

Volume 20, Number 29

March 3, 1970

## PRE-REGISTRATION DEFERRED

Three proposals involving the concept of pre-registration have been deferred on the basis of recommendations made by various consulting groups in the college.

### Spring Quarter Registration March 23

Registration for the Spring Quarter, 1970, will be held on March 23 from 8 a.m. to 6 p.m. The decision to hold the one-day registration, as announced in the quarterly Class Schedule now on sale at El Corral store, resulted from a recommendation initiated by the Dean of Students.

Consultation with department heads in the Student Affairs Division, the Registration and Scheduling Committee, the Ad Hoc Student Registration Committee, and the President's Council led to endorsement by all groups of the March 23 date. President Robert E. Kennedy said the decision was based on an alternative proposal contained in the earlier suggestion for a pre-registration period.

### Fall Quarter New Student Summer Program Abandoned

Registration of new students for the Fall Quarter, 1970, will be held on Sept. 16 following a recommendation of the President's Council. Endorsement of the recommendation by Dr. Kennedy ended proposals to continue for a second year the experimental summer pre-registration program for new students conducted last year. Dan Lawson (Acting Dean of Students) said the Ad Hoc Student Registration Committee and the Registration and Scheduling Committee had both recommended against continuing the summer program.

Dr. Lawson said the summer program is believed to have had a harmful effect on the Week of Welcome orientation of new students to Cal Poly's co-curricular program, evidenced by diminished interest shown this year in college-sponsored co-curricular activities. The Sept. 16 date places new student registration in conjunction with Week of Welcome activities.

### Continuing and Returning Students Register Sept. 18

A proposed Spring Quarter pre-registration for continuing students, reconsidered by the Ad Hoc Student Registration Committee, the Registration and Scheduling Committee, and the Academic Council, has been set aside. Both continuing and returning students will register for the Fall Quarter on Sept. 18, 1970.

Potential problems anticipated in a Spring Quarter pre-registration led to the decision, President Kennedy announced. These included: early payment of fees, registration prior to availability of senior evaluations, deadlines for Class Schedule preparation, catalog availability, facility availability, and changes likely to arise in schedules prepared too far in advance. However, the Academic Council has urged that "the Registration and Scheduling Committee continue to explore means of conducting pre-registration."

(Continued on Page 2)

CAMPUS SPEAKER IDENTIFIES KEY ASPECTS OF ENVIRONMENTAL CONTROL

A solution to only one aspect of the pollution problem is really no solution, according to a federal official who spoke on campus last Thursday evening. Donald M. Keagy, director of the Western Region, U. S. Public Health Service, spoke on "The Role of Engineering in Environmental Control."

Keagy identified the five key aspects of environmental control as technical, political, legal, economic and social. Keagy urged individuals to become informed, attend conferences, hearings and local government meetings, support local and state regulations against pollution, and "manage your own little environment."

The speaker said that among positive factors being overlooked in present discussions, is the sudden change in public attitudes, which is a cause for optimism. There has been an upsurge of political activity which is producing regulatory standards and legal powers of enforcement which did not previously exist.

"We have come out of a period of almost criminal neglect and complacency," Keagy said. "Time is still on our side. But it takes thousands of political, economic, technical, social and legal decisions to prevent the degradation of the natural environment. How we control the environment is the key," he suggested. "A solution in one area, coupled with inadequacy in another, will not do the job."

Appearing as one of a series of speakers at Cal Poly in observation of Engineering Week, Keagy said: "The engineer has probably developed and demonstrated his competency to carry his share of the load as well or better than anyone. He knows how to treat sewage wastes, cleanse water, remove gaseous and particulate pollutants from air streams, reuse material resources, reduce accident hazards, and a myriad of other technical solutions. He has recognized that technical know-how is not enough and he is taking cognizance of the political, economic, social and legal constraints and consequences of what he does."

ASSISTANCE WITH ENROLLMENT OFFERED BY REGISTRAR'S OFFICE TO FACULTY, STAFF

Faculty and staff members are reminded that, if they wish to enroll for classes during the Spring Quarter, the Registrar's Office will assist with their registration. Those planning to do so should complete their registration books and leave them at the Registrar's Office, Adm-219, before March 17. Any student (or faculty or staff member) who was not enrolled during the Winter Quarter must clear through Admissions Office before enrolling for Spring Quarter.

PRE-REGISTRATION DEFERRED (Continued from Page 1)

In announcing the decisions Dr. Kennedy stressed that he was not opposed to early registration. "It is a valid concept for starting the student off on the right track" he said. "For several years we have worked to improve early registration and insure that it is an educationally sound procedure. I'm still hopeful that some future proposals will receive the endorsement of all the consulting groups and be put into effect in a way which will benefit the greatest number of students."

PROGRAM LISTED FOR FRIDAY EVENING CONCERT OF CHAMBER ORCHESTRA

A program highlighted with music by three of the world's great composers will fill the room when the Cal Poly Chamber Orchestra performs in concert on Friday (March 6) evening in the campus theater. Also scheduled to appear on the program, which will begin at 8:30 p.m., will be the Cal Poly Chamber Singers. Admission will be free and the public is invited to attend.

Clifton E. Swanson (Music Department), conductor of the orchestra, said this week that music by Mozart, Mendelssohn, Schubert, and Stravinsky is being rehearsed by the two chamber groups for Friday evening's concert. Programmed are performances of Mendelssohn's The Fair Melusina Overture, Op. 32; Mozart's Symphony No. 21 in A Major, K.134; and Stravinsky's Ragtime for Eleven Instruments by the 31-piece Chamber Orchestra.

Swanson, who will conduct both the vocal ensemble and the orchestra during the concert, said the Chamber Singers will present Schubert's Mass in G Major for Chorus and Orchestra. Soloists Sherry Atkins, Carole Cochran, Larry Potter, and Tim Musard will be featured during the Schubert mass by the 16-member vocal group, which is normally conducted by John Russell (also Music Department.)

TRUSTEES HIKE FOREIGN STUDENT FEES

A resolution adopted by the Board of Trustees of the California State Colleges will increase foreign student tuition from \$255 to \$360 per academic year, with certain exceptions, according to word received from the Office of the Chancellor. The trustees' resolution will go into effect with the Fall Quarter, 1970. Cost per unit will be \$8 per unit or fraction thereof, and a maximum charge of \$120 for 15 quarter units or more.

The Chancellor's Office announcement said exceptions (waivers) will be delineated in a letter to be issued later, which is to include instructions for implementation. Chancellor Glenn S. Dumke was also instructed by the trustees to evaluate effects of the minimum authorized tuition for foreign students during the next academic year and make recommendations concerning their tuition during 1971-72.

O H STUDENTS SCHEDULE BONSAI, JAPANESE CULTURE SHOW

Bonsai fanciers of the San Luis Obispo area are invited to participate in a Bonsai and Japanese Cultural Show planned for Saturday (March 7), in the City Recreation Center, Mill and Santa Rosa Sts., San Luis Obispo. The bonsai culture class, taught by Winton Frey (Ornamental Horticulture Department), is sponsoring the show.

The display will be open to the public from 10 a.m. to 7 p.m., on March 7. Entries may be submitted between 2 p.m. and 7 p.m. on Friday, March 6, with judging to begin at 8 p.m. Ribbons and prizes will be awarded.

In addition to the bonsai show, there will be an Ikabana display; a showing of Oriental art, Oriental musical instruments, and bonsai books; and a karate demonstration. Oriental food will be served by Cal Poly students. Additional information may be obtained from Frey by telephoning 546-2320.

NOTED ARCHITECT RICHARD NEUTRA WILL MEET WITH ARCHITECTURE STUDENTS

"One of the world's foremost living architects" is the title Richard J. Neutra receives from his peers in architectural publications. As an architect, city planner, and humanist, he has received more than a hundred awards, including honorary degrees, memberships in professional organizations, and recognition by governments, universities, and societies on every continent.

On Friday (March 6) evening he will meet with students of the School of Architecture during one of his occasional visits to San Luis Obispo. The meeting, open to the public without charge, will be held in Crandall Gymnasium at 7:30 p.m.

In architecture, Neutra has become legendary within his own lifetime. At 78, he is called "the legitimate heir to the naturalism and empyrean spirit of Frank Lloyd Wright." His philosophy of design and his exhibition on "Living Form" at University of California at Los Angeles was praised for its approach to man and environment. The exhibit catalog declared: "Man's environment is not simply a container; it is man's behavior pattern or the pattern of behavior forced upon him."

Time magazine featured Neutra and his son and associate, Dion, in a cover feature story dealing with their theory of "Bio-Realism" in architecture. The St. Louis Post-Dispatch described him as "a man with current projects afoot in such widely spaced operational fields as South Africa, Pakistan, and Brazil; a man who, among designers in the modern idiom, stands at the pinnacle; and, finally, a man who commands respectful attention when he writes or speaks about the ideals of architecture."

Planning With Biological Bias

Neutra's book Survival Through Design calls for planning with a biological bias. He constructively lists and proposes in simple form suitable lines of research as a basis for responsible designs. He calls for a warmer, more humanly pulsing effort in order to design for life, and thus to preserve it.

Neutra refuses to be terrified by technology. In a talk earlier this year he stated his position: "There is nothing bad, really, about the internal combustion engine, if you know how to handle it and where you should try to handle it. Technology isn't a thing which I would glorify as a blessing in itself, unless it is wisely guided. On the other hand, it is certainly not a curse. To take the position that all technology and industrialization is a curse is a most fantastic error, but also a fashion of our time."

A resident of southern California by choice, Neutra likens it to the early moderate temperate climate of Africa where man apparently originated: "California is a nice, attractive place because it offers conditions into which we have evolution-wise developed, and which we must, as environmental designers and improvers, respect. Indeed, anywhere else we shall have to emulate and simulate it."

Neutra will be accompanied by his wife, Dione. Their visit is sponsored by the Cal Poly chapter of American Institute of Architects.

Typewritten copy intended for the next issue of <u>Cal Poly Report</u> must be received prior to 12 noon Friday, Mar. 6, in the Office of Information Services, Adm-210.
--

COMING EVENTS -- COMING EVENTS -- COMING EVENTS

Poly Royal Queen Election -- Continuing Tuesday, March 3, all day, various campus locations. Campus-wide student elections to choose "Miss Cal Poly, Queen of Poly Royal," for 1970; sponsored by Associated Students, Inc.

Books at High Noon Luncheon -- Tuesday, March 3, 12 noon, Staff Dining Room. Review of John Gross' book The Rise and Fall of the Man of Letters: A Study of the Idiosyncratic and the Humane in Modern Literature by Michael Wenzl. Public invited.

Varsity Baseball -- Tuesday, March 3, 12 noon, Baseball Diamond. Doubleheader - Cal Poly vs. Fresno State College. Tickets - adults, \$1; students and children, 25 cents.

Cal Poly Women's Club Sewing Section -- Tuesday, March 3, 2 p.m., 560 Hathway, San Luis Obispo. Regular meeting of section in home of Mrs. Chester Bishop. Members invited.

Hearing on Academic Structure -- Wednesday, March 4, 7:30 p.m., Staff Dining Room. Hearing conducted by the Ad Hoc Committee on Academic Structure and Organization of the Cal Poly Academic Senate. Faculty, staff, and students invited.

Physics Colloquium -- Thursday, March 5, 11 a.m., Science Building Room E-27. Talk on "A Study of Student-Teacher Perceptions of Physics and Physics Courses" by Walter Elliott; sponsored by Physics Department. Public invited.

Cal Poly Staff Club Luncheon -- Thursday, March 5, 12 noon, Staff Dining Room. Featured on the program will be a performance by the San Luis Obispo Senior High School Modern Dance Group. Faculty and staff invited.

Architecture Lecture -- Friday, March 6, 7:30 p.m., Crandall Gymnasium. Talk by noted architect Richard Neutra; sponsored by student chapter of the American Institute of Architects. Public invited.

Chamber Orchestra Concert -- Friday, March 6, 8:30 p.m., Cal Poly Theater. Concert by Cal Poly Chamber Orchestra under baton of Clifton E. Swanson; sponsored by the Music Department. Public invited.

Speech Tourney -- Saturday, March 7, 8 a.m., Erhart Agriculture and English Buildings. Speech tournament for area high school students; hosted by Speech Department and sponsored by the Los Padres Forensic League.

Bonsai and Japanese Culture Show -- Saturday, March 7, 10 a.m. to 7 p.m., City Recreation Center, San Luis Obispo. Show of Bonsai, Ikabana, and Oriental art, musical instruments, etc.; sponsored by the Ornamental Horticulture Department. Public invited.

Book Drive -- Saturday, March 7, through March 18, various campus locations. Drive for books and technical magazines to further education of Vietnamese students overseas; sponsored by the campus Vietnamese Students Association.

Varsity Tennis -- Saturday, March 7, 1 p.m., courts adjacent to Men's Gymnasium. Cal Poly vs. California State College at Hayward. Public invited.

(Continued on Page 6)

BRUCE WEILAND WINS PUBLIC SPEAKING COMPETITION

Bruce Weiland, a sophomore majoring in biological sciences, finished in front of the some 400 students that took part in public speaking competition sponsored last week by the Speech Department. Placed in a tie for second close behind Weiland were Suzanne Lilley, a sophomore majoring in history, and John R. Scanlon, a senior biological sciences major.

Students in the Speech Department's public speaking classes are selected to take part in the competition each quarter, according to Jim Conway (Speech Department), who coordinates basic speech activities for the department. Each contestant prepares and presents an informative speech of five to seven minutes' length. Visual aids may be used if the entrant desires.

COMING EVENTS (Continued from Page 5)

Varsity Track and Field -- Saturday, March 7, 1:15 p.m., new track field near Men's Gymnasium. Cal Poly vs. University of California at Santa Barbara and Westmont College. Public invited.

Dairy Club Banquet -- Saturday, March 7, 7 p.m., Elks Club, San Luis Obispo. Annual banquet recognizing outstanding dairy students and new honorary members of Cal Poly's Los Lecheros dairy club. Tickets - \$3.75 per person. Members and guests invited.

Meeting on Travel -- Monday, March 9, 7:30 p.m., Staff Dining Room. Explanation of travel programs to be offered to CSEA members during the coming year presented by a representative of Travel Management Corporation, a nation-wide travel firm specializing in group travel; sponsored by Cal Poly Chapter 97 of the California State Employees Association. Members invited.

Cal Poly Women's Club Beginners Bridge Group -- Monday, March 9, 8 p.m., 213 Albert Drive, San Luis Obispo. Instruction for beginning bridge players in home of Mrs. C. Herold Gregory. Members invited.

Cal Poly Women's Club Walking Section -- Tuesday, March 10, 9 a.m., Bank of America parking lot, Foothill Blvd., San Luis Obispo. Regular meeting of section for drive to Baywood Park for walk in that area. Members invited.

Cal Poly Women's Club Handcrafts Section -- Tuesday, March 10, 10 a.m., City Recreation Center, San Luis Obispo. Regular meeting of section; those planning to attend are asked to bring blown eggs and paint brushes. Members invited.

Cal Poly Women's Club General Meeting -- Tuesday, March 10, 7:30 p.m., Cal Poly Theater. Program by Cal Poly's Men's Glee Club during general meeting of Cal Poly Women's Club. Members invited.

CSEA Board Meeting -- Tuesday, March 10, 7:30 p.m., Staff Dining Room. Open meeting of Board of Directors of Cal Poly Chapter 97 of the California State Employees Association for the purpose of discussing proposed occupational group societies within CSEA framework. Members invited.

Buffet Luncheon for Women -- Wednesday, March 11, 12 noon, Staff Dining Room. Annual buffet luncheon for women members of the Cal Poly Staff Club featuring foreign dishes. Women members invited.

OPEN HEARING ANNOUNCED BY ACADEMIC SENATE COMMITTEE

An open hearing has been announced for tomorrow (Wednesday, March 4) evening by the campus Academic Senate's Ad Hoc Committee on Academic Structure and Organization. The meeting will take place in the Staff Dining Room starting at 7:30 p.m., according to David M. Grant (English Department), who is chairman of the committee and of the Academic Senate.

Presently retained in the committee's report, according to Dr. Grant, is the essential principle of having seven schools with associated disciplines. Some changes in nomenclature and realignment of certain disciplines is being considered, however. The committee anticipates that its report will be submitted to the Academic Senate as an action meeting at its meeting of March 10.

Dr. Grant emphasized that all interested members of the faculty, staff, and student body of the college are welcome to attend tomorrow evening's sessions.

AD HOC COMMITTEE ON POLLUTION SETS GOALS

Formation of four subcommittees with specific goals has been announced by the Ad Hoc Committee to Promote Elimination of Environmental Pollution. The next general meeting of the committee, set for next Tuesday (March 10) at 11 a.m. in Adm-106, will consider subcommittee suggestions for specific recommendations to be made to President Robert E. Kennedy, who formed the ad hoc committee to serve as a "clearinghouse for information and catalyst for action."

Ruben J. Greffenius (Soil Science Department) is chairman of a curriculum subcommittee with two tasks: 1) compile a study guide of relevant courses available for Spring Quarter or throughout the year, and 2) recommend new courses, curricula, or organizations. Suggestions may be phoned to Dr. Greffenius (546-2702).

Norman Eatough (Chemistry Department) is chairman of a planning subcommittee which will prepare recommendations for endorsement to the campus planning committee or for the President to consider as college policy recommendations to the Water Quality Control Board or other off-campus agencies concerned with long-range environmental planning. Dr. Eatough may be contacted by telephone (546-2796).

Miss Barbara Andre (Student Activities Counselor) who may be contacted by telephoning 543-9554, is chairman of a program subcommittee to follow up specific complaints on campus conditions and determine means of obtaining volunteer or financial support. Terres Williams, a student member of the ad hoc committee, is chairman of a teach-in coordination subcommittee which will recommend the degree and kinds of college-wide participation with the proposed national Environmental Teach-In, April 22. He may be reached by telephoning 544-6661.

Lachlan MacDonald (Director of Information Services), chairman of the ad hoc committee, said the committee moved to urge the Poly Royal Board to incorporate activities dealing with elimination of environmental pollution in Poly Royal events and agreed that the Poly Royal Board should be urged to obtain a speaker on the topic.

MacDonald noted that the subcommittees' purposes are to come up with recommendations which the ad hoc committee could endorse to Dr. Kennedy for consideration and which the president may then wish to direct to various of the college's existing consultative groups.

TRUSTEES APPOINT C S L B PRESIDENT

Stephen Horn, dean of graduate studies and research at The American University in Washington, D.C., has been appointed president of California State College, Long Beach, the largest state college, by trustees of the California State Colleges. The appointment, announced by Daniel H. Ridder, chairman of the Board of Trustees and Chancellor Glenn S. Dumke, is effective Aug. 1, 1970. Dr. Horn succeeds Donald Simonsen, acting president of the 27,000-student campus since Sept. 1969.

Born in May 1931, Dr. Horn is also vice chairman of the U.S. Commission on Civil Rights. His nomination by President Richard M. Nixon was confirmed by the Senate in Dec. 1969. In addition, he is serving under appointments by George W. Romney, secretary of housing and urban development, as chairman of the department's Urban Studies Fellowship Advisory Board and by Atty. Gen. John N. Mitchell as a member of the National Advisory Committee to the Law Enforcement Education Program.

Dr. Horn has been dean of graduate studies and research at American University since Feb. 1, 1969. During the previous three years he was a senior fellow at the Brookings Institution in Washington. He was legislative assistant to U.S. Sen. Thomas H. Kuchel from Oct. 1960 through Jan. 1966, and was administrative assistant to Secretary of Labor James P. Mitchell from June 1959 through Sept. 1960.

In 1966-67, Dr. Horn was one of the first 10 fellows in the Institute of Politics, John F. Kennedy School of Government, at Harvard University, and was a member of the Nixon Task Force on Organization of the Executive Branch in Dec. 1968 and Jan. 1969. He was host and senior consultant for "The Government Story," a series of 40 television shows on the work of the legislative, executive and judicial branches of the federal government.

The new CSCLB president earned his Doctor of Philosophy Degree in political science at Stanford University in 1958, his Master's Degree in public administration at Harvard, and his Bachelor of Arts Degree, "with great distinction," at Stanford. Dr. Horn's publications include The Cabinet and Congress (Columbia University Press, 1960) and Unused Power: The Work of the Senate Committee on Appropriations (Brookings Institution), to be published in May 1970.

N S F OFFICE OF INTERDISCIPLINARY RESEARCH ON SOCIAL PROBLEMS OPENS FOR BUSINESS

Proposals are already arriving at the new National Science Foundation Office of Interdisciplinary Research for work on problems of society. Although the office is still not fully functional, it is operating with a \$6 million budget this fiscal year. Usually, the NSF asks an initial formal proposal, but the new office would prefer to react to a shorter preliminary proposal. Some of the elements to be included in the proposal are a statement of the specific research problem, a discussion of the importance of the problem, the overall plan of research, the interdisciplinary character of the research group, special scientific qualifications and facilities, organizational structure of the group, state of the art and practice, and institutional commitment.

Typewritten copy intended for the next issue of <u>Cal Poly Report</u> must be received prior to 12 noon Friday, Mar. 6, in the Office of Information Services, Adm-210.
--

SYMPHONIC BAND WILL TOUR SOUTHERN CALIFORNIA MARCH 17-21

Southern California will ring with music of Cal Poly's Symphonic Band when it makes its annual spring concert tour, March 17-21. The 1970 tour, which includes a special performance at Hillview Children's Home in Chino, will take the Cal Poly student musicians to high school assembly concerts in Thousand Oaks, Baldwin Park, and San Bernardino.

Evening concerts -- to which the public is invited -- are scheduled at Dos Pueblos High School in Goleta, Fillmore High School, San Marino High School, and Ramona High School in Riverside.

Featured during the performance will be the 71-piece Symphonic Band's special blend of classical, popular, and show music. Included in its 1970 concert tour program are Serenade for Band by William Latham, selections from the musical play Hair, La Bamba De Vera Cruz by Terig Tucci, and John Philip Sousa's Stars and Stripes Forever. Joining the band for its performances will be three musical ensembles -- The Dixieland Band, the Percussion Ensemble, and The Brass Quintet.

The Symphonic Band is conducted by William V. Johnson (Director of Bands). A member of the Music Department faculty for four years, Johnson appears pleased with the efforts of his bandsmen as they prepare for the week-long tour. He believes careful selection and keen competition have been instrumental in formation of the 1970 Symphonic Band. "Without question, these young men and women are the most musical group of wind and percussion players we have ever had at Cal Poly," Johnson continued.

For the Cal Poly Symphonic Band, the spring tour is an annual event. Last year the group played 9 concerts before more than 10,000 people. The 1968 tour was capped off by a performance in Anaheim's famed Disneyland Park.

FUTURE EVENTS LISTED BY STAFF CLUB

Information about three forthcoming events of the Cal Poly Staff Club were contained in an announcement issued last week by the club. Included were details about the club's luncheon meeting being planned for Thursday (March 5), the annual buffet luncheon for women members on March 11, and the traditional Spring Fling on May 23.

Featured during Thursday's luncheon meeting will be a program by the San Luis Obispo Senior High School Modern Dance Group. Members of the college faculty and staff are invited to attend the meeting, which will take place in the Staff Dining Room starting at 12 noon.

Foreign dishes will be served during the annual luncheon event for women members of the club. It will be from 12 noon to 1:30 p.m., also in the Staff Dining Room. Plans are also being made for the Spring Fling. Although full details are not yet available, rebates for CPSC members will undoubtedly be provided. Those who have not already done so, are being urged to contact Bing Bloom (Animal Husbandry Department) and pay their membership dues so they can take advantage of this opportunity.

Typewritten copy intended for the next issue of <u>Cal Poly Report</u> must be received prior to 12 noon Friday, Mar. 6, in the Office of Information Services, Adm-210.
--

WHO . . . WHAT . . . WHEN . . . WHERE ? ? ?

Teymoor Gedayloo, Dave Hafemeister, and Leonard Wall (all Physics Department) attended the three-day Winter Meeting in the West of the American Physical Society, which took place recently on the campus of the University of California at Los Angeles. After returning, they joined to present a summary of the major papers presented at the UCLA gathering at the weekly colloquium of the Physics Department for members of the faculty and student body.

Ed Zuchelli (Journalism Department) joined eight other veteran journalists as judges for the Tri-Counties Write-Offs of the Northern Counties Journalism Association, which took place on campus last Saturday (Feb. 28). High school journalists from throughout San Luis Obispo, Santa Barbara, and Ventura Counties participated in the event. Also on the panel of judges were George Brand, editor of the San Luis Obispo Telegram-Tribune, Ben Reddick, editor and publisher of the Paso Robles Press, and Richard Blankenburg, Jr., editor of the Arroyo Grande Herald-Recorder.

William Troutner (Crops Department) arranged for a demonstration of an innovative form of orchard heating for San Luis Obispo County citrus and avocado growers on campus recently. The demonstration of the new system, which provides more efficient burning of fuel and cuts down on pollutants emitted into the atmosphere, was the second provided by the Crops Department in its efforts to aid the growers in their effort to resolve problems of orchard heating without creating pollution.

Stanley Brown and Richard Jones (both Education Department) were hosts for a team of four administrators from Salinas Union High School District, which visited Cal Poly recently. In addition to addressing several classes, Robert Binns, superintendent, John Searles, director of personnel, David Weakley, principal of North Salinas High School, and John Griffin, counselor, met with members of the Education Department faculty and worked on development of a Cal Poly student teaching center to begin operation in Salinas next quarter.

Joseph C. Boone (Physics Department) attended the semi-annual meeting of the American Astronomical Association which took place recently at the American Museum-Hayden Planetarium in New York City. Dr. Boone delivered a paper titled "Equivalent Widths of the First Three Balmer Lines in Be Stars" during the Stellar Spectra Session of the meeting.

Norman L. Eatough (Chemistry Department) is the author of an article published in a recent issue of Inorganic Chemistry magazine, which discusses a process used to synthesize a new earth compound of potential interest to the semiconductor industry. Dr. Eatough developed the procedure while conducting research for his doctoral dissertation. Prior to joining the Cal Poly faculty in 1968, he was a member of the engineering faculty at Brigham Young University and taught at Dixie College in Utah.

"BOOKS AT HIGH NOON" SERIES SLATES "HOLIDAY"

The next scheduled program in the Books at High Noon luncheon series after that being planned for today (Tuesday, March 3) will be March 31, according to information received from Ena Marston (English Department). Causes for the vacant weeks in the book review program's schedule are the examination period for the Winter Quarter and the opening of classes for the Spring Quarter.

"NATIONAL GEOGRAPHIC" ARTICLE FEATURES CAL POLY ALUMNUS

Najib Hamden, a 1964 graduate of Cal Poly with a degree in fruit production, is one of Lebanon's prosperous and progressive young farmers, according to National Geographic (Feb. 1970). The Cal Poly alumnus is featured in an article entitled "Lebanon: Little Bible Land in the Crossfire of History." A portion of the article deals with the Green Plan for revival of Lebanon's 7,000-year-old agricultural heritage.

Najib escorted the article's author, William S. Ellis, on a tour of the country's principal agricultural regions. Najib himself sells 150,000 pounds of head lettuce annually to an oil company in Saudi Arabia. He grows potatoes, tomatoes, lemons, and oranges. "He does this not only in the highly cultivated valleys, but also in fields once freighted with rocks and on the sides of mountains," according to the article.

The Cal Poly alumnus is active in efforts to rebuild centuries old agricultural terraces and restore mountain land to agricultural use.

NEW INFORMATION AVAILABLE IN LIBRARY CAREER CENTER

Information on 47 additional business and industrial concerns is now available through the recently announced Recordax Microstrip reader service in the career center of the Reference Services Department of the college Library. Now available through the service, which is designed to assist senior students in their efforts to learn more about career opportunities, is information on nearly 120 different businesses and industrial operations.

HOSPITAL AUXILIARY IS SEEKING ADDITIONAL HELPERS

Additional members to help with activities of the Cal Poly Women's Club's Hospital Auxiliary on behalf of students confined to the campus Health Center, are being sought, according to an announcement from the group. Club members who are interested in serving on a substitute basis in the auxiliary's regular rotation of workers are invited to contact Mrs. Boyd Judd by telephoning 543-9644.

COLLEGE ADMINISTRATIVE POSITION AVAILABLE

Information on the administrative position listed below is available in the college Placement Office, Adm-213, 546-2501, to those who are interested in obtaining it:

Western Washington State College - Provost and Dean, salary and related information not listed.

SPRING QUARTER PARKING PERMITS AVAILABLE FOR PURCHASE

Faculty and staff parking permits for the Spring Quarter are now available and may be purchased at the State Cashier, Adm-131C. Parking enforcement will begin on March 24, the first day of classes.

BASEBALL, TRACK AND FIELD TEAMS SET HOME OPENERS, WRESTLERS REPEAT AS LEAGUE CHAMPS

Competition scheduled for this week will see Cal Poly's varsity baseball and track and field teams in their first home field action of the 1970 season if the weatherman can make the needed arrangements for clear weather. For the diamond club, the twinbill with Fresno State College, slated for 12 noon, today (Tuesday, March 3) on the campus diamond will be the third attempt at a home opener. Earlier games with San Francisco State College and University of California at Santa Barbara were rained out.

Cinder teams from UCSB, Westmont College, the Southern California Striders, and the Central Coast Track and Field Club will provide the opposition Saturday (March 7) when Coach Dick Purcell's Mustang trackmen begin defense of their National Collegiate Athletic Association college division championship. Starting time for that meet, which is tentatively scheduled for the new track located near the Men's Gymnasium, will be 1:15 p.m. If it is not possible for the competition to take place on the new track, it will be held on the track located near Poly Grove.

Last week's full schedule of action for Cal Poly athletic teams was highlighted by the performance of Coach Vaughan Hitchcock's varsity wrestlers. After opening the week with a 39-2 victory over Stanford University in the final dual match of their 1969-70 campaign, the Mustang matmen won 9 of the 10 weight division crowns on their way to the 8th California Collegiate Athletic Association championship in succession won by Cal Poly teams. John Finch, Cal Poly's senior 158 pounder, shared "outstanding wrestler" honors with a Cal Poly, Pomona, wrestler. The Mustang grapplers tallied nearly twice as many team points as their nearest opponent in the meet, which took place at Cal Poly, Pomona.

Cal Poly's varsity and freshman basketball teams closed their 1969-70 seasons on a winning note last week. Coach Neale Stoner's Mustangs beat University of California at Irvine 101-88 after dropping a 77-76 decision to California State College at Fullerton to finish their campaign with a 13-13 won-lost record. Victories over Cuesta College (98-89), Cal State Fullerton's frosh (101-82), and the UCI frosh (94-89) last week gave Coach Ernie Wheeler's Colts a final 20-4 won-lost mark. Many observers believe the 1969-70 Colt team to be the best in Cal Poly history.

In other sports action last week, Coach Augie Garrido's Mustang baseball varsity managed to split a pair of games. They opened the week with a 4-3 victory over Westmont before dropping their CCAA opener to San Fernando Valley State College 10-2. Cal Poly's varsity swimmers prepared for this weekend's CCAA championship meet at Cal Poly, Pomona, by thrashing Monterey Peninsula College 95-18, and the Mustang golfers finished a three-match slate with a perfect split. They tied a nationally ranked California State College at Los Angeles team 27-27, lost to UCSB 54-0, and beat Cuesta College 37-17.

Also scheduled on campus this week, are matches involving the Mustang golf and tennis teams. Coach Bill Hicks' varsity golfers will host UC Santa Barbara and University of California at Riverside in matches slated for Friday (March 6) and Saturday, respectively, on the San Luis Obispo Country Club course, beginning at 1 p.m. Coach Ed Jorgensen's varsity netmen will host California State College at Hayward in a contest scheduled for Saturday, starting also at 11 p.m. on the courts located near the Men's Gymnasium.

C S E A CHAPTER DIRECTORS SLATE DISCUSSION OF SUB-UNITS

California State Employee Association staff workers will participate in an open meeting of the Board of Directors of Cal Poly Chapter 97 of the association in the Staff Dining Room at 7:30 p.m., next Tuesday (March 10), to discuss organization of proposed occupational group societies within the framework of CSEA.

Under the proposal, campus groups such as maintenance, powerhouse, groundsman, etc., would form sub-units or societies of the Cal Poly Chapter 97. The societies would be affiliated state-wide with similar societies of groundsman, maintenance men, etc. Each society would elect a representative to the support services council of the CSEA chapter.

As outlined by the CSEA staff members in the publication Prospectus: The CSEA Society Program for the State Colleges, the proposed program would provide better communications between chapter officers and the various segments of the organization and would provide occupational groups with an opportunity to unite state-wide in asserting a viewpoint peculiar to the occupational group.

OPENINGS ON COLLEGE SUPPORT STAFF LISTED BY PERSONNEL OFFICER

Two vacant positions on the support staff of the college have been announced by Milton Piuma (Staff Personnel Officer). The positions, which are posted in greater detail on the bulletin board located in the Personnel Office, Adm-111, are:

Departmental Secretary I-B, Soil Science Department, School of Agriculture (\$492-\$599).

Custodian, Custodial Department, Business Affairs Division (\$457-\$556).

CAMPUS RESIDENCE HALL WILL BE SUBJECT OF MAGAZINE FEATURE

An article describing the operations of Yosemite Hall is in preparation for Institutions: Magazine of the Service World, following a visit by Miss Madelyn Severson, associate editor of the publication, to the campus last week. During her visit she lectured in the School of Architecture on the topics of "Food Facilities in the Hospitals" and the "Future of Food." She said the material she is gathering for the magazine will report on both Yosemite Hall and on the off-campus private housing development, Stenner Glen, from the point of view of institutional management.

MANPOWER ADMINISTRATION OFFERS GRANTS TO ASSIST DOCTORAL DISSERTATION RESEARCH

The Office of Manpower Research, U.S. Department of Labor, has made 125 grants of up to \$10,000 each in the past four years to support doctoral dissertation research on manpower problems. Faculty members eligible to apply must have completed all doctoral requirements except the dissertation, must have research projects related to manpower and must be in such fields as anthropology, business, economics, education, political science, psychology, public administration, social work and sociology. Applications are reviewed quarterly. Details are available from: The Director, Office of Manpower Research, Manpower Administration, U.S. Department of Labor, Washington, D.C. 20210.

CONTINUATION OF SUMMER QUARTER APPROVED BY TRUSTEES

Trustees of the California State Colleges unanimously approved in principle continuation of state-supported Summer Quarter operations at Cal Poly and the other three state colleges (California State College at Los Angeles, California State College at Hayward, and Cal Poly, Pomona) that have had such programs during their meeting in Los Angeles last week. Commenting on the action, President Robert E. Kennedy said that means of funding the Summer Quarter programs for 1971 and after are yet to be found. They must either be appropriated or funds already budgeted for other purposes within the 1970-71 budget for the state colleges will have to be reallocated.

Planning for Cal Poly's 1970 Summer Quarter, scheduled to be open on June 15, is not affected by either the trustees' earlier plan to drop such programs or by their action of last week

INFORMATION ON AMUSEMENT DISCOUNTS AVAILABLE AT PERSONNEL, S E S L O C OFFICES

Information concerning discounts on admission at several amusement parks located in southern California is presently available in the Personnel Office, Adm-111, for members of the college faculty and staff who wish it. Among those offering discounts for Cal Poly employees are Disneyland in Anaheim, Knotts Berry Farm in Baldwin Park, the San Diego Zoo, and Sea World in San Diego. Magic Kingdom Club cards, which provide savings for those visiting Disneyland, may be obtained. Easter vacation period entertainment is scheduled at the famed park from March 22 through March 29, with an Easter Parade planned for 3 p.m. on Easter Sunday, March 29.

C S E A SLATES PRESENTATION ON TRAVEL PROGRAMS

All California State Employees Association members interested in travel are invited to attend a meeting Monday (March 9), at 7:30 p.m., in the Staff Dining Room. A representative of Travel Management Corporation, a nationwide travel firm specializing in group travel, will be present to explain the many travel programs to be offered CSEA members and their families for the coming year. These tours have been specially created for CSEA employees and are not advertised to the general public at the same rates or conditions.

LOS LECHEROS PLAN ANNUAL RECOGNITION BANQUET

Two men from the dairy industry will receive honorary memberships in Los Lecheros, Cal Poly's Dairy Department club, during the annual recognition banquet of that group in the Elks Club in San Luis Obispo at 7 p.m., Saturday (March 7). Outstanding seniors and members of winning judging teams also will be honored. Members and alumni of Los Lecheros will attend the banquet. A reunion hour will begin at 6:30 p.m.
