### Religion In Life Week Features Six Speakers

Religious leaders will be on campus to speak at the ninth Religion In Life Week which was officially proclaimed by President Julian A. McPhee to be held on the campus Jan. 17-24.

The Inter-Faith Council sponsors the annual event and usually chooses the speakers. This year the speakers will represent the Mormon, Baptist, Jewish, Catholic, Lutheran and Christian Scientist religious groups.

Beatrice Lewanika is chairman of the Religion In Life Week Executive Committee which has been working since September to bring the event to the campus.

A movie, "Question Seven," will be shown Saturday night at 7 and 9:30 o'clock in the Little Theatre.

A "kick-off" dinner will be held Sunday evening at the Church of Jesus Christ of Latter Day Saints where President McPhee, the six speakers, and students will begin the Religion In Life Week activities. A reception will follow the dinner.

The six religious leaders will speak from Monday through Thursday in preannounced rooms during the day and will also participate in two- and three-man panel discussions.

During the week the six speakers will talk on subjects related to the theme of the seminar, "Is God Omnipotent?" "College: Seek or Learn By Doing?" "Keeping Up With the Hardsley (Birth Control)?" "Is There an Answer to War?" are samples of the 40 single talks and panel discussions that will be held in available classrooms during the seminar which will end Thursday. During the evenings, speakers will visit the campus dormitories where speakers will answer students' questions.

The guest speakers are also available for private counseling. An office will be open in the Campus Christian Center, opposite the Health Center, from 9 a.m. to 5 p.m. Monday through Thursday. Questions and appointments can be cleared there by phoning 513-7398.

The speakers are all outstanding personalities. Five are from other communities.

Dr. Ernest Eberhard Jr. received his MA from Brigham Young University. He was seminary teacher and principal at Preston, Idaho for 25 years. Eberhard was mayor of Preston for two terms and is now coordinator-at-large of nonreleased time seminars of the Church of Jesus Christ of Latter Day Saints.

Dr. Harry Esquivel is spiritual leader of the University Synagogue in Los Angeles. A graduate of Columbia University, he received his doctorate in the field of Prayer Validity. "College: Seek or Learn By Doing?" (continued on page 3.)

### We Want To Help! How About You?

The recent tragedy to Poly alumnus Dave Kempf which El Mustang reported in its Jan. 12 edition has prompted the Cal Poly Press Club to sponsor a drive for funds to assist him in the tremendous job of re-establishing himself.

Due to his multiple losses of family, home, and source of income, Kempf faces an uncertain future.

Late on the afternoon of Dec. 22, the water at Ferndale, Humboldt County, rose rapidly. Dave rescued his wife and daughter from their home and took them to his uncle's house on higher ground.

By 5:30 p.m. the water was waist high and Kempf and his uncle were unable to reach the milk barn to take care of the cows. At this time they were spotted by a helicopter. After some difficulty, Kempf got his wife, child, and aunt into the helicopter, presumably to carry them to safety in Ferndale.

Two days later Kempf and his uncle were able to reach town. Upon arrival at Ferndale, they learned that their families had been taken to Crescent City, as it had been too dark for the craft to land at Ferndale.

It was Christmas Eve when Dave learned the helicopter had crashed on route to Crescent City and that his family probably had died. It was several days later before the bodies were found.

At Dave's dairy, his house had washed away, 65 of his 60 cows were dead, and four to five feet of silt, logs, lumber and trash covered the farm.

People in the area agreed that no other single individual in the flood area suffered so great a loss.

The Press Club drive was sparked by a \$50 contribution from the editorial department of the "Modesto Bee" and \$10 from the "Fresno Bee."

Organizations and individuals interested in contributing to the fund may contact Toni St. Onge in GA 226, El Mustang office, or place donations in containers which will be placed about the campus next week. Toni can be reached at 541-2011.

### Administrative Message

The rate of growth of enrollment in the English and Social Sciences Departments is to be maintained at approximately the proportion which they constituted of the total fall 1964 enrollment of the college.

The planned growth will be achieved by the rate of admission of first-time freshmen and transfer students. In the 1965 fall quarter, 102 first-time freshmen and 76 transfers will be admitted as Social Science majors. In addition to these majors it is estimated that 25 returning students and 334 continuing students will be enrolled in the Social Sciences Department for a total of 538 majors.

The planned procedure will give the Social Sciences Department 538 majors in the fall of 1965 as compared to 514 majors actually enrolled in the fall of 1964. These majors will represent 7.5 per cent of the entire student body as compared to 7.4 per cent of social science majors in the student body of the fall of 1964.

The English Department will admit 34 first-time freshmen and 25 transfers in the fall quarter 1965. These students with an estimated 10 returning students and 119 continuing students will give the department a total of 188 majors as compared to 183 majors in the fall of 1964. These majors will represent 2.6 per cent of the entire student body, the same percentage of the total as in the fall of 1964.

Thus, though the ratio of students in the two departments to the total student body is maintained at a figure approximating that for 1964, the actual number of majors in the department will increase due to the growth of the total enrollment. A new figure for admission of first-time freshmen and transfer students in the two departments will be determined for each year based on estimated total enrollment for the year and the anticipated number of returning and continuing majors.

The bulk of the teaching in the English and Social Science Departments is courses taken by majors other than their own. The continued growth of the college's enrollment to the ultimate target figure of 12,000 students by approximately 1975 will guarantee the continued growth of the faculty because of the numbers of full-time equivalent students to be taught in the departments of English and Social Science.

The new procedure was developed to carry

out the polytechnic emphasis outlined in the report of the college's Long Range Planning Committee and announced as college policy in the publication "Emphasis for Tomorrow" issued in the fall of 1963.

The new procedure also serves to implement the assumption, objectives and criteria of a report constituting an admissions policy for the California State Colleges adopted by their Board of Trustees at its June, 1964 meeting and subsequently written into the California Administrative Code.

The program adopted by the Trustees includes the assumption that "limits of capacity, staff and other essentials will impose temporary enrollment limitations on individual state colleges" and "that additional limitations of enrollment may be necessary in certain instructional programs." The policy also specifies that one of its objectives is "to maintain and improve the character and quality of the individual state colleges."

Dean of the College Dale Andrews said that procedures to implement the college's long-range plan for emphasis of certain curricula areas have been under consideration for several months by the Executive Council and Cabinet. The submission of a report to the Office of the Chancellor of the California State Colleges on November 11 in response to a memorandum from Vice Chancellor Raymond A. Rydell entitled "Request for Information to Implement the Admissions Program of the California State Colleges" set 1965-66 enrollment quotas for the departments of Social Science and English at Cal Poly's San Luis Obispo campus as well as the San Luis Obispo campus.

A request to work out procedures to be used in maintaining the enrollment proportions agreed upon in the college's academic master plan was referred to the Dean of the College at both campuses. The steps taken and those yet to be taken were explained in a December 29 communication from President McPhee to Dr. La Verne Bucy, Chairman of the San Luis Obispo Campus Faculty-Staff Council. In this communication he pointed out, "The action of the Trustees on December 4, 1964, in approving our Five-Year Curriculum Plan implements the work our Long Range Educational Planning Committee, which was described in the printed booklet, Emphasis for Tomorrow. This booklet also contains, on pages 7 and 8, guidelines for maintaining the special polytechnic emphasis authorized by Education Code 24761 particularly in terms of PTE taught."

### Foundation Negotiating For North County Land

The Cal Poly Foundation may purchase 400 acres of land north of Santa Margarita, according to Gene Brendlin, manager of the foundation.

The land, located a few miles north of Santa Margarita, has no access road. The Salinas River, dry most of the year, crosses the property.

"The land is typical California foothill land," said Brendlin.

"About 40 acres, located in one corner of the desired plot, could be developed into a camp ground." The foundation applied last December to the Bureau of Land Management, part of the U.S. Department of the Interior, for the land. Brendlin expects an answer by the Bureau of Land Management sometime in March.

The price the foundation will pay for the land is still undetermined.

### Division Proposed

A bill to divide Northern and Southern California into two states was introduced in the legislature yesterday. Twenty-three senators—one of them from Southern California—are co-authors of the legislation. The principal author is Senator Richard Dolwig of Redwood City who says division is the

only practical solution to the problem of reapportioning the State Senate on a population basis. Dolwig says the Tehachapi Mountains—which are far south of geographical middle of the state—would be the natural dividing line. He says the two sections are different regions with different problems and different solutions.

mined and Brendlin, although optimistic about buying the land, pointed out that the application could be turned down by the bureau.

Brendlin flew over all available land in San Luis Obispo County and hiked through the land at Santa Margarita last summer. He pointed out that the site will be an ideal wildlife refuge and useful for Biological Science and Agricultural Engineering majors who need undeveloped land for their senior projects. One project might include building a small dam for water storage on the land. Brendlin hopes to keep the land in its natural state.

"The way land is being bought today, in 10 years this type of property will not be available," he said.

If the foundation procures the land, development plans will include building proper fire controls and access roads.

### Students Protest Enrollment Limits Placed On Social Science - English

An announcement limiting the enrollment of two academic departments ran pell mell into a student protest Wednesday night.

Administration plans call for a

limitation on the growth of the English and Social Sciences Departments by maintaining the present enrollment ratio of those majors to total enrollment of the

College. As of the fall quarter 1964 English majors comprised 2.65 per cent of the student body and Social Sciences majors comprised 7.45 per cent.

An ad hoc committee of 35 students and one instructor was formed Wednesday night at a meeting in El Corral. The committee prepared a petition for which they hope to obtain 500 signatures by Jan. 25.

Members of the ad hoc committee believe that the college is trying to "de-emphasize" English and the Social Sciences. They fear that their majors will be "de-emphasized" to such a degree that improvement of the curriculum will be negligible, according to Frederick Burelbach, the English instructor who attended Wednesday night's student meeting.

Burelbach agreed with the students' claim that attracting competent instructors will become increasingly difficult, as chances for advancement will be restricted.

The students also believe that their degrees will be valued less by prospective employers and graduate schools due to the "fact" that it will originate from a college which has "de-emphasized" their majors.

Chester G. Young, assistant to the dean of the college, rejected the students' fears.

Informal heads of the committee, Jerry Mason, Robert J. Wilson, James R. Silliman and Alfred C. Granados plan to send the petition to various college administrators and state officials.

It was also proposed that the State Board of Education be sent a letter of protest. Dan Collins, student member of the committee, said "I have an inside track to the State Board of Education and I'd hate to see you kids pass up a chance to use this channel." The "inside track" Collins referred to is his father, Dr. Daniel Collins, a member of the board.

On the present list of petition receivers are College President Julian A. McPhee, Vice-President Robert E. McPhee, each division dean, State Superintendent of Public Instruction Max Rafferty, various newspapers, State Senator Vernon L. Sturgeon, Assemblyman Winfield Shoemaker, U. S. Senator Thomas Kuchel and Gov. Edmund G. Brown.

The committee rejected the use of student demonstrations for the moment preferring rather to go through "legal channels." Other suggestions for expressing their discontent included sending a delegation to President McPhee, a letter writing campaign to local newspapers and a protest to Student Affairs Council.

The administration's decision is based on the 1961 Enabling Act which established the California State Polytechnic College. The Act states the purpose of the College is "to furnish to young people . . . mental and manual training in the arts and sciences, including agriculture, mechanics, engineering, business methods, domestic economy, and such other branches as will fit the students for the non-professional walks of life."

The 1961 State Legislature re-emphasized the College's purpose in an act which states that the College "shall be authorized to emphasize the applied fields of agriculture, engineering, business, economic, and other occupational and professional fields. This section shall be liberally construed."

**LOTS OF ADS**  
Just to print the classified ads in daily papers through the United States takes nearly one million tons of newspaper annually.

**HIGH-TIDE**  
The oceans bordering the United States have risen from two to nine inches since 1940.

### Faculty Gives Views

English and Social Science instructors reacted strongly when they were informed Monday of the administration's plans to control enrollment in their departments. Both department faculties sent letters calling for reconsideration to their respective division deans.

Eighty per cent of the English Department faculty signed the letter sent to Carl Cummins, dean of the Applied Arts Division, according to Miss Ena Marston, instructor in English.

Miss Marston said that the letter points out that there is a growing emphasis on the training of teachers in California, and across the nation. The letter states that the California State College system assumes a great proportion of teacher training, and that Cal Poly will be failing to perform its function if it restricts instruction of prospective teachers in English and the Social Sciences.

A similar letter has been sent to Clyde Fisher, dean of the Applied Sciences Division, by members of the Social Sciences faculty. The letter, which was unanimously approved at an 11 a.m. meeting yesterday, gives support to the ideas expressed by the English Department's letter. It further states that the Social Science faculty believes the college administration has misjudged the enrollment trends in the two departments.

The letter goes on to point out that downgrading of unemphasized areas of education does not guarantee excellence in the emphasized areas.

It is as yet unclear as to exactly when the plan was first made public, but on Jan. 8 a committee of eight faculty members appointed by Dale Andrews, dean of the college, met to determine the implementation of the enrollment controls.

Miss Marston, who represented Dr. Philip Gerber, head of the English Department, on the committee, said that she was "astounded" when the policy was outlined.

Miss Marston and Dr. Gerber indicated they felt the committee served more of a pacifying than advisory function.

### X-Rays Scheduled For New Student

Free chest X-rays will be offered to all new students this quarter at the campus Health Center beginning Monday.

Much like the X-ray schedule of last quarter, which was conducted during Welcome Week, the X-rays will be free and optional for all new arrivals. The Health Center stresses that all new students should participate in this service which is of benefit both to the student's health and to the college records.

The services have been offered since the beginning of the quarter. The schedule will be January 18-22 for all new male students and January 23-27 for all new female students.

Dr. Billy Mounts of the Health Center emphasizes that "the X-rays are free, all that is required of the students is their presence."

### Folk Groups Sing Tonight

Folk singing, commercial music and bluegrass songs will be part of the College Union Fine Arts Committee's first annual Folk Festival scheduled for tonight and tomorrow night at 8 o'clock in Crandall Gym.

In addition to the two different shows, a lecture Saturday afternoon at 2 p.m. in the Little Theatre will be given by Dr. D. K. Wilgus, associate professor of English and Anglo-American Folklore at UCLA. A well-known lecturer and authority in his field, Dr. Wilgus will speak on "The Current Revival of Folk Music."

This year's festival will feature at least 15 groups including the New Countries, Pickin's Country and some groups from Stanford and Fresno State.

The cost of the concerts is 25 cents for Poly students and 50 cents for general admission. The lecture on Saturday is free of charge.

### Veep Pulls 'Fast One' On SAC

ANI Vice President Robert Mattes pulled a fast one on the members of the Student Affairs Council at Tuesday night's meeting.

Mattes is chairman of SAC's Constitution and Codes Committee and as such presented the by-laws for Duell, Whitney, and Muir Residence Halls.

After the council had approved the three by-laws Mattes moved that the council rescind its action on the Duell by-laws. As it turned out there were two minor errors which were overlooked by the council members and thus the by-laws should not have been approved.

Bald Mattes, "I just wanted to see who had read the code." (Each council member had received a copy of the three codes at last week's meeting to study.) Thereupon he introduced another recommendation, the corrected Duell by-laws, which was approved.

On other business the council accepted a year-end report on the water polo team by Mike Nero and a report on the Religion In Life Week program.

The request by the Boots and Spurs and Young Farmers clubs to hold a donation drive was approved. This request was denied last week for lack of information. First prize will be a dressed side of beef with the second and third prizes being a dressed turkey. Eighty per cent of the money donated will go to the club's scholarship fund and 20 per cent for improvement of the Stennis Creek Grave.

The recommendation of the Finance Committee to transfer \$200 from contingency to serve as a guarantee for a wrestling match with Oregon State was approved. Next year Oregon State will provide a similar guarantee.

Mrs. Alison Tomlin, ... is honored as ROTC for meritorious service. guard pauses in review after she was awarded

## Mrs. 'ROTC' Wins Service Award

Amid full military splendor, an award for meritorious service was recently presented to Mrs. Alison Tomlin by the United States Army through Colonel William Boyce, local Professor of Military Science.

The certificate read, Mrs. Tomlin, as clerk-at-memorandum, "brought credit upon herself and the civilian employees of the Department of the Army." The honor covers her employment from Oct. 1, 1963 and Sept. 30, 1964.

Colonel Boyce noted that it is the second consecutive year that Mrs. Tomlin has been recognized by the Army. "It is extremely rare that a civilian employee be awarded this commendation once, let alone twice."

"Mrs. ROTC" as she is affectionally called, has been known as being an inspiration to the cadets and staff of instructors.

## Concert Musicians Needed In Band

Ohoe, French Horn, Bassoon, Clarinet.

If you play any of these instruments you may be worth your weight in one unit of scholastic credit to the Concert Band, meeting each Monday, Wednesday and Friday noon in MSD 216.

Consisting of between 50 and 60 musicians, the band is rated as the best the college has had to offer to this date.

Upcoming on its busy schedule are included a College Hour Assembly on Feb. 18; concert tour of the Los Angeles area between quarter breaks in March; Poly Royal on May 1, and capping the year with the Spring Concert on June 4.

assignments, handles the flow of copy, and assists in page makeup.

Serving as assistant managing editor is Walt Crites. He is a senior majoring in Business and Industrial Journalism and has been a professional technical writer before attending Cal Poly.

Alan Haskvitz, a senior Business and Industrial Journalism major, will be covering sports. A student from Ontario, Alan supervises the sports page.

## Longer Session In Summer Suggested

A better return of its investment is what the Board of Trustees wants, and the state colleges are trying to come up with some ideas.

The Board of Trustees of the state college system recently announced action should be taken to get fuller use of facilities. It claims that expensive buildings stand nearly idle at nighttime and during the summer months.

"All of the state colleges are studying ways of alleviating this waste. One of the suggestions has been a larger and more expanded summer program," said Don McCaleb, public relations coordinator for this campus.

A committee exists called the "Year-Round Operations Committee," on this campus. Members are George Beale, Paul Neel, Walter Schroeder, Leon Osteyee, Donald Coats and Richard Johnson. The committee has been appointed by the Executive Council to study the problem and develop a set of guidelines which, if approved, would form a framework under which a summer session could exist.

However, no definite recommendation has been announced as yet, a spokesman said.

**FIRST CURE**  
Pasteur was the first person to develop a cure for hydrophobia.

## Mailbag

### A Horner's Nest

Editor:

This letter is meant to retract the statement I made in my letter of Nov. 24, 1964, which states that instructors are not seeing that current material is kept in our library. I realize that I was too critical of the majority of Cal Poly instructors.

The facts I used to support my assumption were correct, but were not complete. Just because instructors do not use the library does not stop them from requesting books either by form or the telephone. The main reason that instructors do not use the library is because they do not have the time. Most of them have their own personal libraries in their offices.

Most of the responsibility for current material is the instructor's responsibility. Many instructors have pointed out the fact that they are trying their best to see that all the students have the best information available. But, this is also the responsibility of the student to assist in the search for up to date material. If the student wants a book that is not in the library, he should see someone in his department and they will order it through the library.

I'm glad to see the amount of instructors that read the El Mustang. I only meant to stir up a little interest. It was like hitting a hornet's nest.

Ronald D. Mills

(Editor's Note: The following letter was presented to El Mustang as a protest to the proposed limit of enrolled students in the English and Social Science Departments. For the story refer to page 1.)

Editor:

Whereas the administration of the California State Polytechnic College has proposed to de-emphasize the Social Science and English Departments of the College by the establishment of restrictive quotas for entering students to these major fields, and

Whereas this action will, in our opinion, result in the following ill effects:

1. Devaluation of existing and future degrees in these majors, with consequent reduction in job opportunities.

2. Reduction of academic standards in these departments.

3. Potential loss of valuable faculty members and discouragement of excellence in future members.

4. Greater per-student operational costs due to reduction in the number of lower cost per capita classes.

5. Loss of prestige in the expanding liberal arts field and the consequent lack of well-roundedness in the remaining majors, and whereas the large growth shown by the two departments in recent years is illusory and is due more to the change in the education major than to a reflection of a general trend toward enrollment in these departments, now

Therefore, we the undersigned students of Cal Poly urge the administration to reverse this arbitrary and prejudicial decision.

James R. Silliman

John D. Mitchell

Robert J. Wilson

Alfred C. Granados

Michael H. Hees

# Newspaper Editor Names Staff Positions, Policy

With the start of Winter Quarter there have been changes in the editorial positions of El Mustang.

Bud Ross, a third-year Journalism major, is the new editor in chief. As head of the paper Ross is responsible to oversee the general organization of the paper, to set editorial policy, and to represent El Mustang on the Board of Publications.

Asked about the general policy of the paper, Ross said, "An item's placement and position in El Mustang will be determined according to its importance to college students and the number of students it affects."

He further noted that he views

the newspaper as a communication medium for students and a forum for student opinion. Editorials will relate to matters of concern to the student body.

**Questioned about advertising** Ross said he hoped "to keep the advertising count at a reasonable level."

This quarter's managing editor is Toni St. Onge. An Agricultural Journalism major who comes from Gardena, she has held the position of city editor and represented El Mustang at the Collegiate Press Association's fourth annual meeting in Chicago last quarter.

As managing editor, Toni gives

## Employment Interviews Scheduled Next Week

Employment interviews for graduating seniors during next week have been announced by the placement office.

All interviews are by appointment only. Interested persons must sign in advance for their appointments and obtain application blanks in the placement office, Adm. 213.

### MONDAY JAN. 18

Hewlett-Packard Co. will interview seniors in EE, EL and ME. Minnesota Mining And Manufacturing Co. will interview seniors in EE, EL, IE, and ME. Weyerhaeuser Co. will interview seniors in Business (Acctg.), EE, IE, ME and Physical Science (Chemistry).

### TUESDAY JAN. 19

Salinas City School District will interview teaching candidates. U.S. Navy will interview interested students.

### WEDNESDAY JAN. 20

U.S. Navy will interview interested students. Green Valley Landscaping, Inc. will interview seniors in OH and Soil Sciences. Westinghouse Electric Corp. will

interview seniors in EE, EL and ME.

### THURSDAY JAN. 21

U.S. Navy will interview interested students.

North American Aviation, Inc., Space and Information Systems Div. will interview seniors in Aero, EE, EL, Math, ME, Physical Science and WM.

North American Aviation, Inc., Rocketdyne will interview seniors in Aero, EL, ME, and WM.

Green Giant Co. will interview seniors in Business, Food Processing, EE, ME, and ABM.

### FRIDAY JAN. 22

North American Aviation, Inc., Space and Information Systems Div. will interview seniors in Aero, EE, EL, Math, ME, Physical Science and WM.

North American Aviation, Inc., Los Angeles Div. will interview seniors in all engineering majors, Physical Science and Math.

Green Giant Co. will interview seniors in Bus Adm., Food Processing, EE, ME and ABM.

## 13 Cal Poly Students Participate In Foreign Exchange Program

Thirteen Cal Poly students are currently participating in the second year of the California State College's International Program. Under this program students spend one year at an overseas university.

A total of 213 State College students are now attending classes at nine campuses in six foreign countries during the second year of the program, according to Dr. Glenn S. Dumke, chancellor of the California State Colleges.

The State College launched the program last year with 108 students attending universities in France, Germany, Spain, Sweden and Taiwan.

Some students spend the first two months of the year abroad in language study followed by regular class work while others study language and literature the entire year. Students are selected for the program by faculty committees on

the basis of academic achievement and foreign language proficiency.

Students receive credit for the overseas courses as part of their regular State College program curriculum. They pay a portion of the program cost, which requires no more state funds than if the students attended one of the State Colleges.

The ambassadors of two countries, Germany and Japan, have sent their congratulations, praising the State College for their "pioneering academic venture."

Ambassador Karl Heinrich Knappstein of Germany said, "We greatly appreciate the initiative of the California State Colleges to make it possible for American students to get first-hand impressions of life in Germany and to meet German students."

State College students are enrolled at both the University of

Heidelberg and the Free University of Berlin this year.

Ambassador Ryuzi Takeuchi of Japan lauded the State College for their effort in "establishing close and imaginative academic ties" with Waseda University in Tokyo.

"As the people of Japan and the United States begin to learn more of each other's civilization," he said, "it is particularly fitting that students on the Pacific Coast of the United States be given an opportunity to become better acquainted with Japan through students at Japanese universities."

Students who wish to apply for the California State College International Programs must have their application in to J. W. Lansdowne, Ag-Soc. Sci. Bldg. 237 by Jan. 25. There will be a second application date on April 1, but most of the selections will be made before then.

## 'Syllables'

Original short stories, poems, critical or humorous essays and prose are needed by "Poly Syllables," a magazine of, for and by students.

Published annually by the Writers' Forum, "Poly Syllables" welcomes contributions from any student. They may be turned in to Charlene Klemper, editor of "Poly Syllables", Trinity 128; Mikki Justman, Writers' Forum president, Santa Lucia 238; or Mrs. Elizabeth Anderson Eng. 302.

Discussion groups and speakers are also part of the Writers' Forum meetings, which are open to interested students. Time and place of the meetings will appear in the "Pony."

## Peace Corps Polyite In Africa-Uganda

Judy Koerner of North Arlington, N.J., a graduate of Cal Poly, left Jan. 1 with 38 other Peace Corps volunteers for Uganda, East Africa. She will join 18 other former Poly students who are on duty with the Peace Corps in 12 foreign nations.

The 24-year old graduate, who acquired her bachelor of science, master's degree, and secondary teaching credential in Social Sciences while at Cal Poly, received a National Honor Society Scholarship, then worked the rest of her way through college.

Mrs. Peggy Peterson, who was Judy's student instructor, described her as "a most sincere and conscientious young woman who is interested in world peace and doing something to help humanity."

Judy taught World History and English for two years at Yucaipa High School near Redlands.

Judy will teach English in one of Uganda's schools under the British educational method. Most of Uganda's schools are government supported, but many others that have been required to reach a higher quality of instruction before they will be considered. Peace Corps volunteers will teach in these schools and help them to improve their standards.

The group of volunteers trained

for 12 weeks at Columbia University Teachers College, New York City. They attended classes in Swahili which is understood throughout Uganda. They also studied the social and cultural background of Uganda, and United States History and World Affairs. Peace Corps assignments are for two years.

## 20,000 Jobs Available In Europe

The American Student Information Service announces that there are still more than 20,000 summer jobs available in Europe to U.S. college students. The jobs are being filled on a first come, first served basis and the ASIS is granting a \$300 travel grant to each of the first 5,000 applicants.

Some positions pay \$400 a month with no previous experience or foreign language ability required. Room and board are often included. The most requested jobs are resort work, office work, lifeguarding, sales work, shipboard work, child care and camp counseling work, farm work and restaurant work.

Interesting summer work not found in the U.S. is living as a guest of well-to-do European families in return for teaching their children English.

Job and travel grant applications and detailed job descriptions (locations, wages, working hours, photographs, etc.) are available in a 36-page booklet which interested students may obtain by sending \$2 (for the booklet and air mail postage) to Dept. IV ASIS, 22 Ave. de la Liberté, Luxembourg City, Grand Duchy of Luxembourg.

## Discover the difference in the '65 Chevrolets

(As different from other cars as they are from each other)

CHEVROLET—As roomy a car as Chevrolet's ever built.

When you take in everything, there's more room inside this car than in any Chevrolet as far back as they go. It's wider this year and the attractively curved windows help to give you more shoulder room. The engine's been moved forward to give you more foot room. So, besides the way a '65 Chevrolet looks and rides, we now have one more reason to ask you: What do you get by paying more for a car—except bigger monthly payments?

CORVAIR—The only rear engine American car made.

You should read what the automotive magazines say about the '65 Corvair. They're wild about its ride. They think there's nothing else this side of the Atlantic that can touch its styling. They say if you haven't driven a new Corvair Corsa with a 180-hp Six Turbo-Chargaargel! you just don't know what you're missing.

Drive something really new—discover the difference at your Chevrolet dealer's

**PRINTING WEEK ROYALTY...** Queen Janet Clyne, a sophomore in home economics from Elgin, Ariz., and Princess Sally Cook, a freshman in animal husbandry from Malibu, Calif., are inspecting a Linotype machine. Cal Poly's printing club, Mat Pica Pi, is sponsoring Printing Week as part of the festivities for the International Printing Education Week running from Jan. 17-18.

## Banquet Scheduled For Printing Week

International Printing Education Week runs from Jan. 17-25 and as a part of the occasion the Cal Poly printing club, Mat Pica Pi, is sponsoring Printing Week on campus.

Among the activities planned for the week, a remembrance of Benjamin Franklin's birthday, the printers will hold their annual banquet. This year's dinner will be held at the Golden Tee Restaurant in Morro Bay and will feature a guest speaker from the Pacific Coast Craftsmen's Club.

At the banquet, the Printing Week Queen, Janet Clyne, sophomore from Elgin, Ariz., and Princess Sally Cook from Malibu, will be honored.

According to Gene Leong, third-year printer in charge of the activities, the club also plans to "have the girls appear on the radio, television and in the local newspaper."

Further plans include displays in the Library and in stores in downtown San Luis Obispo.

## IBM Schedules Out For Senior Pictures

Pictures for all seniors are scheduled to be taken from 8 a.m. to 9 p.m. beginning Monday Jan. 18 and continuing through Thursday, Jan. 21, according to Loren Nicholson, El Rodeo advisor.

All pictures will be taken at the old powerhouse located on the corner of South Perimeter Road and Cuesta Drive, and will be by appointment only. Special IBM cards have been prepared and will be mailed to all seniors advising them of their appointment dates and times.

Seniors who do not receive their appointments notices through the mail should contact the El Rodeo staff at the old powerhouse during the hours listed to make arrangements for their pictures.

Photographs for El Rodeo and the Placement Office are taken free of charge, and the student may select one of three poses he or she wants to appear in the year-

book and the Placement Office files. Additional pictures or portraits may be ordered in accordance with the schedules furnished by the photographers.

There is no obligation on the part of the student to order additional pictures if they are not desired.

Male students are required to wear a white shirt, tie, and dark coat for these pictures, while coeds are required to wear light colored sweaters with a classic neckline.

"All pictures will be processed on campus," Nicholson said, "and selection of proofs can also be made at the old powerhouse."

Seniors are urged to keep their appointments, according to Nicholson, as the photographers will be taking three pictures every five minutes in order to photograph everyone. A missed appointment may mean no photograph in the 1965 El Rodeo.

## Six RILW Speakers

Continued from page 1

of counseling and guidance in the School of Education at the University of Michigan. Dr. Essrig lectures on college campuses under the auspices of the Jewish Chautauqua Society.

John G. Huber of the University Lutheran Church in La Jolla serves as campus pastor at the University of California, San Diego. He holds a BA degree in psychology from the University of California at Berkeley and a BD degree from the Concordia Seminary in St. Louis. Huber pioneered a ministry to students at Cal Poly in Pomona.

Dr. Harold Jackson is the director, Department of Campus Christian Life, Southern California Baptist Convention (American Baptist). He received his doctorate in education at Stanford and served in campus Christian education there.

Father Moore, ordained in April, 1964, was assigned the Old Mission in San Luis Obispo as his first assignment. Father Moore practiced law and held the office of district attorney in Santa Cruz County. He attended Lyon Semin-

ary and St. Johns at Camarillo and is interested in the present ecumenical movement at the Vatican.

Wallace Moir, director of the First Church of Christ Scientist, Beverly Hills, received his AB from Stanford University in 1922. Moir is chairman of the board of the Wallace Moir Co., a mortgage banking firm incorporated in California in 1927.

RILW is traditionally sponsored by Cal Poly's Inter-faith Council which is composed of 12 different student organizations, including various denominations and all faiths.

RILW is planned to help emphasize the relationship between the problems of life and its faith, and to provide an opportunity for members of the college student body and faculty to find spiritual guidance.

Books and other religious materials will be available at the Snack Bar and at El Corral during RILW. Some are for sale and some are free.

## Campus Capers

### CU FILMS

"Question 7," winner of 22 international film awards, will be shown at the Little Theatre on campus Saturday evening with showings at 7 and 9:30 o'clock. The movie was filmed in Western Germany near the East-West border. The costars are Michael Gwynn, Almut Eggert, Erik Schumann and Christian DeBresson.

The Friday night film is "Our Man in Havana." The showings for this film also are 7 p.m. and 9:30 p.m. in the Little Theatre.

### SKI CLUB

One hundred fifteen Cal Poly Ski Club members will journey to

Yosemite this weekend for a week-end of skiing. The annual race with Chamber Club, a Salinas ski club, is scheduled.

The next ski trip is planned for the first weekend in February.

### MAT PICA PI

The Cal Poly Printing Engineering and Management Department club Mat Pica Pi, sponsored the annual field trip to the Los Angeles area last weekend. The printing students visited the Times-Mirror Press, Jeffries Banknote, Pacific Press and the American Can Co.

The 25 participating students attended a barbecue at the home of Merle Duckett, a printing student from Van Nuys.

## Computer Picks Ape For Aztec

A computer was used to pick dates for students at San Diego College. The students filled out personality questionnaires and the computers paired them off. Jim Poole, president of the Sophomore Class ended with a three-year-old ape named Stephanie.

A zoology professor had filled out a questionnaire for the ape. Poole gave Stephanie a corage. She ate it.

## Depauw University Students Flip

A dozen Depauw University mathematics students in Greencastle, Indiana, have flipped a quarter 6,000 times—keeping a record on punched cards and feeding them into a computer. "Tails" won 3,013 times to 2,987 for "heads." Before you jump to any conclusions, Professor Charles Johnson said it was just an exercise in probabilities.

## Poly Royal Button Award Offered

Do you have a good idea for the Poly Royal campaign button which will be used for the promotion of the 33rd annual Poly Royal? If you do, break out the drawing board and sharpen your pencils, because the contest for the best design is on.

A \$15 award, sponsored by the Agriculture Education Club, will be given to the best design which should depict the theme "County Fair On A College Campus." Each design should also include the four main college divisions: Agriculture, Engineering, Applied Arts and Applied Sciences.

The colors on the design must be green and gold with lettering done in black and white. Denote the fact that it is the 33rd annual Poly Royal and will be held April 30 through May 1.

Enclose information in a circle 5 inches in diameter and submit before Feb. 19 to Ag 245 or 246, and leave the rest to the Poly Royal Board.

When men go to the moon they will find that earthshine there is far greater than the glow of moonlight on their home planet.

## 2 New Scholarships Given By Elks, Army

Two new scholarships are open to students, according to an announcement from the Dean of Student's Office.

The Elks National Foundation Scholarship Awards are again open to deserving students this year. Applications for this scholarship are in the Dean of Student's Office.

This year the Elks will select two male and two female applicants in San Luis Obispo county for further judging. Furthermore, the local Elks Lodge No. 322 is awarding two \$50 bonds to the top boy and girl in this county.

Last year there were two \$600 National Scholarship winners in this area. For further information contact local committee chairman,

Kenneth B. Hall, 247 Luneta Dr., San Luis Obispo.

Another scholarship and loan program is offered by the United States Army for all dependents of Army personnel on active duty. Any student who is a dependent of military personnel and who has been notified by the National Merit Scholarship Corporation (NMSC) to be a finalist, is eligible to submit an application.

Loans range from a minimum of \$250 to a maximum of \$1,500 per year according to need. Repayment begins one year after leaving college and is made over an eight-year period. The loans have no interest rate and 40 loans are available.

### LARGE FARMS

The average size of a California farm, 400 acres, is 75 acres larger than the national average.

### NOTHING

Raw natural gas is odorless, colorless, shapeless and virtually weightless.

## Hitchcock Whips Out Victories

## News in Brief

(Washington)—A spokesman for the Senate Rules Committee says former White House aide Walter Jenkins will be called to testify when the Bobby Baker hearings are resumed after the Jan. 20 inauguration.

(Washington)—President Johnson has asked Congress for three and one-third billion dollars in foreign aid; it's the lowest request ever, but some lawmakers think it's too high.

(New York)—Japanese Prime Minister Sato has said in New York negotiations to achieve a settlement in Viet Nam, ultimately must take place.

(Washington)—The Defense Department now explains that the two U.S. fliers shot down over Laos yesterday were picked up by helicopters.

(Chicago)—A cold wave is spreading from the Great Lakes into the northeastern section of the nation.

The State Senate has agreed at a closed session to ask Congress for speedy action on a reapportionment amendment. The request will be sent to Washington despite the fact that the California assembly has not acted on the Senate resolutions.

Twenty-three senators have joined as co-authors of legislation to split California into two states. All are Northern California lawmakers except Senator Alvin Weingand, Santa Barbara Democrat.

The assembly has cleared a bill to revise the school district unification law. The measure would change provisions dealing with the election of school board members.

Los Angeles County claims its population has touched six million 854 thousand... and is still rising. The latest figure is 13 and one-half per cent higher than the 1960 census.

(San Francisco)—Wilt Chamberlain says he may retire at the end of the National Basketball season, despite the trade which sent him from San Francisco to Philadelphia. The Seven-foot, one-inch center says he tried to talk Philadelphia officials out of the deal because he isn't certain how long he'll play.

The Warriors were reported to have received \$75,000 from the 76ers, plus players Paul Neumann, Connie Dierking and Lee Shaffer.

Chamberlain refused to give any reasons for his threatened retirement.

## East-West Rodeo In Late June

The East-West rodeo match is one of the newest all-star teams in the sports world, according to William Gifford, instructor of Animal Husbandry. The first match was discussed and dates set at the National Intercollegiate Rodeo Association (NIRA) meeting in Dallas in late December.

The NIRA match will feature the top three individuals in each event from each region. These contestants will compete on either the East or West team. Dates for the contest will be June 26-27 in Pueblo, Colo.

C. W. Adams, who went as proxy for regional faculty advisor Gifford, reports several important changes in the organization.

An addition to the staff of NIRA

includes one extra girl to help with the enlarged association business.

Cowgirls have some new rules also. Now one horse may only be ridden by one girl during a performance, and girls will now tie only goats—no more of those 400 pound calves to wrestle.

An insurance policy designed especially for NIRA members was also discussed.

Dates for the National Rodeo Finals were set at July 6-10 in Laramie, Wyo.

Results from recent Arizona State University (ASU) rodeo in Tempe: Cal Poly first with 478 points, University of Arizona, 436 points; and ASU, 250 points. The Cal Poly girls' team finished second.

Photos by Don De Pue

## Graduation Record Test Tomorrow

The Graduate Record Examination (GRE) will be administered in Admini 211 beginning at 8:30 a.m. tomorrow.

Applicants for admission to certain graduate and professional schools are required to take the GRE, reports Clara B. Groggatt, Psychometrist employed in the Counseling Center.

Although the registration for tomorrow's test is past, the test will be administered again on campus April 24 and July 10. It has also been scheduled for March 6 in Fresno, Los Angeles, and San Francisco. All registration forms and fees must reach the Educational Testing Service offices not later than 15 days before the date of the test.

Further information can be obtained from the campus Counseling Center.

### GLASS CLASS

Glassmaking first really flourished in Egypt during the Eighteenth Dynasty or between 1580 and 1350 B.C.

## Parking Stickers Still Available

Parking stickers for Winter Quarter are on sale at the Cashier's window in the Administration Building. Stickers are required on all vehicles parked on campus except those with visitor's cards.

In addition to requiring the fixation of new stickers, campus parking regulations also require the removal of old permit decals. Parking stickers cost \$9 for cars and \$2.25 for cycles.

Tying for the longest punt ever returned in a Mustang game are Vern Bebranes and Jerry Duncan. Both ran 66-yards with Bebranes' return coming against Santa Barbara State in 1948, and Duncan's return coming against the University of California at Santa Barbara in 1964.

### A & C

A medium-sized sweet potato provides about twice the daily Vitamin A and requirement and about one-third of the day's Vitamin C needs.

## Double Blue Chip Stamps

—yes, double the regular number of Blue Chip Stamps with any purchase by students, faculty or staff with a Cal Poly parking sticker on their automobile—

## To Kick Sleeping Dogs Can Prove Some Value

By ALAN HASKVITZ  
Most people's philosophy is to let sleeping dogs lie, but after last season's 0-10 record I decided to start digging.

With the help of a crystal ball and some old records I have predicted when Cal Poly's football team will go undefeated.

I believe it was Schwinm who said that all things go in cycles, football teams are no exception.

First, I found that the last year Cal Poly went undefeated was in 1953. In that year the team possessed three athletes who were later to become professionals. Leading these three were Stan Sher-

football squad? 1975 should be the fateful year. If Schwinm's theory was correct, the 1975 headlines should read "Cal Poly Undefeated," but will they?

It is rather doubtful, mainly because our athletic subsidy program has been sadly neglected. This program is needed if Cal Poly is to pull itself from the bottom of the league.

After Fresno failed to win the football championship (a definite oversight by their alumni), one of the Fresno businessmen called for the merchants in Fresno to contribute \$50,000 to help its athletes. The businessman backed up his arguments by saying that "if the program wasn't started, Fresno State may have an athletic program on the same level as San Fernando State and Cal Poly."

Yes, it will probably be more than 11 years until our next undefeated football squad. (That is if Cal Poly still has football.)

You can now see why people shouldn't let sleeping dogs lie. Those sleeping dogs may very well be ruining any future Cal Poly has in inter-collegiate athletics.

Over the past few years Cal Poly has been blessed by one of the finest wrestling coaches in the United States, let alone California. His name is Vaughn D. Hitchcock, and his team has won five straight matches over competition in California and Arizona.

This weekend Hitchcock is putting all his efforts into the Junior College Wrestling Tournament. This event is the largest of its kind in the United States.

Last year there were 225 entries from over 25 schools. This year it will be even bigger with 34 schools participating.

If you want to see some mighty fine wrestling it would be a darn good idea to drop in and see the one-day tourney. It will be held Sat. Jan. 16 in the Men's Gym.

The fantastic Harlem Globetrotters are coming to Cal Poly. They will be here Jan. 26 and with them will come some of the finest comedians and basketball players ever assembled. Admission for the affair is \$1.75.

Ken Heitz a senior forward from Righetti High School in Santa Maria, is averaging 25 points per game. Heitz is also hauling down 15 rebounds a game and has helped the Santa Maria team to a Top Ten ranking in the Los Angeles Times C.I.F. Southern Section.

I hope Fresno State doesn't spot him.

Intramural basketball is in full swing. Games are played every night but Friday. If your heart craves blood, intramurals are the only answer. Come early and watch the fouls fly.

The date the Cal Poly wrestling team is pointing for is Feb. 8. On this date the Oregon State Beavers travel to Mustangland to meet Cal Poly. According to Jim Teem "Oregon State is the only team we haven't beat. We really want to beat them."

## Wrestlers Risk Perfect Record Against Tough San Diego State

A record of 15 straight victories will be on the line tonight when the Mustang wrestling team hosts potent San Diego State in the Men's Gym. The first match will start at 8:00 and a 25 cent admission fee for students will be charged.

Last season San Diego State tied with Cal Poly for the CCAA championship. The two teams fought to a 14-14 tie in their only meeting. The Aztecs had a record of four wins and one tie in league and were 9-1-2 overall.

Little is known about this year's team, although they have met nationally ranked Oklahoma University.

Head coach Vaughn Hitchcock will put his unbeaten string in the hands of such outstanding wrestlers as John Arnold (130), Mike Ruiz (137), John Miller (157), Sam Cereceres (167), Phil Sullivan, Calvin

Horbat, Jim Teem (147), Mike Remer (115), and team captain Harvey Wool.

This crew has put together five straight victories over squads in California and Arizona. The Mustangs have defeated the University of California 17-9, and the Santa Barbara Gauchos 30-0. They have also notched victories over Cal State at Los Angeles 40-0, Arizona State College 23-3 and Arizona State University at Tempe 18-15.

While on the three-day Arizona trip the Mustangs turned in some outstanding wrestling.

During the match against Arizona State College, Phil Sullivan (177) wrestled heavyweight and pinned his 225 pound foe. The pin was the only one of the night for the Mustangs. The only loss to the Lumberjacks was when team captain Harvey Wool lost. "Wool," according to head coach Hitchcock "was bothered by things like the seven degree weather and the 7,000 foot altitude."

The loss has been the only one the rugged athlete has suffered this year. His record is 4-1.

The San Diego team has several outstanding wrestlers and are coached by ex-Oklahoma star Harry Broadbent.

Broadbent has been coaching the Aztecs for 17 years. At Oklahoma, Broadbent won the NCAA championship at 177 pounds.

Hitchcock graduated from Washington State University where he competed in both wrestling and football.

He coached at Castro Valley High School and Hayward High School before coming to Cal Poly. He has captured the respect of the squad and as Jim Teem puts it "He (Hitchcock) gets the fullest potential out of every boy."

The probable line-up for tonight's match will find Wayne Zook (123) Jim Anderson (130), Bill Clauder (147), Dale Kernes (157), Frank Brown (167), Pat Curran and Charles Isham (191) wrestling for the Aztecs.

One of the most efficient wrestlers for Cal Poly's squad is senior Jim Teem. He has collected four wins in both the Arizona State and U.C.A. contests. He was selected wrestler of the tournament in the Arizona State tourney and is undefeated this year. Teem has pinned four opponents and defeated the other (14-0) in five dual meets. The 147 pound bundle of energy attributes his success to "leg wrestling."

After going undefeated for four years in Sonora High School (dual meets), Teem decided to come to Cal Poly and wrestle for Hitchcock.

The decision was a lucky one for the Mustangs as Teem has proved himself in victory after victory.

Following the San Diego State match the Mustangs will prepare for the Chico State encounter on January 27.

## Wrestling Tournament Tomorrow

The eighth annual Junior College Wrestling Tournament will be held Saturday in the Men's Gym, according to head wrestling coach Vaughn Hitchcock.

The preliminary events will start at 11 a.m. and run until 5 p.m. The finals will start at 8 p.m.

Thirty-three teams will make this the largest Junior College tourney in the nation. El Camino Junior College, State Champions and winner of last year's Cal Poly Tournament, will again be favored to win. Representing Cal Poly will be its Junior Varsity team. Cal Poly entries in the tournament will be:

- 115 lbs. Quinnie Morgan
- 123 lbs. David Young
- 130 lbs. Undetermined between Jesse Flores, Darrel Pifer, Rich Sturges and Rich Souza.
- 137 lbs. Tom Miles
- 147 lbs. Jon Manke or Mike Cerny
- 157 lbs. Shane Wallace
- 167 lbs. John Woods
- 177 lbs. Dennis Erwin or Jeff Orear

## Tennis Team Holds Meeting

A meeting for all students interested in participating in varsity tennis will be held in the lobby of the Men's Gymnasium on Monday January 18 at 4 p.m.

According to Coach Jorgensen "The meeting will be held to discuss the schedule and workouts for the coming season."

This year's team has several returning lettermen and a better showing than last season's fifth place finish is expected by Coach Jorgensen.

Freshmen as well as upperclassmen are eligible for varsity tennis, so all interested students are urged to attend.

## Here Comes Meadowlark

The magicians of basketball, the Harlem Globetrotters, will be performing their feat of magic in the Cal Poly Men's Gymnasium on January 26 against the Washington Generals. Facing the Globetrotters will be the great Meadowlark Lemon.

Basketball with the Globetrotters has taken Meadowlark all over the world. He's seen everything and done everything. He and the Trotters serve as good will ambassadors for Uncle Sam everywhere they go.

Several years ago the Globetrotters played in a European city tabbed a hot-bed of Communism. When the team arrived the air was full of hostility. Anti-American signs were all over the crowd. One snarled: "Colored Slaves—Go Home."

The atmosphere was far from friendly. The Globetrotters were to be interviewed over a loudspeaker system, and the questions were loaded.

Meadowlark was the first to be interviewed by the local news whose job it was to make the Trotters look like victims of capitalist exploiters. His first question:

"Are you a slave?"

"No," answered Lemon, displaying a pair of unshakable wrists.

"How much money do you make?"

"I make \$40,000 a year," Meadowlark sang out as a gasp went through the crowd. The beaten announcer slunk away.

For Meadowlark, a six-foot, two-inch bundle of basketball playing and entertaining dynamite, this is his tenth season with the Globetrotters.

## Hoopers Travel South; Face Aztecs, 49er's

The Mustang basketball team will head south tonight and tomorrow, Cal Poly, fresh off their 97 to 90 upset victory over Cal State at Los Angeles, will meet San Diego State Friday night then move to Long Beach State Saturday night.

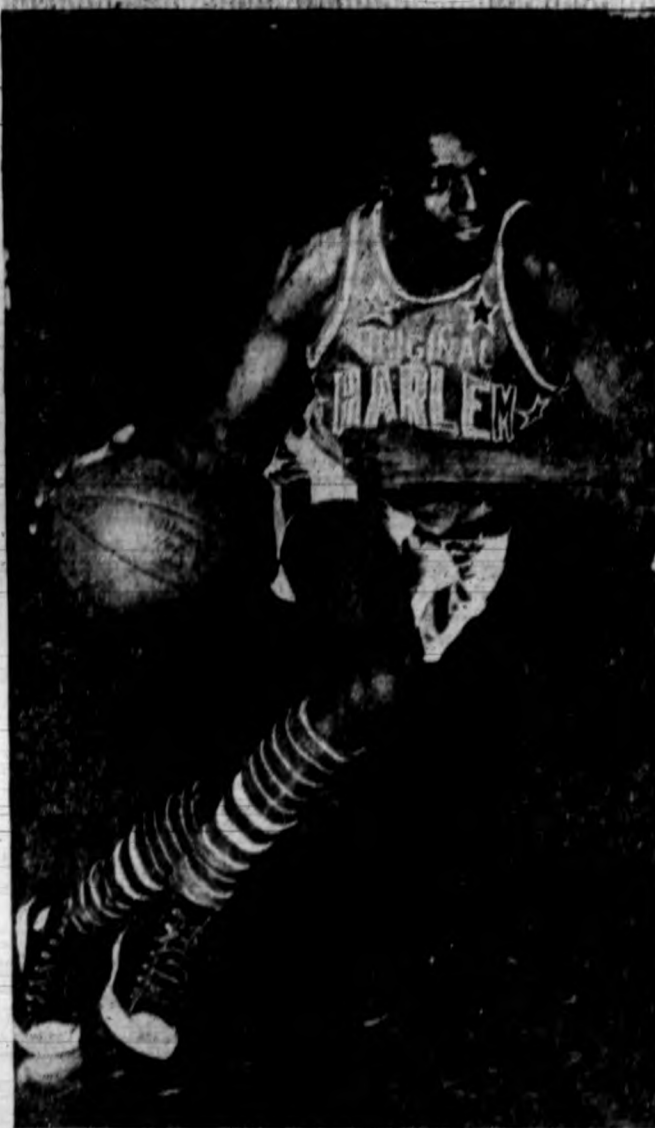

Norm Angell, Don Stevenson and Cameron Pedego, all sporting 16.5 averages, are expected to lead the Mustangs. Captain Curtis Parry (15.0) and Lyle Hall (14.0) should also be able to lend help over the weekend.

San Diego, 1 and 0 in league

play, is led by senior forward Larry Meek with a 24-point average. Meek is not only a high scorer but also rough under the boards.

Poly's Saturday opponent, Long Beach State, lost their league opener, but is sporting a 9 and 5 overall record. Forward John Rambo, the 49ers' leading scorer and rebounder, is expected to give the Mustangs trouble Saturday night.

Although Poly's current record is 3 and 5, a double win this weekend could place the Mustangs high up in the C.C.A.A. league standings.

MEADOWLARK LEMON . . . \$10,000 a year

## Globetrotters To Entertain

The Harlem Globetrotters, world renowned wonders of basketball will be performing on January 26 at 8 p.m. in the Cal Poly Men's Gymnasium.

The Trotters will include the 40-member Czechoslovakia State Folk Dance Troupe, ageless Satchel Paige of professional baseball fame, and Eva Bonakova, the world's champion women's gymnast of 1958, 1960, and 1962.

Everyone is urged to attend this evening of entertainment which will be of interest to all.

Store, Green Brother's Men's Store, Village Squire Men's Store, and Wickendens Men's Store.

Added entertainment both before and at halftime will include the 40-member Czechoslovakia State Folk Dance Troupe, ageless Satchel Paige of professional baseball fame, and Eva Bonakova, the world's champion women's gymnast of 1958, 1960, and 1962.

Everyone is urged to attend this evening of entertainment which will be of interest to all.

## El Mustang SPORTS

TOURNAMENT PARTICIPANTS . . . The junior varsity will compete in the junior college tournament to be held Saturday. The team includes (lower row, left to right) Quinnie Morgan, John Bohlig, Darrel Pifer, Richard Souza, David Lewis and David Young. (Upper row, left to right) Don Sturges, Shayne Wallace, Mike Cerny, John Woods, and Tom Mills. Last year the squad finished in the top ten.

## Mustang Aquamen Begin Workouts

In preparation for the 1965 season, the Cal Poly swim team has now begun its practice sessions. Coach Dick Anderson's boys hope to make an improvement over last year's record, which saw the Mustangs finish fifth in the conference.

Returning lettermen for Cal Poly are Dave Woolworth (freestyle), Roger Moblad (freestyle), Phil Heintze (butterfly), Lyle Rice (freestyle), David Waite (freestyle), and Sal Melendez (diving).

Other members of the team this year will be Pat Jordan, Lloyd Fero, Robert Wilson, Steve Engle, Jim Black, Hank Biddler, Larry Tooma, Roy Bills, Bonnie Bendel, Ed Heinrich, Ty Placius, Dan Drew, Tom Bishop, Bob Waite, William Brown, Donald Gray, Phil Ashley, and Gerald Laurie.

Anyone interested in going out for the team will be welcome. Workouts are scheduled for 4 and 6 p.m., Monday through Friday at the pool located by Crandall Gym.

## Intramurals Draw Eighty-One Teams

Eighty-nine teams signed up for the intramural basketball league that started on Thursday night. Due to the large number of teams entered, it was decided not to have an AAA league as in the past.

On Monday night there are two leagues, one at 7 p.m. and the other at 8 p.m. Tuesday and Wednesday there are three leagues including a 9 p.m. league. On Thursday there are two leagues. There are over 800 students participating in the program which gets into full swing next week.

At the intramural managers meeting on Tuesday night an intramural board was elected. Headed by Austin Angell as president, the council consists of five members: Dennis Pazzio, Palomar Hall; Richard Hines, Sequoia Hall; Richard Spiller, Ag Ed; Jim Rich, White House.

## HUGHEY TOP PLAYERS

Lonnie Hughey won CCAA "Player of the Week" honors. Hughey won the award for his key 14 points in the Cal State at Los Angeles game. The 6-foot, 7-inch center also hauled down 21 rebounds.

Cal Poly was first opened as a state vocational high school.
