FOR IMMEDIATE RELEASE

Cal Poly College of Architecture and Environmental Design Plans New Events, Traditional Exhibits For Open House April 19-21

Cal Poly's College of Architecture and Environmental Design has traditional exhibits and new events planned to highlight this year's campuswide Open House 2002 April 19-21.

From reminiscing with former classmates to seeing a world turned "upside down," visitors will find a range of interesting events hosted by the college April 19-20. They include:

- The college's class of '62 reunion gatherings April 19-20. Alumni will showcase their current work 10 a.m.-5 p.m. Saturday in the CAED Gallery, Room 105 in the Architecture and Environmental Design Building.
- An exhibit of student work featuring some of the colleges' most imaginative projects, on display noon -5 p.m. April 19 and 10 a.m.-5 p.m. April 20. Work by students in all five of the college's departments will be included in the exhibit in the CAED Gallery. In addition, the Robert Hifumi Odo Memorial Scholarship Display of work by architecture students will be open in the lobby, Room 212 of the Architecture and Environmental Design Building.
- The Hearst Lecture Series 7 p.m. April 19 with Craig Hodgetts and Hsin-Ming Fung, principals and co-founders of Hodgetts + Fung Design Associates in Los Angeles. They will share their adaptation of architectural form to the challenges of cultural change, urban evolution and developing technology. The free lecture will be in Chumash Auditorium in the University Union. It is made possible by a grant from the Hearst Foundation.
- The 2002 Design Village competition, with its "Upside Down"

theme. Student teams from campuses across the West will build self-designed shelters that must house their entire team for the duration of Open House weekend. Design Village can be viewed 10 a.m.-4 p.m. April 20. Free shuttles will leave from the parking lot at the corner of Poly Canyon Road and Perimeter Drive. Visitors may also walk up the canyon.

- A first-time sneak peek at advance copies of "The Vision," a 100-page volume that includes anecdotal remembrances and pictures celebrating founding Dean George Hasslein's vision and the establishing of the college. Published and edited by architecture graduate and 2001 honored alumnus Emanuele Barelli and his wife, Carolyn, a Cal Poly English graduate, the book was made possible by the College of Architecture and Environmental Design Foundation Board. This pre-release event will be in partnership with the Cal Poly Alumni Association at its booth 10 a.m.- 1 p.m. April 20 on Dexter Lawn.

- The first Cal Poly National Association of Homebuilders Student Chapter "Building for the Future" exhibit 9 a.m.-4 p.m. April 20 in the H-10 parking lot on University Drive next to the Dexter Building. The students have built this scaled-down home using engineered and environmentally friendly wood products and other innovative residential systems.

- Tours of the college, led by Alpha Rho Chi, the national fraternity for students and professionals in architecture, will be 1-4 p.m. April 19 and 10 a.m.-4 p.m. April 20, starting at the college's lower staircourt.

- The Architecture Department's Sustainable Environments Exhibit will be on display all day April 20 in Room 220 in the Dexter Building.

- The City and Regional Planning Department's Noise Workshop and Demonstration, on view 11:30 a.m.-1:30 p.m. April 20 in Room 134 in the Dexter Building.
