

## John Fitzgerald Kennedy, 1917-1963

The day was Nov. 22, 1963 and the time was 10:30 a.m. on the 4th Poly campus. In Dallas, Texas President of the United States John F. Kennedy was riding in a motorcade smilingly waving to the crowd lining the streets.

Within the next few minutes, order was turned into chaos as an assassin sent a rifle bullet crashing into the Chief Executive's right temple.

A stunned and shocked nation learned within minutes of 46-year-old Kennedy's death. On the Cal Poly campus, a word-of-mouth campaign started at the 11 a.m. class break, and by noon all

classes were cancelled and the college shut down. The above picture was taken in the Snack Bar at 11:15 a.m. by the then editor-in-chief of El Mustang Dave Kishiyama. Printing and Journalism students and instructors were already busy preparing a special edition of El Mustang,

which appeared on the stands by noon. Radios and televisions were turned on all over campus and became focal points of student gatherings. Every student's face was a mask, hiding the emotion which lay beneath the surface. It was Nov. 22, 1963, only a year ago next Sunday.

## Team And Weather Combine As Big Loss

Football, the largest source of income for the student body, will not make its budgeted income this year, according to figures given the Student Affairs Council Tuesday night by Robert Spink, graduate manager.

The combination of a losing team and poor weather has resulted in poor paid game attendance, from a high of 4,400 at the San Francisco State game to a low of 1,350 at the Los Angeles State game.

Spink noted that the Homecoming game attendance was only 3,100 and this game should have at least drawn as many as the season's first game. He explained that had attendance been higher at the Los Angeles State game, football could have at least broken even.

As things stand now, the varsity football team has brought in \$7,000 from away game guarantees and \$12,400 from home games. Thus the sport will cost the student body \$1,600. This deficit can be lowered by the Spring game.

On other matters, SAC approved raising from \$3.50 to \$4 the room allowance for students traveling on school functions. At the same time the Council defeated, 8-15-1, a proposed hike for meals from \$5.25 to \$6 per person per day.

The reason for the defeat was a feeling that the school budget will not permit an increase at this time.

Dale Prosser, SAC Council representative, introduced a resolution whereby "a committee be appointed to study ways and means of making joint SAC meetings more effective and efficient." After much discussion, which was punctuated by comments such as "this is ridiculous" and "I just don't like resolutions," the council passed the resolution and set up a three-man committee to conduct the study.

The council also approved the holding of a turkey shoot by the ROTC with 20 percent of the net

profits going to the College Union Building Fund.

Not approved, because of a question of jurisdiction, was a request from AIA to sell Christmas cards. The Donation Drive Committee was instructed to draw up proposals which will expand the existing codes.

## Mayor's Milking Contest To Start Farm-City Week

Kicking off Farm-City Week tomorrow morning will be a milking contest to be held on the Security First National Bank parking lot in San Luis Obispo.

Six majors from the surrounding communities have been invited to the milking contest. The day's events will start at 9:30 a.m. and continue until noon.

Among the many exhibits for the public to view will be a livestock display, wool shearing and packing demonstration, and a farm machinery parade.

Continuing on Sunday, there will be a movie, "Horizons in California Agriculture." The public is welcome and urged to come, says Allen Meeder, chairman for Farm City Week. The movie will be shown at 7:30 in the Little Theatre.

Events will come to a close Tuesday, Nov. 24, with the Ag Council speaker. This year's speaker is Glen Lay, formerly with the ADA, a family corporation for the promotion of Agriculture products. Lay will speak at 7:30 p.m. in the Little Theatre.

## Honors Awarded To Kaydettes

Honors of first and second place were awarded to the ROTC Kaydettes and Men's Drill Team after the parade at the Pismo Beach Clam Festival, recently.

Narrowly edging out second place Santa Maria Pages, the Kaydettes marched off with First prize for their skill as a women's marching unit.

For the first time in its history, the ROTC Men's Drill Squad took second place, after filling their trophy case with top honors from previous competitions.

The men's unit was up against the Vandenberg Security Platoon, a group which spends most of its time drilling through the entire year. They are stationed at Vandenberg Air Force Base.

Both Cal Poly contingents were so proud for time that they left Pismo Beach without staying for the award presentations at the Rose Gardens, so they could be on campus in time for the Homecoming ceremonies.

## Make Reservations Now for Wednesday Coffee Hour

It's Coffee Time! . . . on Wednesday, Nov. 25, from 10 a.m. to 11 a.m. in the Home Management Living Room for all students who make reservations by Monday, Nov. 23.

Sign-up sheets for this casual dress Thanksgiving coffee hour will be posted on the home economics bulletin board located next to MAHE 130 or call 546-2280 for reservations.

Assorted sweet rolls, breads and fruits and coffee, spiced tea and black tea will be on the menu at 10 cents a serving. Refills on the beverages are free.

The food is prepared by Grace Hydlburg's Meal Management class.

## Technical Symposium Tomorrow

The Welding and Metallurgical Engineering Department is hosting a joint technical symposium for all American Society For Metals and American Welding Society sections in California.

The joint multichapter meeting will begin with registration from 8 to 9 a.m., Saturday, Nov. 24 and will conclude Sunday afternoon with an open house of the W & ME Department from 3 to 5 p.m.

Three principle speakers will be in attendance to give participants an insight into their field. Speaking on "Modern Management in Research and Development" will be Dr. C. R. Carr, director of Applied

Research, ACF Industries of Albuquerque, N.M.

Dr. Donald J. Blackwood, director of research for Bethlehem Steel Corp., in Bethlehem, Penn., will speak on the topic "What's New in The Steel Industry" while Dr. Donald S. Clark, professor of physical metallurgy at California Institute of Technology in Pasadena, will have as his topic "The University and Technical Society Alliance in Education."

Under the guidance of Richard C. Wiley, W & ME department head, local chapters of ASM and AWS are joint sponsors of the symposium.

Objectives of the symposium are

(1) to foster an interchange of ideas among the chapters as to how best promote and guide the metals industry in California; in view of the present increasing activity and future demands; (2) to promote interactivity interests since many members belong to both societies; and (3) to provide an opportunity for members in different geographical areas to become better acquainted and to facilitate solutions to common problems.

Other objectives include (4) to afford an atmosphere away from the lab and plant pressures for cross-fertilization of ideas and projects under way; and (5) to present a series of top flight technical discussions.

CALIFORNIA STATE POLYTECHNIC COLLEGE

VOL. XXVII, No. 14

SAN LUIS OBISPO, CALIFORNIA

FRIDAY, NOVEMBER 20, 1964

## Oil Portrait Presented To Library

A portrait in oil of John Fitzgerald Kennedy was presented to the Walter F. Dexter Memorial Library yesterday.

To be hung in the foyer, the 16x20 painting is the creation of Robert Reynolds, a graphic artist in the audio-visual department, Head Librarian Dr. Emerson Jacob accepted the presentation on behalf of the college.

The painting is the culmination of a summer's work and the achievement of a year-long desire. "It is something I have wanted to do for a long time, since his death, but I waited while so I could do it rationally," said Reynolds.

Another memorial to the late President is scheduled for Sunday, Nov. 22, first commemoration of the assassination, from 12:30 to 1 p.m. when all the bells in San Luis Obispo will ring single bells every 7 seconds. It is a community effort in which Cal Poly will take part.

## Design Contest

Do you enjoy designing things? The brochure for Religion in Life Week needs a cover design. First place winner in the contest will receive \$5.

The theme of Religion in Life Week, "Is God Obsolete?" should be included in the cover design. Entries must be placed on an 8 and one-half by 11 inch sheet of paper. Deadline is Dec. 8 at 5 p.m.

All entries should be either placed or mailed to the Religion in Life Week post office box in the Associated Student Body office.

## Campus Life Undisturbed By Unexpected Darkness

### Dormitories

"Who turned out the lights?" was the cry of Polyites when power failure blanketed a large portion of the campus last Monday night beginning at 5:35 o'clock.

The electrical failure had left Cal Poly in total darkness for two hours. During this period most of the dormitories were without lights, but not without confusion and pranks.

Coeds at Trinity Hall and similar female retreats, soon found their strongholds overrun by their male counterparts. As one coed put it, "It got so bad that we soon found ourselves locked out of our own dorms by girls who thought we were men trying to break in."

. . . and then there was a little Volkswagen just jam packed with lovely ladies trying to get away from it all. Unfortunately, they didn't quite make their grand escape, as 850 male students blocked all the roads leading away from Santa Lucia dormitory.

. . . and then there was this nice gentleman of Tenaya dormitory (2nd floor) who decided he could not find his room in the dark. He then proceeded to lie down for a small breather in the hallway.

This reporter is glad to say that all get well cards may be sent to the Cal Poly Health Center.

. . . and then there was a nice fellow who decided to get a rather close look at the new administrat-

tion building. Fearless and undaunted, he proceeded to scale the structure. He was recently seen throwing scraps of notebook paper from the rooftop in quest of food and water.

Finally the lights flickered, signaling the end of the power failure.

It was a shame, for everyone was just beginning to enjoy it.

### Dining Hall

Monday night the school Dining Hall finally answered the requests of students for more atmosphere during the evening meal. They served it by candle light.

Unfortunately it was not an aesthetic effort but, rather, an emergency measure to feel on-campus students when power failed.

According to Loyd Bertram, Dining Hall manager, "We had candles all through the hall. It was noisy but there was no trouble." The Dining Hall was able to serve hot food because the school power plant diverted all its steam to the food warmers in the building.

During the course of the meal the Dining Hall ran out of plates and glasses because the electric dish washers were not running. The management simply changed to paper plates and continued serving.

The evening went smoothly but the students clapped when the power came back on.

"We had no special problems," Bertram said, "except it was dark."

### Health Center

During the hour or so that the campus was without electric power it was fortunate that no major injury occurred, for the Health Center's auxiliary generator failed.

As stated by college electrician, Harry Miller, the failure was of a mechanical nature and has been repaired.

Miller said that the campus personnel had so many things to do getting the whole campus power back on that they did not feel it was necessary, considering the short time the power would be off, to take time to activate the Health Center's generator.

A check with FGI & E revealed that the power blackout was caused by failure in the "Gold True" power substation. The affected area included College Square, Ferrini district, Haywood Park-Los Osos, the Men's Colony, and Cal Poly. Stanley Blois, company business manager, said the exact cause of the failure is unknown since the substation was not overhauled.

Campus security officers reported no disturbance that caused undue concern. In several places people used "paper candles" to light their way. These potentially dangerous "candles" were watched paper set on fire. There was no damage, except to some wax floors.

Fire officials were given a scare when they saw flickering lights in the Science Building. As it turned out, a chemistry class had lighted bunsen burners to continue with the class.

## Architects Gather In Nation's Capital To Discuss "Aesthetic Responsibility"

Ed Workman, Architectural Engineering Junior, will represent the college Architecture Department at the tenth annual student forum of the American Institute of Architects (AIA) in Washington, DC, Nov. 23-25.

Two hundred students representing schools of architecture across the country will be in attendance.

The forum, sponsored by the AIA and the Association of Student Chapters (ASC), will be held at the Octagon, AIA headquarters "Aesthetic Responsibility" will be the general topic of discussion.

The two primary objectives of this year's forum are developing techniques for educating laymen, opinion molders and decision makers to recognize good design and to demand it; and developing techniques for increasing the design competence of architects.

The presentation will be made by the Institute Committee on Aesthetics. Also included in the program is an evening at the arena stage in the southwest redevelopment area of Washington, for the full arena production of "Galileo" by Bertolt Brecht on Nov. 24 at 8:30 p.m.

Traditionally there will be a business meeting of the ASC, AIA which will include committee reports and the election of national officers for the coming year.

Carl Schubert, of San Luis Obispo, a graduate and past president of the student chapter here, was national president during 1962-63. Ralph Brandshaw of Riverside, senior, is California regional director.

The ASC and AIA provides the

major portion of the travel expenses of one delegate from each school. The student chapter provides the balance. Alternate delegates may attend at their own expense.

During the forum Workman's responsibility is to reflect the quality of instruction and education received from Cal Poly's school of architecture and to represent the quality of students in the department," said the student from Villa Park. He will also present Cal Poly's architectural philosophy of combining theory and practical work which is different from the other schools according to Workman.

He will return with a report on the philosophies, curricula and projects of the other schools of architecture represented.

## Farmers Aim To Promote Accord

Today begins "Farm City Week" through the nation.

Purpose of this observance is to promote better understanding to urban dwellers of the important role that agriculture plays in the nation's economic structure.

An Cal Poly is oriented to both rural and urban dwellers, Farm City Week will also be observed on the campus.

Helping to coordinate the many events of the coming week is Agriculture Council, while individual clubs and organizations in the Ag Division are sponsoring the activities.

A milking contest between mayors of neighboring communities and a parade of farm machinery are a few examples of what's in store. A livestock exhibit and a sheep shearing and wool packing exhibit are also planned.

The displays and activities will take place in the Security First National Bank's parking lot in downtown San Luis Obispo. The parade of farm machinery through the business district will begin at 10 a.m. and will conclude at noon Saturday.

Continuing with the week's events, there will be a showing of the film, "Horizons," a portrayal of modern agriculture. This will be Sunday at 7:30 p.m. in the Little Theatre.

Highlight of the week will be the public address by Glenn Lay, former executive with the American Dairy Association and now head of a corporation which promotes sales of agricultural products.

His talk, slated for 8 p.m. Tuesday will be in the Little Theatre.

"FARM-CITY" WEEK... Agriculture Council Chairman Chuck Cruickshank drives tractor as well as helping to coordinate activities for "Farm-City Week" which begins today. "Farm-City Week's" purpose is to get the city dwellers to better understand the important role that agriculture plays in the nation's economic structure.

There are 16 campuses of the California State Colleges, ranging from Humboldt County in the north to San Diego in the south.

## Take Complaints To SAC

What is the purpose of El Mustang—to inform students or to make money for the Associated Student Body?

Actually the purpose of this newspaper is threefold—first of all it is an educational endeavor. All students are welcome to join the staff of El Mustang. It is training for both writers and printers.

Second, El Mustang is used for communication and in this area is the prime communications medium on campus.

Third, El Mustang is available so that all students may express their opinions and complaints through letters to the editor.

At the present time your student newspaper is under heavy fire from all areas due to the heavy amount of advertising which it has been carrying all quarter.

We commend our advertisers and recommend highly that you patronize them. The merchants who advertise in this paper are interested in this college and in its welfare.

At the present time El Mustang has a budget of \$9,750. Of this amount the newspaper is subsidized 14 per cent. The rest of the money for its production must come from somewhere. It comes from advertising. On the majority of student newspapers throughout the state of California their budget is subsidized 50 per cent or more.

Finance Committee has, over a period of many years, earned a reputation and a good one for fair distribution of Student Body money to all budgeted groups. Student Affairs Council has also earned a good reputation for the care they take in approving Finance Committee recommendations and are constantly providing new committees to review the financial situation of the Student Body.

All newspapers have both personality and life. Life is provided by the publisher—the Associated Student Body in the case of El Mustang. Personality is provided by the editorial staff.

All it needs to take the life out of a student newspaper is to demand that it carry so much advertising that there is no space left for news. This is the current case with El Mustang.

The student newspapers in all colleges throughout the United States reflect the quality of their schools. If you want a good newspaper at Cal Poly we suggest you stand up and fight for it. Let your Student Affairs Council know how you feel—SAC represents the students you know.

If you want a good newspaper at Cal Poly write letters to the editor, join the staff and let your representatives on SAC know how you feel about having a newspaper which represents you and your school carrying more than 70 per cent advertising on its inside pages.

In order for the Student Body to make enough money to budget all groups including athletics, College Union, judging teams and El Mustang, students must not only buy Student Body Cards but must also attend the activities provided for them throughout the year. How can they attend these activities if they never hear about them? And, how can they hear about them if El Mustang never has the space to carry stories about these activities.

It is your clubs and organizations which are being hurt when you force your student newspaper to carry tremendous loads of advertising. It is your department and school which is being hurt when you force El Mustang to carry tremendous loads of advertising.

If you want a newspaper that carries "news" stand up and say so.

## Mailbag

Contributions to "Mailbag" should not exceed 200 words. Editors reserve the right to edit and/or condense all letters received and to decline publishing letters that are in the opinion of the editor, in poor taste or libelous. All communications must be signed by the writer. If a name or phone number is desired as a signature, it is permissible but the editor must know the true name of the author.

**Boon To Capitalism?**

TO THE EDITOR:

Your paper has been a boon to capitalism in San Luis Obispo. What would the merchants of the town do without your fine bi-weekly periodical? We imagine they would not be able to sell a single article without the advertising they have in El Mustang.

From a total of 2,296.0 square inches of ad space in Nov. 13 edition, 1,500.9 square inches (65.4%) were used by our friendly merchants. This leaves only 34.6% of the total space for "news" items. These figures include the front page—without the front page we have 79.0% of the paper utilized by advertising. This leaves 21% of the remaining area for written material.

Some papers have worked hard to earn the reputation of being called a fish-wrangler. We think that even a carp would get sick if it were wrapped in this "collection of commercials." We could have guessed that you were being widely optimistic when you said (in your Nov. 6 edition) that you would come out with six pages of material for Homecoming. We can't help but wonder what the alumni must think of their Alma Mater after scanning El Mustang.

All is not lost, however; the edition may wind up a pillow on a sidewalk in Los Angeles. What's wrong, dear Editor? Can't you produce more verbiage than the very short 16 sq. in. editorial of the Nov. 13 edition. On page four of the Homecoming edition, El Mustang did a very good job of filling space—a 36 square inch picture of a crowd. Congratulations, Homecoming was well covered. Didn't last year's queen deserve any space?

Think you for your valuable advertising space. We hope we have

not pushed a possible advertiser out of your "news" paper.

KIRK G. MILLER  
GLENN GODLEWSKI

**Could You Hear Them?**

TO THE EDITOR:

Recently the Cal Poly students, through the successful efforts of their College Union Assembly Committee, were fortunate enough to have the opportunity of hearing Bud and Travis in concert on the college campus.

It is appreciated by all that certain things are basic to listening, understanding and enjoying folk music. Among these are certainly an understanding of the words and moods of the songs.

Evidently this need to hear and understand the words of the songs was either overlooked or felt to be unimportant by the College Union and its workers who set up the public address system.

People seated on the left side of the gym could only hear Travis, that is, those who were lucky. At one time during the performance the group was forced to stop the show, which started an hour late, to allow 20 or 30 students to relocate themselves where they could hear.

Comments from experienced folk music admirers ran along these lines, "This is the most micky mouse thing I've ever seen," and "Are you kidding?"

All this not to mention that the performers had to repeatedly ask the people operating the public address system for more volume. It seems that if the school feels a group is important enough to allow the women an hour and one-half of their coveted "lock-in" time free, the least the College Union could do is provide proper audio effects.

RICK MILLER

## Adventure Tempts Poly SCUBA Divers

BY MAURIE LUND

The sleek metal spear shot through the icy blue-green water. The hand of its origin hung in motionless anxiety. Then, the hunted met the spear and the diver had won the victory of the hunter.

Spear fishing is only one of the many activities which the Cal Poly Skin Divers Club has scheduled for its members. The men of the mask, snorkel, fins and self-contained underwater breathing apparatus (SCUBA) set also go after abalone and lobster. They usually dive within a 75-mile area around San Luis Obispo along the California coastline, according to Wayne Davis, president of the Cal Poly Skin Divers Club. The group has been known to go to Mexico, however.

SCUBA diving is skin diving, but skin diving is not SCUBA diving. Skin diving is a general term which includes use of the basic equipment consisting of a face mask, snorkel and fins. SCUBA diving is distinguished from skin diving, said Davis, by the use of specialized equipment known as the "self contained underwater breathing apparatus" or SCUBA.

The specialized equipment partly consists of a high pressure tank with 2000 pounds air pressure per square inch. A regulator is also part of the equipment. This regulator breaks down the high pressure to about 14 pounds per square inch. The advantage of the regulator is clearly seen. One can imagine the disastrous effect of a 2000 pound jet of air let loose in the breathing mask of the diver.

Of course, the basic equipment of the mask, snorkel and fins are used in diving.

The club is composed of close to 15 members this year which is an ideal working group size, according to club president Davis. This year's

adviser is the college's Chief Security Officer George Cockrell.

To participate in the club field trips, the members have to be checked out by the experienced members of the group. A written as well as a practical test is required.

Diving offers the freedom of movement to enjoy the wonders, adventures and weightlessness of the lower depths of the sea along with a set of safety factors and equipment to make it a relatively worry-free experience.

**Many Comment**

TO THE EDITOR:

This is an open letter to the Associated Student Body, Inc. Finance Committee:

The El Mustang staff is doing a commendable job considering the limited amount of space it has to publish its articles. But El Mustang does not come near to what we consider the caliber of college newspapers.

We feel there are a great many possibilities for the paper, if it is only given some room to grow. This would mean that more than 14 per cent of the student body funds would be necessary in order to keep the advertising constant throughout the year.

We think it is time that the A S Finance Committee review the budget and allot more to the newspaper. We the students don't feel that for the student dollar we are getting our money's worth.

Let's subsidize the El Mustang to a greater degree by simplifying the budget.

## New arrival: seeks long-term lease

This new-born fawn and all his kind will prosper. Thanks to the Federal Wilderness Law, millions of beautiful acres will be set aside as a perpetual wilderness and home for wildlife.

Standard Oil welcomes it. Our drilling crews work in close cooperation with fish and game and wildlife officials. Our helicopter crews cooperate in forest fire patrol. Standard men have even gone out of their way to enlarge a breeding pound, or truck water to drought-stricken animals.

If oil is found, operations are planned with a minimum of disturbance. Working areas are fenced to protect the animals... wildlife returns, often increases.

Standard Oil men are good neighbors to the wilderness.

The Chevron—  
Sign of excellence

**STANDARD OIL COMPANY OF CALIFORNIA**

When you go to enjoy the great outdoors and its wildlife, rely on the man at the Sign of the Chevron. He'll help you get there, with free touring information, and highest quality S. O. products for your car and boat.

## Campus Capers

By MAURIE LUND SOCIETY EDITOR

Clubs sponsoring events or guest speakers at a meeting or a special meeting and would like publicity are asked to leave information and details in OA 325. The material must be turned in before Friday noon if it is to appear in the Tuesday edition. Organizations may also call extension 321, El Mustang office.

### GAMMA SIGMA SIGMA

A car wash, pledge project of Gamma Sigma Sigma, will be held tomorrow from 9 a.m. to 5 p.m. at the 76 Union service station at the corner of Broad and Foothill. The service sorority is charging 75 cents for this car wash.

### FARM MANAGEMENT CLUB

In conjunction with Farm City Week, the Cal Poly Farm Management Club will sponsor a free showing of two movies in the Little Theatre Sunday at 7:30 p.m. The two movies are "Horizons" and "Why Braceros."

### CCR

The state president of the California College Republicans (CCR) Randy Siefkin, will speak at the CCR meeting to be held Monday at 7:30 p.m. in Rm E-47. Siefkin will speak on "Where Do We Go From Here?"

### BLUE KEY

Two new men recently joined the ranks of the Blue Key, national honor fraternity, executive council. The newly elected men are Dave Jones, alumni secretary-elect, and Mike Elliott, corresponding secretary-elect. The other members of the Blue Key executive council include President Dave Holdsworth, Vice President Vern Van Voorst and Recording Secretary Jack Mayea.

### DOUBLE DATE

Can't decide whether to go to the Saddle Hawkins dance tonight or to the college union drama play, "Two Blind Mice?" According to College Union Social Committee Chairman Craig Colledge, there will be a special price available to couples who want to attend both.

The special tickets will be sold for \$2, a 75 cents saving, at the

Little Theater box office prior to curtain time, 8:30 p.m. These tickets are good for admittance to the dance following the play which ends at 10:30 p.m.

The ghl-ask-by dance will be from 9 p.m. to 12 midnight at the Men's Gym. The Collegians will provide the music.

### ZAMBIA INDEPENDENCE CELEBRATION

Everyone is invited to attend a big evening planned Monday at 7:30 p.m. in Crandall Gym to celebrate Zambia's recent independence. Admission is free.

Dean J. Corder Gibson, assistant dean of agriculture who recently returned from Zambia, was in the country at the time. Also, there will be a cultural display, Zambia dances and a special tape by the new president of Zambia, Dr. Kenneth D. Kaunda.

### SOCCER GAME

People to People will sponsor a Soccer game at 3 p.m. tomorrow at the field behind the Men's Gym. The People to People sponsored team will play a team from the University of California at Santa Barbara.

### PEOPLE TO PEOPLE

The Chairman of People to People, Gregg Harris, resigned his post early this week. A nominating committee has been set up and nominations for a new chairman should be completed by Monday. Elections are planned for a week from Monday.

## Architects Will Tour Hearst Castle

Touring Hearst Castle is one of the highlights of the 45th annual SCARAB Convention beginning tomorrow at 7 p.m.

Ernest Kuip of Palo Alto will speak on an unannounced topic in the Little Theater at 8 p.m. on Monday, Nov. 23, as part of the convention's program. This assembly is open to all students.

Twenty-five students representing nine schools of architecture

from throughout the nation are expected to attend this four day congress from Nov. 21-24 of the professional architectural service fraternity. An informal gathering for early arrivals will start off the so-called at the home of Paul Neel, architecture instructor.

Sharing architectural ideas and philosophies, discussion of different curricula and business

and orientation of the fraternity are part of the convention.

Some of the events in store for the group are a barbecue in the patio of Engineering West and a tour of the senior projects from 11 a.m. to 1 p.m. on Sunday. George Haslain, head of the Architecture Department, will welcome the guests. A tour of the California Mission in San Luis Obispo is on the agenda from 1-2:30 p.m. and the day will end with a dinner at the home of R. L. Graves, Architecture instructor, from 7-11 p.m.

"Urban Development" will be the speech topic of Arthur Gallion on Monday, Nov. 23, during a luncheon at This O'F House from noon to 2 p.m. Dinner will be held at the Madonna Inn from 5:30-8 p.m. and Graves will speak on an unannounced topic.

A tour of Hearst Castle, with box lunches on the bus, will take place from noon to 5 p.m. on Tuesday, Nov. 24, the last day of the convention and a farewell dinner from 7-9 p.m. at the Motel Inn will end the convalescence.

## People To People Photo Contest Closes Dec. 15

The first annual People-to-People campus photography contest has been announced.

Designed to focus attention on international friendship promoted by the People-to-People organization, the nationwide contest is open to all students where local chapters exist.

Entry forms are available at the Associated Student Body office, with a deadline of Dec. 15 set for all pictures.

First prize in the contest is a Honeywell Rolleflox camera and an award certificate, to be presented for the photograph that best depicts international friendship.

Other prizes will include two Honeywell Pentax cameras and a Honeywell Stroboscan electronic flash unit.

The entry form hints that the activities of the local campus chapter may offer opportunities for story-telling pictures, but the contest is not limited to chapter activity. Subject matter may be found in faculty activities, community projects, in family hospitality, in medical centers and in many other day-to-day situations.

Judges include Miss Betty Leavitt, picture editor of Look magazine; Yochi R. Okamoto, chief of pictures branch of the Press and Publications service, USA; and Clifton C. Edom, professor of Photojournalism, University of Missouri School of Journalism and founder and advisor of Kappa Alpha Mu, photojournalism honor fraternity.

## Court System Study Underway On Campus

BY CAROL MILLS  
The court system may come to Cal Poly.

A student-faculty committee is investigating the feasibility of a student judiciary system to be employed in matters of student infractions of rules.

In the current system, problems of this nature are referred directly to Dean of Students, Everett Chandler.

The new system, on which study was begun last year, would involve a change in the structure of student government. Students would sit as judges on fellow students.

The tentative plans involve a two-branch system. One branch would encompass infractions of student made rules, such as codes and election disputes. The second branch would deal with college and state rules, such as drinking on campus and code rules.

The investigating committee, headed last year by Larry Hubbell, is working on setting up a system with codes and procedures which would be followed if the judiciary system went into effect.

The steps in getting the system approved are involved. It will first be brought before the Student Affairs Council (SAC). If SAC approves it, a change in Cal Poly's government system would be involved, thus requiring approval from the state board.

A student election would be called for and if the resolution is approved, the by-laws and possibly the incorporation laws of Cal Poly would be altered accordingly.

When the investigating committee completes its study, the program will be submitted for approval.

It is hoped that the system will go into effect by fall, 1965, if requirements can be met.

California State Polytechnic College, Legislature of the State of California, was established in 1901 by California.

## Campus Hot Shots ROTC Turkey Shoot

The ROTC has set out "bull's eye" targets that are about the size of a silver dollar on the 60-foot range.

Men fire from the standing position while women use the "bench rest".

Of the five allotted shots, the four scoring the highest points will count toward the competition. Turkey dinners will be awarded to the best marksmen in each group of 40 competitors, and smaller awards to the best of each five shooters.

Just like the good old days! A turkey shoot is now in progress on the Cal Poly rifle range behind the airport. The shoot is open 9 a.m. to 5 p.m. through Saturday.

Rifles and ammunition are being supplied to men and women who want to try their skill for the top prize of a turkey dinner at the cost of 25 cents for five shots.

Chuck says he paid 800 bucks less for his Coronet than you did for that turtle of yours

You really know how to hurt a guy

"Chuck's a swinger," says she. "His Coronet is quick and clean, with a lean and hungry look. It's equipped with a 426 cubic inch mill that will maul your turtle at the strip or on the street. He's got four-on-the-floor, bucket seats, carpets, console, spinners, and a peddled dash. And he said that everything but the four-speed stick and the 426 was standard." Then she broke his back by asking, "Didn't you pay extra for some of that jazz?"

Don't let the truth hurt you. Better see the all-new, hot new Dodge Coronet before you buy a (cuckoo), a (cuckoo-cuckoo), or even a (cuckoo-cuckoo-cuckoo).

**'65 Dodge Coronet** DODGE DIVISION CHRYSLER  

ENGLISH TRIALS...Chris Brown, riding a Honda Scrambler (front), and Dave Devold on an English made 500cc Matchless try out the course for this weekend's English trials.

## Cyclists To Ride Sunday

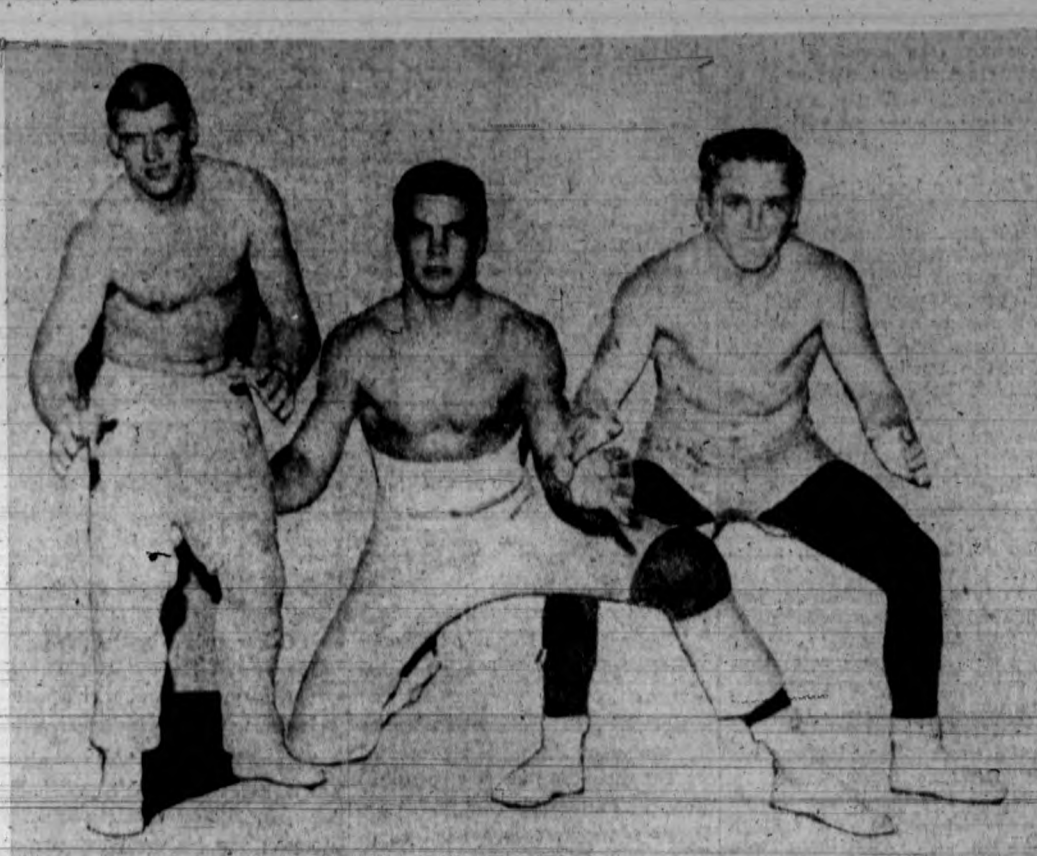

This Sunday Nov. 22 at 1 p.m. motorcycle enthusiasts will have a chance to try their riding skill, balance, and judgment at the English Trials run put on by the campus motorcycle club, the Poly Penguins.

The course is composed of a series of sections laid out over natural terrain in such a manner as to test the rider, who must ride slowly with control and finesse.

Entry time is scheduled for the hours of 11 a.m. to 1 p.m. The event starts at 1 p.m. at the baseball field and the course will continue from there.

Entry fees for club members is 50 cents and for non-members \$1. Spokesman for the Penguins, Tom Lieberman, said that participation awards will be given in addition to trophies for the winners.

Lieberman said there was no limitation on bikes sizes, since the course will depend on maneuverability as well as power. At last reports there was some worry as to whether or not the weather might cancel the event but members were hopeful that with a few good days the course would be dry enough.

STANDOUT WRESTLERS...Leading the California Collegiate Athletic Association champion wrestling team of coach Vaughan Hitchcock is this trio of grapplers. They are (l to r) John Arnold, first in the Pacific Coast International two years ago at UCLA; Harvey Wool, 1964-65 team captain; and Jim Teem, first in the PCI last year and 4th in the nation, small college division.

## CCAA Champions

BY WALT CRITES  
Associate Sports Editor

Are you despairing because Cal Poly hasn't been winning this year? Then stop! The only team on campus that has won two championships is about to open another star-studded season.

Who are these wonderful guys, you say, that can bring the sagging morale of a despondent sports-minded student body out of the doldrums of defeat and place it high atop the winning heap?

To find the answers to these questions that have the campus buzzing, visit the Men's Gym, any day, and watch Coach Vaughn Hitchcock's mighty matmen work out as they prepare for another highly successful wrestling season, taking on all comers.

One of the outstanding returning lettermen is last year's 147-pound California Collegiate Athletic Association (CCAA) champion Jim Teem. Teem, who hails from Sonoma, was No. 4 in the nation in his weight class last year, and is rated to do as well this season.

One's not enough you say? Then look for Sam Cereceres last season's 167-pound CCAA wrestling champion from San Bernardino.

The competition thinks twice when they meet him on the mat.

If one 167-pounder isn't enough, Coach Hitchcock always has another, this time in the form of Terry Wigglesworth from Alamo, the No. 4 man in his weight class in the PCI last year.

To add a little beef to the squad, Coach Hitchcock also has the 191-pound, two-time CCAA champion and No. 3 in the PCI, Harvey Wool. Wool, who comes to Poly from San Jose, will help to put the Mustangs once again in the winners circle.

Additional outstanding prospects this year, according to Coach Hitchcock, are Joe Garcia, a 123-pounder from Hayward; Mike Remer, 115-pounder from Castro Valley; Mike Ruiz, 137 from Hayward; John Miller, 157 from Whittier; Phil Sullivan, 177 from Tulare; John Geer, 147 from San Jose; John Arnold, 137 from Hawthorne; Calvin Herbst, 191 from Alamo; Tom Miles, 147 from Klamath Falls, Oregon; and Darrel Cowell, 139 from Pleasant Hill.

Coach Hitchcock's wrestlers not only can boast of having won two championships, but they also hold the conference record for scoring the most points in one match, 98 points.

In addition, the Mustang wrestlers have broken the record for

the most champions in one season, with seven out of a possible ten, and, they have not lost to a California team of any size in two years.

For the sport to watch, and the team that brings home wins instead of losses, follow the Mustang wrestlers in their dual meets and tournaments that follow: Dual meets; Tuesday, Nov. 24, University of California at Berkeley, there; Tuesday, Dec. 1, University of California at Santa Barbara, here; Thursday, Jan. 7, California State College at Los Angeles, there; Friday, Jan. 8, Arizona State College, there; Saturday, Jan. 9, Arizona State University, there; Friday, Jan. 15, San Diego State College, here; Wednesday, Jan. 27, Chico State College, here; Friday, Jan. 29, Stanford University, there; Wednesday, Feb. 3, Oregon State University, here; Friday, Feb. 12, Fresno State College, there; Saturday, Feb. 13, San Jose State College, University of Oregon and University of California at Los Angeles, there (San Jose); Tuesday, Feb. 16, University of California at Santa Barbara, there; Friday, Feb. 19, California State College at Long Beach, here; and Saturday, Feb. 20, San Fernando Valley State College, here.

## Mustangs Tackle Gauchos

Mustang griders will have only one more shot at keeping this season from being a total defeat when they travel to Santa Barbara this Saturday for a night contest at La Playa Stadium against the U.C. Santa Barbara Gauchos.

The winless Mustangs who carry a 0-9 win-loss record into this game so far have been out-weighted, out-manned, and out-played, throughout the 1964 campaign.

Coach Harden's crew has nothing to lose in Saturday's game, as a loss would not effect the California Collegiate Athletic Association Standings one iota since Cal Poly has already played all of its league games.

Coach Harden plans to start 5'-9", 180 lb., Bill Raabe at the quarterback position against the Gauchos. Harden said he was impressed with Raabe's performance against Idaho State last week when Raabe led the Mustangs in their deepest penetration of the

game, down within the Bengal's 10 yard line.

Missing the services of their top passer Chris Dawson, the Gauchos went to the ground last week and picked up a total of 367 yards rushing, nine more than the Mustangs have gained all season. Santa Barbara's defense proved rough as it held U.C. Riverside to only 65 yards rushing.

Originally coeducational, Cal Poly discontinued the enrollment of women in 1929. Enrollment of women as regular students resumed in 1956.

## Intramurals

Seventy-one novice grapplers in eight weight divisions competed in Cal Poly's intramural wrestling tournament recently with trophies being awarded to first and second place finishers in each group.

Winner in the heavyweight division was Ron Hason, who won by a fall over his opponent Correy Couch of the Ornamental Horticulture Department. Hason completed unattached. Dennis Evin, also wrestling without ties, defeated Pat Bergson of the Sophomore Class to nab the 177 lb. title.

Muir Hall's Armstrong took a decision from Craig Murray of Sierra in the 167 lb. class, and Doyle Johnson defeated Ron Correy of the Ornamental Horticulture Department in the 157 lb. class.

147 lb. honors went to Rich Souza, Mike Calahan took the 137 lb. event, David Lewis proved tops in the 130 lb. class, and Quintine Morgan won the 123 lb. division.

## CCAA Teams

Ranked

Nationally

California State College at Los Angeles and California State College at San Diego are presently ranked second and third nationally according to the UPI small college rating polls.

The Los Angeles team, who are also the newly crowned California Collegiate Athletic Association (CCAA) champions, are a mere four points behind the No. 1 team in the nation, Wittenberg.

The NCAA determines whether a college rates as a major or small college primarily on the basis of the major college opponents that a team faces in any given season, not by the size of the school. A college must play at least half of its games against major college opposition to qualify for the higher level.

Although Cal State at Los Angeles has clinched the league crown, it still has one CCAA game to play, against the San Fernando Valley State eleven, before they end their regular season play.

CCAA FOOTBALL STANDINGS (LEAGUE)

	W	L	PF	PA
Cal State L.A.	4	0	114	19
San Diego State	4	1	201	78
Cal State L.A.	3	2	100	77
Valley State	1	2	21	82
Fresno State	0	3	61	110
Cal Poly (SLO)	0	3	33	218

LAST WEEK'S RESULTS
