

POLY ROYAL BUTTON . . . Loula Sims, an Electronics major from San Luis Obispo, submitted the winning design for this year's Poly Royal Button. Selected by the Poly Royal Board, the first week of April for 25 cents each.

Flower Judging Contest To Attract 60 Teams

Invitations to the 23rd intercollegiate flower judging contest to be held April 10 on campus are in the mail to some 60 colleges and universities throughout the United States and Canada.

The contest is sponsored jointly by the Society of American Florists and the Alpha Xi, honorary floriculture fraternity.

In order to participate in the contest, a school must offer courses in floriculture which are credited as partial fulfillment for a bachelor's degree, according to E. Ray Houston, Ornamental Horticulture instructor and chairman of the contest.

According to Houston, there will probably be at least 20 classes of cut flowers and potted plants for the student teams entered in the contest to judge.

Glee Club, Collegians Plan Week-Long Southland Tour

Music, music, music! Men, men, men! Put them together and you have the ingredients of Cal Poly's all-male music tour for 1964.

Some 60 men will leave the campus on Sunday, March 15, to begin a week-long tour.

The students, all members of the college's Glee Club and the Collegians Dance Band, are scheduled to give 15 performances during the tour.

Tour engagements include concerts at North Hollywood High School; San Fernando High School; Westchester, Manual Arts and Wilson High Schools; Hollywood High School; South Gate High School; Harbor City; Palmdale High School, and Arcadia High School.

Also included in the schedule of events is a tour of Capitol Records on Wednesday, March 18.

Last spring saw the two groups, both directed by Harold P. Davidson, head of the Music Department, toured the San Joaquin Valley area and give 17 performances to enthusiastic audiences numbering over 25,000 persons.

In addition to the Men's Glee and the Collegians, two all-male groups, the Glee Club and the Collegians, will give performances during the tour.

Barber shop harmony is the specialty of the Majors and Minors, while the quartet offers their renditions of popular songs.

Current and standard favorites will be presented by the 15-piece Collegian dance band, including "Gravy Waltz," "The Very Best To You," and Dave Brubeck's "Bossa Nova, U.S.A."

TWO BONNIES—ONE A WINNER . . . El Mustang Editor-in-Chief Dave Kishiyama, right, who ends his career as head of the newspaper staff with this edition, was named a winner of the college's Mustang Award this week. Kishiyama is shown here with College President Julian A. McPhee at a press conference held last Friday. Kishiyama is a member of the student Board of Publications and is Treasurer of the Cal Poly Student Press Association.

(McLain Photo)

Smothers Brothers Perform March 21 In Men's Gym

Two of America's "unstrung heroes" will be appearing at Cal Poly. They are the "Smothers Brothers," and they will appear Saturday, March 21 at 8:30 p.m. in the Men's Gym.

Tickets are now in sale at the Student Body Office. Admission is \$3 reserved, \$2.25 and \$1.50 general admission for students. It is \$3.50 reserved; \$2.75 and \$2 general admission for the public.

Only a few years ago Tom and Dick Smothers were a pair of talented, but unknown singing comics, making big noises in their hometown bistro, San Francisco's "Purple Onion." It was there that Mercury records discovered the brothers and waxed their first album, "The Smothers Brothers at the Purple Onion." Since then they have made three other records: "The Two Sides of the Smothers Brothers," "Think Ethnic," and "Curb your tongue, Knave."

Tom Smothers, the bewildered talkative brother and guitarist is 25 years old and one year older than Dick who plays the bass and patiently tries to get his fumbling brother back on the intellectual beam.

The harmony of their humor is not unlike the harmony of their singing. It is gentle and tasteful but full of delightful surprises.

Contempos 4 Swing Tomorrow Night At CU Playboy Party

A Playboy Party will be held in the Staff Dining Hall and the Student Dining Hall tomorrow night from 9 to 1 o'clock.

The party will have a general playboy motif and serve imitation cocktails. The price will be \$1.75 per couple and door prizes will be awarded. It is co-sponsored by the CU Dance Committee and the CU Social Committee.

Some of the activities planned for the party are a championship intercollegiate codes, basketball, regatta, a barbeque, a dance, and a carnival.

A Road Show from the Cal Poly Pomona campus will provide musical entertainment at the carnival dance and concert. The Road Show is a group of men and women who will combine half their talents as a band while the others sing.

Testing Scheduled For Chem Students

All students planning to take their first college chemistry classes in the Spring, Summer, or Fall quarters of 1964 are requested to visit the Counseling Center to determine which chemistry course is recommended to meet the requirements.

The Counseling Center is located in Room 109 of the Ag Ed Building and is open Monday through Friday, 8 a.m. to noon and 1 p.m. to 5 p.m.

The Physical Science Department has set March 9 through March 13 as the dates for counseling.

FRIDAY, MARCH 6, 1964

Propositions 2, 5, 9 Defeated

Most of the 640 students who voted in the postponed Associated Student Body by-laws election held Tuesday and Wednesday voted "yes." Each of the twelve propositions on the ballot received more "yes" than "no" votes.

Despite the predominantly affirmative vote, three of the 12 propositions were defeated, including controversial proposition nine, which was opposed by El Mustang editors.

Proposition two and proposition five also did not meet the necessary two-thirds majority vote.

Most of the propositions intended to amend the ASB by-laws to conform to current practices of student government groups.

Results

11.	402	597	105
12.	400	613	87

Blood Donors Under 21 Need Release

The Associated Student Body government needs qualified constituents to give blood during its drive at the Student Health Center Thursday, April 2.

The ASB is sponsoring the drive to build up Cal Poly's account at the Tri-County Blood Bank. The account, now at a low ebb, saves students, faculty, staff and their dependents a \$35 per pint charge if they ever need blood.

All donors must be in good health. Students under 21 must meet an additional requirement to become qualified donors: They must have a donation release signed by their parents.

The release can be simply a letter, according to Health Center spokesmen. Or it can be written on a form available at the Center.

Besides being in good health and legally acceptable, donors must also refrain from eating for four hours before giving blood.

But certain food will not disqualify a donor if consumed during the four-hour fast. The Health Center has issued an "eats list" for the willing but hungry.

The list includes coffee, black or with sugar, but no cream. Bread or toast with jam or jelly is okay, but not with butter.

Leafy vegetables are approved, as long as they are taken without dressing. With the exception of bananas, any fruit or derivative juice may be consumed.

Hours for the April 2 drive will be 11 a.m. to 3:30 p.m. at the Health Center. Students holding cafeteria meal tickets who would miss lunch if they were to donate are urged to bring a snack.

Students who will be honored at the El Corral Snack Bar following their tour of the Health Center.

Songleader Tryouts Set For March 24

Tryouts for next year's songleaders will begin Tuesday, March 24, in the dance room in Crandall Gym from 7 to 9 p.m.

A six-week practice session is planned with practices being held one night a week.

Girls will be taught a routine and also must make up one of their own to specified music.

All girls who have a 2.0 overall grade point average are eligible. Five girls will be chosen at final tryouts to be held May 6 in the Football Stadium.

Surfboard Prize At Surfing Stomp

Are finals getting you down? Do you need a chance to let off some of the tension that has been building up?

Now is your chance to let yourself go. Attend the Surfing Stomp, Saturday, March 14 from 8 p.m. to 1 a.m. in the Men's Gym, sponsored by the Sophomore Class.

The admission is 75 cents.

The "New Dimensions" will be playing.

Door prizes will be awarded. Included in the prizes are ten \$1 gift certificates at Brown's Music Store, five one year subscriptions to Surfing Illustrated Magazine, five New Dimension albums and a \$125 Jacob's surfboard and rack.

Proposition two, which concerned membership on the Music Board of Control, lost by only six votes. Current practices on the Music Board is to elect three representatives from each group such as the Men's Glee Club or the Collegians, to sit on the board.

Had proposition 2 passed, the current practices would have been legalized in the ASB by-laws, which at present allows only two representatives from each group to be elected to the board.

Proposition 5, which would have changed the voting power of faculty representatives on the Board of Publications, lost by 15 votes. The board supervises El Mustang and the college yearbook, El Rodeo.

Passage of proposition 6 would

have transferred veto power from the board's faculty advisor to the college president's representative, one of four faculty members to the board.

Proposition 9, which would have required an election ballot statement to be printed three times in El Mustang to make the election legal, was defeated by 85 votes. The present requirement states that the ballot statement must run in the newspaper "for one week previous to the election."

The election results were not computed until 9 o'clock Thursday morning despite the use of IBM ballots. Polls closed at 1 p.m. Wednesday.

ABR Vice-President Steve

Scotfield, head of the Election Committee, reported that variation in ballot marking by voters required that each ballot be tallied individually by the IBM machines.

Results of the election will become final following a ten-day period after voting during which Scotfield will consider any election protests.

Of the nine propositions which passed seven concern internal modifications to the structure of boards.

Proposition 1 changes procedure for approval of board chairmen of candidates, which then were voted on by the board. In practice SAC has approved an individual

chairman-elect, and this practice is now legal.

Proposition 3 eliminates requirement that a representative elected by the Press Club sit on the Board of Publications.

Proposition 4 increased the number of BOP faculty advisors from three to four.

Proposition 5 changes five members of the Board of Athletics Control from "members at large" to members representing definite interests.

Proposition 7 changed the title of the "Director of Athletics" to "Coordinator of Athletics."

Proposition 8 added regular qualifications for student members of the Board of Athletics Control.

Proposition 10 changed the position of the Spring Sing Committee from an organization under the College Union Committee to a separate standing committee reporting directly to SAC.

Proposition 11 changed the title to "Leadership Conference Committee."

Proposition 12 added to the ASB by-laws provisions for a Rose Parade Float Committee. Duties of the committee are to aid the Pomona campus of Cal Poly in float construction.

Radio Station Needs Okay, Financing

Money and administrative approval are the two stumbling blocks which face the passing of the proposed campus radio plan, according to Malcolm Kemp, chairman of the Campus Radio Committee.

The issue will be voted upon Tuesday, March 10 by the Student Affairs Council and then will be sent for administrative approval.

Campus radio would be run by an executive board of five students. The board would program according to the student's wants and needs.

Students on the board will be elected by the campus radio staff when the administration approves the code, Kemp said.

Presently about half of the state colleges have campus radio stations. The University of California, Santa Barbara has a station which cost \$3,000 to set up and operate. If Cal Poly gets the station, it will cost \$2,000. The reduced fee is due to volunteer services and the help of students in the Electronics Department in setting up the operation, Kemp explained yesterday.

Kemp indicated that there are three objectives of campus radio. They include: to disseminate information throughout the campus, to provide a learning by doing process for areas of technical, education and programming, and to provide entertainment for students.

Chairman Kemp urges anyone interested in campus radio to come to the SAC meeting on March 10, 7 p.m.

SAC Slashes Budgets By \$12,000 To Avoid ASB Deficit Spending

The \$300,450 Associated Student Body budget for 1963-64 was cut \$12,000 Tuesday night by Student Affairs Council.

The cut was recommended by SAC's Finance Committee. The committee estimated that unless the cut was made, student government would show a \$12,000 deficit at the end of the school year.

Debate over whether the cut should be made or not lasted an hour and 15 minutes.

Some representatives felt that portions of the deficit should be taken from a \$30,000 reserve fund which the ASB holds as a financial insurance against income-depleting emergencies.

The ASB receives funds from two sources: student body card fees, \$86,395, and income-producing events, \$114,055. According to Finance Committee Chairman Jim

Venneman, the income-producing events have not brought in as much money as they were expected to.

Those groups cut were Athletics, \$9,100; College Union, \$1,685; Music, \$750; Poly Royal, \$300; Publications, \$2,610; miscellaneous accounts, \$3,085; over-realization of Welcome Week Camp income, \$1,018.95; SAC contingency was reduced to \$1,466.68.

Following the vote it was announced that groups wishing to request where the money is to come from, within their budgets, are asked to submit plans to Mrs. Phyllis Stewart, bookkeeper in the ASB office, as soon as before next Wednesday.

A motion tabled last week to let Poly Royal Committee transfer \$160 from the carnival dance to the

Year-end reports consisted of the Dairy Cattle and Dairy Products Judging Teams. Both reports were accepted.

Constitution and Codes Committee brought the Humanist Club and the Social Science Club by-laws up for acceptance. The Humanist Club was accepted. However, action on the Social Science Club by-laws was postponed until the next meeting.

Approved by the council were Darryl Skrabak, a senior Journalism major from San Francisco, as the Spring Quarter editor of El Mustang, and Charles Smith, a sophomore Journalism major from Palmdale, as the 1964-65 El Rodeo editor.

Also approved was the University of Santa Clara to the football schedule on a long range consideration. Coronation Ball was passed.

Concert Band Will Play Varied Program Thursday

The Concert Band will be featured in next Thursday's College Hour presentation in the Little Theater.

The band, under the direction of J. Martin Baum, will play such numbers as "A Festival Prelude" by Alfred Reed and "Cumana" by Barclay Allen. Director Baum promises a program to satisfy every student's musical tastes.

A trombone trio will feature the talents of Doug Eberhart, Jerry Pyle and Ron Koroch playing "Holiday for Trombones." Ken Fitzhugh, solo pianist, will perform "The Dream of Olwen" by Charles Williams.

This is the last College Hour of the quarter. The next program will be given April 9 and will feature the Men's Glee and the Collegians under the direction of J. Martin Baum.

People-To-People Slates 'Far East Philosophies'

"Philosophies of the Far East" will be the subject of the Tuesday, March 10 meeting of the People-To-People Club in Sc B 5 at 8 p.m.

Mary Harbert, Social Science instructor, will be the guest speaker. Here from the University of Oregon and replacing Dr. Gene Smith, who is on sabbatical leave, the speaker has made three trips to the Orient and is planning another trip this summer.

She has also worked in the Philippines as a public relations employee for the Philippine Airlines. Refreshments and discussions will follow the speech.

As '64 Class Gift

A bronze seal of the college has been selected and approved as the class of 1964's gift to the college, according to Charles "Cap" Peake, Senior Class president.

The Great Seal of the State of California will be encompassed by the words "California State Polytechnic College, San Luis Obispo" and is to be cast in bronze and mounted on a pedestal adjacent to the main entrance of the administration building, now under construction.

Peake said the seal will be placed in a planter area in the walkway to the main lobby of the building.

The Senior Class held a gift idea contest with a \$25 prize for the selected idea earlier this academic year. Of the 22 ideas submitted, Jay Jansen's seal idea was selected the winner.

The class executive committee passed the gift after careful review of the ideas, and the class voted unanimously to pass the design, Peake said. Hank Hansen, a senior Architectural Engineering major, designed and drew the plans for the project.

The approved gift was reviewed by the college Executive Council, the campus Planning Committee and signed by President McPhee. Work is now in progress to complete all details and then to advertise for bids. The actual construction is planned to begin in April.

MUSTANG WINNER . . . Malcolm Kemp, senior Electronics Engineering major, is the newest Mustang Award winner. Kemp, active in student government and head of the Campus Radio Committee, won the award for his work on the seal resolution.

High GPA Traditional 2.5 At Crops House

Twelve young men with a clear idea of what they want out of life, and the fortitude to reach their goals, have set a grade point record while acquiring the knowledge to get them where they want to go.

These students have several things in common. They are all students in the Crops Department, they are all serious about their education, and they all live in one residence hall.

Their common dwelling is the Crops House, a campus residence hall. Their claim to fame as a group—a 2.5 overall grade point average for the Fall Quarter.

The 12 students earned a combined grade point average which was the highest of any outlying living group at the college for the quarter, but this is nothing new. The Crops House residents have had the highest overall grade point average in their residence hall category since the living group was established in 1951.

Not only are the young agriculturists proficient in their college studies, they also display the characteristics of leadership and responsibility by supervising their own living group.

Senior Crop Production major

John Eggers of Orange serves as house manager. Sophomore Fruit Production major Ron McFarland of Livingston is in charge of maintenance. Both men receive their rent free for the services they perform.

The 12 students who live at the Crops House were selected by Dr. Corwin H. Johnson, head of the Crops Department, and Arnold Scheer, instructor in the department and faculty advisor of the house. In addition to Eggers and McFarland the residents are William Bickel, Fruit Production; Carl Cavani, Fruit Production; Ballico, Ron Cecchini, Crops Production; Stockton; Freddy Del Dotto, Crops Production; Livingston; Robert Espinola, Crops Production; Atwater; Ron Filice, Fruit Production; Gilroy; Dave Moore, Crops Production; Bakersfield; John Spina, Fruit Production; San Jose; Ron Yamashita, Fruit Production; Atwater; and Robert Welmer, Fruit Production, Livingston.

Council Sponsoring Interfaith Talks

Interfaith Council is sponsoring monthly "interfaith hours" to acquaint the student body with the members of different religions and their represented faiths, and to establish feelings of cooperation and understanding throughout the year and not only at Religion in Life Week.

The second in this series is being presented by Lambda Delta Sigma, the service organization of the Church of Jesus Christ of Latter-Day Saints.

The "What Is A Mormon" program will be held March 8 in the Temporary College Union at 7:30 p.m. A film will be shown and small discussion groups will follow.

All students are invited to support the activities of IFC.

Area High Schools

Dr. Howard Brown, head of the Ornamental Horticulture Department, has been visiting high schools on a special assignment for the State Department of Agriculture Education.

At each high school he meets with agriculture students, and he demonstrates horticulture techniques and propagation procedures. He also outlines possible careers in horticulture and the agriculture progress being made in horticulture.

FOOD AS WAGES

After the 1962 earthquake in Iran, CARE issued food as wages for victims working on reconstruction. In one village alone, four irrigation channels rebuilt by men "paid" in CARE food will be worth \$13,000 in crops this year; \$52,000 in crops each year thereafter.

6 ROTC Members Earn Recognition For Achievements

Six members of the U. S. Army's Reserve Officer's Training Corps unit on campus received recognition for outstanding accomplishments recently.

For his superior performance of duties as chairman of the Military Ball, which took place last month, Ron Love, 21-year old Electronics Engineering senior from China Lake, received a Certificate of Merit.

John M. Lawson, 28-year-old Industrial Engineering senior, also received a Certificate of Merit for his work as publicity chairman of the Military Ball.

The ROTC unit also recognized **JANUARY 1965 DEADLINE** Korean G. I. Bill education benefits for veterans will not be available after January 31, 1965, the Veterans Administration warns.

four outstanding marksmen for their winning performances during a National Rifle Association match, sponsored by the Visalia Police Association.

Howard E. Miller, Dover, Del.;

Daniel Kawamoto, Hawaii; John D. Wilson of Visalia; and Charles Dickerhoff of National City received trophies for marksmanship as members of the Cal Poly team which won 28 individual awards at Visalia.

Beards—Study Of Contrast, Curiosity

By MITCH HIDER

There is a noticeable change on the face of many campus gents this season. Is it a harbinger of spring or a college man's whim? The bearded mug is making its place at Cal Poly.

A beard is the hair growth around the lips and on the chin and cheeks, especially of a man, says Webster.

Back a hundred years or so, it was fashionable and probably more convenient for electric shavers and speedy safety razors were yet to come.

Then, times and styles changed and hairy chins gave way to moustaches. Finally, most men settled for tresses atop. The majority, that is. There were always some beards and no doubt, there always will be.

But the campus beard of today is a study of contrast and curiosity. Growing from the faces of collegians (despite Webster, no coeds are growing them!), there are every possible size and shape of beard known to man, and then some.

Many growths consist of a little tuft of fuzz on the chin. It isn't even visible at more than three feet. These come in a number of colors, including blond, brown, black and a few red. The lighter shades are merely shadows unless a close observation is made.

The clumps of hair on the chin are formally referred to as goatees. A discouraging factor for goatees is that the term comes from the resemblance to a goat's beard. Then too, goatees are a stubborn animal. So is the guy who sports a goatee for more than a week.

Why the beards? Many reasons. Some fellows are too lazy to shave. Others might really be classified as artists, although a beard doesn't really make them more talented.

While in college, a man had the social freedom to sport a beard. Employers usually take a dim view so it is wise to wear whiskers before senior interviewing begins.

Beards sometimes denote defiance. A fellow might want to associate himself with the "new generation" which is now almost extinct in San Francisco's North Beach.

Some beards last only a week or less. Because the first few weeks are the most trying in growing fact foliage, many beginning beards are washed down the drain with a sigh.

Girl friends are an important factor in whether a beard stays or goes. Some coeds think the whiskers "delectable" while others say "cute" or "really smooth" (not literally).

There are beards for the sake of "just trying it out" or "because I happen to like beards." Of course, men from other societies wear them for religious and cultural reasons.

This reporter is now wearing a 25-day-old moustache and goatee. It was discouraging during the first 10 days because it looked so spotty and thin.

My beard does not itch or scratch, contrary to popular belief. But, it is not full grown yet. Some days and in some light conditions it really looks good. Other times, this reporter loathes it.

Why does this writer wear one? I quote another (and much more successful) bearded author, John Steinbeck, who says, "I cultivate this beard not for the usual reasons given of skin trouble or pain of shaving, nor for the secret purpose of covering a weak chin, but as pure unblushing decoration... And finally, in our time a beard is the one thing a woman cannot do better than a man, or if she can her success is assured only in a circus."

Mailbag

Student Wants Satisfied?

Editor:

"CU Questionnaire Reveals Building Would Match Most Student Wants," reads the headline, El Mustang, Feb. 28. The story goes on to say that of the 22 per cent of the students who submitted questionnaires, 90 per cent would like to see a facility for general relaxation and recreation on campus.

The article indirectly quoted Mac Dryer as saying that his committee's next step would be to correlate and compare responses to the questionnaire to already proposed tentative plans for the College Union Building. But if El Mustang's headline is correct, Mr. Dryer need not take the trouble. The matter has been settled, the "...building would match most students wants."

Since I am sure that at least a half dozen of even Poly's apathetic students would vote in favor of having a beer parlor in the proposed CU building, I fully expect a future El Mustang headline to proclaim, "Majority of Students Favor Beer Parlor in CU Building."

The next story on the subject will, of course, be headlined, "Overwhelming Majority of One (President McPhee) Overrules Vast Majority of Students on Beer Parlor Proposal."

JESSE ARNOLD

Justice For All?

Editor:

I thought you showed rather poor judgement in printing the editorial titled "SAC's Affairs Council" in the Feb. 28 edition.

It is quite evident to me that you were simply angry at SAC for insisting that you print the ballot change by-laws amendment for a second time in order to hold a legal election.

An editorial which leads to fear and distrust is no way to get even with SAC. If this had happened at any other time you probably would not give it a second thought. What are you really angry about?

You know as well as I do that a very large majority of the students on this campus could

care less about the actions of SAC. Yet, when our elected leaders, in whom we have entrusted authority, decide that circumstances warrant a closed meeting, you make a big thing out of it.

This is a perfect example of where a little bit of knowledge is dangerous. The people who read your editorial are probably wondering just what SAC is doing behind their backs, when in reality our leaders are probably trying to prevent us from getting the incomplete story on something of vital importance which would be ruined if people did not know the complete facts.

Personally, I do not question the integrity of SAC. The students and faculty on that body are, for the most part, intelligent young men and women quite capable of making rational decisions on matters that don't require them to consult with the body they represent. Even in a free society there are certain things leaders do not tell the people whom they represent.

GEORGE COUGHLIN

Who Writes Editorials?

Editor:

Who is supposed to write editorials? It is usually the editor, isn't it? It would appear to me that the use of my "letter to the editor" as editorial material is another example of your continued disregard for newspaper tradition. Who runs a paper, the editor (you) or the publisher (the students)?

In past issues, you have clamored that SAC infringes upon everything from "editor's prerogative" to "freedom of the press," yet you, in one swoop of the pen, relegate on your duties as editor by publishing someone else's opinion. I did not mean, in my other letter, to state we students do not want your thoughts, but if your ideas are lacking for one issue, why don't you include more news in place of adding more filler?

Before closing, I would like to congratulate you on your answer to the engineer's letter. What a fine way to discourage future letters to the editor.

Come on, Mr. Editor — you are a fellow student. If you are truly interested in the best for El Mustang, and Cal Poly, why don't you come out of your frigid world and start feeling the "true pulse" of the students of this campus?

LARRY RATHBUN

EDITORIALS

Editor Says 'Thanks'

This is the last editorial we write as editor-in-chief of El Mustang.

During the past year we held this position, our main goal was to build El Mustang into a real newspaper, one with prestige, one with power and one with a voice that would be heard throughout the campus.

Some say that we failed miserably. Others say that we marked a vast improvement during this year. But most were simply apathetic.

However, it was a good feeling to walk into El Corral Snack Bar and observe the students avidly reaching for their El Mustangs and reading them.

It was a good feeling to receive a compliment now and then, even though for the most part it was criticism after criticism. It was good to be proud after putting together another edition, to sink down at our desk and rest tired feet and close tired eyes.

It was good to watch the 5,500 papers roll off the press in the print shop, stacked in dollies and pushed out into the hall to be delivered.

It was a long, thankless job, with few rewards and little recognition.

All we can say is thanks to the Printing Engineering and Management Department for printing the paper; to advisor John Healey for his advice and supervision; to the staff for writing the paper and to our readers for just reading El Mustang.

Thanks.

Published bi-weekly during the regular school year except holidays and exam periods by the Associated Students, California State Polytechnic College, San Luis Obispo, California. Printed by students majoring in Printing Engineering and Management. Opinions expressed in this paper in signed editorials and articles are the views of the writers and do not necessarily represent the opinions of the staff, views of the Associated Student Body nor official positions. Subscription price is \$5 per year in advance. Office Room 226, Graphic Arts Building, California State Polytechnic College.

2 ROTC Instructors Will Attend Confab

Col. William Boyce, head of the ROTC Department will attend the second of three ROTC summer camp conferences next week in Ft. Lewis Wash.

The colonel, who is serving as camp operations and training officer, left yesterday to lay some basic ground work for instructor personnel and to visit the 6th Army. He will spend the weekend in travel to the fort.

Lt Col. George Davies, instructor in Military Sciences, will join the colonel on Monday, March 9. The summer camp conference will take place on Tuesday, Wednesday, Thursday and Friday. They will return March 26.

The third and last of the conferences will be held during the week of May 4.

The purpose of the conferences are to plan the training and prepare the men who are usually stationed there so that cadets who will attend the camp may be released as early as possible.

English Instructor To Review Twain

The March 10 program of Books at High Noon will feature a review of Mark Twain's "Letters from the Earth," edited by Henry Nash Smith. Frieda Hagmann of the English and Speech Department will do the reviewing. The meeting will be in the Staff Dining Hall.

There will be no program on March 17 due to final exams.

Ena Marston will present a program on current humor on

ELECTRONIC ENGINEERING MAJORS

If you want to become affiliated with a progressive electronic firm, consider the following information about I.T.T. Gilfillan Inc.:

- A major designer and manufacturer of advanced Electronic equipments since 1943.
- Recognized by the Department of Defense as one of the preferred top twenty suppliers of electronic equipment.
- The recognized leader in the field of electronic air navigation systems.
- Completely equipped laboratories to conduct the most advanced electronic system development.
- Neither "very large" nor "very small" — sufficiently large to conduct all phases of research, design and development, but not so large that individual accomplishment goes unnoticed.

The following are typical major electronic development programs in which we are currently engaged:

TPN-8 Lightweight Tactical GCA Radar (Marine Corps).
TPS-32 Frequency Scan Height Finder Radar (Marine Corps).
SPS-48 Long Range Height Finder Radar (Navy).
15D2 Countermeasures Trainer (Army).
AN/GPQ-16 Countermeasures Trainer (Air Force).
AN/APA-115 Pictorial Situation Display (Air Force).
Regal Automatic Landing System (F.A.A.).

Our representatives will be on campus March 11, 1964. See your Placement Counselor for interview appointments. U. S. Citizenship required. An equal opportunity Employer.

You Cannot Leave God Out

Thank God, my friend. IT IS NOT TOO LATE to be saved from the wrath to come. "For God sent not His Son into the world to condemn the world; but that the world through Him might be saved." - John 3:17. This in your hands is proof that God is once more crossing your path. Therefore, if you truly want to be right with Him, this is your opportunity. But do not put it off! DEATH, instead of TOMORROW, may come - for you. (Read Prov. 27:1 and 29:1).

Remember, no man has lived too vile or too pharisaical to be saved. "for ALL HAVE SINNED, and come short of the glory (the righteousness) of God" - Rom. 3:23. We read that "Christ died for the UN-GODLY (not godly)" - Rom. 4:8. Christ told the multitudes: "... him that cometh to me I will in no wise cast out". - John 6:37. And Romans 10:13 plainly states that "WHOSOEVER SHALL CALL UPON THE NAME OF THE LORD SHALL BE SAVED". That "whosoever" includes you, my friend. (See John 3:14-18; 5:24; Revelation 22:17).

SALVATION IS FREE. Christ did NOT say, "...him that cometh to me with good works, such as water baptism, sabbath keeping, church membership a clean, moral life, etc. I will in no wise cast out". He demands only the FULL AND UNCONDITIONAL SURRENDER of your soul to him. (Read Isaiah 66:1-2; Psa. 34:18; Eph. 2:8-9; Rom. 4:1-9, 21-25; Titus 3:5; I Cor. 15:1-6).

THESE ARE DESPERATE TIMES in which we live, but your need of Christ is even more desperate, for soon you will step into the circle of eternity. Will you go out PREPARED to meet God? "Without the shedding of blood there is no remission of sins". - Heb. 9:22. But Christ shed His blood FOR OUR SINS. Thus ALL the sins of Adam's fallen race have been nailed to the cross; except the one UNFORGIVEABLE; DAMNING SIN of rejecting Jesus Christ and HIS FINISHED WORK. What will you do with him? Your eternal destiny rests on your answer.

BRUCE McPHERSON Sports Editor

Jockeying Around

"We can only stay in athletics to the extent of what we can afford. Other teams in our league have more money than we do."

This was a remark made by President Julian McPhee during a recent press conference.

"We don't want a professional team here. We want students playing who are a credit to the college, not participating because they are getting paid for it. We don't have to play the big ones," McPhee said.

The solution to the question of equality of athletic scholarships in the California Collegiate Athletic Association (CCAA) is being discussed by the California State College Student Presidents Association (CSCSPA). At previous meetings, each school has presented its problem concerning athletics. Roy Killgore, president of the student body, says it is hoped that the framework of an equal scholarship program may be started in the state colleges as a result of the CSCSPA discussions. The State College presidents have also shown concern.

Cal Poly received \$12,000 from the Booster organization last year. Some CCAA schools get up to nine times that much.

The whole question of aid to athletes boils down to money between the "haves" and "have nots." Those schools that have the money are reluctant to give up an ambitious scholarship program. Those schools that don't have the money would like to see the scholarship methods revised.

Cal Poly officials would like to see the athletes enter a college for the school's academic program and not because he has been offered more money for taking part in athletics.

In simple terms, Cal Poly wants to be in a league in which all teams have the same method of recruiting and offer no grant-in-aids.

If a policy of equal recruiting and no grant-in-aids were followed by all state colleges, a solution might be reached. But being that most state colleges are against such a program now, it may be a long time before this school's wishes are accepted by the majority.

Spikers Host Bulldogs In First Home Meet

By RON DEVITT

Coach Walt Williamson's Mustang endermen will host one of the best track teams in the U.S., Fresno State, this Saturday afternoon.

Field events will start at 1:30 p.m. and track events at 2 p.m. on Poly oval. General admission will be \$1 and for student body card holders, 25 cents.

Fresno's Darrel Newman upset Robert Hayes, the world's fastest hurdler, at the recent Long Beach indoor invitational and the Bulldogs are reinforced by Sid Nicholas, who placed in the national collegiate championships in both the high jump and broad jump.

Fresno State's Charles Craig is rated as the best triple jumper in the U.S., and the Bulldog 440 relay team holds the nation's fastest time so far this year with 41.4 seconds. The team is made of Mary Bryant, Newman, Nicholas and Craig.

Rick Dahlgren, best distance runner in the California Collegiate Athletic Association, covers the mile in 4:13 minutes and the two mile in 9:14 while Bob Channel won the Long Beach high jump, clearing 6 feet 9 1/2 inches.

Spectators can expect to see a close 100-yard dash. Newman runs the distance in 9.5 seconds, while Poly's Gary Curtis tops 9.8 seconds. Curtis placed second at the Long Beach relays last weekend.

Mustang Lloyd Petroleljo sailed the discus 157 feet 4 inches in the

Intramural

The soft-touch finalists have been declared and will meet next week to determine the champion and runner-up in the annual Free Throw Contest.

Winning the Monday league were the Merrimakers with a total of 70 of 125 shots. Tuesday's winner was North Facility gathering a total of 93.

In the Wednesday night league,

ONE-MAN TEAM... Jim Teem, who has lost only one 130-pound match, will play a big role in Cal Poly's hopes to improve on their sixth-place finish last year at Ashland, Oregon.

The Freeloaders collected 91 while the highest shooting percentage went to Thursday's champions, the Circle Kers with 106 of 125.

A single elimination tournament has been set up to declare the overall champions, according to Coach Vaughan Hitchcock.

Mat Tourney Features Best On Pacific Coast

The Pacific Coast Intercollegiate Wrestling Association tournament gets under way this afternoon at 1 o'clock with preliminary matches in ten weight divisions.

Eighteen teams accepted invitations to the annual event including the winner of the 1983 PCIW tourney, Oregon State University. OSU tallied 83 points to take the top spot over second place Portland State with 59, Central Washington State 36, University of Oregon 34, California State at Long Beach 33, and Cal Poly (SLO) 30.

Oregon State University has won the PCIW title nine times. Washington State took the title four straight years, 1951-1954, and the Mustangs last won the 'champion' title in 1958 before Oregon State University took over the top in 1959 and has successfully defended it for the past five years.

Six defending champions will be returning to this year's tour-

ney. In the 115-pound class, Dale Deffner from Cal State at Long Beach will be out to defend his title. Also returning will be 125-pound Roy Stuckey, Fresno State; 117-pound Gerald George, Central Washington State; 157-pound Lee Rosenburg, Oregon State University; 167-pound Robert Keeney, University of Oregon; and 191-pound Len Kaufman, Oregon State University.

The second round of the tourney will be held this evening at 7 o'clock in the Men's Gymnasium. Saturday's semi-final matches will begin at 1 p.m. with the finals and finals consolation to start at 7 p.m.

Ticket prices for the matches held today and tomorrow afternoon will be \$1 for adults and 25 cents for students. Price of admission for Saturday night's championship matches will be \$1.50 for adults and 50 cents for students.

UNDEFEATED... Sam Huerta, yet to be beaten, will be a rough foe for anyone in the PCIW tournament. Huerta has not been beaten and wrestles in the 137-pound class.

Tennis Team Racks Up Impressive Win

The Cal Poly tennis team racked up an impressive 9-0 win over the University of California at Santa Barbara and Westmont in a practice match held Tuesday. All the matches were in singles competition and three were doubles.

Those winning were Mike Moore, Tim Healey Joe Meagher, Bryan Ogden, William Burke and Mike Bungay. Moore and Meagher won in doubles competition as did Ogden and Healey.

Ken Kilborn and Gary George.

Coach Ed Jorgensen described the match as a "fine one." He said that Santa Barbara was a little weak, but that this was the first match for both teams. The next meet for the Mustang racketeers will be a conference match March 9 at San Fernando Valley State.

Cal Poly's next home match will be April 10 against Santa Barbara. They also host Los Angeles State April 11, Fresno State April 15, and U.S. Marine Corps April 21.

Mermen Meet Cerritos Tonight

The Mustang swimmers will try to get a winning streak going this weekend when they tangle with Cerritos Junior College in Poly Pool tonight at 8 o'clock.

The Mustangs have dropped their first two dual meets and would like to get on the winning road

tonight. Long Beach City squeezed by the Mustangs while Foothill Junior College dunked the local swimmers.

Last week the Cerritos swimmers were defeated by the UC, Santa Barbara by a score of 55-38. Cal Poly meets UCSB in their next meet at Santa Barbara March 21.

Frankland, Jensen Win Gym Meet

Capturing overall championships at the annual intramural gymnastic meet were Peter Frankland and Deanna Jensen.

Frankland collected victories in the high bar, tumbling, and the parallel bars. Miss Jensen took first in trampoline, side horse, balance beam and tumbling.

Jim Teem walked away with the honors in the men's trampoline while Tom Habick was the winner on the rings. Habbick also won the rope climb while John Arnold "conquered" the peg board in the fastest time.

Sue Muggs was the only woman besides Jensen to capture a first and it came in the parallel bars. Jensen got a second in events.

FREE Pocket Size Slide Rule **FREE**
with the purchase of a Pickett Slide Rule
Electronic N16ES. . . . \$25.⁶⁰

Log Log Dual Base Exponential slide rule for professionals and advanced students in Electronics and Electrical Engineering. Eighteen special scales, in addition to the 16 scales utilized on advanced model Pickett Slide Rules.

Slide Rules N3 or N3T's \$20.²⁵

For mathematics, science and engineering. 32 scale sections functionally grouped for convenience, speed and accuracy. A range from .00005 to .999 and 1.001 to 22,000.

Professionals prefer Pickett all-metal slide rules:

Educators and professionals support Pickett slide rules. Today's college student and potential engineers will be active professionally in 2000 AD and beyond. Today's college student will become the engineer who will start out with a Pickett instrument now and continue enjoying its efficiency and life time structure in 2000 AD and beyond.

1) All-metal construction. Pickett slide rules are dimensionally stable. Regardless of heat or cold, dry or damp, they never warp or stick. Smooth

sharply reduced and visual accuracy improves. White finish is also available on most models.

3) Micro-divided scales. Precision to plus or minus 2 microns (.000157 inch) makes Pickett All-Metal Slide Rules "The World's Most Accurate."

4) Functional Scale Grouping. Scales are positioned so as to provide quick solutions to problems through a minimum of steps or operations. Trig scales are always on the slide; extended Log Log scales are on one side; extended root scales

aids quick reference and easy reading.

6) Eze-Slider tension springs. Spring tension is maintained at both ends to assure smooth operation in a climate throughout the length of the slide rule, with minimum adjustment.

7) Nylon cursors. End-bearing cursors always function smoothly. The special Tyrl plastic window has a super-sharp hairline, is extremely durable and provides clear, distortion-free reading.

8) Too grain leather cases. The 10 inch slide

rule 6 1/2 inch slide rule cases have a leather textured spring steel pocket clip and E-Z-Out pull tab. All of these are Pickett innovations that enhance the value of treated, select leathers.

2) Eye-saver "5600" yellow color. The exclusive Pickett yellow-green finish makes it easy to read scales, even in bright sunlight. Eye-fatigue is

5) Synchro-Scale design. Matched scales are "back-to-back" so the eyes more easily focus on the correct scale. This convenient arrangement

ALL-METAL ACCURACY
Pickett's construction of Pickett slide rules ensures maximum accuracy and dimensional stability. Scales are laser cut, dry or damp, smooth and free of warping, swelling and distortion under temperature and humidity. Small synthetic materials have failed high-temperature tests.

VISUAL EFFICIENCY
Eye-saver yellow-green is at Angstrom "5600" the point on the spectrum of maximum visibility. Graduations and labels are easy to read under any light - sun, fluorescent or incandescent - as the "5600" absorbs short wave length colors. White reflects all colors of the spectrum including the "out of focus" action rays.

SMOOTH OPERATION
Eze-Slide Tension Springs automatically equalize slide-to-cursor pressure throughout the full length of the slide rule.

MICRO-DIVIDED SCALE graduations are positioned to .2 microns (.000157 inch). **FUNCTIONAL GROUPING** of scales save "read and re-read" operations. **SUPPLY CASES**, with formed plastic interior and bell top, complement Pickett quality. **ALL PICTETT** designed and manufactured to strictest standards. **LIFETIME WARRANTY** assures Registered Owner of complete satisfaction.
