

Volume 21, Number 8

September 22, 1970

NEW DEPARTMENT HEADS BEGIN DUTIES

Appointment of one new department head and three new acting department heads was announced early this month as members of the Cal Poly faculty and student body began returning to campus for the Fall Quarter. Named by Cal Poly President Robert E. Kennedy were Gloria R. Jameson, L. Robert Sorensen, Fuad H. Tellew, and Mary Lou White.

Sorensen was selected to head the Psychology Department and Miss Jameson, Tellew, and Miss White, to serve as acting heads, respectively, of the Foreign Language and Linguistics, Economics, and Women's Physical Education Departments. Dr. Kennedy said all four appointments were effective Sept. 14.

Three of the four departments involved in the new appointments -- the Economics, Women's Physical Education, and Foreign Language and Linguistics Departments -- are all newly established as part of the college-wide reorganization announced last spring by President Kennedy.

Courses leading to the bachelor's and master's degrees in physical education, as well as general education courses, are offered by the Women's Physical Education Department in cooperation with the Men's Physical Education Department. The Foreign Languages and Linguistics, Economics, and Psychology Departments all provide general education courses for the entire Cal Poly student body.

Varied Backgrounds

Dr. Jameson is a specialist in the teaching of English as a second language. Prior to assuming her teaching duties at Cal Poly in 1967, she worked in public and Christian education in Texas, Oklahoma, Montana, Virginia, and Maryland. Before completing her study for the doctor's degree in linguistics and education at University of Texas, the new head of the Foreign Language and Linguistics Department earned degrees at Texas Women's University and Columbia University.

Dr. Sorensen, a former assistant dean at Claremont Graduate School, has been a member of the Cal Poly faculty since 1966. He earlier was a member of teaching and administrative staffs at both California Institute of Technology and Pomona College. He is a graduate of both Pomona College and Claremont Graduate School, which granted him the master's and doctor's degrees, also in psychology.

Dr. Tellew earned his doctor's and master's degrees in economics at University of Southern California and his bachelor's degree, also in economics, at the College of Commerce and Economics in Baghdad. He served as a teaching assistant and lecturer at USC before joining the Cal Poly faculty in 1960.

Miss White, a graduate of Oregon State University and Washington State University, which granted her the bachelor's and master's degrees, respectively, formerly taught at St. Helen's High School in Oregon. Just before joining the Cal Poly faculty in 1961, she had been a member of the physical education faculty of Clark College in Washington for 11 years.

CONVOCATION ADDRESS STRESSES IMPORTANCE OF COMMUNICATION

The importance of communication in college administration was stressed last week in a convocation speech delivered to 1700 Cal Poly faculty and staff members by President Robert E. Kennedy, who noted in his address entitled, "The Importance of Community," that the college faculty is larger now than the entire student body when he joined Cal Poly 31 years ago.

President Kennedy's remarks dealt with the problem of maintaining two-way communication in an organization composed of 1700 individuals, including 716 faculty members. He noted that the Cal Poly community this fall will include some 12,100 students, and he pointed out that fewer than 100 of the nation's colleges and universities will have a larger enrollment than Cal Poly this fall.

Dr. Kennedy said that campus unrest is one of the foremost concerns of the nation today. "It is easy to see now how failures of administrators and faculty on many campuses to listen and communicate with the first small groups of militantly agitated youth resulted in drawing into subsequent confrontation great numbers of students who originally had not been politically motivated toward the use of demonstrations and violence."

Today's youth wants to "individualize" almost everything in society, the Cal Poly president said, but he added that meeting "community" needs does not necessarily mean abrogating individual needs. "On campuses, the unrest may be not so much aimed at the slowness to change as the fact that youth, in many institutions, are denied a part in the decision-making process of those institutions. This they interpret as a method of postponing indefinitely the changes youth see as necessary."

Changes Result From Cooperation

Consultation and communication must be relied upon to keep a college free of disruption, Dr. Kennedy said. "I honestly believe that on this campus we have provided positive evidence to our students, as well as to others in and out of this academic community, that desirable changes can be brought about without undue tension, conflict, disruption, or violence. Changes have been brought about by cooperative action, the key to which is continuous communication and consultation by those who have the responsibility for administration with those who have the responsibility for every other aspect of the college."

Pointing to pressures for a change, Dr. Kennedy gave environmental pollution as an example, urging the audience to eliminate pollution on the Cal Poly campus to establish a model which could be emulated elsewhere. He urged efforts to solve relationship problems in such smaller "communities" as among relatives, friends, acquaintances, neighbors, students in a department, in a college, people in a school district, city, county, state, and nation.

"We must remember that our concerns for the big problems should not prevent us from solving smaller ones. An individual cannot be, effectively, an advocate for peace in the world if he strikes his neighbor who disagrees on the method to be used in achieving peace."

The convocation address keynoted the college's annual Faculty-Staff Conference which this year had the theme, "Our Community." It was followed by a ranch-style luncheon in Poly Grove and afternoon meetings of academic schools and departments. Assemblies for new students, registration, campus tours for new faculty and staff members, and other orientation programs occupied the rest of the week.

CONSTRUCTION ENGINEERING DEGREE COURSES BEGIN THIS WEEK

First courses for a new Bachelor of Science Degree program in construction engineering began this week. The new curriculum is being offered by Cal Poly's School of Architecture and Environmental Design, according to George J. Hasslein (Dean of Architecture and Environmental Design), who made the announcement.

Intent of the new degree major is to prepare young people to be adept in the business, scientific, and technical aspects of the building industry. Graduates will also be expected to understand and work effectively with the physical environment.

Dean Hasslein said graduates of Cal Poly's new construction engineering curriculum will be trained for leadership and management-level responsibilities in the nation's construction industry, including home, commercial, industrial, marine, and heavy construction. They will also be directed toward longer-range goals such as industrialized construction and systems applications which are answers to the critical housing and other construction needs of today's world, Dean Hasslein added.

First Offered in California

The new degree curriculum in construction engineering at Cal Poly will be the first to be offered by a college or university in California and one of only three such programs offered in the Western United States. The others are in operation at Arizona State University in Tempe and at the University of Washington in Seattle.

Development of the new degree at Cal Poly was prompted by continuing interest in college-level training for management personnel expressed by the leaders of California's construction industry, the nation's largest. Dean Hasslein said surveys of the needs of contractor members of the Associated General Contractors in Southern California, for example, reveal that several hundred construction engineers will be needed over the next five years.

The Cal Poly dean called the new curriculum a natural extension of the existing programs in city and regional planning, architecture, and architectural engineering provided by the School of Architecture and Environmental Design. Students in the new degree program will begin construction engineering course work in their junior year, following basic courses in design, materials, and engineering during their first two years of study.

Dean Hasslein said some 30 to 35 students are expected to complete requirements for the bachelor's degree by mid-1972 when the program will be in its second year of operation. By the fifth year, in mid-1976, about 40 to 50 students a year should be finishing their studies.

AGRICULTURE STUDENTS SWEEP L A FAIR HONORS

Cal Poly students won all of the grand champion awards in the market livestock competition at the Los Angeles County Fair in Pomona last Saturday (Sept. 19). They exhibited the grand champion beef steer, an Angus; the grand champion market lamb; and the grand champion market hog; a crossbred. In college division competition, they won championships on Hereford, Angus, and Shorthorn steers; crossbred and all the other breeds category of lambs; and for crossbred and pen of five hogs.

TRUSTEES' AGENDA INCLUDES GRIEVANCES, SALARIES, SPEAKERS

The agenda for the meeting of the Board of Trustees of the California State Colleges scheduled for today and tomorrow (Tuesday and Wednesday, Sept. 22-23) at the Los Angeles headquarters includes action by committees on the foreign student program, materials and services fee refunds, revision of grievances and disciplinary action procedures for academic personnel, and the proposed new salary structure for faculty.

A joint meeting of all committees will consider a 5-year outlay program for 1971-75 with estimated state funded expenditures of \$156,203,000 and non-state funded estimated expenditures of \$39,032,888.

Mr. Wallace Arendt will present two Cal Poly schematic plans to the board's Campus Planning Building and Grounds Committee, one for married student housing and one for an addition to Engineering West.

The Committee on Educational Policy will hold a public hearing on student disciplinary procedures and will hear reports on the status of ethnic study programs at Fresno State College and San Francisco State College. Chancellor Glenn S. Dumke is scheduled to report to the committee on the need for enrollment limitation in the California State Colleges. Other items before the committee carried over from the July meeting include use of campus facilities, political activities, recognition of student organizations, outside speakers, and code of conduct.

Two items before the Committee on Faculty and Staff Affairs, introduced by Trustee Dudley Swim, include action on a resolution to require substantiation of performance by faculty members as a prerequisite to receiving salary payments, and action on a proposed resolution to adopt defense of academic freedom extracted from the 1940 statement on academic freedom and tenure of the American Association of University Professors.

COLLINS HONORED BY WOOLGROWERS

Spelman B. Collins (faculty emeriti) has been presented the Golden Fleece Award by the California Woolgrowers Association (CWA) for his 40 years of service to youth and the sheep industry. A member of the Animal Science Department faculty from 1940 to 1969, Collins offered sheep instruction to thousands of Cal Poly students.

Through his own enthusiasm for the sheep industry, many students entered the field. He also maintains his own flock of registered Suffolk sheep and has been active in affairs of CWA.

Collins authored a textbook on sheep management which is widely used in high school and college agricultural classrooms. He served as technical adviser for sheep scenes in the Walt Disney motion picture production, How Dear To My Heart, in 1948.

Collins lives at 274 Hathaway Street in San Luis Obispo. Although retired from teaching, he still is active in the operation of his sheep flock and in fairs throughout the state.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon, Friday, Sept. 25, in the Office of Information Services, Adm-210.

COMING EVENTS -- COMING EVENTS -- COMING EVENTS

Late Registration for Fall Quarter -- Tuesday, Sept. 22, through Sept. 28, all day, Administration Building Rooms 219, 222. Late registration for students who failed to complete enrollment during regular registration period.

Cal Poly Staff Club Luncheon Meeting -- Thursday, Sept. 24, 12 noon, Staff Dining Room. Presentation on college-community relationships by San Luis Obispo Mayor Ken Schwartz. Faculty and staff invited.

Program on Illusions -- Thursday, Sept. 24, 7 p.m., Cal Poly Theater. Lecture and demonstration by illusionist Andre Kole, sponsored by Cal Poly Campus Crusade for Christ organization. Faculty, staff, and students invited. Tickets - \$1.

Cal Poly Women's Club Fall Tea -- Saturday, Sept. 26, 2 p.m., Staff Dining Room. Annual Fall Tea for Cal Poly Women's Club members and women who have just joined the college faculty and staff, or whose husbands have just joined the college faculty and staff. Members invited.

Varsity Football -- Saturday, Sept. 26, 7:30 p.m., Mustang Stadium. Cal Poly vs. California State College at Hayward. Tickets - reserved seats, \$3.50; adult general admission, \$2.50; student general admission, \$1; children general admission, 50 cents.

Fashion Show -- Sunday, Sept. 27, 1:30 p.m., Cal Poly Theater. Showing of women's and children's fashions; sponsored by the Cal Poly Student Wives Club. Tickets - \$1.

Sigma Xi Meeting -- Monday, Sept. 28, 7:30 p.m., Science North Building Room 215. Discussion of "Ocean Engineering - The Palomares Incident as a Type Example" by R. J. Smith of the U. S. Navy Postgraduate School in Monterey; sponsored by the Cal Poly Sigma Xi Chapter. Faculty, staff, students, and guests invited.

Cal Poly Staff Club Luncheon Meeting -- Thursday, Oct. 1, 12 noon, Staff Dining Room. Program will feature talk titled "What I Expect Out of College" by Paul Banke, president of Cal Poly's Associated Students, Inc. Faculty and staff invited.

Freshman Football -- Friday, Oct. 2, 7:30 p.m., Mustang Stadium. Opening game of 1970 season for Cal Poly's Colt freshman football team. Cal Poly Colts vs. Cuesta College. Tickets - all general admission, 50 cents.

Varsity Football -- Saturday, Oct. 3, 7:30 p.m., Mustang Stadium. Cal Poly vs. San Francisco State College. Tickets - reserved seats, \$3.50; adult general admission, \$2.50; student general admission, \$1; children general admission, 50 cents.

FALL QUARTER PARKING PERMITS AVAILABLE FOR PURCHASE

Faculty and staff parking permits for the Fall Quarter are still available and may be purchased at \$9 each from the State Cashier, Adm-131C. Annual parking permits are available for Fall, Winter, and Spring Quarters at \$27. Alternate parking permits are available at \$1. Approval of the director of business affairs must be secured for purchase of more than one alternate permit. Regardless of the number of alternate permits a person might have, only one of the vehicles can be on the campus at any one time. Parking enforcement began on the first day of classes.

EIGHT NAMED EMERITUS MEMBERS OF FACULTY

Eight former members of the Cal Poly faculty who retired earlier this year were designated professors emeritus during a brief ceremony held on campus last week. With their former teaching areas and years of service listed, those honored during the Faculty-Staff Conference convocation last Monday (Sept. 14) morning in Mustang Stadium were:

John K. Allen, 1952-1970, veterinary science
John H. Applegarth, 1952-1970, biological sciences
Arthur G. Butzbach, 1950-1970, education
C. Herold Gregory, 1950-1970, printing engineering and management
Lewis E. Hammitt, 1946-1970, physics
Reynold H. Lonborg, 1946-1970, crops science
Ena L. Marston, 1946-1970, English
Francis F. Whiting, 1946-1970, engineering technology

Each received a bound letter officially designating them as emeritus members of the faculty from President Robert E. Kennedy.

Those receiving the honor must have been tenured members of the college faculty with a minimum of 15 years of service with the college at the time of their retirement. The honorary title carries with it such privileges as use of the college library and Staff Dining Room, and use of other faculty services and privileges.

BOARD OF CONTROL RULE CHANGES AFFECT COLLEGE POLICY ON MILEAGE, TRAVEL CLAIMS

Two recently-announced changes in regulations of the State Board of Control affect college policy concerning mileage allowances for use of private autos by state employees while they are involved in state business and the manner in which claims for travel while involved in state business are prompting revisions in college policy as contained in Chapter 5 of the College Administrative Manual.

As contained in Section 714 (b) of the California Administrative Code, the new rule on mileage allowances provides for reimbursement at the rate of 12 cents per mile for the first 900 miles in a calendar month and 5 cents per mile for each mile thereafter. Effective date for the new rule is Oct. 1. Section 571.2 of CAM is the section affected by the new Board of Control regulation.

The other change, resulting from an ammendment of BOC rules as reflected in Section 704 (b) restates college policy to include provisions regarding how often expense claims can be submitted. College Administrative Manual Section 573 is being revised to include a new first paragraph, which reads:

"Expense accounts shall be rendered at least once a month and not more often than twice a month except that if the amount claimable for any month does not exceed \$10, the filing may be deferred until the total amount claimable exceeds \$10 or until June 30, whichever occurs first. In no event shall expense accounts totaling less than \$1 be rendered or paid."

Both College Administrative Manual sections affected by the Board of Control rule changes are being revised and will be distributed to those who hold copies of the manual with other revisions presently being prepared.

1969-70 DISTINGUISHED TEACHERS HAVE 59 YEARS OF SERVICE AT CAL POLY

Five men with a total of 59 years of experience as members of the faculty at Cal Poly are the college's distinguished teachers for 1969-70. They are Donald W. Hensel (History Department), David M. Montgomery (Biological Sciences Department), Philip H. Overmeyer (Business Administration Department), Willard M. Pederson (Head of the English Department), and Omer K. Whipple (Chemistry Department).

President Robert E. Kennedy presented \$500 awards and certificates recognizing their accomplishments to the five men during a meeting of the college Academic Senate just before close of the Spring Quarter.

The men were nominated by members of the college faculty and student body and were selected by a committee of their peers. Chairman of the committee which made the 1969-70 selections was Richard F. Johnson (Head of the Animal Science Department), himself a recipient of a distinguished teaching award in 1965-66.

TWO MAGAZINES FEATURE BOOKDROP PROJECT

An idea developed by two students of architecture and produced by an industrial technology class has been featured simultaneously in two trade publications. The August issue of The Student Store included two pictures and an article titled "New Book-Drop System Will Improve Traffic Flow." The August-September issue of The College Store Journal includes five pictures with the article titled "A Bookdrop Is A Bookdrop But This One Is Different!"

Mary Lee Green (El Corral Manager) is shown in both magazines, along with a 30-space, four-sided bookdrop to be used in the new college store when it opens. Designed by Larry Price and Brent Berry, both senior architecture students, the units were produced by an industrial technology class instructed by Roger Keep. Unlike cubby-hole shelves along the wall, the units can be approached from all four sides and are expected to improve traffic flow and convenience for students.

REGULAR 8 TO 5 WORKING HOURS NOW IN EFFECT

Employees are reminded that the summer working hours of 8 a.m. to 4:30 p.m. with 30 minutes for lunch ended on Sept. 14, and regular 8 a.m. to 5 p.m. hours with an hour for lunch have been in effect since that time. The ad hoc committee assigned to evaluate the modified hours for use in future summers or during the entire year has made its report to President Robert E. Kennedy. This matter will be presented at the next President's Council meeting.

NEW LEGISLATION PROVIDES ADDED HEALTH PLAN CONTRIBUTION

Legislation signed recently by Governor Ronald Reagan provides for an immediate \$2 increase in the State of California's contribution toward cost of health insurance plans for state employees. The new legislation increased the total contribution by the state to \$10 monthly, effective July 1, 1970. Three other \$2 increases will follow, effective annually on July 1, with the last scheduled to go into effect on July 1, 1973. The total state contribution at that time will be \$16 per month.

SUPPORT STAFF VACANCIES LISTED BY PERSONNEL OFFICER

Six open positions on the support staff of the college have been listed by S. Milton Piuma (Staff Personnel Officer). All are posted on the bulletin board located in the Personnel Office, Adm-111, 546-2236. They are:

Graphic Artist (\$562-\$651), Audio Visual Department, Administrative Affairs. Primary duties and responsibilities to include planning, designing, developing and producing original graphic materials, including illustration and layout for publication, display, exhibit, and visuals for projection. Assisting faculty in preparing visual materials for instruction, and supervising and instructing graphic assistants. Two years experience in commercial art and two years in art school or equivalent of BA in art from accredited college or art school and one year commercial art experience.

Clerical Assistant II-B (\$492-\$599), Home Economics Department, School of Human Development and Education. Primary responsibilities to include receptionist duties, answering phone, answering student and prospective student inquiries, general filing, keeping student folders up to date. Applicants must be high school graduates with clerical experience.

Clerical Assistant II-A (\$457-\$556), Activities Office, Student Affairs Division. Primary duties and responsibilities to include typing Codes and Bylaws. Applicants must be fast and accurate typist with a high school diploma.

Clerical Assistant II-B (\$492-\$599), Foreign Languages and Linguistics, School of Communicative Arts and Humanities. Duties and responsibilities to include typing, filing, general office duties, plus reading and typing in Spanish, linguistic symbols—IPA, French, German. Prefer bilingual in Spanish.

Automobile Mechanic (\$746-\$821), Auto Shop, Business Affairs Division. Responsible for maintaining 40 units, autos and pick-up trucks, and supervising students. Applicants must be high school graduates with additional auto technical school training.

Clerical Assistant II-B (\$492-\$599), Business Administration Department, School of Business and Social Sciences. General clerical duties for the Business Administration Department faculty. Applicants must be high school graduates with skills of 45 wpm in typing, and 90 wpm in shorthand.

FALL TEA WILL OPEN WOMEN'S CLUB ACTIVITIES FOR 1970-71

The annual Fall Tea of the Cal Poly Women's Club will be held Saturday (Sept. 26) from 2 to 4 p.m. in the Staff Dining Room. All wives of the faculty and staff, and women who are members of the faculty and staff, are invited to attend, according to the co-chairmen, Mrs. Warren Anderson and Mrs. William Horton.

First of the Women's Club's activities of the year, it will be a time for greeting old friends and meeting newcomers. Section chairmen will also be present at the tea to sign up members who wish to join the Club's special interest sections for the coming year.

The yearly membership drive will start with the tea. Dues of \$6 per year may be paid at the tea, or mailed to the treasurer, Mrs. Ralph Warten, 274 Highland Dr., San Luis Obispo. Deadline for receipt of dues from those who wish to be included in the Club's 1970-71 directory is Oct. 15.

MUSTANG GRIDMEN WILL HOST FAR WEST CHAMPION ELEVEN

The defending Far Western Conference champion Pioneers of California State College at Hayward will provide the opposition Saturday (Sept. 26) evening when Cal Poly's varsity football team goes after its second victory of the young season. Game time for the contest, which is scheduled for Mustang Stadium on campus, will be 7:30 p.m.

Coach Joe Harper's Mustang gridgers tuned up for this weekend's encounter with the Hayward eleven with a convincing 40-7 thrashing of California Lutheran College's highly-regarded Kingsmen. The CLC club is being touted as one of the strongest small college elevens in the Western U.S. and had lost but 7 games while winning 40 over the past five years.

Outstanding performances were recorded against the Kingsmen by quarterbacks Don Milan and Steve Bresnahan and the entire Mustang defensive team, which limited its opponents to but seven first downs during the rugged contest. Highlight of the evening was defensive back Gary Fascilla's 86-year return of a CLC punt for a touchdown.

This Saturday evening's contest could find the Cal Poly club hard pressed to repeat its opening victory. Although the Cal State Hayward eleven has an 0-2 won-lost mark for 1970, it has a host of experienced returnees from a 1969 team that posted a 9-1 record. The 1969 Pioneer team was among those considered for the Camellia Bowl game, which took place in Sacramento last December.

FALL QUARTER ENROLLMENT TOPS 12,300

Some 12,370 students signed up for classes during regular registration for Fall Quarter, which took place last week. That figure is about 1,100 higher than the number of students who had signed up for classes on a comparable date last year and 248, or 2 per cent, over the target of 12,122 students for this fall. Late enrollment began today (Tuesday, Sept. 22) and will continue through Monday (Sept. 28).

STAFF CLUB MEMBERSHIP DRIVE WILL OFFER PRIZES

A 1970-71 Cal Poly Staff Club membership card will provide faculty and staff members with an opportunity to win a dinner for two and overnight accommodations at the Madonna Inn, a second couple with the same arrangements at the San Luis Bay Inn, and a grand prize to be announced at a later date. Roger Bailey, membership drive chairman, announced the prizes early this month.

The club's membership drive began during the Faculty-Staff Conference last week. Bailey says memberships will be available later this week through department representatives.

The Staff Club, an organization of Cal Poly faculty and staff members, has as its objective the enhancement of campus life. It provides opportunity for informal gatherings of faculty and staff and a weekly luncheon meeting featuring speakers who offer enlightenment on campus affairs. The membership fee is \$4.

The number of the 1970-71 membership card will be used to determine winners of the prizes.

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon Friday, Sept. 25, in the Office of Information Services, Adm-210.

WHO . . . WHAT . . . WHEN . . . WHERE? ? ?

Royce Lambert (Soil Science Department) attended the 62nd annual meeting of the American Society of Agronomy, which took place late last month in Tucson, Ariz. Dr. Lambert presented a paper titled "The Testing of a Method for Predicting Water Intake Into Soils by the Use of Field Cores" during a meeting of the society's Soil and Water Conservation Section held in conjunction with the meeting.

Clyde Hostetter (Director of the Instructional Materials Program) has been appointed national program chairman for the Vocational Instructional Materials Section of the American Vocational Association. The new section was organized last year to stimulate interest and cooperation in the production and use of vocational instructional materials. Hostetter is in charge of arrangements for the VIM program for the national AVA convention, which will take place in New Orleans in December.

Richard C. Carlston (Welding and Metallurgical Engineering Department) has been accredited as a professional chemist by the American Institute of Chemists. Dr. Carlston received notice of the institute's action recently. With about 7,400 members, AIC has as its purpose improvement of the professional status of chemists and chemical engineers.

Richard J. Krejsa (Biological Sciences Department) participated in meetings of the American Society of Zoologists, American Microscopical Society, and the Poultry Science Association at Indiana University during late August. Dr. Krejsa presented an oral paper titled "Functional Epithelial Extinction: A Synthetic View of Epidermal Shedding and Keratinization in Animal Integuments" before a meeting of ASZ's Developmental Biology Section.

David H. Fretwell (Industrial Technology Department) has been elected treasurer of the San Luis Obispo Jaycees. A member of the college faculty since last year, Fretwell will serve the organization of young business and professional men throughout its 1970-71 program year.

Dean Piper (Soil Science Department) has just returned from a four-week-long assignment as an agricultural consultant for the Peace Corps in Morocco. After spending one week with the PC volunteers who were taking part in a training program at Morrison, Colo., Dr. Piper flew to Washington, D.C. for a conference with Peace Corps officials and then to Morocco. While in Morocco, he traveled with the PC staff and met with various officials within that nation's agricultural ministries.

Lee C. Coombs (Chemistry Department), who began his duties as a member of the Cal Poly faculty only last week, is co-author of a research paper appearing in the Sept., 1970, issue of Inorganic Chemistry. Dr. Coombs' paper is titled "Mechanism of Tetracyanonickelate Formation from Mono (aminocarboxylate) nickel (II) Complexes."

Alfred W. Landwehr (English Department) has received word from University of Missouri that all requirements for his Doctor of Philosophy Degree in English literature have been successfully completed. Dr. Landwehr began his teaching assignment at Cal Poly last week after having been involved in studies and a teaching assistant assignment at Missouri for the past two years.

Kermit Adams (Cal Poly/AID Party Chief in Guatemala) visited on campus briefly last week when he accompanied his son, Richard, to the college for start of the Fall Quarter. Adams is enthusiastically optimistic about Cal Poly/AID projects in Guatemala. He expects to return for an official campus visit in December.

CAMPUS MOURNS DEATH OF TWO STAFF EMPLOYEES

The deaths of Arthur B. Gatrel, 53, and Elmer L. Trousdale, 54, both members of the College Dining Hall staff, who died last weekend are being mourned this week. Services for Gatrel, who died following an illness, were to have been held this (Tuesday, Sept. 22) morning in San Luis Obispo, with interment scheduled later in Powersville, Mo. Final rites for burial and services for Trousdale, who died of a heart attack, had not been scheduled at this writing. Gatrel had been a member of the Cal Poly staff for the past 10 years and Trousdale, since 1963.

REMINDERS ISSUED FOR WOMEN'S CLUB MEMBERS

Announcements of interest to Cal Poly Women's Club members included reminders for those who plan to participate in programs of the club's Home and Garden Section and Hospital Auxiliary. Members of the Home and Garden Section are invited to save rooted plants, etc., for a plant exchange being prepared for October. Club members are also needed as volunteers to participate in the Hospital Auxiliary's activities at the campus Health Center. Those interested are invited to telephone Mrs. J. Cordner Gibson (543-2565) or Mrs. Douglas Pierce (544-6014) for information.

Typewritten copy intended for the next issue of <u>Cal Poly Report</u> must be received prior to 12 noon Friday, Sept. 25, in the Office of Information Services, Adm-210.
--

RESEARCH notes

Prepared by the Office of Graduate Studies and Research

Adm. 309 546-2630

!! CONTEST !!

ANYONE CAN ENTER - NO AGE LIMIT - WOMENS' LIB ENCOURAGED

Winner gets two (2) tickets for the "Covered Wagon" (silent), the next time it is shown at Grauman's Chinese Theatre, Los Angeles.

Second Prize: Four (4) tickets to the "Covered Wagon."

The Problem: We ought to have a more accurate title than Research Notes for the information published on this page. Many of the notices have nothing to do with research, but relate to fellowships, training grants, curriculum development, etc. 'Federal' is inappropriate because some notices come from private foundations or companies.

Is there any completely descriptive title? Can you think of a better one? Please send your suggestions to Howard Boroughs (Associate Dean, Graduate Studies and Research), Room 309, Admin. Bldg.

Department of Transportation

The Department of Transportation (DOT) is looking for faculty members who have a PhD or ScD and demonstrated research talent for temporary appointments (up to one year) to help solve problems of highway deaths. Write to: Personnel Management Director, Office of Administration, National Highway Safety Bureau, Washington, D.C. 20591.

The DOT has also announced a \$3 million program for research and training in urban transportation for 1971-72 academic year. An institutional expression of interest should be sent immediately. Grants will be announced in January.

National Science Foundation

The deadline for NSF In-Service Institutes for high school science and mathematics teachers is November 15.

NSF Science Faculty Fellowships are available to enhance the effectiveness of teaching science, mathematics, or engineering. Candidates must have at least a baccalaureate and three years experience teaching at the collegiate level. For further information call: Howard Boroughs, ext. 2630. The deadline is October 5, 1970.

Opportunities in the Humanities

Stanford University announces that grants and loans are available from the Mabelle McLeod Lewis Memorial Fund for study and research in the "humanistic disciplines, which are very broadly interpreted." The deadline is November 16, 1970. Your dean has a copy of the announcement, or you can get information in this office.

The National Endowment for the Humanities has published a list of the grants awarded for fiscal year 1970. The grants include: Education, Research, Fellowships, and Public Programs. The list may be seen in this office.
