Adrienne Greve, City & regional Planning (11 years at Cal Poly) Tenured
It is critical that the committee reviewing faculty and student research be from diverse disciplinary backgrounds and be a researcher themselves. I serve as faculty in the City and Regional Planning Dept., but also have an engineering background and have employed research methods that are both quantitative and qualitative, experimental and applied. I believe my background and CAED home lend diversity to this committee that is critical for a committee reviewing research from departments throughout the University.

Information literacy is essential to every Cal Poly student in this day and age of constantly-streaming information from often-indeterminate sources. Therefore, it is crucial that there be a librarian on the GEGB in order represent Kennedy Library's myriad services (especially Academic Services) and goals within the important, impactful discussions and decisions made regarding GE at the Academic Senate level. As chair of the Kennedy Library Faculty Council, I would like to represent PCS, the library faculty, and especially the library's First Year Experience Program for information literacy while our First Year Experience Librarian is on leave. Before we had such a librarian at our disposal, I chipped in for many quarters to help teach information literacy sessions to 100-level English and Communications classes, in part because I believe strongly in broad liberal arts education and reaching students early. From my close work with the FYE Librarian and nearly eight years of experience on this campus, I am also aware of some of the challenges surrounding GE, including the challenges surrounding its intersection with information literacy.

POLICY ON BLENDED PROGRAMS

ADMISSION to BLENDED PROGRAM
Students may be admitted to a blended program after reaching 90 units applicable to the undergraduate degree (i.e., junior standing). Admission recommendation is determined at the program level with final approval from the Graduate Education Dean. The student must submit an Admission to Blended Program Approval form. The specific requirements for admission are set by the program with approval by the Graduate Education Office and Office of the Registrar. Once accepted, students may take graduate-level courses towards master's degree requirements, as their schedules permit, provided they have the course prerequisites.

TRANSITION to GRADUATE STANDING
Students admitted to the blended program will maintain their undergraduate status until they have reached a minimum of 180 units applicable towards either their undergraduate or graduate degree. By the end of the first academic term in which the student has earned the appropriate degree applicable units, the student must file a post-baccalaureate change of degree objective (PBCO) form and once processed will transition to graduate status and incur the appropriate increase in tuition fees. Students must be at graduate status for a minimum of two quarters before degree completion.

DOUBLE COUNTING UNITS
Subject to departmental or program approval, a student may apply any units that are in excess of the 180 undergraduate degree minimum requirements towards both their undergraduate and graduate degree requirements, up to a maximum of 9 units (double counted units). However, neither senior project nor master's thesis/project units can be double counted.

SENIOR PROJECT REQUIREMENTS
Students in a blended program must complete all undergraduate requirements, including senior project requirements as detailed in the Cal Poly Catalog, along with their graduate master’s degree culminating event requirements as detailed in the Cal Poly Catalog. A student can align the objectives of their senior project with the objectives of their thesis or project, if a thesis or project is the approved culminating event for the program. A thesis or project does not satisfy, replace or substitute for the undergraduate senior project requirement. Senior project requirements must be completed before a student begins their thesis or project requirements. Exceptions can be granted on an individual student basis and requires the approval of the college dean or designee that is responsible for the graduate program.
