Enrollment Is Up, Spending Is Down

By ROBERT BOYD
Cal Poly's student enrollment is up but the Associated Students, Inc., spending is down.

This development has been the result of three major downward adjustments in the 1964-65 ASI budget. Projected figures for this year show income and expenses balanced at \$193,025 for 6,944 students, compared with \$200,450 for 6,364 students in 1963-64.

The largest cut was \$7,575 in the Publications allotment. This reduction, according to Robert Spink, graduate manager, was primarily because of the poor sales

last year of the yearbook, "El Rodeo," and the dim sales outlook for the current year. Even now, sales of the yearbook are below what was recorded last year at this date.

Spink also said the cut in the allotment of the College Union (\$2,950) was because of the lack of many big name performers. Also with the Music Board (\$940), because of a lack of income from last year's home concert.

Bucking the trend of reduced allotments were athletics, Poly Royal, and ASI General Adminis-

tration. An increase of \$1,050 was given athletics mainly to cover the \$3,500 guarantee to Idaho State. Poly Royal's success last year and an expected attendance in 1965 of at least 20 thousand people necessitated an additional \$2,080 for expansion of facilities.

Concerning the ASI General and Administrative allotment, higher office supply costs, the purchase and renovation of equipment, salary increases, and an expanded student mailing, required an extra \$3,145.

Those interviewed about the ASI budget agreed it was a conserva-

tive estimate of student body income and expenses. The current budget is based on last year's budget. As a result, it is possible to enlarge the budget should actual income exceed current estimates. As Mrs. Phyllis Stewart, ASI Bookkeeper, said, "It is always easier to increase allotments than to cut costs after the money has been spent."

Any hope for an expansion of this year's budget seems to depend on a significant raise in the sale of "El Rodeo" and in a high attendance at the College Union offerings and the Music Department spring concert.

Treasurers Meet, Discuss New Form

Treasurers representing 181 different accounts for campus student organizations were informed about a new bookkeeping form at a recent meeting with Robert Spink, graduate manager, and Phyllis Stewart, ASI bookkeeper.

The new form went into effect Oct. 1. It acts as both a purchase order form and a payment request form, replacing the old purchase order and payment request forms. The old forms will no longer be recognized.

The new forms must be picked up from Mrs. Stewart in the ASI office. They are available in pads with each pad containing 25 forms. Each organization will pay \$1 a pad.

According to Mrs. Stewart, the forms will eliminate a lot of troublesome paperwork. They also give the treasurer more responsibility to his organization because each of the forms must contain his signature before any money will be transacted.

Spink commented that student organizations wrote 2,708 checks amounting to a total of \$113,144.80 for the fiscal year ending last June 30.

Maid Of Cotton Nominations Open

Girls interested in being nominated for the 1965 Maid of Cotton contest should contact Ben McFarland, Crops Club president, or members of the Crops staff.

Qualifications for the Maid of Cotton are that the girl must be between the ages of 19 and 25 inclusive, as of Dec. 31, 1964. She must be at least 5 feet 8 inches tall, never have been married and have been born in a cotton-producing state.

The 1965 California Maid of Cotton will tour the state, appearing on radio and television, make store appearances and speak before agricultural and civic groups. She will receive a \$1,000 scholarship, and the first alternate will receive \$200. Also included will be an all cotton wardrobe donated by California's leading designers.

The contest will take place in Fresno on Nov. 6 and 7.

Students To Attend National SAE Meet

A group of engineering students will travel to Los Angeles Thursday to attend the national Aeronautical and Space Engineering and Manufacturing meeting.

Sponsored by the Society of Automotive Engineers, the series of meetings began Monday and will continue through Friday. Thursday night a special student engineer's program will be held in the Venetian Room of the Ambassador Hotel.

According to campus SAE chairman Frank Pissimanti, Mechanical Engineering senior, student members may sign up until Wednesday night for the trip. It is suggested those interested contact a club officer.

Value engineering will be the main discussion topic for the student program. Moderated by E.A. Green, manager of value and reliability engineering, Lockheed-California, a panel will discuss what has been accomplished in this field.

Panel members include Robert T. Smith of Douglas Aircraft, and Glenn D. Hart of Aerojet-General. Student engineers attending have been invited to remain after the program to meet with panelists and other SAE members. No registration fee will be required.

Playboy Dance Set For Saturday

The College Union Social Committee invites students to attend the Playboy Party dance Saturday, Oct. 10, from 9 p.m. to 12:30 a.m. at the dining hall.

This event will have a couples-only nightclub dance theme. The admission price of \$1.75 per couple entitles the couple to a chance at the door prize.

The construction of Playboy Clubs across the nation was the inspiration for this Playboy Party dance, according to Lynn McCoy of College Union. Symbols and decorations have been chosen to support this theme.

The staff dining room will be made into a "Playmate Bar" and the student dining hall into a "Playboy Ballroom." The "bar" area will contain a specially built bar, candle-lit tables and plants borrowed from the Ornamental Horticulture Department. Ice rabbits, black and white playboy decorations and posters will complete the distinctive playboy atmosphere, added McCoy.

Overmeyer Will Review 'American Dream'

"The American Dream" by John Tabbel will be reviewed by Dr. Phillip H. Overmeyer today at noon in the Staff Dining Room.

Tabbel's book is the seventeenth. He is an author of popular biographies including "The Life and Good Times of William Randolph Hearst."

Foreign Students From 61 Nations

Approximately five and one-half per cent of the enrollment at Cal Poly is comprised of foreign students, according to figures released yesterday by F. Jerald Holley, college registrar.

Statistics indicate that the 371 students representing 61 nations are primarily single males studying agriculture and engineering.

Male foreign students outnumber females 345 to 26. Single students outnumber married students 332 to 39.

Geographically, the majority of foreign students come from those "underdeveloped" nations of the world which are most in need of the type of technical training offered at Cal Poly.

One hundred and six students come from the Middle East, 90 from Latin America, 55 from Africa, 51 from the Indian subcontinent, 45 from the Far East, 25 from South East Asia, 18 from Europe, 14 from Canada and two from the South Pacific area.

Engineering is the leading field of study with 193 foreign students. Agriculture is second with 143 students. Foreign students in the Applied Arts and Sciences divisions number only 35.

The leading nation in enrollment is Iran with 36 students. Second is India with 36, followed by

Hong Kong with 30, and Nigeria with 23.

The most popular major is Mechanical Engineering with 42 students. Second is Architectural Engineering with 34; third, Electrical Engineering, 33; fourth, Electronic Engineering, 32; and fifth, Animal Husbandry, 31.

The Applied Arts division has 17 foreign students. The most popular majors are Home Economics and Business Administration with four students each. The Applied Sciences division has 18 foreign students. The most popular major is Biological Sciences with nine students.

Testimonial of the value that students from the "underdeveloped" nations place on the technical form of education comes from students of the Congo and Pakistan. All eight Congolese students are Animal Husbandry majors. Of the 14 Pakistani students, nine are in Architectural Engineering, two in Electronic Engineering, and one each in Aeronautical Engineering, Mechanical Engineering and Welding and Metallurgical Engineering.

Farewell Parties Given To Honor ROTC Instructor

It's "Ah-de-dong" to Capt. Tommy Price, an instructor in Military Science ROTC for the past three years.

Translated, "ah-de-dong" means "farewell" in Korean. Capt. Price leaves Oct. 15 for a 13-month tour-of-duty in Korea with the 7th Infantry Division, a part of the 8th U.S. Corps.

A farewell party was held for the captain by members of the ROTC staff-of-instructions at the home of Capt. and Mrs. Dave R. Kingsbury on Sept. 20. Theme of the party was simply "Ah-de-dong."

A second such party will be given at Camp San Luis Obispo Officers' Club on Oct. 10, according to Capt. Price's family.

Capt. Price's family will remain at Camp SLO during his assignment in Korea.

It Comes And Goes

The above charts are a graphic presentation of how funds from the Associated Students, Inc. are distributed. Note allotment cuts on the budget for publications, College Union and Music Board. The budget for athletics was increased \$1,050 and ASI general and administrative allotment required an extra \$3,145. Should actual ASI income exceed current estimates the budget will be enlarged.

Enrollment At State Colleges Nears 150,000 Mark

Full enrollment in the California State Colleges neared the 150,000 mark, an 11 per cent increase over last year, according to Dr. Glenn B. Dunke, chancellor.

Cal Poly rated ninth on the list of 16 colleges with an enrollment of 6,900 students. San Jose State was first with 20,400 and Stanislaus State College, with an enrollment of 700, was 16th.

Full enrollment is expected to reach 148,800. This includes an estimate for California State College at Hayward, which did not close enrollment until Sept. 29.

Foreign Students From 61 Nations

Approximately five and one-half per cent of the enrollment at Cal Poly is comprised of foreign students, according to figures released yesterday by F. Jerald Holley, college registrar.

Statistics indicate that the 371 students representing 61 nations are primarily single males studying agriculture and engineering.

Male foreign students outnumber females 345 to 26. Single students outnumber married students 332 to 39.

Geographically, the majority of foreign students come from those "underdeveloped" nations of the world which are most in need of the type of technical training offered at Cal Poly.

One hundred and six students come from the Middle East, 90 from Latin America, 55 from Africa, 51 from the Indian subcontinent, 45 from the Far East, 25 from South East Asia, 18 from Europe, 14 from Canada and two from the South Pacific area.

Engineering is the leading field of study with 193 foreign students. Agriculture is second with 143 students. Foreign students in the Applied Arts and Sciences divisions number only 35.

The Applied Arts division has 17 foreign students. The most popular majors are Home Economics and Business Administration with four students each. The Applied Sciences division has 18 foreign students. The most popular major is Biological Sciences with nine students.

Testimonial of the value that students from the "underdeveloped" nations place on the technical form of education comes from students of the Congo and Pakistan. All eight Congolese students are Animal Husbandry majors. Of the 14 Pakistani students, nine are in Architectural Engineering, two in Electronic Engineering, and one each in Aeronautical Engineering, Mechanical Engineering and Welding and Metallurgical Engineering.

AIA Delegation

Nearly 100 members of the student chapter of the American Institute of Architects will represent Cal Poly at the 19th annual convention of the California Council of American Institute of Architects.

The convention will be held at the Hotel Del Coronado in Coronado Oct. 7-11.

Daoud said, "I'd rather answer that as unfortunate—for five different reasons."

1. The Arab Middle East is an area of four million square miles.

2. This land is of strategic importance to the U.S. military being

Parking Tickets?

Nothing brings stronger oaths to Cal Poly students than closed classes, long lines, instructors changing course books and parking tickets.

For many students, the latter is the most aggravating—seeing the neatly bow-tied ticket tied on their windshield wiper. But what is really maddening is the inconvenience of paying fines downtown in the Justice Court, say many of the students.

Vehicle violations on the campus are subject to the fines of the State of California, according to the campus Security Office. Traffic citations issued to students for violating laws come under the rules of the State's Department of Motor Vehicles.

Fines are payable in the San Luis Obispo Justice Court, as are off-campus citations. Tickets for on-campus "moving violations" are recorded on the driver's record, both with the DMV and his insurance company. Security officials said that in the past notices of warning have been issued for parking violations, but the results proved the effort to be futile.

Warnings were issued in the un-paved parking lot north of the student Cafeteria. Copies of campus parking regulations can be obtained at the Security Office located next to the Firehouse on North Fortmeyer Road, officials said.

Spink also mentioned that there is mimeographing and ditto service available for those desiring it and that there is a publicity workshop available for making posters. Joe Zallen is in charge of the workshop.

Reservations to the workshop should be made one week in advance. Groups desiring to use the workshop may do their own work or they can have it done for them.

Donald McCaleb, Public Relations coordinator, mentioned the campus photo bureau which may be contacted through his office for any publicity pictures. He also commented that certain events may be publicized in the staff bulletin which is available to all staff members.

Role Of Arab Student In U. S.

"The Arab students come to the United States looking for interest and sympathy. Instead they find indifference and in some cases outright hostility."

This is the opinion of Dr. Adnan Daoud, director of the Arab Information Center in San Francisco, who recently spoke before members of the student body. The talk was sponsored by the Arab Club and the People to People Chapter, Roll of the International Student in the United States. Later questions dealt primarily with what he called the "Arab-Zionist Israeli" situation.

Opening his speech, Daoud said there are more than 4,000 Arab students in the United States. They have come here since World War II when the world power shifted from London and Paris to Washington and Moscow.

Daoud said, "The Arab students come to the United States looking for interest and sympathy for their struggle against the remnants of colonialism in

their land and in the conflict with the Zionist-Israeli complex."

He added, "Soon, he realizes that he is fighting a lonely battle. For some exceptional cases he discovers instead of interest, ignorance, and instead of sympathy he finds indifference or outright hostility."

After his speech the floor was opened to questions. Most of the questions involved the Israeli Arab situation. Some challenged the Arab position. The African and Israeli students appear to be the most curious.

Later Daoud was asked if he thought it unusual that Americans were indifferent towards the Arab situation when America is already deeply involved with other more critical situations.

Daoud said, "I'd rather answer that as unfortunate—for five different reasons."

1. The Arab Middle East is an area of four million square miles.

2. This land is of strategic importance to the U.S. military being

3. The Arab world contains over 75 per cent of all known oil reserves in the world.

4. This land has about 100 million Arab people.

5. This is an area where American investment exceeds that of any where else in the world.

The program was the year's first of a plan to have the college People to People Chapter sponsor smaller club speakers. This is to generate wider interest in the People to People program as well as to provide larger audiences for the smaller club programs.

Foreign Student Picnic Will Be Held Saturday

The annual Foreign Student's Picnic, to be held Saturday, Oct. 10 at Poly Grove, gives students from abroad a chance to be welcomed to Cal Poly by the faculty and their wives.

The picnic will begin at 12:30 p.m. when members of the Cal Poly Women's club, hosts for the event, begin serving the pot luck dinner. Mrs. Stella Jenkins is chairman of the food committee.

Mrs. Helen Carr, general chairman, asks all students to bring their musical instruments to provide entertainment in the afternoon.

Mrs. Carr also hopes to have use of the athletic fields so that games such as baseball, soccer and football can be played.

The picnic will last until approximately 4 p.m.

REPUBLICANS SPEAKER
 The California College Republicans will sponsor a speaker this evening, at 7:30 o'clock in Se. E-47.

Propositions: Yea Or Nay

EDITOR'S NOTE: Today El Mustang begins a series of articles on the state ballot measures to be voted on during the general election Nov. 3. The material for these articles is taken from Capsule, a publication of Women Voters of California, a nonpartisan organization which promotes political responsibility of the citizenry.

Proposition No. 1

Authorizes \$150 million in State general obligation bonds to provide for acquisition and development of lands for State and local recreation purposes including beaches, parks and historical facilities.

Eighty-five million dollars would be designated for acquiring real property for the minimum development of such property for wild life management. \$40 million would be granted to cities and counties to help them develop local and nearby recreational beaches and parks.

The act defines formulas to divide the \$40 million on a population basis, with a minimum of \$75,000 for each county. All State and local projects would be required to meet certain criteria set forth in the act before bond

money could be authorized by the Legislature.

FOR: California's present park and recreational facilities are totally inadequate to serve the State's rapidly expanding population—a fact borne out by studies requested by the Legislature. Available acreage for beaches and parks is rapidly diminishing and must be purchased before it is acquired by private buyers or becomes too expensive to buy with public funds.

The passing of this Bond Act would insure recreational facilities for present and future users of current land prices with repayment by both present and future users. Rigid controls have been written into the measure to insure careful expenditures in the public interest.

AGAINST: The sale of authorized but unused State bonds at a reasonable price will be jeopardized by additional bond proposals. The bond proposal does not include the costs of operating and maintaining any park and recreational facilities acquired under the act.

The \$75,000 minimum offered to each county will result in projects designed to secure the money, with no regard for well-developed master plan of acquisition. Higher tax rates could result from the continued erosion of the tax base by increasing government ownership of land. Already available State and federal lands should be developed before more land is acquired.

Proposition No. 2

Authorizes \$580 million issue of State general obligation bonds to provide funds for major building construction, equipment, and site acquisition by the University of California and the State and junior colleges and for correctional institutions mental hospitals, narcotics control, and forest fire fighting facilities.

Not less than \$50 million is to be used to finance junior college facilities. It is estimated that at least 71 per cent of the total will be used for the needs of educational institutions.

Until 1950, all State construction was financed from current revenues and accumulated surplus. Since 1955, current revenues have not kept up with the need for additional State facilities.

In 1950, in 1958, and in 1962, voters approved a total of \$670 million in three separate bond issues. The 1962 bond issue will be depleted late in 1964.

FOR: The needs of our expanding population make it imperative that we acquire sites and construct and equip major facilities in such fields as education, health, and correction. The financing of these facilities will place a minimum burden on current taxpayers since this measure provides for the utilization of current revenues, surplus funds and self-liquidating projects when feasible, and shares the cost with future users through the issuance of bonds.

The State's bonded indebtedness is relatively small and a large portion of it is self-liquidating. Legislative control over expenditures will be maintained by the requirement of yearly appropriations for specific projects.

AGAINST: The end of pay-as-you-go financing for State construction will result, in a decade, in as much or more money being used for past debts as for new construction. The Legislature will be given a "blank check" to spend the money as it wishes. The \$50 million for junior colleges will be repaid grants that need not be repaid, and the junior colleges will tend to float bond issues whether needed or not.

Runners Win, Lose In Fresno Meet

A young Poly cross country team got its first taste of competition at Fresno Saturday and came back both a winner and a loser.

Coach Richard Purcell's leather-lunged nabbed a 10-31 decision from the hometown Fresno State Bulldogs, but couldn't keep up with a well conditioned crew from Sacramento State, losing 50-16. The three way meet was scored as a pair of duals.

Sacramento's Hornets picked off the first seven places to score an easy double victory on Fresno's new four mile course. Hitting the finish tape together, Ken Summers and Gordon Vrandenburg shared first place honors and a course record at 23:24 for the winners.

First in for the Mustangs was Roland Lint who crossed the line in 24:30, 18 seconds ahead of the first Fresno finisher, Marvin De Carlo who was ninth.

Fred Frye, Jarvis Savage, Pete Goodman, Bob Miller, and John Angela were the other local finishers, finishing 11th, 13th, 14th, 15th, and 16th respectively.

WANTED!

Young men of management calibre for rewarding careers in the world of modern banking

Wells Fargo offers complete training. If you're interested in the fascinating field of modern finance, Wells Fargo Bank offers you management training in Branch Management, Branch Operations, Financial Analysis, Trust Administration, and Agricultural Representation.

Can you measure up to the challenge of unlimited opportunity for growth?

Answer "Yes" and we'd like to talk business with you. The kind of business that rewarding futures are built on. Since 1852 Wells Fargo Bank has played a leading role in the economic development of one of the most dynamic regions in the country—Northern California. Our 190

branches reach from San Francisco to Lake Tahoe, from the Oregon border to Fresno. We're a growing bank in a growing industry, and there's room here for young men who have the capacity to grow along with us.

OUR REPRESENTATIVE WILL BE ON CAMPUS Friday, October 9

Contact your Placement Office for a personal interview. We're looking forward to talking business with you—salary, fringe benefits, everything.

Mustangs Bow Again To Powerful Aztecs

It was just one of those long nights, a night that saw the powerful San Diego State Aztecs trample the Mustangs 59 to 7. It was a game that sent fans home scratching their heads, trying to recall all the scoring plays.

About the only thing the Aztecs did poorly was kicking extra points, as they missed four on nine attempts. But when you score nine touchdowns who worries about the small stuff?

For a short time in the first quarter, it appeared that the Gods would spare our local gladiators. However, thunder and lightning broke loose in the arena in the form of San Diego's big tailback, Jim Allison. The 7-11", 222 pound senior from Redondo Beach carried the ball into the endzone from 5 yards out with 5:45 gone in the first quarter.

The Aztecs next picked up the ball on downs and mowed their way to the Mustang 47 yard line. Quarterback Ron Dowhower hit end Gary Garrison on the 30 yard line and that was all she wrote as Garrison took it from there into the endzone with 7:45 showing in the first quarter of play.

It was now 13 to 0 and looking dimmer every moment for the Green and Gold. They came back though, with the help of two 15-yard penalties against the Aztecs, and managed to score their lone touchdown on a sharp offensive drive off the passing arm of quarterback Fred Richelleu.

The climax of the drive came when Richelleu hit halfback Wayne Halyardis for the TD. Gary Biefens added the extra point to make it 18 to 7 in favor of the giants from the border city.

The seemingly invincible Aztecs scored four more times in the second period, and showed the crowd of 4,198 why they were ranked by the Associated Press and UPI as the No. 2 small college team in the nation.

Allison continued the scoring barrage by bulging his way off right tackle for seven yards and six more points. Dale Hawley's conversion kick gave the Aztecs a 20 to 7 margin.

Only minutes later Dowhower hit Garrison on back to back touchdown passes, one good for 18 yards and the other good for 28 yards.

And as if that were not enough Dowhower brought the halftime score up to 20 to 7 by firing a pass to halfback Art Delvaux who cashed in on an additional six points.

In the third quarter the Mustangs held the Aztecs scoreless. The fourth period, however, was another story. Both teams sent in their second and third strings. The Aztecs' bench was hardly any smaller and San Diego's reserve backfield found little trouble scoring twice against the Mustang defense, making it 38 to 7.

Allison put the frosting on the cake with his 9 yard touchdown ramble and dismal Cal Poly fans looked up to see the final score—San Diego State 59, Cal Poly 7.

Colts Drop Game To USC Frosh 42-0

It was a long and miserable-sounding trip home from Santa Barbara for the Colts last Friday night after losing their season opener 42-0 to the Gauchos.

The southern team rolled out their welcome mat in the first half by scoring five touchdowns and a safety letting the Colts from up north know that pastures aren't always greener on the other side of the fence.

In the third quarter, the Colts pulled in their feedbag and put the stops to any further Gaucha scoring. Santa Barbara found an opening in the Colts defense in the fourth quarter and added another burr under their saddle by scoring on an eight yard pass play.

Tom Hitchman lead the south with 60 yards in 12 carries while Ron Hanson was top ground gainer for the Colts with 40 yards in 14 carries. Mike Briens completed 3 of 8 passes for Poly for 14 yards with Ed Sweeney on the receiving end of two and John Flack snagging one.

Next Saturday, the JV team hosts Fresno State Puppies at 2:30. The Colts are hoping to get their second win over the southern team after defeating them 34-0 last year.

Intramurals

TENNIS SINGLES
Vaughan Hitchcock, director of intramurals, has scheduled an intramural singles tennis tournament for Saturday, Oct. 10, at 10 a.m.

The novice double elimination tournament will take place on the tennis courts behind the Men's Gym.

According to Hitchcock, team points will be awarded as well as individual awards for first and second place.

Doubles matches are tentatively planned for Oct. 24. Entry blanks for both singles and doubles tournament can be obtained and submitted in MPE 211.

ROCCER
A round-robin soccer tournament which is open to all students will begin on Oct. 10 under the direction of Vaughan Hitchcock.

Teams will be chosen at that time on the practice football field.

VOLLEYBALL
Women are needed tonight at 7:00 p.m. in the Crandall Gym for the women's intramural volleyball teams.

All team members must belong to the Women's Athletic Association (WAA), according to Chris Iverson, head of women's intramurals. "Come out and have fun," Miss Iverson said. "no experts are needed."

Students unable to attend this evening's event should contact one of the following dormitory representatives: Pat Stone, Trinity; Deanna Jensen, Santa Lucia; Jan Wattenberger, Palma Royal; Mary Lasagna, Heron; Donna Eassey, Jesperann; and Claudia de Heus, Chase. Off-campus students may see Mrs. Joan Schleich, instructor of women's physical education in the Women's Gym.

AMATEUR RADIO

Members of the Amateur Radio Club will meet tonight at 7:30 o'clock in East Engineering 126. According to Bob Miles, vice president of the group, plans for the coming year will be discussed.

Mustang Waterpolo Team Wins Two Out Of Three

Cash Richard Anderson's waterpoloists succeeded where the football team failed Saturday afternoon by scoring a resounding 12-5 victory over San Diego State's Aztecs in their first California Collegiate Athletic Association competition of the season.

Victory, the team's second in the first three days of the new season, was the third straight over the inept splashes from San Diego.

Tom Ruggles, in a one-man offensive show shoved in eight goals in the contest to prove the kingpin in the local attack.

The first period saw the Mustangs take a 4-2 lead with a pair of quick goals credited to Roger Mobled. San Diego put up a spirited attack, however, managing to get on the boards for the first time in three years.

In the second period, Ruggles who hails from San Luis Obispo, went into his act and the Mustangs never looked back. Hitting five consecutive goals, he led the team to a 6-2 advantage at the half and a 9-2 lead as the teams prepared to go into the finale.

The Aztecs, shutout in the second and third quarters behind a sparkling defensive effort by goalie Benny Bendel, sprung back in the final act with three successful shots. It was to no avail, however, as the locals equalled their performance to nail the game with a seven point bulge.

In Friday's action, Poly lost a 7-6 thriller to perennially tough UCLA in double overtime. The loss followed an 8-6 conquest of El Camino on Thursday.

AIA SPEAKER

John Lautner, American Institute of Architects, will speak tonight at 8 o'clock in the Little Theater. Lautner's work is currently on display in the Engineering West Gallery 105B.

Colored photos, renderings, and perspectives of houses and apartments make up the display.

The display is open Monday through Friday, 9 a.m. to 6 p.m., with an additional period scheduled each Wednesday evening from 7:30 to 10 until Oct. 21.

More than 40 projects of shopping centers, houses, apartments and restaurants are being exhibited—a composite of about 350

photographs.

His works have been displayed at the Chouinard Art Institute, the Universities of California, Oklahoma, Southern California, and Washington, and at Mount San Antonio College.

The exhibit is being sponsored by the student chapter of AIA. Coordinator is Spencer Lake.

IEEE SPEAKER

Dr. J. L. Adams of the Jet Propulsion Laboratory, Cal Tech, Pasadena, will be the featured speaker at the first meeting of the Electrical and Electronics Engineers Oct. 8.

The meeting, to be in the Little Theater, will begin at 7:30 p.m.
