CALIFORNIA STATE POLYTECHNIC COLLEGE

VOL. XXVIII, NO. 30

SAN LUIS OBISPO, CALIFORNIA

FRIDAY, APRIL 1, 1966

## CU sponsored 'fun' weekend starts

### Different kinds of activities slated

All College Union Weekend, filled with activities for students and faculty members, sponsored by College Union, will be held today and tomorrow.

The weekend will feature films, gambling, races, an outing, and a combined stomp and show with music provided by "The Rising Sons."

Friday, April 1:

7 & 9:30 p.m.—C.U. Fine Arts Committee will present Ingmar Bergman's "Wild Strawberries." This Swedish film of the late 1950's uses a skillful flashback technique and reveals an old doctor's life before he is to receive an honorary degree from his old university. The film won the Grand Prize at the Berlin Film Festival.

Also shown will be a short film titled, "Blinkety Blank." The film, by Norman McLaren was experimental, and was made by engraving directly on black emulsion coated film. Synthetic sound scratched directly on the film is the form of music used. The films will be shown in the Little Theater and the admission is 50 cents.

9 - 12:30 p.m.—C.U. Special Events Committee will present Las Vegas Night. Faculty and staff members will run such gambling games as blackjack, poker, craps and roulette. The popular marriage and divorce booth will also be featured, and refreshments will be served.

Las Vegas Night will be held in the Student Dining Hall admission is 75 cents.

Saturday, April 12:

1 p.m.—C.U. Special Events Committee will sponsor a Bicycle Race open to those students who have not raced in an organized race before. Rules for the race are available at the T.C.U. It will be a timed race, on campus only, and 1-2 miles in length.

The race will begin in front of the Administration Building and the entry fee will be 50 cents.

7 a.m. - 6 p.m.—C.U. Outings Committee will sponsor an outing to Monterey, Pt. Lobos, and Carmel. Those wishing to go on the 250 mile outing may sign up (continued on page 2)

## Good Friday is a holiday

"Both students and faculty brought about this year's Good Friday academic holiday, April 8," said Donald McCaleb, public relations coordinator.

Last year a discussion occurred because classes were scheduled for the entire day. Afternoon classes were excused at the last minute by President McPhee.

This year because of that discussion, McPhee's office released a special notice to the staff on Mar. 8 declaring Good Friday an academic holiday. The recommended calendar change received approval from the office of California State Colleges Chancellor Glenn S. Dumke.

The academic holiday will involve the students and faculty in the operation of instruction. Administrative jobs are not subject to the special notice.

McCaleb stated, "It would be fairly safe to assume that a legal holiday established in recent years will still be in effect for administrative employees. This legal holiday giving the afternoon hours off is dependent on a proclamation by Governor Edmond G. Brown that has not been received as yet this year."

ART SHOW... Students Barbara Laird and Kai Munich admire the works of Don LaViere Turner now on display in the Architecture Gallery. Most

of his abstract work is done in the form of prints, etchings, wood-cuts and some oils. The display will continue through April 8.

## ASI retirement program studies

by Bob Kuczor

An actuarial study of a retirement program for employees of the student body was presented to the members of the Student Affairs Council by Bob Spink last Tuesday evening.

Next week, SAC will vote on the resolution. If the resolution passes, the four employees will join the state retirement system at standard rates.

If the proposal is defeated at next week's meeting, another fee will be paid to finance another actuarial study. Cost of the first study was \$20.

When a retirement program is passed by SAC, the student body must finance the same amount which is contributed by each employee toward his retirement.

The student body, however, will for the entire period of an employee's tenure previous to the date of SAC's actual approval.

Also briefly discussed at the meeting was the Special SAC Committee which is studying the possibilities of having a student magazine on campus which evaluates instructors.

George Soares noted that nothing can be done this year on such a project until all the facts are studied. "Next year," Soares mentioned, "if something along this line is desired, SAC may approve such a booklet."

SAC also heard the Poly Royal Committee's Progress Report presented by Poly Royal chairman, Rolfe Wentzel, who indicated that over 175 magazines and newspapers have been sent letters and brochures concerning Poly Royal Weekend.

Wentzel noted that during April, Union Oil Co. of California will send out notices about Poly Royal Weekend in their monthly bills to their credit-card customers.

As to whether Governor Brown is expected to visit on campus during Poly Royal Weekend, Wentzel said no one knows at this time and "we're just keeping our fingers crossed."

## Radioisotope laboratory conducting experiments

A Mobile Radioisotope Laboratory from the Oak Ridge Institute of Nuclear Studies will be on campus until April 8.

Members of the faculty and advanced science students will take part in activities including series of laboratory experiments and lectures during the laboratory's two-week stay.

Accompanying the mobile laboratory will be Drs. Keith J. Schlager of Colorado State University and Gerald A. Thomas of the Oak Ridge staff, who will be lecturers during the lab's visit.

Both are expected to include such subjects as radiation detection, instrumentation, nuclear theory, radiological safety, and principles and practice of a wide variety of radioisotope applications to chemistry, physics and biology in their presentations.

Laboratory work and demonstrations during the visit will deal with Geiger counters and spectrometers, isotope dilution, radiochemical separation techniques, and biological studies.

Lectures open to the public will take place in E-27 each week day evening beginning at 7:30 p.m. An open house will also be held in the mobile laboratory, which will be located adjacent to the Sci. Bld. on south Poly Vue drive.

There are 17 faculty members and ten students from the Physical Science, Biological Science, Air Conditioning, Mechanical Engineering, and the Electronic Engineering Departments participating in the lectures and laboratories. Also, there are two teachers from Mission High School and one from Cuesta Junior College working with them.

This is the largest number of

people that the lab has ever accommodated (27). Usually only 14 are allowed to work in it. To do this, four labs are held daily instead of the usual two.

The lecture to be held tonight night will be directed more towards the general public. Keith J. Schlager of Colorado State University will speak on the biological effects of radiation and radiation protection.

This week's lectures have dealt with the physical applications of radioisotopes. Next week's will be on the biological aspects. Dr. Gerald A. Thomas, Chairman of the Chemistry Department at San Francisco State, will give next week's lectures.

The laboratory is 35 feet long, weigh 32,000 pounds, has a capacity for six participants, and cost \$65,000. It has air conditioning and heating systems, office space, and its own water supply and waste retention tanks.

In addition to members of the faculty and student body, instructors from Cuesta College and nearby high schools have been invited to participate in the program.

The program, which makes the mobile unit available to selected college campuses, began in 1958 when a mobile laboratory was designed by the Special Training Division of the Oak Ridge Institute for the Atomic Energy Commission. Two such vehicles were constructed and presented to the International Atomic Energy Agency by the Atomic Energy Commission and have been used to present radioisotope techniques program in Europe, Asia, and Central and South America.

Two other units are now used in the United States college program. Since 1959, when the program began in the U.S. approxi-

(Continued on page 2)

## Pillsbury's top winner

Julie Erickson, senior Home Economics major, has been named the 1966 Pillsbury Award winner.

The Selma, Calif., coed was selected from a field of five national finalists, including home economics majors from the University of Nevada, the University of Nebraska, Louisiana Polytechnic Institute, and Oregon State University.

The award consists of a year's employment with the Pillsbury educational service department at the company's Minneapolis headquarters.

Following her year's tenure, she will be offered a choice between a \$2500 scholarship for graduate study and a permanent position with the company, should one be open.

Also, as winner, Miss Erickson received a \$500 cash prize.

Julie Erickson

**THE RISING SONS** . . . The talented vocalist musical group will be featured soon on campus. The Rising Sons are sponsored by the College Union Assemblies Committee and they will appear

on campus on Sat., April 2 at a stomp and show from 8:30 to 12:00 p.m. Tickets will be \$1.25 per person or \$2.00 per couple.

### CU sponsors

(continued from page 1)

at the T.C.U. by 4 p.m. today.

The group will leave from in front of the Men's Gym. Cost for the outing, including lunch, will be \$4.50.

7 & 9:30 p.m.—C.U. Films Committee will present, "The Second Time Around," a comedy

starring Debbie Reynolds, Steve Forrest, Andy Griffith, and Thelma Ritter. The film tells the story of a young widow who arrives in Charleyville, Arizona, jobless and friendless in 1911.

The film will be held in the Little Theater with an admission of 25 cents.

8:30 - 12:30 p.m.—C.U. Dance and Assemblies Committee will

present "The Rising Sons," a 5-member band from Los Angeles. Direct from the L.A. "strip," and the Johnny Carson Show, the group will provide music for a combined stomp and show.

This will be held in the Men's Gym and admission will be \$1.25 per person and \$2. per couple.

### Radioisotope lab

(continued from page 1)

mately 900 faculty members and students from 73 colleges in 29 states have participated.

The forward portion of the laboratory contains the counting room, which has three identical counting setups that accommodate six people. Each setup consists of a Geiger counter and scintillation spectrometer. The chemistry laboratory is located toward the rear of the vehicle and is equipped with radiochemical fume hoods, radiation monitor, radiation storage vault, air compressors, vacuum pump, analytical balance, and other standard laboratory glassware and chemicals. A spare Geiger counter and scintillation spectrometer, oscilloscope, pulse generator, portable survey meters, and other test equipment are also included in the mobile lab.

### 11 WEEK PROGRAM

The Keck campus of Cal Poly, located near Pomona, has operated its summer program on a continuous 11-week calendar for the past four years and is scheduled to continue use of that format.

## Straight from the horse's mouth

by David Rosenberg

### WE MOURN

Issac Holstein Flew  
Dec. 1916 - March 1966

All who knew Issac Holstein Flew took his recent demise with heartfelt grief. "Izzy Holy," as his friends affectionately dubbed him, was one of the few total conformists on the earth.

A man who would never rank with the Mario Savios or Sam Yortys of the world, Izzy was nevertheless widely known and widely respected.

Izzy had lived his life in the shadows of the rolling San Luis hills. At the age of 18, he had grown into the hulking image of a man and had decided to enter college. Cal Poly was his natural choice.

Young Issac Flew stood about five foot four, had nervous hands, darting, black eyes and a warm Western smile. In short, a typical Poly student. On registration day he sauntered into line in his decorative boots, peach 'n' cream stetson and high-button, stitch-design, double-breasted Batman T-shirt, like all the others.

In fact, registration went quite smoothly for him. He only had to change nine classes around and his schedule ran from two till six daily. All in all, he had been pretty lucky considering he had registered at 11:30.

Then the clammy hand of tragedy caught Issac Flew.

The IBM that sorts and assimilates all the class cards and information cards slipped a cog. It was a freak, a fluke, a one in a billion chance, but it happened

to poor Izzy. And before anyone realized what had occurred, the IBM rejected Izzy's number.

Issac Flew's death knell had rung. What we observed then was the mere shadow of a man. Izzy wandered about campus, from class to class but no instructor would accept him. As far as anyone was concerned, he no longer existed.

Izzy could never hope to study again under the dear old library walls, no longer could he thrill to the Friday night Little Theater programs. Gone were the happy days of getting quarters stuck in the Snack Bar candy machines, of copping blossoms from the President's yard, of all-night poker parties in Engineering West.

Izzy could no longer devise intricate uses for his ASI card, nor could he attend the rousing Poly sporting events and be literally crushed under the throng of spectators. And, never again could Izzy savor the culinary delights and palatial pleasures of the Dining Hall's gourmet cuisine.

This last blow hit Issac the hardest. Soon his cheeks lost their youthful virulence and his once mighty frame sagged under the loss. Slowly he dwindled.

One day he was no longer haunting the Admin. Building. Only a memory remained and the words of one of his contemporaries who so aptly said, "It's just awful."

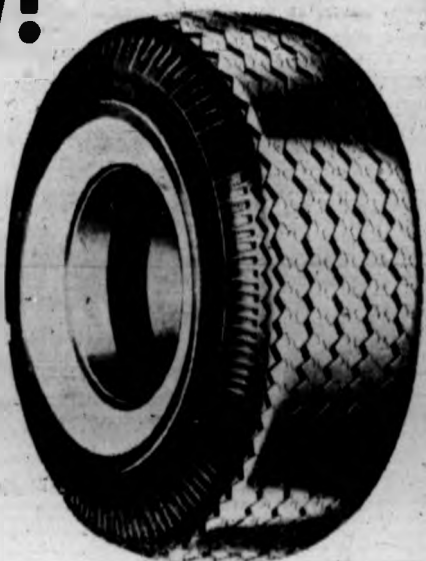

We, who knew him best, lift our stein to the man without a number. Issac, the wandering Flew.

"Izzy's lyin' in de col' col' groud." Izzy? Izzy? . . .

## Mens Glee, Collegians complete successful tour

The Men's Glee Club and the Collegians met with enthusiastic response everywhere they went on the 25th Cal Poly Music Tour, according to H. P. "Davy" Davidson, director.

The tour got off to a good start by receiving standing ovations at the first two performances at Downey High School in Modesto.

All high schools where the boys had free time, students kept them busy signing autographs.

The high point of the tour came when the boys performed at the State Capitol in Sacramento. They appeared first on the floor of the Senate, where Davidson was introduced by

Sen. Vernon Sturgeon of Paso Robles.

The resolution was read here last Tuesday night at the SAC meeting.

From the floor of the Senate the troupe moved to the rotunda of the capitol building and gave a singing concert which was heard by everyone in the building.

The tour, which lasted from March 21 to the 25, took the groups to high schools and junior colleges in Modesto, Oakdale, Ceres, Manteca, Stockton, Sacramento, and Woodlands. There were several performances daily.

Since the end of the tour, letters of thanks and praise have been arriving from schools where the tour performed.

One high school principal, in a letter to President McPhee, said that the Cal Poly troupe had put on the finest assembly he had seen in the eleven years he had been at his school.

## Dean's list

More than 1,200 students were recently named to the Dean's List. These students were recognized for having compiled an overall grade average of "B" or better in all work taken during the Fall Quarter, which ended in mid-December.

Those named to the Dean's List include nearly 17 percent of the 7,225 students who were registered for 12 or more units of study. These students represent a cross section of its four future, Engineering, Applied Arts and Applied Sciences.

### ENROLLMENT TO RAISE

Enrollment in the California State College system is expected to raise from its current 150,000 full and partime students to 225,000 by 1970.

**ASSEMBLIES...**In a short time the Student Affairs Council will begin action on next year's student body budget. But before it does there is a matter of importance which should be considered and acted upon. The matter is the poor record of this year's College Union Assemblies Committee.

Without a doubt, the students of this college have been cheated by the committee's failure to bring the type and quality of entertainment which is wanted and so badly needed. Thus far this year only one big name entertainer, Louis Armstrong, has been presented. The other groups, though they had some talent, were not known by students and the poor attendance, and subsequent financial losses, reflected this. This week the committee again brings an unknown group to campus.

What is the matter with the CU Assemblies Committee this year? It certainly seems lacking in leadership, spirit, and foresight. It obviously has forgotten that Cal Poly is not in a metropolitan area; that this college is isolated from the major entertainment centers of the state. The committee's responsibility is to compensate for this isolation by bringing well known talent here.

The rough financial results of the four Assemblies-sponsored events are most interesting. Louis Armstrong was given \$3,500, the gross income brought in was \$4,931.50, the net profit was \$1,281.76. The Back Porch Majority got \$2,000, the gross income was \$1,995.25, the net result was a \$297.25 loss. The Three D's and Sing Out '66 both lost money — \$177.72 and \$25.62. In short, the three unknown groups cost the student body \$800.59.

While the non-monetary value of some groups should outweigh the financial, such presentations must be balanced with popularly known groups.

Before SAC acts on the College Union budget request, it should first get some guarantee from the CU Board that this year's Assembly Committee's record will not be repeated. SAC should ask why in 1962-63 Duke Ellington, Peter, Paul and Mary, and Marty Robins came here; why in 1963-64 Dick Gregory, the Brothers Four, and the Smothers Brothers were presented to the student body while this year only Louis Armstrong came? What is wrong with the Assembly Committee? Does it need to be reorganized? Should another group have the responsibility for sponsoring assemblies?

Something must be done before a new committee chairman is chosen. The student body can ill afford a repeat of this year.

**OFF CAMPUS HOUSING...**With the start of the quarter many students again face the dismal prospect of living in one of the many apartment buildings adjacent to the campus. For some time a consistent student complaint has been that most of the apartments built for student housing are poorly constructed and poorly maintained. A check at a number of apartments readily confirms that the complaints are valid; that the buildings are seemingly thrown together with low quality materials. Indeed, several apartments that are from three to six years old look twice their age.

One of the housing complexes to spring up recently was built with such low grade that the cost of construction was less than \$10 per square foot. The soon-to-be-built campus residence halls will cost about \$30 per square foot. While it is not reasonable to ask contractors interested in making a profit to meet the quality of on campus construction, is it too much to ask that they do more than just meet the minimum standards?

To be sure, the building contractors are fulfilling the minimum standards as set by the Uniform Building Code. This code, which serves as the basis for construction in the City of San Luis Obispo, is only a minimum and from the looks of many apartments, the code is very inadequate. It is time that the public officials of the City of San Luis Obispo take a good look at the building code and start strengthening it. Failure to act on their part will all but guarantee the continued deterioration of off campus student housing and the growth of a slum area next to Cal Poly.

Robert Boyd, Editor-in-Chief

## Army gets asst. manager

"I am faced with the problem of the draft and rather than just go in as a draftee, I have enlisted in the Army Officer Candidate School program," said Doug Gibson, publicity and publications coordinator.

Gibson leaves April 1 for Los Angeles, where he will be processed. He then goes to Fort Knox, Ky., where he will have eight weeks of basic training and then another eight weeks of advanced individual training. After a two week leave he will have 23 weeks of OCS before he is commissioned and serves two years duty as a commissioned officer.

Gibson hopes to enter the quartermaster, transportation, or ordinance branch of the Army in order to be able to put his education and training to use.

Having been at Cal Poly for only five months, Gibson feels that he has the position of publicity and publications coordinator well organized but still has not begun to touch on many phases of the job.

## Racers have busy weekend

Two members of Ford Division's National Drag Race Council turned in impressive showings in exhibition runs over the weekend. At Irwindale, (Calif.) Raceway, Gus Ronda breezed through the clocks in 9.01 seconds at 157.34 mph in his fuel-burning, lightweight Mustang. Running a wedge 427, Tommy Grove managed 143.08 mph and 9.08 seconds in his Mustang at Fremont, Calif.

## Study lab

Having problems with your homework? Are you looking for a quiet place to study? The student branch of the American Society of Agriculture Engineers is sponsoring a study lab every Tuesday at 7:30 p.m., AE 122.

## "Test can't hurt," states Chandler

"Students ought to take the test. It can't hurt them."

These were the words of Dean Everett Chandler in regard to the Selective Service College Qualification Test. The test will be given at Cal Poly May 14, May 21 and June 3.

"If the test is not taken, deferment depends on grades," Dean Chandler stated.

A poor test grade and good academic grades would be cause for deferment. A good test grade with poor academic grades would also be cause for deferment.

And, of course, a good test grade and with good academic grades a person will be deferred. But if a poor test grade is made along with poor academic grades, induction will most likely result, according to Dean Chandler.

The test is aimed at a high school level and will consist of English and math questions.

The last time such tests were given was in 1951 at the time of the Korean War.

A score of 70 on the College Qualification Test was required in 1951 to be eligible for undergraduate deferment. A score of 80 was required for graduate deferment. There is a possibility at the present that a score of 75 will be required for graduate deferment.

The 1951 regulations concerning student deferments stated, "any student that was pursuing a full time course of instruction would be deferred until the end of his academic year provided that he had not previously received a student deferment." At that time any student who had been deferred to a class II-B could not receive that classification again.

At the end of each academic year the colleges and univer-

## Press Club meets

If you like the clutter of teletype, the confusion of deadlines, the sight of your by-line — and communications in general, hear this.

Everyone interested in journalism and newspaper work is invited to attend the next Press Club meeting at 7:30 p.m., Wed., April 6 in GA 202.

## Math students to vie in Poly Royal contest

High schools located throughout California have received invitations to compete in the 14th annual Poly Royal Mathematics Contests.

Sponsored by the Math Dept., the contest will take place April 20, as one of the opening day highlights of Poly Royal.

Entries for this year's competition are expected to top those of last year when nearly 200 students representing 70 high schools took part. Both the team and individual champion on that occasion were from Salinas High School.

Competition for the contest is in three categories including the written examination, which is open only to high school seniors;

the "chalk talk", open only to juniors; and audience participation category, which will be open to anyone who may be in attendance for the contest.

Only Salinas and Palo Alto High Schools have more than one team title to their credit during the math contest's 13 year history. Other winning teams have come from Pasadena, Cuylerly (Palo Alto), Santa Monica Polytechnic, Alhambra, El Cerrito, Danville, Chaffey (Pomona), Arcadia, Fresno, and Atascadero high schools.

Awards for the contest include cash prizes of \$50, \$30, and \$20 to top finishers in the written exam; a travelling trophy to the winning team; slide rules, drawing sets, and books to the top ten contestants and members of the winning team; and certificates to all contestants.

## FFA delegate

Cal Poly sophomore Edward McLaughlin has been chosen as this year's representative to Oregon State's annual Future Farmers of America Convention.

McLaughlin, a 19-year-old Dairy Manufacturing major from Durham, is presently serving as treasurer of the California chapter of FFA.

During the three-day convention beginning March 16, he will observe dairy judging, speaking, and parliamentary procedure contests.

**TRANSFER RUNNER** . . . Mustang half-miler, Ken Baker, is shown running in a two mile relay at the Santa Barbara Easter Relays. Baker, a junior, is a Citrus Junior College transfer student.

## Patterson sets record, throws discus 175 feet

"Bill Patterson, Cal Poly's muscle man, broke one of the seven new marks set in the college division last Saturday in the Santa Barbara Easter Relays when he threw the discus 174 feet.

Patterson's throw, while a new meet mark, was still short of the Cal Poly school record of 174-1½ set by Loyd Petroelje in 1964.

As for the rest of the team in the relays, Poly coach Walt Williamson expressed disappointment with their showing, with the exception of Patterson and Ben Laville who won the college javelin event at 217-5½.

"We haven't had the team together for the past two weeks due to the mid-term break," Williamson said, "but we meet Poly Pomona at Pomona tomorrow

afternoon and we're going to start looking a lot different."

The Mustangs scored 17 points in the meet, finishing in the basement behind Westmont.

Los Angeles State won the college competition with 46 points while UCLA was the university team winner with 53.

### COLLEGE RESULTS

High jump: Vallerger, Santa Barbara, 6-2.

Pole vault: Champion, Pepperdine, 14-6 (new meet record, old mark of 14-0 set by Staus of Los Angeles State in 1965).

Shot put: Lee Johnson, Redlands, 57-11 (new meet record; old mark of 55-9 set by Johnson in 1965).

880 relay: Redlands (Beedy, Krueger, Bryden, Mason), 1:27.3.

Long jump: Stenius, Los Angeles State, 25-2½ (new meet record; old mark of 25-½ set by Fresno State's Nickolas in 1964).

Two-mile relay: Santa Barbara (Nathan, Ahee, Horton, Gris), 7:39.4.

Discus: Bill Patterson, Cal Poly 174-0x (new meet record; old mark of 153-11 set by Johnson, Redlands, in 1965).

Distance medley relay: Los Angeles State (Campbell, Pican, Schruder, Blanchard), 10:14.0.

Javelin: Ben Laville, Cal Poly, 217-5½.

Triple jump: Alvin Young, Los Angeles State, 48-4x (new meet record; old mark of 46-1½ set by Westmont's Rice in 1964).

440 relay: Redlands (Beedy, Krueger, Bryden, Mason), 3:15.7 (new meet record; old mark of 4:24 set by Los Angeles State in 1963).

Mike relay: Redlands (Beedy, Krueger, Bryden, Mason), 3:15.7 (new meet record; old mark of 3:16.9 set by Cal Poly in 1960).

Team points: Los Angeles State 46, Redlands 41, Santa Barbara 38, Pepperdine 20, Westmont 19, Cal Poly 17.

## Quarter-break wrap-up

# Chestnut, Purcell take head coaching spots

### COACHING CHANGES

Two major athletic coaching changes took place during the quarter break when Dr. Robert Mott, head of the Cal Poly Physical Education Department, announced that Stuart Chestnut will take over the reins of the college's basketball program and Richard Purcell will become head track and field mentor.

With their assignments both becoming effective with the start of the Fall Quarter in September, Chestnut will assume the position formerly held by Ed Jorgensen while Purcell takes over the duties vacated by Walter Williamson.

### NCAA MAT MEET

Mike Remer, Cal Poly's 115-pound national college division champion, defeated Michigan's Constantine Lambros 1-0 in overtime to take fourth place in the National Collegiate Athletic Association University division wrestling finals held at Ames, Iowa, last Saturday.

Remer lost to Tadaaki Hatti of Oklahoma State, 5-2, in a second consolation appearance.

### GYMNASTS QUALIFY

Clayton Chrisman and Rick O'Bannon, two Cal Poly athletes, have qualified for the National Collegiate Athletic Association's national gymnastics championship to take place at Penn State in University Park, Pa., Friday and Saturday.

Chrisman and O'Bannon placed in a regional meet held in Los Angeles, last Saturday.

Chrisman tied for second in the trampoline event with Rick Fon-

ceca of Washington, each with 9.1 points while O'Bannon took fourth with 8.05 in a regional meet in Los Angeles last Saturday.

### POLY WINS RODEO

Piling up 539 points, the Cal Poly Mustangs easily won the Eastern Arizona College Rodeo held at Thatcher, Ariz., last Friday and Saturday.

Arizona State College was second with 210 points, followed by Arizona State University 165 and Eastern Arizona 102 in the 12-team field.

### GOLFERS SPLIT PAIR

Mustang golfers of coach Chuck Hanks split a two-match road trip at San Francisco and Berkeley last weekend when they notched their first win of the season by beating the University of San Francisco Dons in a sudden death playoff, then taking a 34-20 beating by the hands of the California Bears.

### "BATMEN" LOSE

The Cal Poly baseballers of coach Bill Hicks came up on the losing end of their first three CCAA league encounters, losing the opener to the Fresno Bulldogs 8-1 and dropping a pair to the San Diego State Aztecs, 9-3 and 7-6 this past weekend.

The Mustangs, now with a 6-

10 season mark and 0-3 league school scholarship fund.

record, visit Los Angeles State this afternoon and invade San Diego State for a doubleheader Saturday.

### INTRAMURAL PROGRAM

With an estimated 700 students taking part, this year's intramural basketball program had the largest entry on record. There were 71 teams entered in a 12 league slate.

Doing an outstanding job, thirty students from PE 232, Intramural Sports, were assigned to this phase of the program as lab work.

**NEW COACH** . . . Dick Purcell will take over the position vacated by present track coach Walt Williamson.

## NCAA champs to be honored this Saturday

A "Spring Concert" honoring the NCAA college division wrestling champions, the Cal Poly Mustangs of coach Vaughan Hitchcock, will be presented by the Cal Poly concert band tomorrow on the Giants Food Market parking lot located off of Edna Road.

The concert, under the direction of Marty Baum, will begin at 1 p.m.

## Homer habit

Boston Red Sox outfielder Lennie Green can present a strong argument for being in the line-up on opening day. For four consecutive seasons, Green has hit a home run on the first day of the season.

## Intramural meeting

Plans for the quarter's intramural program will be started this Tues., April 5, at the meeting of the intramural managers. According to coach Vaughn Hitchcock, it is important that the managers attend the meeting. It will be held at 7:30 p.m. in the Men's PE building, Rm. 118.

## Batmen travel to Los Angeles

Three newcomers will grace the scene when the Mustang baseballers of coach Bill Hicks go against Cal State at Los Angeles today.

The Poly horsehiders also have a twinbill scheduled for Saturday with the San Diego Aztecs down South starting at 12:30 p.m.

Hicks named lefty Bob Dorn, 3-3 overall and 0-1 in league, to start against the Diablos. Right-hander Jeff Hearn, 0-2 overall and 0-0 in the CCAA, and junior college transfer John Bryan, who just joined the club Monday at the start of the spring quarter from Bakersfield College, will handle Saturday's starting mound duties.

Bryan, infielder Dick Miller of the College of Sequoia, and pitcher Jim Montano will be added to the Cal Poly roster this quarter.

## Poly skiers place at the Snow Bowl

Two Cal Poly skiers made a good showing in the Arizona Cup ski races held recently at the Arizona Snow Bowl near Flagstaff.

Jack Chapman, Cal Poly Ski Club vice-president, placed second in both the class "C" downhill and slalom races. Ray Byrne, Cal Poly Ski Club race chairman, placed second in the class "B" downhill race.

Races were sponsored by the Phoenix Ski Club while the courses were set by Cristian Pravda, former world and pro champion.

The race was open to all far west racers.

Over fifty members of the Cal Poly Ski Club spent the quarter-break skiing in the Squaw Valley-Alpine Meadows area.

Elections for next year's club officers will be held in the near future.

## PLUSH LIVING!
