### Cal Poly Concrete Canoe Tips Over the Competition Again

For the 14th time in 17 years, Cal Poly civil engineering students will represent the ASCE Pacific Southwest Conference (PSWC) at the national level. The university’s concrete canoe and steel bridge teams led Cal Poly to a fourth consecutive regional title at the conference, which was held April 4-6 at USC and Loyola Marymount University. The Cal Poly concrete canoe team dominated the regional competition, placing first overall. The team won all three academic categories – design paper, oral presentation and final product – and took first in all four races in which it participated. ### Cal Poly’s ‘Leaning Trike’ Places Second at Human Powered Vehicle Challenge

Cal Poly leaned in at the recent Human Powered Vehicle Challenge West, taking second place for an innovative leaning-trike design. The team finished fourth overall at the regional competition, held April 12-14 at San Jose State University. “The design certainly set us apart. Very few vehicles are built as leaning trikes,” said Matt Baker, mechanical engineering senior and club president. “It was gratifying to see the design generate so much curiosity among other teams and to see their interest in how we managed to design and build the vehicle.” Read more about the [leaning trike](#).
