

California Polytechnic State University
San Luis Obispo, CA

This paper outlines a section of the organizational process regarding the Hackathon event that will be taking place during Spring quarter of 2022. The Hackathon will be held in the Simpson Strong Tie Building located next to the Construction Innovations Center on California Polytechnic State University's Campus from April 12th – 13th of next year. The specific scope of this paper outlines what a Hackathon is while also outlining the logistics plan along with providing an understanding of the financial breakdown that will support the team in bringing this event to fruition. This event is being spearheaded by a faculty member of the Construction Management Department. For this event, there is a group of four people working diligently to make this Hackathon happen. The purpose of this event is to help alleviate the specific problem construction employees have with the typical day-to-day construction vest.

Key Words: Hackathon, Safety Vest, Logistics Plan, Financial Breakdown, Event
