

Campus Capers

Clubs sponsoring events at El Mustang are asked to place the advertisement and details in CA 23. The material must be in El Mustang room if it is to appear in the Tuesday issue or by Tuesday noon if it is to appear in the Friday paper.

Business workshop

The Society for the Advancement of Management and the Technical Arts Society are jointly sponsoring a two-day seminar entitled, "Corporate Problems of the Sixties." Dan Fraser, regional marketing manager for Pacific Telephone, will deliver the keynote address beginning the conference at 11 a.m., Thursday, Feb. 23, in the AC Auditorium.

Panel discussions, headed by men active in business and industry, follow the keynote address. Sixteen two-hour panels, four taking place at a time, will be formed over Thursday and Friday. Topics include "Advertising," "Business Forecasting," "Union Management" and "Business Development."

Representatives from Xerox, IBM, General Dynamics and other large corporations are attending the seminar. All students are welcome at the discussions.

SDX speaker

Jim Festal, national award-winning photographer, for the Telegram Tribune will be guest speaker at the Thursday meeting of Sigma Xi Chi, National Journalism Society, beginning at 8 p.m. in Sci. N-15.

Festal, who will be showing a collection of slides of his award-winning work, will be the fourth in a series of lectures being presented by SDX during the Winter Quarter.

Other speakers hosted by SDX were Owen Servatius, head of the Business Administration Department; David Byrnes of Byrnes Company, Visalia; and Dr.

Doug Miller, publications director for the college.

The public is invited to attend.

Math club speaker

Mr. Malcolm Thomas, engineer with the Thor-Agena operations at Vandenberg AFB, will be the speaker at the next Math Club meeting. He will show a film on the Gemini 11, and will talk on the part mathematics has played in producing the results of the film and the future applications of the mathematics in space programs.

The next meeting will be Thursday, at 7:30 p.m. in Ag 231. Refreshments will be served.

IEEE speaker

IEEE, Institute of Electronic and Electrical Engineers is sponsoring

Frederic Stanley Howell to speak on "Telemetry Systems" at 7 p.m. tonight in the A. C. Auditorium. The meeting is open to the general public and refreshments and door prizes will be offered.

Mr. Howell is employed by Aerospace Corporation at San Bernardino where he is a member of the Sleigh Ride Project Office. Prior to joining the Sleigh Ride Project Office, he organized and managed technical support groups in the technical areas of Test Range Instrumentation, Range Safety, and Test Planning.

son and the Circus will provide music.

Poly Range Riders

Poly Range Riders will have officers in the Snack Bar on Thursdays from 11-12 a.m. and 4-5 p.m. and on Fridays from 11-12 a.m. to meet with students who wish to ride. This will allow them to obtain insurance. Insurance is mandatory. For information, call 544-3325.

Management speaker

Dr. Ellis E. Darley, plant pathologist at the University of California, Riverside, Statewide Air Pollution on Agriculture.

The lecture will be held in the Air Conditioning Auditorium this Thursday, at 10 a.m. Dr. Darley will be sponsored by the Farm Management Department.

Concert band set for first program

The first annual winter concert of the concert band will be held in the Little Theater Thursday at 8 p.m.

Under the direction of William V. Johnson, the band will play a varied program. Among the numbers selected are "El Capitan" by John Philip Sousa, "Prelude and Fugue in D Minor" by Johann Sebastian Bach, "Days of Our Glory" by John Caenivas and others.

Admission to the concert is \$1 for adults and 50 cents for students.

College Union dance

College Union Dance Committee is sponsoring a dance tonight in the Snack Bar from 9 to 11 p.m. The charge is 25 cents per person.

Letters to the Editor

Evaluation amusement

Editor:

I have viewed with non-committal amusement the controversy which at the present seems to be raging amongst the powers which be with regards to the possibility of evaluation of the faculty by the student body. As an average Poly student, one who seldom joins many causes or crusades, I was content to survey the goings on without a great deal of emotion or opinion until I read an article on the front page of the February 1 issue of El Mustang.

I am a transfer student. I served two years in a junior college near San Jose; my father has worked at San Jose State College for over 14 years. I consider myself a better-than-average judge of the way students in general feel. I don't think I'm sticking my neck out too far when I say that it is my opinion that a relatively small, and therefore, ineffective, percentage of the student body would put such a proposed evaluation to the use for which it is doubtless envisioned, that is, to choose instructors on the basis of the ability to teach and their fairness in grading.

As we all know, registration at Poly affords few students the luxury of leaving the gym with the same list of classes as was taken in, much less picking and choosing one's prospective classes on the basis of the instructor's rating. It just doesn't work that way.

Moreover, by admission of the article which sparked this letter, "the questionnaire has been watered down to the extent that very few faculty members would receive a poor rating in the published evaluations." So, if this be the case, what is the practical use of such a program? Is it to be a no-meaning vent for the disgruntled students to ineffectively and anonymously strike back at what they consider unfair practices? Or is it intended to become a device by which the instructors could discover firsthand which is the most popular

In the easy-grade poll? Perhaps not, but this is how it looks to me. And, I think, some of the faculty.

On the other hand, the El Mustang article also included what may well be the key to solving the faculty's reluctance to evenize a poll of this sort, namely, one with more teeth. I refer to the "well-known" instructor who reportedly threatened to "malice" if the student body added that same faculty member to the list. This is a statement that an instructor would be asked to bar publication of the evaluation. This is amazing. Indeed, pathetic. This is the notion of a frightened individual. How he rationalized this performance escapes me entirely.

Before this innane, childish outburst of a "grow-up" student by the possibility of his chronological and educational attributes exhibiting their opinion of him, I had paid little more than token interest to the whole topic. Now, however, I think that the SAC has struck a raw and erstwhile well-protected nerve. Whereas before, when the evaluations meant very little to me, either as a student or an employer of the instructors, I tended to disregard them as usually meaningless.

But now, in the light of the quote of the "well-known instructor", my interest has peaked considerably. Perhaps the evaluations are not such a wicked and trivial affair after all. One is reminded of the fable of the bad wolf making the most noise. Or, the old maxim, "The guilty few are not pursued." Could this be the case?

Is it an irrational anger caused by subordinate evaluation of others, or is it a justifiable fear of being ferreted out as incompetent in the eyes of those who sit in the faculty community? Or, possibly, am I off base completely?

W. Don Miller
Aeronautical Engineering student

Art works on display in Library

Scrigraphs by artist Phil Paradise are now on display for two weeks in the lobby of the Library.

The free art exhibit, which is being sponsored by the College Union Fine Arts Committee, will be open to the public during normal library hours.

The serigraph is a silk screen

process which utilizes as many as 32 different applications of color. Creation of a limited number of prints in each color enhances the intrinsic value of an original serigraph print.

Paradise is a resident of Capra, where he divides his time with six months of serigraph print making and six months of painting in oils, caseins or watercolor, and sculpture.

He received his early training at Chouinard Art Institute in Los Angeles, and later studied with F. Tolles Chamberlain, Clarence Hinkle, and Leon Kroll, all of whom are great teachers of art.

Engineering senior turns down the moon!

A job at Southern California Edison offers more excitement.

The race to the moon almost seems tame to Edison.
We're racing Southern California. In the next 10 years, we'll serve an estimated 2 1/2 million more people.
The race to keep pace, electrically, demands creative engineering of the highest order.
Edison is completing a nuclear generating plant at San Onofre, California. In fact, our staff is already making plans 20 years ahead. Under study: thermionic, thermoelectric, magnetohydrodynamic, and other methods of direct conversion that show promise for tomorrow's power systems.
Sound exciting enough for you?
If you're a candidate for a bachelor's or advanced degree in electrical engineering, mechanical engineering, civil engineering, industrial engineering or chemistry, you may be our man.
Phone (213) 624-7111 or write:
Mr. M. T. Jurewitz
Southern California Edison Co.
P.O. Box 351, Los Angeles
California 90053
Then when somebody offers you the moon, you can tell him you have a better offer.

Sports

Wrestlers capture CCAA crown

Coach Vaughan Hitchcock's grapplers will all put the icing on the 1967 schedule by entertaining Cal Poly Pomona March 3 in the Men's Gym. Match time will be at 8 p.m.

The Mustangs will be just going through their paces Friday as the match results will mean very little. Hitchcock's wrestlers wrapped up their fifth straight CCAA crown by stomping near-east conference competitor Fresno State 20-11 on Feb. 10.

On Saturday the Mustangs will travel to San Fernando Valley State for the conference tournament. The season conference results prove the tourney should be a back and forth battle between the Mustangs and Fresno State. Matches will begin at 11:00 with weigh-ins slated for 7 a.m.

The second loss of the season was notched on the ledger as the Oregon State Beavers made it five wins in a row by defeating the Mustangs 16-15 in the Men's Gym over the weekend.

The actual team score of the match wasn't decided until the final bout of the evening as Mustang Heavyweight Greg Barnett dropped a 4-1 decision to Oregon's Mark Gartung.

Jesse Flores, 130 pounder, and Kent Wyatt, 145 pounder, recorded the first Mustang points of the match with 8-4 and 19-5 wins respectively. By winning the Mustangs and Beavers were tied at six all.

Team captain John Miller boosted the team scoring margin for Hitchcock's matmen by pinning Phil Frey with :01 remaining in the second period. Miller had a 2-0 lead in the match before he cradled the Oregon sophomore as the buzzer sounded.

With the score 11-6, 160 pounder Dean Hilger and Lauren Johnson battled to a 1-1 draw. There was no scoring in the first period, and the only scoring came on escapes by both men in the second and third periods.

Terry Wigglesworth, 167 pounds, lost a narrow decision to Jeff Smith to the tune of 2-1. After a scoreless first period Wigglesworth recorded the first point on an escape with 2:55 remaining in the second period. Smith, with just 1:57 left in the period, got a takedown and held a 2-1 margin. Wigglesworth tried everything in the book but was unable to score any points in the third stanza to absorb the loss.

With the team score at 13-11, 177 pounder John Woods pulled a draw with Oregon's Jim Blackford 3-3. Blackford scored the first points by reversing Woods in the second period. Woods tied the score in the third by reversing Blackford but was unable to hold him down as he scored an escape.

LaRoche leads

Mustangs to close win over Long Beach

With the really big one coming up, the Mustang hopsters are up for their final home court encounter.

Coach Stu Chestnut's magnificent five, fresh from a 67-61 victory over the Long Beach Forty-Niners Saturday, will close out the 1968-69 California Collegiate Athletic Association league season by hosting the Bulldogs of Fresno State Friday in the Men's Gym.

Mustang forward Mike LaRoche led 22 points Saturday to his all time school record which he broke last Tuesday night against the Westmont Warriors. His mark now stands at 634. The old mark was made by Rally Ronnsvall.

In the 1961-62 season with 478 points.

Long Beach went into the locker room at the half with a 39-31 lead but whatever Coach Chestnut said to his boys must have struck home because the Mustangs hit for a commanding 39 points compared to the Forty-Niners 25 in the final half to win it in a real crowd pleaser.

Forward Les Rogers hit for 14 points and center John Hindenach stuffed in 12 to give the Mustangs that extra push.

High point man for the Forty-Niners was center John Broeske who hit for 15 while forward Don Ludwig was close behind with 14.

The game was actually won at the free throw mark by the Mustangs because Long Beach shot them in the field goal department 29-27. The Mustangs sank 13 of 18 attempts at the charity line while the Forty-Niners could only make 6 of 13.

Letting an 11-point lead slip out of their hands, the Mustangs lost a real heartbreaker to the San Diego State Aztecs, 66-64, in a league contest played in the Men's Gym Friday.

The Mustangs were out in front 37-31 at the intermission.

In the second half the Aztecs tied the score at 55-55 and went ahead to stay at 60-55 on a pair of free throws with 5:59 remaining to play.

Baseballers drop three to Santa Barbara Gauchos

With the snow yet to melt, the Mustang baseballers opened their 1967 season on the home diamond Friday.

The Mustangs opened a 40-game schedule against the Gauchos of Santa Barbara but had a little trouble in coming around as they were promptly shelled 16-6 in a non-league contest.

On Saturday, the Mustangs had a trip down to the Gauchos' diamond for a non-league double-header but ran into some early snow problems and were beaten 10-3 and 4-3 by the U.C. of Santa Barbara squad.

With 11 lettermen in the fold and a cluster of promising sophomores ready for varsity action, Coach Bill Hicks anticipates a big improvement as the team progresses this spring.

A year ago the Mustangs finished sixth in the CCAA with a 14-16 record and had an overall mark of 10-24.

Second baseman Tom Everest leads the list of returning lettermen. The Golata junior hit .301 last season to lead the team. Dick Maeller, Visalia senior, was runner-up to Everest in hitting with a .296 mark. He'll shift from shortstop to third base. Redwood City junior Craig Brown, third leading hitter among regulars last season, will move from center to right field. He hit .259.

Jeff Carlovsky, the Chula Vista junior who quarterbacked the Mustang's resurgent football team last fall, will be used in left field. As the regular third sacker in '68 he hit .231. Coach Hicks is expecting big things from both Carlovsky and Brown.

Southpaw Bob Dorn, La Canada senior, must lick a control problem to improve upon last year's 4-10 record. His 91 innings pitched made him the workhorse of the staff. Right-handers Chase Gregory, La Canada junior, and Jim Montano, Montebello senior, are expected to team with Dorn in the Mustang rotation.

Both are extensive duty last season with Gregory posting a 1-6 record and Montano a 1-2 mark.

Other returning lettermen are: pitcher Jeff Hearn, Lafayette senior; outfielder Pete Jakovich, Fresno senior; outfielder George Montgomery, Arroyo Grande senior; and catcher Nick Salvetti, Stockton senior.

"We'll have a great deal more experience than we did last year," Hicks commented. "Last season

Injuries hamper Mustang gymnasts

As expected, the Mustang Gymnastics team is greatly improving with season experience. Coach Vic Burcola commented that although the scores have not favored the Mustangs, the team is giving some fine performances as they enter the middle of the season.

While still hampered by injuries the Mustangs lost to San Fernando Valley State, 136-30 to 100-00, on Feb. 11.

This past weekend the Mustangs traveled to San Diego to take in San Diego State and Cal State Fullerton in a tri-meet.

San Diego took top honors with a score of 109.80, the Mustangs were second with 116.70, and Fullerton with only one man entered was third, with 31.55.

This weekend the Mustangs host Cal Poly Kellogg-Voorhis and U.C. Irvine in the Men's Gym at 7:00 p.m. on Saturday.

LaRoche was the game's leading scorer with 22 points while Bob Lundgren and Al Skalecky lead the Aztecs with 18.

The Mustangs made 24 of 68 field goal attempts and San Diego made 27 of 73.

LaRoche pepped in 28 points in the Mustang's 107-90 win over the Westmont Warriors last Tuesday in the Men's Gym.

The Ventura athlete also established a new school field goal record, accounting for 190 fielders to erase his own mark of 176 established last year.

The Mustangs will go into Friday's game with a 13-11 season win-loss record and hope to keep their winning season on track.

Turner first

Cecil Turner, Mustang sprinter, won the 60 yard dash in the Golden Gate Invitational held in the Cow Palace in San Francisco last weekend.

Turner was clocked in 6.1 as he nosed out O. J. Simpson of USC, and Bob Griffin of San Jose State. Turner's previous fastest 60 time was 6.2.

Later in the meet, Turner placed third in the 100 yard dash with a time of 16.8. His previous best was 17.5. Winner of the event was Ernie Smith of Oregon State University in 16.6 and Griffin was second in 16.7.

Fill yourself in on the career opportunities at AC Electronics.

1. This Midwestern, well-known, gateway city is the headquarters for AC Electronics.

2. You could be contributing to the success of this brilliant mission.

3. You might be working on the guidance control system for this manned space project.

4. You can play an important part in developing the guidance, navigation and control system for this manned space venture.

5. You can be associated with the company that is the leader in this scientific field.

ANSWERS ON PAGE 4

If you filled in the puzzle correctly, you've probably guessed we're in the business of guiding vehicles. In a plane, missile, ship or orbit, chances are we're at work on a guidance, navigation or control system for it.

For instance, we're building the guidance/navigation system for Apollo and LM (Lunar Module); we're working on INS (Inertial Navigation System), the new Self-Aligning Inertial and Gravity system for missiles; on the Manned Orbiting Laboratory (MOL); on the Titan III-C Space Booster; and on various systems for spacecraft and satellites abroad in the future.

We're also working on the Navy's Self-Contained Navigation System (SCNS) for the Navy's fire-control system for the new Navy Battle Tank; a joint U.S.-Federal Republic of Germany program; and advanced digital computer development for other military, space and commercial applications.

You might like to know that we take your career growth seriously here at AC. Our Career Acceleration Program includes "in-plant" instruction. There is also a Tuition Refund Plan available for any college-level course taken to advance your career.

If you're considering your B.S. or M.S. degree in E.E., M.E., Math or Physics, check into the exciting career opportunities at any of our three locations - Milwaukee, Boston, and Santa Barbara. See your college placement officer or write: Mr. R.W. Schneider, Dir. of Scientific & Professional Employment, AC Electronics Division, Dept. 0753, Milwaukee, Wisconsin 53201.

P.S., please note: positions are available in all three AC locations, depending upon concentration of study and area of interest.

And a new Turbo Hydra-Matic transmission for the driving man.
If you get tired of shifting, put it in "D".

Even a driving man's man can get tired of clutching and shifting in a traffic jam. But there are times when you want to stir your gears by hand. A dilemma! Until now, that is. Now you can order Turbo Hydra-Matic in the SS 396. It's an automatic transmission you can shift—really shift—for yourself. Feeling lazy? Slip the selector into Drive and relax. Want to play expert? So make beautiful music on the gearbox. In the Chevelle for the driving man, it's up to you.

Roving Reporter

by Dennis Roberts

Is marriage outdated?

Diane Johnson-Home Economics-Sophomore
"Heavens no! It's been an institution for a long time. And anyway most people have enough moral values to think that living together without being married is wrong!"

Brian Husted-PE-Senior
"For some people, yes. Some people never settle down. For others marriage is the best thing. Personally, I like being single. I don't think a guy should get married till he's 25 or 30."

Bob Lovelock-Electronics-Sophomore
"Marriage is to provide shelter and love for children. If two people love each other, they can live together and raise children without marriage. If they don't love each other, a legal marriage won't provide a good home anyway."

Casey Allison-Zoology-Freshman
"I feel about the same way Bob does. Marriage does tie you down. But if a person thinks he can live with someone for the rest of his life, he should get married."

Patricia Gots-Engineering-Junior
"Some people think so. But I see it as a still-popular venture. Men, are you with me?"

Dennis Maher-Business-Sophomore
"Marriage is still beneficial as far as our society is concerned—to bring up children for the good of the society."

Harold Hilder-Business-Freshman
"No I don't see how you could consider it outdated. True, lots of people abuse the privilege of getting married. But it's still the best thing we have."

Duo-pianists play to large audience

The music program is like a mixed little bit of corn and a whole lot of ham."

CCR to present state senator

The California College Republicans will present State Senator, Sam G. Schmitt, in a meeting Saturday.

Schmitt, from Orange County, is the only member of the John Birch Society to hold a seat in the state legislature today.

The speaker will speak on many important topics to students, such as, defense, of which he is a leading advocate.

Students from the audience will be accepted. Students, teachers and the general public are invited.

The meeting will be in the Staff Union Hall, at 1 p.m. A donation of 50 cents will be charged.

Fresh track stars seek varsity spots

Eleven men have moved up from the freshman track team of last year to bid for spots on the varsity squad.

Fred Campbell set the freshman record in the 100 yard dash last year with a time of 15.0 seconds and will compete in that event this year.

Ruben Smith ran the 100 yard dash and was a triple jumper. He holds the freshman conference record of 9.8 in the 100 and has jumped 43 feet 8 inches. Sprinter Dave Scott, who ran 10.0 in the 100 last season is moving up to the 440 this season.

Competing in the 440 intermediate hurdles will be Richard Friedman who has a best time of 58.0. Ron Higgins with a 2:06 in the 880 last year will compete in the same event or the mile.

Bob Wharton, Lyons' record is 4:18 and Wharton's is 4:28. Steve Ferguson, 4:11, and Art Smith, 4:11, are the top mile runners with best times of 9:34, 9:49, and 10:25 respectively.

Varsity trackmen return to improve season's records

Seven spikers are returning from last year's varsity as Coach Dick Purcell begins his first season as head track coach at Cal Poly.

Fuller Terry Record returned for his final year of college track competition after setting the school record of 9:13.1 last season.

Tim Baker, half-miler, with a best time of 1:53.4 last year, is aiming for the school record of 1:48.

Senior Richard Terrell will be out to improve his marks of 6 feet 6 inches in the high jump, 14.7 seconds in the 120 yd. high hurdle, and 22 feet 11 inches in the long jump.

Larry Stenhouse, sprinter, ran a constant 10.0 seconds in the 100 yard dash and also ran in the quarter mile relay. Jim Crow will repeat in the intermediate hurdles in which his best time was 1:00 seconds last season.

Swimming to the 440 yard intermediate hurdles will be Cliff Starn who, last season, ran the 440 yard dash in 50.6 seconds.

HIRT'S HIRTIN FIVE . . . Hirt's men won the first annual Administration vs. Temporary College Union basketball game, 9-8, held Friday night. Lauri Martin, assistant to Dean Everett Chandler, goes for two points while Jim Sefton, of Spink's Spare Tires, follows. The game was sponsored by Rally Committee.

Instructor named naturalist scribe

David H. Montgomery, Biological Science instructor, was recently elected secretary of The Western Society of Naturalists.

He was named during the annual meeting of the group of 600 scientists which was held at Long Beach State College this year.

Montgomery has recently received recognition for his research concerning the escape reactions of abalone to a substance familiar to a particular species of starfish. His presentation to the convention of scientists was a paper on this subject which will also be published in the Veliger in April.

The studies were conducted in Morro Bay at a small lab which was constructed for the purpose of studying abalone for commercial motives. It was built by Montgomery and Dr. Fred Clogston, also of the Biological Science Department.

Montgomery is also publisher of the magazine, "Directory of Marine Sciences Programs and Facilities on the Pacific Coast." It establishes closer contact among the marine biologists on the West Coast from Canada to Mexico.

It was begun in 1962 with a

National Science Foundation grant and is now supported by contributions. It lists fifty stations, giving the facilities, programs, personnel, location and expenses of each.

Montgomery received his B.S. from Cal Poly, San Luis Obispo, in 1954 and began teaching here two years later when he received his M.A. from College of the Pacific. He has been a member of the society since 1952.

Withdrawals due

The College Catalog states: "Except for College emergencies, no withdrawals from a course will be permitted after the seventh week of instruction." The seventh week of instruction ends at 12 noon on Saturday, Feb. 25.
