**Fall Hearst Lecture Series Concludes Friday with
'Project Delivery Systems: Recent Trends and Cutting Edge Choices'**

SAN LUIS OBISPO – The Fall 2004 Hearst Lecture Series ends Friday with a panel discussion at 3:30 p.m. in the Rotunda of Cal Poly's Business building. The panel will include Barbara C. Wagner, vice president of the Clark Construction Group; Luminita Ruva-Ciupitu, principal architect at Smith Group; and moderator Barbara G. Werther, of Thelen Reid & Priest, LLP.

The Integrated Project Delivery System brings together the architect and the builder as a team to ensure a smooth collaboration on projects from start to finish. This team approach strives to make the building process more efficient, from concept through construction.

The fall series, titled, "Women in Architecture and the Built Environment," recognizes the many talented female professionals who work in the fields of architecture, engineering and landscape design.

For more information about the Fall 2004 Hearst Lecture Series, visit the CAED Web site at <http://www.caed.calpoly.edu> or call (805)756-1311.
