Editorial

I wonder how many people would like to talk about the way they talk. If they do, they certainly have a reason around this school, one must be a saint, even then ones character might be in danger.

The word a number of harmful, mean stories going around this campus have little or not too much of which themselves. People say that women are cuty. Some of the boys at this school have proven themselves to be the most ruthless creatures imaginable. Stories such as have been told do absolutely no good to anybody and do a lot of injury to the person or persons involved. Can't we give them the just benefit of a doubt, and let them prove that if you can't say anything good about a person, keep your mouth shut! Be a booster, not a knocker. The reputation of your school is endangered by such talk.

There's as much good in the world as we

And so much bad in the best of us,

That scarcely behooves any of us

To talk about the rest of us.

C. M.

Wouldn't you feel just a little hostile and unfriendly toward an acquaintance or chum of yours who came up to you and said, “Did you know you were a thief?” Having always felt proud of your past record of honesty, you would done well with the least effort. By doing this, you can accomplish much, and wish to regain.

and likely as not, we are wasting that which, in later years, we will indeed benefit of a doubt, and let it go at that? If you can't say anything good about
