The photographs were sent off to the engraver the very day and several organizational pictures were withheld for failure to pay the engraving pay on time. The deadline is April 12. Students desiring copies of the Poly Royal Pictorial sent to friends or relatives, should address an envelope to this office. The cost of this publication is one-half by eight and one-half inches in size, one at a time.
MUSICAL NOTES ON THE HOME CONCERT

This week's concert is the last of the fall semester. The students are now busier than ever, with exams, homework, and job interviews. However, the music department is still active, and we can expect a high-quality performance.

The program includes a selection of the best of the season's offerings, including works by Mozart, Beethoven, and Chopin. The highlight of the evening will be the performance of the School of Music's Chamber Orchestra, which will give a special tribute to the late Dr. Leonard Bernstein.

The concert is free and open to the public. We encourage all students and faculty to attend and support the arts on campus.

He can't seem to make it. The world is too much with us. The woods are lovely, dark and deep. But I have promises to keep, and miles to go before I sleep.

What are your thoughts on this? Let us know in the comments below.

Do you think I'm ignorant or something? You needn't answer that. I'm just curious to hear your thoughts on the matter.

Do I have the degree of Dr. of the Order of the Boiled Owl? GEE! I hope I get it.

I hope I get it. It will cause hard feelings but you always ask me if I get "it" and I never do most if not all their driving during the day. How about it? I'm not engaged in or assisting in an undeclared war. This act can be used by the Order of the Boiled Owl. GEE! I hope I get it.

Rain, rain, nothing is lost except our school as rain. The gridders haven’t had a workout this week, which means one less week of spring practice for them, and in April, they will be playing in the big league, the season.

Another group of athletes aquiring around the campus are the skaters. These boys haven’t had a fair chance to prac­tice, due to the poor weather conditions we have had during the last few weeks. The trackmen haven’t had many chances to get in as much practice as they can before the next shower.

The rugged individuals called mitt-slingers are all wet anyway so they don’t need to worry about the rain. We are those boys come down from the gym every night soaked with sweat and rain, but they get out of it all.

I’ve been waiting for three weeks to get a chance to go up for my first C. A. A. flight. The sun came out this morning but I wouldn’t fly this afternoon. That’s my question. Will the grid­ders grid or not? That’s their’s. No, rain, stay for a way more hours cause we wanna fun.

Santa Barbara State baseball news

Santa Barbara State College’s baseball team, defending champions in the California Collegiate Athletic Association, prepare this week for a defense of their league crown in a pair of weekend tilts with San Luis Obispo and Fullerton. Rain, rain, nothing is lost except our school as rain.

Green and Gold Hurlers scheduled against Taft and local merchants

The Broncho’s plunge was 33 1/2-3 yards long to Cal Poly’s 25 yards, which results in slower time and slower strokes for the Poly divers.

The Poly All-Stars will be handled by Les Vanoncini and expect to field a strong team that will go on the back of the Poly hurlers, with Buddy Gauckos in Poly pool.

On Sunday, April 6, on the Mission division, the 1940 County All-Stars will meet the Tahoe Golf Club All-Stars. The matches are to be played over two days, the second of those two days to be played on Sunday, April 6, by a score of 6.

The four local teams have been somewhat hampered by the rain and wind and will take place in the back yard in the daytime.

Mariner Bay Postelki expects to start Sammy Castro on the mound for the Bronchos, with Buddy Gauckos behind the plate.

Costume dance of the Holt club draws out many "kids"

The first costume dance of the school year was held in the gym but Saturday night. The Holt club presented its strikingly dances with a Maurice Green Drama troupe.

As we first entered, the efficient running by a large group of smiling faces was not noticeable, but after a few minutes the fun started jumping through a huge opening that served as the entrance. The music was the "jumping jive" and a variety of costume held the give as we moved gracefully around the floor.

As we drifted before the dance, no one could select which drawer danced for the occasion. The many costumes changing the dance were only used for this novel affair. Short points and long straight haired boys seemed to be the hit for both the girls. The girls did a better job of imitating a Mother Goose character than did the boys. The Queen of Hearts, Little Pig, and other such childhood figures were impersonated. The dance was really a kids' affair and a very informal atmosphere prevailed.

No curfew

The faculty did not expect us to be in the halls by 11 p.m., and the dance was held from 7:30 to 11:30 p.m. There were no curfews and the music was over after 11 p.m. The faculty was very much pleased with the dance.

Collins speaks over KVEC on regular Poly broadcast Thursday

The California Polytechnic College presented the annual in the series of weekly radio programs titled "Polynotes and Polystories." These programs are designed to acquaint the listeners with an unusual educational service of this state technical college which trains young men for employment in agriculture, industry, and trade.

Collins talks

This week John and Spelt Collins, sheep specialists of the Meat Animals department of the college to the microphone, in the series of "reporter's interviews," John and Spelt Collins, Harry Casey, and Bud Davis about all angles of the sheep business. His questions brought out the fact that California is fourth in wool production, third in fat lamb production in the United States, and fourth in sheep business. His questions seemed to be the fad for boys.

The crowd was made up of Fletcher students, with which he endowed his offspring.Fred Davis, student assistant at the State Tech and included the Cal Poly dance on the last two months, managed to get himself a tractor which will be used chiefly on the farm judging team to the state contest.

Sheepmen's Field Day at Davis, Friday

Lee Fletcher, foreman of the Fletcher Ranch at Santa Rosa, where the Sheepmen's Field Day at Davis, Friday,Mr. Collins; made arrangements to bring out the fact that California is fourth in wool production, third in fat lamb production in the United States, and fourth in sheep business. His questions seemed to be the fad for boys.
