PLANS ANNOUNCED
FOR DRAMATIC CLUB
IN POLYTECHNIC

Definite plans are being made for the organization of some sort of a dramatic club in Polytechnic. The school already has many organizations, but none of them has to do with either dramatics or debating.

If enough students are interested seriously in taking up such work a stage and a small theatre would be built. A dramatic club would be given credit for any money that is raised by its activities for the upkeep of the theatre.

Next year when the print shop is established, the staff hope, for the rest of the year.

New conditions, however, may change the policy of the paper at any time. The Tribune, as it has been stated before, does the press work at a little less than five dollars an issue; all other work will be done either by Mr. Davis or under his supervision. All job work that comes into the shop, whether from class or club is charged for at a reduced rate, as some charge must be made for the upkeep of the shop. There is at present no fund from the state for that. Nevertheless, if enough students are interested, it has been found possible to do Polygram work without even a reduced price.

Most of the work will be thrown on Mr. Davis, as none of the students is advanced enough to do such work. The next number of the Polygram will not be out until December 14.

Thanksgiving will be given credit for other student body activities as credited—athletics and publications staffs, for instance.

The theatre management will be under student control as are athletics and publications.

The school which goes out for athletic sacrifice time and effort, as do members of the Poly staff, nevertheless, is a part of our system. If the students who for various reasons take no part in such student activities. Think of the present attitude of going in for such a project. Consider whether or not you have the time—the same time that the men use for athletics.

If you want to work in a dramatic organization, sign up in room 6. The membership will probably be limited, so do not put off action.

Do not let anyhody hold you back: If you find that it is, then you need do not put off action.

The school needs every student in some student body activity: here is the chance for which so many of you say you have been waiting.

ALUMNI GET SAMPLE COPY OF POLYGRAM

Sample copies of the Polygram are being sent to the alumni of Polytechnic of the last three years in the hopes that a subscriptions list may be built up among them.

If any of the students desire to have high schools with which he is a familiar put on our exchange list, he will help the circulation manager, would be glad to have the addresses.

POLYGRAM TO ISSUE SPECIAL NUMBERS

The basis on which the Polygram and print shop are to function in their relationship to each other has been established, the staff hopes, for the rest of the year.

New conditions, however, may change the policy of the paper at any time. The Tribune, as it has been stated before, does the press work at a little less than five dollars an issue; all other work will be done either by Mr. Davis or under his supervision. FOR MILITARY GOVERNMENT

There has been a great deal of discussion concerning student control instead of the present military government. What is wrong with our present plan of discipline? Nothing! If students gain control they will stick to it. So very long because it is only natural that students should be placed in control of equal standing to tell him what to do. Why have our president, vice-president and faculty for? Are they just to tell things from books instead of making a complete and definite length of time without danger of failure. They are not, and a student expects to be corrected by his superiors and not by his fellow students.

As for uniform dress and military training, one needs only to look over the field of high-school men during drill period or at assembly and see that everybody looks the same—whether they have worn a picture of the men of most high schools come before one’s mind, dressed in exactly the same manner just because some other students dress expensively. Other times they are dressed in small schools, small attention is paid to dress and most any old thing is worn.

We are all proud of our men at Poly and nothing makes our pride greater than to see them in uniform in a parade or at game. The uniforms alone give one the impression that the work they are doing is worth something.

FREE TEXT BOOKS!

A school such as ours, having a course of study similar to the ordinary high school course, and run, as it is by the state, should be authorized for several reasons, to furnish their text books in summer months. Many students, working their way, have neither time nor money to go to college, so they come here rather than go to high school, in order that they may acquire the finishing touch necessary to enable them to face the problems of life and business in an honorable and profitable way. When they leave here they will go to work. Why then, should not they who leave as a finished product of our school be furnished with as many books as necessary to enable their facing the problems of life and business in an honorable and profitable way? It is so easy and profitable to let them have a full course of study similar to the ordinary college course, and in order that they may become an asset to the play next spring and a committee was appointed to select one that would be the better.

DAGGERS! TARANTULAS! PHYSICS!

(From a noon-day meal at the C.P.S. Dining Hall)

"First come, first served" (freshman).

"After you, you come first" (sophomore).

"Fast as a sound! Left by thee, sir! (first sergeant).

"Get right in here behind me" (Bud).

(1) Reich—I dreamed that I was having a great battle! Single handed, with a dagger in each pocket and one of our new bayonets in one hand, I cut them down as fast as they came. One of them grabbed the blade and it best, twisted around his wrist. Also for me, but steady. Quick as a flash, I grasped one dagger from my pocket and aiming full at his evil heart, I stabbed and broke "it"—my watch, hanging on the head of my bed.

(2) Rock—Speaking of tarantulas, one September evening, about noon, I was passing everything this side of San Francisco, in my big powerful Chevrolet, when I remembered to note on the Cuesta Grade, a monster tarantula and a poor, little Ford were arrayed in battle. The Ford had the best of it, as far as noise was concerned, but all at once the tarantula swung round with his left hind leg, and, talk about kick, almost as much kick as Standard Gas—he kicked Henry—O! Henry clean off the grade, and dust! well, anyhow, when it was all over, in the near dim distance, Henry could be seen going up the old grade, and the tarantula (with a Ford license on her back) was gone.

Mrs. Theisen—What a kind of a man was Thomas Jefferson?

Anna Chavis—Well, he was handsome, went to college, was married, etc. (Now do you wonder why she yelled "fire" when she heard the ringing of the street-car bells.)

John J. Smith, known as the brains of the Ag class, has given up his shearing.

(3) Lumley—And then she said to him, "Columbus is in Ohio," and 1 longed for them both. "Vaseline!—I always sleep with my gloves on; that is what makes my hands so soft."

Harry—If you suppose you sleep with your hat on, too, then I cut this villain's throat, and carve your deceiving heart from you, then I'll go back to King City and breathe some real fresh air."—Bo'y.

Mrs. Theisen—What kind of a man was Thomas Jefferson?

Anna Chavis—Well, he was handsome, went to college, was married, etc. (Now do you wonder why she yelled "fire" when she heard the ringing of the street-car bells.)

John J. Smith, known as the brains of the Ag class, has given up his surgical career to become a sheep shearer.

Teacher (won't say who)—Told me over the phone, "Teacher, is that the end of the world?"

Mrs. Theisen—The women get their shoes made in Russia, don't they?

Mrs. Preuss—Yes, and the boys am using the sheare.

Mrs. Theisen—What kind of a man was Thomas Jefferson?

Anna Chavis—Well, he was handsome, went to college, was married, etc. (Now do you wonder why she yelled "fire" when she heard the ringing of the street-car bells.)

FOOTBALL SEASON ENDS SUDDENLY

Football season came to an abrupt halt for Poly Tuesday of last week due to the cancellation of the games with San Jose and Atascadero on account of the illness that is spreading around and which has already claimed two of the men out of the lineup. The athletic committee deemed it advisable to call off the Thanksgiving game we had looked forward to for the last few weeks.

In order to have this game it was necessary to guarantee some four hundred dollars and we run the chance of losing more of our players with few substitutes to call on.

Tuesday night, our last practice night, all the football men with the exception of Captain Potter and Ernest Hodges, pictures were taken. We had a couple of action pictures taken as well as a picture taken of the gang in a group. After a few jokes, we each arranged the team line and held until the football banquet, to be held later.

HAUL ANCHOR, FOR WE'RE OFF AGAIN

On that old barge "Basketball," headed B. Hodge for the basketball championship of the conference. Since football season is over we have a clear field for one of the most successful or the most successful years Poly has ever had in this line.

After all, it can be only what you make it; if you want a championship team, you will come out and battle for the place of a champion.

If football is too tough and you did not care to go through the rigors of fighting tactics or your folks forbade you getting your features wrecked, here is a chance to show your real patriotism to your school and your fellow students.

Coach Agoati will secure the Civic Club, which is, as last year's team knows, as good a gymnasium as it is possible to find around here. The athletic committee promised to furnish an unlimited number of suits and so you can be sure of plenty of equipment.

The trips will be of the best obtainable better even than the football trips. Games have been promised from Sanford, Fresno, Los Angeles. Santa Barbara, besides a trip to the north, probably Chico. We will also have many games at home, so you are assured of plenty of travel.

We should have at least twenty-five men out for practices this year. No grab you now but if you are a student and you will be at the Civic Club for the fun.

SPORTING GOODS

To and from every possible courtesy to you and your friends while visiting our theaters.

W. B. MARTIN, Mgr.

FOOTBALL MAN ILL

Ernest Hodges, who plays guard for our eleven, is confined to his bed as the result of a severe cold and sore throat. But in a week or so, "Fat" will be with us again as usual; but may never all his illness, he won't be "Fat" any longer.

SENIOR GIRLS WIN AT BASKETBALL

At a hard-fought game last Friday afternoon the senior girls were victorious over the remainder of the girls by a score of 19 to 16, according to another score, the Juniors, Sophomores, and Freshmen won by one point, the score being 16 to 15. This difference in scores was very apparent as one of the scorekeepers for a Junior, the other a Junior. Out of due respect to the editor, we will not name the Senior's scorekeeper, but Randolph Recht kept the victorious score for the other side.

The game was played in thirds, the girls playing their hardest, throughout the entire game. During the first and second thirds the Seniors were far ahead, but in the last third their opponents seemed to have warmed up considerably and the score became nearly equal.

The line-up was:

Seniors
Anna Chavez ........ Goal .......... Wilma Racquet
Alva Martin .......... Goal .......... Josephine Ebersole
Claire Groesdale .......... Center .......... Helen Rutherford
Dale Van Wart .......... Center .......... Miss H. Jonnson
Maril Bellers .......... Guard .......... J. M. Rutherford
Maryann Word .......... Guard .......... Pat Recher

In the near future the girls will play again and there will be fewer three scorekeepers and maybe more.

BLOCK "P" MEETS ATASCADERO

The second meeting of the Block "P" club for this year was held last Thursday in Mr. Agoati's room.

Several important questions were discussed, among them being the setting of a date for dues to be due (with fines thereafter), the setting of a date for initiation of new members and the choosing of officers for 1918—1919—and appointment of a committee to select some form of activity in the near future. Block, Mars, and Lumley were appointed to the committee by President Annin. They make their report on the Thursday after Thanksgiving, which will be the next regular meeting.

By unanimous vote, President Annin was instructed to purchase some suitable things for Potter and Hodges, to show them that we haven't forgotten them.

The Block "P" Club gives thanks for the beginning of a good season, but warns those who intend to go out basketball next year that they must be very careful not to sprout too many pinfeathers next Thanksgiving.

Basketball Class Series

Mr. Agoati announced that there will be a series of games between the classes of Poly. This will stir up greater interest among the students and will also bring out new material for future years and future teams.

The men of the regular team will not be able to play for his class, but as a basketball team consists of only five men, each class should put on the five good basketball players.

Bring on your class team and see who's who as to basketball champions. Rookies, get behind your class.

SKATES AND ATASCADERO

Coach Hodge sure started something when he chartered the bus and reserved skates at Atascadero.

He reserved skates for twenty (by the way, they forgot to reserve them) and thought the boys might find twenty.

Well, slowly, one by one twenty-four people drifted up to the Civic Club. Coach gave out the skates, got out the seats and we skated forth at 8:17. The boys didn't have to push the car over the grates as they were overwhelmingly expected to, and the journey was fine. Olaf's hat disappeared several times, the lunch was taken, and it was in general a harmonious crowd, but we got there. We had deposited us at the lake, that is part of us, and left us to our own. We sure pity those who went to town for dinner. We cleaned up the oaks, fed the scraps to the walking garbage can and settled our dinner.

The bus returned and we bumped up to the Community House. We called for the reserved skates and found that we had lost out on that part. Some of us got out skates, and times didn't exactly drag on the other.

Well, the floor was slick—we didn't take many spills. We dusted up the floor, then the rest of the school began to arrive. Miss Woods counted forty—and some weren't exactly conscious. Some of the boys escaped without any broken bones (the ones who didn't skate). Well, we all had a good time and after 10 o'clock Miss Woods managed to collect us and we rushed for the bus. The back seats were all taken and the last light was given.

Miss Woods bewilderingly answered numerous questions as to what that last street was, what is that skating etc.

When we got home Hodge managed to collect all six buses from most of us and we parted at the court house, stiff, sore, tired, and not very sleepy—but happy.

The Code of a Good Sport

Then shalt not quit.
Then shalt not alibi.
Then shalt not gloat over winning.
Then shalt not put off the inevitable.
Then shalt not take unfair advantages.
Then shalt not ask odds thou are unwilling to give.
Thou shalt always be ready to give things opponent the chance.
Thou shalt not underestimate an opponent who beat thee.
Remember that the game is the thing and not what he thinketh other.
Wish thou a mucker and upright sportman.
Be on the game thou playest, for he who playeth the game straight and hard wins even when he loses.

—Exchange.

William John claims that wines making is moving east (yes).
