Series V, No 6  SAN LUIS OBISPO, CAL., OCTOBER 20, 1920  Volume IV. N. 1

KELVIN CLUB.

The Kelvin Club entertained its new members, who number about sixteen, Thursday evening October 4, with a barbecue at Pismo Beach. About thirty members participated in the affair which was the first event given by the club this year.

Quite naturally we associate initiations with an affair of this kind but to the joy of the new members and undoubtedly the disappointment of the older members, the evening became too dark to carry out the plans of the initiations. But remember, new members, there's another meeting coming.

During the entertainment of the evening, numerous games were played but the thing that was enjoyed most of all, exclusive of the barbecue, was the singing of songs around the large campfire, with everyone's taking part.

During the initiation that appeared to Miss Hawk was her first experience in digging clams. She had never before tasted baked clams, but to the aid of Capt. Duddlesdon who roasted the clams for her over the campfire, she had a very pleasant little picnic all of her own. The party started back after a most enjoyable evening and the new members considered the other members ideal entertainers.

The Kelvin Club has decided to change the time of its meetings from Tuesday to Thursday evening. The next meeting will take place at the home of Mr. Hudspith, with Mr. Ryder scheduled for an interesting talk.

THE FRESHMEN ORGANIZE.

The first Freshmen class meeting was called to order October 14 in the Assembly Hall by the president of the Junior class, Alden Davis. The purpose of the meeting was to organize the Freshmen and to elect officers.

During the election, the class showed its need of supervision and organization, though in their enthusiasm, a half dozen would leap excitedly to their feet to nominate one person. In spite of all their trouble and confusion, they succeeded in electing the following officers:

Ralph Chadwick, President; H. Foote, Vice-president; Pearl Barness, Secretary; Richard Wilson, Treasurer.

But the excitement was not all over, for as they came downstairs the upper-classmen were waiting to follow the precedent of ducking the newest and youngest president, in order to initiate him. His ducking did him no harm, but rather we see that it has helped him already.

Agle Club.

The winners of the 1920 pig contest have been announced. Ross McMillian took first place, and Harry Dittmas, second. Other boys in the contest raised larger pigs but did not comply fully with all the terms of the contest. On account of the high cost of feed and the drop in the price of hogs, the boys who came out even consider themselves fortunate. At the present time with the feed prices low and hog prices steady, things look favorable for a profitable contest next year.

A Correction.

Mr. Bendel has requested a correction to a statement made in the last issue of the Polygram. He wishes it understood that he considers the requiring of the tunnel on the inland route of the Southern Pacific a misfortune in that the largest and most interesting engines do not puff past Poly fifty times a day for the benefit of the mechanics.

THE MECHANICS ASSOCIATION.

The second regular meeting of the Mechanics Association was called to order by President Brown Oct. 14, 1920.

Ernest Stiefer reported for the ring committee the beat design that they had found but no definite action was taken.

As the chairman of the Program committee has left school, Warren Sanderson was appointed chairman to fill the vacancy and George Troupe and Charles Bowler, assistants.

The constitution was read with the changes that had been made at the last meeting.

All members of the Mechanics Association who have not paid up their dues are urged to do so at once. November 1, is the limit for delinquencies. Pay up your dues and let's get something doing.

THE AGRICULTURAL ASSOCIATION.

The regular meeting of the Agricultural Association was called to order Oct. 14, by President Burr. E. Van Schaack, Chairman of the exhibit committee reported that the Agricultural Association will have a booth in the Civics Club Auditorium and the following members will be in charge: C. Gill on Tuesday evening; R. Burr on Wednesday evening; H. Tuley on Thursday evening; F. Wright on Friday evening and H. Ditmas on Saturday evening.

The Association also plans on running a concession, both on the live stock grounds at Poly. The San Luis Obispo County Live Stock Association has given this concession stand over to the boys and the proceeds go to the Agricultural Association here. The boys are very enthusiastic over this as it means more funds for the club.
THE POLYGRAM

A bi-weekly publication issued by the students of the California Polytechnic School, San Luis Obispo, California.

Rates.
One dollar per year. Single copy 10 cents.

STAFF
Ernest Steinert, Editor
Elsworth Boys, Business Manager
Gertrude Truesdale, School Notes
Anna Goise, Society
Arthur Howard, Athletics
Alma Tognazzi, Athletics
Theda Ruter, Jokes
Carl Gill, Agricultural Reporter
Ernest Voss, Mechanics Reporter

Others who have contributed to this issue of the Polygram are: Dick Astor, Laura Miller, Mary Chaves, and Mr. Miller, one of the Federal Board men.

Bulletin Supplement. Entered at the Post Office at San Luis Obispo, Cal., as Second Class matter.

Printed by San Luis Obispo Tribune

WHY NOT A SCHOOL BAND?

Why can't we have a school band here at Poly? We have an orchestra, a boys' and girls' glee club, but no band, although one has been promised us many a time. There are many students who can and are willing to play some instrument so that all that would be necessary is to get them together under an efficient leader. With a little practice and a "lot of racket" a creditable school band could be turned out in short order.

Wouldn't it be more of a pleasure to march to the music of a band during a battalion review, and during participation in a local parade wouldn't we feel prouder if we had a band to lead us?

At our rallies a band would come in mighty handy as a noise maker and an extra man to let people know that there is going to be something doing the next day. During an athletic event wouldn't a band cheer up our team in time of despair and when they have scored? It would at least let the other school rooters know that Poly is alive.

Lastly, a band always adds credit and pep to a school. We want both so.

Let's Have a Band!

EXCHANGES

The Polygram acknowledges the following exchanges: The B. A. H. E. Generator, Santa Ana; Guard and Tackle, Stockton; Pasadenan Chronicle, Pasadena; The Kohlbur, Corona; Trident Weekly, Santa Cruz; The Tamalpais News of Marin County; The Campanile, Palo Alto; Red and Gold, Chico.

The Polygram desires to hear from all the school papers on last year's exchange list and also from those who as yet have not been on our list. Our students like to know what is happening at other schools in the way of athletics and other school affairs.

A CLIPPING

The following extract from what is to all appearances a description of the trip from Santa Maria, has come to the notice of the Staff:

"Reckless abandon enlivened the return from the football game at Santa Maria from the moment the tiny P. C. cars were standing on the siding until they jammed their way through the congestion at the S. P. depot in San Luis. "They did not start for home as soon as the game was over because the engine had taken the train down the line for a spin and had forgotten the time to come back. He had thoughtfully left two coaches on the track (doubtless a packing of the car) but the engine driver stuck to the coals and consequently everyone tried to pile on. In view of the fact that they had filled three coaches going down, and many had eaten a great deal while there, they naturally would not fit.

"After Mr. Hess had caused considerable displeasure by lighting all the lights, the gunner engineer returned. In the general excitement of getting started home, the boys stopped rocking the cars, people settled down, and—"

Here the narrative seems to break, so broken that the Staff felt that the Freshmen at last, would be able to follow the thread of the story.

Miss Howe: (assigning Chem. lesson) "Take arsenic for tomorrow."

Reybourn: "Won't that kill us?"

Miss Howe: "Oh, no! It's only two pages."

POLY vs. SANTA MARIA

Saturday, October 9. Poly led the first football game of the season to Santa Maria High by a score of 20-0.

We made some fine gains on our line back but between Santa Maria's forward passes and the five-yard penalties we never quite managed to score.

The first quarter ended with the ball in the middle of the field and no score on either side.

Shortly after the beginning of the second quarter, Little Gunnell of B. M. slipped around and evaded the half, made a touchdown and kicked goal.

The second half found Poly full of pep and ready to go. We backed them to within four yards of their goal but were forced back by two penalties in a row. Santa Maria made another lucky end run for a touchdown and missed the goal.

The last quarter gave B. M. another touchdown on a forward pass and they made their goal. Our men scrambled right up to the last minute and as the play got rougher Brown and Burr were carried off the field.

The Line-up for Poly:
H. Brown—Capt. R. E. Howan
Chris Hodel.................................. R. O. Van Schoick
Heyburn........................................ C. O. Hodel
Aston ............................................. L. G. Aston
Guyton ....................................... L. T. Guyton
Burr ............................................. R. H. Burr
Troops ......................................... Q. B. Orr
go
West ............................................. L. H. West
Substitutes were Chadwick, Potter, Tuley, and Chatten.

FEDERAL MEN TO BENEFIT BY NEW COURSES

A special course of lectures in shop science and mathematics will be given in Polytechnic to the Federal men for the benefit of the ones that are in need of more instruction, and to help those in charge to determine what each man is best fit for.

The faculty has arranged for the instructors to give forty-five minute periods a week to instruction in lecture form, from two-thirty to three-fifteen. And Federal man who is anxious to get ahead and who is willing to stay that much longer may enroll in the classes.

Mr. Duddleson urges that everyone who is physically able to take advantage of this course.

SINSHEIMER BROS.
THE POLYTECHNIC DAY.

The Farmers' picnic has changed its name to Polytechnic Day, but the date, October 22, remains the same. The live stock show however will be held on the Poly grounds from October 21 to 23 inclusive. Prize awards that are to be made at that show were settled upon at a meeting of those in charge at the Elks' club-room on October 14.

The school display will be held Friday morning, October 22. There have been no definite plans made for the laboratory exhibits yet but it was stated by the head of the Household Arts Department that the girls will demonstrate the preparing of different kinds of dishes, the using of different appliances for sewing machines, and the making of various other articles connected with the Applied Arts course.

The agricultural and mechanical students will have their different displays in the various shops.

MOMENTS OF SUSPENSE.

What screaming—can you imagine what's going on? What are they doing? Those were some of the questions that the Freshmen girls who were late Thursday morning were asking. It did not take long to find out. The upper class girls surely had a good time. The finished Freshies looked so very charming with their hair down their backs—oh, no, not that either, for some of their hair stood straight up and some stood straight out in front of their faces. Every one of them had twenty-four yells and stunts were pulled off with hair down their backs—oh, no, not that either, for some of their hair stood straight up and some stood straight out in front of their faces. Every one of them had twenty-four yells and stunts were pulled off with hair down their backs.
