## ASI Elections Reset To April 27-28, Athletic Program Guide Passed

The dates for the Spring Student Body General Election have been changed.

At the request of Robert Mattes, chairman of the SAC Elections Committee, SAC approved the dates of April 6-16 for submitting nominations for student body officers, and April 27-28 for the election.

The reason for the change is that Mattes will not be here when the elections were originally scheduled.

The action taken two weeks ago by the Student Affairs Council regarding the Social-English Departments "enrollment quota" controversy was reconsidered at last week's council meeting.

Following the lead of Robert Mattes and Jack Montgomery the council voted 18-3-1 to reconsider the issue.

Mattes presented an amendment to the "Applied Council Resolution" which created an "investigating committee" and called upon the "administration to make available to the sub-committee the facts and figures which went into making this decision." Also, "that the Student Affairs Council request that they be allowed to submit a proposal to the administration which can be taken into account during the final decisions on this matter."

According to Mattes, the purpose of the amendment was to give some "bite" to the SAC action. He expressed the feeling that the earlier council resolution expressed only feelings and nothing concrete.

Jerry Diefenderfer and Richard

Cotta, both of Agriculture Council, supported Mattes' contention and said that a SAC group would be the best way to get to the bottom of the problem.

Mike Lennie, who two weeks ago had been a main speaker in support of the council resolution, stated there was "room for improvement." He urged that the council not obliterate the progress that had been made but to add to it.

Malcolm Kemp, ASI President, said he had spoken with President Julian A. McPhee, faculty members in the Social Science and English Departments, and administrative personnel about the proposed resolution amendment. All expressed a willingness to meet to present their views on the issue.

By a voice vote the council approved the Mattes amendments. Robert J. Wilson, Bill Studley, Mike Lennie, and Jerry Diefenderfer form a four-man committee to gather information specified in the resolution. Wilson is the chairman.

The sub-committee was instructed to report back to SAC Feb. 23, the Tuesday before the Feb. 25 date for implementation of the quota plan.

Other business at the lengthy council meeting included the acceptance of a year-end report by Gary Walker representing the football team. Although not mentioning the poor showing the team made this year, Walker said that this year's was the best team I've worked with.

Walker praised the efforts of fellow teammates Fred Richieu

and Fred Strasburg. Referring to the number of athletic awards, especially in the first year class, Walker remarked that there was an "outrageous number."

Walker's outlook for the 1965-66 season is that it "isn't that bad," but that a lot will depend on the outcome of the CCAA meetings going on.

Bruce Robinson, Athletic Control Board representative, presented and got SAC approval of the "Athletic Program Proposal" which will guide the numerous athletic activities undertaken in coming years at the college.

## Ag. Columnist To Speak On Common Market

Henry Schacht, director of Information, Division of Agricultural Sciences of the University of California, will speak to the Agricultural Council on the topic, "Agriculture and the European Common Market" this Thursday at

8 p.m. in the Little Theater. Schacht was director of press and radio for the University of California College of Agriculture from 1939 till 1942. During this

period, he did such programs as the "National Farm and Home Hour" and "Western Agriculture."

One of the most famous programs was "The Farmers Digest," a Monday-through-Friday broadcast sponsored by the Standard Oil Company of California. He wrote and produced this program.

His articles on scientific and agricultural subjects have been published in such magazines as Farm Journal, Farm Profit, Harper's, Newsweek and Holiday.

Schacht has been writing for the San Francisco Chronicle since September 1959. His twice-weekly Farm Reporter column is the only one of its kind in California and possibly on the Pacific Coast.

In 1963 Schacht was invited by the Food and Agriculture Organization of the United Nations to act as a member of the international faculty of the world's first International Seminar on Farm Broadcasting in Cairo, U. A. R.

Again in 1963 Schacht accompanied California Farm Bureau Study Mission to the European Common Market. Here he wrote the report of the study, and it was distributed widely to interested persons.

In 1964 Schacht received a national award for the nation's best agricultural writing in newspapers.

In 1963 Schacht was invited by the Food and Agriculture Organization of the United Nations to act as a member of the international faculty of the world's first International Seminar on Farm Broadcasting in Cairo, U. A. R.

## Library Now Open Through Dinner

As of Feb. 1, the library began staying open through dinner time, 5 to 7 p.m., Monday through Thursday, announced Dr. Emerson Jacob, head librarian.

"I hope those interested will take advantage of these hours," he said, and added, "We've never had a capacity problem as there is room for 250 people in the reserve room, but it was a nuisance to close the rooms and change exits for only two hours."

The library will close at 5 o'clock Friday nights. On Saturdays the building will open at 8 a.m. and close at 5 p.m.

The library will open at 8 o'clock and close at 10 o'clock Sunday nights.

## Judges To Select Finalists

Fifteen coeds have been selected to compete for the honor of Poly Royal Queen. From these 15, five finalists will be chosen at a beauty pageant to be held in the Little Theater tomorrow at 8 p.m.

This year a new technique was used for choosing the queen. The 15 semi-finalists were chosen by campus clubs from a list circulated last week by the Poly Royal Board.

The judging panel will consist of seven persons—three campus representatives and four businessmen from town. The girls will be judged on three points: personality, poise and beauty.

The five finalists will be presented to the student body in a general election to be held Feb. 22-23. The remaining four will become the princesses.

Admission to tomorrow evening's pageant will be free.

The girls chosen by the clubs

to represent them in the contest are Paula Connolly, 21, an Elementary Education major from Pasadena, sponsored by Poly Phase; Susan Bast, 21, Elementary Education major from Redwood City, sponsored by Technical Arts Club; Nancy A. Dole, 21, Biological Science major from Glendale, sponsored by Architectural Engineers; Julie Ann Aborn, 21, English major from Whittier, sponsored by Farm Bureau; Kathie McBride, 21, Physical Education major from Redondo Beach, sponsored by Cal Poly Rifle and Pistol Club; Jacquelyn Minatta, 21, Home Economics major from Tracy, sponsored by Mat Pica Pi; Diane Oberholser, 21, Biological Science major from San Luis Obispo, sponsored by the Farm Management Club.

Also, Cynny Lynch, 21 Home Economics major from Fresno, sponsored by the Poultry Club;

Sharon Kuhl, 21, an Industrial Engineering major from San Bernardino, sponsored by the Industrial Engineering Club; Patricia Palmer, 21, an Elementary Education major from Soquel, sponsored by American Institute of Aeronautics, Astronautics; Deanna Jensen, 22, a Physical Education major from Bakersfield, sponsored by Rally Club; Maurie Lund, 21, a Journalism major from Anchorage, Alaska, sponsored by Crops Club; Linda Baugh, 20, Elementary Education major from Glendale, sponsored by Mechanical Engineering Club; and Patricia Bright, 21, a Social Science major from Honolulu, Hawaii, sponsored by the Agriculture Business Club.

The requirements for becoming a candidate for Poly Royal Queen were changed this year in order to include a larger number of girls.

The girls must be in the upper 50 per cent of the Senior Class scholastically or in the upper 25 per cent of the class in activities.

According to Susan Lowe, pageant chairman, the procedure used in choosing the Queen is the same used in choosing Homecoming Queens.

## College Hour Song Fest On Thursday

Music from 98 voices and 15 instruments has been slated for the College Hour this Thursday at 11 a.m. in the Little Theater. Directing the program will be Harold P. Davidson of the Music Department.

More than a dozen songs have been tentatively selected for performance by the Collegians, Women's Glee, Majors and Minors and a quartet.

Among those selected by Women's Glee Club are "Lord Most Holy," "While Mother Sings" (a Gaelic folk song), "He's Got The Whole World In His Hands," from the Marion Kerby collection of Negro spirituals, "Roundelay" from Purcell's "The Mock Marriage," "Waters Ripple and Flow," "Sing Out!" "All Hail," and "Send Out a Cheer!"

"Sophisticated Swing" is the theme for the Collegians, who will also include "Sunday Morning," "Cherry Point," "The Pink Panther," and "Mack The Knife."

Majors and Minors, a popular Men's singing group complete with costumes, will perform some old "barber shop" favorites.

Admission is free, and all are invited by the Music Department to hear and see this "choral spectacular."

## Pomona SAC Passes Resolution

Students at the Cal Poly Pomona campus have voiced concern against the Administration's enrollment quota plan for the Social Science and English Departments.

Mike Talley, editor of the "Poly Post," Pomona Poly newspaper, revealed that an Ad Hoc Committee of Concerned Students circulated a petition, similar to the one passed on this campus, which called for the administration to reconsider its quota plan. About 1,202 students are reported to have signed the petition.

Since the quotas were announced there have been several meetings of the student committee to plan the form the protest action will take. "El Mustang" learned that a meeting was held Sunday at the Voorhis section of the Pomona campus to define the protest's stand and its legal position.

At the Feb. 1 Pomona Student Affairs Council meeting a resolution was presented by the student committee. After a three hour discussion, at which Dean of the College, C. O. McCorkle, presented the Administration's position and Dr. Don Flugger, acting head of the Social Science Department, listed 12 points of objection, the SAC voted 10-4 in favor of the resolution.

According to Talley, the SAC resolution passed was similar to the first resolution passed by this campus' SAC. The SAC meeting in Pomona was attended by 150 students.

Talley also said that President Julian McPhee has asked the Kellogg-Voorhis Academic Council and the Faculty-Staff Council for suggestions on implementing the enrollment plan.

## Idea of Peace Corps Life Goes Over Big on Campus

Peace Corps placement tests are being given today at 1:30 p.m., 4:30 p.m. and 7:30 p.m. in EW 103.

A team of five Peace Corps members visited the campus from Feb. 1-5 and set up a booth in the El Corral Snack Bar. During the first day alone, 20 applicants for testing were received.

The placement tests are not the kind that can be passed or failed,

they are used for aptitude and placement only. Applicants will be informed of their status and eligibility within two months of taking the tests.

Hunter Breland, one of the members of the Peace Corps team, has served for 20 months in the Dominican Republic. Breland said of training for service in one of 46 countries of Africa, Asia and Latin America.

Chairman Jack Montgomery, who voted yes on the Student Affairs Council resolution concerning quota limitations in departments, represented himself and not the College Union Board. He stated that he did vote on his own behalf, not the board's.

Advisor Arnold Dean wished to have it noted in the minutes saying in effect that he felt it was not proper for Montgomery to vote on behalf of the board as Montgomery had no consensus from the board. Montgomery acted as an interested Social Science major, not as a representative of the board.

that accepted applicants." . . . undergo an intensive three month training period where they study the language, history and social aspects of their host countries." There is also some physical training, he said.

Nearly 10,000 volunteers are either overseas or in the process

## Resolution Voting Explained To Board

The College Union Board underwent some changes last week. Nominations were opened for Corresponding Secretary, with Chris Kelley being the only name entered last week. Nominations are still open.

Another change in the board was the admittance of Rush Hill, who is taking over as chairman of the Outings Committee for Larry Liggett who resigned for personal reasons.

Chairman Jack Montgomery, who voted yes on the Student Affairs Council resolution concerning quota limitations in departments, represented himself and not the College Union Board. He stated that he did vote on his own behalf, not the board's.

Advisor Arnold Dean wished to have it noted in the minutes saying in effect that he felt it was not proper for Montgomery to vote on behalf of the board as Montgomery had no consensus from the board. Montgomery acted as an interested Social Science major, not as a representative of the board.

## BOP Chair Empty; SAC Begins Search

A study of the problems of the Board of Publications has been undertaken by the Newspaper Relations Committee of the Student Affairs Council.

Three letters from Loren Nicholson, BOP faculty board member, last week brought to SAC's attention the problem of finding a chairman for BOP. According to the student codes, the chairman must be of at least junior standing, have attended Cal Poly at least three quarters, and have at least a 2.0 grade point average.

As indicated by Nicholson, and BOP proxy Marsha Romberg, no students who meet the qualifications are presently willing to assume the chairmanship. The vacancy came about with the resignation of Larry Hubbell at the start of this quarter.

Robert Spink, graduate manager, stated that one of the reasons many students are not interested in that they "don't want to attend SAC meetings." A student in the audience mentioned that several senior members of "El Mustang" would not take the post because they felt that their position on the paper would be compromised if they were a member of SAC. The BOP chairman is a voting member of the Student Affairs Council.

ASI President Malcom Kemp instructed the Newspaper Relations Committee to make a study of BOP problems and report to SAC at tonight's meeting. The Council voted

to have Robert Mattes, ASI vice-president, look for an upper division student to fill the post of BOP chairman.

The communications from Nicholson also requested that the budgets for publications be changed to allow the giving of commissions to advertising salesmen. The commissions are to be paid from the editor's salary and advertising manager's salary since students in these positions are receiving units this quarter.

These two items were put off for later consideration because many Council members were of the impression that Editor Bud Ross' salary was to go to pay for the Fall Quarter trip by Toni St Onge to a college newspaper conference in Chicago, Ill.

## Luncheon Planned For Girl Scouts

The International Friendship Luncheon for Girl Scouts of the Central Coast area will be held Thursday, Feb. 18 at the Community Building in Baywood Park. All foreign students or their wives who were Girl Scouts in their own countries are urged to contact Mrs. Marsha Munsen at 528-11234, Mrs. Hilda Heifetz at the Foreign Students Office or call 546-2376 for additional information, if interested in the luncheon.

## Mailbag

Contributions to "Mailbag" should not exceed 200 words. Editors reserve the right to edit and/or condense all letters received and to decline publishing letters that are, in the opinion of the editor, in poor taste or libelous. All communications must be signed by the writer. If a name or plume is desired as a signature, it is permissible but the editor must know the true name of the author.

### Yes, God is Obsolete?

**Editor:**  
GOD IS OBSOLETE! Yes, Religion in Life Week certainly proved that at our campus. It is an unfortunate fact that we must face, that He is obsolete to at least 6,000 students who showed us this fact by their lack of interest in any aspect of RILW.

There was one inaccurate statement about not having more than four to 15 students in bull sessions which needs to be corrected. There were a number of bull sessions that had 35 to 40 students with lively discussions. It is unfortunate that there wasn't a larger attendance at seminars which had the poorest over-all attendance, but perhaps with better publicity and a better choice of subjects for discussion this can be improved.

An evaluation of RILW should not be based on the popularity of religion for I can think of no easier way to kill religion. It has been said that a good show will attract many, then give them religion. RILW is not set up with that in mind, even though Christ may have attracted crowds through some of his miracles in order to speak to them of more serious things.

Let's look at this matter with too much pessimism, let me point out some positive aspects of RILW that have not yet been drawn to the attention of our readers. Among the remnant of 500 students who did attend meetings, there have been some who found a deeper meaning and understanding to their faith. As a result of RILW at least a few backsliders have recommitted themselves to their churches. One speaker felt the whole week was worthwhile because of one such commitment. Because of RILW at least six students are known to have attended their church for the first time since coming to college and these students have expressed a desire to worship regularly there (Lutheran) in the future. Certainly many Catholic students met Father Moore for the first time and will want to become involved in the worship and study of the Newman Club in the future. Students and faculty could not help but come away with new knowledge and understanding after having met the Jewish, Mormon, Christian Scientist or Baptist speakers.

There certainly is room for improvement, and if you have any

specific ideas, or wish to work on RILW next year, please send your suggestions to Doris Hoffman, president, Inter-Faith Council, ASI Box 99, where they will receive full consideration.

**Robert J. Rodin**  
Faculty Advisor  
Inter-Faith Council

### Poly Students Mature!

**Editor:**  
After following the events of recent weeks on your campus I

cannot help but contrast the proceedings here with those of Berkeley.

I feel that your students show more maturity and respect for both the student body itself and the administration by its wise decision to use the official medias of protest and its prudent avoidance of extremism.

I only hope that the administration will recognize the outstanding qualities of the student's protest and prove to the students of not only Cal Poly, but of all the state colleges and universities, that students can achieve results without resorting to "layins" in the Administration Building or otherwise disrupting the college.

**Marvin Rosenthal**, Student  
Cal State at Long Beach

### As You Are?

**Editor:**  
Just continue on as things have always been. Please be understanding about limited enrollment. You know how fast you have grown recently; we just can not afford to build new classrooms, add new faculty and provide you with all the courses you might demand.

Be content with what you already have, we have set a maximum limit on how large you can become.

Oh, we have big plans for you, long-range plans. We will not allow you to disturb these well thought-out designs. We have decided to keep you clothed in your technical clothes. We have decided long ago this would be best for you. Some day you will thank us for our foresight.

So forget about how you are growing right now, it is only natural. You should forget about how others are growing and be content to grow up to be skillful, productive workers. Now stop your incessant noises and stay where you are, Cal Poly.

**Dale E. Jackson**

### Many Thanks

**Editor:**  
I would like to thank the executive committee, the committee chairman, the faculty and ministerial advisors, and all the people who made this year's Religion in Life Week possible.

I would like to thank the school's administration for their cooperation.

I am very grateful that we are in a free country where Religion in Life Week programs are welcomed on campuses.

**Beatrice Lewanika**  
RILW Chairman 1965

### LOST

35mm Zeiss Ikon Contina camera with brown carrying case. A small chain was attached to the case bearing the initials J. O. on a tag. Finder please contact Jerry Olson in Plumas 24 or P. O. Box 2096, Redwood.

### WHAT'S IN RANK

The police department has this problem: What to call a general who is a colonel. Army Reserve Major-General William Henry Harrison is the new St. Louis Police Commissioner. As commissioner, he has the rank of colonel. But then, he's also a general. Maybe a new term: General Colonel. Anyway, they're still working on it in St. Louis.

## Let's talk about engineering, mathematics and science careers in a dynamic, diversified company

Campus Interviews Thursday and Friday, February 11 and 12

Young men of ability can get to the top fast at Boeing. Today, Boeing's business backlog is just under two billion dollars, of which some 60 per cent is in commercial jetliner and helicopter product areas. The remainder is in military programs and government space flight contracts. This gives the company one of the most stable and diversified business bases in the aerospace industry.

No matter where your career interests lie—in the commercial jetliners of the future or in space-flight technology—you can find an opening of genuine opportunity at Boeing. The company's world leadership in the jet transport field is an indication of the calibre of people you'd work with at Boeing.

Boeing is now pioneering evolutionary advances in the research, design, development and manufacture of civilian and military aircraft of the future, as well as space programs of such historic importance as America's first moon landing. Gas turbine engines, transport helicopters, marine vehicles and basic research are other areas of Boeing activity.

Whether your career interests lie in basic or applied research, design, test, manufacturing or administration, there's a spot where your talents are needed at Boeing. Engineers, mathematicians and scientists at Boeing work in small groups, so initiative and ability get maximum exposure. Boeing encourages participation in the company-paid Graduate Study Program at leading colleges and universities near company installations.

We're looking forward to meeting engineering, mathematics and science seniors and graduate students during our visit to your campus. Make an appointment now at your placement office.

(1) CX-HLS. Boeing is already at work on the next generation of giant cargo jets. (2) Variable-sweep wing design for the nation's first supersonic commercial jet transport. (3) NASA's Saturn V launch vehicle will power orbital and deep-space flights. (4) Model of lunar orbiter Boeing is building for NASA. (5) Boeing-Vertol 107 transport helicopter shown with Boeing 707 jetliner.

## Campus Capers

### INTERFAITH COUNCIL

Interfaith Council will meet today at 7 p.m. in Ag 200. This meet will be concerned with a thorough evaluation of Religion-in-Life Week, recently held on campus. Any interested persons are invited to attend.

### BOOKS AT HIGH NOON

Ena Munson of the English and Speech Department of Cal Poly will review "A Man for All Seasons," a play by Robert Bolt, today at the Staff Dining Hall at 12 noon.

The play is about Sir Thomas More, Robert Whittinton in describing More wrote that, "More is a man of an angel's wit and singular learning; I know not his fellow. For when is the man of that gentleness, lowliness and affability? And as time requireth a man of marvelous mirth and pastimes; and sometimes of an sad gravity; a man for all seasons."

Samuel Johnson says about 250 years later that, "He was the person of the greatest virtue those islands ever produced."

### MECHANICAL ENGINEERS

The Cal Poly Mechanical Engineering Society will be hosting a speaker at a meeting Thursday at 7:30 p.m. in R-27.

**OLD SPITTOON** — Ski Club President Jack Chapman poses with the Spittoon Trophy that his club recently recaptured from the Camber Ski Club of Ballinas. The Cal Poly Club won the trophy after a year losing streak. The competition for the trophy was held recently at Yosemite.

## Industry Takes Note Of Chemical Safety

A program of emphasis on education for those handling agricultural chemicals, which has been underway since November on campus, will officially begin Feb. 16.

At this time a meeting of leaders in the agricultural industry and in agricultural higher education will be held, and will kick off a combined effort to make a special course in agriculture chemicals available at all educational levels, as well as for those already actively involved in agriculture.

Latest developments in the program are the second of a series of semi-annual special short courses for members of the student body, faculty and farm staff who handle chemicals.

The courses were under the instruction of Gordon Van De Venter, a veteran member of the Crops Department faculty who specializes in vegetable production and agricultural chemicals.

Successful completion of the course and the examination which accompanies it, are required of all members of the faculty, farm staff and student body before they are allowed to handle hazardous chemicals, either in classrooms, laboratories, or on the college farm.

Cal Poly's leadership in development of an educational program to be used by the agriculture and chemicals industries in California follows announcement of its concern for the lack of such a program.

First expression of the college's new emphasis came last fall from its dean of agriculture, Warren T. Smith, who announced the short course series and the requirement for special study for all those using hazardous chemicals at Cal Poly.

Following that announcement California's agricultural chemical manufacturers and dealers expressed an interest in the college's new emphasis and asked the college to assume leadership in developing such a program.

C. O. Barnard, executive secretary of the Western Agricultural Chemicals Association, has been

### LOTS OF AID

President Johnson has asked for \$179 million in construction aid to colleges from Congress and for 140,000 Federal scholarships of \$500 each.

### FAST TRAIN

Japan has the world's fastest train. The "Bullet" travels at over 125 miles per hour. It passes near the mountain of Fujiyama.

## Spittoon Back Home After Skiers Win

Cal Poly's 180-member Ski Club finally defeated Camber Ski Club of Ballinas to recapture the Spittoon Trophy and bring it back to campus after a six-year stay in Camber's trophy case.

The competition was held recently in Yosemite.

Although only the top five skiers in each club vied for the trophy, 111 members of Cal Poly's Ski Club were present.

The course was a "giant slalom" and Cal Poly's top four were Jack Chapman, junior Architect major from San Rafael and president of the Ski Club, first; Marvin Npeer, freshman Electronics Engineer from Leavenworth, Wash., second; third place was taken by Jay Mitchell, senior Business major from Terasana; and Ben Higgins, freshman Business major from Juneau, Alaska, fourth.

According to Chapman the course ran about a quarter of a mile, all down hill. The team won the overall competition with a combined time of 41.5 seconds. The race was open to all members of the club and four finalists were chosen according to time.

Because of the larger number of racing events that ski clubs can enter, the Cal Poly Ski Club is in the process of forming another club for racing only. The club submitted a proposal to the Student Affairs Council (SAC) at its last meeting and are still awaiting word on the decision.

The new and separate club would be open to membership for all students interested in the racing side of skiing. Among the races the new club hopes to enter will be the Silver Ski, sponsored by a Fresno newspaper, "Fresno Bee," the Winter Carnival and next year's meet with the Camber Club.

## ROTC Instructor Named

Captain High G. Walte recently joined the Cal Poly ROTC instructor unit to fill a vacancy in the Military Science Department and will begin teaching the Spring Quarter.

His assignment prior to being transferred to Cal Poly was in Korea for 18 months—the only "hardship" tour (without family) of his ten-year military career, included a stay in Germany.

Upon arriving in San Luis Obispo on January 18, the Cap-

tain and his family moved to Camp San Luis Obispo. He and his wife, Nancy, have two daughters Stephanie, 6 years, and Karen, 10 months. His home is in Oswego, Oregon, where he has lived since he was 17.

After graduating from Oregon State University in 1964 as a Distinguished Military Graduate, Captain Walte attended the Basic Infantry Officer's Course at Fort Benning, Georgia.

## Oregon State Pins Grapplers

After 16 consecutive dual match victories Coach Vaughan Hitchcock's matmen were finally defeated. The Oregon State Beavers beat the Mustangs in a tight match last Wednesday night 16-11.

In the opening match, 123 pounds, John Garcia gave the fans some of their biggest thrills of the evening as he out wrestled his opponent, Ron Iwasaki, 5-2. Garcia showed his skill with lightning fast moves and great wrestling ability to defeat the Beaver captain.

During the second contest, 130 pounds, Dennis Cowell started out as if he were going all the way to victory scoring 2 points in the first 3 seconds of the bout, but his opponent, Robin Holton, edged Cowell with a 5-4 decision.

In the next battle, 137 pounds, Mike Ruiz wrestled to a fine 4-0 victory against Lee Sprague.

Last year's CCAA Champion and Pacific Coast Champion Jim Teom decided to Wally Ongilal 6-4 in the 147 pound class. Teom showed the forth that has kept him undefeated for the season in out-pointing the Beaver.

Sam Cerecoves, last year's CCAA Champion, showed great determination as he battled his opponent Gordie Lowell to a 1-1 draw in the 167 pound event.

Team captain, Harvey Wool, wrestling in the 177 pound class, was pitted against NCAA All-American Olympic Alternate Len Kauffman. Wool wrestled well, but with 8 seconds remaining in the second period Kauffman pinned him. This was the only pin of the match.

In the final bout, heavy weight, Phil Sullivan (177 pounds) faced Art Makinster (236 pounds). The Mustangs needed a win for the victory.

The heavily out-weighted Sullivan wrestled well but couldn't manage a win. The buzzer sounded with Makinster getting the 9-1 decision and Oregon State the victory.

ALLEY OOP... The long horse ride Steve Mayer on its back in last Friday's San Jose State meet. Mayer and his Mustang teammates pushed the Spartans aside for a well deserved victory. The win set the stage for this Friday's encounter with Sacramento State and San Fernando State. The latter has two nationally ranked athletes and is rated as one of the top teams in California.

Photo by Jack Halstead

## Undeclared Gym Squad Humbles San Jose State

Coach Vic Buccola's gymnasts furthered their chances for an undefeated season Friday night with a 68 to 52 victory over San Jose State College in the Men's Gym. The victory pushed Cal Poly's record to 2-0 for the season.

Buccola singled out Dave Buettner, Clay Van Chrisman, Gary Schofield and Mike Wilson for outstanding performances, but he was also pleased with the rest of the team.

Buettner took first place on the long horse with a score of 6.35 (possible 10) and second place in the free exercise with an 8.8, one tenth of a point behind Cal Poly's Gary Schofield, who took first place. Chrisman, the Mustangs' trampoline ace, captured first place in his event.

Team captain Mike Wilson capped off the meet for Cal Poly with a first place victory on the rings.

San Jose's Rich Chew captured all around honors with a total score of 53.25 points in six events.

In action earlier this season the Mustang gymnasts topped Cal State at Los Angeles, last year's conference runner-up, by a score of 63-54.

The Mustangs were lead by Buettner, a freshman from Santa

Pacha High School, who racked up 14 points, while taking first place in both long horse and the free exercise. Schofield, a Santa Monica City College transfer, brought in 11 points for Cal Poly while veteran Steve Endicott picked up 10.

The Mustangs will meet San Fernando Valley State College and Sacramento State College in a triple meet this Friday at 7:30 p.m. in the Men's Gym.

The gymnasts are also aiming for the CCAA Championships which will be held in Cal Poly's Men's Gym. Tickets are now on sale for 50 cents and may be purchased from either Coach Buccola or any member of the gymnastics team.

## Cagers Drop San Diego

An elite assistant coach, an expelled player, two technical fouls and a last second tip-in spelled disaster for San Diego University as Cal Poly hung a 92-84 defeat on the Toreros in the Men's Gym last Saturday night.

The assistant to famed head coach Phil Woolpert (Woolpert led San Francisco to 60 straight victories and the NCAA championship) became upset when the loose officiating got the best of him. Jumping to his feet with the score 84-80 in favor of the Mustangs in the overtime session, the assistant coach argued his case with the officials after which he drew a technical foul.

The second technical foul was called when Don Stevenson was involved in a brief skirmish when a Torero started pushing him around. The result: exit Stevenson with 4:25 left in the game.

Stevenson had contributed 12 points to the Cal Poly cause and left with the score 71-67 in San Diego's favor.

With six seconds remaining on the clock and the Mustangs trailing 78-76 Curt Parry forced a desperation shot at the basket. The shot missed after bouncing off the backboard and rim. Enter one Dan Panizon. Panizon jumped up and tipped the ball upward. After a couple of bounces the ball slipped through the hoop tying the score as the final buzzer sounded, 78-78.

The Mustangs started the overtime period by hitting four straight points and gradually pulled away to an eight point lead just before the game ended.
