A workshop

Animals and the Scientist: Institutional Responsibilities

How to Run Effective Animal Care and Use Committees

May 21-22, 1984
The Johns Hopkins Medical Institutions, Baltimore, Maryland

This workshop is the first of a series of regional educational workshops to be held during 1984-85 by the Scientists Center for Animal Welfare in cooperation with major universities. The purpose is to explore the state of the art of Animal Care and Use Committees. These multidisciplinary committees, established by biomedical research institutions on an optional or required basis, review laboratory animal care and use for compliance with nationally accepted humane standards.

The goal of the workshops is to identify essential functions, membership criteria, and procedures of effective committees. A final consensus conference will develop national guidelines.

Other scheduled workshops in this series include:
Michigan State University, East Lansing, October 11-12, 1984.
The University of Southern California, Los Angeles, November 14-15, 1984.
and additional workshops to be announced.

Who should attend:
Current and potential members of Animal Care and Use Committees
Research investigators whose work may be reviewed by such committees
Scientists of all disciplines who are interested in policies affecting the welfare of animals used in research, testing, and education
Laboratory animal personnel including veterinarians, laboratory and animal care technicians, and students
Institutional officials involved in allocation of resources and establishment of policies affecting laboratory animals in their facilities

Call for Papers

Environmental Ethics: New Directions

a conference to be held at the
University of Georgia Center for Continuing Education
Athens, Georgia
October 4-6, 1984

Papers are welcome on any aspect of environmental ethics. Preference in selection of papers will be given to manuscripts which focus on new areas of study in environmental ethics or make significantly new contributions to the field.

Guidelines for submission of papers are the same as those for Environmental Ethics, except that the submission fee is waived. Manuscripts and abstracts should be submitted in triplicate. All should be nonreturnable, clear, clean copies. All material including footnotes, block quotes, and abstract should be double-spaced. Footnotes should be placed at the end of the manuscript on a separate sheet of paper and numbered consecutively. For matters of style, consult the University of Chicago Press Manual of Style. The author's name should not appear on the manuscript copies.

Speakers selected will receive reimbursement for on-site conference expenses: accommodations and meals.

In order to be considered, papers should be sent before June 1, 1984, to:
Eugene C. Hargrove, Editor
Environmental Ethics
Department of Philosophy
The University of Georgia
Athens, Georgia 30602

The editor will be happy to discuss possible paper topics by mail or telephone (404/542-6875).
Call for Nominations for
Psychologist of the Year Award
to be given by PsyETA (Psychologists for the Ethical Treatment of Animals) this August at the 1984 Toronto Convention in the form of an attractive plaque reading:

PSYCHOLOGIST OF THE YEAR
For exceptional contributions
To the advancement of
Animal Welfare, Science and Philosophy

Nominees should address the issue of ethical treatment of animals while contributing toward easing their pain and suffering in the laboratory or elsewhere. Please send nominations with description of person's contributions to:
Dr. Emmanuell Bernstein
Glenwood Estates
Saranac Lake, NY 12983

The Georgia Center for Continuing Education
proudly announces
SECOND ANNUAL ENVIRONMENT ETHICS CURRICULA
DEVELOPMENT WORKSHOP

July 12-14, 1984

A Second Annual Environmental Ethics Curricula Development Workshop is being held at the Georgia Center for Continuing Education July 12-14, 1984, to assist colleges and universities with the development of a basic course on environmental ethics. Faculty from any department interested in offering a course in the subject are invited to participate.

The workshop will be conducted by Dr. Eugene C. Hargrove, editor of Environmental Ethics. Dr. Hargrove has had extensive experience in the field of environmental ethics both as an editor and as a university professor, and has developed both undergraduate and graduate courses in the subject at the University of Georgia and the University of New Mexico.

The workshop will cover the following subjects:
The role of philosophy and theology in environmental affairs
The social and political implications of environmental ethics
Aldo Leopold's land ethic
The philosophical foundations of animal rights
The foundations of legal and moral rights for natural objects
The grounds for obligations to future generations
The registration fee of $60.00 will include refreshment breaks, instructional materials, a banquet, and a luncheon. The workshop will begin at 1:30 p.m. on July 12 and end at 12:00 noon on July 14. Dr. Susan Power Bratton, a research biologist for the National Park Service and director of the cooperative unit at the University of Georgia's Institute of Ecology, will speak at the banquet on "National Park Policy and Environmental Ethics." On the last day Dr. Walter L. Cook of the University's School of Forestry will speak on "Environmental Ethics and Wilderness Recreation."

For more information or to register, write to the Environmental Ethics Curricula Development Workshop, Georgia Center for Continuing Education, The University of Georgia, Athens, Georgia 30602.
