"Confused World" is Challenge to Youth Says Sen. Jespersen

State Senator (Dem., San Luis Obispo) alludes to the "Confused World" of today in an address made before the students of a county high school and rural extension classes at the California Polytechnic School at San Luis Obispo. The comments were made in the opening of the first session of the school year.

"In the Confused World of today," he said, "the great need is to develop a plan. The plan must be a personal plan, a plan suitable for the individual. The plan must include provision for personal direction and guidance."

Art Student's Tiny Masterpiece From Esquire

Through the effects of war, the many National Art Competitions has been suspended for the current year. However, the interior of a San Francisco art gallery was transformed into a miniature version of the famous Esquire art show. This is the year's first major art show of its kind in the country. The show is sponsored by the American Society of Painters and Sculptors, with the assistance of the Esquire magazine.

AN OPEN • 'OPEN FORUM'

The American people and the American press have reciprocal obligations to protect each other's freedom. Recently El Mustang referred to a popular feature which we call Letters to the Editor... An Open Forum. The fundamental purpose is to give opportunity for students to voice opinions on matters pertinent to campus activities, student welfare, etc.

Naturally much of the material which has been and will be printed in the pages of El Mustang Open Forum is not always necessary. It is for nothing unsavory among readers more than without argument, but rather to solve student problems. And we encourage the making of comments among readers more than necessary for the Open Forum column. However, it is easily understood how certain individuals might take advantage of such freedom offered for the preservation of their opinions. The tone and content of their letter to the editor might exceed the confines of good taste, or they might attempt to settle a personal feud or air a personal quarrel through the columns of this paper.

This must result in the whole material of freedom is spoken to, as to so many other matters, reciprocal obligations. The newspaper on the hand, has the duty to be free and truthful. It does not owe it to be free to speak, but it is its first, not necessarily to every individual opinion, and upon the clear light of articles at the different problems that face young people today. On the other hand, the need of freedom is actually trained to protect this freedom most visibly. They should think that this is not freedom.

So let's make the El Mustang Open Forum an alive, interesting column devoted to constructive criticism. In that way the students of this school and their paper can fulfill their reciprocal obligations to protect each other's freedom.

Mustangs Sluggish in Winning

Poly Scores Twice in Second Half
After Thrashing All First Half

Playing an unusually effective game in the first two quarters, the California Poly Mustangs evidenced their ability to put out two touchdowns in a row to lead La Verne 14-0. This was La Verne's third loss in a row in college football, and even though they scored only one touchdown in the second half, the Mustangs were still too strong for them. They scored 10 points in the second quarter, and added a final point in the third quarter, and after La Verne had scored against them with their first down, they never scored again.
