

# April 26-27 set as ASI election

# el mustang

CALIFORNIA STATE POLYTECHNIC COLLEGE

VOL. XXVIII, NO. 31

SAN LUIS OBISPO, CALIFORNIA

TUESDAY, APRIL 5, 1966

## Election forms available for ASI office seekers

Today is the opening of the Poly political season.

Nomination petitions for the student body offices of president, vice-president and secretary are now available. April 15, at 5 p.m., has been set as the closing time for persons to file for inclusion on the general election ballot.

Campaigning will start April 14 at 11 a.m. and continue until 1 p.m. April 27. Students are reminded that no campaigning can be done before April 14.

Voting will take place on April 26 and 27 with polls set up at various locations around the campus.

All those interested in running for an office can pick up the necessary forms and election rules from the ASI office or from George Gomes, ASI vice-president.

THE RACE IS ON . . . Associate Dean of Student Activities, Dr. Dan Lawson, displays the various forms which must be filled out by those persons interested in running for student body office. The positions of ASI president, vice president, and secretary will be up for election later this month at the general election. Potential candidates can obtain the necessary paper from Dr. Lawson, or any of the other personnel in the Activities Office. George Gomes, ASI vice president, also has the forms. Deadline for filing is April 15.

## Money given for projects

A total of \$2,000 has been allocated to stimulate the production of exceptionally creative senior projects.

The Cal Poly Foundation that is charge of feeding and housing on campus has appropriated money to help promising senior projects.

The foundation will provide financial assistance for the cost of materials and production models. Aid will also be given for photography or travel needed for projects. This aid is given in cases where projects will be of value to the college and the instructional program.

The total sum available for grants will be \$2,000 on the San Luis Obispo Campus and \$2,000 on the Kellogg Campus. The program is beginning this quarter and will continue to the Spring Quarter of 1967.

Grants from \$25 to \$150 per project may be made. Such grants may be used to purchase items or services beyond normal State support.

Criteria for awarding grants will be based on merit and value of the project to the college, the department, and the student. Each project should show promise of making a creative contribution. Grantee criteria will include the scope of the project and the cost related to work quality and value. The alternative sources of

(Continued on page 4)

## Governor requests funds

Governor Edmund G. Brown last week asked for additional funds for state college and university facilities, largely for fringe benefits, to carry out the recommendations of the State Coordinating Council of Higher Education and "to enable us to obtain our fair share of the nation's best teaching talents."

In letters to Assemblyman Robert W. Crown, chairman of the Ways and Means Committee, the governor asked for:

1. An additional \$3,000,200 to finance four percent annuities for university faculty members. This, added to an earlier request for salary increases of 2.5 percent, would bring the total university faculty increase to 6.5 percent.

2. An additional \$555,300 to raise the pay of university librarians, non-tenure teachers and others in the academic community by a total of four percent. The governor earlier requested a 2.5 percent increase for this group.

3. An additional \$170,200 to raise state college salaries by 0.7 percent instead of the 0.4 percent which the governor originally requested.

"In the long run, the quality of the people who teach in our classrooms is more important than the quality of the rooms, themselves," the governor said. "It is in keeping with that fact that I am asking these additional increases to make sure

that we are able to expand our growing system of public higher education with the best teachers the nation has to offer."

The governor also submitted to the Crown Committee a re-computation of the total cost pay increases for civil service classes and nonacademic employees of the university and state colleges. It showed an increase of \$327,470 over the original budget request.

## Foreign study to be discussed

Director of the International Programs of California State Colleges, Dr. Thomas Lantos, will be on campus Thursday, April 7, to meet with all interested students in Ag B, room 123 at 11 a.m.

Dr. Lantos will explain all facets of the International Program at this meeting and will answer questions. Cal Poly alumni who have participated in the program will be at the meeting to assist in informing students about the program in various countries from a student's view point.

Following the general meeting which concludes at 12 noon, Dr. Lantos hopes to meet individually with students who already have submitted their applications and those who will wish to apply for 1966-67 programs. This will be handled on an appointment basis of 10 minute interviews beginning at 1:30 p.m. and ending at 4:30 p.m. Students may sign up for interviews in BA & E 110.

## CU film schedule posted for Spring

The following is a schedule of films to be shown by the CU Film Committee for the balance of the year:

- April 15 "Man's Favorite Sport"
- 16 "Wild in the Country"
- 21 "List of Adrian Messenger"
- 28 "The Cowboy"
- May 6 "Caine Mutiny"
- 7 "Ballad of a Soldier"
- 13 "No Man Is an Island"
- 14 "40 Pounds of Trouble"
- 20 "Third Man on the Mountain"
- 21 "Charade"
- June 4 "The Gaily American"
- 10 "Flower Drum Song"
- 11 "The Birds"

## Graduation deadline

The official college calendar lists April 22 as the last day to apply for June commencement. It is extremely important that all applications be turned in by that date. A diploma order must be submitted to the engravers by the date specified in the contract to insure receiving the diplomas in time to process them before the June commencement ceremony.

All students who expect to be awarded a two-year Technical Certificate, Bachelor of Science Degree or Master of Arts Degree in June and who have not filed an application should contact the Evaluations Office immediately.

## CU Fine Arts presents

## Famed guitarist here April 13

The talented guitar artistry of Laurinda Almeida will come alive tomorrow night in the Little Theatre.

A concert by the world-famous guitarist is scheduled at 8 p.m. Tickets will be \$1.50 for adults and \$1 for students. The tickets will be available at Brown's Music Store and the Temporary College Union Building. Only 500 seats are available.

Almeida's artistry comes as close to that intangible quality called "universal appeal" as any known musical interpretation can.

There's a special magic about the Spanish guitar—its dazzling range of moods, tones, intensities and timbres. These qualities have made the music of the Spanish guitar the most appealing of all instrumental genres, and no-

where is there to be found a more inspired master of the instrument.

A guitarist since boyhood, he first gained fame in his native Brazil, coming here in 1947 to further his career in recording activities, scoring for motion pictures, arranging, as a featured performer with the Stan Kenton band and making personal appearances in concerts across the nation.

## Three spots left on USA summer tour

There are still three openings left for Inquiry '66.

"Inquiry '66: The American Scene" has as its main objective the addition of depth and dimension to the student's concept of his nation, its people, and their problems. The tour will cover 37 states, 13,000 miles, and will take 70 days to complete.

There are two phases to the program. The first phase consists of advance preparation in the form of a "term paper" and a seminar to share the findings of the individual with the rest of the participants prior to the actual departure.

The second phase will consist of actual visits to the significant historical sites on the pre-scheduled route. It is hoped that the student will broaden his understanding of the people and their problems as well as becoming familiar with the geographical features of the nation.

All interested students should check at the Activities Office for further information. The general criteria for being admitted to the tour are a grade point that indicates a willingness and ability to undertake a serious educational endeavor, an indication of scope of background and hence "tools" with which to capitalize upon and contribute to this group experience, and an indication of interest in and ability to contribute to a team effort.

The tour will cost each participating student \$325 which includes the price of transportation, food, insurance, and entrance fees to certain areas and activities along the way. The project is sponsored by the Associated Students and approved by the College and Chancellor's office.

## Three to speak at Fresno

An instructor, a student, and a retired department head, all associated with the Agricultural Engineering Department here, will be speakers during the 44th annual meeting of the Pacific Coast Region of the American Society of Agricultural Engineers.

James F. Merson, chairman of the Pacific Coast Region of ASAE, who retired last Spring as head of the Agricultural Engineering Department will preside over the opening session of the meeting, which will take place April 6-7, at the Hacienda Motel in Fresno.

"Engineering For Food... Know It Now" has been selected as the theme.

John L. Merriam, a member of the department's faculty, will preside over one of four specialized sessions planned for the opening day. His topic will be "Soil and Water."

Martin R. Miller, a senior majoring in mechanized agriculture will speak the following morning on "Helical Stalk Cutter — A New Way to Mow?" Miller developed such a machine as part of his senior thesis.

Other members of the department's faculty are also expected to take part in next week's meetings.

## Students get BA and MA degrees in five years

Springvale, Me. (I.P.) Nason College, in cooperation with the University of New Hampshire, will join in a special program for the training of college teachers in the social sciences and humanities, according to a recent announcement by President Roger C. Gay.

According to the announcement, the program is being underwritten by a third of a million dollar grant from the Ford Foundation to the University of New Hampshire for the development of a six-campus program to train future college teachers. Other institutions involved include Merrimack College, St. Anselm's College, and Plymouth State College.

The new program will enable students to earn both a baccalaureate and a master's degree in five years and at the same time to obtain some experience in college teaching as well as to pass some of the requirements for the Ph.D. degree. Upon completion of the sophomore year of study at Nason students selected for the program will be designated Ford Scholars.

Their studies will parallel the normal sequence for Nason candidates for the B.A. degree for the first two years. However, during the third and fourth years, the program will include reading and research courses, honors thesis, seminars, and in the senior year, graduate study at the University of New Hampshire.

Upon completion of the B.A. degree requirements at Nason, the Scholar will enter the University of New Hampshire as a matriculated candidate for the M.A. degree. While at the University, he will participate in an internship in college teaching to prepare him to enter the profession.

Each Scholar will receive a graduate fellowship to the University of New Hampshire which will cover all tuition and fees and, in addition will receive a stipend of approximately \$2,500 for the academic year.

The program provides the talented student interested in entering the college and university teaching profession to benefit from the liberal arts education of a small college such as Nason while, at the same time, providing the additional opportunities for research and graduate study found only at a University.

Dr. Gay also revealed that Small Colleges have been included in a projected \$185,000 program for the National Institute of Mental Health. Dr. Thomas Howard, Associate Professor of Psychology, is coordinator of the program involving student development in small colleges.

The program will be directed at this year's entering freshman class which will be followed throughout their four years of study here. The project aims to deal with four major questions: (1) How do institutional goals differ from campus to campus? (2) What are the characteristics of students when they enter college and how do they differ from campus to campus? (3) How do students who withdraw differ from those who remain in college? (4) What changes in student characteristics occur during the four years of college?

# SOPHOMORE MEN:

Want to be a leader and double your chances for success in life? You can, by earning both a degree and an Army officer's commission at the same time... even though you may not have taken ROTC training in your first two years!

Through a new program, you can be commissioned as a Second Lieutenant after taking two years of Army ROTC training while you complete your studies for a college degree. You can qualify for this program by attending a special six-week summer training camp after your sophomore year and then completing the ROTC Advanced Course in your junior and senior years of college.

Here's what ROTC training and an officer's commission will do for you:

- It will qualify you to fulfill your military obligation as an officer.
- You will learn to organize, motivate, and lead others.
- You will develop leadership qualities that many college men miss—self-discipline, physical stamina, poise, bearing, the acceptance of responsibility and other qualities that contribute to success in either a civilian or military career.
- You will receive \$40 per month during your junior and senior years, plus pay and mileage for summer training.

The training and experience you will receive through Army ROTC will pay off for the rest of your life. A decision to take advantage of this new program could be one of the most important you will ever make.

You owe it to yourself to investigate this new important opportunity.

For complete information on the new Two-Year Army ROTC Program see the Professor of Military Science on campus.

**RELIGIOUS CENTER...** Instructional facilities are not the only student-related facilities going up in the Poly area. Soon to be built will be a new Campus Christian Center in the vacant lot adjacent to the Health Center. Built under the

sponsorship of the Campus Christian Community, an ecumenical group, the center will provide a place for religious counseling and teaching. In addition it will have a small chapel.

## Design complete for Christian Center

Showing a striking student religious center in a modern Spanish motif, the designs for the new Campus Christian Center to be located next to Cal Poly have been completed.

The facility will be erected by the Campus Christian Community, an ecumenical group concerned with a united Christian witness to the campus while maintaining their own denominational heritages. Member groups include the United Presbyterian, the United Church of Christ (Congregational), the American Baptist, the Christian (Disciples of Christ), the Episcopalian, Methodist, Missouri Synod Lutheran and ALC-ICA Lutheran.

The new student religious center will be constructed across Campus Way from the Student Health Center. The architects, Kruger, Benson & Ziemer of Santa Barbara, have designed the new Presbyterian buildings in Orutt, Solvang and Ventura.

"Simplicity and modesty keynote the designs which will have a timeless quality that reflects the history of San Luis Obispo," according to Bruce Tjaden, Pres-

byterian campus pastor. "The facility will contain a quiet lounge with a living room atmosphere for study, conversation, and group meetings, as well as a second lounge for recreation, meetings and the serving of occasional meals from a small kitchen."

The campus pastors will have offices that will provide every aid and atmosphere for a continuing ministry in counseling and teach-

ing. There is also a study planned for the use of parish pastors in San Luis Obispo when they meet with students and faculty in the Center.

Rev. Tjaden added, "A small, but warmly beautiful chapel will surely become Cal Poly's own unofficial place of worship and meditation, and will find service in a great number of ways to the campus community."

## Architects host Crutcher; topic is "City Renewal"

Lewis Crutcher, a practicing architect of Portland, Ore. and member of the AIA National Committee on Aesthetics, will be guest lecturer in the Architecture Department April 11-15.

A member of the Portland Planning Commission and the Oregon Roadside Council, Crutcher is actively involved in what architects call "city renewal." He became interested in this after an extensive study of European cities made during a trip abroad.

Known as a community and campus planner, Crutcher is extremely well-qualified in the planning field," said Stanley Riffle, an architecture student who is organizing Crutcher's visit.

While on campus, Crutcher will lecture each day to a fourth-year design class; speak to the San Luis Obispo Chamber of Commerce; give a slide lecture Thursday at 8 p.m. in the Architecture Gallery; and conduct impromptu seminars during the week. Crutcher will be assisted

by his wife, Judith, also a practicing architect.

The Architecture Department invites several persons of exceptional talent to teach a design class each year. They are paid a regular instructor's salary for the week. Most of the guests are architects who cannot teach due to the demands of their practice. The purpose of this program is to give variety to the students majoring in architecture.

## Naval team visit

Officers from the U.S. Navy Recruiting Station, Los Angeles, and the U.S. Naval Air Station, Los Alamitos, will be on campus

until tomorrow in the Snack Bar. They will be available to counsel any interested students concerning the various officer programs in the U.S. Navy.

At the present time, commissions are available in Aviation, Engineering, Supply Corps, Medical Corps, and other specialties. The team will also be available to counsel women students interested in the WAVES and Nurse Corps. The Officer Qualification Test will be administered on campus.

For most programs, application can be made at any time after completion of the junior year. Processing of applications takes approximately three months. Those selected are ordered, after graduation, to the Officer Candidate school of their choice. There is no obligation incurred upon application.

## College Republicans

Twenty-one members of the Poly CCR chapter returned Sunday from Sacramento. The trip was the club's annual "Sacramento Trip," and this year was combined with attendance at the CCR state convention.

The group toured the state capital as the guest of state senator Vernon L. Sturgeon (R-Paso Robles.) Major GOP political figures spoke before the state convention of this "moderate" college Republican organization. Gubernatorial candidates George Christopher, Ronald Reagan and William Patrick were the major speakers.

The Poly chapter will sponsor the appearance of candidate Reagan here on campus April 10.

## CU Fine Arts

The College Union Fine Arts Committee is now presenting a Don Laviere Turner one-man art show in the Architecture Grading Gallery.

The show opened March 31 and will run daily through April 9. The hours are 10 a.m. to 5 p.m. weekdays and 7-9 p.m. Sat.

The artist works primarily in black and white abstractions and comes in the form of prints, etchings, wood-cuts and some oils.

The work on display comes from Greystone Manor in Cambridge, through Arnie Nyback of Gallery West.

**STUDY THE ISSUES...** Once again the time is near for the general student body election of ASI officers and, perhaps, voting on matters like student government reorganization or a student fee increase proposal.

In past weeks much study has been given to each of these areas. Student leaders are now solidifying their ideas on each. Soon it will be time for the students of this college to indicate their wishes on important issues affecting them.

Since last Fall a committee, headed by Dave Brown, has been looking at the problems of student government organization. Their report is nearing completion and we understand it will call for some basic changes. The recommendations will be complex in nature and scope and will have a strong impact on the future of this college. Students should make themselves familiar with the proposals as soon as they are officially presented because any major changes must be approved by the student body.

In the past few years several attempts have been made to secure an increase in the student fee. An unsuccessful attempt was made last Spring. Since January many people have been talking of again putting the matter before the student body. Last year much confusion existed about how the money gotten by a fee increase would be used. This confusion, in many people's opinion, was primarily responsible for the proposal's defeat in a close vote.

Whether student leaders decide to place the matter on the ballot will depend on many factors. Regardless of their decision, students should familiarize themselves on the plight of the activities program because of the tight financial condition existing. Perhaps a change in the goals of our activities program is needed. Many think so. Make no mistake, however, within the next two years some kind of fee increase proposal will be placed before the student body. Now is the time for students to start considering this problem of student finances so they can be an informed voter when the time comes for action.

As for the student body candidates, we hope there are many. We hope that those who become candidates will possess the ability and dedication to raise the standing of student government from the low place it now holds. We hope that the candidates address themselves to the problems confronting the student body and that they will take a clear stand so students have a choice and not have to take chance.

Our current ASI president and secretary have added a new dimension to their respective offices. But more must be done. The position of student government must be strengthened so that Poly can avoid an embarrassment like that of a major California university. At that institution a few years ago the reputation of student government was so poor that a candidate successfully ran for student body president on a platform to abolish student government.

The weeks before the election will be important ones. The issues are important enough to warrant greater student participation than in the past.

Robert Boyd, Editor-in-Chief

## Sales position open to students

A commission will be paid for each copy of the "El Rodeo" that is sold between now and the time they arrive on campus, which is about June 1st. Only good salesmen should apply. See Graduate Manager Bob Spink in the ASI office for more information.

## Project money

(Continued from page 1)  
available funds will also be considered.

The advisor or department head may recommend consideration of a grant proposal during the allotted time.

Students may also apply for a grant by submitting a written request to their advisor explaining each project and its costs. Each application must be endorsed by the student's advisor and department head before forwarding to the division dean.

The division dean will review the grant applications and award the grants.

The Accounting Division and the Engineering Division will receive 2000, and the Applied Arts and Sciences Division will receive

## State Senate Resolution praises Poly musicians

Editor's Note: The following was taken from the "Senate Daily Journal" of March 23, 1966.

The following resolution was offered: By Senator Veron L. Sturgeon, San Luis Obispo County, Senate Resolution No. 38, Relating to the California State Polytechnic College Music Department.

Whereas, The Members of the California Senate enjoyed and appreciated the brief concert presented in the State Capitol on March 23, 1966, by the Men's Glee Club of the San Luis Obispo campus of the California State Polytechnic College; and

Whereas, This fine college musical organization is the week continuing an annual tradition begun 25 years ago of using Cal Poly's spring quarter vacation period to visit high schools and entertain students at those schools with a program of vocal and instrumental music; and

Whereas, This year's tour will take the 60-student troupe into the upper San Joaquin and Sacramento Valley areas for 18 performances before high school audiences, thereby giving these high school students additional motivation to consider college as a further opportunity to prepare for leadership, citizenship, and professional and occupational careers; and

Whereas, The California State Polytechnic College does not have a music major but provides equal opportunity for each talented young man or woman to join with other students from more than 25 other major departments of the college in expressing themselves in a most wholesome and constructive way as members of many different musical organiza-

tions sponsored by the Music Department; and

Whereas, Cal Poly's Music Department has been under the most capable and talented direction of Professor Harold P. Davidson, who this year is celebrating his 30th year as head of that department; and

Whereas, The efforts of Professor Davidson to make music a part of the lives of all 7,000 students on the San Luis Obispo campus of Cal Poly is a tradition that has made music one of the most popular of all extracurricular activities at Cal Poly; and

Whereas, The Cal Poly alumni, students, faculty and administration are all proud of the fine record of its Music Department and particularly the dedicated work of its long-time music director, Professor Davidson; now, therefore be it

Resolved by the Senate of the State of California, That the Members of the Senate commend the Men's Glee of the California State Polytechnic College on its excellent blend of vocal talent and also recognize the 30th anniversary of Professor Davidson's directorship of this fine musical organization and the fine record that his former students have made as leaders and citizens in their respective communities; and but it further

Resolved, That the Secretary of the Senate is hereby directed to transmit suitable prepared copies of this resolution to Professor Harold P. Davidson, and to the Men's Glee Club of the Music Department of California State Polytechnic College.

Resolution read and unanimously adopted on motion of Senator Sturgeon.

## Three instructors judge at Grand National in S.F.

Three members of the faculty were named judges for this year's Grand National Junior Livestock Exposition, now in progress at the Cow Palace in San Francisco.

Richard F. Johnson and Russell Anderson, both of the Animal Husbandry Department, and Harmon Toone, head of the Dairy Husbandry and Manufacturing Department, are judges during the exposition, which has some 1,450 animals and better than 2,400 animals, according to L.C. Smith, president of the agricultural association which operates the Cow Palace.

Johnson is judging in the sheep division; Toone, in the dairy cattle; and Anderson, in the swine.

Some 850 girls and 800 boys in the 4-H division, representing 41 counties, and over 800 Future Farmers of America from 80 different schools are entered.

Livestock judging began Sunday, and an auction of market hogs will be held Wednesday.

Auction of market lambs will begin at 10 a.m., Thursday and market cattle will be sold that day starting at 1:30 p.m.

sheep blocking and trimming; and 4-H market lambs, were judged yesterday.

FFA and 4-H Herefords, milking Shorthorn, Guernseys, and Jerseys, and FFA market lambs will be placed today. Wednesday will be highlighted by 4-H and FFA livestock and dairy cattle judging contests. Merit award steers will be judged beginning at noon April 5.

### '66 Homecoming chairman needed

Plans for the 1966 Homecoming Weekend are now getting under way. A successful Homecoming requires a great deal of organization and planning coordinated by an active and well-staffed Homecoming Committee. The Executive Board of the Homecoming Committee is now accepting applications for sub-committee Chairmanships.

Applications are being accepted now and until Friday, April 15. The forms may be obtained from Box no. 25 in the ASI Office.

Chairmanships now open include: Publicity, Queen's Program, Queen's Pageant, Parade Route, Awards, Coronation Ball, Rally Dance, Half-time, Bonfire, and Alumni.

For further information please contact Ron Biekle, General Chairman.

## Cal Poly spikers win; run over Pomona Poly

A new school record in the polo vault highlighted the varsity spikers' 82-62 victory over Cal Poly (Pomona) last Saturday afternoon on the sister school campus.

Jerry Pyle vaulted 14-7 in his specialty to break the old school record held by Gary Walker at 14-0, which was set in 1961.

On the whole, the locals took 12 of 17 events with Jan Ham taking double victories in the 120 high hurdles in 15.4 seconds and 100-120 yd. dash in 24.4 seconds in 51.5.

Other first place winners were

Lenny Stenhouse in the 100 yard dash, D.D. Bon Laville in the javelin, 210-10, and Rich Jones in the high jump, 6-8.

There was also a sad note to the Mustangs' victory, when Jim Pope, winner of the shot put with a heave of 30-3 1/2, pulled a muscle after winning his event. He will be out indefinitely, according to varsity mentor Williamson.

The locals took on the spikers from the state at Hayward this Saturday afternoon here starting at 2 p.m.

Please don't  
zupf Sprite.  
It makes  
plenty of noise,  
all by itself.

Sprite, you recall, is the soft drink that's so tart and tingling, we just couldn't keep it quiet.

Flip its lid and it really flips. Bubbling, fizzing, gurgling, hissing and carrying on all over the place.

An almost excessively lively drink. Hence, to zupf is to err.

What is zupfing?

Zupfing is to drinking what smacking one's lips is to eating.

It's the staccato buzz you make when draining the last few deliciously tangy drops of Sprite from the bottle with a straw.

Zzzzzllupf!

It's completely uncalled for. Frowned upon in polite society. And not appreciated on campus either.

But, if zupfing Sprite is absolutely essential to your enjoyment; if a good healthy zupf is your idea of heaven, well...all right.

But have a heart. With a drink as noisy as Sprite, a little zupf goes a long, long way.

SPRITE. SO TART AND TINGLING. WE JUST COULDN'T KEEP IT QUIET.

MUSTANG HITS THE DIRT... Cal Poly's Tom Miller slides into second base during a recent home contest on the Poly diamond. The

Mustangs travel to San Fernando this weekend for a pair of games with the Matadors.

## Mustang baseballers lose, will meet Matadors Friday

The Cal Poly Varsity nine dropped three away games this weekend to bring their CCAA League record to 0-4.

The Mustang horsehiders met the Diablos of Los Angeles State

on Friday and traveled from there to San Diego to meet the San Diego State Aztecs in a double header on Saturday.

Taking the 8-1 loss for the Mustangs at Los Angeles was hurler Bob Dorn. Dorn was assisted by Chase Gregory, who relieved him in the fourth inning, and Gary McTaggart, who pitched the final two innings.

Dorn gave up seven hits with Gregory and McTaggart each giving up two while the poly batters managed to get eight hits off the Diablos' winning pitcher Dennis Lastusky.

Outfielder Al Montna was the big hitter for Cal Poly with three hits for four times at bat. Terry Ward pulled out of a long slump to take second place honors with two hits for four attempts including one triple. Ward was scored from third by outfielder Jim Blanks to post Cal Poly's only tally.

Poly was barely edged out in the first game of the double header on Saturday by a score of

4-3.

Bob Cluck pitched all nine innings for the Aztecs giving up only seven hits, while Poly hurler Jeff Hearn, Jim Montano, and Gary McTaggart combined to give up ten hits. McTaggart took the loss for the Mustangs.

Shortstop Dick Mueller, a transfer student from College of Sequoias, scored the first run for Cal Poly. Mueller got a base hit in the first inning and advanced to second on an error by the Aztecs' center fielder Jim Rupp. First baseman Greg Brown moved Mueller to third on a sacrifice bunt and Mueller scored from third on a wild pitch by Cluck.

Greg Brown scored the second Cal Poly run on another wild pitch after a base hit, and a double by Jeff Carlovsky.

Carlovsky scored the third and final run for Cal Poly, taking first after being hit by a pitch, then stealing second and scoring from second on a single by catcher Dave Titaworth.

The Poly nine was shut out for the first time this season in the seven inning second game by a score of 12-0.

Outfielder Jim Duncan and first baseman Terry Ward got the only two hits for Poly while the while the Aztecs totaled up thirteen hits.

John Fink started and finished the game at the pitching slot for the Aztecs while John Bryan, a transfer student from Bakersfield Junior College, started the game and took the loss for Cal Poly. Jeff Hearn and Chase Gregory relieved.

Next weekend the Cal Poly Varsity baseballers travel to San Fernando Valley to meet the San Fernando Valley State Matadors at Northridge at 2:30 Friday and 2:30 on Saturday.

### Ford power wins

Jim McElreath survived a win the 150-mile championship series of spine and accidents to car race at the Phoenix International Raceway, Sunday in a four-engine Ford car. Rodger Ward was second in a rear-engine supercharged Offenhauser entry.

# Mustang golfers win two

The Mustang golfers, under the direction of coach Charles Hanks, brought their season record to 3-8 by winning their last two matches.

The Poly golfers met the Diablos of Los Angeles State at the San Luis Obispo Country Club last Thursday and upset them by a score of 38-16.

Low medalist for Poly was team captain Corky Nelson at 72. Low medalist for L.A. State was Arne Dokka who tied Nelson at 73.

On Saturday the Mustangs again played at home, meeting and downing the team from Long

Beach State by a score of 31-24.

Low medalist for the Mustangs was again Corky Nelson with a four under par 69. Low medalists for the 49'ers were Williams and Brown both at 77.

Results: Cal Poly vs. Los Angeles State, Corky Nelson CP d. O'Connor LAS, 6-0; Steve Frank CP d. Elsworth LAS, 6-0; Arne Dokka LAS d. Tom See CP, 6-0; Ken Tally CP d. Moore LAS, 5-1; Fairy LAS d. Swenson CP, 4-2; Pederson CP d. Dival LAS, 6-0.

Team play: Nelson-Frank CP

NCAA WINNER... Rick O'Hannon, Cal Poly's top trampoliner, took ninth place last weekend at Penn State in University Park, Pa.

## Colt nine takes pair

The Cal Poly Frosh baseball team downed the Fresno State Frosh team in both games of a double-header on the Cal Poly diamond last Saturday.

Coach Ashley's Colts took the first game by a score of 3-2 with Bill Maxson going all the way, taking the win.

Maxson also ended up being credited with the win in the second game.

Hurler Ed Dutra started the second game for the Colts with Harry Langston, and Mike Blane relieving. Maxson was brought in to relieve Blane and was thus credited with the spectacular 19-16 win.

Standouts for the Colts were Mike Maronien, who went six for eight trips at bat during the two games, turning in two home-runs, one triple, two doubles, and one single and Jimmy Abbott, who hit a pinch hit three run homer in the last inning to win the second game.

## TA instructor goes on ROTC tour

J.M. McRobbie, head of the Technical Arts department, recently completed a trip with the Army ROTC Civilian Educators Tour. He was one of ten college and university educators from Montana, Washington and California to be invited on the tour by Sixth Army.

The purpose of the trip was to make college educators aware of the advantages of Army ROTC and Army Reserve programs. Training standards, teaching methods, and college curricula were stressed as important factors leading to career preparation in leadership, administration and human relations to and extent not always reached otherwise.

Upon returning from the trip, McRobbie reported that "this Civilian Educators Tour was professionally very inspiring. Many of the benefits from participating in this tour... have already resulted in a strong personal

## Coordinators plan more conformity

Moves to divert more students from four-year public institutions of higher education to junior colleges, led to bring junior colleges into fuller partnership in curriculum determination have been made by the California Coordinating Council for Higher Education.

To accomplish the former, the Council approved resolutions which increase the difficulty of entering the State Colleges or Universities as a first-time freshman and which make it easier for a junior college transfer to enter the four-year institution of his choice as an advanced student.

In addition the Council spurred the four-year schools to conform with a 40-60 ratio of lower divi-

sion to upper division enrollment. The Master Plan for Higher Education called for this ratio to be achieved by 1975. It would tend to shift more beginning students to the junior colleges.

In a separate resolution, the State Colleges were commended for progress made toward the 40-60 ratio, but the University was criticized for lagging in this regard.

The junior colleges were given a new opportunity to solve a long-standing dilemma of providing courses which would satisfy the general education requirements of the State Colleges and the "breadth" requirements of the University.

The Council requested college and university representatives confer with junior college officials "to develop mutually acceptable policies concerning acceptability and transferability" of courses and report back next spring.

Traditionally the faculties of the four-year schools have determined these policies. University President Clark Kerr and State Chancellor Glenn S. Dunker agreed they should not be changed except in consultation with faculty representatives. In this they were joined by Dr. John C. Linton, president of the Statewide Academic Senate of the State Colleges.

Dr. Henry Tyler of the California Junior College Association fretted at the delay, pointing out that such negotiations five years ago led to nothing. However, he agreed in light of the one-year limitation.

A proposal by the Coordinating Council staff would in effect have reversed the traditional process and allowed junior college faculties to determine course acceptability.

**General Electric is an easy place to work.**  
**All you need is brains, imagination, drive  
and a fairly rugged constitution.**

Oh, yes. Something else that will help you at G.E. is an understanding of the kind of world we live in, and the kind of world we will live in.

There's a lot happening. The population is continuing to explode. The strain on resources is becoming alarming. At a time when men are being lured by the mysteries of

space, we're faced with the task of making life on earth more livable.

There's a lot happening at G.E., too, as our people work in a hundred different areas to help solve the problems of a growing world: Supplying more (and cheaper) electricity with nuclear reactors. Controlling smog in our cities and

pollution in our streams. Providing better street lighting and faster transportation.

This is the most important work in the world today. Helping to shape the world of tomorrow. Do you want to help? Come to General Electric, where the young men are important men.
