## CHEMISTRY DEPARTMENT GAINS A C S ACCREDITATION

The American Chemical Society's Committee on Professional Training has granted full accreditation to the Chemistry Department of the School of Applied Sciences. Accreditation of the department by the society was announced Friday (Oct. 25) by Dr. Clyde P. Fisher (Dean, School of Applied Sciences).

Dr. Fisher said the society's action is an expression of its confidence that students who receive degrees in chemistry at Cal Poly will have completed a course of study comparable to that offered by the nation's top colleges and universities. He pointed out that the accreditation by ACS was the culmination of several months of effort by Dr. Bruce Kennelly (Head, Chemistry Department) and the chemistry faculty.

A number of reports and studies were prepared for the society and Dr. Kennelly met with representatives of its committee on Professional Training in both Washington, D. C., and Atlantic City, N. J., to answer its questions and discuss plans for future development of the Cal Poly department.

The American Chemical Society is the world's largest professional organization devoted to science. It has 164 geographical units that blanket the United States and its territories and 22 special interest divisions based on subjects of chemical interest. In addition to its semi-annual national meetings and numerous regional gatherings, during which as many as 5,000 scientific papers are presented, the society publishes more than a dozen scholarly and professional journals.

Dr. Kennelly pointed out that the coveted ACS accreditation of the Cal Poly Chemistry Department is an approval of its course offerings, the qualifications of its faculty, and its facilities and equipment. "It means that our graduates in chemistry have received the training needed to prepare them as competent chemists in industry, government service, or business, or for teaching or continued study in graduate school," the Cal Poly educator explained.

Considered during the chemical society committee's accreditation study were the backgrounds and qualifications of the department faculty, the postgraduate records of former students, course offerings, laboratories, equipment, and teaching facilities. Also examined by the committee were senior theses written by the Chemistry Department's students during the past two years and other instructional materials.

The Cal Poly chemistry program was established as a department in 1966 after having been a part of the college's Physical Sciences Department for several years. It now has an enrollment of nearly 150 students studying for Bachelor of Science Degrees in chemistry and biochemistry and a faculty of 18 full-time members, 15 of whom hold doctor's degrees in chemistry.

#### FACULTY SEMINARS STRIVE FOR IMPROVED TEACHING

Faculty members in all departments of the college are invited to participate in the college-wide Faculty Seminar Series begun last May upon recommendation of the Faculty Staff Council, according to Dr. Donald Hensel (Associate Dean, Academic Planning) who is coordinator of the series. The series, initiated with a presentation by the Printing Technology and Management Department on "The First Day of Class," has included a summer presentation of the School of Architecture on computer-assisted instruction.

The next program in the series will be held in the Faculty-Staff Dining Room on Thursday (Oct. 31) from 3:10 to 4 p.m. Mrs. Ola Johnson and Dr. Robert Sorenson, psychologists in the Education Department, will lead a discussion of learning and motivation. Participants should prepare by reading Chapter XIX, "Learning and Motivation in the College Classroom," from Teaching Tips by Wilbert J. McKeachie. New faculty members have been given copies of the text, which is also on reserve in the Library, and is available from El Corral for \$2. The program will include distribution of the ASSIST questionnaire which students will use in evaluating winter classes. Coffee will be served.

Parallel to the college-wide seminars is a series of meetings being conducted by the School of Engineering. Faculty members in all schools of the college are invited to attend, according to Dr. Archie Higdon (Dean, School of Engineering). Meetings are held on Thursdays at 4 p.m. in GA 101.

#### ANNUAL BANQUET IS HIGHLIGHT OF HOMECOMING FESTIVITIES

Some 250 alumni of Cal Poly gathered at the Madonna Inn in San Luis Obispo Saturday (Oct. 26) evening for the annual Homecoming banquet. Represented were over 50 California cities and several states.

President Robert E. Kennedy told the alumni he believed in the friendly family spirit that characterized Cal Poly when it was a small vocational-technical school under the leadership of Dr. Julian A. McPhee. He said he hopes to preserve the unique spirit of Cal Poly as the college grows from its present enrollment of 9,600 to 12,500 in the 1970's.

Master of ceremonies Harry Wineroth of San Jose (Crops, 1947) introduced the football team of 1938-39 and its coaches, Howard O'Daniels of San Luis Obispo and Don DeRosa of Concord. Those attending were entertained also by the original Collegians swing band of 1938, playing together for the first time in 30 years. The 1939 college quartet also entertained. Both groups honored H. P. Davidson, music director and head, Music Department.

The program also included presentation of Ronald D. Regan, supervisor of vocational education for the Los Angeles City Schools (Ornamental Horticulture, 1954) and "Alumnus of the Year" for 1968. Also introduced were Homecoming Queen Debbie Rowland of Pacific Palisades, her court, and their escorts. Alumni Association business included a report from National Past-President Edward J. Slevin (Social Sciences, 1951) of San Francisco, who introduced the new association president, Lew Litzie (Architectural Engineering, 1950) of Fresno.

Alumni Director Les Vanoncini said the banquet was among the most successful in Cal Poly history, with guests from Utah, Texas, and New York among those attending.

### IMPORTANCE OF PROPOSITION 3 TO COUNTY EMPHASIZED BY STURGEON

Proposition 3 in the General Election next Tuesday will have more direct impact on San Luis Obispo County than any other state election issue, according to former Senator Vernon L. Sturgeon.

Sturgeon, a long-time Paso Robles resident, said the other election choices will have far-reaching effects, but that Proposition 3 is the only one which can directly benefit the county by as much as \$17,347,000. The bond issue provided by Proposition 3 will provide \$14,647,000 for the college, plus additional matching Federal funds of some \$2.7 million. Cal Poly's share represents over 7 per cent of \$200 million in bond funds earmarked for higher education.

"Both major political parties and all segments of our society are lending support to this measure," Sturgeon said. "We must realize that the problems of tomorrow can only be solved by our willingness to make decisions today. Cal Poly has shown how well it serves the people of this state and this county. I hope every voter will join with me in passing Proposition 3."

Sturgeon is honorary county chairman of the Citizens' Committee for "Yes" on Proposition 3. He is legislative secretary to Gov. Ronald Reagan. Honorary state chairman for the committee are Bob Hope and Lt. Gov. Robert H. Finch.

With its share of the \$100 million in Proposition 3 assigned to the California State Colleges, Cal Poly is scheduled to construct and equip four major buildings. Cal Poly, which has a student enrollment of just over 9,700 this fall, has grown from 3,938 students ten years ago and 6,310 five years ago. Its student body in 1972, when the four new structures proposed from Proposition 3 would be ready for use, is projected at 12,500.

### A I D DRIVE ON CAMPUS CONCLUDES THURSDAY

Thursday (Oct. 31) marks conclusion of the AID-United Givers 1968 fund drive for community service organizations in San Luis Obispo. By that date the 50 members of the Cal Poly faculty and staff who are serving as captains and making personal contacts with their fellow employees should have completed those contacts and returned their cards to the Personnel Office. Faculty and staff members who have not been contacted, have unanswered questions about either the fund drive or their role in it, or wish to finalize their contributions are being urged to contact their captain or the Personnel Office (Adm-110) on or before Thursday.

### MUSTANG GRIDDERS PREPARE FOR LONG BEACH ENCOUNTER

Coach Joe Harper's varsity football team is in the midst of preparation for its Saturday (Nov. 2) evening grid battle with California State College at Long Beach's eleven. For the Mustangs, that encounter with the CSCLB club is a must if they are to remain a factor in the California Collegiate Athletic Association title race for 1968. Their 31-21 Homecoming game victory over San Fernando Valley State College increased their 1968 record to 4 wins and 1 loss. Cal State Long Beach is 1-4 after its 28-21 loss to University of Santa Clara last weekend.

The Cal Poly Staff Bulletin is produced by the Office of Information Services, Administration 210. Material should be submitted in writing prior to noon on Friday.

#### TRUSTEE CHAIRMAN COMMENTS ON ACADEMIC SENATE PROPOSAL

The following statement was released today by Theodore Meriam, chairman of the Board of Trustees, California State Colleges: "I am puzzled by the recent action of the statewide Academic Senate in proposing a referendum to the faculties of the State Colleges. I am uncertain as to whether it is an attempt on the part of the Senate to seek wider support for their request for the resignation of the Chancellor, or whether it is perhaps a move designed to hopefully procure a vote of confidence from their constituents. In either case, I want to again point out that the selection and tenure of the Chancellor of the California State Colleges is solely the responsibility and authority of the Board of Trustees irrespective of the outcome of any proposed referendum involving the faculty. The Chancellor is not selected on the basis of potential popularity with faculty groups for factions but rather on who is the man best qualified to administer this vast and complex college system. I have previously stated that I question whether the statewide Academic Senate has found its true role and proper voice in the affairs of the State College System. Perhaps this should be more clearly determined and defined before the Senate, which is supported and operates at state expense, spends undue time and effort in requests of negation and complaint. I am certain that the people of California expect and have the right to expect that a state-supported organization such as the statewide Academic Senate will devote its energy and its talents along positive and supportive lines for the benefit of the California State Colleges and the State of California."

#### CALIFORNIA AGRICULTURAL LABOR WILL BE PROGRAM TOPIC

Members of the Cal Poly student body, faculty, and staff are invited to hear a discussion of the California agricultural labor situation which is scheduled for the Cal Poly Little Theater at 8 p.m. tomorrow (Wednesday, Oct. 30). O. W. Fillerup of San Mateo, executive vice president of the Council of California Growers, will be the speaker. Fillerup has devoted more than a quarter of a century in the service of agriculture. He has been on the staff of the U.S. Department of Agriculture, the California and American Farm Bureau Federations, and the Wine Institute. The student Agriculture Council of the School of Agriculture is hosting the meeting. There will be no admission charge.

#### PAYROLL, ELECTION DAY, 7TH WEEK REMINDERS

The Office of Business Affairs will distribute payroll warrants for faculty and staff for the month of October, after 8 a.m. on Oct. 31.

The Office of Personnel Relations notes that Tuesday, Nov. 5 (Election Day), is a scheduled workday at Cal Poly. Non-academic employees and B-10 and B-12 academic employees who work on this day receive credit for 8 hours of CTO (Compensating Time Off). The 8 CTO hours earned will be used for a college holiday scheduled Nov. 29, following Thanksgiving, unless the employee chooses to work then on the skeleton crew.

The Registrar's Office notes that Saturday, Nov. 9, completes the seventh week of the quarter; no withdrawals from class are permitted after this date except for college-recognized emergencies.

#### VARIED PROGRAM SCHEDULED FOR BAND-O-RAMA CONCERT

Variety will be the byword when the 90-piece Mustang Marching Band appears in its second annual Band-O-Rama concert on campus Friday (Nov. 1) evening. Listed as the only indoor concert of the fall season for the college band, the performance is scheduled for 8 p.m. in the 500-seat Cal Poly Theater.

Music programmed for the Band-O-Rama concert has been selected from that used by the talented college musicians in their shows during the pre-game and half time of Cal Poly home football games this fall, according to William V. Johnson, conductor of bands at Cal Poly.

Johnson, who is also an assistant professor (intermediate instructor) on the faculty of the college's Music Department, said the musical highlights of the concert will include Aram Khatchaturian's "Sabre Dance," George Gershwin's "Rhapsody in Blue," John Philip Sousa's "Stars and Stripes Forever," and the theme from the motion picture "Born Free." Also programmed are several of the Beatle's tunes, a collection of songs from the Broadway musical "Man of La Mancha," and a number of other currently popular tunes.

Tickets for the concert are priced at \$1.25 for general admission and 75¢ for students and children. They may be purchased at Premier Music Company and Brown's Music Store in downtown San Luis Obispo and at the Associated Students, Inc., and from members of the Mustang Marching Band at Cal Poly.

#### SALE OF TICKETS FOR DINNER-DANCE CONTINUES

Tickets for the dinner-dance, being planned for Nov. 15 by the Cal Poly Women's Club and the Cal Poly Staff Club, are still on sale, according to an announcement received from the sponsoring groups. They may be purchased from Mrs. Willavere Lisko (Evaluations Office), Dr. Russell Anderson (Animal Husbandry), Chester Bishop (Mechanical Engineering), George Davies (Admissions Office), Sharon Kerr (Physical Education), James Landreth (Business Management), James Neelands (Biological Sciences), R. Wallace Reynolds (Mechanical Engineering), and Dr. J. Barron Wiley (Education).

Theme for the event, which will take place beginning at 7 p.m. in the San Luis Obispo Elks Club, will be "Dansk Hostfest." Music will be provided by the Sorenson Family Band. Dress will be cocktail dresses, long formals, or dressy dresses for ladies and business suits for men. Deadline for purchase of the tickets will be Nov. 12.

In other Cal Poly Women's Club news, the Membership Committee has issued a reminder regarding receipt of dues for 1968-69. Closing date for payments to be in the hands of Mrs. Marcus Gold is Nov. 12. Only those whose dues have been received by that date will be listed in the club's directory.

#### CALL FOR BIDS ON RELOCATION OF NEW PHYSICAL EDUCATION FACILITIES ISSUED

The Office of Architecture and Construction of California's Department of General Services last week issued a call for bids on relocation of the physical education track and related facilities for Cal Poly. Approximate cost of the construction, for which bids are due Nov. 14, is \$225,000. Included in the project is development of a rubberized asphalt track, a small storage building, an irrigation system, lawns, and drainage.

### LOCAL BULL TOPS ANNUAL SALE

Joughin Hereford Ranch of Santa Ynez paid \$3,600 for a bull from Diamond Hereford Ranch of San Luis Obispo to top the registered Hereford range bull sale held at Cal Poly last week. The high-selling bull from the ranch of the late Harry Parker was 2 years old on the sale date. In the rate-of-gain performance trial held beginning Feb. 1, the bull produced 2.58 pounds gain per day while on test, 2.4 pounds per day from date of birth.

The sale included 44 Herefords which had been on a rate-of-gain performance trial at Cal Poly and 25 bulls consigned by members of the Tri-County Hereford Breeders Association. The association has membership in San Luis Obispo, Santa Barbara, and Monterey Counties.

### PERSONNEL OFFICE LISTS VACANCIES ON SUPPORT STAFF

Two vacancies on the support staff of the college have been announced by Milton Piuma (Staff Personnel Officer). These positions, along with others previously announced, are also posted in greater detail on the bulletin board in the Personnel Office (Adm-111, 546-2236).

Senior Tabulating Machine Operator (\$530-\$644). Computer Center. Leadman experienced in operation of wide range of unit record equipment. Supervises and trains staff in complex board wiring and equipment operations. Assists faculty and staff in conversion of work to EDP applications. Additional experience operating computer consoles/systems desired.

Computer Programmer II (\$801-\$973). Computer Center. Journeyman level required. Writes difficult and complex major programs for electronic data processing. Two years experience as a scientific programmer (Fortran required); preference given to candidates also having knowledge of Cobol systems. College degree or equivalent experience.

### FOUNDATION ANNOUNCES WAREHOUSE SALE

Members of the college faculty, staff, and student body are being encouraged to take part in the Cal Poly Foundation's warehouse sale which is scheduled for Thursday, Friday, and Saturday (Oct. 31-Nov. 2) in the Foundation Warehouse. Among items to be sold are metal bed ends, springs, mattresses, wooden bookcases, metal desk chairs, Hide-a-bed sofa, floor lamps, and used water heaters.

Some items included in the sale are one-of-a-kind and all will be sold strictly on a cash basis. The buyer will be responsible for the removal of purchased items. All sales will be on "as-is" basis and all sales final. The warehouse will be open from 1 to 4 p.m. Thursday, 1 to 4 p.m. Friday, and from 9 a.m. to 5 p.m. Saturday.

### CERAMICS SHOW AT CUESTA

An exhibit of ceramics in traditional and contemporary forms, including some blown glass pieces, is on display at the Cuesta College Off Limits Gallery, Kansas and Wyoming Avenues, Camp San Luis Obispo, through Nov. 8 between 11 a.m. and 4 p.m. Monday through Friday, and 7:30-9:30 p.m. Tuesday and Thursday. The work is by students of San Jose State College.

COMING EVENTS -- COMING EVENTS -- COMING EVENTS

Photo Exhibit -- Through Sunday, Nov. 3, regular open hours, Dexter Memorial Library foyer. Exhibit of photographs by the late Robert Capa titled "Image of War," sponsored by College Union Fine Arts Committee. Public invited.

Books at High Noon Luncheon -- Tuesday, Oct. 29, 12 noon, Staff Dining Room. Review of Alvin Eurich's Campus 1980 by Dr. James Simmons, sponsored by English Department. Public invited.

Special Lecture -- Tuesday, Oct. 29, 8 p.m., Cal Poly Theater. "A New Look at Asia" by Robert H. Andrews, author of best-seller on India's Madame Pandit. Sponsored by Office of Special Programs and Journalism Department. Public invited.

C A T A Dinner Meeting -- Wednesday, Oct. 30, 6 p.m., Staff Dining Room. Dinner meeting of Region-at-Large of California Agricultural Teachers Association. Members and guests invited.

Agriculture Council Speaker Program -- Wednesday, Oct. 30, 8 p.m., Cal Poly Theater. Address on farm labor problems by O. W. Fillerup of Council of California Growers, sponsored by Agriculture Council of School of Agriculture. Public invited.

College Union Forum -- Thursday, Oct. 31, 11 a.m., Cal Poly Amphitheater. Talk on sensitivity by Dr. William D. Curtis sponsored by College Union Forum Committee.

Cal Poly Staff Club Luncheon -- Thursday, Oct. 31, 12 noon, Staff Dining Room. Program on the 10 General Election ballot state propositions presented by League of Women Voters. Members and guests invited.

Faculty Seminar -- Thursday, Oct. 31, 3:10 p.m., Staff Dining Room. Mrs. Ola Johnson and Dr. Robert Sorenson will lead the second program of the Faculty Seminar Series. Faculty invited.

Bandorama Concert -- Friday, Nov. 1, 8 p.m., Cal Poly Theater. Concert by Mustang Marching Band, sponsored by Associated Students, Inc. Tickets, \$1.25 for adults, \$.75 for students and children.

Cal Poly Staff Club-AAUP Lecture -- Monday, Nov. 4, 8 p.m., Agricultural Engineering Building, Room 123. Talk titled "Let's Talk Sense About Political Extremism" by Dr. Donald W. Hensel, sponsored by Cal Poly Staff Club and campus chapter of American Association of University Professors. Public invited.

Books at High Noon Luncheon -- Tuesday, Nov. 5, 12 noon, Staff Dining Room. Review of Consumers' Guide, 1897 by Loren L. Nicholson, sponsored by English Department. Public invited.

Cal Poly Women's Club Sewing Section -- Tuesday, Nov. 5, 2 p.m., 290 Chaplin Ln., San Luis Obispo. Co-hostesses for regular meeting in home of Mrs. David Grant are Mrs. William Ford and Mrs. Paul Dillion. Members invited.

Varsity Soccer -- Wednesday, Nov. 6, 3:15 p.m., soccer field. Cal Poly vs. University of California at Los Angeles. Public invited.

College Union Forum -- Thursday, Nov. 7, 11 a.m., Cal Poly Amphitheater. Talk by Owen L. Servatius titled "Owen Servatius Under an Old Oak Tree," sponsored by College Union Forum Committee. Public invited.

(Continued on Page 8)

### VISITORS DISCUSS THAILAND PROJECT WITH COLLEGE LEADERS

Three men responsible for vocational training programs in Thailand visited the Cal Poly campus last week to discuss the educational program operated by the college at the Bangpra School in Thailand. They were Bhongs Sakdi Varasundaroso, director general, vocational education; Suradej Visessurakarn, deputy director general and project director of the Loan for Improving Vocational Education (LIVE); and Dr. Frank Miller, chief of the Vocational Education Division, United States Overseas Mission Education Office in Thailand. The USOM is a U.S. Agency for International Development organization.

While on campus they met with Dr. Robert E. Kennedy (President), J. Corder Gibson (Dean, School of Agriculture), H. H. Burlingham (Head, Agricultural Education Department), and Howard West (Coordinator of Overseas Programs). They also interviewed eight vocational agriculture instructors who have applied for four positions on the American team which will be vacant at the Bangpra School in June, and attended Saturday's Homecoming football game.

### COMING EVENTS (Continued from Page 7)

Cal Poly Staff Club Luncheon -- Thursday, Nov. 7, 12 noon, Staff Dining Room. Program topic not available at publication time. Members and guests invited.

College Union Drama -- Thursday through Saturday, Nov. 7-9, 8:30 p.m., Cal Poly Theater. Production of the play "Fahrenheit 451," staged by College Union Drama Committee. Cal Poly Drama Season Tickets, \$1.50 for adults, \$.50 for students and children.

Articulation Conference -- Friday, Nov. 8, all day. Conference on articulation of courses, degrees, etc., between Cal Poly and junior colleges for junior college counselors, administrators, and teachers from throughout the state. Sponsored by Office of Educational Services.

Varsity Cross Country -- Friday, Nov. 8, 1 p.m., start and finish near Men's Gymnasium. Cal Poly vs. California Lutheran University. Public invited.

Freshman Football -- Friday, Nov. 8, 2 p.m., Mustang Stadium. Cal Poly Colts vs. Fresno State College Frosh. Public invited.

Folk Dance Festival -- Saturday and Sunday, Nov. 9-10, check schedule for times of sessions, Crandall Gymnasium. Intercollegiate Folk Dance Festival for students from colleges and universities from throughout California, planned as opening event of annual International Week at Cal Poly and sponsored by Physical Education Department. Donation, \$1.

Varsity Soccer -- Saturday, Nov. 9, 1:30 p.m., soccer field. Cal Poly vs. Pacific College. Public invited.

Varsity Water Polo -- Saturday, Nov. 9, 3 p.m., swimming pool. Cal Poly vs. California State College at Los Angeles. Public invited.

Varsity Football -- Saturday, Nov. 9, 8 p.m., Mustang Stadium. Cal Poly vs. California State College at Los Angeles. Tickets, \$3.50 reserved, \$2.50 general admission, \$1 students, and \$.50 for children.

WHO . . . WHAT . . . WHEN . . . WHERE ? ? ?

Vincent J. Gates (Journalism) is in French Hospital, San Luis Obispo, where he is recovering from a heart seizure suffered Oct. 19. Although his condition is not considered serious, it is expected that he will not be able to return to his classroom duties until start of the Winter Quarter. He is not receiving visitors.

William D. Stansfield (Biological Sciences) is author of an article titled "A Serological Estimate of Monozygotic Twinning in Sheep," which appeared in the May-June, 1968, issue of Journal of Heredity. An estimate of monozygosity in like-sexed twins based on sex data alone was zero, according to Dr. Stansfield. Serological estimates of the upper limit to monozygous twinning among like-sexed pairs ranged from zero to 10.4 per cent in the three flocks studied.

Roderick W. Carruthers (Head, Printing Technology and Management) attended a course in data processing for printing and publishing executives sponsored by International Business Machines Corporation at its offices in San Jose early this month. Discussed during the week-long seminar were computer applications for the printing industry, the 360 computer, programming language, computerized typesetting and photocomposition using computers.

A Cal Poly alumnus, 1st Lt. Robert E. Saxby, has won the two highest awards that can go to graduates of the U.S. Army's Reserve Officers Training Corps. He received the Dr. Ralph Merzhon Memorial Award and the U.S. Armor Association Saber. Saxby received his BS degree in technical arts in 1967. He was cadet colonel and commander of the Cal Poly ROTC during his senior year.

Clay Hatfield (Biological Sciences) presented a paper on animal vectors of Leptospirosis during the 19th annual international meeting of the American Association for Laboratory Animal Science, which took place in Las Vegas, Nev., last week. The meeting Dr. Hatfield addressed was held in association with the American College of Laboratory Animal Medicine, the Laboratory Animal Breeder's Association, Association for Gnotobiotics, and the American Society of Laboratory Animal Practitioners.

Sarah E. Burroughs (Home Economics) is the author of an article titled "Gastrointestinal Response to Diets Containing Pineapple," which has been published in the Journal of the American Dietetics Association, Oct., 1968, Vol. 53, No. 4. Reported in the article is research conducted by Dr. Burroughs while she was a member biochemist on the staff of the Department of Food Science and Nutrition of Stanford Research Institute.

Joe Martinez, a sophomore crops major from Winters, has been elected Pacific Region vice president of the Future Farmers of America. He was president of the California Association of FFA last year. Although his new duties will make it necessary for him to withdraw from his studies at this time, Martinez has indicated his intention to return to Cal Poly to resume his studies next fall.

Barton C. Olsen (Social Sciences) took part in meetings of the Western History Association which were held in Tucson, Ariz., Oct. 16-20. Dr. Olsen joined historians from throughout the Western United States in attendance at the conference.

John E. Jones, an alumnus of Cal Poly and former member of the Student Personnel Division staff, is the new director of placement at Cal Poly, Kellogg-Voorhis, Pomona. Jones, who received his BS degree in crops in 1947, had most recently been director of placement at University of Southern California. Before that he was manager of recruiting and personnel development for General Electric Company, New York, N.Y. Jones was director of placement at Cal Poly, San Luis Obispo, from 1945 to 1956.

PRIVATE & FEDERAL GRANTING PROGRAMS AND DEADLINE DATES

The following dates have been noted by George Clucas, Director of Research and Development:

<u>Program</u>	<u>Agency</u>	<u>Deadline</u>
Graduate Fellowships for Women	Danforth Foundation	Jan. 10, 1969
Grant Program for the Advancement of the Health Sciences in Institutions of Higher Education	Public Health Service	Jan. 1, 1969
Research Program	National Endowment on the Arts and the Humanities	Nov. 15, 1968 Mar. 1, 1969
Writing Fellowship Program	The Book-of-the-Month Club	Jan. 1, 1969
Opportunities Abroad for Teachers	U.S. Government Under the Fulbright-Hays Act	Nov. 1, 1968
Research Training Fellowships	Social Science Research Council	Jan. 2, 1969
Foreign Area Fellowships	Social Science Research Council	Nov. 1, 1968
Faculty Research Grants	Social Science Research Council	Jan. 2, 1969
Foreign Area Studies	Social Science Research Council	
	Africa	Dec. 15, 1968
	Asia	Dec. 1, 1968
	Contemporary and Republican China	Dec. 15, 1968
	Latin America	Dec. 15, 1968
	Near and Middle East	Dec. 15, 1968
	Slavic and East Europe	Dec. 15, 1968
	East European Language Study	Feb. 1, 1969

SICK LEAVE RECORDS DISTRIBUTED

The Sick Leave Record statements for faculty and staff members are being distributed via inter-campus mail to the individual member at this time. Entries on the statements are computed to and including September 1, 1968. New faculty and staff members who have been employed by the college for less than six months will not receive statements.

PAYROLL SIGN-UP REQUIRED OF ALL STUDENT EMPLOYEES

All regular and work study student assistants must sign up in the Payroll Office (Adm-110) prior to beginning work. This does not apply to students who have been working for the college within the last year unless they have changed their name or exemptions for withholding tax purposes. The continuous reminders and memorandums sent out on this subject reflect the importance of this action. The help and cooperation of all student employers insures that students working for them are paid promptly.

### CAMPUS LECTURER BELIEVES "TRUTH IS ROUND"

Robert Hardy Andrews, the internationally-known writer and authority on Far Eastern affairs who will address an audience in the Cal Poly Theater beginning at 8 p.m. this (Tuesday, Oct. 29) evening, is so steeped in Oriental philosophy that he approaches his subject with a bit of mysticism.

"I believe truth, like the world, is round, not flat, and that 'facts speak for themselves' is a half-truth at best. The more important and significant happenings and motivations have got to be chosen out of narrative, and this choice demands informed interpretation without preconceived prejudices," he explains.

Andrews, whose Cal Poly talk will be titled "A New Look at Asia," writes and speaks as a professional in communications media and from a background of work and travel in the Far East as an independent observer since 1953. He prefers to describe himself as a reporter, applying his definition of this misused word equally to firsthand study of newsmaking events and personages and to historical research from the view of a realistic humanist.

Andrews' address at Cal Poly is co-sponsored by the college's Journalism Department and Office of Special Programs. It is part of a statewide series of such lectures being made possible through the Office of the Chancellor of the California State Colleges.

### CAMPUS GROUPS ENDORSE PROPOSITION 3

Five Cal Poly faculty, student, and staff groups have joined other associations endorsing Proposition 3, the \$250 million state education construction bond issue measure scheduled to appear on the General Election ballot Nov. 5. They are the Cal Poly Alumni Association Board of Directors, the Student Agricultural Council, the Cal Poly Staff Club Board of Directors, the Student Affairs Council of the Associated Students, Inc., and the Faculty-Staff Council Executive Committee.

Also announced this week was the endorsement of the San Luis Obispo City Council and the Jaycees, and editorials supporting the bond proposal which appeared in both the San Luis Obispo County Telegram-Tribune and Mustang Daily, Cal Poly's student newspaper.

Announced earlier were statements of support and approval of Proposition 3 by the San Luis Obispo Chamber of Commerce Board of Directors, the Board of Directors of Chapter 97 of the California State Employees Association, Plumbers and Steamfitters Union 403, and the San Luis Obispo Building Trades Council.

Proposition 3 would provide \$200 million in funds for construction of new instructional facilities for the California State Colleges and University of California. Some \$14.7 million is earmarked for development of four structures at Cal Poly. That amount is larger than that designated for any of the other state colleges.

The San Luis Obispo County groups which have endorsed the measure join a host of similar organizations throughout California that are advocating its approval. Those that announced their support in the past few days include the Commonwealth Club of California, Los Angeles County Chamber of Commerce, Orange County Chamber of Commerce, California Nurses Association, California State Board of Education, and the California Council of the American Association of University Women.

STATEMENT BY CHANCELLOR GLENN S. DUMKE  
AS RELEASED TO MEMBERS OF THE NEWS MEDIA COVERING  
THE COORDINATING COUNCIL FOR HIGHER EDUCATION  
MEETING IN SAN FRANCISCO OCT. 7-8

The study group's proposal that the State Colleges and the University should go under a single board is a familiar suggestion, already considered at length by the Master Plan team as early as 1959, and rejected for reasons which are even more valid today than they were then.

There are two major types of higher educational institutions in America--those with a teaching mission, like the California State Colleges, and those with a research mission, like the University of California. There is no sharp line between them; each must do some of the other's work. What is different is the sense of mission. Research has glamor, prestige, support, and recognized status; teaching is less well compensated, has little glamor connected with it, and does not bring the professional independence that a researcher enjoys. Yet one of the fundamental reasons for student turbulence today is that the people who are being trained to be college professors by our graduate schools are taught that research is the only noble goal, and that teaching and direct, personal contact with undergraduates is but a poor second. As a result, students complain, with some reason, that many professors ignore them for research tasks, teach as little as possible, and regard undergraduate teaching only as a means to an end.

Institutions with a teaching mission, like the California State Colleges, are trying to solve this problem by giving emphasis to the student and his interests. They recognize research as a necessary adjunct to good teaching, and support it strongly, but not to the extent of having it displace teaching as their major mission. We have had our turbulence and will have more, but because of our teaching emphasis, we have had far less than we had any right to expect considering our size and spread. California was the first and is still the only state in the nation which recognized, through its Master Plan, the significance of these teaching institutions, and gave them, through the Master Plan, the only opportunity that exists in the country for them to have professional parity with the research-type institution, while still maintaining their teaching mission.

State after state has adopted a single-board approach, because it presents a neat-appearing, simple, superficially logical approach to higher education's problems. Yet in all of these states the teaching institution is either busily trying to become a third-rate research university, or is relegated to the academic steerage in terms of fiscal support and recognition. I repeat, the California Master Plan is the only arrangement which gives the teaching institution a chance at professional equality.

The study group says a single board would eliminate competition between the segments. It hasn't in New York, Ohio, Illinois, Oregon or a dozen other places that could be mentioned. The record is very, very clear.

The study group proposes that the system be administered by the "older and most distinguished component"--that is, the research university. Little imagination is required to picture the role of the teaching institutions, and the State Colleges, under this arrangement however well intentioned it might be, in the face of limited dollars. The State Colleges face a continuing problem in awarding teaching the high recognition and priority it deserves. We must educate the bulk of California's managers, business and industrial leaders and public service officers. In order to do this we need the continuation of a structure which gives proper emphasis to the teaching mission.

The study group says that "criticisms of the present system are so vigorous and widespread that some of these must be heeded and certain changes effected." Where have most of these criticisms come? From faculty members and administrators in State Colleges who feel themselves treated as second-class citizens because of the state's refusal to recognize the importance of their teaching mission. From recent products of our graduate schools who look upon the teaching missions of teaching institutions as unworthy. From persons who have the naive view that the State of California can finance 29--or even 15--research universities. From persons who don't think the teaching mission is important. From persons who feel that healthy competition between the university and state colleges is a bad thing, and should be crushed by removing its adjudication from the Coordinating Council, and relegating it to a direction which is directed to the status quo in the graduate schools, and nationwide has shown little interest in changing the approach of higher education to enable it to face up to new problems. These are its sources. They should be carefully examined.

If California wants blithely to throw away its historic contribution to higher educational organization--and that at a time when new approaches are more badly needed than ever--the single board approach is the way to do it. The people of California want their colleges and universities to educate their children so that they can make their way in the world and keep the world going on an even keel. The preoccupation of a large part of the academic profession with the development of research careerism, and the consequent neglect of the student, who is the reason for being of any college or university, must be corrected, or the turbulence we will have in the 1970's will make our present troubles look like an ice-cream social. The nation currently has, in the form of its institutions with a teaching mission, a large part of the answer to that problem--and yet we are allowing this solution to waste away nationally without doing anything to preserve it. We have a chance in California--the only place in the nation where this chance exists--to help solve this problem on a massive scale. We will not do it by accepting the recommendations of the study group.

Finally, I must speak for our departed colleague, Arthur Coons, who studied and rejected the single board approach as Chairman of the Master Plan Survey team. At the end of every discussion, Arthur would say, in effect, "But in addition to all of these reasons, we would have in California, if a single board were established, a monolithic structure of such size and cost and complexity that it would not only be completely unmanageable, it would be the biggest thing in the state. It would completely overbalance the state government. It would create political problems of such difficulty that perhaps state government itself would have to be fundamentally reorganized."

The single board--or indeed any juggling with structure--is not the answer to our problems. The answer is making our present structure, which has within it the seeds of greatness, work better, through a stronger and more effective Coordinating Council.
