BUTTER SHORTAGE MAY BE EASED BY POLY ROYAL

George Ill's creamy management "chees" uncovered some astounding milk data. Our campus milk production is expected to increase by a bit less than 500,000 gallons per year. This increase will be due in part to the new milk delivery system, which is expected to increase production by 100,000 gallons per year.

The milk delivery system will be installed in the next few weeks, and the increase in production is expected to begin in earnest next month.

GED REIGNS OVER DAIRY ICE CREAM FEE

The ice cream and "coke" consumption rate on the Poly campus is expected to increase by 50% this year, according to our data. This increase is expected to be due to the increase in milk production and the increased availability of milk.

The increase in ice cream consumption is expected to be due to the increased availability of milk and the increased demand for milk products.

What's the future of the Poly Dairy Club? Our data shows that the club will continue to grow in the future, with an expected increase in membership of 25% this year.

Gentlemen Chosen By Executive Committee

 Mines Helen Burnett, Anita Filipponi, Bertha Mackenzie and Amanda Watts were selected as the officers of the Poly Dairy Club for the current year.

Smallpox shots given tomorrow

With the smallpox epidemic raging, the Poly Dairy Club will be given smallpox shots tomorrow. The shots will be given to all members of the club, regardless of whether they have been vaccinated or not.

The shots will be given by Dr. Treadwell, who will be on campus tomorrow to give the shots. The shots will be given in the Poly gymnasium.

Jazz Band Dance Prospects Solid

The Poly Jazz Band is expected to have a successful season this year. The band is expected to perform at several events, including the Poly Royal Ball, the Poly Alumni Reunion and the Poly Band Festival.

The band is expected to perform at several events, including the Poly Royal Ball, the Poly Alumni Reunion and the Poly Band Festival.

Words for Alma Mater Are Below

Without a doubt the new song will be a hit. The words are simple and memorable, and the tune is catchy. The song is expected to be a hit on campus, and it is expected to be included in the Poly Royal Ball program.

Don't forget to vote on the Coronation Ball Orchestra. See page 8 for particulars.

Take It Easy, Drivers

Comments have been heard lately regarding speeding on the campus, and what the ultimate result in either administrative action or traffic fatalities would be. With a large number of cars on the campus and an even greater number of pedestrians at most hours, chances of a serious accident through speeding are many.

Three deaths have been recorded on the campus in previous years. Shall we allow the fourth to be held against our record? Surely the students, faculty and other employees are not in so great a hurry that by driving carelessly, they cannot reach their destination in time. All it takes is to ease up on the "lead foot" imposed by the administration, and to drive with responsibility, set up a student court, and punish all violators. Third, the administration can take common sense and hire a special officer to regulate the speed and book those who illegally they see fit—perhaps even to the extent of restricting the cars from the campus.

The latter, from a student's point of view, is the most objectionable one as a solution, but it has been suggested mainly to remind drivers what can possibly happen. The best solution, the one depending on individual drivers, should be the one preferred by most students. All it takes is a little slowing down to help make this the safest college campus anywhere.

—L. Garoian

How to Fill Space

Since 50 per cent of the students don't like what I write, and the other fifty per cent of the students don't like how I write it, I've decided to write on a subject that may please some students. This week's topic shall be on the weather.

It's spring, and in spring a young man's fancy turns—away from the books and into the open spaces. Mark Twain said that everyone talks about the weather, but no one does anything about it—except perhaps the old druggist. He's been raining out our baseball fields, and everyone around here is trying to do something about it.

Bill Crinklaw spent the entire afternoon following the students around the campus and trying to find out what they thought about the weather. He found that the majority of students were not impressed with the rain and that they were doing what they could to continue their trip. Aside from this, the weather was very enjoyable and pleasant.

Dear Mr. Roth:

I would like very much to inform you as to who is doing the most work here. I represent the freshman and I am prepared to make a suggestion. "We the freshmen will take any or all the sophmore in any kind of activity they can afford to participate in.

I have been a little over the lead foot at times and have had to go a little over the lead foot at times. It takes a lot of time and effort to ease up on the "lead foot" imposed by the administration, and to drive with responsibility.

W. Meily

Dear Mr. Roth:

I would like to advise the sophomores to start taking the buses and drive with responsibility. If they take any or all the sophs in any kind of activity they can afford to participate in.

Boots and Spurs Barn Dance Over; No Casualties

By John Patterson
Did you wake up still tired Saturday morning? Are you still laughing about Old Brown and his gaiter?—a Boston, or were you still thinking about Red, the red-eyed Valley? Did you sing out loud during Red River Valley?

If you did, you knew that the Boots and Spurs held a successful barn dance Friday night in Cerrado gym.

Herb Walkup and his committee did a swell job with the decorations. The music of the Happy Time Trio had a really western flavor. The costumes were very colorful; everyone believed that Martin and Red Merrill deserved those bronc riding boots as much as those good looking females around.

Aid Veterans Secure Civil Service Jobs

The State Personnel Board has created a new unit to aid veterans in procuring temporary, state civil service jobs. Personnel Service has two aims: the first one is to recruit-employees for the state, and secondly, this section will offer assistance to the veterans who are employed in the state civil service. This new unit has offices in Sacramento, San Francisco and Los Angeles. Further in formation can be had by reading the circular letter, posted on the school's official bulletin board.

Poly Royal May Have Bob Hope

Poly Royal Pictorial Editor John Shoes and E. E. Kennedy, publications advisor, are making a quick trip to Los Angeles to get the lithography and printing done on the pictorial. A rush order of five thousand of these will be ready by Friday. The poly pictorials may be mailed as invitations to the Poly Royal by the students of Col Poly. They will be free and all students may use as many as they need.

Poly Royal Pictorial Editor John Shoes will make a personal follow-up contact with the agency of Paris, Cela and Reidel, who handles the Bob Hope broadcasts. Their representatives, at Capaftt, said recently that Poly is right at the top of the list for a campus show on April 5th. John Shoes, assistant editor of El Rodeo, will visit the Angelus.
