

Farm Stand Build/Service Days for The Ranch

John Calhoun
California Polytechnic State University
San Luis Obispo, CA

This poster outlines the building of a farm stand and service days done for The Ranch which works with the United Cerebral Palsy. The construction of a farm stand was requested by the client because they did not have one and would like to start selling the vegetables that they grow on their property. Additionally, I saw an opportunity to do other improvements around the farm and simultaneously help brothers in my fraternity get service hours. To do this I set up service days where myself and my brothers would do miscellaneous tasks around the farm to improve its aesthetic looks such as spreading mulch, weeding, planting vegetables, and other repairs to equipment and structures.
