Girl's death brings compassion

MUSTANG DAILY

You only have to look into the eyes of Flor Castaneda to sense the depth of her loss.

Flor's sister, Jasmine Castaneda, 10, died of heart failure at Stanford Medical Center Wednesday.

Jasmine came under the care of Flor when their mother died in Mexico last May.

While trying to comfort her, Flor noticed that Jasmine's heart was racing. Sensing that something was wrong, she took her to a doctor and found that Jasmine's heart had a hole in it.

Unable to afford treatment in

Mexico, Flor brought her sister to her home in the United States hoping to find treatment here. Even with the help of Jasmine's school teacher, Jasmine was unable to obtain medical treatment.

On Oct. 2, Jasmine's heart started beating out of control after a car alarm frightened her. Flor rushed Jasmine to the emergency room, by then she was too weak and nothing could be done.

"She was a Love, an Angel, who came to give me love and affection," Flor said.

Sanya Lee, an English junior and Sequoia Chaptellet-volpini, a social science junior called florists around

San Luis Obispo to have flowers donated for Jasmine's wake, Tuesday.

Homecoming theme stirs controversy

Amanda Strachan
MUSTANG DAILY

This year's homecoming theme, How the Great West was Won, has raised concerns among some students.

BARBARA BENSE MUSTANG DAILY

Students participate in the Laugh Olympics event during Homecoming week.

"The title, How the Great West was Won, although it alludes to our football league, the theme is still based on the idea of cowboys conquering the great West," said York Shingle, business junior and Student Community Services member.

Many SCS students were concerned about the theme, Shingle said.

"Native Americans were here before we invaded and took over their land. So, us forcing them to relocate onto reservations is an awful way to commemorate the greatness of Cal Poly," Shingle said.

A student committee is set up each year to

select the theme, said Teresa Hendrix media relations spokeswoman for the homecoming association.

"I haven't heard of any complaints," Hendrix said.

Banners commemorating this year's theme Monday. The banner contest featured designs by fraternities, sororities and other campus clubs.

First place in the banner contest went to the Mustang Band, while Latinos in Agriculture finished second and Kappa Alpha Theta finished third.

This week's activities also included the Mock Rock contest and the Laugh Olympics.

Mustang Band came away with two first-place wins. Phi Kappa Sigma teamed up with Kappa Alpha Theta to take two third place wins.

INVESTIGATIVE REPORT: Part 1 of 2

Millions spent on PeopleSoft

The chancellor's office mandated all CSUs to adopt the software program, costing Cal Poly alone \$3.8M

Carrie McGourty
MUSTANG DAILY

As Cal Poly students face steadily rising tuition, fewer classes each quarter and faculty whose job security is unstable, the university spent millions this year on PeopleSoft software to streamline their business practices.

Amid a drastic budget crisis and a 20 percent increase in tuition, dissent among faculty, unions and students has risen, questioning why the California State University system is spending \$400 million on computers and how it will be funded.

"It's an issue of priorities," said Phil Fetzer, political science professor and member of the California Faculty Association. "Is it the best way to use the money? And is it necessary in the middle of a budget cut?"

As part of the California State University's Common Management System, the Chancellor's Office mandated that all 23 CSUs adopt PeopleSoft to handle core university business applications, including human resources, financial accounting and student services.

"The benefit to this suite of software is that it provides an integrated solution utilizing current technology to support the campus' administrative functions," said Kimi Ikeda, Assistant Vice Provost for Systems Resource Management, in an interview in May.

Cal Poly implemented and has operated the finance and human resource software since 2001. It plans

to implement the final module of the suite, student administration software to be ready for use by the 2006-2007 school year, said Larry Kelley, vice president for Administration and Finance.

In order to fund the final stage of PeopleSoft, the administration allocated \$3.8 million from the

general operating budget. Other universities have requested exemptions from the Chancellor's Office to meet the deadline to implement the software until they have the funding to do so.

The academic senate sent a letter signed by 295 faculty members to halt the plans

The CMS project is an unfunded mandate and each campus must develop a budget for implementing CMS. Cal Poly administration estimated that the fiscal impact to implement PeopleSoft's student software module will cost Cal Poly \$11.9 million.

The CFA and the Academic Senate have repeatedly tried to negotiate with PeopleSoft, page 2

continued from page 1

tiate with Cal Poly's administration to implement the software when they were not facing the budget crisis. The academic senate sent a letter signed by 295 faculty members to President Warren Baker to consider halting the plans of PeopleSoft until the state budget situation improved.

"The advice from Cal Poly's Academic Senate was taken very seriously," Kelley said. "The state budget has improved, and our funding position is better than it was when the Academic Senate made the request to postpone implementation of this software project."

The \$3.8 million allocated for the project came from the unused portion of the campus contingency fund, the fee revenue from in-state enrollment in excess of the campus targets, the fee revenue from out-of-state enrollment in excess of the campus targets; and savings from campus expenditure levels below what was budgeted. All of these items become available for one-time use in the ensuing budget year.

"The question is, if we can save money for PeopleSoft, why can't we use the money to offer classes and essential services?" said Manzar Foroohar, president of Cal Poly's chapter of the California Faculty Association in an article for the CFA magazine. "If we have millions of dollars for PeopleSoft Corporation and outside consultants, why are we charging our students an ever-increasing tuition for education in a public institution?"

Kelley said that no classes were cut

for PeopleSoft implementation. Commitments to hire faculty must be funded from continuing base budgets.

The money to fund the first year of the implementation costs came from one-time sources. More than 40 tenure-track faculty were hired in the base budget beginning in the 2004-05 year, Kelley said.

The university may still seek a loan to fund a portion of the implementation costs in the 2005-06 fiscal year, Kelley said. Ikeda said the university is considering borrowing funds as an alternative "to avoid the need to redirect current funds that are being utilized for such things as instruction."

Ikeda did not say the amount of interest, but the cost has some wondering if the money could be allocated in a more effective manner.

"Our students are the ones who are going to get hurt the most if Cal Poly borrows millions of dollars to implement a very expensive and highly questionable software program," Foroohar said.

Of the \$400 million from the CSUs allotted to the project, 58 percent, or about \$230 million, will be absorbed by the 23 universities. The chancellor's office will supply the remaining \$170 million.

Mainframe technology to collapse

PeopleSoft will replace Cal Poly's current 20-year-old student administration system, referred to as SCT Plus, which is based on a mainframe technology. Ikeda said that the aging system requires thousands of local modifications in order to meet the campus needs, ranging from code

modification to modified use of data fields.

In addition to the concerns of an aging system, the vendor will support the mainframe in which it operates on until February 2007, Ikeda said.

"The risk associated with an aging system and an unsupported mainframe is significant," Ikeda said. "For example, should the system 'crash' during the middle of registration, we'd have to resort to a manual registration process in which students would stand in line to enroll in each course."

"We have no choice"

The financing plan that is being proposed allows the implementation of the student administration software to move forward without drawing on Cal Poly's "depressed" operating budget for at least three years, Ikeda said.

At the end of the three-year period, the student administration system will be live and Cal Poly will have up to five years to repay the loan.

Ikeda said this approach aids students, faculty and staff by minimizing the impact on current operating budgets. There is no alternative to implementing PeopleSoft at Cal Poly, Ikeda said.

"Given that the suite of PeopleSoft applications software has been chosen by the CSU system to support the CMS initiative, Cal Poly is mandated to utilize PeopleSoft's suite of applications software," Ikeda said. "In other words, we do not have another option."

Faculty voice opposition

Many faculty members are concerned that CMS is being funded at

the direct expense of instruction. According to the CFA, between 1990-91 and 2000-01 academic years, spending on instruction at CSU campuses dropped from 55 percent of the system's budget to 43 percent.

Student populations continue to grow, but faculty hiring remains sluggish.

Traditionally, the Chancellor's Office has given campuses money for each student added to enrollment to help the system cope with growth. But with the advent of PeopleSoft, most of the money is now going toward each campus' software project.

In a May 4, 2004 memo sent to faculty the Cal Poly administration said that the university will receive additional support from the Chancellor's Office if they go live with the program by 2006.

Since the remaining thirteen campuses will be split between the 2006-2007 and 2007-2008 timelines, implementing at this point in time will minimize the competition for the limited staff resources at the Chancellor's Office, Ikeda said.

Foroohar said that implementing the program during this time frame means Cal Poly will have to borrow millions, which must be repaid in addition to interest.

"Borrowing money for PeopleSoft implementation is mortgaging our students' futures," Foroohar said. "So we will be paying millions of dollars in interest, which could otherwise be used for hiring faculty and teaching classes that we have to cut due to the budget crisis."

Homecoming

continued from page 1

In the Mock Rock contest Mustang Band claimed their second first place win. Sigma Kappa & Sigma Phi epsilon teamed up to finish in second and Phi Sigma Kappa and Kappa Alpha Theta finished in third.

In the Laugh Olympics first place went to Poly Reps. Phi Sigma Kappa with Kappa Alpha Theta took second and Alpha Phi Omega finished third.

Compassion

STATE NEWS

SAN DIEGO — A panel of Superior Court judges has struck down a San Diego city law which held adult party hosts responsible for underage drinking.

The three judges issued a ruling last week finding the city's House Party Ordinance unconstitutional because it does not require that an adult has the knowledge that minors are drinking alcohol at the

party.

The May 2003 ordinance made it a misdemeanor for homeowners to allow people under 21 to drink alcoholic beverages in their homes in groups of three or more.

...

GUINDA — A wildland blaze, fueled by dry brush and steady winds, grew to 25,000 acres Tuesday in a region north of San Francisco.

The Rumsey fire was just 5 percent contained as it burned through oak trees, brush and dry grass in a

steep and remote region of Napa and Yolo counties.

...

SAN FRANCISCO — Organized labor in San Francisco flexed its collective muscle Tuesday on behalf of striking and locked out hotel workers in the city, as they prepared to end their two-week strike.

Plumbers, teachers, carpenters and other unionized workers joined forces with members of the Unite Here Local 2 for a rally at Union

Square where many of the hotels at the center of the labor dispute are located.

Rev. Jesse Jackson led the crowd in chants and prayers.

"The right to bargain is an American right and it's the right thing to do," he told the enthusiastic crowd of hundreds.

The hotel workers are set to end their two-week strike against four of the city's top hotels Wednesday.

IN OTHER NEWS

EUGENE, Ore. — The signs marking High Street have become a hot commodity and coveted dorm room decoration in these parts.

But what might seem like a sophomore prank is turning into a costly problem for the city, home to the University of Oregon. In the last decade, officials say they've had to replace the sign nearly 350 times.

Besides High Street, the University Street and Westward Ho Avenue signs are also frequently stolen.

The missing street markers are part of a backlog of about 100 signs that city crews will replace in coming months, said Damon Joyner, traffic technical team supervisor for the city.

"Sometimes they're hit by vehicles. Sometimes, they just seem to disappear," he said. "We've had instances of people just taking a chain saw to the post."

...

LONDON — Spiders are more scary than terrorists — at least according to a survey of a thousand Britons released Monday. Household creepy crawlies frighten Britons more than terrorist attacks, or even death, the survey found.

Terrorism only came second on the list of respondents' top ten fears, according to the survey conducted by RSGB Omnibus for Universal Pictures UK Ltd. 16.

NATIONAL NEWS

WASHINGTON — The Supreme Court said Tuesday it will consider whether the Ten Commandments may be displayed on government property, ending a 25-year silence on a church-state issue that has prompted bitter legal fights around the country.

Ten Commandments displays are common in town squares and courthouses and on other government-

owned land, including the Supreme Court.

The disputes have led to emotional battles, such as one in Alabama by Chief Justice Roy Moore, who lost his job after defying a federal order to remove a 5,300-pound monument from the state courthouse. The Supreme Court refused last week to help him get his job back.

...

WASHINGTON — A Republican homosexual rights

group filed a lawsuit Tuesday seeking to overturn the Pentagon's "Don't Ask, Don't Tell" policy for gays in the military.

The policy, put into place in 1993 during the Clinton administration, allows gays and lesbians to serve so long as they do not disclose their sexual orientation nor engage in homosexual acts.

...

WASHINGTON — The Bush administration will talk with European allies later this week

about possible economic incentives to Iran if it agrees to suspend the enrichment of uranium, a key step in the production of nuclear weapons, U.S. officials said Tuesday.

While Bush has not yet taken a stand on whether to dangle such incentives before Tehran, a meeting with allies on the issue would mark a significant shift in U.S. strategy and could have implications in the presidential race.

—Associated Press

INTERNATIONAL NEWS

BESLAN, Russia — Wailing and pounding their hands on dirt graves, hundreds of people dressed in black marked the end of the traditional 40-day mourning period for the children and adults killed after terrorists seized a school on the first day of classes.

Fears are rising that grief may give way to violence by the mostly Ossetian residents against the

Ingush, a rival ethnic group whose members were among the raiders who took control of School No. 1.

Top federal and regional officials have appealed for calm, but seething anger is replacing sorrow in North Ossetia, the republic in southern Russia where Beslan is located.

...

BAGHDAD, Iraq — Saddam Hussein underwent an operation to repair a hernia about 10 days ago but has made a full recovery, Iraqi sources said Tuesday.

The ousted dictator was taken to Baghdad's Ibn Sina hospital near the U.S.-controlled Green Zone for the procedure, which was performed by Iraqi doctors, according to sources close to the Human Rights Ministry.

The operation lasted about an hour and Saddam was returned to his cell the same day, the sources said on condition of anonymity.

...

KABUL, Afghanistan — Engine failure brought down a

U.N. helicopter sent to collect ballot boxes from northeastern Afghanistan on Tuesday, injuring no one but causing a new glitch in efforts to tally the results of the country's presidential election.

The accident came as a panel of foreign experts began probing irregularities in Saturday's vote alleged by rivals of front-running interim leader Hamid Karzai. The complaints have stalled the start of vote-counting.

Nader visits Berkeley, bashes political system

Mary-Kameko Shibata
DAILY CALIFORNIAN

BERKELEY — Independent presidential candidate Ralph Nader ragged on the two-party system, claiming there is no difference between the two major party candidates, in front of a semi-filled Zellerbach Hall Monday night.

He was quick to defend his campaign, warning the audience not to vote for Sen. John Kerry instead of President Bush because they feel he is the "least worst" candidate.

After a long delay, and a plethora of other speakers, including vice-presidential nominee Peter Camejo, the third-party candidate took the stage to slam corporate interests, claiming firms have a control over the media, political agendas and the nation's financial transactions.

He also said the Democrat and Republican presidential campaigns are dominated by corporate interests, whereas his campaign is not.

"Corporations are not human beings," Nader said. "They do not vote. They do not breathe. They do not bleed. Why are they allowed to organize and support candidates?"

Nader and Camejo have been targeting dozens of colleges across the country this year, and hope to impress upon students that they have the option of voting for third-party candidates with ideals similar to their own.

"We see a need to involve young people in long-term solutions for political reform," said Ken Krayske, youth coordinator for the Nader/Camejo campaign. "We think the Democrats and Republicans are inadequate in efforts to civilly educate young people."

Nader challenged students to get involved with the situations around them.

"Your 20s are your most creative decade," he said. "Smash the paradigm. You've got to be careful in our culture. Our culture tries to make

you spend your 20s on personal problems for your adolescence."

He used fee increases as an example of how student's rights are being hijacked.

"You should all have to take 'University of California Berkeley Budget 101,'" he said. "Students should really learn about the school budget."

Nader blamed Kerry's acceptance of corporate money as the reason he is the "anybody-but-Bush candidate."

"There is a crisis of liberalism today. The 'least worst' approach has no end logic—there's always going to be at least worst between the Democrats and Republicans," Nader said. "Because you are so scared by the worst, you don't pull on the least worst, but the corporations pull on Kerry for what they want."

Nader did not have any kinder words for Bush, saying, "Bush is really a corporation designed as a human being in the White House."

Nader's harshest criticisms came when he denounced the two-party system in the United States. Nader's name, which only appears in about 34 states' ballots, is running a write-in campaign in the state of California, in which his supporters must write down his name to vote for him.

"Fifty-seven percent of U.S. voters wanted to see us in the debates," he said, referring to himself and Camejo.

"We're down to one party. Sixty percent of legislators in Massachusetts don't have opponents for the November election," he said.

Sophomore Lia Kirson said Nader's talk cleared up why he is running for the presidency, which she said may be able to sway her vote.

"This election, though, I thought it was the wrong time and it angered me that he ran," Kirson said. "Now I am torn and have a lot to think about in this election."

One-Gloved Wonder wants Eminem video to "Beat It"

Los Angeles (AP) — Michael Jackson is angered by the way he is mocked in rapper Eminem's recently released video "Just Lose It" and has asked cable music stations to remove the video from their rotations.

"I am very angry at Eminem's depiction of me in his video," Jackson said Tuesday in an interview with comedian Steve Harvey on the Los Angeles radio station 100.3 FM.

"I feel that it is outrageous and disrespectful. It is one thing to spoof, but it is another to be demeaning and insensitive," he said.

In the video, Eminem appears dressed mockingly as Jackson, who has pleaded not guilty in Santa Barbara County to child molestation, conspiracy and administering alcohol to an underage companion.

Eminem, costumed as Jackson, is seen with a group of boys in the background, jumping around as he

sings about Jackson's child molestation allegations: "Come here little kiddie, on my lap. Guess who's back with a brand new rap..."

"I've admired Eminem as an artist, and was shocked by this," Jackson said in the radio interview, according to a transcript provided by his publicist.

"The video was inappropriate and disrespectful to me, my children, my family and the community at large," he said.

Later in the video Eminem also ridicules plastic surgery done on Jackson's nose and an accident in which Jackson's hair caught on fire while filming a Pepsi commercial in 1984.

So far, only Black Entertainment Television has agreed to pull the video. The network's president and founder, Robert Johnson, said he felt it was inappropriate to disparage a celebrity.

Accenture

Accenture is a global management consulting, technology services and outsourcing company. Committed to delivering innovation, Accenture collaborates with its clients to help them become high-performance businesses and governments. With deep industry and business process expertise, broad global resources and a proven track record, Accenture can mobilize the right people, skills and technologies to help clients improve their performance. With approximately 95,000 people in 48 countries, the company generated net revenues of \$11.8 billion for the fiscal year ended Aug. 31, 2003.

AnalogicTech

AnalogicTech a semiconductor design and manufacturing company specializing in total power management solutions based on innovative analog and mixed-signal integrated circuits and a new generation of discrete-power MOSFETs.

AATI products play a critical role in system design of portable products by creating devices to manage battery life, voltage regulation, power-saving load switching and Input/Output port protection.

Aera Energy LLC

Aera Energy LLC is California's leading oil and gas producer, operating properties extending from the LA Basin in the south to Coalinga

in the north. With headquarters in Bakersfield, Aera Energy employs about 1,100 people and hundreds of contractor companies. We produce approximately 250,000 barrels of oil and 90 million cubic feet of natural gas each day and have proved oil and natural gas reserves equivalent to one billion barrels of oil. Aera Energy, which began operating Jun. 1, 1997, consists of the California onshore and offshore exploration and production (E & P) assets formerly operated by CalResources LLC (a Shell Oil Company affiliate) and Mobil Exploration and Producing US Inc. (a Mobil Corporation affiliate).

Anheuser-Busch

As the world's leading brewer for more than 45 years, Anheuser-Busch and its subsidiaries are committed to finding innovative ways to continually improve. It's this kind of thinking that creates a unique work environment by rewarding talent, celebrating diversity and encouraging forward thinking. We also think enjoying work is an important part of life. If you have what it takes to become

E & J Gallo Winery

The E & J Gallo Winery currently employs more than 4,600 people and markets its wines throughout the U.S. and over 90 foreign countries, making it one of the largest winemaking operations in the world. The grapes for our wines are grown and harvested in all of California's important wine-producing regions and represent only the very best in quality. The product portfolio is also diverse, encompassing virtually every form of the winemaker's art from fine table and sparkling wines, to distilled, wine-based spirits and beverage wines. The Winery has been active in Sonoma for more than 70 years and its Healdsburg facility

includes two, third-generation family members — Matt and Gina Gallo. Gina is a third-generation winemaker and her brother Matt oversees the Sonoma and Napa vineyards.

E*Trade Financial

E*Trade Financial brings together a personalized and fully integrated financial services solution that includes brokerage, bank deposits, mortgages, marine loans, auto loans, RV loans and more. The products, services, content and information at E*Trade Financial are available to retail customers through the Website, E*Trade Financial ATMs, E*Trade Financial Centers and Call Centers.

Eaton Corporation

Eaton Corporation is a diversified industrial manufacturer with 2003 sales of \$8.1 billion. Eaton is a global leader in fluid power systems and services for industrial, mobile and aircraft equipment; electrical systems and components for power quality, distribution and control; automotive engine air management systems, powertrain solutions and specialty controls for performance, fuel economy and safety; and intelligent truck drivetrain systems for safety and fuel economy. Eaton has 55,000 employees and sells products to customers in more than 100 countries.

Enterprise

Enterprise is the largest car rental company in North America. We are a \$6.9 billion company with more than 680,000 vehicles in our rental and leasing fleet, more than 53,000 employees and more than 5,500 locations in the U.S., Canada, Germany, the United

Kingdom and Ireland. Since our origin in 1957, our employees have always been empowered to make decisions that greatly effect their work and their career. It is this philosophy along with an unyielding dedication to the customer that has made Enterprise a true American success story and a truly unique place to work.

Family Care Network, Inc.

We are a nonprofit social services agency located in San Luis Obispo that works with foster and special needs children and families on the Central Coast.

Farm Credit

The Farm Credit System is a nationwide financial cooperative that serves agriculture and rural America. We are looking for Loan Officers for the state of California with agriculture background and/or experience.

Fastenal Company

Fastenal Company is currently taking resumes for Management/Sales Trainee positions.

Fastenal has aggressively grown to operate more than 1,400 stocking branch locations in the U.S., Canada, Mexico, Singapore, Puerto Rico and Europe. Annual sales exceeded \$1 billion for 2004 and an average annual growth in excess of 18%.

Ferguson

Ferguson is the country's largest wholesale distributor serving the construction industry, and has sales of \$5 billion and nearly 13,500 associates in approximately 800 service centers located in 49 states, the District of Columbia, Puerto Rico and Mexico. Through our hands on training program, you will be exposed to all aspects of the company before moving into career

opportunities in either sales, management, purchasing, operations, logistics, controller and/or showroom retail. Our training program is based on performance and that will determine the pace of your training.

Frito-lay

Frito-lay North America is a leader of fun food products with production operations in over 40 locations throughout North America. Frito-lay produces some of your favorite fun food items with solid brands that include Doritos, Fritos, Rold-Gold and Tostitos. Frito-Lay is a division of PepsiCo, a world leader in snack foods and beverages, with revenues of about \$27 billion and more than 143,000 employees. PepsiCo brands are available in nearly 200 countries and territories.

Gap Inc.

The San Francisco Bay Area is home to our primary corporate functions and operational support teams for Gap, Banana Republic and Old Navy. This includes positions in areas such as store operations, finance, corporate administration and visual merchandising, as well as merchandising, planning and distribution.

On the other coast, our creative designers and product development teams help set the trends from our New York Product Development offices. In Albuquerque, we've centralized key corporate functions into one team. These functions include accounts payable, inventory management services, payroll, revenue accounting, letters of credit/cash management, the property tax/business license group and the

for the separation, analysis and purification of chemicals and biochemicals. Offering the widest selection of separation columns and consumables from a single supplier worldwide, Phenomenex's objective has been to provide the very best column for every application.

Preston Pipelines

Established in 1970, Preston Pipelines has grown into one of Northern California's leading engineering contractors. Preston Pipelines has built strong client-customer relationships that have been the foundation for continual growth. Preston Pipelines has completed over 250 public and private projects each year.

Provost and Pritchard Engineering Group

In 1968, Provost and Pritchard Engineering Group began establishing a tradition of engineering excellence in central California. Today our company offers more registered engineers and local staff than any other engineering office in the San Joaquin Valley. We are proud of having helped our clients bring thousands of projects to successful completion; we have been rewarded with many long-term client relationships and many valuable referral clients.

Quad Knopf Inc.

The largest local firm in the central valley of California is excited to have opportunities for employment in the civil engineering field, at various locations around the rapidly growing central valley. The firm provides engineering services to both private and public clients, encompassing a broad array of projects.

QUALCOMM Incorporated

QUALCOMM Incorporated is a leader in developing and delivering innovative digital wireless communications products and services based on the Company's CDMA digital technology. Headquartered in San Diego, QUALCOMM is included in the S&P 500 Index and is a 2003 FORTUNE 500® company traded on The Nasdaq Stock Market® under the ticker symbol QCOM.

Radix Technologies

Radix Technologies specializes in solving signal congestion, interference, location and classification problems using advanced signal processing algorithms.

Raytheon Company

Raytheon Company is a global leader in defense electronics and complex integrated information systems. We are focused on defense, government and commercial electronics and business aviation and special-mission aircraft. The company is well positioned for growth in missile defense, intelligence, surveillance and reconnaissance; precision strike; homeland security and technical services. Raytheon is also positioning its technologies to meet evolving high-growth commercial markets.

Sav-on Drugs/Osco Drug

Sav-on Drugs/Osco Drug is the retail drug division of Albertsons. The retail drug chain operates over 700 stores. Albertsons operates grocery stores, drug stores and combination grocery/drug stores totaling more than 2,500 in 37 states. You know us by the names: Sav-on Drugs, Osco Drug, Acme, Albertsons, Jewel-Osco, Shaw's, Star Markets and SuperSaver.

Scientific-Atlanta

Founded in 1951, Scientific-Atlanta has always fostered a pioneering spirit and progressive approach to our industry. Now, we are a global communications innovator at the forefront of today's telecommunications revolution.

Solar Turbines

Headquartered in San Diego, California, Solar Turbines Incorporated is a subsidiary of Caterpillar Inc., a Fortune 100 company ranked #1 in its industry, as the world's largest manufacturer of construction and mining equipment, diesel and natural gas engines, and industrial gas turbines. Solar Turbines is the leading manufacturer of industrial gas turbine engines in the 1-to-15 megawatt size range, with more than 11,000 units operating in 90 countries around the world.

Sprint

Sprint is a global integrated communications provider serving more than 26 million customers in over 100 countries. With approximately 68,000 employees worldwide and nearly \$27 billion in annual revenues, Sprint is widely recognized for developing, engineering and deploying state-of-the-art network technologies, including the United States' first nationwide all-digital, fiber-optic network and an award-winning Tier 1 Internet backbone. Sprint provides local voice and data services in 18 states and operates the largest 100 percent digital, nationwide PCS wireless network in the United States.

Stryker Corporation

Stryker Corporation, a fast-paced, innovative medical device manufacturer serving the global market since 1977, has achieved 20 percent plus growth each year — a business and industry gold standard performance. Stryker Endoscopy, a division of Stryker Corporation, is located in San Jose and specializes in the design, development and manufacture of leading-edge video powered instruments and disposable equipment for minimally-

invasive surgery.

Sunrise Growers

Sunrise Growers/Frosun Foods grows, processes, packs, and sells fresh and frozen fruits and vegetables throughout the United States and the world. We are proud to call ourselves the largest packer of frozen strawberries on the globe.

Target Stores

We are an upscale discount retailer that provides quality, trend-right merchandise and everyday basics at attractive prices in clean, spacious and friendly stores.

- America's fourth largest retailer
- 23rd on the Fortune 500 list
- Annual revenues over \$48 billion
- More than 1,200 stores in 47 states
- Give back more than \$2 million a week to our communities.

Teradyne

Teradyne delivers solutions for testing and connecting electronics. It is the world's leading supplier of automatic test equipment for testing semiconductors, circuit boards and modules, and voice and broadband telephone networks. Teradyne is also the technology leader in high performance interconnection systems, providing vertically integrated products and services, including high-speed, high-density connectors, circuit boards, backplanes and complete systems integration.

Trane Company

Trane, a division of American Standard, Inc., is a global manufacturer of air conditioning systems and services sold under the Trane® and American Standard® brands for commercial, institutional and residential buildings. American Standard employs approximately 60,000 people, has manufacturing operations in 27 countries and is included in the S&P 500.

Triage Consulting Group

Triage Consulting Group is a fast-growing healthcare financial consulting firm with more than 150 talented professionals, located South of Market Street, near the

beautiful San Francisco Bay waterfront. Founders Rich Griffith, Jim Hebert and Patti Lee-Hoffmann started Triage Consulting Group in 1994 to meet the unique financial needs of hospitals.

United Rentals Northwest

The world's largest equipment rental and contractor supply sales company with more than 700 locations in North America and more than \$2.8 billion in revenues.

USG Corporations

For almost 100 years, Chicago-based USG has been a leader in producing innovative products and systems to build the environments in which we live, work and play.

VERITAS Software Corporation

VERITAS Software Corporation is headquartered in Mountain View, and employs more than 6,300 people in 36 countries. With annualized revenues more than \$1.5 billion in 2002, VERITAS Software ranks among the top 10 software companies in the world.

ViaSat

ViaSat produces innovative satellite and other wireless communication products that enable fast, secure, and efficient communications to any location. If you're looking to join a team in a proven company, then try us on for size.

VMware, Inc.

VMware, Inc. is the global leader in virtual machine software for Intel-based systems. With more than 5,000 customers worldwide and 80 percent of the Fortune 100, VMware provides companies with a proven set of enterprise products and solutions to consolidate their server infrastructure, improve software lifecycle management and provide application compatibility in mixed operating system environments. Based on the company's patented technology, VMware's products enable companies to flexibly scale and control their infrastructure to quickly respond to business demands, improve return on investment and dramatically reduce total cost of ownership.

Walgreens

Walgreen Company is the leader of the U.S. chain drugstore industry in sales, store growth and profits. The company's strategy is to be the nation's most convenient health care provider. Sales for fiscal 2003 topped \$32.5 billion produced by over 4,000 drugstores located in 44 states and Puerto Rico. With approximately 450 new store openings per year, Walgreens will operate over 7,000 drugstores by the year 2010.

Walsh Engineers Inc.

For more than 40 years Waters Corporation's high performance liquid chromatography, mass spectrometry, thermal analysis and rheology products and services are being used in labs around the world to push the boundaries of analytical science.

Wells Fargo & Company

Wells Fargo & Company is a diversified financial services company — providing banking, insurance, investments, mortgages and consumer finance from more than 5,900 stores, the internet (wellsfargo.com) and other distribution channels across North America. Wells Fargo Bank is the only "AAA"-rated bank in the United States. We help build wealth, process payments, grow businesses and provide mortgages for more than 23 million customers.

Yamabe and Horn Engineering, Inc.

Yamabe and Horn Engineering, Inc. provides a comprehensive range of engineering services in the planning, design and construction phases of public works and land development projects.

Yardi Systems, Inc.

Since 1984, Yardi Systems, Inc. has been the industry leader in the design, development, and support of software solutions for the real estate industry. Yardi's advanced technology offers property and asset management options for every size operation. Yardi clients include multinational corporations with international portfolios and small or mid-sized property managers. Yardi Systems' corporate headquarters is in Santa Barbara.

Happy Happy, Joy Joy! the seasons of 'April March'

April March is, unquestionably the coolest chick on the planet — but she may also be insane. The woman, whose resume reads like an indie kid's fantasy draft ("The Ren and Stimpy Show," "X-Files," Brian Wilson, Yo La Tengo, etc.), is going into labor with her second child on Friday morning. So of course, her first reaction is to go online and apologetically reschedule this interview.

Insane!

April March (real name: Elinor Blake) has the accomplishments of a handful of ambitious people. A cartoonist for Archie Comics, Madonna's "Who's That Girl" video, and "Pee-wee's Playhouse," she was also a tour de force behind the surreal "Ren and Stimpy Show" and served as a main animator and writer for the edgy cartoon. She even co-wrote the theme song, "Don't Whiz on the Electric Fence."

With that on her plate, she also found time to co-record the "X-Files" theme, perform on the "Election" and "Orgasmo" soundtracks, record several still-unreleased demos with Beach Boys legend Brian Wilson, sing with Ronnie Spector, collaborate with Yo La Tengo and Madonna and become a respected underground pop artist who sings in both French and English. And she's also a wife and mother of two kids, Lucian and newborn Piero.

Whew.

April gave this interview Tuesday morning after returning from the hospital, and she proved friendly and insightful despite her fatigue from a sleepless weekend. She even stayed awake long enough to go on tangents about water birthing, and the offensiveness of "freedom fries." We should all be so insane.

Mustang Daily: What did you love first — drawing or music?

April March: It's hard to say — I loved both things from a really early age. I can't even remember ... There was a lot of music in my house and I was always drawing ladies-in-waiting. I guess I was four or five.

MD: What was your favorite "Ren and Stimpy" moment?

AM: There was one that was pretty special because it was an imitation of me — it was in the episode called "In the Army." We had to work really hard on that show and no one got any sleep; everyone was loopy all day. Every morning, it was really hard for me to wake up — you know that feeling, when that alarm clock goes off and you're like, "Oh, f—k!" — and in that episode, they're at boot camp. Ren is trying to get his boots on, and they're tired, and John [Kricfalusi, the creator] was doing Ren's voice and he just went into my voice, saying something like, "I can't keep it together!" like I did every morning. I was honored.

Oh, and Dick Van Dyke came to talk to us one day about comedic timing. There were a million great moments at "Ren and Stimpy," but that one was incredible. He's a genius.

MD: What were the inspirations for "Ren and Stimpy" episodes?

AM: The writers would get together two or three times a week and have gag sessions with ideas. We'd usually do it at a restaurant and things got out of hand very quickly; people would be like, "Who are those people going crazy at that table?" It was definitely a boy's club; I was the only girl in that capacity.

MD: You've worked with some impressive names: Yo La Tengo, Ronnie Spector, Brian Wilson, Madonna. What is necessary for a good collaboration between artists?

AM: Some kind of connection, an artistic understanding; it's more about attitude, a similarity in wanting to experiment. There's some kind of cohesion with an artistic temperament.

MD: I'm a Beach Boys freak, so I have to ask: What's Brian Wilson really like, as a person and as an artist?

AM: He's really sweet and very shy. I remember the first time I worked with him — obviously, I was completely dumbfounded and terrified, and I'm pretty shy, but I could tell he was more shy. Yeah, he's very childlike — not childish, that's different. He's guarded but very playful. The demos are there, in the vault.

MD: Your bio calls you "an ambassador to France from the planet Brooklyn." How does your music combine French and American styles?

AM: I think that just happens naturally, because whenever I work with Bertrand [Burgalat, her longtime producer and collaborator on her 2003 album Triggers], it's his fascination with "What is American?" and my fascination with "What is French?" crossing over.

MD: What music changed your life?

AM: I can't remember what I heard first, but it would probably be the Gainsbourg album with Jane Birkin [Serge Gainsbourg and Jane Birkin, 1969, Fontana Records]. I heard it in fourth grade when my French teacher brought it in. It's really sexy; definitely not something you play for fourth graders — it's like two people moaning and groaning. It's a beautiful album, but I was just sitting in class going, "Wow, what is this?"

MD: What's your advice for college-age musicians and artists?

AM: I think I've sustained this for so long because I was never really worried about pleasing anybody. It's dangerous when artists try to present themselves too much to an audience. It's hard to tailor yourself to what you think people want to see or hear at the moment. It's important to express what is inherently you, so you're contributing something unique.

MD: So, what's still on April March's to-do list?

AM: I want to do another album with Bertrand — that's number one on my list. I want something percussive, kind of like Blonde Redhead's rhythms.

MD: And get some sleep?

AM: Yeah, and that.

Art contest to raise awareness for Pride Alliance

Tawny Grace
MUSTANG DAILY

The Pride Alliance or Lesbian Gay Bisexual Transgender Center is holding an art contest to highlight the difficulties of being LGBT in society. This contest is part of National Coming Out Day, which was held Monday.

Any form of art may be submitted to the Pride Alliance Center until Oct. 22. The two winning pieces of art will be purchased and displayed in the center.

Pride Alliance, which is in its third year at Cal Poly, is not a club. Instead, it is a state-run program recognizing the need for teaching people on campus about LGBT issues, said Maya Andlig, director of Pride Alliance and a part of Student Life and Leadership.

According to the Pride Alliance Website at pride.calpoly.edu, "Pride Alliance provides programming, networking and resources intended to raise awareness and to educate students of diverse backgrounds about lesbian, gay, bisexual, transgender and related issues."

The art contest is open to everyone, and students do not have to come up with new ideas, Andlig said.

There may already be a piece of art a student knows about that represents the LGBT society.

"It is a challenge to all artists out there to consider contributing to a positive climate to LGBT individuals," Andlig said. "The whole point is to challenge them artistically to consider the portion of the population that gets left out."

Part of the reason for having a center is for people to come and be uplifted, Andlig said.

"If you said, 'Paint a couple,' probably in most artists' minds they would be thinking of a male-female couple," Andlig said.

Although the art will only be

seen by the people inside the center, Melissa Commuso, English senior and student coordinator for the Pride Alliance Center, hopes the contest will bring an awareness to LGBT by getting people to participate in the contest.

"It is really hard to find art with LGBT people in a positive light," Commuso said.

He said the contest will get students thinking and show them their

art may already be applicable to LGBT.

"I think it's politically correct these days to be like, 'I have a gay friend,'" Commuso said.

That is as far as people are willing to go though, Commuso said. They do not want to know the issues behind being LGBT.

The Center also holds other activities throughout the year to

help create an awareness of LGBT on campus. On Oct. 18, Director of Women's Studies Mary Armstrong is going to give a lecture about a new way lesbians are identifying themselves. The lecture will be held in

The turnout was good with the films last year, but it tended to be more connected with classes and students who had to come rather than students who wanted to come, Andlig said.

"The biggest goal is that one time in a student's career he or she would go to an event or have an interaction with LGBT issues," Andlig said.

"The whole point is to challenge them artistically to consider the portion of the population that gets left out."

— MAYA ANDLIG
Pride Alliance Director

Bishop's Lounge from 6 to 7:30 pm. Last year, the Center showed films and followed them with discussions. This year, the films are getting cut.

The Pride Alliance Center is located in building 52T rooms 104 and 105 and is open Monday through Friday from 9 a.m. to 5 p.m.

For Helio Sequence, two members is just perfect

Will Sartain
DAILY UTAH CHRONICLE

SALT LAKE CITY — The Helio Sequence, the cerebral, alt-pop duo is proof that, sometimes, size doesn't matter.

With a total of two members, guitarist/singer Brandon Summers and drumming wonder-prodigy Benjamin Weikel, Helio could be called a "small band." But that would be missing the point — sometimes it's not about the size of the band, it's about the motion of the music.

Initially, it's surprising to hear the sort of complete and fleshed-out sound the Helio Sequence is capable of producing.

See, on the band's latest release, *Love and Distance*, the Helio Sequence's lush, airy electronic soundscapes compliment Summers' breathtaking vocal subtlety to create the overall pleasant feeling of warmth and security on the album.

But, while Helio's album is good, its value pales in comparison to the power of the duo in person, in full force.

The Helio Sequence played Kilby Court last week, showcasing the duo's versatility. In order to understand why The Helio Sequence is so mind-blowing live, it's necessary to

understand that Weikel (being the drum-genius that he is) used to keep the beat for another Sub Pop-affiliate band ... called Modest Mouse. Weikel played drums for Modest Mouse on its latest record, and he did such a phenomenal job that his input is still sought by them.

The Helio Sequence brought the dance party to Salt Lake City with its foot-shuffling guitar riffs and head-bobbing keyboard beats.

Live, the band's trademark keyboard lines were sequenced from a laptop, which could be a turnoff for lesser duos because it might detract from the personality of the performance—most bands that rely heavily on a laptop sound like a dead metronome with no feeling. The Helio Sequence is the exception.

There are two reasons for this: The keyboards were saturated and very present, but also clear and audible, and Weikel's stellar drumming.

As the show went on, the crowd became more relaxed and entranced with Helio's music. Summers' vocals had a slight delay to them which was refreshing to hear coming from such a polished band. The Helio Sequence's show was one of the best shows at Kilby Court in recent memory, to be sure.

WIN \$50

added to your membership

Add to your **CAMPUS EXPRESS CLUB** membership through October 31, 2004 and you'll be eligible to win **one of ten \$50 scholarships**, credited to your **CAMPUS EXPRESS CLUB** membership. All value additions 9/20 - 10/31/04 are automatically entered in the drawing.

The **CAMPUS EXPRESS CLUB** is the campus value program, accessed through your PolyCard, which can be used at restaurants on campus, El Corral Bookstore, Health Services, Pony Prints, and for printing at Open Access computer labs. This secure and convenient program makes it easy to get around campus without cash. Your **CAMPUS EXPRESS CLUB** saves time because there are no checks to write, no change to count and no credit card to verify so you're through the line in no time. Save money, too! For discounts currently offered when you use your **CAMPUS EXPRESS CLUB** (or Plus Dollars), check www.cpfoundation.org/express/

If you spend money on campus, save yourself the hassle of cash and checks by using **CAMPUS EXPRESS CLUB**. It's already encoded on your PolyCard. For more information or to add value, check the web site:

www.cpfoundation.org/express/

No minimum balance is required and you may use all the value in your membership at any time, all over campus. If you have questions, call (805) 756-5939 or e-mail campusdining@calpoly.edu.

Everyone adding value to their membership 9/20 - 10/31/04 whether via the web site, in person, by mail, telephone or at an Express Station is automatically entered in the drawing. Winner will be contacted by email or telephone.

It's your choice: A survey that counts

We've all taken them. The surveys your roommates give you for their basic statistics class so they can analyze the standard deviations. Those are great, but I'm going to give you a quick rundown on a survey that will truly affect your life here on campus. That's right, it's finally time to take a survey that will affect the future of Cal Poly.

You may be asking yourself, "Blake are you in basic statistics class and need to know my shoe size?" Not at all. I'm talking about a survey that is going to gauge interest on the future of ASI-run facilities on this campus.

If you were here two years ago, you may remember Survey Man, who asked you questions such as how often you use the Rec Center, how crowded you think the University Union is and how many times have you played intramurals at the Sports Complex.

Thursday morning I am sending you an e-mail, which will give you the opportunity to voice your opinion on the direction we take toward ASI facilities. As you know, ASI is here to bring you the ultimate college experience and represent you, so when tomorrow morning rolls around take two minutes and voice your opinion.

You may have seen on various campus windows the slogan, "Your Facilities, Your Choice." Don't let other people decide for you the future of this campus, do it yourself. By taking this quick survey not only will you have your voice heard, but will have a chance to win an Ipod, Best Buy gift certificates and free textbooks for a quarter. If you don't receive my e-mail, then you can fill out a survey online through the ASI Web site at www.asi.calpoly.edu. It will be available until Feb. 29.

Next quarter the library parking lot will be bulldozed to put up new engineering buildings and 3,000 new units of student apartments will be built in the agricultural area near the bull test unit. The campus is shifting to the Northwest and the only food and retail space for students that spend their time there is Campus Market. This survey will gauge your interest on a few items including a new Union facility to provide recreation, food, retail, meeting and ballroom space, and other programming areas for students next to that location.

Seriously, think about it. What auditoriums are on campus besides Chumash? How many times have you been frustrated that the Rec Center is too crowded? Why do other schools have movie theaters and indoor tracks and we don't? Where do you eat lunch on campus and are there enough options? I know where I stand, but where do you? Be ready to fill out this survey because you have a right to voice your opinion and it truly is your choice.

Blake Bolton is the ASI President and thinks that not only should you fill out the survey, but that you should tell all your friends, classmates and pets to also.

GOT SOMETHING TO SAY? can you say it in 250 words or less?

eBay auctions not helping charity

Tammy Ratcliff
DAILY O'COLLEGIAN

STILLWATER, Okla. — I have had my Lance Armstrong "LIVE-STRONG" wristband for a couple of months now.

Aside from the fact that I am a Lance Armstrong worshipper — he is a god on wheels, winning the Tour de France six times in a row — I bought the band to help support a cause I strongly believe in.

The Lance Armstrong

Foundation is selling these wristbands to raise money for cancer survivors and cancer research.

What infuriates me are those people who are auctioning these wristbands — that only cost \$1, by the way — on eBay for a profit! Not a profit for cancer research, but for the seller's own greedy self.

It is incomprehensible to me that people would try to make money on something that was meant to help millions of people suffering from cancer and to help

find a cure for this terrible disease.

Of course, they couldn't sell them on eBay if people didn't bid on them. I don't know who is worse, the people auctioning them, or the people willing to buy them under these preposterous conditions!

It makes no sense whatsoever.

Go to the official Web site at www.wearyellow.org to place your order — or backorder as it were — or buy it from a legitimate vendor who is selling it for the right reasons.

LETTERS TO THE EDITOR

Respect yourselves and put some clothes on

I didn't realize that naked girls behind snowboards was the best way to get me to join the ski club.

While I turn to the paper for amusement and information, being scared daily by bottle blondes with bad tans has been quite unsettling.

While I understand that sex sells, wannabe Paris Hiltons should be left out of our Mustang. Ladies, have some respect for yourselves.

This is the image that is being construed to the hormonal freshman and men alike who feel its okay to manhandle and disrespect women at bars and parties. I like to leave a little for the imagination anyway, and I definitely didn't use a snowboard across my boobs to get my boyfriend.

Amy Robinson
Psychology senior

ASI column's religious reference unnecessary

I'm writing in regards to ASI President Blake Bolton's column last Wednesday.

I found his religious reference in his column "Seeking an end to parking problems" to be unnecessary and offensive when he said,

"Even though every good and perfect gift comes from above, this one would obviously come at a cost."

I feel that as a supposed representative of the entire student population, not just those in Campus Crusade, he should try to change the situation himself instead of passing it off onto God.

Jessica Dickenson
History senior

Cheaper food makes for more waste

I agree with Mr. Schmidt on "Stand up to the insanity; vote yes on Measure Q," and would like to share some thoughts.

There are many people in this world who adore its beauty, but there are more of those who see its beauty and don't wonder if it will stay that way forever.

Being a part of the nation that has the highest per capita consumption in the world, I can't help but notice that we are in fact consuming like mad. There is lots of wasting going on out there.

Nevertheless, we keep hearing more about new technologies to improve our lives, to be more efficient or even for pure enjoyment.

The question is: How much stuff do we need before it's enough?

I'm for Measure Q not because I don't see the benefits GMOs can bring, but rather its indirect consequences. More food easier and cheaper equals more waste. Not to

mention the increase of nitrate in groundwater due to higher fertilizer use.

I believe what we need are more small scale farmers in America who can grow their crops organically without getting contaminated by the pollens of GMOs plants. The world is changing fast. Let's not have to run after it.

Paolo Sanguaneko
Environmental horticulture senior

'How the Great West was Won' wasn't all that great

Props to Student Community Services for making a statement at the Homecoming Banner contest.

Native Americans have been oppressed by the mainstream society throughout history and still are today.

Our history books don't teach real American history; most people don't know that thousands of indigenous nations were wiped out due to prejudices and greed. This history is consistently overlooked and pushed aside but we can't forget what was done to them.

Even though the Homecoming theme, "How the Great West was Won" is a play on words and was not intended to offend anyone, thanks for reminding everyone that such common phrases can still be offensive.

It makes us think and it causes controversy and awareness. It was awesome and I hope it causes a stir in our forgetful little society.

Tonya Strickland
Journalism senior

BigWest matches last week to UC Riverside 2-0 and to Cal State Northridge 3-2. The Anteaters are 4-7 overall with non-conference wins over DePaul, Wisconsin-Green Bay, Portland and UC Davis. The top scorer for UC Irvine is Brad Evans with six goals and two assists for 14 points. Sebastian Galmarini is the only other Anteater with more than one goal, notching two goals and an assist for five points.

Goalkeeping duties are being shared by Ryan Mathy (1.34 GAA, .696 save percentage, two shutouts) and Cameron Rossi (1.89 GAA, .761 save percentage, one shutout). UC Irvine is coached by George Kuntz (11th season, 231-130-36, Arizona State).

UC Riverside has a 5-5 overall mark and 2-1 Big West record. Last week the Highlanders fell 2-1 to UC Davis, then snapped a four-game losing streak with a 2-0 victory over UC Irvine. UC Riverside is coached by Junior Gonzales (first year, 55-55, UCLA).

The top Highlander scorers are Luc Harrington (five goals) and Scott Barnett (four goals, two assists), each with 10 points. Goalkeeper Charles Alamo has a 1.56 goals-against average, .763 save percentage and three shutouts. UC Riverside opened the season with a 4-1 record.

Cal Poly is 4-5-3 against UC Irvine and 4-2 against UC Riverside since moving to Division I in 1994.

Freshman midfielder Nikhil Erlebach leads Cal Poly in scoring with three goals and four assists for 10 points. Senior forward Ronnie Silva has three goals while senior forward Mark Jones has a goal and two assists. Freshman midfielder Matthew Robinson has a pair of goals.

State. Purdue was seven strokes behind Oregon State in second place while Cal finished third with an 856 total.

Dillon Dougherty of Northwestern and Bobby Bennett of Purdue shared medalist honors with six-under-par 207 totals. Dougherty had rounds of 70, 70 and 67 while Bennett shot 71, 68 and 68.

Cal Poly's other finishers include Brycen Wagner, tied for 39th place with a 72-73-77 — 222 total; Casey Strohsahl, tied for 63rd place with rounds of 75, 79 and 74 for a 228 total; and Peter Morse, tied for 69th place following rounds of 82, 76 and 72 for a 230 total.

Cal Poly's final tournament for the fall season will be the Countrywide Northridge Invitational on Nov. 8-9 at the Wood Ranch Country Club in Simi Valley.

Comeback for a title starts now

Suddenly, it's do-or-die time for Cal Poly women's soccer. The chase for a Big West title runs through UCSB Friday

MUSTANG DAILY STAFF REPORT

After a tie and loss over the weekend, women's soccer has dropped into a tie for fourth place in the Big West.

The Mustangs are now behind Cal State Northridge (4-0), UC Santa Barbara (4-0) and Pacific (2-0-2).

The comeback for a Big West title starts with a critical game against UC Santa Barbara on Friday in Mustang Stadium.

It was a 1-0 loss to Cal State Fullerton, the first conference loss this year, that dropped the Mustangs in the standings. Previously, UC Riverside fought Cal Poly to a 1-1 double-overtime tie last Friday.

Now, only five regular-season matches remain.

The Mustangs' offense suffered over the weekend. Sharon Day did not score in either game. Instead, Becky Clark scored the lone goal of the weekend for the Mustangs.

Day, the Big West Conference Freshman of the Year in 2003, leads the Mustangs in scoring with eight goals for 16 points. Heather Bryan and Clark each has a pair of goals and an assist for five points while Katie Collins has two goals for four points. Three other Mustangs have one goal each.

Goalkeeper Liz Hill has a 0.74 goals-against average and .837 save percentage with four shutouts so far.

The Gauchos are 9-4-1 overall, with two losses in overtime to Oregon State and Hawaii.

UCSB also lost to UCLA and UC Davis and has non-conference wins over Oregon, UNC-Charlotte, Iowa State, San Francisco and Arizona State.

The Gauchos, who have outscored their opponents 28-16, have four players in double digits in scoring, led by Jennifer Borcich with 10 goals and four assists for 24 points. Borcich was the Big West's

SHEILA SOBCHIK MUSTANG DAILY

Midfielder Katie Collins controls the ball moving downfield. The Mustangs' offense needs to rebound from a one-goal week against UCSB.

Offensive Player of the Year in 2003.

Other top UCSB scorers are Allie Kueny with five goals and three assists for 13 points, Randi Johns with four goals and five assists for 13 points and Darci Bickford with two goals and eight assists for 12 points.

Goalkeeper Jamie Considine has a 1.22 goals-against average, .744 save percentage and four shutouts. Backup netminder Catherine Burson has a 0.74 GAA, .810 save percentage and two shutouts.

The Gauchos are coached by Paul Stumpf (San Diego State '89), who is in his sixth season at UCSB and sports a 61-40-10 career mark.

Cal Poly has won two straight Big West Conference women's soccer titles, four in the last five years and is coming off an 18-2-2 cam-

paign in 2003. The Mustangs returned 22 letter winners — 10 starters — off a squad which broke several school records in 2003.

Cal Poly opened its season with a 2-2 draw against No. 3-ranked Santa Clara, then defeated UC Davis 3-2 and Western Kentucky 4-2 before falling to Saint Mary's 1-0 on Sept. 7. The Mustangs then competed in the ECAC Classic in Cape Cod, Mass., defeating Brown 1-0 and battling Maine to a scoreless draw.

In its last two non-conference matches, Cal Poly defeated Sacramento State 2-0 and played a scoreless draw at the University of San Diego. The Mustangs opened Big West play two weeks ago with a 3-1 win over UC Irvine and a 1-0 victory over Long Beach State, both matches in Mustang Stadium.

Cross country prepares to host invitational

MUSTANG DAILY STAFF REPORT

Cal Poly cross country will hold its own invitational this weekend, but coach Mark Conover and some of the top runners won't be attending.

Instead, Conover will be traveling with team members to Indiana for the Pre-Nationals.

The Cal Poly Invitational is expected to field both men's and women's teams from Long Beach State, Cal State Fullerton, LMU, San Jose State, Santa Clara, UCSB, UC Irvine and Ventura College while Pepperdine and Fresno State will field women's team only. Also competing will be former collegiate athletes in the open race.

In the high school division more than 30 schools from around the state will compete. Cal Poly will have select athletes in both races.

The women's race is scheduled to begin at 9 a.m. followed by the men's race at 9:30 a.m.

Cal Poly is sending both a men's and women's team to the Pre-National Invitational. Both

teams will be making the trip with the hope of returning for the NCAA Nationals to be held on the same course on Nov. 22.

Mondo Men's Cross Country Poll

Cal Poly men's team dropped two spots to 12th due to not competing last week and a strong showing by other teams at the Notre Dame Invitational last weekend. Cal Poly remains No. 2 in the west regional poll behind Stanford and ahead of Arizona State.

Cal Poly's Blake Swier (San Diego) was named the Big West Cross Country Male Athlete of the Week after a stellar performance helped Cal Poly to an impressive finish at the Stanford Invite. Swier led the Mustangs to an upset of No. 2 Stanford, running 23:59 on the 8K course to finish fourth place overall 166 runners.

The senior was only seven seconds behind the top individual finisher. Swier, who was an All-Region runner in 2002, redshirted last season.

Bertoni finishes fifth at Berkeley after early lead

MUSTANG DAILY STAFF REPORT

Travis Bertoni once again was in the running to win an invitational.

After taking the lead following the first day of competition, Bertoni shot a round of 75 the final day to finish in a fifth-place tie at the Alistair MacKenzie Invitational hosted by UC Berkeley.

Bertoni had rounds of 67 and 69 on Monday for the 36-hole lead.

Bertoni, who has shot above par only twice in 12 rounds this season and has already won two

tournaments, finished with a two-under-par 211 total on the 6,583-yard, par-71 Meadow Club course.

He was tied for fifth place with Mustang teammate J.J. Scurich and three other golfers.

Scurich carded a final-round 71 to go with Monday's rounds of 68 and 72. His 211 total beat his previous career best for 54 holes by five strokes.

Cal Poly finished seventh among the 15 schools, carding a four-person 864 total, 16 strokes behind team champion Oregon

see Golf, page 15

Home has not been so sweet for men's soccer

MUSTANG DAILY STAFF REPORT

The Cal Poly men's soccer team needs a win at home, bad.

Men's soccer is still in search of its first win at home in four tries after winning a pair of tournament championships to start the season.

The men continue Big West Conference play facing UC Irvine at 7 p.m. today and Sunday against UC Riverside at 4 p.m.

Both matches will be played in Mustang Stadium.

In early September the Mustangs won the Black Bear Invitational hosted by the University of Maine with victories over Quinnipiac and Maine, and also won the Wingate Inn Invitational hosted by Mercer

University in Macon, GA, defeating Georgia State and Mercer.

But in the home opener Sept. 17, the Mustangs fell 2-0 to Gonzaga despite a 16-8 advantage in shots. On Sept. 26, Cal Poly battled San Jose State to a scoreless draw. The Mustangs settled for a 1-1 tie with Alabama A&M on Oct. 3, and in their first Big West home match Cal Poly fell 5-1 to No. 1-ranked UC Santa Barbara.

Cal Poly is 0-3-2 in its past five matches, including a pair of losses in Big West play last week. The Mustangs fell 3-0 at Cal State Northridge last Wednesday.

UC Irvine lost its first two
