Conrad Beard dribbles around Juan Gomez in the High School Equivalency Program's basketball marathon. In a proposed plan to be presented tonight, HEP could be given a new home at Cuesta college.

Plan will give HEP a new lease on life

by BOB COX

Written off as dead by some people, the High School Equivalency Program (HEP) could be given a new lease on life tonight.

A plan to keep the program from being terminated by moving it to Cuesta College will be presented to the Cuesta Board of Trustees for approval by Cal Poly Pres. Robert E. Kennedy.

The plan essentially will enable Cal Poly to retain control and operation of the program, while using facilities at Cuesta College. It is hoped this plan will overcome objections of the Department of Labor, which decreed the program be shut down rather than moved to another campus.

In a meeting Thursday afternoon with Dale Andrews executive vice president, E. Douglas Gerard, executive dean, facilities planning, Al Amaral, executive director, Cal Poly Foundation, Tony Garcia, HEP director, Lach McDonald, director of public affairs and Mustang Daily, Kennedy outlined the proposal he will make tonight.

Cuesta College will sub-lease, at no cost, excess classroom space for the use of the HEP program. Cal Poly will continue to oversee all operations of the program including busing the students to and from Cuesta.

Kennedy stressed the only change under the plan would be that classes would be held at Cuesta. Garcia, the rest of the staff and the same students will remain with the program. Students would continue to be housed and fed at Cal Poly, although some plan will have to be worked out to provide lunch for the students at Cuesta.

Approval of the plan by trustees would still leave one more hurdle to clear before the program would be given the green light again.

The Department of Labor, which funds the program, would have to give its approval and budget the necessary money.

Garcia and Amaral will have to submit a proposed budget to Labor, which will undoubtedly call for an increase in funds to finance busing the students to and from Cuesta.

The administration is even now looking into various means of busing the students to and from Cuesta. One possibility is working with the city schools to have their buses take care of the transportation before and after their regular runs.

Kennedy is confident the plan will be approved by the trustees.

"I have assured President Eisenbise (Dr. Merlin E. Eisenbise, Cuesta College President)

there are no problems with the program. I have convinced him of the quality of it and of the people in it. He has given us his support," said Kennedy.

The problem of what to do with HEP arose when it became apparent Cal Poly would not have facilities available for the program for 1975-76. Due to enrollment increases, office space would have to be made on campus for 168 more faculty and staff.

Cal Poly has contracted with the Trustees of the State University and Colleges for 15 trailers to be moved on campus next year to help provide the needed space. However, to get these trailers it was necessary that all available facilities on campus be in use.

Computerized tickets may lead to arrests

by MIKE CONWAY and JOHN DALEY

Those stacks of unpaid parking tickets will be collector items when a computerized ticketing program begins on May 19.

No longer will students be able to ignore their tickets instead of paying them.

The goal of the new computerized parking citation program is to cut down on the number of parking tickets given and cars towed away at Cal Poly.

According to Ray Pena of Business Affairs, a weekly computer print-out of cumulative unpaid parking citations will be sent to Cal Poly from the San Luis Obispo Municipal Court for processing.

Anyone who gets a parking ticket at Cal Poly will have three options:

To pay the required bail through the mail in the provided envelope.

To take the required bail to Municipal Court, Rm. 317, 900 Osos Street.

Or, to contest the ticket by appearing in court.

The parking fines, which usually run from one dollar to five dollars, are written by police or parking officers and then sent to court to be processed. The court has a back log of parking tickets from the city and many people have ignored their parking tickets with no consequences.

This will not be the case if the new program works. As of May 19, if anyone at Cal Poly gets a parking citation and does not pay the required bail, a "Notice of Intent to Issue Warrant" will be issued by the University Police Department. Automatically, the bail will jump to ten dollars on each ticket. The person will have five days to pay the ten dollar bail for each ticket.

If the person does not pay the bail or appear in court within five days after receiving the Notice the court will issue a Warrant of Arrest.

By this time, each parking ticket will cost \$15. If a person does not post bail when the warrant is served, he will be plac-

ed under arrest and scheduled for a court appearance.

The old problem of a backlog of tickets at the Municipal Court will be combated by the weekly computerized cumulative report on unpaid parking citations at Cal Poly. Pena said that he hoped this new program will start people taking notice of their tickets. Pena said that people will realize that they "can't afford to get tickets."

According to Director of Business Affairs, James R. Landreth, "people who violate parking regulations are basically a minority, the overwhelming majority comply."

Landreth said that contrary to what many students, staff and faculty members believe, parking is not a serious problem at Cal Poly. The problem is convenient parking.

Landreth remarked that "people cruise close in to the campus looking for parking." The parking usually is in the lots further away from campus classrooms.

Another problem is that many people do not leave themselves enough time to park far from their classes. As a consequence the late arrivals park in illegal areas. It is these people who get ticketed or towed away," Landreth said. Landreth also said that surveys have been taken by a transportation student who showed 211 parking violations in one hour at Cal Poly. "To ticket or tow away all these cars would not be justifiable or possible," said Landreth.

Landreth said there are only two parking officers on campus. The officers' duties are to give parking tickets, they do not give traffic citations and they cannot authorize a car being towed away he said. Only a police officer can authorize a car being towed. Because they were the most economical choices, towing is done by Martin's Auto Service.

Cars that are towed are usually parked in handicapped spaces, next to fire hydrants or somehow

SAC reps announced

The Associated Student Incorporated (ASI) board of directors and the student government's legislative body was elected as Student Affairs Council representatives during the ASI elections May 7 and 8.

SAC representatives have the final authority on financial and political matters in student government at Cal Poly.

The SAC representatives who will represent their respective school's views for Agricultural and Natural Resources: Frank Coelho, Dave Gould, Shane Kramer, Rikky Kretzinger and Ed Mendoza; and for Architecture and Environmental Design, Doug Aitken and Fred Heaton.

Representatives for Business and Social Science are, Gary Baker, Bruce Orr and Dana Warren. For the school of Communicative Arts and Humanities representatives are Sue Stevenson and Curtis Byrd.

The School of Engineering and Technology selected Ray Davis, Bill Kordes, Ken Smyth and John Stuart as their representatives. Jim Roberts and Larry West will represent the school of Mathematics and Science.

Yvonne Camillo, Val Felise, Rebecca Keller and Teresa Poor will represent the school of Human Development and Education.

Alcohol advocate on campus

The man who authored a bill that would have allowed 18 year olds the right to consume alcohol refused Friday to enter into the current campus controversy about whether alcohol should be allowed on campus.

Assemblyman Robert Nimmo (R-Atascadero) told a political science class on Friday that he felt the decision to allow alcohol on

campus should be left up to the individual campuses to decide.

Nimmo, who introduced a bill in the last legislative session that would have let the California voters decide what the legal drinking age limit should be, would not pass judgement on Pres. Robert Kennedy's long standing opposition to alcohol on campus.

"When I was a freshman here in 1940, there was no possible way you could keep alcohol off-campus and I don't believe there's any realistic way you can do so now," said Nimmo. "I don't really know what I'd do about it."

Concerning the current bill in the legislature which would give public employees the right to collective bargaining, Nimmo explained that he would oppose any such bill if it contained a right to strike clause.

"I'm against any right to strike provision for a public employee. I've been a public employee for 30 years and I see no need for it," said Nimmo. He also expressed his opposition to the bill since it would provide for binding ar-

bitration which would involve a third party, "who has no responsibility to anyone and who can set the tax rate structure by setting the level of salaries."

On the recently passed bill which legalized any sexual acts between consenting adults, Nimmo said he voted for the bill even though many of his constituents were against it. "I think many people did not know what was involved in it," explained Nimmo.

Nimmo explained his vote against the recently defeated bill which would have lessened the penalties for use and possession of marijuana.

"I sensed that the feeling, based on letters and phone calls from the constituents of my district, was that opinion was against this bill," he said.

"I feel that felony conviction for possession should be thrown out but I also don't want to do anything to increase marijuana usage," said Nimmo.

Nimmo was a guest in Dr. Carl Lutrin's legislative process class.

KCPR face-off

Presidential run-off candidates Mike Hurdado, currently ASI vice-president, and Rob Chappell will be featured in a "Meet the Press" forum at 7 tonight on KCPR.

Interviewers will include Mike Murdy, broadcast journalism major; Mustang Daily editor Marji Nieuwama and two additional students. Murdy encourages students to phone in questions to be asked the candidates to KCPR, Cal Poly's radio station, at 544-4640.

The run-off election will be Wednesday and Thursday.

Letters

Candidates endorsed Bishop

Vote for Phil Bishop May 14 and 15.

Steve Redmond

Editor:

As a result of the ASI elections, I feel compelled and obligated to write this letter. This election has offered no "new" alternatives except in the vice-presidential race.

I find Phil Bishop extremely refreshing. His record is impressive. He has worked closely with Scott Plotkin. He knows the ASI both from the inside as a working representative and as a student. He worked on the President's Administrative Cabinet. He was chairman of the study group on collective bargaining in higher education (in which he directed the writing of a position paper on faculty unionization). He has served on the U.U. Board of Governors, and as student representative to the Academic Senate.

Phil's attitude is his most impressive attribute. He is decisive and positive. He sets goals and works to achieve them. He is not one to sidestep an obstacle; instead, he meets it head on and deals with it. I have never known Phil to turn away from a challenging situation, and indeed, chairman of SAC in 1975, and 1976 is not going to be easy.

Phil has a tremendous gift of personal and effective communication. He speaks openly, sincerely, honestly and deals with people on a one-to-one basis.

SAC as it is now, is a confused body. With Phil Bishop as chairman, I am sure it will turn toward responsibility, effectiveness and open communication.

Hill

Editor:

After looking over the remaining two candidates for vice-president, we have decided to support Roland Hill.

As newly elected representatives for the School of Engineering and Technology, we feel that Roland is the most qualified, mature, and most willing to work, not only for what the students want but also for what they need.

So we urge you to vote Roland Hill for vice-president on May 14th and 15th.

Editor:

Upon returning to my car a few days ago, I had the misfortune of finding a citation for illegal parking written by the ubiquitous Officer Ramirez (who, I understand, is quite well known about campus). As if this wasn't bad enough, I have come to understand (at least from how I heard it) that the parking fines have recently been raised. I became thus inspired to write an adaption of a

rather well-known poem as a tribute to the efficiency of our university police. With all due respect to George Pope Morris:

Ramirez, spare this car,
Touch not the wiper blade;
In youth it took me far,
And I'll come to its aid.
'Twas lack of parking spaces
That brought me to this spot;
So please cite other places,
Thy truck shall tow it not.

That old familiar car
That's gotten me around,
Has traveled near and far
And never let me down.
Ramirez, stay thy pen,
Write not a parking line;
I really can't spare ten
For running short of time.

When but an idle boy
I bought it on a trade,
Its ride I did enjoy,
Its AM did not fade.
All the quarter long
I've parked beneath this tree;
I'm sure you do no wrong,
But let my auto be.

My heart strings round thee cling,
Close as thy door, old friend;
Here shall thy engine sing
The tunes that engines rend.
My car! That faithful slave,
And Ramirez leave this spot;
While I've a hand to save,
Thy pen shall cite it not.

David Cary

Election forum

Presidential and vice-presidential candidates will be quizzed in a question and answer forum at 11 a.m. Tuesday in University Union Rm. 222, sponsored by the Political Action Club. All students are urged by the club to attend.

Mice, slugs and ants

Editor:

This story begins in the summer of 1974 at which time I was employed in San Luis Obispo and starting my third year at Cal Poly. I was comfortably situated in a house that we were subrenting for the summer. I figured we had the entire summer to find adequate housing for the Fall Quarter.

As I quickly found out this was not so. I was one of those many people who met at the Telegram-Tribune every day during the summer at precisely 12:20 in the afternoon, hoping to be first to push, grab and claw my way to the housing section of the want ads just hot off the press.

This effort proved to be in vain. Fall Quarter, my roommate and I ended up in one of the lovely motels this town has to offer. This continued for three months till December when we thought we were lucky to find an abandoned two bedroom warehouse with a yard for dogs and a nice garden. It rented for \$150 a month.

I remember our first meeting with our landlady was a pleasant one. She appeared to be a very sweet old lady who informed us from the beginning she had many rentals around the city and she really liked renting to students at reasonable prices.

Upon further inquiry, we found out that she was highly regarded in many circles around town and lived a very, very comfortable life style, probably in one the upper strata of the economic make-up.

The house she rented us had once been a warehouse located in an industrial, worn out part of town. When we moved in we were the first tenants to occupy the structure since the flood of '73 and we started a monumental clean-up task and paint job for which we were kindly rewarded five days free rent.

Since then we have been living with an intolerable amount of mice, slugs, termites and ants. Many times we have approached our landlady asking her to bring in outside help to clear-up the problem. Each time she suggested that I take "my problem" to the Cal Poly agricultural department to see what it uses to keep mice and pests out of silos and fields.

Last week I contacted an indication that could possibly be linked to the living condition of this house. This required three visits to the health center for treatment and prescribed medicine.

I then took my complaint to the county health department. The next day they inspected the structure saying it was unhealthy and needed mousetraps and sprays. They promised to contact the landlady immediately and told us we could feel assured that some action would be taking place in the very near future. I personally hope very soon.

Much has been said as to the housing situation in San Luis Obispo prior to this writing but maybe with continual pressure upon the powers that be in the housing structure of San Luis Obispo, things could begin changing. More than often the housing is scarce, inadequate and many bourgeois landlords are taking extreme advantage of people.

Steve Hastings

IT shows arts

One hundred and thirty-five students from San Luis Obispo and Santa Barbara County schools are expected to participate in the second annual Central Coast Industrial Arts show from noon to 6 p.m. May 23 and from 10 a.m. to 5 p.m. May 24 in Chumash Auditorium.

Sponsored by the Cal Poly Industrial Technology Department, projects submitted by the senior and junior high school students must be of an original nature, and all work must be completed by the students themselves and at their school.

Entries in plastics, metal crafts, drafting, auto power, graphic arts, wood, electricity and electronics will be judged and awards for best workmanship will be presented at the end of the show.

Council seats open

The Architecture and Environmental Design Council is making public the opening of nominations for the elected positions of Chairman, Vice-Chairman, and Secretary-Treasurer.

Anyone having nominations for these positions should present them to the council by May 27, in Engineering West 225 at 5:00 p.m. or contact John Ruffo at 772-2588 or Nancy Meyer at 544-9127 by May 26.

Ray of hope for HEP Computer opens trend for tickets

(continued from page 1)
Kennedy said the state would not provide the trailers if it could be shown that extra space was being taken up by HEP. Therefore it was necessary to try and find somewhere else for HEP to go.

Amaral notified the Department of Labor in November of the problem and asked them to help facilitate moving the program to one of the other campuses which had shown interest in having it.

On Feb. 6, Robert J. McConnon, director, Office of National Programs, Department of Labor, Manpower Administration, advised Amaral in a letter the program could not be moved to another campus.

The letter said, in part: "...We are not in a position to consider the transfer of the program to another institution of higher learning. We, therefore, must allow the project to come to an orderly close."

With a strong success record going for it, Kennedy and the administration began efforts to keep the program alive. Last year HEP had over 50 per cent of its students enter college.

Several colleges and universities began to show interest in the program in the meantime. Cal State Universities at Fresno, Chico and Sonoma, the University of California, Santa Barbara and Bakersfield Community College all made firm expressions of interest.

This fact was communicated to McConnon by Kennedy in early April. In addition the president began an extensive letter writing campaign to various senators and

representatives in Washington, seeking their support in keeping the HEP program in California.

Glenn S. Dumke, Chancellor of the State University and Colleges, and Lieutenant Gov. Mervyn Dymally, wrote McConnon expressing their support for the program. Dumke offered to help facilitate transfer of the program to another campus in the state system.

On April 21, Amaral received a phone call from McConnon reaffirming Labor's decision not to transfer the program and to discontinue it if Cal Poly could not accommodate it after July 1.

At this time Kennedy got in contact with Dr. Eisenblat at Cuesta and Earl Cornwell, county superintendent of schools, explaining the problem and inquiring whether they had facilities available that could be used for HEP.

On April 24, Amaral wrote McConnon again, advising him of alternate plans being explored to keep the program at Cal Poly.

On May 2 Andrews reported to Kennedy, that in a meeting with Eisenblat and Jim Duren, Cuesta business manager, Eisenblat had given his support to the plan but it would have to be approved by the trustees.

Cuesta is able to make space available to Cal Poly since it (continued on page 4)

(continued from page 1)
blatantly violating a parking regulation.

"We don't relish the writing out of tickets and the towing away of cars. It cuts down on the peace officers main function," said Pena.

Extra parking is being planned right now Landreth said. The problem with the extra parking is that it will be further away from the center of campus.

Landreth said the new parking program is being run by the joint efforts of the county administrative offices, the university and the court.

"Each of these have a responsibility and is trying to meet these responsibilities," Landreth said. "I have a commitment from the court that they will process the warrants," added Landreth. The new parking program is ready to go into effect but is being held off until May 19.

From now until the 19th it will be a "grace period" for more who find tickets on their windshield. "We're not trying to catch people off guard," said Pena.

KINKO'S

For \$2 a month, you can graduate to the All-In-One® Checking Plan.

Even though graduation's going to complicate your financial situation, there's no reason it has to stay complicated. Our All-in-One Checking Plan meets all your new needs, and more. In one simple package. For a flat fee of \$2 a month, you get all this:

1. **No minimum balance.** No matter what your balance is, pay just \$2 a month.
2. **Unlimited checkwriting.** All the checks you can write. Still only \$2 a month.
3. **Free personalized checks.** Your choice from our colorful selection.
4. **Check guarantee card.** Lets you cash checks up to \$100 at any Bank of America office worldwide.
5. **Overdraft protection.** Our Instant Cash can save you from bounced checks.

6. **BankAmericard®.** Qualify, and it gives you credit around the world, with just one monthly bill.

7. **The Timesaver® Statement.** Lists checks numerically, simplifies your balancing.

8. **Commission-free BankAmerica Travelers Cheques.** All you need — no service charge.

9. **Automatic Transfer Service (Optional).**

Repay loans or make monthly savings deposits automatically.

If you already have our College Plan® Checking Account, including BankAmericard and Instant Cash, and you opened your account after February 26, 1974, you will automatically receive the All-in-One Plan when you graduate.

If you're not with Bank of America or don't have the full College Plan Account, you still have a good chance of qualifying for the All-in-One Checking Plan provided you're expecting your 4-year college degree soon and have accepted a job in California for \$600 a month or more. The application is short, simple, and you can find it at any of our offices. So why not stop by, talk to one of our Student Reps or New Accounts people and fill out your All-in-One application soon.

**Depend on us.
More Californians do.**

BA BANK OF AMERICA

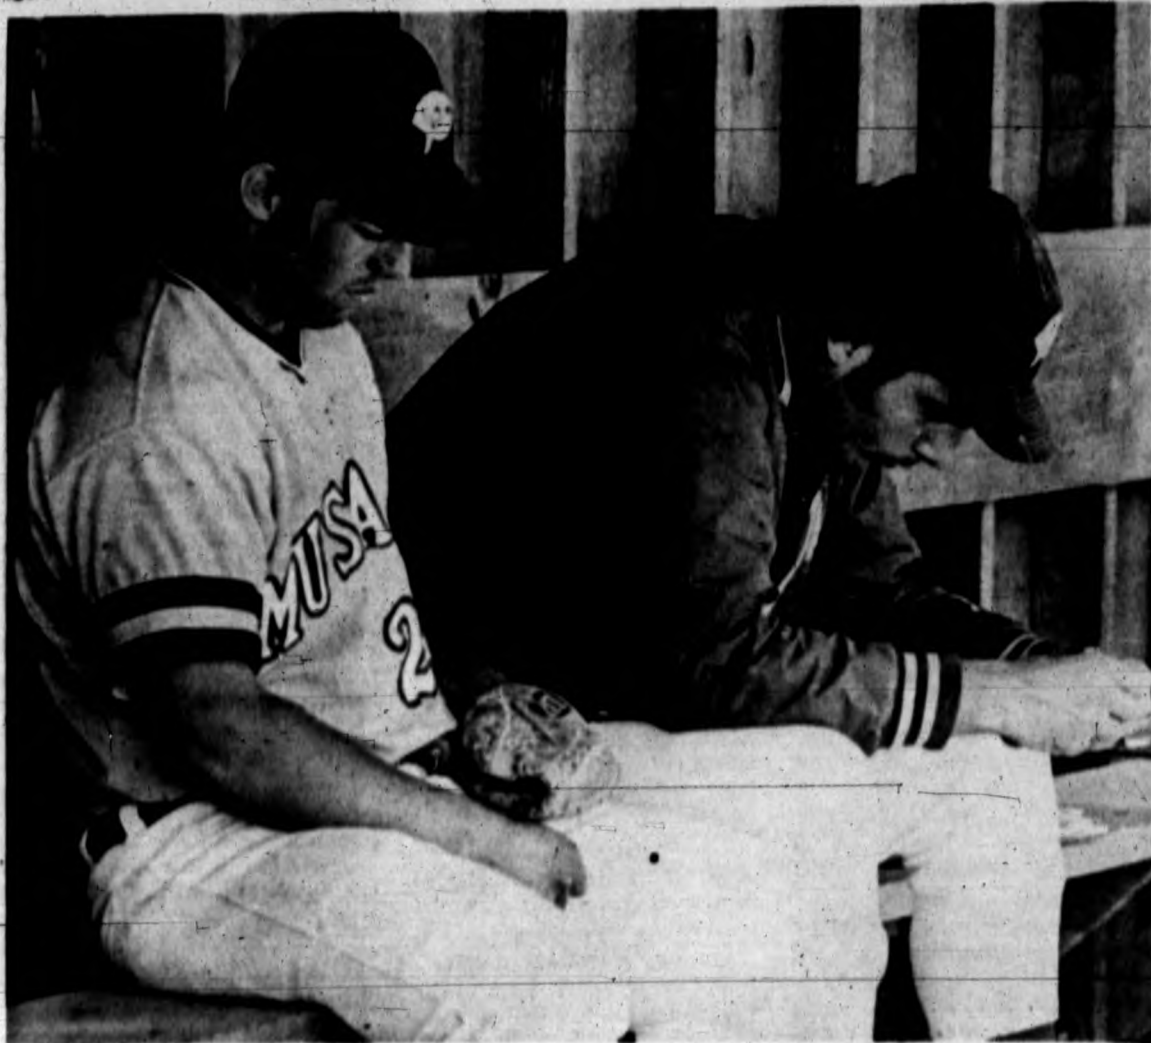

photo by Wayne Thallander

Seniors Terry Ruggles (left) and Bud Papadakis exhibit the general feeling in the Mustang dugout during the second game Saturday. Northridge squeezed out a 5-2 victory, taking two of the three game series.

to drive the final nails in the Mustang's coffin. It was also the final appearance in a Cal Poly uniform for both Ruggles and Papadakis.

Matadors cinch title eliminate Mustangs

by JON HASTINGS

The Mustang baseball team lost two out of three to Cal State Northridge over the weekend, thus ending a season that won't see them go to the NCAA playoffs. But the Mustangs provided a rather hearty and robust crowd quite a two days of baseball.

The Mustangs ended the year with a 30-18 overall record and a 8-10 CCAA tally. By taking two from Berdy Harr's Mustangs, Northridge retained their conference crown and are headed for the NCAA regionals.

In Friday's game Poly came out swinging as they got to Northridge pitcher Curt Jenkins for two runs in the first inning. Mike Ongarato started the inning off by walking and stealing second.

Ted Bailey then moved Ongarato to third with a bunt single. Ongarato scored on a pass ball and Bailey scored later in the inning when Dave Fowler grounded into a double play.

Unfortunately for Mustang rooters, Jenkins did not allow another run the rest of the game and the Matadors chipped away at Mustang pitcher Bud Papadakis for four.

Papadakis, who closed out his final collegiate season with a 3-4 record, pitched well in defeat as he allowed six hits in nine full innings of work.

The big lefthander retired the first nine batters he faced, but the Matadors picked up three runs in the fourth to quickly end his bid for a shutout. Northridge got one more run in the fifth to make the final score 4-2.

On Saturday the Mustangs were in the unenviable position of having to sweep the Matadors in a doubleheader if they were to have any chance at all to go to the playoffs.

With Northridge now holding a slim 7-6 lead, switchhitting

Freshman Dave Pencille got the starting nod for the Mustangs and he was carrying an unblemished 5-0 record, into the first of two. It looked as if Pencille's record was going to get scuffed up a bit as he was knocked around for six runs in the first three innings.

But the Mustangs were doing a little knocking around of their own as Northridge pitcher Dick Adams was having his problems.

In the third inning Jim Fisher got to first on an error. He moved to second on a wild pitch and then went to third on a ground out. Bailey then scored him with a sacrifice fly to bring the first Mustang run of the afternoon home.

Scott Wilson then reached second on a two base error. Paul Desjarlais scored Wilson with a double off lefthander Garth Marcus' glove and Fowler drove in Desjarlais with a blistering single to center as the Mustangs came up with a big three run inning.

Gorman Heimueller, who relieved Pencille in the fourth, coughed up a home run in the fifth and the Mustangs were trailing 7-3 at that juncture.

In the bottom of the fifth inning an incident occurred that fired the Mustangs and the crowd up. On an inning ending force play, Wilson upended Northridge shortstop Shawn Nunan with a hard slide. Both benches then emptied, but the umpires got the situation under control before anything serious happened.

Desjarlais promptly powered one over the right-centerfield fence to give the Mustangs a 8-7 lead.

But Northridge's Bob Azarito drove in a run in the eighth to tie the game at 8-8.

Ongarato led off the bottom half of the inning with an infield hit. He then stole second.

Bailey doubled him home and

the Mustangs had a 9-8 lead. Wilson then hit a two run home run that brought the crowd to their feet. The Mustangs went into the ninth inning with a 11-8 lead.

Heimueller got into some trouble in the ninth and needed relief from Bruce Freeberg. Freeberg quickly restored some order and all the Matadors could come up with was one run to make the final score 11-9.

Heimueller registered a win and Freeberg picked up a save. Northridge starter, Adams went the distance in forking over 11 runs and 13 hits.

The Matadors collected 16 hits off the three Mustang hurlers. After the first game, the seven inning nightcap was destined to be anti-climatic.

The Mustangs had to win to keep their playoff hopes alive. Sam Solis started for the Mustangs and Tim Stevens for the Matadors.

The 180 Northridge rooters erupted when Jeff Gilbert hit a two run home run off Solis in the third inning to give the Matadors a lead they never relinquished.

Northridge picked up another run in the fourth and they lead 3-0 going into the fifth.

The Mustangs got a run in the fifth when Vierra led off with a single. With two outs, Simon singled him home.

In the sixth, the Mustangs tightened the gap to 3-2 when Fowler knocked in Wilson.

But in the seventh and final inning of the season for the Mustangs, Northridge came up with two big runs to put the game out of reach, making the final score 5-2.

Despite the fact that the Mustangs will have to read about the NCAA playoffs instead of participate, they had a very good season and have nothing to hang their heads about.

HEP may be saved

(continued from page 3)

currently does not use all of Camp San Luis Obispo, which it has been leasing for the past 11 years. The addition of new facilities at the community college has left some of the military buildings empty and Cuesta is willing to make two of these buildings available for HEP.

The camp commander, Douglas A. Baird, has cleared Cal Poly's use of the facilities with the National Guard. He has informed Kennedy an arrangement can be made to use the facilities from July 1975 through June 30, 1976.

Garcia said he had seen the facilities, and though not quite on a par with those at Cal Poly,

would serve quite well. He said there was about one-third more space at Cuesta.

Garcia said, "I don't know of a better solution to the problem. These are first quality facilities, in some ways better than what we have here."

He added, "I appreciate the commitment President Kennedy has shown. He is the key reason the program will continue. When others have said no he has said yes, it will go on."

So now HEP, which only a few weeks ago appeared near death, has at least a good chance of staying alive. And for once the prognosis is guardedly optimistic.
