To all students, new and old, I wish to extend a cordial welcome to Cal Poly. As soon as you have registered you become part of a student body. You will find that you are in college now. You have new problems, new responsibilities, and new friends. How you make out in the year to come may make or break you. You may find yourself launched on a new and rapid course in life and at the end of the year you will be well ahead or behind those of your classmates. There are a great many interesting and entertaining events at Poly, and we feel sure that you are going to do your very best to help you find racism is not always a job for you but we can and will do everything possible to help you.

There are many important events on the Poly campus and adding students, read and study your college paper. It's important that you know what you are going to do. There will be a number of important and interesting activities and we feel sure that you are going to enjoy them.

There are a great many opportunities for you here at Poly. Capable and willing students are always in demand to help do the many jobs that must be done. I strongly urge you to take an active interest in the student government and to participate in its activities. Our college paper, The Mustang, and the college newspaper, The Verge, are full of important news that you should know.

There is a great deal of interest in football this year. The Associated Students have a full set of officials plus a hired manager. The Associated Students are an important part of the college and we feel sure that you are going to be interested in them.

The true governing group of the Associated Students is the student affairs council. This is presided over by the president of the Associated Students, Walter Dougherty, and all major matters concerning the student body are discussed and acted on by this group. Student funds derived from sales of student body cards are appropriated to the various standing committees by this group, and the press of other business often requires more than its regular fortnightly meetings.

Freshmen and new students report to Room 106, Administration Building. Secure the following: Registration number, examination schedule, physical examination appointment, and name of your instructor. Freshmen and new students should make their own way to the college, but if you are in any doubt as to your route you should ask for help. There is a great deal of interest in football this year. The Associated Students have a full set of officials plus a hired manager. The Associated Students are an important part of the college and we feel sure that you are going to be interested in them.

The dorms are nearing completion, and it will not be long before you will be living in them. The dorms are built in two "U" shaped groupings of three dorms each with a large dining hall and newly equipped kitchen centrally located. The rooms are proportionately furnished and all the other details will be worked out by student committees.

The enrollment at Cal Poly will not be affected materially by the acute shortage of housing facilities in the city, because the dorms are now under construction. These new dorms will be able to house 200 students, who otherwise would have had to be housed on the outside of the dormitory. The dormitory buildings have now passed from 200 to 600.

A determined effort to have a 100 per cent membership in the Associated Students will be made this fall, student body members, as does El Rio and other student organizations. A student body card is a very low in comparison with other colleges in the state. The enrollment at Cal Poly will not be affected materially by the acute shortage of housing facilities in the city, because the dorms are now under construction. These new dorms will be able to house 200 students, who otherwise would have had to be housed on the outside of the dormitory. The dormitory buildings have now passed from 200 to 600.

The M undo of the United States is based on democ-ra-cy or the right of the individual to freedom of thought, freedom of religion, and freedom of speech. This doctrine is found in all true American institutions and exemplifies itself in the privilege of self government.

The studentbody of the California Polytechnic College is composed of students and government in encouraged and guided by the president of the institution but also by every mem-

Mr. Hr annum

The Studentbody Assembly provides a means for the application of democracy at California Polytechnic. Here each student finds himself in regard to student government. Ideas are exchanged and plans made for the betterment of student life. No student can get the most from his four years unless he becomes a active member of the studentbody and attends these assemblies.

A brochure at assemblies is not compulsory but each new student is advised to read it. The brochure contains all the information necessary to student life.

The three men united for one purpose

Off My Mind
By Ann Petersen

Welcome to the sports page, boys. This first edition of the fall is signed to acquaint you with the different athletic programs we have to offer here at Poly.

Penguin participation is not limited to freshman teams. If any freshman has the ability to make a varsity letter he is eligible, so come on, fresh, show those upperclassmen what you can do.

If there are any of you who wish to help out on the sports page or contribute in any way, please let me know. We have not your yearbook this year so I can get in touch with you.

This column is open for suggestions, so if you have anything "on your mind" that should be in "My Mind" kindly let me know.

Penguin season has rolled around again and that seems to do things to you. I hope that all of you will be able to go to Whittier to give the Mustangs some moral support on their opening games. You can't realize the excitement and the loads of fun you can have at these Poly games until you have been to one, so come out and give us your support.

Oct. 11

Homster Dougherty returns from auntier vacation ready to carry out plans for Poly's most pro­gressive year.

Nov. 1

A safety scored in the last few minutes of the game gave the Poly Mustangs an 8 to 6 victory over Sacramento. With four minutes remaining Joe Soroka blocked a kick to insure Poly's victory.

Nov. 5

Parking cars in front of the dorms for more than twenty min­utes is strictly prohibited. There are parking lots provided in rea­son of the dorms for this purpose. Your cooperation is asked and expected.

Ending their regular 1940 football season in a burst of spectac­ular playing, a fighting Cal Poly team won a much deserved but rather unexpected victory over a highly rated Cal Aggie team by a 20 to 7 score.

Nov. 16

The Santa Maria Bulldogs were next to invade the Mustang field but the ever improving Mustangs

Glee Club auditions to be held September 8, 11, & 15
H. E. DAVISON

A meeting of glee club members was held in Room 1. Everyone is invited to try out.

Every year the Cal Poly glee club put on a great show at all football games, which is a must-see performance for students, alumni, and visitors alike. The glee club is one of the finest groups on campus, with a reputation for excellence that reaches far beyond the confines of Poly's campus. This year, they're gearing up for another fantastic season, and they're looking for new members to add to their ranks.

The glee club is known for its high-energy performances, sung in a variety of styles ranging from classical to contemporary. They're always on the lookout for new talent, so if you're a singer or just passionate about music, you're encouraged to come out and try your hand at it. The glee club is a great opportunity to meet new people, make new friends, and be a part of a wonderful community.

In order to audition, you must fill out an application, which can be obtained at Room 1 or from Mr. Carricaburu. The auditions will be held on Monday, Thursday, and Monday nights, September 8th, 11th, and 15th, in the music room, which is Room 1 of the new classroom buildings, opposite the Electric Lab.

Tryouts will probably be held on Monday, Thursday, and Monday nights, the eighth, eleventh, and fifteenth, in the music room, which is Room 1 of the new classroom buildings, opposite the Electric Lab. This is a sample of the conversation that you freshmen will hear in the Weeks to come. It's true, the glee club is one of the most exciting parts of the college experience, so if you're interested, be sure to check it out.

In the army now!
Wayne Misemer, an outstanding member of the glee club, is now in Hawaii doing his bit to preserve the peace of the world. Michael Libonati, who was the athletic writer and later with the Insurance Company of North America as an engineer. He was a graduate of the University of California in June 1941 from Montana State College. He has had considerable in provincial schools in Canada and as an instructor of vocational agriculture and shop in the Navy.

Other students that were called to the colors are: Arno Heying, Lionel Cox, Nathan Schuster, John Ottman, Robert Bell. Stanley Probst, who was in the reserve, is now in Hawaii doing his bit to preserve the peace of the world. Michael Libonati, who was the athletic writer and later with the Insurance Company of North America as an engineer. He was a graduate of the University of California in June 1941 from Montana State College. He has had considerable in provincial schools in Canada and as an instructor of vocational agriculture and shop in the Navy.

Welcome freshmen.
