Acknowledgments

I would first like to thank my beautiful wife Nancy who has stood by me and my musical endeavors for the past 10 years. Erika for always being there to push me in the right direction, and Tony and Kelly for their constant support in everything I do. My mom, dad, brother, and sisters for supporting me through everything I have chosen to do in my life (including the decision to be a music major!). All the Tackle crew and my friends who have supported me and my music through the past few years.

I would also like to thank Ben, Jamie, and Sam for all of their help in this project and also with the Hot Club of SLO. Without them and their influence, I wouldn't have been able to complete this project.

Also, I'd like to thank Cal Poly, especially the Music Department, for making all of this possible. I'd like to thank all of my professors and teachers who have helped me along the way including: Dr. Spiller, Dr. Brammeier, Dr. Arrivéee, Dr. McLamore, Dr. Barata, Dr. Habib, Dr. Rinzler, Professor Davies, Jim Bachman, and most importantly Druci and Michele for all their hard work. I also want to thank my fellow music majors for their encouragement and making these past three years enjoyable.

Lastly, I would like to thank Dr. Russell, my friend and advisor, who made all of this possible with his positive reinforcement and enthusiastic determination. I can't thank you enough Dr. Russell, for everything you have done.

This project may be the end of my college career, but it also marks the beginning of a new life for me and my family. I would like to dedicate all of this to my daughter Raelynn, because she makes all of this worth it. Daddy loves you so much!
