March 24, 1975

## Senate Finance Subcommittee hears support for Life Science Building

▼ A budget augmentation in support of the Cal Poly Life Science Building was recommended March 21 to the subcommittee of the Senate Finance Committee handling capitol outlay projects, following a presentation by Dr. Robert E. Kennedy at a public hearing in Sacramento.

President Kennedy's justification of the \$6.5 million building was one of five presentations made by presidents from The California State University and Colleges. The governor's budget had deleted \$60 million from a CSUC Trustee-recommended capitol outlay budget of \$75 million.

President Kennedy's justification was part of a general presentation to the subcommittee by Harry Harmon, vice chancellor, physical planning and development, CSUC. Support for the augmentation came from Bob Gibbs, Department of Finance program analyst, who said he would recommend inclusion of the Life Science Building and of a similar facility for Long Beach State University in a proposed budget augmentation. Gibbs' recommendation was concurred in by Gerald Beavers, program analyst, Legislative Analyst's office.

The Senate Finance Subcommittee was chaired by Senator Walter Stiern of Bakersfield. Justifications requesting budget augmentations for a Fine Arts facility at Cal State, Bakersfield, for eight other projects designed to provide a "balanced campus" at four of the smaller campuses, and for additional land needs at Chico, Humboldt, and San Diego were not supported by the Department of Finance or Legislative Analyst's representatives.

According to President Kennedy, "This reaction of the legislators, representatives of the Department of Finance, and the Legislative Analyst's office, confirms what I believed would happen. The big problem now is to make absolutely certain that the Trustees next Tuesday and Wednesday (Mar. 26-27) approve the schematic plans and that subsequently Roy Bell, state director of finance, is able to get the governor to add our project to the revised governor's budget. We have hurdles yet to jump, but I am encouraged and believe we can succeed."

Dr. Kennedy said, "The life science facility will provide for a capacity of 729 FTE students, including 19 laboratories." President Kennedy told the subcommittee that the building is the first life science facility to be added to the university since 1967 and that it will "help significantly toward reducing our current capacity-deficit of over 1,000 FTE students."

(continued on page 2)

▼ ADORNO APPOINTED HEAD OF BUSINESS ADMINISTRATION

Appointment of David S. Adorno of Ithaca, NY, as head of the Business Administration Department at Cal Poly has been announced by President Robert E. Kennedy. Presently serving as director of the Division of Business Administration at Ithaca College, Dr. Adorno will assume his new duties on July 15.

Carroll R. McKibbin (Dean, School of Business and Social Sciences) who recommended the appointment, said the new department head will succeed Weston A. McCormac who has been acting head since last fall. McCormac, who agreed to serve while a search for a department head was being conducted, will return to his former assignment as a member of the faculty.

A graduate of the University of Texas, Pennsylvania State University, and Harvard University, where he earned his Ph.D. degree, Dr. Adorno has been a member of the Ithaca College faculty for the past six years. Before that, he was a management consultant, a Fulbright professor of industrial statistics at the University of Madrid in Spain, a research specialist for industry and governmental agencies, and a faculty member at both New York University and Iowa State University.

Dr. Adorno joined the Ithaca College faculty as professor of mathematics and chairman of the Mathematics Department in 1969 and became director of the Division of Business Administration in mid-1972. Since that time the division has doubled its student body and faculty, added five new degree programs, and developed new internship and study abroad programs for its students. The author of a number of papers published and presented before professional gatherings, Dr. Adorno developed an educational television program series which was aired in 1970 by WCIC-TV, Ithaca, NY, and is in the midst of writing a book on how industry solves its internal education problems.

The new Cal Poly department head is a member of the Academy of Management, the Institute of Mathematical Statistics, the American Statistical Association, the Academy of International Business, and the American Institute of Decision Sciences. A past-president of the Ithaca College chapter of the American Association of University Professors and a specialist in business statistics, business applications with computers, forecasting, computer simulation, and inventory optimization models, Dr. Adorno has been involved in project and research grants totaling more than \$50,000 since 1972.

▼ LIFE SCIENCE BUILDING RECEIVES SUPPORT (continued from page 1)

Dr. Kennedy said, "It is not well understood that this instructional program, primarily in the biological sciences, has a significant impact on the important support courses for our unique and very large programs in agriculture and engineering, including environmental engineering. This building will not only provide instruction for majors in biological sciences but for programs which are offered on few, if any, other campuses in the state. Even if Cal Poly had no degree programs in biological sciences, we would still need the building to answer a severe facility problem." The Academic Senate's resolution of March 11 on "Restoration of Funds for New Facilities" was presented personally by President Kennedy to Senator Stiern and will be sent to other members of key committees of the Senate and Assembly as well as to the governor.

STUDY REQUESTED ON FULL UTILIZATION OF SUMMER QUARTER

Faced with dwindling prospects of new facilities, Cal Poly may need to re-vive consideration of the concept of equal term enrollment and year-round operation, President Kennedy advised the President's Council at a meeting last week. In a follow-up memorandum to Dr. Joseph Weatherby (Chairman, Academic Senate) President Kennedy requested that the senate review and update its recommendations made in 1971 on "Full Utilization of the Summer Quarter" in light of current facility problems and the three-year enrollment plateau. The memorandum noted that "The concept of equal term enrollment would permit us to handle the 15,000 FTE ceiling enrollment in our rated physical capacity after the architecture building now under construction and the life science building we are seeking have been completed."

President Kennedy said that to accommodate an annual 15,000 FTE, it will be necessary to teach 12,500 FTE in each of four quarters. This would total 50,000 FTE, the same result which would be achieved by following the present pattern at ceiling enrollment levels, that is, 15,000 FTE for fall, winter, and spring quarters and 5,000 FTE for the summer quarter. The operation of the plan was described in 1970 in a proposed "full utilization plan for Cal Poly," presented by Dr. Will Alexander (Head, Political Science), then chairman of the Academic Senate. The proposal suggested dividing a given group of students, which could encompass Cal Poly's total enrollment, into four equal groups and then permitting each of the four groups to enroll for only three of four quarters of a college year.

In April, 1971, the Academic Senate generally recommended that Cal Poly should implement a pilot program of year-round operation. Highlights of the 13 recommendations include:

1. That summer quarter enrollment be increased to 90 per cent of previous fall enrollment over a period of years.
2. That plans requiring enrollment in certain patterns of terms be announced in advance and not be retroactive on students previously enrolled.
3. That staffing for a full summer quarter enrollment be achieved from "overtime" quarters, volunteers for summer, hiring new faculty with summer as part of their normal workyear, and by rotational assignments of other faculty as necessary to staff a full summer quarter.
4. That office space be provided for the full four-quarter faculty, not just those on duty any given quarter.
5. That department administration be provided by four-thirds funding for department head positions.

Although the proposal would require little difference in total direct cost, there would be some problems of implementation and scheduling, Dr. Kennedy said. Factors to be considered include the numbers of students and faculty who would participate, effects upon campus residence hall occupancy and community housing, and the need for faculty offices. Sequence courses might need to be offered during two terms out of four in order to serve four equal groups of students in a process that permitted only three groups to enroll in any given quarter.

---

▼ Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon on Friday (Mar. 28) in the Public Affairs Office, Adm. 210. Copy intended for Cal Poly Dateline is due in the Public Affairs Office by 12 noon on Tuesday (Mar. 25).

▼ MOBILE HEALTH TESTING UNITS COMING

Two mobile health testing units will be in the Cal Poly area in the near future. The facilities provided by these units are described as: "In just 35-40 minutes of a participant's time, over 50 medical criteria are developed in the privacy of a mobile health testing van. Because of the efficiency of highly sophisticated medical instruments, computers, and paramedical specialists, the cost for testing is less than 50% of the amount paid elsewhere. The testing includes EKG, X-Ray, many blood studies, urinalysis, pulmonary function testing, hearing, vision, and blood pressure. Testing for glaucoma is also done. The purpose of this testing is to develop a large body of medical data which is then forwarded to the individual's physician - and with his analysis, can be instrumental in the early detection of hypertension, heart disease, cancer, liver or kidney disorders and much more."

The Association of California State University Professors sponsored mobile health testing van will be on campus, Tuesday and Wednesday (Apr. 1 and 2) from 10 am to 6 pm, parked between the Graphic Arts Building and the Power Plant. This program will be available without membership requirement to all faculty, staff and their families (children ages 13-18). This plan is available at no cost to all ACSUP members who are part of the insured plan. The following rates will apply to all non-ACSUP members: One person-\$61; second family member-\$57; third family member-\$54; children 13-18 years of age-\$40 (children's test panel excludes EKG, X-Ray, Pap, tonometry and blood chemistry). Payment may be made by cash, check, Bank Americard or Master Charge. For more information on the participation in this plan, call the local representative at 595-2252.

Another mobile health unit testing van sponsored by the California State Employee's Association will be located off campus at Santa Rosa Park, San Luis Obispo on Monday (Mar. 31) through Thursday (Apr. 3) and will open each morning at 9 am. This van will also be located in the Safeway parking lot in Atascadero on Friday and Saturday (Apr. 4 and 5). This program is also available to all Cal Poly faculty, staff and their families without membership requirement. The following rates apply: One person-\$61; second family member-\$57; third family member or retired employee-\$54; children 13-18 years of age-\$40; CSEA non-member-\$69. For more information concerning this mobile health unit program, please telephone: 544-7633, 544-7639, or 544-7644. Dr. Billy Mounts (Director, Cal Poly Health Center) describes these mobile automated health testing programs as a valuable aid in preventive medicine.

▼ TWO NEW PROGRAMS APPROVED FOR CAL POLY

Following endorsement by the California Postsecondary Education Commission and approval by Chancellor Glenn S. Dumke of The California State University and Colleges, Cal Poly has been given approval to offer a Bachelor of Arts degree in Recreation Administration. Also approved in recent days by the Chancellor's Office is a new option in Packaging under the Bachelor of Science in Graphic Communications program.

Both programs will be effective with the beginning of the 1975-76 academic year and will be included in the 1975-77 university catalog. Additional information about both these programs will be published in future issues of Cal Poly Report.

▼ HEALTH PLAN FEES AND BENEFITS CHANGE

The Health Benefits Division of the Public Employees' Retirement System has announced that some premium increases were effected on the Meyers-Geddes health benefit plans with the new contract year commencing Apr. 1. The State continues to pay \$19 a month for each eligible employee or annuitant, \$33 for employee or annuitant with one dependent, and \$41 for employee or annuitant with two or more dependents. The following rates include the State's contribution:

	<u>Old Rate</u>	<u>New Rate</u>	<u>Change</u>
<u>Cal-Western Basic &amp; Major Medical</u>			
Employee only	2.16	4.87	+2.71
Employee and one dependent	8.47	13.86	+5.39
Employee and two or more dependents	10.69	18.09	+7.40
<u>Blue Cross/Blue Shield Basic &amp; Major Medical</u>			
Employee only	10.71	11.35	+ .64
Employee and one dependent	20.48	23.81	+3.33
Employee and two or more dependents	21.52	25.50	+4.08
<u>County Foundations for Medical Care</u>			
Employee only	10.45	16.50	+6.05
Employee and one dependent	18.84	29.49	+10.65
Employee and two or more dependents	25.45	39.10	+13.65
<u>ACSUP-Equity Educators Basic &amp; Major Medical</u>			
Employee only	11.53	15.73	+4.20
Employee and one dependent	23.00	31.74	+8.74
Employee and two or more dependents	27.39	38.79	+11.40

The CTA-Blue Cross Health Benefits Plan will be terminated as of April 1, 1975.

The benefit changes in the PERS plans are as follows:

Cal-Western Occidental

Basic Plan

1. Increases hospital room and board limit from \$60.00 to \$70.00 per day.
2. Increases RVS (relative value studies) factor for all professional services from \$7.00 to \$8.00 per unit.
3. Increases the doctor visit benefit for hospital, home, and office to \$8.00 per visit with a \$25.00 payment for the first hospital call.
4. Increases the basic maternity payment from \$225.00 to \$300.00.
5. Increases the additional accident benefit from \$200.00 for bodily injury and \$100.00 for dental procedures to \$300.00 for both bodily injury and dental procedures.
6. Eliminates the RVS scheduling from the consultation benefit.

Major Medical

1. Increases the outpatient psychiatric benefit to 80% of the first \$40.00 per day up to \$1,000.00 per year.
2. Increases the extended care facility room and board limit from \$15.00 per day up to \$20.00 per day.

(continued on page 6)

▼ PASSOVER EASTER SPECIALS AT VISTA GRANDE RESTAURANT

A special Passover lunch will be featured in Vista Grande Restaurant on Thursday (Mar. 27) between 11 am and 2 pm. The Passover lunch menu consists of: matzo ball soup; herb chicken; baked yams; spinach; matzo; banana cake and beverage (coffee, tea or milk). The price of the Passover lunch is \$1.95.

A traditional Easter dinner will be featured in Vista Grande Restaurant on Easter Sunday (Mar. 30) from 12 noon thru 9 pm. The Easter dinner menu consists of: choice of baked ham with fruit sauce & candied sweet potatoes; or roast turkey with special corn bread dressing, whipped potatoes and cranberry sauce; or roast beef with baked potatoes & sour cream with chives. All dinners will include: relish dish; soup or salad; hot rolls and butter; choice of ice cream, sherbet or apple pie; and coffee, tea, or milk. The traditional Easter dinner is priced at \$4.25 and special children plates are also available. Special decorations and costumes will add to this special Easter dinner.

▼ HEALTH PLANS (continued from page 5)

Blue Cross-Blue Shield

Basic Plan

1. Increases hospital room and board limit from 70 to 365 days per year.
2. Increases basic hospital maternity benefit from \$75.00 to \$200.00 and Cesarean Section benefit from \$150.00 to \$400.00.
3. Increases professional maternity benefit from \$100.00 to \$250.00.
4. Adds a home and office medical benefit for dependents with a calendar year deductible of \$25.00; deletes special accident benefit.
5. Increases outpatient diagnostic X-ray and laboratory benefit from \$150.00 to \$250.00 each illness.
6. Increases professional services limit from 70 to 365 days.

Major Medical

1. Changes calendar year deductible from \$150.00 and \$75.00 (drug deductible) to a single \$100.00 deductible per person per calendar year; reduces yearly family maximum deductible from \$300.00 to \$200.00.

County Foundations for Medical Care

Comprehensive - No change in benefits.

Association of California State University Professors-Equity Educators

Basic and Major Medical

1. Increases the Basic Plan RVS unit factor for medical and surgical care and outpatient diagnostic X-ray and laboratory procedures from \$7.50 to \$9.00.
2. Increases the Major Medical plan RVS factor for medical and surgical care and outpatient diagnostic X-ray and laboratory procedures from \$9.50 to \$11.00.

These rate increases are automatic as of Apr. 1 requiring no employee action. This is not a period of open enrollment. When information is received on the next open enrollment, employees will be notified. At that time employees may make changes in their health insurance plans if so desired. New booklets and benefits regarding the program will be made available as soon as they have been printed. For questions, please call the Personnel Office at ext. 2236.

#### NEW FACULTY STAFFING FORMULA UNDER CONSIDERATION

A faculty staffing formula which would improve substantially the student-faculty ratio at campuses of The California State University and Colleges is under consideration by the CSUC Council of Presidents, according to Dr. Robert E. Kennedy. Dr. Kennedy, who is chairman of the Council of Presidents, said the proposed method will convert projected student credit units to faculty positions using a single set of experience-based systemwide ratios. It will recognize seven different modes of instruction for general use, as well as additional modes for special use. The method takes into account variations of activities, lectures, laboratories, and supervision by level of instruction.

Dr. Kennedy said the method will bring about a reduction in average loads to nearer 12 weighted teaching units or result in smaller class sizes, or both. Since 1971, the CSUC system has been budgeted at a student-faculty ratio of about 18.0 compared to previous levels of about 16.5. The 16.5 ratio was based on the former faculty staffing formula in use since the 1950's when it was developed jointly by the Department of Education, Department of Finance, and Legislative Analyst. The State budget for 1971-72 increased the student-faculty ratio for a variety of reasons, including attempts at economy in the face of faculty increases resulting from rapid enrollment growth during the 1960's. Dr. Kennedy said the 1975-76 staffing for each campus is generally the same student-faculty ratio as budgeted for 1974-75.

Dr. Kennedy has been a strong proponent of the development of a new method of faculty staffing which would adequately recognize program differences among the campuses, and would result in budget requests based on total need for faculty staffing to carry out the mission of the campuses.

#### BICENTENNIAL COURSE TO BEGIN

Distinguished Cal Poly lecturers will share in teaching a course specially designed to commemorate the bicentennial of the American Revolution, which will be offered Spring Quarter. Included will be evening lectures by Dr. Dan Sisson of the Center for the Study of Democratic Institutions, Santa Barbara; Dr. Page Smith, professor emeritus, University of California, Santa Cruz; Dr. Charles Sellers, UC Berkeley; and Drs. Wilfred Jacobs and Roderick Nash, both from UC Santa Barbara.

Titled "Revolutionary America," the 3-unit course will meet at 6:30 pm on Mondays and Wednesdays beginning Monday (Mar. 31) and continuing through Wednesday (June 4). Meetings will normally be held in Agricultural Engineering 123 but will be moved to a larger location when interest in the speaker warrants.

Donald W. Hensel (History), coordinator of the course, said participation will be through any of three means. Besides being available to regularly enrolled students, it will be available to non-students who wish credit through Cal Poly Extension's concurrent enrollment program. Others are invited to attend individual class sessions without charge and without credit as long as seating is available.

The course on "Revolutionary America" is the first of a series of lectures and other programs that will be presented at Cal Poly during 1975 and 1976 as part of the national observance of the bicentennial of the American Revolution. Dr. Hensel urged Central Coast area residents who wish to participate in the course to sign up for concurrent enrollment through Cal Poly Extension. Information about concurrent enrollment can be obtained at the Continuing Education Office, Ext. 2053.

➤ STAFF SENATE LONGEVITY AWARDS MADE

The fourth annual Staff Senate buffet luncheon honoring support staff employees with 10, 15, 20, and 25 years of service with the University was held at Vista Grande on Thursday (Mar. 20). James R. Landreth (Director of Business Affairs) was master of ceremonies for the event. After brief comments by Staff Senate Chairman Marvin Mortensen and Executive Vice President Dale W. Andrews, the service awards were made to the following:

Ten Year Anniversary

Robert H. Baldrige  
Patricia Barker  
Wm. Keith Butts  
Rosemary Cameron  
Fred Casillas  
Donald M. Coats  
James Lee Crissey

Clara Froggatt  
Josephine Graves  
Lloyd Hennig  
Lillian Hooks  
Lorraine H. Howard  
John A. Johnson  
Tommie L. Jones

Geraldine Kendall  
Ellen Keyser  
Robert Kirk  
Christine Long  
Albert Sanders  
Pat Tupac-Yupanqui

Fifteen Year Anniversary

Robert Bostrom  
Donald Curtis  
Lloyd Richard Evans

Bill Hart  
Dale Lackore  
Robert Miller

Margaret Nelson  
Richard Tartaglia  
Howard West

Twenty Year Anniversary

Evelyn Reagan

Twenty-Five Year Anniversary

Victor Allen

J. Cordner Gibson

Eugene A. Rittenhouse

An expression of appreciation was extended to those employees that have long and faithfully served Cal Poly.

➤ WORK PERMIT CHANGE FOR FOREIGN STUDENTS

Cal Poly has recently been notified by Alex C. Sherriffs (Vice Chancellor, Academic Affairs, The California State University and Colleges) of a change in federal regulations governing work permits for foreign students. A notice, published in the Federal Register of Feb. 5, has discontinued the policy under which school officials were authorized to permit nonimmigrant students to engage in summer employment. Additional information may be obtained from the International Programs Office, ext. 2147.

➤ MARCH SALARY WARRANTS WILL BE AVAILABLE ON MONDAY

March salary warrants for faculty and staff of the university will be available at 4 pm on Monday (Mar. 31), the last day of the pay period. Warrants batched by department may be picked up at the Cashier's Office, Adm. 131-E, and those picked up on an individual basis may be picked up in the Business Affairs Division Office, Adm. 114, after that time.

WILL ROGERS, JR. AT POLY ROYAL

"An Evening with Will Rogers, Jr." will be a featured event during the 1975 Poly Royal on Friday (Apr. 25). Rogers will be presenting some of his father's material, including satirical commentary on political, social, and economic happenings of the day, in Chumash Auditorium, 7 pm and 9 pm. Ticket prices will be \$1.50 for students and \$2.50 for the public.

Will Rogers, Jr. was the oldest son of Will Rogers, Sr. and Betty Blake Rogers. Born in 1911, Rogers has a sister, Mary, and a brother, James. When Will, Sr. began appearing in silent pictures in 1919, the family moved to Beverly Hills, where Will, Jr. attended public school. Upon graduation from Stanford University in 1935, Will, Jr. purchased the Beverly Hills Citizen, a weekly newspaper he had worked on as a high school correspondent. For his newspaper and the McNaught Syndicate he covered the Spanish Civil War in 1936-37.

Rogers was elected to the United States Congress from the 16th District of California in 1942 while he served as a second lieutenant in the U.S. Army. He resigned from Congress in 1944 to re-enter the Army. He was wounded in the Battle of the Ruhr in the last week of World War II and spent several months in hospitals in England and France. Rogers started his acting career by playing his father in The Story of Will Rogers. He went on to star in several motion pictures, including The Boy from Oklahoma, and Wild Heritage.

Currently, Rogers is a part-time consultant to the Bureau of Indian Affairs. He has divided his energies between his real estate business in Beverly Hills and his ranch in Tubac, Ariz. He is also honorary chairman of Arrow, a national organization for Indian welfare, and with Bryan Sterling, a research specialist, is preparing a book on the films of Will Rogers, Sr. Rogers' Poly Royal appearance is being sponsored by the Fine Arts Committee of Cal Poly's Associated Students, Inc.

▼ GRANT ASSIGNED CAREER EDUCATION PLANNING

Hazel J. Jones (Vice President for Academic Affairs) has announced the assignment to David M. Grant (Associate Dean, Academic Planning) of responsibility for dealing with matters pertaining to career education curriculum. Dr. Grant will be the Academic Affairs liaison person for the planned Career Center. In addition, he will be responsible for the review and overall coordination and implementation of career experience curricula, such as field experiences, internships, and cooperative education.

▼ BONDS TO BE COORDINATOR OF DISABLED STUDENT AFFAIRS

Everett M. Chandler (Dean of Students) recently appointed Robert Bonds to coordinate California Polytechnic State University's disabled students program. Bonds has been actively involved with disabled students since his joining the Student Affairs staff in 1972. As coordinator, he will be responsible for evaluations, recommendations, and administrative compliance to The California State University and Colleges Task Force Report. The development of efficient and effective educational, social, and community relations will be his key responsibilities, as well as organizing, orienting, and assisting with problems of disabled students. Bonds will continue to serve as advisor to Disabled Students Services, an ASI coded group. The program is located in University Union 217, ext. 2476.

▼ CAL POLY RECEIVES COMPLIMENTS ON LOAN COLLECTION

A report has been received from the Chancellor's Office, The California State University and Colleges, reporting systemwide statistics on success (or failure) in student loan collection efforts. The record shown by California Polytechnic State University, San Luis Obispo, indicated that the ratio of past due accounts to total loans made was 7.1 percent, the lowest in the CSUC system. In addition, the report noted that Cal Poly's percentage of delinquent accounts, 6.9 percent, compares very favorably with the systemwide average of 12.1 percent.

President Robert E. Kennedy complimented the Financial Aid Office and the section of the Accounting Office responsible for billings and collections saying, "Too often we allow these systemwide reports to slide by without comment unless they indicate a problem. The report very clearly indicates that the combined efforts of these offices have been extremely successful."

▼ GOOD FRIDAY WORK SCHEDULE

Questions have been raised with regard to whether time off will be granted for Good Friday this year. In the past, time off has been granted by proclamation. We have been informed by the Chancellor's Office that due to recent court rulings, no proclamation is expected this year. In the absence of such a proclamation, Friday (Mar. 28) will be a regular work day for administrative and support staff employees. Friday morning, (Mar. 28) is a normal academic workday; however, that afternoon is designated as an academic holiday. Faculty and administrators should take appropriate steps to work with students, faculty and staff so they may properly observe this holiday.

▼ MOUNTS TO BE PRESIDENT OF MEDICAL SOCIETY

Willard S. Osibin, president of the San Luis Obispo County Medical Society, has announced the election of Billy W. Mounts (Director, Health Services) to the position of President-Elect of the San Luis Obispo County Medical Society. Dr. Mounts has been a member of the society since 1952. Currently Dr. Mounts serves as an active member of the Board of Directors, as program director for the Membership and Programs Committee of the society, and has recently been appointed the alternate delegate to the California Medical Association. Dr. Mount's term of office will begin on Jan. 1, 1976.

▼ UNIVERSITY CLUB WOMEN'S LUNCHEON PLANNED

Wednesday (April 9) is the date selected by the Cal Poly University Club for its annual lunch for women members. The lunch will take place in the Staff Dining Room. Serving will be 11:30 am to 1:30 pm in order to accomodate those women members who have commitments during the traditional 12 noon to 1 pm time period. Robert Gordon (Ornamental Horticulture) will present a program titled "Music and Flowers." Women who are members of the University Club are urged to attend as guests of the University Club and make this an especially festive occasion. Please make reservations with Vi Hughes (Health Center) or call her at Ext. 1212 prior to Apr. 4.

~~~~~

▼ The return of excess supplies of inter-campus mail envelopes is being requested by the Duplication Center. Offices and departments that have quantities of the envelopes in excess of their needs are asked to return them to the Duplication Center, Adm. 129.

WHO . . . WHAT . . . WHEN . . . WHERE ? ? ?

Robert L. Rosenberg (History) attended the 14th annual conference of the California Council for the Social Studies held in Sacramento on Mar. 13-15. Dr. Rosenberg is president of the Central Coast Council for the Social Studies and a member of the Executive Board of the California State Council.

Melvin R. White (Speech Communication) will serve as critic judge and be the banquet speaker at the Green River Oral Interpretation Festival at Western Kentucky University, Bowling Green, Kentucky, on Mar. 28-29.

Robert Baldridge (Theatre Manager), William Adams (Theatre Technician), and Frederick E. Wolf (Coordinator, Special Programs and Publications Editor) attended the 17th annual conference of the United States Institute for Theatre Technology at the Anaheim Convention Center on Mar. 12-15. Among topics covered were: "Theatre in a Reduced Energy World," "Safety in the Theatre," and a new products seminar.

James G. Edwards (Industrial Technology) will be presenting a paper on "Tooling Design Problems in School Shops" at the ninth annual Plastics for Tooling Conference at the El Cortez Hotel in San Diego on Mar. 21-22. The Plastics for Tooling Conference is sponsored by the Society of Plastics Engineers, the Society of Plastics Industries, and San Diego State University. Along with Edwards' presentation there will be 18 other industrial speakers.

H. Paul Beauvais (Health Center) attended the annual convention of the California Association for Medical Technology at the Marriott Hotel in Los Angeles on Mar. 5-9. While there, he was elected district consultant for District III, Central California. As a member of the Board of Directors, he will represent 3200 licensed California Medical Technologists for the next two years.

Grant D. Miller (Health Center) had a paper printed in the Dec. 1974 issue of The Journal of the American College Health Association, Vol. 23, No. 2, titled, "The Gynecological Examination as a Learning Experience." The paper was originally presented at the annual meeting of the American College Health Association in Dallas on Apr. 5, 1974.

Donald W. Hensel (History) attended the three-day Danforth Regional Conference at Palm Springs. The theme of the conference was "Responsibility in Higher Education: Who Accounts to Whom for What?" The leading speakers were Judge Matt Byrne (the Ellsberg judge) and Max Lerner. Also on the program were Richard Garcia, trustee, California State University and Colleges system, Raymond Gonzales, chairman, California State Assembly Committee on Education, and William Trombley, education specialist, Los Angeles Times. Hensel participated in workshops on the "Government's Role in Holding Professors Accountable."

Walter E. Elliott (Physics) consulted with science teachers in the Irving (Texas) Independent School District on the development and use of mini-courses in science teaching on Mar. 11. Dr. Elliott has also been teaching a demonstration mini-course class in physics at Lincoln High School, a predominantly black inner-city Dallas school.

➤ PARKING REMINDER ISSUED

Parking permits are now on sale at the Cahier's Office in the Administration Building. Campus parking regulations will be enforced beginning Wednesday (Mar. 26), and vehicles not bearing appropriate decals will be subject to citation.

## ➤ SUPPORT STAFF VACANCIES LISTED

Vacant support staff positions have been announced by Robert M. Negranti (Staff Personnel Officer). Descriptions of the positions and other vacancies are posted outside the Personnel Office, Adm. 110, ext. 2236. Contact the Personnel Office to obtain an application. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. The positions are:

Clerical Assistant II-B (\$603-\$734/month), Biological Sciences, School of Science and Mathematics. Duties and responsibilities include distributing and delivering departmental mail; taking dictation, typing tests, course outlines, and letters; duplicating tests and course materials; and xeroxing. Requirements: High School graduate with one year of clerical experience. Typing 45 wpm, shorthand 90 wpm. Some knowledge of biology would be helpful. Applicant must have taken the General Clerical Test. Applications must be received by April 1, 1975.

Intermediate Account Clerk (\$561-\$682/month), Financial Operations, Business Affairs Division. Duties and responsibilities include preparing and processing accounts receivable invoices for the University Accounting Office; maintaining automated open and paid invoice register and reconciliation of same to related general ledger accounts.
