Scale: 1/4" = 1'

## A photograph of a field site with several rectangular plots marked by wooden stakes and string. The ground is covered in dry leaves and twigs. Large trees are in the background, and a wooden fence is visible on the left.

Two architectural drawings of a deck layout. The left drawing is a plan view showing a rectangular deck with a grid of 5 horizontal and 5 vertical lines. It includes dimensions for the deck area (32'-0" by 16'-0") and various components like 4x8 joists, 2x8 stringers, 4x4 posts, and 20" diameter footings. The right drawing is a section view showing the vertical profile of the deck, including the 4x8 joists, 2x8 stringers, 4x4 posts, and 20" diameter footings. It also shows the 12" diameter footings for the posts. A note indicates that railing exists on grids 'A', '1', and '5'.
