545 Register At Cal Poly

Enrollment figures continued to near this week at the registrar's office con­
tinuing to progress. The number of full and honors students is approximately 110 and have increased.

It is interesting to note that more than 300 of Cal Poly's full enrollees are freshmores.

Sophomores Pick Leaders

Bill Himmel, an air conditioning student, was elected president of the sopho­
mores' class at a meeting Tuesday evening attended by the members of the class.

George Barnett, a national animal in­
terests, will be the president of the freshman division. The sophomore and upperclassmen will be selected by the respective divisions.

Ralph Gaffney, an environmental student, was elected president of the junior division.

Committees Appointed

Parity advisor for the class is Ernie

Hermes. Committees for the freshmen reception and dance and for the annual fresh­
men's' banquet were appointed.

Ralph C. Rolfe, a mechanical student, was termed the freshman class president.

Rules For Freshmen

1. Keep your dorm a clean, unsmok­
end room. Clean up for inspection.

2. Be on time to all classes.

3. Do not delay your studies.

4. Be on time to all activities.

5. Wear a good, green, orange, and white uniform.

6. Keep your dorm neat and clean.

Polytechnics Urged To Assume Initiative In Campus Affairs

Julian A. McPhee, president of Cal Poly, urged the Polytechnic student body to take a more active part in the affairs of the college, and to assume an active role in the administration of the school.

McPhee said that the students should not wait for the administration to take action, but should take the initiative themselves.

Polytechnics Urged To Assume Initiative In Campus Affairs

Julian A. McPhee, president of Cal Poly, urged the Polytechnic student body to take a more active part in the affairs of the college, and to assume an active role in the administration of the school.
The isolation of California Polytechnic a mile or so from the center of San Luis Obispo frequently has resulted in the development of a complacency or apathy on the part of townpeople and students toward each other.

San Luis Obispo residents occasionally have been inclined to take the school for granted and forget that the school needs their support to improve its standing as California’s largest and most progressive technical college. On the other hand, representatives of Cal Poly once in a while have tended to allow themselves to become aloof from community activities.

To strengthen the bond existing between the school and the town was the purpose of two programs held this week. One, a radio program, brought townpeople to the other, an open-air rally in the Cal Poly grandstand. During the radio program, Student Body President John Curricurru made a few remarks along the theme that life was more fun when the college and the city worked together.

“During the 90 years of Cal Poly’s existence there has been an invisible boundary which has divided the college and the city into two parts,” said President Curricurru during the rally. “This year, Cal Poly students and faculty members will work toward the elimination of this boundary which would be lacking if the college did not exist. On the other hand, these 600 young men must depend almost entirely upon San Luis Obispo and vicinity for their social life and recreation, and this year they will strive to carry out the idea of working together in the interest of the common good.”

“The policies which we sponsor to improve and enlarge the school can never succeed without the help of the residents of this city—and we know that improved and enlarged California Polytechnic is of vital economic importance to the city.”

The teams were the first in a series planned to improve the friendship existing between the college and the town. It is an objective toward which all Cal Poly students and faculty members should strive.

**CAMPUS AND TOWN COOPERATE**

Panoramic Restaurant

Touring the campus for one of the many worthwhile events. Among those, three bugs in particular stand out: they have the power to clean the pens of many a student. As each one of these bugs gets in your system, it is realized that going thriugh a general university course does not always mean success. Many universities where this feeling is almost impossible, since it is both the symbol and extract of the school as a whole. Our participation in football activities is less the expression of material since it is both the symbol and extract of the school as a whole. You know that you have a problem when the quarters are short. But when the quarters are short, it is then that you begin to realize that you are losing the game.

As each one of these bugs gets in your system, it is realized that going through a general university course does not always mean success. Many universities where this feeling is almost impossible, since it is both the symbol and extract of the school as a whole. Our participation in football activities is less the expression of material since it is both the symbol and extract of the school as a whole. You know that you have a problem when the quarters are short. But when the quarters are short, it is then that you begin to realize that you are losing the game.

As a representative of California Polytechnic’s student administration, I feel that a better cooperation can be realized between the school and the city of San Luis Obispo.

“The policies which we sponsor to improve and enlarge the school can never succeed without the help of the residents of this city—and we know that improved and enlarged California Polytechnic is of vital economic importance to the city.”

The team was the first in a series planned to improve the relationship existing between the college and the town. It is an objective toward which all Cal Poly students and faculty members should strive.

**THE TEAM REPRESENTS US**

The bright lights in the huge stadium reveal two brilliantly uniformed groups of men pushing toward each other. A great sound miles from 100,000 bystanders. A big-time football game is in progress. Two nationally known university teams are battling for supremacy.

The sun came between brown hills and jagged peaks shows another football game being played. One of the contesting teams is Cal Poly.

There are both football games, but of course they differ in physical site of student bodies and forms. But there seems to be another difference—in spirit.

Let us lack the football game to the student body itself. At Cal Poly, students know what they want and are persevering to get it. A great majority here are working themselves through school in order to be self-determinationnist. This is a difference from many universities where this feeling is almost impossible, since it is realized that going through a general university course does not lead anywhere. Cal Poly students have this inspiration of knowing a definite goal and trying one’s best to get there.

This same idea makes itself apparent in the attitude of the student body itself. At Cal Poly, students know what they want and are persevering to get it. A great majority here are working themselves through school in order to be self-determinationnist. CLUB NEWS

AIR CONDITIONING CLUB

The Air Conditioning club met Tues­
day night to hear a talk by Mr. J. R. "Jock"
Schmidt, the owner of the La Tropical Restaurant.

The meeting was called to order by Mr.
Bill H. Williams, the president, and the club
then heard a talk by Mr. Schmidt on the history of
the La Tropical Restaurant.

The club adjourned after the talk
was over.

POULTRY CLUB

The Poultry Club will have a meeting
this week to discuss the future of the club.

The club will be divided into three parts:

1. The new members will be divided into
three groups and will have their meals
at the Poultry Club.

2. The old members will be divided into
three groups and will have their meals
at the Poultry Club.

3. The members will be divided into
three groups and will have their meals
at the Poultry Club.

The meeting will be held in the main
building of the university on Thursday night.

FACULTY CLUB

Presentation of committees and the
program for the next year will be made
by the faculty club next week.

The program will include the follow­ing:

1. The history of the club.

2. The future of the club.

3. The current events.

4. The future of the university.

FACULTY OFFICERS

The faculty officers will meet next
week to discuss the program for the next year.

They will meet in the main building of the university
on Thursday night.

LOSCEREBOS

The first meeting of Los Losches was
held Wednesday evening in the main building.

The meeting was called to order by
Mr. J. R. "Jock" Schmidt, the owner of the La Tropical Restaurant.

The meeting was adjourned after the talk
was over.

DEUEL DORN

At the first meeting of the Deuel
dormitory on Thursday night, the
members were divided into three groups.

They were:

1. The new members

2. The old members

3. The members

POLY GRIDDERS OPEN SEASON ON BEAVERS

Five Green and Gold Mainstays Form Nucleus

Of State’s 1939 Football Aggregation

Although most of the team is as green as the pants they wear, the Mustangs of Cal Poly take the field tonight in a 60-minute "main-event" with the seasoned Beavers of Cal Tech.

In contrast to popular belief, the weight advantage will be with the Mustangs and not the Atom Smashers. However, if the Tech starting line is altered in only three places, the advantage dwindles to only one pound per man.

Out of Poly’s great team of 86 only four lettermen have returned to play in tonight’s frame. Only four return out of last year’s squad of 86 will still be active against Cal Tech. However, the "new" Poly team is a powerhouse.

That means that he has a lot more confidence in his aggregation than he is letting him know, certain experts claim the campus agregation.

This year, George Randolph, Poly’s 165 pound football center, George Silvia, sturdy 160 pound halfback, Joe Rombough, husky, hard hitting 185 pound fullback, and Brown, big guard and team captain, are the mainstays of the Mustang aggregation. And performing right beside them are "Dave Grand," Brown, who, all in all, is the "ace" of the Poly "A" line this year. He is a veteran of the previous season’s aggregation.

Dick Boyle, former "Blue Ghost" of St. Mary’s, is making his first appearance this season as coach of the Poly football team, which meets Cal Poly at the Poly stadium.

The guards are seen to pull out of the line with less awkwardness and with more confidence. Their backs, the tackles are dynamite! The guards are supplied with fly paper. Center’s are all tops to the man.

The Mustangs have improved immensely during the last week. Notes that have been dripping the ball all over the park have been snagger flies. The Mustangs have been working on the ball easily, accurately.

For: There are over 150 pounds and the Mustang attack is really on the move.

FALLEN LEAVES, MATURED INTRODUCTORY UNIT Elected NEW OFFICERS FOR COMING YEAR

LOCATION: Mt. Whitney Camp/Julian, 3700 feet above sea level. D. and W. Wednesday evening the following officers were elected: Elmer Eubanks, president; Marshall Fisher, vice-president; John Shane, secretary-treasurer; and Kenneth Holmes, safety-director-representative.

ANZA BAR LIGHT LINE

Dive into the Anza Bar College football team, which meets Cal Poly this year, is a team that averages only 175 pounds in the man. The leading man is 150 pounds and the median 140.

BOOTS AND SPIRES CLUB SHOWS LIVESTOCK AT POISON’S FAIR

 anecdotes of older members and 80 friends attended a "nostalgia week" of Roses and Spars, the most popular club officials introduced the show. The program was followed by an auction of state fair chickens. The officers are: President, Robert J. Biddison, T. (84); Vice-President, John Binko, T. (84); Secretary, John Chamberlain, E. (79); Treasurer, Stanley Stroud, G. (70); Business Manager, Paul Becker, C. (86); News Editor, E. (37) Nelson; Horr, C. (81). All Officers elected. E. (04), Keller, T. (82), Gillett, E. (89), Head, G. (70), Tielman, G. (76)."

A smashing, driving, running guard is this boy Briansley of Cal Tech. He lists nominal 184 for his team and will be depended upon to guide the way for many Beaver players.

The Mustangs and not the Atom Smashers. However, if the Tech starting line is altered in only three places, the advantage dwindles to only one pound per man.

The team plays Cal Poly later in the season.

R. P. STATE BAR NEW COACH

Dick Boyle, former "Blue Ghost" of St. Mary’s, is making his first appearance this season as coach of the Poly football team.

The team has played Cal Poly in the season.

The guards are seen to pull out of the line with less awkwardness and their lines are more confident. Their backs, the tackles are dynamite! The guards are supplied with fly paper. Center’s are all tops to the man.

The Mustangs have improved immensely during the last week. Notes that have been dripping the ball all over the park have been snagger flies. The Mustangs have been working on the ball easily, accurately.

The "crackers" box" method, or, if you wish, you may count me on playing Jasperian Directory, room 120. (I’m not out polishing some guy’s boots.)

Another thing to help set us right. We have been working with the "crackers" box" method, or, if you wish, you may count me on playing Jasperian Directory, room 120. (I’m not out polishing some guy’s boots.)

Regardless of the outcome of tonight’s ball game, Poly’s men will always be able to hold their heads high and say, "We fought the game!"

We are only out to improve and you will hear me admit that this game is our first tune up. So, you see, the main thing is to get set for a game of surprises. See you there!
