California State Polytechnic College

Volume 16, Number 33

San Luis Obispo Campus

May 24, 1966

PRESIDENT WILL BE COMMENCEMENT SPEAKER

President Julian A. McPhee, who is to retire next month after 33 years of leadership of the college, has been named principal speaker for 60th commencement exercises for the San Luis Obispo Campus. Selected by members of the Senior Class, the president will deliver his address during the commencement program, scheduled to take place the afternoon of June 18, starting at 1:30 p.m., in Mustang Stadium on campus.

An estimated audience of 4,000, including relatives and friends of the graduates, members of the faculty and student body, and guests of the college, are expected to witness the traditional event.

Including recipients of the Master of Arts, Bachelor of Science, Bachelor of Education, Bachelor of Vocational Education, and Bachelor of Architecture Degrees, and the two-year Technical Certificate, this year's group of graduates will be the largest in Cal Poly history. Present reports from the campus Records Office indicate that it will number over 1,200 students. About 1,125 were included in last year's graduating groups.

PRE-SCHEDULING ADVISORY MEETINGS FOR SUMMER QUARTER SLATED MAY 26

College Hour, Thursday (May 26), has been established as pre-scheduling advisory meeting time for students planning to attend classes during the Summer Quarter, 1966. All students who expect to register for the Summer Quarter are advised to consult their advisors during that hour and all faculty members serving in student advisory capacities are expected to be in their offices at that time on the same basis as for pre-scheduling advisory meetings for quarters of the regular academic year.

FACULTY, STAFF INVITED TO COFFEE HOUR FOR DORIS DILLWORTH

Doris Dillworth, who will retire from the Business Management Division's staff after 27 years of continuous service, June 30, will be honored during a coffee hour, scheduled for 2:00 to 4:00 p.m., tomorrow (Wednesday, May 25), in the Staff Dining Room. All members of the campus faculty and staff are invited to the affair, which is being made possible by the Business Management Division.

"1901 - 1966 - Foundation for the Future"

Cal Poly's 65th Anniversary - January-June, 1966

PRESIDENT CLARIFIES CAMPUS SEPARATION BILL

Julian A. McPhee, retiring president of Cal Poly, indicated this week that he was pleased that Governor Edmund G. Brown had signed Senate Bill 45 authorizing the Trustees of the California State Colleges to separate the college's campuses into two state colleges.

In his statement, President McPhee, who will retire July 1 after 33 years as president of the college, recalled that the Voorhis and Kellogg Campuses in Southern California both were donated to the state for the use of Cal Poly to further develop and expand the occupational educational program of the college.

"We fully realized when we were developing the deed for the Kellogg Campus in 1949 that the campuses would ultimately probably have to be separated," the president said, "and specific provisions were written into the deed to make this possible. "At the same time, the deed specifies that the Kellogg Campus would be an integral part of Cal Poly until separation was authorized by law, and further, that even if separated, the same educational philosophy and program would be continued until at least 1975."

President McPhee pointed out that over the last several years, in working with the State Department of Education and Department of Finance, and later with the Office of the Chancellor of the California State Colleges, the college has been aiming, through its organizational structure, for an eventual separation. "The goal which we set in our own minds was that when the Kellogg Campus had an enrollment of between 4,500 and 5,000, it would be an appropriate time to separate," the president continued.

Autonomy Delegated

He emphasized that during the last several years more and more autonomy for the operations had been delegated to the individual campuses. "This is particularly true," he said, "during this past year when the maximum autonomy that could be delegated was delegated.

"As a result," President McPhee pointed out, "I recommended to the chancellor last summer that the campuses be separated. Subsequently Senator (Vernon L.) Sturgeon (R--Paso Robles), knowing of the history of the campuses and the requirements of the deeds, arranged for a meeting with Governor Brown and myself where it was agreed that the matter would be placed on special call of the State Legislature.

"In addition, the senator worked with the legislative counsel to make sure that the bill was drafted in accordance with the deed provisions. It is significant, I think, to note that the bill does not separate the campuses, but instead authorizes the trustees to do so, and that the bill expresses the legislative intent that the Kellogg and Voorhis Campus complex will continue the same educational philosophy as expressed in Education Code 24751 and in accordance with the specifications of the Kellogg deed.

"There have been a number of questions and some confusion over the effective date of the separation," the president added. "I would only emphasize that the bill does not separate the campuses but authorizes the trustees to do so and that it will take positive action by the trustees to accomplish the separation. Nothing has been indicated by the trustees as to when this will be, but I know it cannot happen before late in August."

ARRANGEMENTS FOR CAMPUS MEETING OF C S C TRUSTEES, JUNE 1-2, ANNOUNCED

Completion of planning for the meeting of the Trustees of the California State Colleges on campus, June 1 and 2, last week prompted announcement of closure of several campus service areas during that period.

According to Coordinator of Special Services George C. Beatie, the second floor curriculum and Faculty Reading Room areas of the campus Library, areas "A" and "B" of the Staff Dining Room, and the Mathematics-Home Economics Building Parking Lot will all be closed throughout both days of the trustees meeting here. Area "C" of the Staff Dining Room will be open for coffee service only between 8:00 and 10:00 a.m. and 2:00 and 4:00 p.m., both days.

Meetings of various committees of the board are expected to take up all of the first day and a portion of the second day of the meeting, with the general meeting scheduled to conclude late the second afternoon.

Last meeting of the trustees at the San Luis Obispo Campus was in January, 1962.

ANNUAL C S E A BARBEQUE SLATED MAY 26

Thursday (May 26) is the date selected for the annual family barbeque for members of Chapter 97 of the California State Employees Association. Site of the traditional event will be Cuesta Park, San Luis Obispo.

The steak barbeque dinner will be served beginning at 5:30 p.m., according to information issued by the CSEA chapter last week. Also planned during the evening are games and competitive events such as sack races, etc., for children, under the supervision of Robert Mott. The games will begin at 4:30 p.m.

Tickets for the barbeque, priced at \$1.50 per person for adult members of CSEA families and \$.75 for children under 12 years of age, went on sale last week. Members of the campus faculty and staff who are handling sale of the tickets are Dick Tartaglia, Buildings and Grounds; Peg Sullivan, Cafeteria; T. M. Rickansrud, Physical Sciences; Robert Mott, Physical Education; Bert Fellows, Printing Engineering and Management; Bill Troutner, Crops; Marcus Gold, Audio-Visual; James Langford, Education; Rodney Keif, Air Conditioning and Refrigeration; Bob Adams, Buildings and Grounds; Warren Anderson, Electrical Engineering; Fred Bowden, Electrical Engineering; Milo Whitson, Mathematics; Lionel Middlecamp, Campus Farm; Emmett Bloom, Animal Husbandry; LaVerne Bucy, Animal Husbandry; Owen Servatius, Business Administration; Juanita Fredericks, El Corral; Robert Andreini, English and Speech; Lucy Schmidt, Records; Betty Rodriguez, Information; Margaret Betts, General Office II; Barbara Ciesielski, General Office III; and Vi Hughes, Health Center.

Tickets for those not belonging to CSEA are priced at \$2.50, each, for adults.

STAFF CLUB SLATES ANNUAL ADDRESS BY PRESIDENT MC PHEE

Cal Poly President Julian A. McPhee will deliver his annual address to the Staff Club when members of that organization gather for their weekly Staff Club Luncheon meeting, Thursday (May 26), starting at noon, in the Staff Dining Room.

The president's address before the club, by now a campus tradition, is expected to dwell upon his reminiscences on his more than three decades at the Cal Poly helm.

REVIEW OF "PROUD TOWER" SCHEDULED FOR "BOOKS AT HIGH NOON"

Barbara Tuchman's The Proud Tower will be reviewed by Ian Morrison, a member of the Social Sciences Department's faculty, during the Books at High Noon luncheon meeting being planned for next Tuesday (May 31), beginning at noon, in the Staff Dining Room.

Subtitle of the book, A Portrait of the World Before the War, 1890-1914, indicates the relationship between the title and its source, Edgar Allen Poe's famed lines -- "While from a proud tower in the town / Death looks gigantically down." According to J. H. Plumb, writing in The Saturday Review, says, "This is amateur history at its zenith . . . Mrs. Tuchman did not set out to write a history, but to portray an age, and this she has done superlatively."

On today's (May 24) Books at High Noon Luncheon program, Robert Huot of the English and Speech Department's faculty will review Ethel Strainchamps' Don't Never Say Cain't. Both the starting time and the place for today's meeting are same as those announced for next week.

SUMMARY OF ACADEMIC SENATE ACTIONS BEING DISTRIBUTED

Copies of the statewide Academic Senate of the California State College's summary of actions taken during its meeting of April 21-22, combined with its summary of the actions taken by the Trustees of the CSC's during their meeting of April 13-14, arrived on campus last week and are being distributed as an attachment to this issue of Staff Bulletin.

AGRICULTURAL EDUCATION OFFICIAL EXPRESSES THANKS FOR COOPERATION

Emile LaSalle, regional supervisor for the Department of Education's Bureau of Agricultural Education, last week expressed the thanks of the California Association of Future Farmers of America and the state's high school vocational agriculture teachers for cooperation and hospitality shown by members of the college faculty and staff during the FFA's annual state judging contests, held on campus recently. LaSalle said:

"Thanks again to the Cal Poly staff for your excellent cooperation and friendly hospitality during the recent State Finals Future Farmers of America Judging Contest. Your efforts are sincerely appreciated by the Vo-Ag teachers and the Future Farmers. It (the contest) was the biggest and best ever."

STUDENT HOUSING AVAILABLE DURING SUMMER QUARTER

Current members of the campus student body who desire on-campus housing during the Summer Quarter have been invited to apply at the campus Housing Office, according to information made available last week. Cost for the quarter will remain same as for the current quarter, \$263.00.

Muir Hall will be used for Summer Quarter housing according to the Housing Office announcement. Men will be housed on the upper two floors and women will use the first floor. Visiting hours (times when men and women both can use the public areas - lounge, lobby, and recreation rooms) will extend from 6:30 a.m. to closing hours at night, each day. Women students will be granted "specials" in accordance with Campus Cues.

Meals for students who purchase meal tickets will be served in the Staff Dining Room.

25 STUDENTS INITIATED INTO PHI KAPPA PHI

Twenty-five students of the San Luis Obispo Campus have been initiated as members of the campus chapter of Phi Kappa Phi national honor society. Initiation of the new members took place during a meeting of the chapter, held in the Staff Dining Room, May 13. Guest speaker for the initiation meeting was Dr. John K. Hirt, Engineering Division administrator.

Membership in the Cal Poly chapter of Phi Kappa Phi, which formerly was known as the Cal Poly Honor Society, is based on academic achievement. Any student of sound character, who has been enrolled at Cal Poly for one year and is a junior or senior, may qualify. To be considered as a junior, the student must rank in the top 5 percent of his class. For consideration as a senior he must rank in the top 12 percent of his class.

New members of PKP initiated at the meeting included Sten O. Akerlund, mechanical engineering major; Sherril Alexander, social sciences; Melanie Bahler, home economics; David F. Becker, electronic engineering; Mrs. Viola Clifton Call, education; Robert L. Cloke, electronic engineering and physics; James E. Coles, industrial engineering; Robert L. Crawford, mathematics; Julie E. Erickson, home economics; Ronald P. Fawcett, mechanical engineering; Meredith J. Gatzman, mathematics and education; Jon Paul Howell business administration; Wallis V. McPherson, electronic engineering; Norman B. Murray, mathematics; Nancy E. Olson, home economics; Joyce S. Pederson, social sciences; Rodney J. Peterson, mechanical engineering; Irene L. Phelps, English; Philip R. Pierre, farm management; Virginia L. Prather, home economics; Mrs. Mildred E. Rapp, social sciences; Joyce C. Russell, mathematics; Michael L. Springer, electrical engineering; Daniel E. Vogt, dairy husbandry; and Sandra K. White, biological sciences.

S E R S REPRESENTATIVE WILL VISIT CAMPUS

State Employees Retirement System Representative P. H. McFarland will visit the San Luis Obispo Campus, July 5-8, according to information received in the campus Personnel Office last week. He will be available for individual interviews during that time by advance appointment.

Employees planning retirement from employment with the State of California prior to December 31, 1968, may request individual estimate interviews during McFarland's stay on campus. So he may have the account retirement information on those retiring members of the faculty and staff who may wish to talk with him, those wishing to arrange appointments with McFarland are asked to contact the Personnel Office, Room 117, Administration Building, (546)2236, prior to June 1.

APRIL ISSUE OF "C S C REVIEW" DISTRIBUTED ON CAMPUS

Copies of the April, 1966, issue of the California State Colleges Review arrived on campus last week and have been distributed. Since the number of copies received is not adequate to distribute CSC Review as an attachment to Staff Bulletin, as the practice had previously been, copies were sent to individual campus departments for further distribution to members of the faculty and staff. Additional copies are also available in the Faculty Reading Room of the Library and the Public Relations Office, Room 216, Administration Building, for those who have not received them through the distribution channel.

ADAMSON NAMED TO HEAD C S P E CHAPTER

Robert Adamson, a member of the Mechanical Engineering Department's faculty, has been installed as president of the Central Coast Chapter of the California Society of Professional Engineers. Adamson, installed during a meeting held last week at the Santa Maria Inn, Santa Maria, is joined on the chapter's executive committee by Herbert Miles of the Electronic Engineering Department faculty, secretary; Robert Garing, Garing, Taylor, and Associates, Arroyo Grande, vice president; and Col. Robert Baray, Vandenberg Air Force Base, treasurer.

Three past presidents of the Central Coast Chapter, who are also members of the Cal Poly faculty, were also honored during the meeting. They were Leon Osteyee, head of the Mechanical Engineering Department; Russell Korsmeyer of the Electrical Engineering Department; and Warren Anderson, also a member of the Electrical Engineering Department faculty.

Following his installation, Adamson spoke on the local chapter's aims. He pointed specifically to its efforts to enhance the image of the engineer as a public benefactor.

STAFF CLUB SCHEDULES SPRING GOLF TOURNEY FOR MEMORIAL DAY

All members of the campus faculty and staff are being invited to take part in the Staff Club's Spring Golf Tournament, which will take place next Monday, Memorial Day (May 30), beginning at 11:00 a.m., on the Black Lake Golf Course. Those planning to take part are being asked to make up their foursomes in advance and sign up for starting times at the Information Desk, located in the lobby of the Administration Building.

The Black Lake course, located on the Nipomo Mesa south of Oceano, may be reached by going south on US Highway 101 to Pismo Beach and then taking Highway 1 and continuing through Oceano past the Union Oil of California refinery to Willow Road, which leads directly to the golf course.

CAMPUS JUDGING TEAMS SWEEP NATIONAL COMPETITION

Dairy cattle judging teams representing Cal Poly's San Luis Obispo Campus won first, second, and third places in a national dairy cattle judging contest which was judged in Fort Atkinson, Wis., recently. The three teams, which competed by mail and consisted of ten members each, ranked at the top of 183 teams from 35 of the United States and Canada, which took part in the contest.

Coached by Herman E. Rickard and Russell Nelson, both members of the Dairy Husbandry and Manufacturing Department faculty, members of the national championship team included Kenneth Beswick, Daniel Baginski, George Cardoza, and George Carlson. Also George Magnochi, Ronald Neadville, Maureen Shea, Gerry Wagner, Raymond Woodside, and Bert Zwaagstra. All except Carlson, who is studying agricultural business management, are dairy husbandry majors.

Now in its 36th consecutive year, the contest involves judging five classes of dairy cattle. Nationally known judges made the official placings and the contestants are graded accordingly. Cal Poly's blue ribbon team had an average score of 473 out of a possible 500 points. Altogether, 103,446 contestants competed in the contest, which is sponsored by Hoard's Dairyman, a national dairy farm magazine published at Fort Atkinson.

WHO . . . WHAT . . . WHEN . . . WHERE ? ? ?

George Hasslein, head of Architecture and Architectural Engineering, was one of two representatives of the California State Colleges who met with Mexican officials to discuss low cost housing last week in Mexicali. Arranged by the American consul in that city, Arthur Feldman, the meeting was designed to investigate the possibilities of better low-cost, self-help housing which would use materials readily available in Mexico.

Charles Hanks, Mathematics and golf coach, has been promoted to the rank of captain in the US Coast Guard Reserve. Formerly commanding officer of a USCG unit stationed at Camp San Luis Obispo, Hanks has been CO of a unit stationed in Alameda since earlier this year.

Keith Nielsen, English and Speech, addressed a meeting of the Rotary Club of Paso Robles on the topic of "Our National Parks and Monuments" earlier this month. He also took part in meetings of the Pacific Southwest Collegiate Forensic Association, held last weekend in Wilmington.

R. C. Hatfield, Biological Sciences, attended the 66th annual meeting of the American Society for Microbiology, which took place May 4-5, in Los Angeles. More than 4,600 scientists were registered for the meeting.

J. Barron Wiley, Education, is author of a new book on business communications, being published by the Business Press of Elmhurst, Ill. The book, which is titled Communications for Modern Management, became available for the first time early this month and is reportedly the first which approaches its subject from the technical standpoint.

Vance D. Lewis, Physical Sciences, participated in annual meetings of the American Physical Society, held late in April in Washington, D.C. Nobel Prize winners in physics were featured during one of the conclave's sessions and Harold Brown, secretary of the Air Force, addressed the annual banquet.

Robert V. McKnight, head of Technical Journalism, served as judge of the state-wide scholarship essay competition, conducted recently by the California Newspaper Publisher's Association. The competition is used annually to select the winner of a \$250 John B. Long Memorial Scholarship to be used to study journalism at a California college or university.

Donald W. Hensel, Social Sciences, attended the 59th annual meeting of the Organization of American Historians, held April 27 to May 1, in Cincinnati. Highlight of the sessions was the address on "The Uses of History by Recent Presidents" by OAH President Dr. George E. Mowry.

PLACEMENT CALENDAR--INTERVIEWS ON CAMPUS

AVIATION INFORMATION OFFICE, U.S. Naval Air Station, Los Alamitos. An Aviation Information Team will be in the Snack Bar to talk with all students and faculty interested in aviation officer candidate training. (5/24 - 5/25)

DEADLINE FOR ARTICLES APPEARING IN NEXT WEEK'S STAFF BULLETIN IS FRIDAY NOON.

ANNUAL SPRING FOOTBALL GAME WILL CLOSE CAMPUS SPORTS EVENTS FOR 1966

Scheduled for Saturday (May 28) evening at 8:00 p.m., in Mustang Stadium on campus, the 16th annual Green and Gold Spring Football Game will close out campus sports action for 1966. Initiated during the Spring of 1951 as an intrasquad game, the yearly affair was changed to a varsity-alumni tilt in 1960. This year will be the first time since that date that the Green and Gold game will feature an intrasquad pairup.

The game will allow Head Coach Sheldon Harden and his staff to view each player individually and will afford them an opportunity to "get a look" at everyone. With more than 60 players set to participate, the Mustang board of strategy should have ample opportunity to evaluate the material that will represent the San Luis Obispo Campus in the 1966 California Collegiate Athletic Association race.

Tickets for the game will be on sale at the Associated Students, Inc., Office on campus through Friday (May 27) afternoon, and at stadium ticket offices prior to game time Saturday evening. Prices are \$1.00 for students and \$1.50 for non-students.

The varsity track and field team wrapped up its 1966 regular season with a fourth-place effort in the CCAA finals last weekend. Still on tap for selected members of Coach Walt Williamson's cinder club are a series of invitational and NCAA championship meets, including the California Relays, scheduled for Saturday, in Modesto.

NOTES FROM THE KELLOGG AND VOORHIS CAMPUSES

Resolutions of commendation were presented to President Julian A. McPhee by the City Councils of Pomona and San Dimas and the Los Angeles County Board of Supervisors during the traditional President's Luncheon, held May 14, as part of Poly Vue festivities at the Kellogg Campus. In person to make the presentations on behalf of respective groups were Pomona Councilman Milton Ball, San Dimas Mayor Stanley Plummer, and Supervisor Warren Dorn. The resolutions praised President McPhee for not only his 33 years of Cal Poly leadership, but his contribution to youth -- spanning four decades, the state, and the nation. . . .

A crowd estimated as "the largest ever" was somewhat footsore, but had a greater appreciation of Cal Poly after annual Poly Vue activities at the Kellogg Campus, May 13-14. Reports from such events as the carnival, rodeo, barbeque, soapbox derby, and Coronation Ball all indicated increased attendance over last year. . . .

Two biological sciences majors at the Kellogg Campus, d'Aulan Geyer and Judy Greenwood, with Karen Martin, a physical sciences major, as alternate, will represent the Kellogg Campus as Los Angeles County Fair princesses, following their selection earlier this month by a panel of judges. They will join two princesses each from Citrus, Mount San Antonio and LaVerne Colleges in helping publicize next fall's fair. The queen will be named just prior to the fair's opening, September 16. . . . Fifteen groups took part in the annual Spring Sing, which took place at the Kellogg Campus, May 12. The traditional event served as a kick-off for 1966 Poly Vue activities. . . .

Six young businessmen from Madagascar, Kenya, and Zambia will carry a favorable impression of such areas as the Kellogg Campus and its applied programs back to Africa with them after a recent tour of the Kellogg Campus. They are in the midst of a two-month-long visit of the Western US under sponsorship of Rotary International. . . .

CHANCELLOR DUMKE RESPONDS TO REQUEST FOR COLLECTIVE BARGAINING ELECTION

Following is a recent interchange of correspondence between Chancellor of the California State Colleges Glenn S. Dumke and John G. Sperling, president of the American Federation of Teachers, Local 1362, San Jose State College. Sperling's letter, dated April 26, requests an election for collective bargaining and Chancellor Dumke's, dated May 2, responds to the request:

"Dear Dr. Dumke: We wish to inform you that San Jose State Local 1362 of the American Federation of Teachers is circulating a petition calling for a collective bargaining election among academic employees at San Jose State College. The number of signatures on that petition already constitutes a substantial show of interest in a collective bargaining election. As the organization most concerned in this matter, Local 1362 invites you to join in conducting a collective bargaining election among the academic employees at San Jose State College.

We are aware that the next meeting of the Board of Trustees is scheduled for June 1st. However, this matter is of such crucial importance that we must request a reply before that date. We, therefore, ask that you respond to this request within fourteen (14) days of the receipt of this letter." /s/ John G. Sperling

"Dear Mr. Sperling: I have your letter of April 26, 1966, inviting me to join in conducting a collective bargaining election at San Jose State College. I assume that this election would be for the purpose of selecting an exclusive bargaining agent for negotiating a master contract regulating all of the academic personnel at the College.

I must decline your invitation. I do so, first, because we are advised by legal counsel that the arrangement you propose is incompatible with State law and the regulations of the Board of Trustees.

It presents, in addition, a fundamental problem related to the position of faculty in the California State Colleges. This relationship is not one of traditional labor-management relations, as a collective bargaining contract would presuppose, but one in which faculty are partners in the policy formulation and management process itself. To that end, we have been largely occupied over the past four years in encouraging strong local senates and councils, and in establishing, encouraging and working with a statewide Senate.

I would hardly suggest that we have reached the millenium in achieving this objective; a great deal remains to be done. But a very great deal has been accomplished. I do not believe these gains in the role of faculty through senates and councils should be cancelled out and replaced with a system of labor-management negotiations. Nor do I believe that faculty benefits should be beyond the proper purview of their senates and councils.

Finally, I must add that even if no legal obstacles existed to your proposal, and its impact to the detriment of academic government were not present, I should still feel obliged to decline your invitation, or to recommend the proposal to the Board of Trustees, until its full effect and delineation had been discussed by all of the interested parties, including the local academic senates and councils, the statewide Academic Senate, and the State College Presidents, and their counsel and advice received." /s/ Glenn S. Dumke

CAL POLY WOMEN'S CLUB NEWS

Annual Luncheon -- Friday (May 27) is deadline for purchase of tickets for the Annual Luncheon of the Cal Poly Women's Club, according to an announcement issued by the club last week. Tickets for the event, being planned for the afternoon of June 4, beginning at 1:00 p.m., in the Garden Room of the Madonna Inn, San Luis Obispo, are priced at \$2.25 per person and may be purchased from chairmen of the club's various sections or from Mrs. Leo Rogers.

Newcomers Section -- Foods demonstrations on diet menus and outdoor cookery will be presented by students of the Home Economics Department when members of the women's club's Newcomers Section gather for their final meeting of the year tomorrow (Wednesday, May 25) evening. Being planned for 8:00 p.m., the meeting will take place in Room 123 of the Mathematics and Home Economics Building, on campus. Guests are cordially invited to attend.

Sewing Section -- The CPWC's Sewing Section will close its 1965-66 season with a pot-luck luncheon, scheduled for noon, June 7, in the home of Mrs. Francis Whiting, 1789 San Luis Drive, San Luis Obispo. Those desiring further information are invited to call Mrs. Loren Nicholson (543-7677).

FACULTY, STAFF INVITED TO FOREIGN STUDENT GRADUATION BANQUET

Members of the college faculty and staff have been invited to attend the annual Graduating Foreign Student Banquet, being planned for 7:00 p.m., tomorrow (Wednesday, May 25) evening, at the Elk's Club, San Luis Obispo. Issued by Kendall Haskins, chairman of the event for the sponsoring campus chapter of People to People, and Glenn Rich, faculty advisor to the student group, last week, the invitation read:

"The Cal Poly Chapter of People to People wishes to invite all staff members to attend the fourth annual Graduating Foreign Student Banquet, which is to be held May 25, at 7:00 p.m., at the Elk's Club.

"Each person attending the banquet will sponsor a foreign student/s as a gesture of friendship among the peoples of the world.

"Tickets are available at the Associated Students, Inc., Office at \$3.50 each."

/s/ Kendall Haskins, Chairman
Banquet Committee

/s/ Glenn Rich
Advisor

ACADEMIC SENATE OF THE CALIFORNIA STATE COLLEGES

SUMMARY OF MEETING OF APRIL 21-22

CHANCELLOR'S REPORT This was essentially the report presented to the Trustees and reported in the summary of their April meeting. Probably the most significant point was that with the enormous increase in numbers, originality and innovation must occur. The Chancellor is forming a committee which will have faculty, administrators, students, and alumni to see what pre-planning can be done.

CHAIRMAN'S REPORT Mr. Livingston reported on an informal meeting on salary and fringe benefits with the staff of the Coordinating Council, representatives from UC and from the State Colleges. The most striking feature of these meetings was the discrepancy in philosophy and approach in the evaluation of salaries between the colleges and the university. The Chairman reported on complaints on procedure in the appointment of administrators at both campuses of Cal Poly, and on procedures for selecting a President on Cal Poly, Kellogg-Voorhis campus. The Executive Committee will maintain contact with these situations. The Coordinating Council at its last meeting went on record firmly supporting the colleges in their drive for fiscal autonomy. It also, at the initiative of the State Colleges, modified a proposal to give minor colleges the power to certify the completion of G.E. requirements for transfer students, substituting a motion which requests the segments to work out agreements with the junior colleges. Also announced was the proposal for the final meeting in May to extend to three days. In view of the necessity to make reservations, the campuses are requested to expedite the election of senators and notification to the chairman.

TEACHER EDUCATION POLICY The document was modified to limit majors to at or about 45 units and professional education courses to at or about 27 units, in teacher education programs.

CONSTITUTION AND BY-LAWS Amendments were adopted to the By-Laws making Student Affairs and Legislative Liaison Committees standing committees. Minor amendments to the Constitution were adopted and will now go to the faculty for ratification. First reading was given to a By-Law amendment which would permit the Executive Committee to speak officially for the Senate when the Senate cannot be convened.

DELEGATION OF AUTHORITY A resolution was adopted requesting the Trustees to establish a "rainbow" committee to make recommendations on delegation of authority to the Academic Senate.

REMEDIAL PROGRAMS The Chancellor and Trustees once again will be requested to terminate all sub-collegiate level courses of this nature by September, 1967.

COLLECTIVE BARGAINING It was voted to have the Executive Committee appoint an ad hoc committee to study this matter as it applies to academic personnel.

INTER-AMERICA INSTITUTE The original proposal was modified to provide for a preponderance of college and faculty personnel on the Board and for the full application of normal academic, fiscal, and personnel controls and regulations. Final action will be taken in May.

SICK LEAVE First reading was given a set of proposals modifying sick leave rules. The proposal calls for immediate application when employment begins and allows "borrowing" against future earned leave. Department heads, presidents, and the Chancellor could grant such advances for as much as five days, 22, days, or a full semester, respectively. Most controversial was a proposal for compensation for a faculty member carrying part of the load of an ill member but limiting this to not more than one course and not beyond the end of a quarter or semester.

PROFESSIONAL ETHICS The Senate gave a first reading to an AAUP statement on this matter.

CLASS II EQUIVALENCY First reading was given to a document proposing appropriate criteria for granting Class II status.

TITLE V CHANGES There are numerous changes in Title V which must be changed to protect faculty in colleges embarking on quarter-system, year-round operation. An all-day public hearing will be held on May 16. A key issue is the amount of permissible "overtime" teaching. The Senate originally recommended one-half load one quarter in any three year period. The current proposal is one quarter at full load in three years. At stake is the academic year versus the twelve month as a potentially standard assignment. A fourth quarter taken to increase the compensating time free for a later quarter is provided in the proposal and is not at issue.

CONSULTATION Two alternatives were presented to the Senate. However the Senate voted both down and reasserted its position on mutual agreement.

INTERNATIONAL PROGRAMS The Senate went into executive session for discussion of this issue. The final action was to call for a special committee to investigate in depth all aspects of the program.

DEPARTMENT CHAIREMAN--YEAR-ROUND The Senate gave first reading to a document requesting "funds equivalent to a year-round academic-administrative position for every academic department."

TEACHING LOAD--YEAR ROUND Faculty Affairs presented a document with seven points for first reading. It calls for more flexibility in load (10 to 12 units), better supporting services, reduced load for new staff, more graduate assistance, more administrative released time for senators on local and statewide assignments, more support for grants and an eventual realistic teaching load to make us comparable to most institutions.

POLICY ROUTING PROCEDURES The Senate considered a report made to the Council of Presidents which requires college librarians to route requests to the Chancellor's office for policy documents through the president "who may then refer the document to the library when appropriate," and requires college senators to communicate with the statewide Senate through the president or the Chancellor. The Senate expressed its opposition to these procedures, reasserted the position that communication between senators must be open and direct, and directed the Chairman to request the Chancellor's office to rescind the procedures in question.

GRADE RELEASE TO OUTSIDE AGENCIES First reading was given to a proposal that it be policy to release a student's grades only upon his request. Mr. Epstein, Chief Counsel for the colleges, stated that every student would have to be individually informed of this rule if put into effect.

WAIVER OF TUITION First reading was given to a request that the Trustees adopt a policy permitting waiver of out-of-state tuition for graduate students who meet other requirements but are not carrying the ten unit load now necessary.

INDUSTRIAL ARTS A report was received for first reading on the status of this field. Educational Policies Committee will conduct an open hearing May 5, 6:00 p.m. at the Marines Memorial Club (609 Sutter), San Francisco and May 6, 9:00 a.m. at the Downtown Center of San Francisco State. (Mitchell Marcus, Chairman, EPC, San Fernando Valley State College)

CITY AND REGIONAL PLANNING A study on the need for curricula in this field was presented. Comments are desired in the Chancellor's Office by May 20 (Dean Ellis McCune). Academic vice presidents and deans have received three copies each; a copy may also be borrowed from your senator.

TAX-SHELTERED ANNUITIES The Finance Committee reported on its study of the draft proposal. Issues under consideration include the role of TIAA, which does not employ agents or offer commissions, in the program, and the proposal to employ "advisers" who would be paid on a commission basis. The committee will present its final recommendations at the May meeting.

SUMMARY OF THE MEETING OF THE BOARD OF TRUSTEES--APRIL 13-14

CHAIRMAN'S REPORT Mr. Ruffo described recent events in the Coordinating Council for Higher Education. Most significant are the improvements in fiscal responsibility strongly endorsed by the CCHE. The issue of transferability of general education credit from junior college was resolved by delegating responsibility to representatives from the junior colleges and the State College System to seek to work out an agreement.

CHANCELLOR'S REPORT Dr. Dumke reported on a fifteen year projection which shows an enrollment of 300,000 students, \$250 million in new buildings and seven of the present colleges at peak enrollment. There will likely be 25 colleges in all. The annual budget will be nearly half a billion dollars. He concluded that especially in the light of such growth, more room is needed for innovation and experiment.

SENATOR TEALE The Senator spoke briefly on fiscal affairs. He announced that the following day he would be proposing a resolution which would make the colleges responsible for the self-support programs and would permit such funds as were taken in to go into a revolving fund (rather than into the general fund as now).

STUDENT EXCHANGE A tuition-free student exchange program between Hayward and Trenton State, New Jersey, was ratified. This is the second implementation of an exchange program (Chico-Monteclair).

FIVE SEMESTER ADMISSION BASE Final approval was given for determining admission eligibility on the basis of the five semesters prior to the last. This should greatly aid processing of high school transcripts.

STUDENT FEE REFERENDUM Final reading was given to the change in the rules to require two-thirds of the voters to nullify a student fee structure. This does not apply to contracted funds such as for student unions.

HOME ECONOMICS Approval was given to the report on home economics which permits emphasis on two areas: dietetics and teacher training. Colleges are expected to evaluate their curriculums for compliance with this policy by September, 1967.

STANDARD ADMINISTRATION CREDENTIAL The Board adopted the position that the offering of this credential is appropriate to the mission of the State Colleges and instructed the Chancellor to take appropriate steps to insure that the colleges are eligible for accreditation. Most colleges currently offer all of the requisite course work.

RESIDENCE HALLS AND UNIONS These were approved in the amount of \$35 million. Financing is at 3%. Future construction can expect to encounter an interest rate of not less than 4% and will need to depend almost entirely upon private funding.

SCHEMATIC PLANS Preliminary approval was given to an extensive array of new buildings and landscaping. The issue of one-man offices was raised. The Chancellor's office reported that current policy puts no limitations on this matter, other than space allocation, on the allowable proportion of one-man offices. New buildings will have more one-man and fewer two-man offices roughly in proportion to the extent that the faculty insist upon them. Also worth noting is that federal funds to the tune of \$18 million have been obtained for aid in the construction of many of these buildings just approved.

BUDGET The Trustees approved implementation of whatever salary increase may be granted for non-academic personnel. In reporting on the budget, Mr. Brakebill noted that the Legislative Analyst had recommended a cut of \$2.9 million. Subsequent negotiation has restored about half of this in the Analyst's recommendations.

OFF-CAMPUS HOUSING The Trustees only partially completed a review of a document on principles governing college action and influence on buildings close to the campus, particularly those to be approved housing. Many complex problems are involved. A major one is the range of hazards from exerting undue influence on behalf of a private developer to abdication of all responsibility in determining the character of the zone surrounding the campus.

STATE COLLEGE FOUNDATION No figures were released but it was noted that the foundation now holds "some stock" and it was stated that letters of appreciation had gone to several large contributors. An investment committee was established.

SITE SELECTION Petitions signed by more than 5,000 were received from Bakersfield stating that new facts were at hand and asking for reconsideration of the decision to take the Kern County Land Company site. The Trustees seemed disinclined to respond unless serious deficiencies could be shown in the previous data. Santa Clara-San Mateo was reduced to three sites with a potential fourth. In Contra Costa and Ventura Counties studies of nine locations are under way, with a report scheduled for late this year.

RESPECTFULLY SUBMITTED by JAMES P. HEATH, SECRETARY, ACADEMIC SENATE, C.S.C.
