

Split Poly: McPhee

College history was made last Saturday when President Julian McPhee announced to startled student leaders from both campuses, "I have recommended to the chancellor that the two campuses be separated."

Speaking at Pomona before the bi-annual meeting of the Inter-Campus Council, the president said that the 240 miles between the campuses and the great increases in student enrollment were two prime factors in his decision. Prior to last Saturday's historic announcement it had been official college policy that the Kellogg-Voorhis, (Pomona), and San Luis Obispo campuses must be kept together under the same general administration. In the future, however, it is possible

that the two campuses will have their own president and administration.

In explaining his action President McPhee said that the distance factor, plus the great amount of time which a state college president must devote to non-local campus matters, had created a situation where the president "can't give complete attention to either campus." He expressed his regret that even when he is on campus he is no longer able, because of the pressure of work, to get out among the students of the college.

The phenomenal growth of each campus has been such that the Poly president, according to McPhee, "can't give the leadership necessary to carry on and to project."

Commenting on the selection of the next college president, or presidents, Mr. McPhee said that he had expressed his concern to Chancellor Dumke about the possibility of a man being appointed who is interested in areas other than those which Poly emphasizes. McPhee said that the chancellor agreed that whenever is appointed president should be in agreement with the philosophy of the college.

Turning to technical matters involved in the separation of the college, the president reviewed how the land which now comprises the Pomona campus had once been given by W. K. Kellogg to the University of California for development, was returned to Kellogg when the university failed to do anything, and then

given to the United States Army. After the war the then Secretary of Agriculture Clinton Anderson, a friend of McPhee's, asked him if he (McPhee) would like to have the land for the use of Cal Poly.

Because of restrictions within the deed transferring the Pomona land to Cal Poly, the policies and philosophy of the college at Pomona must be the same as those of the California State Polytechnic College. According to President McPhee these deed restrictions are operative until 1975, at which time a reconsideration will be possible. "By then, it may be that the whole need for this type of education will be changed," noted McPhee.

In answer to questions of those at the meeting, the president said

that he believes the Voorhis section of the Kellogg campus should remain tied to the southern campus and that about 500 thousand dollars worth of improvements are needed at Voorhis.

Concerning the selection of a vice president for this campus, he stated that consideration is underway. He added, "Everyone wants to be vice president up there."

The president emphasized that the separation project "isn't going to be an easy task," that a lot of exploring has to be done and that the state legislature will eventually have to pass legislation to make the split possible. He said that if everything goes smoothly the Kellogg-Voorhis and San Luis Obispo campuses could be separated "a year from next spring."

TUESDAY, NOVEMBER 9, 1965

Folksingers tonight . . .

BACK PORCH MAJORITY . . . College Union Assemblies Committee will sponsor the Back Porch Majority, appearing at the Men's Gym at 8 p.m. tonight. The four-boy-three-girl team was developed as a talent pool to back up the New Christy Minstrels. After mastering their understudy parts the seven went on to pursue a separate career in the entertainment world.

Accreditation withheld by Engineers' Council

Can a department be too general or too specific?

Apparently so, according to the recent findings by the Engineers Council for Professional Development (ECPD).

The engineering departments at Cal Poly received word that they were denied accreditation because of their emphasis on practical application. The University of California at Santa Barbara received a similar refusal for having too many general education courses in their curriculum, according to Harold P. Hayes, dean of Poly's Engineering Division.

Hayes explained, "The decision of the ECPD is no great surprise. We knew from the outset that the Cal Poly engineering program varies significantly from the ECPD criteria. The question to be answered was: Would the success of the program be accepted as validation of a somewhat unconventional approach and result in accreditation, or would the way we do things be the over-riding factor

and result in non-accreditation?"

The ECPD report states "E.C.P.D. notes with approbation the evident enthusiasm of the staff and administration and their loyalty towards the objectives of this institution and the demonstrated performance of the graduates on their first jobs, two vital factors of which the institution can be proud." Nonetheless, the decision was not to accredit.

Said Hayes, "I can only conclude that the decision was based not on success of the program but on compliance with specific E.C.P.D. criteria such as a specific percentage of the curriculum in science, mathematics, humanities and actual application."

The report further states: "The negative decision should not be interpreted as a suggestion that the institution attempt to re-pattern its curricular structure to that adopted by the majority of accredited engineering institutions." According to Dean Hayes, "This was really the principle which we wanted to get established, and it does clear the way for future accreditation."

Dean Hayes especially emphasized the fact that "We haven't lost anything—we merely failed to make a gain for which we were striving. Our graduates will continue to be employed by the best companies, and be accepted and given financial assistance by the best graduate schools. The few minor problems which we had in E.C.P.D. accreditation will have to be solved as individual cases, as in the past."

'Maid of Cotton' goes to finals

Lyle Michele Parmelee has been chosen "Maid of Cotton". The brown-haired, blue-eyed junior from Ross, California is one of 16 girls now competing for the state title "Cotton Maid of California."

Lyle was picked by judges in Sacramento from among three other Cal Poly co-eds which included Judy Newell, Joan Kurey, and Marlene Marvell.

Miss Parmelee, a 20 year old Social Science major, stands 5 feet 6 inches tall and weighs 120 pounds. She is a member of the Corintheans, Art Club, English Club, Gamma Sigma Sigma Girls Service Club and the Y Group.

Lyle will go to Fresno Nov. 12 and 13 for the state contest. The final selection will be made Nov. 13.

The winner of "Cotton Maid of California" will then compete in the national contest, to be held in 1966.

Elections start today for Homecoming queen

Today and tomorrow are election days for the selection of the 1966-1967 Homecoming queen, according to George Gomez, chairman of the election committee and ASI vice president.

The polling places will be in front of the campus post office, between the Math-Home Economics and Agriculture buildings and the patio of the snack bar. The polls will be open from 8 a.m. to 5 p.m. today and from 8 a.m. to 1 p.m. tomorrow. There are nine candidates in the running.

Shannon Barnes, a sophomore Social Science major from Whittier, she is a member of the Music Club and the Women's Glee club.

Karen Berlin is a 19 year-old sophomore Food Administration major from Santa Cruz. Karen is a member of Clyde's Crawlers,

campus band, and the Women's Glee club.

Helen Carter is a 19 year-old blonde junior Home Economics major from Palo Alto. Helen's activities include two years as song girl, a member of Rally club, member of the "Kiddettes", drill team.

Lorraine Gibson is a 20 year-old senior English major from Tustin. She is a member of Ekl club, Heket and Election committee.

Sharon Hartigan is a 19 year-old sophomore Physical Education major from Santa Barbara. Sharon is an officer of the department club, C.A.P.H.E.R. and is a member of the Women's Athletic Association.

Patty Howe is a 19 year-old

senior Biology major from Glendale. She was a WOW member and a member of the Gamma Sigma Sigma, a service society, and Rally club.

Lynne Johnson is a 20 year-old junior Architecture major from Stanford. Lynne serves on the College Union public relations committee, CU assemblies committee and is the sophomore representative to the American Institute of Architects.

Joy Pruitt is a 19 year-old sophomore Journalism student from Davis. She has been on the El Rodeo yearbook staff, Rally club and is a song girl.

Viki Randall is a 19 year-old sophomore Home Economics major from Ventura. Viki was Freshman Class Treasurer, SAC recorder and is secretary of the People to People club.

Next El Mustang on Homecoming

The next issue of El Mustang will be the 16 page Homecoming edition. This issue will be out on Nov. 19.

Due to the Veteran's Day holiday Thursday, there will be no Friday issue this week.

The Tuesday edition before Homecoming has been cancelled due to the double-size paper on Homecoming Friday.

Vanoncini, Mott leave for Africa

Lester Vanoncini, campus coordinator for overseas projects, announced at a recent El Montano press conference that he and Dr. Robert Mott will leave tomorrow, Nov. 10 for inspection tours of Cal Poly projects in Tanzania and Zambia.

Cal Poly teams are participating in agriculture education assistance programs at the Dar es Salaam Institute in Dar es Salaam, Tanzania, and at the College of Further Education at Lusaka in Zambia.

Vanoncini also said that a survey report prepared by a three-

man Cal Poly survey team has been accepted by the Ministry of Education in Sudan.

For five weeks last summer Warren Smith, dean of Agriculture; Gene Brendlin, foundation manager; and Corwin Johnson, head of the Crops Department went to the Sudan in North

Eastern Africa in answer to a request made by the Sudan government to aid development of a program for strengthening agricultural education at the technical and practical level.

The responsibilities of the survey team were to review the agricultural labor needs of the country, including other educational facilities other than Sudan-

but Institute. The team also studied the curriculum and the educational facilities of the Institute and recommended measures for improving agricultural education with special emphasis on the training of the junior staff.

The team examined the practical work being given in the Institute, analyzed the present Institute faculty resources and reviewed the training and administrative facilities for extension activities. They also recommended means for greater utilization of resources and overall improvement for the whole program.

The survey team found a real need for technologically trained people in agriculture in the Sudan. "As a potential, this country has the most outstanding opportunity for agricultural expansion in the world. There are millions of acres of very fertile flat land with an unlimited supply of water that needs to be irrigated only a few feet," said Smith.

The top level of administrative leadership in agriculture in the Sudan is very able and willing and qualified, but below this level of administration there exists practically no trained manpower. The foreign students on our campus today will go to the top administrative positions when they return.

Even though the survey was accepted, Cal Poly has not, as yet, been chosen as the contracting institution to implement the survey.

**GIRL: HAVE YOU WRITTEN
A LETTER HOME LIKE THIS
ONE?**

Dear Mom,

Guess what? Tim just asked me to go to the homecoming dance. All year I've been hoping that he would. But now that he's asked me, I'm really in a spot. I don't have anything appropriate to wear. My other dresses just aren't formal enough or they just aren't in style. I've tried to borrow something, but I hate to do that. What shall I do?

**STOP NOW! AND COMPLETE
THAT LETTER LIKE THIS...**

Mom, my worries are over. All the girls have told me that I can find what I need at Leonore Smith's. I went to her specialty shop and tried on formal dresses that were exactly what I need and of the latest styles. From now on I'll know to go straight to Leonore Smith.

ACCION initiates self-help programs

Jose Antonio Vall, a graduate of Cal Poly, departed last month for a one and a half year service stint with ACCION, a privately sponsored "Civic action" organization operating in Latin America.

Vall was one of 10 who departed to join an additional 125 ACCION members now in Venezuela.

ACCION International Inc. is

an urban community development organization working in the slums and throughout the working class areas of major Latin American cities. Using New York City as the United States headquarters, ACCION has grown from a small, student-run organization into one of the largest private development programs in Latin America.

ACCION's work is motivated

by the belief that underprivileged citizens, working together, can solve many of their problems themselves. Thus, the North American members of the organization do not "do things for the people" but, rather, help to organize the people to "do things for themselves." As part of this plan, Latin Americans have been encouraged to enter the program as volunteers.

Currently, a majority of the ACCION field workers are Latin Americans. In addition, most of the funds for the project come out of donations from individuals and private groups in the host country.

Members participating in the ACCION operation are paid a salary designed to cover all living expenses, plus their round trip fare from the United States to Venezuela.

Big rodeo, dance set for Nov. 13

The Rodeo Club is sponsoring a Jackpot Rodeo on Nov. 13, for all interested Poly students. The event is scheduled to take place at Collet Arena starting at 8 a.m.

There are six mens' events and two womens' events featured on the program. Saddle bronc riding, bare back riding, bull dogging, calf roping and bull riding are the mens' events leaving the goat tying and the "can chasing" (barrel racing) for the women.

Rodeo stock has been contracted from D. Cooper and will be shipped in from Thousand Oaks.

Approximately 50 contestants are entered in the Jackpot. Medical releases are required from all participants.

The morning's activities will end at noon and the day will wind up with a dance. Western Dance, Part II, as it is called, will take place in Crandall Gym. One dollar per person and the presentation of A&JL cards is all that is required for admission. The dance is from 9-11 p.m.

Boots 'n' Spurs ready to go

Boots 'n' Spurs members are busy getting 14 head of Hereford steer calves ready for the Great Western, a livestock exposition, in Los Angeles, to be held the week of Nov. 15-20.

The calves will be judged Sat., Nov. 20.

It is an annual money-raising event sponsored by Boots 'n' Spurs club of Animal Husbandry.

The calves were brought into the club during the first week of school, and they are now six to seven months old and weigh approximately 475 pounds each.

One-third of the profits of the enterprise goes to the school, and the other two-thirds goes toward the scholarship fund for Boots 'n' Spurs and pays for the Livestock Judging Team's traveling expenses.

The members of the club donating their time and talents for this project are Tom Hutton, Junction City, Ore.; Ron Pallard, Redlands; Ron Greenman, Riverside; Rick Nymphies, Napa; Toby Trwin, Junction City, Ore.; Ed Dater, Goleta; Bill Maxon, Delano; Roger Hunt, Yakima, Wash.; and Joe Monahan, Condon, Ore.

Grants available

The East-West Center, a technical and cultural exchange center, located at the University of Hawaii in Honolulu, has sent to the College information concerning the Center and application forms for scholarships at the Center.

Any students having an interest in the program at the Center, which involves technical and cultural interchange between East and West, should come to the Dean of Students office to review the material.

Dr. Tellew heads foreign program

Dr. Thomas Lantieri, director of international programs will be on campus Thursday, November 18 to conduct a general meeting for all those students interested in studying abroad the 1966-67 school year.

The meeting is scheduled for 11 a.m. in Ag. Eng. 128, explained Dr. Fred Tellew, business department instructor, who all facets of the program will be explained and any questions will be answered.

Applications forms for the program may be obtained from Tellew and must be returned by January 13. Screening and selection of applicants will be conducted by a campus selection committee and a statewide faculty selection group. Applicants will be notified by February 7, if they have been accepted.

All state college students who will be of upper division or graduate status by September of 1966, and who have 30 semester units of B average are eligible to apply. Language proficiency is needed except for Swedish and Japanese programs. Eleven foreign colleges and universities are participating in the program.

The program is open to students in all fields of study. However, the availability of courses in any field depends upon the student's language fluency, the courses offered by the recommendations of the student's home campus advisor.

The costs for the 1966-67 programs range from \$1370 for Taiwan to \$1870 for France, Spain, Germany, and Japan, \$1970 for Italy and \$2070 for Sweden.

This cost includes round trip transportation from San Francisco, room and full board throughout the academic year, health and accident insurance, and an orientation conference prior to departure. Students will be housed in regular student accommodations of the host university and community. In some cases, the students are housed with families, most meals are taken in student restaurant facilities.

Cal Poly alumni, who have participated in the program will also be at the meeting.

Any student wishing information about the program may contact Tellew, BA & E 110.

Karl Bach will speak

Karl Bach, founder of the San Francisco Life Insurance Co., will be at the Little Theatre Wednesday, Nov. 17, at 7:30 p.m. to speak on "Selling Yourself and Agriculture."

Bach entered the life insurance business in San Francisco with Penn Mutual Life Insurance Co. in 1911, after five years as a Fuller Brush man.

In 1960 he founded the San Francisco Life Insurance Company and by the end of 1964 the company had \$127 million worth of life insurance in force and employed 15 men with an average annual production of \$2,000,000 per man.

Bach has been a life and qualifying member of the "Million Dollar Round Table" since 1946. He is the author of "How I Sell \$12,000,000 of Life Insurance Year After Year" with the subtitle: "I don't sell insurance, I help you buy it."

Very much in demand as a speaker before Underwriters, Estate Planners, and other professional groups accountants and attorneys, Bach is being brought to Cal Poly under the sponsorship of the Agriculture Division's Speakers Program, headed by Ron Hathaway.

Colts whip San Jose frosh, 32-14

Led by speedy halfback, Wayne McConico and rifle-arm Ed Roseborough, Cal Poly's hustling Colts terminated their 1965 season with a sparkling 32-14 victory over the San Jose St. Sportsbabe in the northern city last Thursday.

Ed Swartz, completing his first season as head coach of the Mustang yearlings, was carried off the field by his happy gridder. Sporting victories over UGB of Fresno St., Cuesta, and San Jose, the Colts registered an outstanding record of 4-1 this fall.

Their only defeat dealt them by Hancock Junior College of Santa Maria.

McConico carried the ball sixteen times for a net gain of 70 yards and three touchdowns. His first TD came on a 45 yard pass-run play from signal caller Roseborough. He outlegged San Jose defenders to hit paydirt.

The score was 18-14 in favor of the Colts, when McConico burst through tackle to score on a 30 yard gallop in the second quarter. Jim Bird received the punt on

his own 23 and streaked 77 yards unmolested into the San Jose end zone during the third quarter.

Roseborough moved his offensive eleven with finesse and passed effectively to assist the fine running game of the Colts. That running game amassed 235 yards.

Roseborough tossed 23 passes and completed 10 for 150 yards and one touchdown, but once again, two or three flings were dropped by overanxious receivers who had daylight in front of them.

The inspired team defensive unit was led by George Schuchtel, after he blocked a punt, and Craig Edmondson, after he intercepted a San Jose pass.

Quarter Scoring:

Cal Poly	6	20	6	0	32
San Jose	0	14	0	0	14

Game Stats:

	CP	ST
First downs	21	9
Yards rushing	235	21
Yards passing	15	81
Net yards gained	394	102
Turnovers (lost)	1	(10)
Penalties (yards)	13 (115)	3 (35)
Punts (ave.)	2 (28)	4 (36)

Go Team

Last minute scoring drive halted; Poly loses upset chance, 7-3

When Cal Poly travels up to Santa Clara for their Friday night encounter with the Broncos, they might be thinking about how they nearly pulled off the upset of the year by almost bumping off third-rated Cal State at L.A. Diablos.

The Diablos, however, strayed off a last minute scoring drive by the Mustangs to turn back the locals. 7-3 before a homecoming crowd last Saturday night in the Rose Bowl in Pasadena.

The Mustangs, stymied all night by a tough Diablo defense, had mounted a last minute drive in desperation to pull the game out of the fire. The drive started on Cal Poly's 37. They marched all the way down to the Diablos' fifteen where they had a first down with two minutes showing left in the game, snapped again this week by far.

On the first play, quarterback Jack Wool carried the ball to the 12. Jeff Carls replaced Wool at the quarterback slot and proceeded to be thrown for a three yard loss back to the fifteen.

On the critical third and ten play, Richard Terrell booted the handoff and recovered his own fumble back on the twenty. On fourth down, Jack Wool went

for broke as he passed incomplete to halfback Bill Bentley and Cal Poly gave up possession of the ball.

The Diablos simply ran out the clock to chalk up their eighth straight game this season. They kept pace with Cal State at Long Beach, who just did turned back Fresno St., 14-12.

Coch. Harden's gridder held the third rated Diablos at bay for the majority of the ball game, as both defenses put on quite a show.

The Diablos, without the services of Ray Jones, rated fifth in CCAA total offense standings, were not able to move the pigskin. Diablo coach Homer Reddy inserted reserve quarterback Dave DeWoody to run the ball club and it paid off.

DeWoody immediately took charge of the team and led them on a scoring drive, ending with DeWoody throwing a six yard aerial to end Art Hatfield with 46 seconds left before halftime. The conversion was good, and they took a halftime lead of 7-0.

The only other time Cal Poly generated a substantial scoring drive was late in the third period. They drove in Diablos' territory and early in the fourth stanza, 14:46 left in the game, Larry McCarry kicked a 29 yard field goal after the Mustangs sputtered out of gas deep in Los Angeles territory. It marked the first field goal kicked this season by Mustang kicking specialist.

It was quite apparent that the Angelinos missed their star quarterback, Ray Jones. Reserve quarterback Dave DeWoody was shaken during the second half of action and could put the Diablos in jeopardy with their titanic battle with Long Beach forthcoming.

The Diablos out-rushed the Mustangs, 229-123 while also getting the edge on first downs, 15-10.

Each side had two passes intercepted and both gained 62 net yards through the air.

Tricycle races

by Jim Moore

College Union Correspondent
With the longstanding tradition of clean college rivalry in the air, and the ink still wet on the reviews of the "Great Race" in the Show Biz publication "Variety," Cal Poly brings to its campus another event designed to symbolize the relationship of man's role to automation.

The College Union Special Events Committee has announced its sponsorship of The Tricycle Races, to be staged Thursday, Nov. 11 at two p.m. on the O-6 parking lot of the Cal Poly campus.

Three races will be featured, including the slalom, relay and drag. The drag race will feature two classes, modified and stock, and students are reminded the "stock" tricycles will be provided, but modified bikes must be provided by the would-be Sterling Moon's.

The entrance fee for the event is 25 cents per race, and current regulations state that "there must be two persons on the tricycles, a girl and a boy." Further review of the rules and regulations reveal that other persons may do the pedalling.

The main event will consist of a race between Robert McDonald, College Union Board Chairman, and George Soares, SAC President. Current rumors state that both entrants are primed and ready for the challenging duel.

The races are open to students, and experienced teams are being sought to participate.

Harriers beat Westmont, 27-29, face UCSB Gauchos

"This course was by far the most grueling we have run on this year. It was straight up and down, full of rocks, and had several fences to go over."

This was the reaction of cross country coach Richard Purcell after his harriers toured the tough Santa Barbara course to defeat Westmont of Santa Barbara last Saturday, 27-29. Mustang victories over the Gauchos have been few and far between, so Purcell and his team were quite happy with the victory.

"They were really out to get

us," commented Purcell. He continued, "their coach felt it was the best effort of the season for his runners."

A total of 23 runners were entered in the meet. Scoring for the Mustangs on the four mile course were:

Harry DeGroot, third, 22:00; Al Nerrell, fourth, 22:31; Ken Baker, fifth, 22:33; Frank Proccia, seventh, 22:37; Dennis Lyons, eighth, 22:55; Jeff James, tenth, 23:37 and Fred Reich, twelfth, 23:51.

The meet was won by Ponge

of Westmont with an excellent clocking of 21:49.

California Lutheran College also entered the meet, but they failed to have five runners place, so they received no team score.

Next Saturday, the Mustangs will face the University of Cal-

ifornia at Santa Barbara here.

"They have a tremendous team. Last year they beat us 19-40, and they have all of the team returning plus several more excellent runners. Needless to say, they are highly favored to beat us," commented Purcell.

He continued, "They have a new coach this year. He is the former distance coach of the Los Angeles Striders, one of the finest athletic clubs in the country. When he came to UCSB, he brought several of his top runners with him."

Chuck Merino is player of week

Defensive halfback Chuck Merino has been chosen "Player of the Week" for the second time this season after his outstanding performance in the Long Beach State game. Merino received the same award after the San Diego game.

Merino is a sophomore transfer student from Long Beach City College. He stands five feet ten inches tall and weighs 180 pounds. He is a Business

Administration major.

In the Long Beach game, Merino intercepted two passes in key situations that enabled Poly to stall the 49er's offense. He made several tackles and was outstanding on pass defense the entire game.

Couch Harden said, "Merino played a real fine game and is a real asset to our team."

... you could have danced all night ...

Computers for parking?

WASHINGTON (CPS) — Every school is having its parking problem and American University officials feel the problem is so grave, in fact, that they have computerized it.

Officials say the new system will allow the business office to compute within 24 hours a list of parking offenders. Disciplinary letters will be prepared automatically by the data processing system and will be mailed to an offender within 24 hours.

According to the parking and traffic regulation office, "any student who receives three or more parking violation tickets during a school year will receive the following disciplinary actions:

"Three violation tickets — a warning letter.

"Four violation tickets — a 30-day suspension of parking privileges on university property.

"Five violation tickets — dismissal from the university."

Dean Hayes principle speaker at education conference

Harold P. Hayes, dean of engineering for the past 14 years, will be one of the principle speakers on the program of the 28th Annual Educational Conference, November 11-14, sponsored by the Refrigeration Service Engineers Society.

The conference — a four-day meeting for RSES members and others directly associated with the service aspects of industrial, commercial, institutional, governmental and residential comfort air conditioning, refrigeration and heating — is scheduled

for Nov. 11-14 inclusive at Disneyland Hotel in Anaheim, California.

Organized in 1933 and presently having a membership of nearly 20,000 refrigeration service engineers and technicians, the RSES is an international non-profit, educational association, head-quartered in Chicago, Ill.

Society members meet regularly under the auspices of local chapters to study and evaluate new developments and recent improvements in equipment and techniques for servicing and maintaining commercial, industrial and domestic refrigeration and air conditioning equipment.

trial and domestic refrigeration and air conditioning equipment.

Dean Hayes will discuss the subject of "Upgrading Through College Education" at the conference, which is expected to draw attendance from every state in the Union, Canada, and many other countries throughout the Free World.

Since earning his B.S.E. degree at Stanford University in 1941, Dean Hayes has served as an officer in the U.S. Navy, an engineer for General Electric Company and Westinghouse Electric Corporation, and as head of the Mechanical Engineering Department of the University of Santa Clara.

A registered professional mechanical engineer, and a fellow of the American Society of Heating, Refrigerating and Air-Conditioning Engineers, he also is a member of the American Society of Electrical Engineers and the California Society of Professional Engineers.

Additionally, he is active in the Kiwanis Club, San Luis Obispo Chapter, and the Civic and Fine Arts Association of San Luis Obispo.

He resides with his wife and two children at 2033 Skylark in San Luis Obispo.
