ENROLLMENT HITS 9,628

PRESIDENT SEEKS FUND AUGMENTATION

Enrollment at Cal Poly experienced an unprecedented spurt this quarter to exceed predicted enrollment. College officials viewed the growth as a healthy indication of increasing interest in Cal Poly and its instructional programs, but faced some growing pains, particularly in the administration of the college budget.

Enrollment of 9,628 individual students as of last Saturday was reported by F. Jerald Holley (registrar). He said an estimated 9,200 annual average FTE (Full Time Equivalent) students will result from the enrollment, rather than the 9,100 individuals and 8,660 annual average FTE which had been expected.

President Robert E. Kennedy is at the Chancellor's Office today (Tuesday) to seek emergency augmentation of the college's 1968-69 budget. He said appropriate personnel at the Chancellor's Office will be asked for assistance in seeking areas within the California State College System which may have fallen short of budgeted projections.

Based on experience of past years, the college accepted applications for admission in accordance with ratios designed to generate actual registrations within two percent of the projected and budgeted annual average figure of 8,660 full-time equivalent students. Annual average enrollment is now approximately 540 FTE in excess of budget provisions.

President Kennedy told the school deans in a meeting Monday morning that he would make every effort to obtain additional funds, particularly additional teaching positions which could be allocated as funds for either full- or part-time teachers, student assistants, or other appropriate instructional support specifically to the departments and courses where overloads might otherwise occur.

Dr. Kennedy indicated that he was "hopeful but not optimistic" about chances of obtaining funds to ease the situation completely. "We must remember that at this point the only place to obtain any additional funds for 1968-69 operations is from those state college campuses which may not have reached their target enrollments--- and it is possible that every one of them reached or exceeded their budgeted enrollment figure," he added. Since registration is complicated by thousands of individual decisions, prediction of enrollment involves new students, transfer students from other colleges and universities, and continuing and returning students. President Kennedy said the current change in the percentage of students who appeared for registration, compared to the "application"-to-"student" ratio of returning students was an exception to past projections which have been historically accurate.

"We are likely to know considerably more about what happened in a few days, but I doubt that we'll have anything but educated guesses about the why of the unpredictable increase," he said.

Enrollment by schools for 1967-68, respectively, is reported by Holley as follows: School of Agriculture, from 1709 to 1837; School of Applied Arts, from 2420 to 2904; School of Applied Sciences, from 1434 to 1595; School of Architecture, from 926 to 1271, and School of Engineering, from 1825 to 1976.

CAL POLY HAS MAJOR INTEREST IN PROPOSITION 3

Cal Poly has a larger stake in the proposed \$250 million bond issue which goes to the voters on November 5 than any of the 18 other California State Colleges. The bond issue is designated as Proposition 3 on the General Election ballot. The college is scheduled to receive over 7 percent of \$200 million designated for the state colleges and University of California.

Amounts of the \$100 million share of the construction bond proposal allocated to the individual California State Colleges range from the \$880,000 designated for California State College at Hayward to Cal Poly's \$14,647,000. Only San Jose State College, which is earmarked to receive \$13,387,000, is scheduled to receive anywhere near the Cal Poly amount. Cal Poly's share will also be larger than that of any of the university's nine campuses except those at Irvine and San Diego. Some \$50 million in the proposal will go to support public schools throughout the state.

To the college's allotment of the capital outlay monies from the bond proposition must be added another \$2,700,000 which the college may obtain from the federal government in matching funds made possible by availability of the bond money. With the resulting total of \$17,347,000, Cal Poly is slated to construct four major instructional buildings and to begin planning for two others.

The estimated cost of the buildings are: Engineering South, \$5,169,000; Classroom Building No. 3, \$3,165,000; Life Science Building, \$2,230,000; and Library, \$6,783,000. Work on the engineering building is scheduled to begin in 1969-70 when a total of \$5,466,000 will become available. The other three buildings will be started in 1970-71 when \$11,881,000 will be available.

Reflected in the new facilities being planned for Cal Poly is the continuing increase in its service as a leader in career oriented higher education for California's young people. Cal Poly enrollment, expected to top 9,100 this quarter, has increased from 6,310 five years ago and from 3,938 ten years ago.

Present indications are that in excess of 12,000 students will be attending classes by 1974 when the projects to be financed by funds from Proposition 3 would be available for use.

RETIREMENT RECEPTIONS SCHEDULED FOR DR. MILLER, MRS. BOYSEN

Two retirement coffee receptions have been scheduled by friends of two members of the college staff who are completing service to Cal Poly.

Mrs. Kathryn Boysen, senior clerk of the Cal Poly Foundation Business Office, will be honored at the Staff Dining Room at 4 p.m. on Monday, Sept. 30. Mrs. Boysen joined Cal Poly in May, 1953. She resides at the Hidden Hills Mobilodge in San Luis Obispo. She has two children, a son, Frank, of Springville, Calif., and a daughter, Mrs. Shirley Vandegrift, and four grandsons of San Luis Obispo.

The retirement of Dr. Douglass W. Miller will be observed by friends and associates at a reception to be held in the Staff Dining Room from 3-4:30 p.m. on Tuesday, Oct. 15. Dr. Miller, who joined Cal Poly in April, 1953, has been director of public information and publications. He and his wife, Helen, reside at 134 La Entrada in San Luis Obispo. Dr. Miller, whose retirement is effective Sept. 30, has a son, Bruce, who has just joined the faculty of the English Department as lecturer, and two grandchildren.

RESIGNATION OF STANISLAUS STATE COLLEGE PRESIDENT ANNOUNCED

Dr. Alexander Capurso, president of Stanislaus State College since 1963, resigned in order to return to research and teaching.

The 58-year-old educator's resignation becomes effective August 31, 1969.

Capurso, who succeeded the late J. Burton Vasche as the second president of the eight-year-old college at Turlock, told his faculty that "this is the logical time to plan for my return to a prime personal mission--research and teaching--since the first phase of the educational and construction program at Stanislaus is completed."

Chancellor Glenn S. Dumke, head of the 19-campus state college system, said a nationwide search for Capurso's successor would get under way at the earliest possible date. "Dr. Capurso has made a significant personal contribution to the development of Stanislaus State College. Speaking for the Board of Trustees, I extend their gratitude for his outstanding service," Dumke said.

DAILY PHYSICAL ACTIVITY PROGRAM FOR MEN SCHEDULED

A regular program of physical activity for male members of the Cal Poly faculty and staff is being planned for each noon, Monday through Friday, according to an announcement received from the Physical Education Department. To begin immediately, the daily program will be centered in the Men's Physical Education Building with a wide variety of activities available. It will be necessary that those who participate provide their own combination locks. Both storage baskets and other gear may be checked out at the MPE equipment room.

Also announced was the start of planning for a similar program for women who are members of either the college faculty or staff. If details can be worked out, that activity would be also presented by the Physical Education Department. An announcement on that possibility should be forthcoming.

ANNUAL PARKING PERMITS MAY BE PURCHASED

Annual parking permits are available for faculty and staff who find it inconvenient to purchase parking permits on a quarterly basis. These permits are for three quarters (fall, winter, spring) and may be purchased from the Cashier's Office, Administration Building, at a cost of \$27.

APPLICATIONS FOR SHERATON HOTEL DISCOUNTS AVAILABLE

The Personnel Office has received a number of special credit applications from the Sheraton Hotel Corporation for the use by faculty and administrative personnel. Holders of such cards are entitled to certain discounts at specified periods throughout the year. Applications may be obtained from the Personnel Office.

C S C TRUSTEES SLATE MEETINGS IN LOS ANGELES

The Board of Trustees of the California State Colleges will meet in the Trident Lounge at California State College, Los Angeles, 5151 State College Drive, Los Angeles, on September 25-26.

COKE ASSUMES LEADERSHIP OF NEW STATE AGENCY

Earl Coke, state director of agriculture since the Reagan administration took office on January 2, 1967; officially became secretary of the new Agriculture and Services Agency when Governor Reagan's reorganization program took effect on September 14. Appointed by Governor Reagan to replace Coke as director of the California Department of Agriculture is Richard E. Lyng, who has served as deputy director of the department since April 1, 1967, and as chief deputy director since April 1, 1968.

Coke's agency headquarters will be in the Department of Agriculture Building, 1220 N Street, Sacramento. The Agriculture and Services Agency includes the following departments of state government: Agriculture, General Services, Professional and Vocational Standards, Veterans Affairs, Commerce, Employees' Retirement, Teachers' Retirement, Franchise Tax Board, and State Fire Marshal.

Although his status as an agency secretary was not official until September 14, Coke has been serving in that capacity as a member of Governor Reagan's cabinet since February of this year, when the governor's reorganization plan was formally transmitted to the State Legislature.

Coke was born in Downey, California, and has had a lifelong career in agriculture on the local, state and national levels. Having been active in 4-H and Future Farmers of America affairs throughout his life, he was awarded an honorary state farmer degree in the FFA and the National 4-H Alumni Award.

In 1963 he was awarded a certificate for outstanding service to vocational agricultural education by the Council of California Vocational Associations at California State Polytechnic College.

WEEK OF WELCOME ACTIVITIES ATTRACT WIDE PARTICIPATION

More than 1,500 new students, including 740 freshmen, 330 transfer students, and an additional 452 who participated in activities at Camp Pinecrest and Camp Ocean Pines, were involved in Week of Welcome activities held last week, according to Dan Lawson associate dean for activities. He said 208 upperclassmen returned to campus a week earlier than they might have otherwise to run the week-long orientation program.

Nearly every student in a WOW Club, the smaller groups through which students participated in the broadly varied activities, took part in a schedule of campus tours, office visits, and social activities, which included a personal visit and welcome from President Robert E. Kennedy in his office. An innovation this year was group visits to faculty homes. A total of 140 groups of about 10 students each visited 132 faculty homes on Monday and Wednesday nights.

RECREATIONAL SWIMMING SESSIONS RESUME

Recreational swimming for faculty, staff, students, and dependents for the 1968-69 academic year will be held in the Crandall Gymnasium pool Sundays 2-4 p.m., and Wednesday evenings 7-9 p.m. Children must be 48 inches tall, girls must wear swim caps, and participants will provide their own suits and towels. The first session will be Wednesday, September 25.

NEW HEAD OF INDUSTRIAL ENGINEERING DEPARTMENT ON DUTY

Donald E. Morgan has begun his new duties as head of the Industrial Engineering Department in Cal Poly's School of Engineering. He succeeds Millard J. Fotter, who asked earlier this year to be relieved of his administrative responsibilities and returned to full-time duties as a member of that department's teaching faculty.

Dr. Morgan is a veteran of business and industrial engineering and was a professor, lecturer, and research associate at Stanford University from 1960 through 1965. More recently he was a senior staff member and partner with Decision Studies Group, Palo Alto, and a staff technical consultant for ARINC Research Corporation, Santa Ana.

The new department head is a graduate of Oregon State University and Stanford, which granted him both the MS degree in industrial engineering and the PhD degree. A native of Oregon, he is a member of the Institute of Electrical and Electronic Engineers, the American Institute of Industrial Engineers, the National Security Industries Association, the American Society for Quality Control, and the American Ordnance Society, as well as Tau Beta Pi and Phi Kappa Phi honor societies. He is author of books on industrial electronics and quality cost implementation and analysis.

Fotter, a member of the Cal Poly faculty since 1954, had been head of the Industrial Engineering Department since its inception in 1955 and played a major role in its development. A graduate of both Armour Institute of Technology and University of Southern California, he worked as an engineer in industry before joining the college faculty.

TROUTNER, BROWN HONORED FOR 25 YEARS OF SERVICE

William Troutner and Howard C. Brown, both veteran members of the School of Agriculture faculty, were honored on their completion of 25 years of service as employees of the State of California during the opening session of the Faculty Conference held on campus last week. Each received a certificate of recognition signed by both Governor Ronald Reagan and President Robert E. Kennedy and 25-year service pins.

Troutner, who returned to his teaching duties in the Crops Department after having been assigned for the past two years as a member of the Cal Poly team in Guatemala under a contract with the United States Agency for International Development, joined the college faculty in 1942. An alumnus of the college, he fulfilled duties connected with the campus housing program during and just after World War II.

Dr. Brown, who is head of the Ornamental Horticulture Department, is also an alumnus of Cal Poly. A member of the college faculty since 1946, he has been instrumental in development of that department and has helped move its instructional unit twice. Before assuming his duties as a full-time member of the faculty, he served as a graduate assistant to the then head of the OH Department, Ted Howes. The department has grown from 21 to more than 140 students in the intervening years.

NEW FACULTY RECEIVE BOOK OF TEACHING TIPS

New members of the Cal Poly faculty have received complimentary copies of "Teaching Tips, A Guide Book for the Beginning College Teacher" by Wilbert J. McKeachie at the request of President Robert E. Kennedy. The author is chairman of the Psychology Department at University of Michigan. Twenty copies of the book are available in the El Corral Bookstore for others who wish copies. Cost of the volume is \$2.00

RESEARCH AND CREATIVE ACTIVITY LEAVES AVAILABLE FOR WINTER AND SPRING QUARTERS

Seven special leaves for research or creative activity are available for the winter and spring quarters, 1968-69. Information concerning these leaves can be obtained through the offices of department heads. Applications should be submitted to the department heads no later than October 14 and, in turn, must be in the deans' offices by October 21 in order that they may be presented before the college Research Committee on or before October 28, 1968.

Two members of the college faculty are presently on leave for the fall quarter under provisions of the program of leaves for research or creative activity. They are Ronald L. Ritschard and Harry C. Finch, both of the Biological Sciences Department. Others who were on leave under the program sometime during the past year include William M. Alexander, Social Sciences Department; Walter E. Elliott, Physics Department; R. L. Graves, School of Architecture; Robert F. Hoover, Biological Sciences; Edgar A. Hyer, Agricultural Management Department; Peter H. Molnar, Social Sciences; Robert J. Rodin, Biological Sciences; and E. O. Stoffel.

The policies and guidelines for leaves are available in the schools deans' offices and in the department heads' offices.

UNIVERSITY OF ARIZONA CONSULTANTS SCHEDULED FOR CAMPUS SEMINAR

Two men who are consultants for EPIC (Evaluative Programs for Innovative Curriculums) at University of Arizona will present a Faculty Seminar on campus Monday (September 30) morning. Subject matter for their presentation, which is scheduled for 8:00 a.m. to noon in Room 125 of the Music, Speech, and Drama Building, will be the use of video and audio tape recorders in evaluation of instruction.

Drs. Wayne Roberson and Dick Powell are involved in activities of EPIC, which are operated by a regional center at the Arizona university. The center is funded by the United States Office of Education under terms of the Elementary and Secondary Education Act of 1965.

Members of the college faculty and administrative staff are invited to visit the seminar any time during the morning Monday. Further information on the activity may be obtained by calling Don Hensel, associate dean, academic planning (546-2187).

DONATIONS OF BLOOD NEEDED

Donations of blood are needed for Mrs. Athol J. D. Brunk, who is ill and has been receiving and will continue to need blood transfusions frequently. She is the wife of Athol J. D. Brunk of the Physics Department faculty. Members of the campus faculty and staff who wish to donate blood may do so at the Monday Club in San Luis Obispo every other Wednesday between the hours of 2:00 and 4:45 p.m. They are being urged to telephone Ken Jones (543-2925) to make appointments. It should be made clear at the time the appointment is being made that the blood is being given for Mrs. Brunk's use through the Cal Poly Blood Bank account. Blood she uses must be replaced on a two-for-one basis.

The Cal Poly Staff Bulletin is produced by the Office of Information Services, Administration 210. Material should be submitted in writing prior to noon on Friday.

CAMPUS FACULTY INVITED TO ATTEND LUNCHEON HONORING STATE BOARD OF AGRICULTURE

Faculty members are being given an opportunity to attend a luncheon honoring the California State Board of Agriculture to be held on campus October 3. The luncheon will be in the Dairy Judging Pavilion at the Foundation Dairy Unit on Mt. Bishop Road beginning at 12:35 p.m. The board will be holding a regular meeting in Room 218 of the Music, Speech, and Drama Building from 10:00 a.m. to 12:30 that day. Reservations for the luncheon at a special faculty rate are available until October 2 at the Cashier's Office, Room 131, Administration Building.

SUPPORT STAFF POSITION VACANCIES ANNOUNCED

The following vacancies on the support staff of the college have been announced by Larr Voss (director of personnel relations). These positions, and others previously announced, are also posted in greater detail on a bulletin board in the Personnel Office (Adm. 111, Ext. 2236), along with selected employment opportunities from within the California State Colleges.

The positions are:

Equipment Technician II (\$710-\$863). Printing Technology & Management Department, School of Applied Arts. Journeyman printer required. Operate, direct, and supervise offset and letterpress printing, work with student production managers, teaching aids production, and prepare laboratories for printing classes.

Tabulating Machine Operator (\$480-\$584). Computer Center. Six months experience on specified machines. Operate IBM punch card tabulating equipment.

Technical Assistant I (\$435-\$530). Audio-Visual Department, School of Applied Arts. Six months experience. Prepare, issue, deliver, schedule and operate audio-visual equipment.

Technical Assistant I (\$435-\$530). Home Economics Department, School of Applied Arts. Variety of duties include purchasing supplies and setting up laboratories.

Clerical Assistant (Stenographer) II-B (\$446-\$543). Foreign Students Office, Student Affairs Division. Type 45 wpm, shorthand 90 wpm.

Groundsman (\$505-\$584). Grounds Department, Plant Operations. Care of grounds, assist in supervising student employees. One year of full-time experience.

Custodian (\$435-\$530). Custodial Department, Plant Operations. Knowledge of methods, materials, chemicals and equipment. One year of experience as janitor or custodian.

FACULTY CHRISTIAN FELLOWSHIP RESUMES WEEKLY MEETINGS

The campus Faculty Christian Fellowship is resuming its weekly meetings at 12:00 noon each Friday in Room 116, Business Administration and Education Building. New and returning faculty are invited to bring their own lunch and join in the programs which feature talks with discussion of current topics of Christian interest and Bible study.

NON-RESIDENT TUITION WAIVED FOR CAL POLY EMPLOYEES AND DEPENDENTS

Effective November 13, 1968, no admission fee or tuition fee shall be required of any non-resident student who is a full-time employee of Cal Poly or who is the non-resident spouse or a child of non-academic employees of the college. The new provision for employees and their families was announced by Director of Personnel Relations Larry Voss, who noted that similar provision already exists for a child or spouse of an academic or administrative employee. The new provision extends the fee waiver both to non-resident employees and to the non-resident spouse or children of non-academic employees.

The benefit is included in legislation signed by Governor Ronald Reagan which becomes effective 61 days after end of the legislative veto session. A copy of the legislation, Senate Bill 1179, which amended Education Code 23754, is available in the Personnel Office or in the college library.

In practical application, the provision enables the child or spouse of a full-time employee who is not a legal California resident to attend Cal Poly, beginning with the winter quarter, without paying the \$297 quarterly non-resident tuition or admission fee. Similarly, a full-time employee who is not a legal California resident but who takes courses at Cal Poly may have the \$20 per unit per quarter non-resident tuition waived beginning with the winter quarter. (Similar waivers will be made for foreign non-resident students.) As provided in the Employees' Handbook Sec. 408.51, full-time employees of the college may, with their supervisor's consent, enroll in courses offered by the college and receive up to four units of credit per quarter.

WHO . . . WHAT . . . WHEN . . . WHERE ? ? ?

J. Barron Wiley, Education, returned early this month from a summer assignment in Thailand during which he worked as a consultant to that Southeast Asian nation's Ministry of Agriculture. Dr. Wiley's main duties during his 10-week visit were supervising translation of materials of Cal Poly's Instructional Materials Program into Thai, conducting seminars for instructors in vocational schools, and organizing the production and distribution of audio-visual materials for vocational schools.

Leo Rogers, head of Manufacturing Processes, and his wife, Irene, wish to invite their many friends throughout the campus community to an informal open house on the occasion of their 25th Wedding Anniversary. The open house will be from 2:00 to 5:00 p.m. Sunday (September 29) at their home, 548 Couper Drive, San Luis Obispo.

James Webster, Agricultural Engineering, left last week to begin a two-year-long assignment with the Ministry of Agriculture in Zambia. He will provide technical supervision for construction of farm buildings in that nation as part of a Cal Poly contract project with the United States Agency for International Development. Webster joins Robert McCorkle of the Agricultural Management Department who is already engaged in work for Zambia's Ministry of Agriculture under the Cal Poly project.

James T. Culbertson, Mathematical Sciences, learned recently that his book, "Mathematics and Logic for Digital Devices," has found its way into academic circles nearly halfway around the globe. A letter received on campus during the summer from a college student in India told of his being inspired to continue his study as an electronic engineer to the graduate level after having read Dr. Culbertson's book.

Howell Pinkston, Education, received third prize in the statewide Berkeley Arts Festival which took place last weekend at the Berkeley Civic Center. His prize-winning entry is a ceramic slab construction entitled "Pork Pie Box."

COMING EVENTS -- COMING EVENTS -- COMING EVENTS

Books at High Noon -- Tuesday, September 24, 12:00 noon, Staff Dining Room. Miss Ena Marston of the English Department faculty will review briefly "The Dreamtime--Australian Aboriginal Myths" by Charles P. Mountford; "Ned Kelly" by Robert Melville; and "Let's Buy a Terrace House" by Rob Hillier. Faculty and staff invited.

CSEA Welcome Dessert -- Tuesday, September 24, 7:30 to 8:30 p.m., Staff Dining Room. Coffee-dessert for new and returning members of the faculty and staff. All faculty and staff and their spouses are invited.

Cal Poly Staff Club Luncheon -- Thursday, September 26, 12:00 noon, Staff Dining Room. Head Football Coach and Athletic Director Joe Harper will discuss Cal Poly's 1968 football prospects as the guest speaker for the first Cal Poly Staff Club Luncheon program of the fall quarter. New members of the faculty and staff are especially invited to attend the luncheon series throughout the fall, winter, and spring quarters.

Audio-Visual Demonstration -- Thursday, September 26, 1:30 p.m., Room 17, Business Administration and Education Building. A new type of overhead projector which allows the use of visual material of varied sizes without changing the lense will be demonstrated by the Audio-Visual Department. Faculty and staff invited.

Varsity Water Polo -- Thursday, September 26, 4:30 p.m., Natatorium. Cal Poly vs. El Camino College. Public invited.

College Union Assembly -- Friday, September 27, 8:00 p.m., Men's Gymnasium. "Harpers Bizarre," a currently popular music group which has a reputation for good music and a softer sound, will appear in concert as the first presentation of the College Union Assemblies Committee for 1968-69. Tickets are priced at \$2.00 and \$2.50 for students and \$3.00 and \$3.50 for the general public. They may be purchased at the Associated Students, Inc., Office in advance or at the door.

Cal Poly Women's Club Newcomers' Morning Coffee -- Saturday, September 28, 10:00 a.m. to 12:00 noon, Room 129, Dexter Memorial Library. Coffee for new faculty wives and new staff and faculty women hosted by the Cal Poly Women's Club. Those planning to attend may RSVP to Mrs. J. C. Gibson (543-2565) or Mrs. Erland Dettloff (543-9175).

Varsity Football -- Saturday, September 28, 8:00 p.m., Mustang Stadium. Cal Poly vs. San Francisco State College. Ticket information available at Associated Students, Inc., Office.

Family Picnic Day -- Sunday, September 29, all day, San Luis Obispo Country Club. Picnic for members of college faculty and staff and their families sponsored by the Golf Committee of the Cal Poly Staff Club. Cost will be \$1.00 per person for golf and \$1.00 per person for dinner, which is planned for 5:00 p.m. Contact William Armentrout (546-2593) or Robert Mott (546-2546) for further information.

Books at High Noon Luncheon -- Tuesday, October 1, 12:00 noon, Staff Dining Room. Erland Dettloff of the Education Department faculty will review "The World of Ted Serios" by Jules Eisenbud, MD, during the weekly luncheon program of the Books at High Noon series. Public invited.

Cal Poly Women's Club Sewing Section -- Tuesday, October 1, 2:00 p.m., 1706 Conejo, San Luis Obispo. Regular meeting of the section in the home of Mrs. Harold P. Davidson. Co-hostess for the day is Mrs. Richard Leach. All faculty and staff women and wives of members of the faculty and staff invited.

FLIGHT TRAINING PROGRAM DESCRIBED

Additional information on a recently-announced flight instruction program for senior ROTC cadets was provided by Dean Clyde P. Fisher of the School of Applied Sciences. The program, which is not a credit course offered by the college, is an extra-curricular activity open to students who agree to three years of active duty rather than two. Minors must have parental consent.

The program is administered by the Sixth United States Army Headquarters in a contract with the Lund Air Taxis Company at San Luis Obispo County Airport. The contract includes the entire flight training program, as well as student travel between the college and the airport. Other California colleges and universities which have provided for participation in flight training for some 50 of their senior cadets are: The Claremont Colleges, San Jose State College, University of San Francisco, and the campuses of the University of California, Berkeley, Davis, Los Angeles and Santa Barbara.

The program provides for 35 hours of ground instruction and 36.5 hours of in-flight instruction. Two Cessna 150 aircraft are to be used in the instruction.

Dean Fisher reported that some 15 Cal Poly cadets have passed physicals and have requested college approval to participate in the program.

The Cal Poly Staff Bulletin is produced by the Office of Information Services, Administration 210. Material should be submitted in writing prior to noon on Friday.
