

Volume 26, Number 37

May 13, 1975

§ On Saturday [June 14]

Adela Rogers St. Johns will speak at Commencement

☆ President Robert E. Kennedy has announced the selection of noted writer and television personality Adela Rogers St. Johns as speaker at the 69th annual Commencement exercises at Cal Poly. The 1975 Commencement will take place on Saturday (June 14) at 3:30 pm in Mustang Stadium. Additional information about Commencement activities will be published in a later issue of Cal Poly Report. Mrs. St. Johns has been noted, in recent years, as the author of several books and for her frequent appearances on television interview/talk programs. She has appeared on the Johnny Carson Show, the Merv Griffin Show, the Mike Douglas Show, the "Tomorrow" Show, as well as on local programs.

Daughter of the famed California trial lawyer, Earl Rogers, Mrs. St. Johns grew up in an atmosphere of lively controversy surrounded by writers, lawyers, criminals, and politicians. She chose, early in life, to become a writer (and has never enjoyed the title "author"). She joined the staff of the Los Angeles Herald Examiner and grew up within the Hearst news empire. She was the first American woman to become a nationally recognized feature news writer. Among other stories, she covered the abdication and marriage of King Edward VII of England, the Lindberg kidnapping trial of Bruno Hauptmann, and the Amelia Earhart disappearance. The noted New York writer, Damon Runyon, coined the term "sob sister" for her.

In the golden age of Hollywood, she wrote screen plays for the stars and stories about them for major magazines such as Photoplay, Liberty, and Cosmopolitan. She then became a leading writer of short stories appearing both in magazine and book form.

In recent years, she has written four books, each appearing on the New York Times best-seller list. They include the biographical works, Final Verdict and The Honeycomb. The novel, Tell No Man, dealt with the religious conversion of a Wall Street stock broker and the effect it had on his life and the lives of those surrounding him. Her recent book, Some are Born Great, is a series of biographical sketches of American women who have, in one way or another, changed the history of the United States.

☆ Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon on Friday (May 16) in the Public Affairs Office, Adm. 210. Copy intended for Cal Poly Dateline is due in the Public Affairs Office by 12 noon on Tuesday (May 13).

☆ GUEST CONDUCTOR FOR SPRING BAND CONCERT

A man who has conducted major professional orchestras in Europe, South America, and the United States will be the guest conductor when the Cal Poly Symphonic Band presents its 1975 Spring Concert on Saturday (May 17). Dr. David Whitwell, presently conductor of the Wind Symphony at California State University, Northridge, will conduct two numbers during the concert, which is scheduled for 8 pm in Chumash Auditorium.

William V. Johnson (Music), director of bands at Cal Poly and conductor of the Symphonic Band, said Dr. Whitwell has recently conducted wind chamber performances by members of the Vienna Symphony in Vienna and in Stuttgart, West Germany, with members of the Stuttgart Radio Orchestra. Johnson said the May 17 performance will be the first of two to be given by the Cal Poly Symphonic Band to benefit the travel fund for its forthcoming European tour. A second is planned for Friday (June 27) just before the band's July 1 departure for three weeks of performances in Vienna and Western Europe.

Tickets for the Spring Concert are being sold in advance at the ticket office in the University Union and by members of the band. Remaining unsold tickets will be sold at the door on May 17. Prices are \$1 for students and \$2 for all others. Johnson pointed out that many of those who had planned to attend the band's Winter Concert in late February were disappointed when tickets were sold out 20 minutes before concert time. He urged those planning to attend the Spring Concert to purchase their tickets in advance.

☆ ADDITIONAL FACULTY PROMOTION ANNOUNCED

President Robert E. Kennedy has announced an additional faculty promotion for the 1974-75 academic year. Effective September 1, 1974, Larry D. Moore (Electronic and Electrical Engineering) has been promoted to the rank of Senior Vocational Instructor.

☆ O S H A SEMINAR SCHEDULED

A seminar designed to create a better understanding of the California Occupational Safety and Health Act will be held at Cal Poly on Saturday (May 17). The seminar, to begin at 10 am in the patio of the Engineering West Building, is sponsored by the student chapters of the Construction Specifications Institute and the Society for the Advancement of Management. The public is invited. There will be a \$3.50 registration fee in advance and a \$4 fee at the seminar. The fee will include lunch.

Gary Sills of Fresno, student chairman for the seminar and a senior majoring in architecture, encourages those planning to participate to register early, since accommodations will limit attendance to 250 people. Lawrence Andrus, senior safety engineer for California, will discuss the general intent of the act during the morning session. Following lunch served in the patio, participants will attend workshop sessions on construction safety, agricultural safety, and industry safety orders. Application forms can be obtained at the Activities Planning Center in the University Union.

☆ Type font elements for IBM Selectric typewriters that have broken teeth and can no longer be used are being collected by the Public Affairs Office. Campus offices that wish to dispose of broken type elements are asked to forward them via campus mail or bring them to the Public Affairs Office, Adm. 210.

☆ CUESTA COLLEGE AGREES TO H E P SUBLEASE

Continuation of Cal Poly's High School Equivalency Program (HEP) may be made possible by approval received last night (Monday) from the Board of Trustees of Cuesta College, for a sublease of facilities on the community college campus. President Robert E. Kennedy asked the Cuesta Board for approval of a plan which would make classroom space available for HEP at no rental cost. The Board unanimously approved the request.

Dr. Kennedy went to the Cuesta Board with the request in the expectation that such an arrangement would be approved by the Department of Labor officials who are responsible for administering HEP programs throughout the country. Earlier, the Cal Poly-administration had sought transfer of the Cal Poly HEP program to other colleges and universities which had shown an interest. This proposal was rejected by the Department of Labor. After five months of effort to get the Department of Labor to change its policy, it became apparent the only way to save the HEP program was to find local area office and classroom space which could be subleased with Cal Poly's Foundation continuing to administer the Federal contract.

The need to find new facilities for HEP became evident when Cal Poly sought permission of the Board of Trustees of The California State University and Colleges to locate 15 trailers on the campus next year to accommodate faculty and staff, primarily due to relocation of faculty and staff members from Tenaya Residence Hall in order to return the residence hall to student housing use. Trustee policy requires that all on-campus space be used for university programs before approval for any temporary facilities will be granted.

In November, 1974, Cal Poly informed the Department of Labor that it would be necessary to convert the existing campus HEP facilities (in the former Air Conditioning Auditorium) for regular campus instructional use. Robert J. McConnon, Director, Office of National Programs, Department of Labor, Manpower Administration, advised Cal Poly that the program could not be moved to another campus and indicated that it would be discontinued if Cal Poly could not accommodate HEP after July 1.

Dr. Kennedy then turned to Colonel Douglas Baird, Commander of Camp San Luis Obispo, who obtained California Military Department permission for Cal Poly to sublease from Cuesta College two buildings which Cuesta has leased for the past 11 years but which are now available due to completion of new Cuesta College facilities. "This is our best opportunity to continue the HEP program," Dr. Kennedy said. "I am convinced that it provides a vital service to an often neglected segment of California society."

The HEP program assists migrant and seasonal farmworkers from 17 to 24 years of age to successfully complete the General Educational Development (GED) Examinations. It also helps to place them in a job, in job-training programs, or in postsecondary education. Dr. Kennedy pointed out that the Cal Poly HEP program was transferred from San Diego State University to the San Luis Obispo campus four years ago when Cal Poly was in a better position to offer facilities. He said that under the arrangement with Cuesta College, the Federal program will continue to pay for utilities as well as student support and instructional costs. He said the students, currently housed at Palm Royal apartments adjacent to the campus, will continue to receive breakfast and dinner on the Cal Poly campus and will either have lunch at the Cuesta College cafeteria or be provided with box lunches. Cal Poly will provide bus transportation to and from the Cuesta campus.

Tony Garcia, HEP Director, said the Cuesta College facilities are ample. "I really appreciate sincerely the type of commitment that President Kennedy has shown in seeking to continue the program," Garcia said.

Dr. Kennedy noted that student body resolutions, petitions supporting HEP, and letters in support from legislators and educators, including Chancellor Glenn S. Dumke of The California State University and Colleges system, indicate that HEP is well received and has wide support. He said he hoped there would be no problems in securing approval of the Cuesta College lease arrangement from the Department of Labor, permitting HEP to continue as a Cal Poly program.

There are some 50 students in the HEP program this year. Dr. Kennedy met with the students and staff members of HEP this morning to explain the effect of the Cuesta College Board decision and the request for continuation which the university is making to the Department of Labor.

☆ The return of excess supplies of inter-campus mail envelopes is being requested by the Duplication Center. Offices and departments that have quantities of the envelopes in excess of their needs are asked to return them to the Duplication Center, Adm. 129.

☆ THREE "PHYSICISTS" WILL TREAD THEATRE STAGE

Deceptive characters will fill the stage of the Cal Poly Theatre during upcoming performances of Friedrich Duerrenmatt's drama, The Physicists. Scheduled as the spring production of the Speech Communication Department, it will be presented at 8 pm on Thursday, Friday, and Saturday (May 22, 23, and 24). Tickets for all performances will be \$2 for general admission and \$1 for students. They will be available at the ticket office in the University Union, as well as at the theatre box office on the nights of the performances.

The cast for the production includes Ann Jacobs as the hunchbacked, slightly mad, yet charming psychiatrist named Fraulein Doktor Mathilde von Zahnd. She presides over a sanatorium, which currently holds, among others, three insane physicists. Miss Jacobs is a graduate student in education who has theatrical experiences in high school and college, as well as summer stock production.

Patrick Chew will portray one of the three physicists, the sensitive genius, Johann Wilhelm Mobius. Since his resounding success as Captain Hook in Cal Poly's production of Peter Pan, Chew has performed the leading roles in both Cal Poly productions this year, The Front Page and Enemy of the People. A senior majoring in speech communication, he also directed the recent campus production of Seneca's Oedipus in a modern version.

Cast in the part of Herbert George Beutler, another of the physicists, is Mark Ditchfield, who has been active with drama production since he came to Cal Poly as a freshman last year. He has appeared in six major productions at Cal Poly and is majoring in speech communication. Ernst Heinrich Ernesti or Einstein, the third physicist, will be portrayed by Steve Patterson, a senior English major who has participated in theatre activities for the past four years. He has appeared in Tom Paine, A Cry of Players, Enemy of the People, and several children's plays.

Bob Norris, also a veteran of the Cal Poly stage, will play the part of Inspector Richard Voss, a role that may be considered a take-off on Agatha Christie's famous detective, Hecule Poirot. Appearing as Monika Stettler, a beautiful, hardworking and intelligent woman deeply in love with Mobius, will be Tenaya Groff.

The campus production of The Physicists is directed by Michael Malkin (Speech Communications) who has acted and directed for university and professional companies in the United States, Canada, England, and India. He has also worked as a professional television actor and is the owner and director of the Malkin Puppet Players, a touring puppet company for children and adults.

☆ ENGINEERING WEST ADDITION TO GET UNDERWAY

E. Douglas Gerard (Executive Dean) reports that the State Public Works Board has approved a budget augmentation clearing the Engineering West Addition Project for bid advertising and construction. The structure will cost approximately \$700,000 (up from the original \$600,000 allocated). Originally funded in the 1973-74 budget, estimators determined that the project would cost more than originally budgeted. The project will be located directly west of the Engineering West Building between that building and the Business Administration and Education Building and Crandall Gymnasium.

The Engineering West addition, when completed, will contain, among other facilities, faculty office space for five persons and laboratory space for 12.9 FTE architectural engineering students (providing 258 student lab spaces per week). Bids are scheduled to be opened on Thursday (June 19) and assuming a successful bidder, construction could start within one month to six weeks. The project has an estimated construction period of 400 calendar days.

☆ HIGH SCHOOL STUDENTS IN INDUSTRIAL ARTS SHOW

One hundred and thirty-five students from San Luis Obispo and Santa Barbara County schools are expected to participate in the second annual Central Coast Industrial Arts Show at Cal Poly on Friday and Saturday (May 23 and 24). Sponsored by Cal Poly's Industrial Technology Department, the show will take place in Chumash Auditorium from 12 noon to 6 pm on Friday and from 10 am to 5 pm on Saturday. Admission will be free and the public is invited to join the families and friends of the student entrants in viewing the show.

Ron Edwards and Dan Morgan, student coordinators for the event, said its purpose is to give high school and junior high school industrial arts students an opportunity to exhibit their best work. Projects included in the show must be of an original nature and all work must have been completed by the students themselves and at their school. Entries in plastics, metal crafts, drafting, auto power, graphic arts, wood, electricity, and electronics will be judged and awards for the best workmanship will be presented at the close of the show.

☆ STAFF SENATE ELECTIONS

Ballots for Staff Senate elections will be mailed to individuals this week. Note that there are eight different ballots because of vacancies coming up in eight different service areas. Ballots must be returned to the election committee not later than Tuesday (May 20). Results will be announced at the Staff Senate meeting Wednesday (May 21).

☆ FACULTY CAPS AND GOWNS FOR RENT/PURCHASE

Faculty and staff members who need caps and gowns for graduation ceremonies are reminded that all orders for purchase must be placed with chest and head measurements made at El Corral Bookstore before 12 noon on Thursday (May 15). All orders for rentals must be placed, with measurements made, at El Corral Bookstore before 12 noon on Friday (May 23). Persons who rented caps and gowns last year need only telephone Mrs. Williams at El Corral, Ext. 1101, to leave their order, as their measurements are on file.

Information regarding cap and gown purchase or rental for graduation ceremonies announced by Mary Lee Green (Manager, El Corral Bookstore) is as follows:

<u>Cap and Gown</u>	<u>Purchase</u>	<u>Rent</u>	
Bachelor's Complete.....	\$16.00 to \$68.00.....	\$10.00	(Less 50% if you own a hood.)
Master's Complete.....	19.00 to 77.20.....	12.00	
Doctor's Complete.....	26.00 to 124.75.....	14.00	

An announcement will be made in the Cal Poly Report when the caps and gowns are received. The supplier of caps and gowns cannot guarantee delivery in time for graduation if orders are placed late.

☆ MISSING ALUMNI SOUGHT

The Cal Poly Alumni Office, Admin. 210, is updating its mailing list. If any readers are graduates (or ex-students) of this university and suspect they are not already on the mailing list, please send in your name and address to the Alumni Office. If you have questions, the extension is 1261.

☆ DRIVERS WARNED OF ENTRY ROAD HAZARDS

The \$800,000 new entry road project for Cal Poly which will connect the campus with Highway 1 at Highland Drive is not yet open to traffic. All vehicle operators are asked to cooperate by staying off the road surface until the project is officially completed, according to E. Douglas Gerard (Executive Dean).

Dean Gerard pointed out that the final surface of the entry road has been damaged by drivers who have ignored the contractor's barriers, causing further delays in the project. He emphasized that the entry road project remains under the jurisdiction of the contractor, A. J. Diano, until all parts of the contract have been fulfilled, including signalizing the intersection of Highway 1 and Highland Drive. He also cautioned that drivers who attempt to use the entry road before the signalizing is complete will create a hazard for themselves and others. He estimated that the entry road project will be completed about June 15.

☆ COFFEE HOUR IN HONOR OF JOHN LEE

A coffee hour will be held Wednesday (May 14) from 2 pm to 4 pm in Staff Dining Rooms A and B, in honor of John C. Lee, who is retiring May 20. Mr. Lee has been an employee of the Foundation since April 18, 1960, and is currently Director of the Food Service department. All friends and associates are invited to assist in sending John and his wife, Mickie, off to a happy retirement.

☆ CHANGE IN PETTY CASH MAXIMUM

According to Donald M. Vert (Procurement and Support Services Officer) effective immediately petty cash payments for purchases or services are increased from \$15.00 to \$20.00 (plus sales tax) per transaction. All other rules and regulations pertaining to petty cash purchases as outlined in CAM 512.4 remain unchanged.

☆ WAXMANS WILL PLAY DUET DRAMA

Theater as Shakespeare knew it, with the artist creating the illusion of the scene, will be seen on the stage of Chumash Auditorium on Sunday (May 18). In a 7:30 pm performance sponsored by the Fine Arts Committee of the ASI, Rena and Stanley Waxman will present "Miracle at Midnight." The public is invited. Admission will be \$1 for students and \$2 for all others.

Rena and Stanley Waxman have worked together on the stage, in films, and on radio and television for all of their married life. According to Larry Hyland, student chairman of the Fine Arts Committee, "They are two persons who appear on a virtually empty stage, without benefits of costumes or props, and by their own charisma transport the audience into a world of illusion of setting and a totality of impression that one will not soon forget." Their long, mutual life as a team, in marriage and on the stage, is reflected in the Waxmans' impact on their audiences.

☆ ROASTED NUTS AT ICE CREAM PARLOR

A variety of nuts (peanuts, cashews, pistachios, sunflower seeds, caramel corn, special mixes, etc.) are now available at the Ice Cream Parlor. The nuts are freshly roasted and can be purchased by weight ($\frac{1}{4}$ lb. minimum). The Ice Cream Parlor is open Mondays through Fridays from 11 am to 10 pm and is situated in the University Union across from the bowling alley and recreation hall.

☆ WHO . . . WHAT . . . WHEN . . . WHERE ? ? ?

Moon Ja Minn Suhr (Women's Physical Education) recently attended the concert of the Ewha Women's University Touring Dance Company of Seoul, Korea. Mrs. Suhr was asked to participate as a critic of the performance and her critique was published in the Han Kook Ilbo (a leading newspaper of Korea), also published in Los Angeles as the Korean Times.

Eugene F. Madsen, M.D. (Health Center) had a paper written by him presented at the 53rd annual meeting of the American College Health Association in New York City on Apr. 1-4. The paper was titled, "The Tampon--SOS--Self-Obtained Specimen Technique for the Detection of Vaginal Pathogens."

Michael Looney (Health Center) presented a paper titled, "Alcohol Use Survey on Campus: Implications for Health Education," at the 53rd annual meeting of the American College Health Association in New York City on Apr. 1-4. The survey was prepared and conducted on the Cal Poly campus by Mr. Looney and Leo W. Pinard (Social Sciences).

William Hyde (Philosophy) has received word from the University of California, Santa Barbara, that he has completed all requirements for his doctorate. Dr. Hyde has been at Cal Poly for two years.

(continued on page 8)

☆ SUPPORT STAFF VACANCIES LISTED

Vacant support staff positions have been announced by Robert M. Negranti (Staff Personnel Officer). Descriptions of the positions and other vacancies are posted outside the Personnel Office, Adm. 110, ext. 2236. Contact the Personnel Office to obtain an application. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. The positions are:

Departmental Secretary II-B (\$699-\$849/month), Crop Science Department, School of Agriculture and Natural Resources. Duties and responsibilities include typing, taking and transcribing dictation, maintaining files, preparing student payrolls, ordering and maintaining supplies, typing and duplication of course materials, supervising student assistants, handling inquiries from students and prospective students, maintaining agricultural enterprise records and inventory, and acting as receptionist for department. Requirements: high school graduate with at least three years clerical experience, typing 45 wpm, shorthand 100 wpm, and must have taken the General Clerical Test. Closing date: May 30, 1975.

Senior Account Clerk (\$682-\$829/month), Financial Operations, Business Affairs Division. Duties and responsibilities include supervision of university accounts payable function, and processing of all disbursements for goods and services, with the exception of payroll disbursements, on behalf of the university and numerous related funds. Requirements: high school graduate with at least three years of accounting or related experience. College level accounting training or willingness and ability to undertake and complete such training as required is highly desirable. Closing date: May 30, 1975.

Supervising Account Clerk (\$789-\$960/month), Financial Operations, Business Affairs Division. Duties and responsibilities include supervision of university cashing functions including receipting of all monies paid to the university whether directly or by mail; preparation of staff and student payrolls for distribution; and organization and reconciliation of registration cashing operation. Requirements: high school graduate with at least four years of experience in difficult financial record keeping work, at least one year of which shall have involved the supervision of the work of others. College level accounting training and one year cashing experience highly desirable. Closing date: May 23, 1975.

Student Affairs Assistant III (Admissions Officer), (\$1,125-\$1,367/month), Student Affairs Division. Typical tasks: directs the admissions program and provides advice and counsel to applicants regarding vocational objectives and university suitability. Supervises such functions as processing the applications of students, evaluating transcripts and other documents relative to admissions. Requirements: graduation from an accredited college or university; at least three years of administrative, supervisory or technical experience, preferably in a college or university, which will have provided adequate training for supervising admissions. Position available July 1, 1975. Closing date: June 15, 1975.

Clerical Assistant II-A (\$561-\$682/month), Procurement and Support Services Office, Business Affairs Division. Position is split between Records Storage and Purchasing Office. Duties in Records Storage consist of maintaining current records in proper area and destroying records in accordance with disposition schedule. Purchasing Office duties include typing, filing, scheduling office machine repairs, keeping machine records and other general office work as required. Requirements: high school graduate with at least one year's office experience. Typing 45 wpm and must have taken the General Clerical Test. Temporary leave replacement. Position available 6-16-75 to 9-12-75. Closing date: May 20, 1975.

☆ WHO...WHAT...WHEN...WHERE??? (continued from page 7)

Keith E. Nielsen (Speech Communication) participated in the 25th anniversary convention of the International Communication Association at the La Salle Hotel in Chicago, Ill., on Apr. 23-26. Dr. Nielsen presented a paper titled, "Dialogue as a Mode of Health Communication in a Correctional Facility," at a Health Communication Division Session. He also served as secretary for the business meeting of the Health Communication Division.

Irving P. Babow (Social Sciences) presented a paper titled, "Neutering Employment Vocabulary: Planned Change in the Language of Sex Roles," at the Pacific regional meeting of the American Dialect Society at San Jose State University on May 3.

Walter E. (Walt) Elliott and James S. Kalathil (both Physics) attended the annual spring meeting of the American Association of Physics Teachers, Northern California Section, on Apr. 25 at Menlo College. At the meeting Dr. Elliott reported on selected topics that will appear in an extensive study titled, "Education in the 21st Century-- A Research Report."

☆ CANDIDATES FOR FACULTY POSITIONS BEING SOUGHT

Candidates for positions on the faculty of the university are presently being sought, according to Donald L. Shelton (Director, Personnel Relations). Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. Following is a description of the available positions:

Lecturer (\$11,880-\$14,448/academic year), Engineering Technology Department, School of Engineering and Technology. Position open Fall, Winter and Spring Quarters of 1975-76 academic year only. Duties and responsibilities include teaching courses in basic electricity and electronics (both lecture and laboratory), student advisement and Senior Project advising. Candidates must possess a Master's degree in Electrical or Electronic Engineering and have at least five years industrial experience in electronics. Registration as a Professional Engineer and/or prior teaching experience desired. Position available September, 1975. Applications must be received by June 1, 1975.

Lecturer (\$3,592-\$4,816/quarter), Engineering Technology Department, School of Engineering and Technology. Position open Fall Quarter of 1975-76 academic year only. Duties and responsibilities include teaching courses in basic electricity and electronics (both lecture and laboratory), student advisement and Senior Project advising. Candidates must possess a Master's degree in Electrical or Electronic Engineering and have at least five years industrial experience in electronics. Registration as a Professional Engineer and/or prior teaching experience in electronics desired. Position available September, 1975. Applications must be received by June 1, 1975.

Lecturer, Range B (\$10,098-\$12,281/academic year), (part time--.85 time), Economics Department, School of Business Administration and Social Science. For 1975-76 academic year. Duties and responsibilities include teaching Survey of Economics, Principles of Economics, and Money and Banking. Only individuals with doctoral dissertation near completion or doctorate degree will be considered. Teaching experience at the college level preferred.

Lecturer, Range A (\$1,796-\$2,184/quarter), (part time), Child Development Department, School of Human Development and Education. For Fall Quarter, 1975 only. Duties and responsibilities include half-time teaching of a pre-school laboratory class. Candidates should possess at least a Master's degree in Child Development and must have had previous supervisory experience at the pre-school level.

Lecturer, Range A (\$1,796-\$2,184/quarter), (part time), Child Development Department, School of Human Development and Education. For Fall Quarter, 1975 only. Duties and responsibilities include teaching two lower-division courses in Child Development. Candidates should possess at least a Master's degree in Child Development and must have had previous experience teaching at the college or university level.

Lecturer, Range A (\$898-\$1,092/quarter), (part time), Child Development Department, School of Human Development and Education. For Fall Quarter, 1975 only. Duties and responsibilities include teaching one course on the Afro-American Pre-school Child. Candidates should possess at least a Master's degree and must have had previous experience teaching at the college or university level.

Lecturer, Range B (\$2,970-\$3,612/quarter), (part time), Child Development Department, School of Human Development and Education. For Summer Quarter, 1975 only. Duties and responsibilities include teaching required upper-division courses in Child Development on a 3/4 time basis. Candidates should possess a doctorate in Child Development.
