Dome will house migrant workers

A geodesic dome, designed and built by the third year design class of the architecture department, will serve as an experimental housing unit for migrant workers this summer.

Sanford Hirshon, consultant architect for the State of California Office of Economic Opportunity, visited our campus this week to talk on the construction of the housing unit and its applicability to farm labor. At present, the migrant workers have very poor, substandard housing.

Low-cost plastic housing units are now in production. Challenging present designs, architects students, headed by Ben Bhagat, their instructor, have had no previous experience in this work, undertaken to design a portable, low-cost housing unit made of steel. Hirshon offered criticisms and added a realistic atmosphere for the students working on the project.

Class members designed different solutions to the problem. Ugo Ebin, Ralph Taylor, Jack Harless, Larry Medlock, Henry Rand and Mort Awe all worked up the winning design. Jullie Petras and Al Ditrich are also working on the project this summer.

The dome is prefabricated in the shop and is easy to transport and erect. Bhagat estimated that it would take about 35 man hours to erect the structure. Each panel is pre-cut for strength, allowing the formation of a roof and walls without supporting structures.

The class is now completing the interior and submitting steel for the initial plywood-base ventilators.

The dome is capable of housing an average family of six to eight people. It has a floor area of 205 square feet and a living area of 100 square feet. The dome consists of three rooms, a living room, a sleeping area and an up stairs sleeping or storage. The kitchen and sanitation facilities are completely portable, becoming effective by simple plugging.

Holter Manufacturing Co. of Kansas City, and Morrison Co. of St. Louis helped sponsor the project. Each donated $1,200 to help defray costs for materials, fabrication, and experimentation.

John Healey becomes Acting Department Head

John Healey, a member of the Technical Journalism Department since 1965, was recently appointed to be the Acting Department Head.

The appointment, following the resignation of Professor Julian A. MePhee, is a return to the faculty pool with R. S. Demko, the acting head, until a permanent department head is named.

"At this early date, I have not yet formulated any definite plans, but I do plan to update the Technical Journalism Department as much as possible," said Healey.

The initial plans at July 1 before a journalism department was established, Healey was a reporter and assistant in the basement of the old Administration Building.

Healey served briefly as an editor, and considered himself to be a permanent department head.

Migrant Worker Housing Constructed

Bennett Bhagat, design instructor, and Sanford Hirshon, consultant architect for the State of California Office of Economic Opportunity, inspected the geodesic dome, designed by architecture students as an experimental housing unit for migrant workers.

Advisory committee invites presidential nominations

By way of report, the committee chairman, said that some 91 nominations have been received from the Chancellor's Office. The names have already been compiled and another is stated to take place shortly. He reported that one of the committee's primary interests is in the consideration of candidates in their appropriateness to Cal Poly-type programs and philosophy.

Advised the responsibility of developing a list of five candidates.

Foreign students tour horse ranch

The foreign students, who are visiting Cal Poly for the summer session, have been invited by the Host Club to tour Varian's Arabian Horse Ranch in Arroyo Grande and the Royal Oak's Dairy in Orcutt. Trip will be on Saturday, July 22.

Included in Saturday's schedule will be a lunch stop at McCherney diner. The Cafeeteria will provide box lunches, hot showers, tickers or a lunch may be purchased for $1.50. Lunch orders must be placed two days ahead and picked up by 4:30 p.m. on Fridays.

Since all of the tours will include lunch stops, it would be advisable to plan on purchasing a lunch or to bring one along.

The foreign student office will continue to offer a variety of trips throughout the summer. Among the excursions planned will be a tour of the Santa Ynez State Park, the Santa Barbara and other places of interest. The admission charge will be $2.00. This particular trip will take two hours and will include a lunch stop at the Casa de la Guerra, also in Santa Barbara.

Transportation for the summer tour program will be provided by the Host Club and volunteers from local clubs and organizations in the Santa Maria area.
Activities office suggests revisions of campus organization procedures

A two part study concerning both on and off-campus activities has been completed by the activities office.

The first objective of the study was to undertake a cross-sectional review of membership requirements with emphasis on the associate member in campus organizations. The second objective was focused upon the need for a statement concerning participation in off-campus activities by recognized groups of the Associated Students Incorporated.

The study resulted in the following proposals to be submitted to the Business Department for final adoption:

1. Activities office suggests revisions to the code so that:
   a. A two part study concerning both on and off-campus activities by recognized groups of the Associated Students Incorporated.
   b. The study resulted in the following proposals to be submitted to the Business Department for final adoption:

   1. Active membership may include only registered students.
   2. Only Active members may attend whatever activities the organization may designate, but they may not vote, delegate, hold office, or represent the organization.
   3. In all cases of interpreting membership sections of students organisation by-laws, it shall be made paramount that student organization be chartered by the college to enhance the educational objectives of the institution.
   4. Active members of the campus organization may be denied membership privileges through any membership clause in the by-laws of a chartered student organization.
   5. The Student Activity Guide will be also be affected. Paragraph 3.8 will include the following in the 1966-67 edition:

      Off-campus Activities

      3.91 All Associated Students Incorporated organizations shall, in their off-campus activities, refrain from action that might be considered unlawful, un-American or detrimental to the image of Cal Poly.

   The study of organization procedure of the campus organization will include limited students, regular students, graduate students and the faculty advisor if the club so desires.

   2. Only Active members may participate in meetings, he selected to office, and delegate, or represent the organization.

   3. Associate members may attend whatever activities the organization may designate, but they may not vote, delegate, hold office, or represent the organization.

   4. In all cases of interpreting membership sections of students organization by-laws, it shall be made paramount that student organizations be chartered by the college to enhance the educational objectives of the institution. Individuals and/or groups outside the college shall not be permitted access to influence student organizational affairs through any membership clause in the by-laws of a chartered student organization.

   The student Activity Guide will also be affected. Paragraph 3.8 will include the following in the 1966-67 edition:

   Off-campus Activities

   3.91 All Associated Students Incorporated organizations shall, in their off-campus activities, refrain from action that might be considered unlawful, un-American or detrimental to the image of Cal Poly.

The study was submitted to the Business Department and will be processed by B.A.C. next fall.

The California Rodeo Association invites all Associated Students Incorporated members to attend the annual meeting on Aug. 25-28. A craft union of the AFL-CIO, the California Rodeo Association has a membership of approximately 10,000 members.

This program, an industrial relations institute, will present all the latest developments in the field of concrete, reinforcement, rigging, and law training in the field of concrete, reinforcement, rigging, and law.

Attending the institute will be journeymen ironworkers who are included in the program which will assist those who are involved in the ironwork.

Children's books exhibited at library

The 15th Annual Books on Exhbit are on display in the Curricular Library.

This book exhibit is a display of children's books published throughout the year. It is made available to everyone, but it is especially helpful to visiting teachers, here for the summer, taking refresher courses. It is hoped that these teachers will find it helpful in ordering books for their libraries.

"This is a good selection of children's books published throughout the year," stated Glenn Whaley, reference librarian in the Curriculum Library. He also stated, "Cal Poly has had this exhibit many times in the past."

The divisions of books on display represent two major age groups, which include the elementary grades, ranging from kindergarten through sixth grade, and the junior high, ranging from seventh to ninth grade.

The exhibit will be on display until August 8. The National Book Exhibition Service makes this outstanding new library books of the year available to schools systems. The top 60-70 juvenile and trade publishers submit these books for the exhibit. The collection is both representative and complete. Books on Exhibit is sponsored by Books on Exhibit Incorporated of New York. They operate under the state and county education department, or libraries. This service is available in all 50 states.

One-woman track team aims towards Olympics

Chris Isaksson, 28-year-old, 5' 5" in graduate from Salinas, is known as the Cal Poly one-woman track team. She graduated from Poly in 1960 and has spent the past year as a graduate student working for her credential as an assistant, physical education instructor.

On June 30, July 1-2, Miss Isaksson competed in the National AAUW Championships at Fredrick, Maryland. She ran in the 440, capturing third place with a time of 58.3, her best mark. Through efforts of people in the area, a special fund was established. Miss Isaksson was also able to earn her living at the Maryland championships.

Miss Isaksson has been running for the track team last year placing sixth in the 100 and fourth in the 200 and 400 meters. She also placed eighth in the 880 meter run.

Students live it up in staff dining hall

About 100 Poly students are exploring a change from the mass feeding situation of the cafeteria by eating in the staff dining hall. This is the first summer that they have been able to live in the dormitories.

Students like to live it up in the staff dining hall, a new experience for them. The staff dining hall offers a wider variety of food and more time to enjoy it. Many students prefer the informal atmosphere and the opportunity to socialize with their friends.

Males and females reside compatibly

Twenty-one girls are presently living with 150 men on campus. Actually, things aren't so risque as they seem, because the girls are quite separated from the men.

The first floor of Mauer Hall houses both men and women summer student residents. The women occupy the north wing, and the men, the south wing. Male students also live on the second and third floors of the brick dorms.
