## LIBRARY ANNOUNCES NEW FEE, RESERVE LOAN SCHEDULES

A forward step in service will be taken by the Library when it adopts the state-college-wide fee schedule for overdue fees, college Librarian L. Harry Strauss announced this week. Under study for some time, the new fee system will permit more flexibility in the Library's circulation policies, according to Strauss.

"An immediate example is liberalized reserve loans," the librarian stated. "We are pleased to announce that effective Jan. 3, 1966, reserve books, except for a few items, may be charged out one hour before the Library closes and will be due one hour after it opens the following day. Overnight reserve loans will fulfill an urgent student need and we anticipate that circulation of other types of materials will soon be possible with adoption of the new fee system," Strauss continued.

The new fee schedule, effective Jan. 3, as prescribed by Trustees of the California State Colleges, is:

Type of Loan	Overdue Fee
2-week	\$.05 per day, exclusive of holidays
2-day and other short-term loans	.25 per day, exclusive of holidays
2-hour and overnight	.25 first hour and .05 each additional hour Library is open

Fees on overdue books will be payable at the Library's Circulation Desk upon return of the books. The new system will virtually eliminate the \$2.00 Administrative Appointment Fee, which will apply only in very unusual circumstances after Jan. 3, as far as Library operation is concerned.

Length of loans for general circulation will continue to follow current practices. The date-due stamp, which will be changed once each week on Tuesday, will provide for a loan period of at least two weeks.

An important result of the changeover will be that the grace period, now allowed after the due date of library loans, will no longer apply. The date or time due stamped in a book will indicate the period after which overdue fees apply. Students are responsible for avoiding these fees, Librarian Strauss emphasized, and they are advised to check periodically the date-due stamped in books. Students are also reminded that Library obligations must be cleared by the last day of each quarter.

## THANKSGIVING HOLIDAY CAUSES CHANGE IN "STAFF BULLETIN" COPY DEADLINE

The academic holidays scheduled in connection with Thanksgiving Day have caused deadline for receipt of copy intended for inclusion in next week's Staff Bulletin to be changed to 12:00 noon, tomorrow (Wednesday, Nov. 24).

## NEW HEALTH INSURANCE PLANS ANNOUNCED

Information on new health insurance plans available to state employees was included in an announcement made last week by campus Personnel Officer Milton Pluma. His statement, issued for benefit of members of the college faculty and staff, reads:

"Through joint action of the California State Employees Association and the State Employees Retirement System, certain changes in some of the health benefit plans were affected recently. By joint action of these groups, CSEA California Physicians Service plan and the SERS CPS Blue Cross Low and High Option Plans were merged. In their places two new plans--the Standard Service Plan and the Partial Service Plan--were established. Those staff members now enrolled in the CSEA CPS plan and the SERS Low Option Plan will be permitted to change over to the partial plan if they so desire. Those enrolled in the SERS CPS High Option Plan may not change plans at this time, but will automatically be placed into the standard plan. This group will realize improved benefits with a decrease in premium payment.

"Those enrolled in the CSEA CPS Plan and the SERS CPS Blue Cross Low Option Plan may elect to transfer to the newly-created partial plan anytime before December 10. The partial plan offers appreciable limited benefits and in some instances the benefit cost is divided on a 20-80 percent basis with the employee paying the full 20 percent. Those desiring to change must come in person to the Personnel Office (Room 117, Administration Building) and complete Health Benefit Form 12 to make the move effective. Those desiring not to change are not required to do anything. They will automatically be moved over into the standard plan, maintaining the same allowable benefits with a minimal increase in rates. An information sheet will be mailed to all staff members."

## FORMER DEAN OF AGRICULTURE SHEPARD WILL ADDRESS STAFF CLUB DEC. 2

Vard Shepard, Dean of Agriculture at the San Luis Obispo Campus until 1961 when he joined the staff of the U. S. Department of State's Agency for International Development for a four-year stint in Egypt, will be the guest speaker when the Staff Club holds its weekly luncheon meeting, Dec. 2. Starting time for the meeting, which will take place in the Staff Dining Room, will be 12:00 noon.

Cultural and social comments and observations on Egypt as he lived it will be included in Shepard's talk, which is being presented as part of the Staff Club's continuing program to relate the experiences of guest speakers, who have been abroad, to the needs of members of the college faculty and staff in their work with foreign students, according to J. Murray Smith, program chairman for the club.

While in Egypt, Shepard, who is now retired and resides in San Luis Obispo, worked with that nation's Ministry of Agriculture and traveled extensively.

## OCTOBER "C S C REVIEW" DISTRIBUTED AS "STAFF BULLETIN" ATTACHMENT

Copies of the October edition of The California State Colleges Review, edited and published by the office of Chancellor Glenn S. Dumke, arrived on campus last week and are being distributed to members of the faculty and staff as an attachment to this edition of Staff Bulletin.

DEADLINE FOR ARTICLES APPEARING IN NEXT WEEK'S STAFF BULLETIN IS WEDNESDAY, NOON.

## BANQUET CLIMAXES 58TH HOMECOMING

An estimated 300 members of the Cal Poly Alumni Association and the faculty and staff of the college were on hand for the banquet which provided a fitting climax to activities planned for the San Luis Obispo Campus' 58th Annual Alumni Homecoming, last Saturday evening (Nov. 20).

Honored during the evening were President Julian A. McPhee and alumnus of the year Verner A. Mize. The program, presented in form of well-planned slide presentations, included a year-by-year review of the alumni association's "alumnus of the year" award program and a "surprise" biographical sketch of President McPhee. Contrary to

expectations, the program was not a surprise, but a well-planned and well-executed affair.

The program was presented in a well-planned and well-executed manner, and the slide presentations were of high quality. The year-by-year review of the alumni association's "alumnus of the year" award program was particularly interesting, and the "surprise" biographical sketch of President McPhee was a most interesting and informative presentation.

### HEINZ WILL REVIEW "GAMES PEOPLE PLAY" NOV. 30

John Heinz, chairman of the Audio-Visual Department, will review The Games People Play, by Eric Berne, during the meeting of the campus Books at High Noon organization planned for next Tuesday (Nov. 30). Starting time for the luncheon meeting, which is scheduled for the Staff Dining Room, will be 12:00 noon.

The book, published in 1964 but not widely reviewed then, has been number two on the nonfiction best sellers list in the Bay Area during the last few weeks. It develops the theory that everyone relates to others in daily life in some kind of play or game relationship. Examples of a few categories and sample games are: Life Games, "See what you made me do!"; Marital Games, "If it weren't for you--"; Consulting Room Games, "I'm only trying to help you"; and Good Games, "They'll be glad they knew me."

Those who know Albee's Who's Afraid of Virginia Woolf? will remember its satanic use of such games as "Get the Guest" and "Get the Host."

### CAL POLY WOMEN'S CLUB NEWS

The Cal Poly Women's Club Walking Group will meet next Tuesday (Nov. 30) at the home of Mrs. Bruce Dickson, 280 Del Mar Court, San Luis Obispo, at 9:00. Members of the group are planning a town walk. . . . Next meeting of the Beginners Bridge Group of CPWC will be December 2, at 8:00 p.m., in the home of Mrs. C. H. Gregory, 213 Albert Drive, San Luis Obispo. . . . The club's Sewing Section will meet next at 2:00 p.m., Dec. 7, in the home of Mrs. Loren Nicholson, 103 La Entrada, San Luis Obispo.

### AUGMENTED HOURS FOR LIBRARY LISTED

Augmented hours for operation of the campus Library during the forthcoming final examination period have been announced. Effective Dec. 3, the hours are:

Friday, Dec. 3	--	7:45 a.m. to 11:00 p.m.
Saturday, Dec. 4	--	8:00 a.m. to 11:00 p.m.
Sunday, Dec. 5	--	2:00 p.m. to 11:00 p.m.
Monday, Dec. 6	--	7:45 a.m. to 11:00 p.m.
Tuesday, Dec. 7	--	7:45 a.m. to 11:00 p.m.
Wednesday, Dec. 8	--	7:45 a.m. to 10:00 p.m.
Thursday, Dec. 9	--	7:45 a.m. to 5:00 p.m.

### NOTES FROM THE KELLOGG AND VOORHIS CAMPUSES

Dr. Irving Geller, a member of the Kellogg Campus' Physical Sciences Department faculty, has been elected secretary of the San Geronio Section of the American Chemical Society for the 1966-67 term. Geographical boundaries for the section include portions of Los Angeles, San Bernardino, and Riverside Counties. Members of ACS, the national professional society for chemists, include representatives of colleges and universities as well as business and governmental organization. . . . Some 100 4-H Club leaders and junior leaders from Orange, San Bernardino, and Riverside Counties took part in demonstrations concerning livestock and were hosted by faculty of the Kellogg Campus' Animal Science Department, Nov. 9.

WHO . . . WHEN . . . WHAT . . . WHERE ? ? ?

George Hasslein, head of Architecture and Architectural Engineering, is one of 28 members of the faculty of the California State Colleges who will spend December on an overseas tour being sponsored by the United States Department of Health, Education, and Welfare. He will spend December 1 to January 1 in Israel visiting educational operations at various levels, plus libraries, research institutions, and government and private organizations involved in economic development, villages, and other rural areas of interest. The 28 persons making the December tour were selected from nearly 500 applicants.

Dr. Harold J. Watson, Physical Sciences, and Thomas C. Allen, a former colleague while Watson was working at Dan River Mills, Inc., have received U S Patent 3,215,719, which describes a method of imparting lasting fragrance to textiles, plastics, etc. The Watson-Allen method provides for a slow release of fragrant chemicals from non-volatile chemical combinations in which the fragrance is "stored."

Emmett A. Bloom, Animal Husbandry, and others who spent long hours in making the Institute on Government, which took place on campus Nov. 4, have been praised for their efforts by Samuel J. Leask, vice president of the California State Personnel Board. Bloom, regional director for the California State Employees Association, was chairman for the CSEA-sponsored institute.

Dr. William Buschman, director of the Computer Center, attended a two-day Symposium on Computers in Education, Nov. 12-13, at University of California at Irvine. The program emphasized computer-aided instruction, computerizing library procedures, and mobilization of stored information.

Dr. Robert F. Hoover, Biological Sciences, took part in a Symposium on the Biology of the Channel Islands, held in Santa Barbara, October 29-30. The two-day conference heard papers on the biological aspects of the island group, which is located off the coastline near Santa Barbara.

Dr. Curtis Gerald, Mathematics, was recently issued U S Patent 3,200,164. The invention provides a process for manufacture of ethylbenzene and similar alkylated aromatics, featuring improvements in yields through recycle of certain by-products to cause transalkylation for the enrichment of primary product production.

Rodney Keif, Air Conditioning and Refrigeration Engineering, conducted a field trip tour of various engineering operations in the San Jose-San Francisco Area recently. Among the concerns visited by the 20-member group was General Electric Company's Motor Plant in San Jose.

Dr. Allen Miller, Mathematics, attended meetings of the California Educational Data Processing Association (Nov. 4) and the California Advisory Council on Educational Research (Nov. 5-6), recently. Meetings of both organizations took place in Los Angeles.

#### STAFF CLUB ANNOUNCES DETAILS OF 1965 FISH FEAST

Cassera's restaurant in Morro Bay, Dec. 3, were announced last week as the place and date for the Staff Club's second annual Pre-Examination Fish Feast. The restaurant, located at Eighth and West Streets, in the bay community, was site of the club's feast last year.

Tickets for the event will be available from departmental representatives soon. Those planning to attend are urged to either purchase their tickets early or make reservations by indicating they plan to go.

### NOVEMBER 30 IS DEADLINE FOR SOCIAL SECURITY ELECTION

Recent federal and state legislation has made it possible for state employees who in 1961 chose not to take part in the federal Social Security program to have another opportunity to select coverage under Social Security if they so desire. Eligible members of the college faculty and staff who desire to transfer to Social Security have until Nov. 30 to file the transfer request form, which must be completed and mailed by the employee himself to the Board of Administration, State Employees Retirement System, Post Office Box 1953, Sacramento, 95809.

Personnel who are eligible to take part in the current election received a transfer form and official summary information brochure along with their October pay warrants which were issued Nov. 2. The brochure outlines all the various considerations an employee should give attention to while making their choice.

In particular SERS wishes to make a special point of the employee's responsibility in returning his form to the above address on or before Nov. 30.

### VARSITY GRAPPLERS WILL HOST U C BERKELEY IN SEASON OPENER

Coach Vaughan Hitchcock's varsity wrestling team opens its 1965-66 campaign tonight (Tuesday, Nov. 23) when it hosts University of California at Berkeley in a dual match scheduled to begin at 8:00 p.m. in Men's Gym. A preliminary match between the frosh teams representing Cal Poly and U C B will begin at 6:30. The Mustangs will be shooting for a successful start to what they hope will be a fourth consecutive winning season under Hitchcock. In three years as mat mentor at Cal Poly, the enthusiastic headman has seen his teams compile a record of 40 victories, 4 losses, and 1 tie.

Although the Mustang grid varsity has just completed its 1965 schedule, start of the 1965-66 basketball season is less than 10 days away. Coach Ed Jorgensen's varsity cagers host University of California at Santa Barbara in their opener, December 1st. Coach Dick Purcell's Colt club opens its season that same evening when it plays host of the UCSB frosh. Starting time for the frosh and varsity contests are 5:45 and 8:00 p.m., respectively.

### PLACEMENT CALENDAR -- INTERVIEWS ON CAMPUS THIS WEEK

THE POWERS REGULATOR COMPANY. D. P. MacCulloch, regional manager (Western eleven states) and R. C. Hansen, Los Angeles branch manager, will interview seniors in Air Conditioning and Refrigeration, other engineering majors interested in sales engineering, business administration and TA. (11/23)

LYBRAND, ROSS BROTHERS, AND MONTGOMERY, Los Angeles. C. L. Bond, personnel manager, will interview seniors in Business Administration (accounting) for opportunities in public accounting. (11/29)

U. S. NAVY RECRUITING STATION. Lt. F. J. Skinner, USN; Lt. C. L. Clinton (USN(W); and Lt/jg F. M. Fellrath, USN, the Officer Programs Information Team, will be available in the Snack Bar area of the Dining Hall to provide information on the opportunities available to college graduates as commissioned officers in the U. S. Naval Reserve. (11/29 - 12/1)

GLOBAL ASSOCIATES, Kwajalein, Marshall Islands. A. F. Truffer, personnel administrator, will interview seniors in AC & R, Architecture (struct), and EE interested in overseas assignments. (11/30)

**PLACEMENT CALENDAR (Continued)**

**SAMSONITE CORP., Denver, Colo.** Carl Steidtmann, vice president of manufacturing, and William D. Grubbs, chief engineer, will interview seniors in ME and IE and others interested in a management training program of one year's duration, preparing for positions in production supervision, quality control, materials management, industrial engineering, and design engineering. (11/30)

**CAMPUS CALENDAR - WEEK OF NOVEMBER 23 - NOVEMBER 30, 1965**

**Tuesday, November 23**

12:00 noon	Books at High Noon Luncheon Meeting	S D R
8:00 p.m.	Varsity Wrestling: University of California at Berkeley	Men's Gym

**Wednesday, November 24**

12:00 noon **ACADEMIC HOLIDAY BEGINS**

**Thursday, November 25**

**ACADEMIC HOLIDAY - THANKSGIVING**

**Friday, November 26**

**ACADEMIC HOLIDAY**

**Tuesday, November 30**

8:15 a.m.	Applied Sciences Division Committee Meeting	Admin. 301
9:00 a.m.	Cal Poly Women's Club - Walking Group	San Luis Obispo*
10:00 a.m.	Engineering Division Committee Meeting	GA 101
12:00 noon	Books at High Noon Luncheon Meeting	S D R

VOLUME 3, NO. 4

## TRUSTEES IN REVIEW

Alec L. Cory of La Mesa was named to the CSC Board of Trustees by Governor Brown last April. He succeeded John E. Carr, whose term had expired.

Although Trustee Cory had been born in New Mexico, he became a Californian in his early youth. After attending Oceanside schools, he went on to UC, Berkeley, where he received his bachelor's degree in 1936. He subsequently attended Boalt Hall, UC's School of Jurisprudence, graduating in 1939.

Following admission to practice, he moved to San Diego and was appointed Public Attorney.

Two years later, he was appointed Deputy City Prosecutor for the City of San Diego and, in the following year, he was named Reasoning Attorney for the Office of Price Administration.

He left civilian life for service as an ensign in the Navy in 1943. When he had completed a series of

indoctrination courses at the University of Arizona and a brief training period in base communications, he was transferred to New Guinea and assigned to the staff of the Seventh Fleet. He saw duty during the recapture of the Philippines. Later, he was Port Director Communications Officer at Subic Bay, near Manila, until the end of 1945.

Upon his postwar return to San Diego, Trustee Cory entered the private practice of law and is now a senior partner in the law firm of Procopio, Price and Cory. He was a director and officer of the San Diego County Bar Association from 1955 to 1958 and was re-elected to its Board in 1963. He has been a member of the Charter Review Committee of the City of San Diego and has also been a member of various committees of the State Bar.

In recent years, he has served on the Education Committee of the San Diego Chamber of Commerce. Very recently he completed a term as president of the UC Alumni Club of San Diego County.

For the CSC Board, Trustee Cory presently serves as vice-chairman of the Finance Committee and is a member of the Educational Policy Committee.

He is married to the former Barbara Stuart Felker and they have two daughters, Linda Cory House and Jane Cory.

Trustee Alec L. Cory

## DOMINGUEZ SITE CHOSEN

A new college site located at 190th Street and Avalon Boulevard in the Dominguez Hills area was selected for the new college in southwestern Los Angeles County by the Board of Trustees during its Oct. 13-14 meeting on the campus of Cal State Long Beach.

The Board's action followed a recommendation in favor of the Dominguez location by Chancellor Dumke. He based his recommendation on four factors: adequate available acreage to service the area's number of high school graduates, largest in the state; transportation access to the site and its proximity to the center of student population; the hope of early acquisition; and the consulting architect's assurance that the site could be developed into a beautiful campus.

The Dominguez Hills site will replace a previously chosen campus on the Palos Verdes Peninsula which the CSC system was unable to acquire because insufficient funds were made available for purchase.

As requested by the Trustees, the 346-acre site will go before the State Board of Public Works for approval.

Two other sites, in Torrance and San Pedro, were eliminated from consideration by the Board after development costs at Torrance were calculated to be too high and acreage at San Pedro was found to be too limited. Cost of purchasing the Dominguez property was estimated at approximately \$10 million with development costs of \$1 million. Since the CSC system has some \$4.8 million for the site acquisition, an additional appropriation from the Legislature will be required to buy the entire 346 acres.

Selection of the Dominguez site culminated four years of search in a highly developed urban area for a suitable location on which to build the College. In the elimination process, literally dozens of sites were reviewed and studied by the consulting architect.

## *A Gathering of Giants*

30-minute color film of the International Sculpture Symposium held at Cal State Long Beach this summer, will be shown on Los Angeles TV Channel 4, KNBC, 7 p.m., Nov. 6. The documentary will be televised on other NBC affiliated stations throughout the U.S. for the next six months.

## TRUSTEES OK '66-67 SUPPORT BUDGET

Approval was given to the CSC system's \$171.7 million support budget for 1966-67 by the Board of Trustees at its Cal State Long Beach meeting, Oct. 13-14.

The increased cost of \$30 million over the current budget reflects an expected increase in enrollment from 121,635 this year to 132,907 next year and anticipates a faculty of 8,030 to give a systemwide student-instructor ratio of 16.3 to 1.

Included in the budget is \$500,000 for master's degree programs which Chancellor Dumke termed "a first step toward adjustment of the inequities of support which for years have ignored a workload factor involved in programs at the graduate level that is greater than at the undergraduate level." Graduate instruction, he said, is more costly — in both dollars and time — than undergraduate, and requires appropriate consideration in calculating support costs. Too long, he added, have faculty members been called on to carry this extra burden in order to provide educational opportunity at the graduate level.

Total sums authorized for the individual Colleges were: San Jose, \$19,268,213; Chico, \$7,709,190; San Diego, \$15,427,057; San Francisco, \$14,982,225; Cal Poly, \$9,343,489; Fresno, \$9,826,054; Humboldt, \$5,021,096; Los Angeles, \$15,948,167; Sacramento, \$9,442,029; Long Beach, \$15,253,336; Fullerton, \$6,358,540; Hayward, \$6,900,546; San Fernando Valley, \$12,050,415; Stanislaus, \$1,539,668; Sonoma, \$2,475,569; Palos Verdes, \$1,196,308; and San Bernardino, \$1,683,543.

The approved budget now goes to the Dept. of Finance and the Legislature.

## NEW COLLEGE SITE STUDIES START

Site selection procedures authorized by the Trustees for new colleges in Kern, Ventura, Contra Costa and San Mateo-Santa Clara counties are now well under way.

The Board's Campus Planning, Buildings and Grounds Committee has appointed four architectural firms to conduct site feasibility studies: Victor Gruen Associates of Los Angeles for Kern County; Welton Becker & Associates of Los Angeles for Ventura; Hardison & Komatsu of Richmond for Contra Costa; and for San Mateo and Santa Clara counties, Mario Ciampi and Paul Reiter of San Francisco.

CSC officials have also held three of a series of county public meetings to discuss advance acquisition of proposed locations for the colleges.

## STUDENT UNIONS PROGRESSING

Eight of the 18 campuses in the system now have student-body centers on the way. San Jose and San Diego are rapidly moving toward construction starts for their college union buildings while Chico, Cal Poly SLO, Fresno and Cal State Long Beach have union buildings in various stages of planning. Cal State Los Angeles, San Fernando Valley and Sonoma are just entering preliminary stages of planning. In all cases, no state construction funds are involved.

## DEAN MARKS NAMED TO CO-ORD COUNCIL

Dr. Alvin Marks, 39, CSC dean of institutional relations and student affairs, has been named associate director of the Coordinating Council for Higher Education. The appointment, effective Nov. 1, was jointly announced by Chancellor Dumke and Dr. Willard Spalding, director of the council. Dr. Marks was dean of students at Sonoma SC until his appointment to the Chancellor's Office (*CSC Review*, July, 1964). Appointment of Thomas H. McGrath, who has been CSC associate dean of institutional relations and student affairs, to the post of acting dean of the division was announced following Dr. Marks' acceptance of the council position.

Dr. Alvin Marks

### Other Appointments and Advancements:

Cal Poly President Julian A. McPhee has announced the appointment of Dr. Robert C. Kramer as vice-president of the Kellogg Campus, Pomona. Dr. Kramer's background includes

Dr. Robert C. Kramer

10 years of teaching at Michigan State U., where he held the rank of professor and was director of MSU's Agriculture Marketing and Utilization Center; post-doctoral work at Harvard in economics and public administration; visiting research professor at Harvard Graduate School of Business Administration; and a semester of teaching in the Agricultural Economics Dept. of UC, Berkeley. During 1963-65, he was consultant to the Organization for Economic Cooperation and Development in Paris, France.

Dr. James D. Turner has been named vice-president for academic affairs and Dr. Robert L. Ewigleben dean for administrative affairs at Humboldt SC. Dr. Turner was formerly administrative assistant to the president of Southern Illinois U., director of that university's East St. Louis Center and director-designate of its Breckenridge Center. Dr. Ewigleben was formerly director of Purdue University's regional campus in Fort Wayne, Indiana.

Dr. Robert L. Docter, associate professor of education at San Fernando Valley SC, has been appointed by Governor Brown to the California State Board of Education's Advisory Compensatory Education Commission.

Dr. Docter, a member of the SFVSC faculty since 1960, earned his B.A. in English at UCLA, his master's in education and his doctorate in educational psychology at USC. For eight years he served as a classroom teacher and curriculum consultant to the Los Angeles City Schools.

## TWO NEW SEASIDE INSTRUCTION LABS WILL SERVE SIX CAMPUSES

### Moss Landing Facility

A \$210,000 marine sciences laboratory facility will soon be added to the educational resources of the California State Colleges as a result of a \$150,000 NSF grant and a cooperative plan on the part of five State College Foundations to provide the balance of the purchase price.

Located at Moss Landing in Monterey Bay, the seaside instructional and research facility has been in operation since mid-1958 as the Beaudette Foundation for Biological Research. It will now be redesignated the Monterey Bay Sciences Laboratories for the central California State Colleges, including Fresno, Hayward, Sacramento, San Francisco, and San Jose.

**RIGHT:** The 14,000 square-foot Moss Landing facility and its three-acre site will provide instructional and research facilities for five State Colleges. This recently renovated structure houses laboratories, offices and a library.

fields, while graduate and faculty research will encompass marine, estuarine, freshwater and terrestrial shoreline problems.

In June, the Board of Trustees authorized the colleges to find means to purchase the site. The five colleges involved will make a gift of the facility to the State College system at no cost to the state except for annual operation and maintenance.

The new facility, which will serve a combined five-college enrollment in excess of 50,000 students, will be immediately available for utilization after the purchase is completed.

**ABOVE:** Viewed across the Moss Landing harbor is the new CSC facility, which will serve students of San Jose, San Francisco SC, Fresno SC, Sacramento SC and Cal State at Hayward. It will be called the Monterey Bay Marine Sciences Laboratories.

A 14,000-square foot facility located on 3 acres of a narrow spit forming an arm of Elkhorn Slough, it has laboratory space for chemistry, wet and dry biology labs, sedimentation and micropaleontology. In addition, it contains a large library, a 50-seat lecture hall with projection facilities, a chart room, lunch room, offices for administrative and instructional staff, and warehouse and storage space.

To be open on a year-round basis, it will be used for instruction in marine biology, chemical and physical oceanography, geological oceanography and meteorology as related to the sea.

According to Dr. John Harville, biology professor at San Jose and acting director of the new facility, both undergraduate and graduate instruction is planned. Undergraduate instruction will be designed to prepare qualified students for careers in marine sciences and related

Plans for future development of the site envision a seawater system to keep a continuous flow of seawater to the laboratory, a new seawater laboratory building, and quarters for full-time graduate research students.

### Trinidad Marine Facility

Humboldt SC students will soon be able to make firsthand observations of marine life in a classroom atmosphere when the \$574,000 Trinidad Marine Laboratory is completed this summer.

Located at the vertex of Trinidad Bay, it will provide seawater aquaria where marine organisms can be studied within a simulated natural environment.

The facility contains 7200 square feet divided into one large room of seawater aquaria for the cultivation of ocean life forms, a 24-student laboratory for experimentation and instruction, and space for equipment and maintenance apparatus.

The aquaria, to be fed by an outside 50,000-gallon seawater storage tank, will consist of 17 separate storage tanks, with one 2500-gallon aquarium, the largest; six 500-gallon and ten 250-gallon tanks.

A little more than an acre in total size, the Laboratory will be called the Trinidad campus of Humboldt SC. It will be used by the departments of Oceanography, Fisheries, Zoology, Botany and Biology.

An undergraduate degree program in Oceanography, one of only two such programs in the nation, was commenced there this fall. It is headed by Dr. James A. Gast, who also directs the Trinidad Laboratory project.

## STATEWIDE NEWS BRIEFS

**Chancellor's Office**—Dr. Robert A. Kennelly, former chairman of the division of social science at Cal State Long Beach and more recently a consultant on the academic planning staff at the central office, has been named associate dean of academic planning for the CSC system. He replaces Dr. Robert B. Lamb, who has returned to the Dept. of Geography at San Fernando Valley SC. +++ Dr. David E. Clark, formerly professor of chemistry at Fresno SC, has been named to the academic planning staff to coordinate systemwide year-round operation studies.

**San Jose SC**—Dr. Stuart Baillie has been appointed College Librarian, succeeding Miss Joyce Backus who has retired after 32 years of service with the SJSC library. Dr. Baillie was previously director of the Graduate School of Librarianship at Denver U.

**San Diego SC**—Dr. Charles W. Lamden, dean of business administration is on leave of absence to fulfill a special assignment with the international auditing firm of Peat, Marwick, Mitchell & Co. in Paris, France. He will be in charge of the company's offices throughout Europe. Dr. Maurice L. Crawford, professor of business education, was appointed acting dean for the year during which Dr. Lamden will be absent. +++ Dr. Robert P. Hungate, associate professor of finance, will leave the College to become dean of a new school of business administration with 40 faculty and some 700 students at Wisconsin State U. +++ Dr. Donald B. Leiffer, professor of political science, has been appointed liaison officer between the

Western Interstate Commission for Higher Education and the Western Council on Mental Health Training and Research. +++ Dr. Vern E. Odmark, professor of accounting, has been elected to the national council of Beta Alpha Psi, high-ranking honorary fraternity in the accounting field.

**San Francisco SC**—The College has more than doubled its Cooperative Research Grants from the U.S. Office of Education during the past three years. In fiscal 1963, its total was \$56,373; in 1964, \$54,085; and for the current year eight grants have been received, totaling \$141,000. The grants are usually for special research and curriculum development in education and related behavioral sciences. +++ Four new NSF grants totaling \$43,700 were recently awarded to the departments of biology, sociology and chemistry for purchase of undergraduate instructional scientific equipment. +++ SFSC's Associated Students tutorial program with culturally disadvantaged youth, presently being carried out by more than 175 volunteers from the College, has been underwritten by a recent grant of \$5500 from The San Francisco Foundation, a local philanthropic society. +++ Ben Draper, assistant professor of radio-television-film, has received a grant from UC to research material for a biography of the father of playwright Eugene O'Neill. +++ Orrin F. DeLand, who has been serving as acting executive dean for business affairs, was appointed last month to the post of Executive Dean. He succeeds Harry E. Brakebill, now CSC vice-chancellor for business affairs.

**Fresno SC**—Dean Lloyd Dowler of the FSC School of Agriculture is currently making a (Continued on next page)

## SAN JOSE FRESHMAN CAMP SETS TREND

On the weekend before the first class day of fall semester, most of the Colleges in the CSC system conduct or sponsor a kind of briefing session which they call "freshman orientation." At many of the Colleges this is actually a camp-out, as, for example, Chico SC's *College Camp* at Butte Meadows, or Sonoma's session at Camp Cazadero, or Fresno's at the Y-camp "Sequoia." In all, the purpose is the same: to give new students a better understanding of college life. The atmosphere is completely casual, the continuous activities wholly informal. And it seems that faculty members also enjoy stopping in to say a few words about ways to become a successful student.

One of the best and one of the first freshman camps was established by Dr. G. A. McCallum, currently head of the biological science department at San Jose SC, back in 1938 when the activity was sponsored "for men only" by the YMCA. After World War II, the camp became co-educational and so successful that other CSC campuses sent representatives to find out from "Doc" McCallum how it was done. This past summer, SJSC's 3-day freshman camp, held at Asilomar on the Mon-

terey Peninsula and now administered by the Activities Office of the College, had almost 500 new freshmen attending.

Transportation to and from the San Jose campus is by bus; no private cars are permitted at the camp. A doctor or a registered nurse is on duty at all times; Protestant and Catholic services are held on Sunday; and three meals a day are served community style. Total cost, including room, board and transportation is \$25.

Photo at left shows Dr. McCallum and camper. Below, a group of this year's freshmen take in, along with some sand and sun, a few pointers on traditions, both academic and extra-curricular, of San Jose State College.

## The ACADEMIC SENATE REGISTER

The first meeting of the Academic Senate served to put in focus some challenges which face the faculties of the State Colleges. Senator Rodda, in the discussion following his analysis of the Master Plan, offered a familiar warning: the Legislature is sometimes reluctant to accede to State College requests because the goals and limits of those requests have not been sufficiently clarified. The Legislature sees the Colleges as "teaching-oriented" institutions as distinct from the "research-oriented" University. Lacking clear definitions from us the Legislature perforce supplies its own, often to our detriment.

In this context the University's proposals for expansion of its undergraduate campuses are ironic. For, quite apart from the struggle for power built into the Master Plan, the challenge posed by the University lies in the emphasis on teaching and ideas about teaching on which its new campuses rest. They are all, in one way or another, responses to the "student revolt" against impersonality and irrelevance, to the challenge of effective teaching in mass institutions, to the evils of the "multiversity." Under a system of planned decentralization they propose to build institutions on such novel premises as these: that eminent research specialists can at the same time carry on the educational dialogue with undergraduate students, that students teach one another where student dialogue is encouraged, that the traditional lines between disciplines must be broken down if students are to be confronted with challenges which are both significant and relevant. We need not be peevish about these experiments. They rest on exciting ideas and we should wish them well.

The State Colleges, in fact, will lose by the University's aggressiveness only if we react defensively or petulantly. As faculty, our own commitment to the State Colleges may well lead us to feel that the University is seriously handicapped in its approach to teaching by its tendency to specialize in specialization and by its "publish-or-perish" bias. More importantly, its central orientation to graduate programs and to specialized research and its undergraduate admissions policy put it on the periphery of the dream which underlies the State of California's revolutionary experiment in higher education. That dream is not the graduate education of specialists in response to the "manpower needs" of the economy or the undergraduate education of a Platonic elite. It is, rather, the effort to make democracy compatible with freedom by the cultivation through mass education of the qualities of mind and spirit which make every man a ruler as well as a subject. Mass education, by democratizing the aristocratic vices, would turn them into civic virtues.

This, in the nature of the case, is the mission of the State colleges. It is at the core of what it means to be "teaching-centered" institutions and what "teacher-scholars" require for their sustenance. In devising creative and experimental responses to that challenge we will at the same time clarify the

unique relation of the mission of the Colleges to the dream which underlies the State's experiment in higher education. And indirectly but effectively we will secure public and legislative support for what we require to turn dream into reality.

— JOHN C. LIVINGSTON, *Chairman*

## STATEWIDE NEWS BRIEFS

(Continued from Page 4)

coast-to-coast tour to study administrative and instructional programs in 30 colleges and universities offering programs in the field of agriculture. He will pay particular attention to courses leading to the master's degree. + + + Dr. Harold Walker, recently appointed executive vice-president of the College, was honored at a public reception last month. Dr. Walker was formerly academic vice-president at Marshall U. at Huntington, W. Va.

*Cal State Los Angeles* — Dr. Edmond C. Hallberg, former associate dean of students for activities and housing at San Francisco SC, has been appointed dean of students at CSLA. Dr. Hallberg, who will also hold rank as professor of education, succeeds Dr. Morton J. Renshaw, who resigned the position last winter to devote full time to teaching. Interim dean has been Dr. John LeValley, who now resumes his prior post as director of student health services at the College.

*Cal State Hayward* — Dr. Albert R. Lepore, former CSH dean of instruction, has been appointed Dean of the College; and Dr. Arnold P. Biella, previously professor of English at Fresno SC, and recent head of the CSH division of humanities, has been named to the position of dean of instruction. CSH's former associate dean of instruction, Dr. Forrest L. Mayer, was concurrently named to the post of dean of educational services. + + + Dr. Myron F. W. Pollack has been named associate dean of instruction-admissions and records. + + + At the August meeting of the board of trustees of the American College Testing Program, Dr. Lyle Edmison, dean of students, was named as one of three members of that board's newly-created finance and planning committee. Dr. Edmison also serves as Secretary of the board.

*San Fernando Valley SC* — Dr. Robert A. Braund, formerly assistant professor of education at UC, Davis, has been appointed administrative assistant to President Ralph Prator. + + + Dr. William Richards, assistant professor of music, was recently elected president of the Southern California School Piano Teachers Association.

*Stanislaus SC* — A former assistant to the Dean of the College at San Francisco SC has now joined the staff at SSC as assistant to President Alex Capurso. He is Leland W. Myers, who, before his affiliation with SFSC was for seven years an executive of the Southern Pacific Co.

*Sonoma SC* — The appointment of Edward S. Hochuli as administrative assistant to President Ambrose R. Nichols, Jr., has been announced. Mr. Hochuli recently retired as vice-president and manager of the Northern Operation of Security Title Insurance Company of San Francisco. He had served the company earlier as its director of personnel.

## JOHNSON TO JOB CORPS, GREENLEE NAMED

Appointed by President Lyndon B. Johnson to be director of the U.S. Job Corps for the national anti-poverty program, Cal State Los Angeles President Franklyn A. Johnson will leave next month for Washington. On Jan. 1 he will succeed Dr. Otis Singletary, chancellor of the University of North Carolina, who started the Job Corps.

Dr. Franklyn A. Johnson

Dr. Greenlee will continue in the post until a permanent president is selected.

For six years before he came to Cal State Los Angeles, Dr. Greenlee was an executive in the electronics industry and a resident of Cedar Rapids, Iowa. He is a graduate of the State University of Iowa where he earned his graduate degrees in history.

He served on the history faculty of the Iowa State University of Science and Technology at Ames, Iowa, from 1940 to 1959. During 10 years of that time he was also assistant to the director of the Industrial Science Research Institute there.

Dr. John A. Greenlee

## MAYNE NAMED AT SACRAMENTO

Sacramento SC started the fall semester under the leadership of Dr. F. Blair Mayne, former administrative vice-president and now acting president pending the selection of a permanent successor to Dr. Guy A. West, retired (CSC Review, March).

Dr. F. Blair Mayne

Upon his retirement, Sept. 17, Dr. West had served more than 18 years as the College's first president. Mayne had been vice-president since 1963.

Mayne received his bachelor degree from the University of Illinois in 1931, his master's degree from the University of Wyoming in 1933, and the doctorate from New York U. in 1942. He was professor of business education at the University of Wyoming before coming to SSC.

## "Opus" Honored

*Opus*, student magazine at Cal Poly, SLO, received an "All-American" honor rating, the highest national award given, by the Associated Collegiate Press. The citation accompanying the award said that the photography was "super professional" and the over-all editorial content showed "astonishing scope." *Opus* achieved the award after its first year of publication. Last year's editor was Steve Haisman.

## PRESIDENT KENDALL ANNOUNCES RETIREMENT

Dr. Glenn Kendall, president of Chico SC since 1950, told the faculty of the College at its first meeting of the fall semester that he plans to retire next summer.

Last February, he indicated, Chancellor Dumke was advised of his wish to retire when he reached the age of 65 — in September, 1966. By making his announcement a year in advance, he said, the Chico faculty, staff and members of the college advisory board together with representatives of the Chancellor's Office would have time to select most carefully a new president for the College.

During Dr. Kendall's 16-year tenure, the College has attained the greatest growth of its 87-year history. From a student body of 1,558 to nearly 6,000; from an operating budget of \$803,831 to approximately \$7 million; and from a teaching faculty of 78 to 305, the College has steadily increased in stature. Its academic master plan, approved this month by the CSC Board of Trustees, provides, for the future, 72 fields of undergraduate study and 17 in graduate studies.

Dr. Glenn Kendall

Dr. Kendall was for five years director of educational services for the U.S. Immigration and Naturalization Services, in Philadelphia, Pa.; for two years dean of the school of education at the University of Maine; and for three years before coming to Chico SC as president, was chairman of the division of education and psychology at San Francisco SC.

In 1925 he married Susan Mason, and they have three children, Glenn Jr., Marjorie and Fred, all of whom attended Chico SC and graduated, two in the social sciences, one in engineering.

The Student Personnel Association of California Colleges has named Dr. Arthur Tollefson president-elect. He is associate dean of students for counseling and testing at Cal State Fullerton. Tollefson succeeds Dr. Harry E. Jones, associate dean for admissions and records at Fresno State College.

THE CALIFORNIA STATE COLLEGES: Glenn S. Dumke, Chancellor; Raymond A. Rydell, Executive Vice-Chancellor; Harry E. Brakebill, Vice-Chancellor, Business Affairs; C. Mansel Keene, Assistant Chancellor, Faculty and Staff Affairs. *The California State Colleges Review* is issued by the Public Affairs Office, 2930 West Imperial Highway, Inglewood, California 90303.
