May 12, 1977

CHANCELLOR DUMKE WILL BE COMMENCEMENT SPEAKER

Dr. Glenn S. Dumke, chancellor of The California State University and Colleges, will be the guest speaker during the 70th annual commencement on Saturday (June 11) at Cal Poly. Dr. Dumke will give his remarks before an expected crowd of 10,000 persons, including the graduating class and their parents and friends, in Mustang Stadium. Starting time for the traditional ceremony will be 3:30 pm.

Chancellor Dumke provides the leadership for a university and college system which includes 19 campuses, more than 304,000 students, and 17,000 faculty, and which has become a model for large scale public higher education. During the 15 years of his chancellorship, the California State University and Colleges system has experienced a period of dynamic development and complex educational problems. Since 1960, almost 600,000 persons have been graduated from the system and enrollments have increased by over 227 percent -- making the CSUC the largest system of senior higher education in the nation.

Dr. Dumke brought to the chancellorship a 22-year career in higher education when he took office in 1963. A noted authority and eminent scholar of Western American history, he began his teaching career at Occidental College. In 1950, he was promoted to full professor and appointed dean of the faculty, a position he held until 1957, when he was named president of San Francisco State College. During 1959-60, while serving as president of San Francisco State, he was the principal state college representative on the Master Plan Survey Team which formulated recommendations for the coordination, expansion, and differentiation of function of the various segments of public higher education in California. These recommendations were adopted by the California Legislature in 1960 as the Donohoe Higher Education Act.

In late 1961, Dr. Dumke was appointed vice chancellor for academic affairs for what was then the California State Colleges. In that capacity he directed the curricular programs of the system until his selection as chancellor the following year. Chancellor Dumke received his bachelor's and master's degrees from Occidental and his doctor's degree from University of California at Los Angeles. He also holds honorary degrees from Occidental, University of Redlands, University of Bridgeport (Conn.), Hebrew Union College (Los Angeles), Transylvania College (Ky.), Windham College (Vt.), and Pepperdine University.

KENTUCKY MAN CHOSEN TO HEAD CAL POLY PHYSICAL EDUCATION PROGRAMS

The man who has been chairman of health, physical education, and recreation at Georgetown College in Kentucky for the past two years will become head of the soon-to-be combined Men's and Women's Physical Education Departments at Cal Poly. Appointment of Jim H. Railey as head of the Physical Education Department was announced last week by President Robert E. Kennedy. He will begin his new assignment on July 1.

Dr. Railey's selection for the Cal Poly post was recommended by Hazel J. Jones (Vice President for Academic Affairs) and Carl C. Cummins (Dean, Human Development and Education) following a nationwide search conducted by a committee composed of faculty representatives of the current Men's and Women's Physical Education Departments. Dean Cummins said the new Department head was chosen from a field of nearly 100 candidates for the position.

"His academic preparation and experience as a teacher, administrator, and athletic coach uniquely qualify him to administer our combined physical education programs. He has 18 years of college and university teaching

(continued on page 3)

STUDENT POLICIES CHANGED

Changes in campus residence hall policies at Cal Poly have been announced by Everett M. Chandler (Dean of Students). The new policies affect campus housing priorities, food services for campus residents, and use of refrigerators in campus housing. The three topics were among a number raised in recent discussions between resident hall students and administrators. Dr. Chandler said other topics discussed, such as equal term enrollment and zone parking, are still under study and decisions will be announced later.

The decisions announced provide a higher priority for new students for residence hall spaces and a lower priority for returning students. Also announced is a mandatory meal plan for a minimum of 14 meals for students residing on campus. The university will make refrigerators available to campus residents through the Cal Poly Foundation. Prohibition of cooking in rooms will continue.

Dr. Chandler said the new policies resulted from campus discussions which preceded staff recommendations to President Kennedy. He said the new policies will provide a campus residence experience to more new students. Previously, returning students received priority for campus housing. President Kennedy has pointed out that students who have lived on campus are better able to find housing for themselves in the community since they are more familiar with what is available. He also pointed out the educational advantages of helping freshmen students to be able to live on campus during their first year at Cal Poly.

Dean Chandler also announced that the housing license for next year will require a mandatory meal plan. The plan will provide for two options of 14 or 19 meals per week, effective with the Fall Quarter. He also announced that recommendation of the Student Affairs Council report that the university permit refrigerators in campus student housing has received favorable action. The request, had raised serious concerns about the possible effects of cooking in residence halls which were not designed to accommodate cooking. Dr. Chandler said that it is felt that the mandatory meal ticket program will offset much of the interest in cooking. In addition, regulations proposed by the students to prohibit cooking will be strictly adhered to.

MUSIC DEPARTMENT HOSTS SOLO ENSEMBLE FESTIVAL

On Saturday (Apr. 30) over 125 young musicians participated in a music festival in the H.P. Davidson Music Center. These aspiring instrumentalists, performing either as a soloist or in an ensemble, played before adjudicators, parents, and friends. Their performance was rated as superior, excellent, good or fair and, in addition to these ratings, they received both written and verbal comments and encouragement from Virginia Wright, Clifton E. Swanson, and Graydon J. Williams (all Music). The event was jointly sponsored by the California Music Educators Association, the San Luis Coastal Unified School District, and Cal Poly. Don Dimond of the San Luis Obispo Schools and George C. Beatie (Music) served as co-hosts.

COME JOIN
IN THE FUN!

HE'S A CLOWN.

THAT CHARLIE BROWN.

Charlie Brown's life has been filled with ill-starred experiences but Dan Smith, who plays the luckless but loveable character, has had a life filled with stage experiences. Smith, who plays the lead role in the forthcoming campus production of "You're A Good Man Charlie Brown" will share the stage with a multitalented cast of performers. Scheduled as the third production of the season, the musical comedy will be presented at 8 pm on Thursday, Friday, and Saturday (May 12, 13, 14) and Thursday, Friday, and Saturday (May 19, 20, and 21) in the Cal Poly Theatre. A special matinee is scheduled at 2 pm on Sunday (May 15).

Michael R. Malkin (Speech Communication) the play's director, said the cast of the play is having fun while learning there's more to theatre than having fun. "There's singing lessons, and acting lessons, and dancing lessons. The cast is working long and hard under arduous circumstances. But," Dr. Malkin noted, "They have managed to keep their good humor while maintaining their artistic discipline." Tickets for the performances of the musical are priced at \$3 for general admission and \$2 for students. They are available at University Union ticket office. They will also be available at the theatre box office prior to each performance.

EXTENDED EDUCATION COMMISSION FORMED

A new Commission on Extended Education to help improve access for non-traditional students to The California State University and Colleges has been announced by Chancellor Glenn S. Dumke. The commission will provide advisory guidance to programs, both campus-sponsored and systemwide, which offer academic opportunities to primarily adult part-time students not enrolled in regular full-time on-campus instruction. Chaired by President Donald R. Gerth of California State College, Dominguez Hills, the commission will assume functions of two other systemwide bodies, now disbanded: the Advisory Committee on Continuing Education and the Commission on External Degree Programs.

"Continuing education" and "extension," terms used to describe academic programs not leading directly to specific degrees, ultimately will become known instead as "extended education," defined as "all academic and instructional programs designed and utilized to provide increased access to the educational resources of the system and to otherwise facilitate utilization of these resources."

Chancellor Dumke said the Commission on Extended Education represents "an umbrella approach that brings together the several alternatives we have provided in recent years for adult students seeking access to our academic programs, both state-supported and fee-supported."

experience, seven of them in administration," Dr. Cummins added. Dr. Railey holds degrees from Murray State University in Kentucky and Indiana University, where he earned the Master of Science Degree in health safety and the Doctor of Physical Education Degree.

Before assuming his present assignment at Georgetown College, he was chairman and professor of physical education at Marshall University in West Virginia for five years, associate professor at Weber State University in Utah, and head baseball coach and head athletic trainer at Utah State University. He also was assistant baseball coach at Arizona State University, a high school coach and English teacher in Illinois, and an athletic director and coach in the U.S. Navy.

While at Georgetown, Dr. Railey has headed a combined physical education program that includes both men and women. He has also been athletic director with responsibility for administration of both men's and women's sports. A native of Clay, Ky., where he graduated from the public schools, the new department head has written articles on such subjects as athletic and physical education administration, coach-trainer relationships, and athletic injuries for several professional journals.

Physical education programs at Cal Poly began with establishment of a Physical Education Department in 1946. Separate departments for men's and women's programs were organized in 1971. The decision to re-combine the two departments into one integrated, coed physical education department was made last year, to become effective beginning with the 1977-78 academic year. The integrated program is in keeping with the university's commitment to provide equal opportunities for both sexes in all areas of university operation.

President Kennedy said Dr. Railey will succeed Mary Lou White and Robert A. Mott, who will return to full-time teaching duties in the new department in September. Dr. White has been head of the Women's Physical Education Department since its formation. Dr. Mott became head of the original combined Physical Education Department when it was formed in 1946 and continued as head of the men's Physical Education Department when the original department was divided.

LaBOUNTY WILL HEAD POLY POMONA

Chancellor Glenn S. Dumke has named Hugh O. LaBounty Jr. to be Acting President of California State Polytechnic University, Pomona, during the coming search for a new president. The appointment will be effective in July when Poly Pomona President Robert E. Kramer retires to become Agriculture Program Director for the W. K. Kellogg Foundation, Battle Creek, Mich. Dr. LaBounty has served as the campus' executive vice president since Jan. 1976. Chancellor Dumke said CSUC procedures are under way to appoint a Presidential Selection Advisory Committee to assist the Board of Trustees in selecting President Kramer's successor.

Subcommittees of both houses of the California legislature have now approved the funding of a new Cal Poly library for \$11.5 million dollars and the next step will be endorsements by the full committees and action by both the Senate and the Assembly. President Robert E. Kennedy advised the campus from Sacramento that the Assembly Ways and Means Subcommittee on Higher Education unanimously approved the library construction funding at the beginning of a budget hearing Tuesday afternoon (May 10).

The introduction of the library item was presented by Assemblywoman Carol Hallett (R-Atascadero) who made the original presentation on the need for the new structure. President Kennedy then testified concerning the inadequacy of the present facility, designed to accommodate 6,600 students and operating under the pressures of nearly 15,000 students. The library project received the support of Jerry Beavers of the Legislative Analyst's Office and Bob Gibbs of the Department of Finance, both of whom agreed that COPHE (Capital Outlay Program for Higher Education) fund balances would be greater than had been expected earlier.

The subcommittee approval carried the stipulation that the university would make satisfactory commitments on the future use of the present library before funds will be released. Dr. Kennedy said, "I am very pleased that the legislators on the subcommittees of both the Senate and the Assembly are quite conscious of the great need for a new Cal Poly library. Several of them said it is unthinkable that our present student body of nearly 15,000 should have to carry on with the present inadequate facilities."

After endorsements of the budget item by the full committees of each house (Senate Finance Committee and Assembly Ways and Means Committee), the library will be included in the budget presented for action by the full Senate and full Assembly, then to the Governor for final approval. Dr. Kennedy said he hopes the legislative support of the library project will be evident to Governor Edmund G. Brown Jr.

ACADEMIC DEADLINES APPROACH

Gerald N. Punches (Registrar) reminds all faculty and staff members that the 7th week of instruction ends at 5 pm, Friday (May 13). This is the deadline for:

Submitting a petition to withdraw from a course. The university catalog states: "Except for university recognized emergencies, no withdrawals from courses are permitted beyond the seventh week of instruction."

Submitting a petition to repeat a course. If a student is repeating a course Spring Quarter at Cal Poly in which a grade of D or F has been recorded at this university or some other college or university, the petition must be filed in the Records Office to ensure the re-calculation of the student's grade point average.

CSUC LIBRARIES WORK WITH UC

Expanded library services in The California State University and Colleges to include resources of the University of California's Berkeley and Los Angeles campuses was announced by Chancellor Glenn S. Dumke. The agreement provides statewide access by CSUC students and faculty to more than 8,500,000 volumes and 150,000 subscriptions in the two major UC libraries, usually within 48 hours. Arrangements for borrowing and photocopying materials at UC closely follow the implementation of similar rapid inter-library services among all 19 campuses of the CSUC.

Chancellor Dumke said these resource-sharing developments "significantly and efficiently open avenues for CSUC students to broaden their learning opportunities." The new arrangements utilize telefacsimile equipment to process requests among the 19 CSUC campuses, and from any of the CSUC campuses to UC-Los Angeles or UC-Berkeley. CSUC students, faculty and staff members may obtain materials from any of the system's libraries, either through a parcel delivery service or by appearing in person with valid campus identification.

The arrangements with UC operate through CSUC libraries which, on behalf of individual borrowers, request materials. In these instances the materials are delivered to the requesting library. Under the intersegmental agreement UC libraries are "libraries of last resort," to be used only if requested materials are unavailable at any CSUC campus library. The new access program was developed on a systemwide basis through consultations with CSUC librarians. Arrangements with the University of California came about through the CSUC's Intersegmental Lending Borrowing Service (ILBS) project.

CANDIDATES FOR ASI OFFICERS

The dates for the annual student officer election at Cal Poly have been set as Wednesday and Thursday (May 11 and 12). An estimated 30 percent of the student population is expected to turn out to elect the two top officers who will serve one-year terms.

Candidates for the office of ASI President are Monica Aguilar, Paul Curtis, Shane Kramer, John Probandt, and Robert Rushing. For the office of ASI Vice President, George Morello, Jim Roberts, and Larry Robinson, have thrown their hats into the political arena.

AN INVITATION

The Cal Poly campus community is invited to an informal talk by Dr. Raymond Merritt of University of Wisconsin, Milwaukee, at 8 pm on Tuesday (May 17) in the Staff Dining Room. Dr. Merritt, director of cultural and technological studies at UMW, will describe that university's cultural and technological studies program. Also planned during the evening event is a dessert-coffee reception. The UMW program is in its fourth successful year of operation under a five-year grant from the national Endowment for the Humanities.

POLY PLANNING HELPS HANDICAPPED

One of the most notable features of a new campus building at Cal Poly, turns out to be its elevator. Considering that the building is the new home of the School of Architecture and Environmental Design, it's especially fitting that the elevator reflects the new style in architecture which takes the needs of the handicapped into account. The control panel of the elevator and elevator telephone are only 36 inches from the floor.

Specifying the new design in all future construction is only one approach being taken by Cal Poly to show greater awareness of the needs of the physically handicapped, both students and faculty. Around the campus, curb cuts, sidewalk ramps, restroom modifications, changes in building entries, and elevator installations are taking place to reduce the architectural barriers faced by the physically handicapped. E. Douglas Gerard (Executive Dean) says that since 1973 when the program of modifications began, 68 curb cuts and sidewalk ramps have been developed, 13 building entries have been modified to permit wheelchair entry, and 64 restrooms have been modified. Over \$345,000 has been spent on such modifications, with state funds augmented by matching federal monies.

This year the budget for removing architectural barriers is \$220,000, primarily for installing elevators in two campus buildings. David M. Grant (Associate Dean, Academic Planning) who has been confined to a wheelchair for 30 years, has been at Cal Poly since 1950. Dr. Grant says, "I have watched with satisfaction the development of improved accessibility for handicapped people on the campus. We can be proud that our campus now provides educational opportunities for students to major in any of the programs we offer. No longer are handicapped students limited to programs on the first floors."

NOTED BOTANIST TO VISIT POLY

An internationally known botanist will give a free public lecture on the "Relation of Plant Viruses to Cells and Tissues of Their Hosts" on Thursday (May 19) at Cal Poly. Dr. Katherine Esau, professor emeritus at the University of California, Santa Barbara, will speak at 7:30 in Chumash Auditorium. She will describe her extensive research in the field and use slides taken with an electron microscope to illustrate her remarks. Dr. Esau's stay at Cal Poly will also include a morning lecture on Friday (May 20) on "Ontogenetic Specialization of Conduction Cells" for students, faculty, and staff of the university. That lecture will be given at 9:10 am in Science North 215.

Dr. Esau has written numerous publications concerning plant-host virus relationships, including two college textbooks. She taught at University of California, Davis, for many years while conducting research under the auspices of the Experiment Station of the College of Agriculture. Her work with plants has brought Dr. Esau recognition from such groups as the National Academy of Science. She is a member of the Royal Swedish Academy of Science, the organization that selects the nominees for the Nobel Prize.

FOURTH INDUSTRIAL ARTS SHOW

Students from Central Coast area secondary schools will have the chance to display their projects in the fourth annual Central Coast Industrial Arts show at Cal Poly on Friday (May 27). Projects by both high school and junior high school students will be entered in seven classes including wood, plastics, metals, crafts, electronics, graphics, and drafting. An automotive trouble shooting contest will also be held.

Judging will take place from 8 am until 11 am, and the projects will be on display from 12 noon until 5 pm in Chumash Auditorium. Admission will be free and the public is invited to attend. The show is intended to give junior and senior high school industrial arts students a chance to display their work locally and to give visibility to secondary school industrial arts programs. Both the show and the trouble shooting contest are being sponsored by the Industrial Technology Department and the student Industrial Technology Society.

METALWORK ON EXHIBIT

"Selections '77," a juried exhibition of jewelry, hollowware, flatware, and other metal media, opened with a reception in the Galerie of the University Union on Monday (May 9). "Selections '77" contains 82 pieces (from 171 submitted) juried by Fred Lauritzen of California State University, Northridge, and Dr. Robert H. Coleman of San Jose State University. Entries for the exhibit were received from California, Oregon, Washington, Arizona, and New Mexico.

Included in the pieces accepted for exhibit were pieces by two Cal Poly students. Chris Lynds, a biological sciences major, submitted a matchbox made of brass, wood, and jasper and Neal Mather, a mechanical engineering major, entered a box made of brass, bronze, plexiglass, and wood. "Selections '77" is being presented as the first of a series of annual crafts shows on the Cal Poly campus. In 1978, the medium for competition will be clay, wood will be the medium in 1979 and metal will be featured again in 1980.

Metals represented in "Selections '77" are gold, silver, brass, bronze, copper, steel, and combinations of various metal alloys, along with non-metal components such as wood, glass, plastic, and other materials. In addition to the three-dimensional pieces on display, student David Stubbs, majoring in journalism at Cal Poly, has produced a series of photographs hung on the walls around the Galerie. The photos illustrate the techniques of the metalsmith, including fabricating, raising, casting, and buffing.

"Selections '77" will be on exhibit in the Galerie through Friday (May 27). Open hours are: Monday through Friday, 8 am to midnight; Saturday, 10 am to midnight; and Sunday, noon to midnight. The exhibit is sponsored by the Fine Arts Committee of the ASI and the Art Department.

OUTDOOR CONCERT PLANNED

The Cal Poly Concert Committee is gearing for its first Mustang Stadium show in several years with the announcement of the booking of The Marshall Tucker Band, Sea Level, and Sons of Champlin for a "Day Under the Sun." The festival concert is slated for Saturday (May 14) starting at 1 pm. The public is invited to the all-day affair, with doors opening at 11 am. Tickets are \$6.50 for students with valid ID cards, and \$7.50 for public. Persons under the age of 18 will not be admitted. It has been four years since the release of The Marshall Tucker Band's first album on Capricorn Records, and this six-member group has progressed from nightclubs and honkytonks to playing the Pavilion in Paris. Along the way, the band has picked up four gold albums and an enthusiastic throng of admirers both within and without the industry. Their music is characterized alternately by warm, personal love songs to hard-driving "Texas swing." They have stated their influence as being from sources as diverse as rock and roll, country, jazz, rhythm and blues, and African beats. Their songs have been recorded by country greats like Waylon Jennings, Kitty Wells, and Hank Williams Jr.

Second group on the bill for the Cal Poly concert, Sea Level, is comprised 75 percent by expatriates from the Allman Brothers Band, one of the truly superstar rock groups to emerge from the mid-60's. Sons of Champlin is set to open the Mustang Stadium event. An original Bay Area group, its contemporaries are Grateful Dead, Jefferson Airplane (now Starship), Quicksilver Messenger Service, and Big Brother and the Holding Company.

Tickets for "A Day Under the Sun" are available at the University Union ticket office, and other locations. Proof of age will be required at the Mustang Stadium entrances prior to the concert and student ID cards will be required for student ticket purchases. Alcoholic beverages, drugs, glass containers, cans, knives, ice chests, sound recording equipment, and animals will not be permitted. All persons will be subject to search. The sponsoring Concert Committee is a function of the Program Board of the ASI.

Typewritten copy intended for the next issue of *Cal Poly Report* must be received prior to 12 noon on Monday (May 16) in the Public Affairs Office, Adm. 125. Copy intended for *Cal Poly Dateline* is due in the Public Affairs Office by 12 noon on Wednesday (May 18).

**TEAMING WITH
YOU for
SAFETY!**

SUPPORT STAFF VACANCIES

Vacant support staff positions have been announced by Robert M. Negranti, Staff Personnel Officer. Descriptions of the positions and other vacancies are posted outside the Personnel Office, Adm. 110, Ext. 2236. Applications shall be on official forms. Contact the Personnel Office to obtain an application. This University is subject to all laws governing affirmative action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendment.

Equipment Technician II, \$1214-\$1460, month, Chemistry Department, School of Science and Mathematics. Duties: managing a chemistry stock room and laboratory facility; purchasing chemicals and supplies and maintaining the associated budgets; and supervising technical staff whose duties include maintenance of equipment and preparation for more than one hundred chemistry and biochemistry laboratory sections per week. Requirements: high school graduate, 1 year experience as Equipment Technician I or 2 years experience in chemistry or related work pertinent to a college laboratory instructional program. Degree in Chemistry or Biochemistry preferred. Closing date: 6/9/77.

CANDIDATES FOR FACULTY POSITIONS BEING SOUGHT

Candidates for positions on the faculty of the university are presently being sought, according to Donald L. Shelton, (Director, Personnel Relations). Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This university is subject to all laws governing affirmative action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendment Act. All interested persons are encouraged to apply.

Assistants, \$1,379-\$1,508/quarter for a 6 unit teaching assignment, English Department, School of Communicative Arts and Humanities. Part-time positions available for Fall, Winter, and perhaps Spring Quarters for the 1977-78 academic year. Concurrent enrollment in the department's graduate program is required. Duties include teaching freshman composition. Closing date: 5/27/77.

Lecturers, \$4,128-\$4,960/quarter, based on 15 unit teaching load with adjustment in accordance with actual units assigned, English Department, School of Communicative Arts and Humanities. Part-time positions available for Fall, Winter, and perhaps Spring Quarters for the 1977-78 academic year. Duties include teaching freshman composition. Must have Mas-

ter's Degree in English. Experience in teaching composition is preferred. Closing date: 5/22/77.

Lecturers, \$4,128-\$4,960/quarter, based on 15 unit teaching load with adjustment in accordance with actual number of units assigned, English Department, School of Communicative Arts and Humanities. Part-time or full-time positions for Summer Quarter only, 1977. Duties include teaching freshman composition and technical writing. Must have Master's Degree in English with experience in teaching comparable composition courses is preferred. Closing date: 5/27/77.

Assistant Professor, \$13,572-\$16,320/year dependent upon qualifications and experience, Art Department, School of Communicative Arts and Humanities. Position available for 1977-78 academic year. Duties include teaching specialized crafts courses with emphasis in wood. Strong background in 3-D design desirable. M.F.A. required and preference is given to those with experience. Closing date: 6/1/77.

Assistant or Associate Professor, \$13,572-\$20,592/year, dependent upon qualifications and experience, Art Department, School of Communicative Arts and Humanities. Position available for 1977-78 academic year. Duties include teaching general and specialized courses in Art history. Ph.D. required with preference given to those with full-time college teaching experience. Closing date: 6/1/77.

Lecturers, \$4,244-\$5,160/quarter, based upon a 15 unit teaching load - salary varies depending on the teaching load, Art Department, School of Communicative Arts and Humanities. During the 1977-78 academic year, the Art Department will have need of part-time lecturers in the following areas: Basic Art Materials, Crafts, Drawing, Glassblowing, Printmaking, and Design. All applicants must have an M.F.A. Degree and 2 years of proven college teaching experience. Resume and a representative sample of slides must be received no later than 6/1/77 at the Art Department.

Lecturer, \$17,088-\$20,592/year, dependent upon qualifications and experience, Veterinary Science Department, School of Agriculture and Natural Resources. Position available for the 1977-78 academic year. Duties include teaching veterinary science courses, practice of clinical medicine and surgery. Doctorate of Veterinary Medicine, licensed and federally accredited for the State Of California required. Prior teaching and food animal clinical practice preferred. Closing date: 6/30/77.

Lecturer, \$4,524-\$5,968, depending upon qualifications, Engineering Technology Department, School of Engineering and

Technology. Full-time position for Fall Quarter 1977 only. Duties: teach a variety of Air Conditioning and Refrigeration courses (lecturers and laboratory) and Senior Project advising. Industrial experience required. Preference given to those with Master's Degree in Engineering Technology, Professional Registration and teaching experience. Closing date: 5/26/77.

Lecturer, \$4,524-\$5,968/quarter, depending upon qualifications, Engineering Technology. Full-time position for Fall Quarter 1977 only. Duties: teach a variety of Electrical/Electronic courses (lecture and Laboratory), Senior Seminar and Senior Project advising. Industrial experience required. Candidates with a Master's Degree in Electrical/Electronics Engineering, Professional Registration and teaching experience given preference. Closing date: May 26, 1977.

Lecturer, \$13,572-\$20,592/year, Engineering Technology Department, Electronics Option, School of Engineering and Technology. Full-time position for 1977-78 academic year only. Duties: teaching lecture and laboratory classes in analog and digital circuits, including control systems and communications. Advise Senior Project students and general advising of Electronics Option students. Successful candidate must possess a Master's Degree in Electrical/Electronic Engineering and have at least 5 years industrial experience in electronics. Registration as a Professional Engineer and teaching experience desired. Closing date: May 26, 1977.

WHO...WHAT...WHEN...WHERE???

Steven H. Yoneda, Head Athletic Trainer, attended the monthly business meeting of the Northern California section of the National Athletic Trainers Association, Apr. 11, at California State University, Hayward.

Arthur S. Cary, Walter E. "Walt" Elliott, and James S. Kalathil, all physics, attended the spring meeting of the Northern California Section of American Association of Physics Teachers at Sierra College, Apr. 23. Dr. Elliot delivered a demonstration-lecture dealing with pressure-sensitive liquid crystals.

Joanne B. Ruggles, Art and Architecture, has been notified by Dulin Gallery of Art, Knoxville, Tenn., that one of her serigraphs has been selected to compete in Dunlin's Eleventh National Printing and Drawing Competition.

Warren W. DeLey, Associate Dean, Social Sciences, James W. Coleman, David McElroy, Leo W. Pinard, and Richard A. Shaffer, all Social Sciences, attended the annual meeting of the Pacific Sociological Association in Sacramento held Apr. 21-23.

encouraging notes

May 12, 1977

PROPOSAL WRITING SEMINARS. In order to accommodate tight schedules, the Coordinator, Research Development, will again give proposal writing seminars in one-hour stints this quarter. Two identical series of seminars will be given, so that the same material will be covered in the sessions given in the same week.

		SERIES I (Wednesdays 12-1) (Room - MHE 203)	SERIES II (Thursdays 1-2) (Room - Ag 138)
SESSION II	Proposal Narrative	5/18/77	5/19/77
SESSION III	Workshop (Optional)	5/25/77	5/26/77

All interested are welcome to attend.

NSF - CHAUTAUQUA-TYPE SHORT COURSES WILL BE OPEN FOR ENROLLMENT THIS SUMMER.

Fifteen colleges and universities have received grants for the operation of field Centers where short courses are designed to bring advances in scientific knowledge and the resulting social issues to the attention of college teachers and their students as rapidly as possible. Classes meet twice in two-day sessions, once in the fall and again in the early spring. The instructors are nationally-known scientists who will conduct intensive courses on such topics as lasers and their applications, solar energy, and ethical issues in the life sciences. The cost of instructional materials and of lodging for non-commuting students is covered by the NSF grants. Participants or their institutions must pay for travel, meals, and other expenses. A brochure containing dates, course descriptions, names of course directors, and application forms will be published this summer. Requests should be addressed to any of the Field Centers listed below or to: NSF Chautauqua-Type Short Course, Box B, American Association for the Advancement of Science, 1776 Massachusetts Avenue, NW, Washington, DC, 20036.

WESTERN CIRCUIT: University of Texas at Austin - Austin Texas
University of Colorado - Boulder, Colorado
Stanford University - Stanford, California
Santa Ana College - Santa Ana, California
Oregon Graduate Center for Study & Research - Beaverton, Oregon

For list of Eastern and Central Circuits, contact the Research Development Office at 546-2982.

NEH - RESEARCH TRANSLATION PROJECTS. A new program to support research translation projects is being provided for by the National Endowment for the Humanities. The program is designed to provide translations of major works in the humanities into English. Texts from any discipline relevant to scholarship in the humanities are eligible, including history, archaeology, philosophy, religion, and literature, among others. Particularly pressing needs for translations from Chinese, Arabic, Persian, and Turkish have been noted by NEH.

Further information on the program may be obtained by writing to the Program Director or the Deputy Director, Translations, Division of Research Grants, Mail Stop 350, NEH, 806 - 15th Street, NW, Washington, DC, 20506.

1978-1979 FULBRIGHT-HAYS VISITING PROFESSOR PROGRAM. Grants will be available under the Fulbright-Hays Program for scholars from the countries listed below to serve as visiting professors and scholars-in-residence at U.S. colleges and universities in 1978-1979. Institutions interested in offering an appointment to a scholar for an academic term or year are invited to submit proposals to the Council. Proposals are welcome for scholars to teach and serve as resource persons in: (1) area studies programs; (2) interdisciplinary programs which focus on issues of international concern; (3) other courses in which an international perspective would be desirable. Arrangements for sharing a scholar between departments and/or professional schools, two neighboring institutions, or a consortia of institutions are encouraged. The Council will also consider proposals from institutions planning special programs, seminars, or colloquia, which would benefit from the participation of scholars from more than one country or geographic area. Countries:

AMERICAN REPUBLICS: All countries of Central and South America; Mexico, Dominican Republic, Haiti, Jamaica, Trinidad-Tobago. Program Officer: Robert Burnett (202) 833-4957.

ASIA/PACIFIC: Afghanistan, Australia, India, Indonesia, Japan, Korea, Malaysia, Nepal, Pakistan, Philippines, Singapore, Sri Lanka, Thailand. Program Officer: Mary Ernst (202) 833-4979.

NORTH AFRICA/NEAR EAST: Algeria, Egypt, Iran, Iraq, Israel, Jordan, Libya, Morocco, Oman, Saudi Arabia, Syria, Tunisia, Yemen, the Gulf States. Program Officer: Mary Ernst (202) 833-4979.

EAST EUROPE: Bulgaria, Poland, Romania, Yugoslavia. Fields limited. (USSR--different deadlines and procedures.) Program Officer: Georgene B. Lovecky (202) 833-4987.

AFRICA: All countries. Program Officer: Jennifer Keefe (202) 833-4975.

DEADLINE: October 15, 1977

FULBRIGHT-HAYS TEACHING AWARDS - NEAR EAST AND SOUTH ASIA. Awards for six weeks to four months, beginning between October 1977 and September 1978, in the fields of engineering, natural sciences, law, economics, and business, are offered to enable American scholars to design teaching proposals of their own for any of the countries listed below. Proposals that are recommended by CIES will be forwarded to the country or countries designated by the applicant, where the U.S. Embassy or binational Fulbright Commission will try to arrange an appropriate university affiliation. Appointments will be dependent upon satisfactory placement abroad and approval by the Board of Foreign Scholarships. They may begin as late as September 1978, but will not be available during summer months, except in Afghanistan, Bangladesh and India. COUNTRIES: Algeria, Egypt, Kuwait, Jordan, Morocco, Saudi Arabia, Syria, Tunisia, Afghanistan, Bangladesh, India, Iran, Israel, Pakistan, Sri Lanka.

DEADLINE: June 1, 1977.

Memorandum

To : Support Staff
Student Affairs, Auxiliary, and Business
Affairs Divisions

Date : May 9, 1977

File No.:

Copies : Stella Nuncio, Chair
Staff Senate
Don Shelton, Director
Personnel Relations

From : Anna Boken, Chair 
Staff Senate Elections Committee

Subject: Nominations for Support Staff Members to Consultative Committee for
Appointment of Dean of Students

Nominations are now being accepted for staff members from the Student Affairs, Auxiliary, and Business Affairs Divisions for the Consultative Committee for Appointment of Dean of Students. As stated in Administrative Bulletin 77-3, "When a vacancy occurs in the Dean of Students position, the President will send notice of the position vacancy to the chairperson of the Academic Senate, Staff Senate, and the President of the Associated Students, Inc., and request that a consultative committee be formed."

Staff Senate representation on the committee shall be as follows:

- 1) Two staff employees from the Student Affairs Division with no more than one from any functional department
- 2) One employee from Auxiliary Services
- 3) One employee from the Business Affairs Division

Nominations of members from each division will be by petition with a minimum of ten signatures of employees from the division required in order to place a member's name on the divisional ballot. The petitions are to be submitted to the chairperson of the election committee.

Please return petitions of nomination to me in care of Chase #218 by Friday, May 20.

The election for these four seats will be conducted on Wednesday, May 25. Ballots and ballot box for the Student Affairs seats will be located at the Information Desk in the Administration Building from 0800 until 1600. Ballots and ballot box for the Auxiliary Services seat will be located at the Information Desk in the University Union during the same hours. The Business Affairs election polling place will be in the office of the Director of Business Affairs, Adm 114, also during the same hours.

PETITION FOR NOMINATION OF SUPPORT STAFF MEMBER TO CONSULTATIVE COMMITTEE FOR
APPOINTMENT OF DEAN OF STUDENTS

We, the undersigned, nominate _____ for the Consultative
Committee for appointment of Dean of Students.
