University Honors Program Announces Teaching Assistant Pilot Program

The University Honors Program is unveiling a teaching assistant pilot program in winter 2010. The goal of the pilot program is to capitalize on the power of the uniquely diverse student body in the Honors Program by providing an opportunity for Honors students, well into their degree program, to take a leadership role in the educational process of lower-division students. Faculty members and participating Honors students will be given freedom in their choice of teaching assistant duties. Possible duties should include those that give the Honors student the direct opportunity to interact with other students in a teaching capacity. We hope that this opportunity will be of benefit to both Honors students and Cal Poly.

For more details on the program, or to recruit an Honors student for your course, contact the Honors Program at: honors@calpoly.edu
