

Organize, Prepare and Painting Project

Before

After

Why I choose Paint & Primer?

The best Part of my Senior Project was creating something with my own hands and seeing the result of my work. However, I was more than happy to give back to a club who gives so much to our local communities. The Pismo Beach Lion Club is best known for fundraising towards eye-care for the needy, recycle eyeglasses and hearing aids for third world countries. Also, the club fundraises for Support Canine Companions, and the Lions Eyesight Trailer that provides eye exams to students across the county from Paso Robles to Arroyo Grande.

In short, for my Senior Project I was able to play the role of a subcontractor and be my own superintendent. My Paint & Primer SP gave me a set of skills I will take with me and apply them into my career. I learned work organization and management, communication, interpersonal skills, problem solving, innovation, creativity, interpret plans/technical drawing, apply paint to brush and roller.

Key Words:

Paint, Primer, Subcontractor, Superintendent, Pismo Beach Lions Club, Management Skills

Skills	Work Organization and Management	Communication and interpersonal Skills	Problem solving, innovation, and creativity	Interpret plans/technical drawings	Apply paint brush and roller
What I learned	-Health and safety legislation -How to work safely with electricity	-The role and requirement of CM and related trades. -The value of building and maintaining trust working relationship	-The type of problems which can occur within the work process such as poor pasting	-Symbols e.g. for material -Planning the sequence of material	-The purpose of painting: protection, preservation, sanitation, and decoration.
