face this season by Hitchcock.

Other matches scheduled in the three-match home slate include the University of California at Berkeley grapplers at 2 p.m. in the Men's Gym and the Los Angeles State Diablos at 7:30 p.m. in Cranford Gym.

In other action this week, the Mustang matmen posted a 17-9 victory over the San Jose Spartans Tuesday night to give Cal Poly a 10-2-1 season record. Defeats came at the hands of Oregon State and University of Oregon, with the San Diego State Aztecs earning a 14-14 tie for the only blemishes on the wrestling team's record.

In Tuesday night's San Jose match, 123-pound Pete Frankland

came from behind to score the Mustang's first win by an 11-8 decision over SJ's Mike Stone before 250 spectators.

Poly took the 130-pound match by forfeit.

The loss of injured grapplers Spencer Tomoto and Sam Huerta moved 130-pounder Jim Teem up to the 137-pound class against Curt Beatty. Beatty defeated Teem 6-4 to hand Teem his first loss of the season.

John Taberna stepped in for injured 147-pounder Tomoto against Carl Dommeyer. Dommeyer defeated Taberna 5-1 to add three points to San Jose tally.

Grappling at 157-pounds, Sam Cerecero posted a 2-0 decision over Spartan Frank Strouse. Given one point for riding time, Terry Wigglesworth defeated SJ's Gary Scandina, 6-1 in the 167-pound weight division.

With a 10-8 season record, Cal Poly's Harvey Wool tallied an 8-2 victory over 177-pound Bill Harm. In the heavyweight class, San Jose's Don Anderson shaved his way to a 5-4 decision over Poly's Bill Dauphin.

## Cindermen Travel To Meet Westmont

Having worked out for seven weeks, the Cindermen travel to Westmont tomorrow to participate in its first dual meet of the season. Coach Walt Williamson believes Westmont has a balanced team and might be considered a slight favorite.

Williamson implied that the Mustangs will give the Warriors a battle, especially in the field events. In the field events will be Lloyd Petroelje, Dan Cockrum, Mike McGinnis, Bruce Larson and Ben Laville. Cockrum, a sophomore, has been impressive in workouts. Petroelje has thrown the discus 140 feet.

Laville should provide a few points for the Mustangs in the javelin throw. Laville may represent the British West Indies in the javelin event at the summer Olympics in Japan.

The thinclads will also be aided by the running of Gary Walker. Walker, who also plays football, will enter in the 120-yard high hurdles, 330-yard intermediate hurdles, the 440-yard mile relays and pole vault. Gary Curtis, Tom Pearl and Ken Wolf will also add some strength in the sprints. Jon Dana will also participate in three events and team captain Dennis Raat will run in both relays.

Returning after a two-year hitch with Uncle Sam's troops is Charles Smith. Smith will compete in the high jump, broad jump and the triple jump.

Assistant Coach Gary Belkman has been working with the distance runners and improvement is anticipated in these events. The Mustangs will travel to Long Beach for a dual meet next week.

### HIGH SALARY

Babe Ruth's highest salary was in 1930 and 1931 when he received \$80,000. He played for five different teams in his career.

### LOW ATTENDANCE

The lowest attendance of a World Series was in 1933 when the New York Giants played the Washington Senators in a five-game series.

WARMING UP . . . Getting ready for tomorrow's first track meet this year. The cindermen are track meet at Westmont are (l. to r.) Gary Curtis, expected to be strong in the field events, yet have Gary Walker, Jon Dana, and Dennis Raat. These have been rated as slight underdogs.

(Photo by Schilling)

## Colts Win Final Home Game, 64-53

Although getting off to a slow start, the Cal Poly Colts came back to dump Coalings in their final home game Wednesday night.

Coalings scored six points before Poly put one through the hoop, but the Colts refused to stay behind. At the end of a close first half, the score rested 20-20.

Late in the second half, Poly gained a 10 point lead, and were never threatened seriously again. High honors for the home round-ballers went to Ray Prewitt with 17, Frank Davis with 16, and Ed Fair with 11.

Bob Meacham, former Cal Poly student was Coalings's high point with 23 points.

Even though the Colts played well enough to win, Coach McElvyn said that the team must improve to beat Fresno today. Today's game will be the last of the season for the Frosh. The Colts now possess an 11-8 season record.

## Free Throw Derby Next Week

Touch athletes get prepared! The annual free throw contest is coming this Monday night and will continue until Thursday night for the eliminations.

Before each league game next week, each team will be asked to select its five best free throw shooters and send them to the line where they will be given a total of 25 shots per man.

The combined score of all five shooters will then be added and

the team with the most points will be declared the winner. The winner will wait until the 8 p.m. games are completed and a championship round will take place.

The winners for the night will then meet the following week at a later date to shoot it out for the Cal Poly Free Throw Championship.

Intramural overall points will be awarded to the winners and the runner-ups.

## BASEBALL

# Fox, Curl Will Start On Mound

Cal Poly's diamond nine opens its 1964 season here tomorrow afternoon at 12:30 in a double-header against the University of California at Santa Barbara.

The Mustangs will field five returnees against the Gauchos. On the mound for the first game will be returnee Steve Fox. With a 1963-64 season record of 5-5, Terry Curl will hurl in the second game.

Moving in from the outfield to the catcher's spot will be Wayne West. Ed Schum up from the 1963-64 frosh squad, will be covering first base. Returnee Ernie Bingham will cover second and Mike Williams will be fielded as third sacker. Bob Phillips will be covering the ground at shortstop.

Jim Ramos, shortstop on the 1963-64 all CCAA second team, will be in left field against the Blue and

Gold. Covering center will be Don Cole, and in right will be Joe Ziani.

Last year, the Mustangs garnered a 16-23 season, and Coach Bill Hicks looks for the varsity nine to improve on that mark this season.

Last year, the Mustangs dropped numerous games in the latter innings due to lack of hitting. But with a recent 14-3 shelling of Hancock Junior College in a practice game, Hicks hopes for improvement with his hitters.

The Mustang moundmen had a cumulative earned run average of 3.2 last year and much of the same is expected this year. With hurlers Jim Nowlis, Pete Cocchi, Hutch Jones and Terry Ward helping out, Fox and Curl, pitching should be the horseholders strong point again this year.

## Mustang Quint Hope For Upset

Hoping to close its season on a happy note, Cal Poly's basketball team travels to Fresno tonight to meet the California Collegiate Athletic Association champions.

Even though the Mustangs have a poor 1-8 CCAA showing for the season, Fresno State's Bulldogs, owners of a 9-0 mark in league

play, will not take the contest lightly. They will undoubtedly have memories of the Mustangs' 65-64 upset last year after the Bulldogs had already won the CCAA crown.

After losing games over the weekend to San Diego State College, 90-84, and to Long Beach State College, 94-83, the Mustangs' overall record for the season now stands at 5-14. Their current .357 won-loss percentage is the lowest recorded by a Cal Poly cage club in the past five seasons and is second lowest in the 17-year career of Head Coach Ed Jorgensen at Cal Poly.

The home-standing Bulldogs are led by two all-CCAA performers, forwards Tom Jacobson and Maurice Talbot. Talbot has a total of 228 points in nine league contests and leads the CCAA in scoring with a 26.4 point per game average. In the earlier Mustang-Bulldog contest this year, Fresno State, led by Talbot's 26-point explosion, trounced Cal Poly 92-76.

Bob Horvath, Cal Poly's two-time all-CCAA guard elevated both his Cal Poly all-time career scoring mark and his CCAA all-time scoring average over the weekend. He now has a total of 1,139 points as a Mustang and 597 in CCAA play.

The Mustangs were hampered by the injury bug last weekend. Both 6-8 inch Glenn Cooper, an alternate starter, and Tom Kiech, a regular on Coach Jorgensen's alternate unit, were out with injuries. Cooper suffered a blister on his right foot and missed much of the Long Beach State encounter and Kiech twisted an ankle at San Diego State and did not suit up Saturday night.

HIG TWO . . . Curt Parry, junior forward from Elsinore, puts up two points in practice session. Parry is part of the reason the Mustangs are hoping for a repeat performance of last year's upset win over Fresno State. Cal Poly will be closing out its basketball season against the Bulldogs tonight.

### Student Tours

**THE SUMMER IN EUROPE!**  
Leave June 28, 1964. Four days in New York for the World's Fair. Then by ship to the excitement of 12 countries. Two personable tour leaders. Visit the cultural and scenic centers of the continent. Become acquainted with European students. Return August 22.  
95 days - \$1894.85 from Los Angeles
