Project Lambs Not High Prices

Swift and Company last Mon­
day, Feb. 6, purchased 270 out of
a total of 4600 cattle fed a year.

James Nevin, Swifty buyer, in a
telegram to the manufacturer in
San Francisco stated that the lambs were graded
as follows: 246 choice, 28 good
and 2 commercial. The dressing
percentage averaged 51.1%, about
2% higher than was estimated on
the 800 student-owned project fed
lambs, paying 16.60 per pound,
aged 60 pounds per lamb.

The trip consisted of inspecting
the Swift packing plant and being
guests of the company at a din­
ner. After leaving San Francisco,
the students went to Livermore
where they visited a cattle feed­
ing plant. The establishment was
built by Gatamer Wagoner and
will feed 1500 cattle at a time.

The program will be to change
cattle three times a year, making
a total of 4500 cattle fed a year.
The most amazing part is that it
will take only two men to do all
of the labor of mixing and feed­
ing. Wagoner is a noted mechanical
and his skill is shown in having
a men feed lot, which should be seen
by every one interested in this
phase of agriculture.

The students making the trip
were as follows: Case, Bowman,
Mortalaro, Epperson, Liv­
ingston, Lewis, Davis, Brandon
and Haskell. Others who fed
the lambs were Lancaster, Copeland,
Grimm, Otto, Sneed, Bowser and
Riley.

Claim Your Nylon At Crops Dance

A pair of nylon stockings will be
given away as the door prize at
the student body dance to be held
February 15 at Crandall "ball­
room." This interesting added at­
traction has been procured from
an out of town source, according
to arrangements chairman, Ken
Holmes, whose motto for the
dance is, "We've got the sock­
job—next year's clothes today.

Members of the student body are
urged to get their best dates and
bring them to the dance. Manufact­
er, Wagoner is a noted mechanic
and his skill is shown in having
a men feed lot, which should be seen
by every one interested in this
phase of agriculture.

The students making the trip
were as follows: Case, Bowman,
Mortalaro, Epperson, Liv­
ingston, Lewis, Davis, Brandon
and Haskell. Others who fed
the lambs were Lancaster, Copeland,
Grimm, Otto, Sneed, Bowser and
Riley.

Cheese It Boys, Here Comes Ilg

One of the first post-war de­
velopments in dairy products is
being undertaken by the manu­
facturing students of the dairy
department. Under the supervi­
sion of George Ilg, head of dairy
manufacturing, the cheese class
consisting of A. K. MacDougall,
Don Mann, Johnnies Rhie, Marval
Mayer, Howard Grisham secured a stora­
age vat, starter, and skim milk
thus started the first cottage
cheese to be made at Poly on a
large scale.

This first batch turned out to
be a success that it was packed
in one pint containers and was
given away free to all
customers who purchased milk at
the dairy last Saturday. Nothing
but praise was heard from the
reports received, and the second
lot was turned over to the cafe­
teria for a tryout.

It is the intention of the dairy
department to try to meet the
great demand for cream without
having an excess amount of skim
milk. The members are planing
for the future.

Congratulations to "The Must­
tang Club." Cal Poly is proud and
very pleased to have such boosters.
Board of Arbitration Needed

Closer cooperation between the students and the faculty of Cal Poly seems to me to be one of the most important adjustments to be made very near future. I believe that the students should have the chance to get rid of their so-called "gripses" instead of continually brooding about them and discussing them with their fellow students. The way to do this is to have someone who has the authority to rectify them, or at least inform us as to why these conditions exist. Gripping is all right, but it gets you absolutely nowhere unless it is directed into channels that can justly weigh the facts and do something about it.

I believe that through the SAC, a student committee should be chosen to meet once a week or a month with a faculty committee. This meeting could act as a mediator between the faculty and students. To my estimation, these committees would act to help both the faculty and the students straighten out and avoid future misunderstandings.

A close harmony between students and faculty, to my estimation, is one of the essentials in having a good democratic college with both parties understanding the problems of the other and striving to adjust them.—D. Lavery.

250 Guests to Attend

SAC Seeks Action

A discussion of the list of immediate and long-term improvements submitted to the administration by the S.A.C. was the result of a long session of the group last Tuesday night at a special meeting called at the request of Bill Trounser, in charge of resident students.

President Santel appointed a committee consisting of Al Ranwick, Archie Ahrendes, Ken Holmes, Leon Garoian and Santel to meet with the dormitory administrative committee to discuss the operation of the student store.

Week EL MUSTANG will be financed one-half by advertising and one-half by funds appropriated to Publications by the SAC in October. At that time SAC granted Publications $750 to publish the pictorial magazine, MUSTANG ROUNDUP. Two issues were published at a total cost of about $600. About $250 was raised in advertising and through sale of photos, so that only $350 of the publications fund was used. Using $100 of that balance, Publications will publish the weekly paper for the remainder of the school year and will have about $300 to add to funds being raised to publish the yearbook. About $250 was raised on advance yearbook sales and this with approximately $400 in advertising will give us a $1800 annual profit.

Due to paper shortage we cannot go to tabloid size yet, but as soon as paper is available we will get national advertising and will increase the size of the paper.

Yours for a bigger and better paper,
The Editor

Los Lecheros Plan Poly Royal Exhibits

Los Lecheros is starting to plan its section of Poly Royal. A committee of three, Hank Leffers, Chuck McLaughlin and Merv Mayer, presented a list of suggestions for events for this year's fair. Action on the list will be taken at the next meeting.

A variety of contests will probably be a feature of this year's program. Several ideas based on exhibits, both unusual and educational, are to be also voted on.

A request for a spring dairy tour of the state has been put before the administration. If it is approved, the club members will have an opportunity to study dairy production and manufacturing in many parts of California.

Sports Roundup

By BILL BOTH

A well deserved hand is due Coach "Howie" O'Daniels and his Mustang hoops team. They have taken over the top spot in their league. With the navy gone and just three former lettermen, "Howie" has done a swell job. The fellows are trying hard to give Poly a winning out. So why don't you, the students, come on and support our team. Recent turnouts have been up to par, so come on, let's get on the ball. By the way, where is H. P. and his swingmen.

Spring Football

Yes, practice starts March 18. With several former players back in the fold and possibilities of Poly getting into a top notch league, a good turnout is expected. Any potential player intending to go out should sign up as soon as possible. I take it for granted you youngsters will turn out, but how about you vets. Except for a few, most of the vets haven't seemed to take an interest in sports. Cracking these books isn't easy, but you can manage somehow. So come on out and relax those war nerves. Practice sessions are only an hour and a half a night, four nights a week. And remember, no naps till after practice. These two "kids" have been trying hard to get in position. Wineroth and Max have plenteous what it takes to one thing, TEAM WORK. Harry and Ed may not be as fast as they used to be, but they still have plenty of what it takes on the old ctsaba court. Wineroth and Maxson, along with Arthur and Moore, have combined experience and ability to help a lot to put Poly where it is today, on the crest of the city league.

Mustangs Maintain League Standing; Beat All-Comers

Poly's basketball quintet maintained their league standing last week by swamping the J.C. five 52 to 41 and the Octaneans 57 to 29.

Monday's game with the Vikings was their second tilt this season and resulted in a victory for Poly. J.C., being at the bottom of the league, didn't prove to be much of a match for the Mustangs. In spite of a new addition to their squad, a rangy center, Gullichson, the Jaycees couldn't withstand the efficient ball handling of Poly's fast breaking forwards, Moore and Arthur. Along with Sweatt, the center, these boys accounted for the bulk of baskets made during the evening.

Wednesday night the Mustangs tangled with the Octaneans who hold second honors in the City league. This was a more evenly matched game, although it ended in defeat for the filling station squad. Again through the efficient blocking and screens of Moore and Arthur, the home team went on a scoring spree totaling 26 in the first half and 57 before the gun. Maxson had a little trouble with an Octane player in the second half when a dispute arose over the referee's decision on a tackle. Both players were put out of the game. The old timer Wineroth pulled some fast setup to rate second honors, scoring 13 points following Sweatt's 21. Most of Sweatt's points were made by tip ins.

Baseball's in Air

By GEORGE DEWEY

A turnout of all baseball men can be expected soon. Sign up with Howie in the gym office. Batteries must be working out every afternoon in the gym. Get your gloves and warm up those old scot bones.

Disc Hounds, Attention:

Both the Mission Radio co. and Moderns have been getting more and more records in lately. The lucky fellows who have photographs will find a visit to these shops interesting.

Some for the Glory's of This World; and some

Sigh for the Prophet's Paradise to come;

Ah, take the Cash, and let the Credit go.

Nor need the rumble of a distant Drum!

—Omar Khayyam

Coaches Attend Fresno Conference

Coach Howie O'Daniels and Vern Meacham, athletic director, left Poly Friday to attend a meeting of the California Collegiate Athletic Association held in Fresno, Feb. 8-9. Actually this was a meeting of the newly formed California Collegiate Football League. Schools already in the league are: Fresno State, San Diego State, Santa Barbara college, and San Jose State. Of course, our coaches traveled to Fresno for the expressed purpose of getting in that league. We were tendered an invitation to the meeting, but that doesn't mean we will be accepted. Howie says, "Just let them ask us once."

"Just Between Us"
By MERRILL

Congratulations to "The Mustang Club." Cal Poly is proud and very pleased to have such boosters.

If you want to hear the best in music, come out to the Valentine's dance, the first student body dance of the year, next Friday night. Gillian Brown, an ex-Polyle and musician par excellence, and his orchestra will give with the music aforementioned.

Did you know that Gerald Root, Chase hall man, is an amateur radio operator, or at least we believe he is. He knows just what a Hallcrafter 8X28 is. I don't!

We have recently heard dire reports from friends of Mr. Tom "Bulldawg" Leonard. What caused his recent hasty departure from one of the local cafes? Incidentally he's been in bed ever since.

Due to who knows what, Kenny Holmes and one of his co-workers, were lucky enough to get the best in a recent chemistry exam. Maybe it wasn't just luck, though. I've seen both of them studying.
