SAN LUIS OBISPO, CALIF.
May 20; 1946

Susan Rowe was introduced to the students and faculty at a recent student body assembly where she created a very favorable impression upon the assembled personnel.

The queen for the Fiesta de las Flores is determined by a novel method. After candidates for queen have been chosen, each is given tickets to sell, and the girl selling the most tickets is crowned queen. The contest is open to all student couples and is sold for twenty-five cents per ticket. Ninety per cent of the money obtained from the sale of tickets is given to the Student Wives' association, a non-profit organization. Of this ninety per cent, half will go toward the upkeep of the mission hall, and half will go toward endowment. Ten per cent of the sales retained by each couple will be donated to half of her returns to the Student Wives' club, and ten per cent to the rich de- pouring or individual who sells the most tickets for her.

A few of the people from whom you can purchase tickets are: Dick Stratton, Herb Walkup, Archie Winn, and any of the student members of the Student Wives' club.

Susan Rowe... Candidate for Queen of the 18th Annual Fiesta de las Flores Queen, to be held May 31 and June 1 and 2.

Garolian, Lavery Win Election

Ken Lucas Secretary

In one of the tightest elections ever recorded at Poly, Lee Garolian and Dick Lavery nosed out John Jones and Jack Charleton in the races for student body president and vice-president. Ken Lucas easily won the contest for secretary.

Student body offices decided in the primaries were Cy Hovig, treasurer; Ollie Brown, pupil leader; and Larry Rogers, athletic manager. The new officers will be officially installed at the Student Wives' Moot held Tuesday afternoon in the auditorium. The guest speaker for the evening will be student body President Lee Garolian, 234 votes; John Jones, 193 votes; Vice President Dick Lavery, 197 votes; Jack Charleton, 192 votes. Secretary, Kenneth Logan, 194 votes; Paul Brown, 134 votes. Treasurer, Cy Hovig, 104 votes, Phil Lindsey, 126 votes. Athletic Manager, Larry Rogers, 212 votes.

The lowest two incomes, which student directors will divide the proceeds, were: John Jones, 193 votes; Paul Brown, 134 votes. Secretary, Kenneth Logan, 194 votes; Paul Brown, 134 votes. Treasurer, Cy Hovig, 104 votes, Phil Lindsey, 126 votes. Athletic Manager, Larry Rogers, 212 votes.

The student body President is charged with developing the student functions, both athletically and socially. The new fee of $15, would be for the three regular school terms with the summer term being free. Such a move is favored by President McFee, but will have to be first approved by the students themselves. Only you are now asked to fill out the enclosed ballot and deposit it in the box in El Corral.

LOVELY CANDIDATE FOR QUEEN OF THE S. L. O. FIESTA NEEDS STUDENTS' SUPPORT

Fiesta de las Flores queen, is being sponsored by the Student Wives' Club. She will reign — if elected — over the Fiesta on May 31 and June 1 and 2. She will reign — if elected — over the Fiesta on May 31 and June 1 and 2. She will reign — if elected — over the Fiesta on May 31 and June 1 and 2.

Glee Club is now working on songs to be used for graduation, at which little student directors will da the conducting. The following men are trying out for the position: Wayne Winer, John Van Dyke, Don Brunton, and Everett Smiley. The selection for student director will be made by the club next week.

INCREASED STUDENT BODY DUES

Should the student body card fee be raised from the present $10 to $15? Such was the proposal made at the recent S. A. C. meeting, where it was shown that an increased price will be needed to meet the present rising cost of supporting the students’ functions, both athletically and socially. The new fee of $15, would be for the three regular school terms with the summer term being free. Such a move is favored by President McFee, but will have to be first approved by the students themselves. Only you are now asked to fill out the enclosed ballot and deposit it in the box in El Corral.

Cooperation Needed

The student body officers for next year have been elected by you, the students of this school. These officers face problems that have not confronted Poly since pre-war days. The administration expects Cal Poly to at least double its enrollment next year. To efficiently organize student activities in the coming year will be one of the toughest jobs that any set of school officers has ever faced. If Poly is to do the things it wants to do, the student body, as a whole unit, must be behind the men they have elected. Cooperation is the keynote. Mr. Keese in his letter to the editor has pointed out a lot of inconsistencies in our present organization. He has promised to do their best in serving the student body and the school. To effectively remove the stumbling blocks people have been getting on his way. If a student wants, need, every student must, in turn, do his best to help accomplish the desired ends.

So far it has been workflow only that a comparatively few members of the student body have really worked at the activities that set us, a school, above many other schools. Poly Royal was an exception to this. We need more of the whole hearted unity that made this year's show a success. Every adviser that I have talked to has admitted that the student organization had the cooperation throughout the year that existed for Poly Royal, this school would be outstanding on the coast.

Complete unity and cooperation is especially necessary from the men who will return to Poly in the fall. This particular group should be the inner core of the group. If the school is to exceed the 1937 and 1938 units, must get behind the men they have elected. To effectively remove the stumbling blocks people have been getting on his way. If a student wants, need, every student must, in turn, do his best to help accomplish the desired ends.

We must realize that the new students next fall will be in the majority. They will also be raw in their concept of school life, of Poly's customs, aims, and traditions. If the administration wants to improve the school situation, it must meet the students on their own ground. By concentrating on the activities that the students want, need, and enjoy, the student organization will be well on its way to unity.

F. Cooper, a member of the business department, suggests that the duties of leader and follower are outlined what to do and how to do it. Those who want to be followed must let the followers know what to do and how to do it. Any help in this matter will be appreciated.

Sincerely yours,

BMOC

AIR PRODUCE PACKING PLANT

Los Angeles — A processing and packing plant to prepare fresh fruit and vegetables for transpor- tation by an organization built by an organization of citizens of San Luis Obispo, Los Angeles, is necessary. The new plant will be of the highest grade and will be used for the benefit of the student organization. The plant will have a capacity of 30 cars of perishable produce a year. With a capacity of 30 tons a day, the plant will be a boon to the students and to the school as a whole. A teaching staff of the highest grade will be employed.

The plant will be located in the heart of the city and will be operated by a staff of experienced workers.

If not with the choice of words, but with a smile, every student will be a follower. To be a follower is to do the work for the betterment of the school. To be a follower is to help the school to succeed. To be a follower is to help the school to be the best it can be.

In short, more action, less passivity in school activities.

For Baffled Student

Just ahead of me. He also seemed to be an opening for attacks either for or against. I hope you succeed.

— John Patterson

Death Takes Big Spring Vacation

Marvin and sudden death in California practically tells his story to the corner where the school authorities met in their annual meeting in B. L. O. The reason for the meeting was the resignation of President L. L. Hebert, rendered in this way.

The auspicious group flocked at Poly Saturday, as the green of Cal Poly and hospitality committee. The speaker of the afternoon was Mr. McInerney, who told the assembly of Poly's plans and aims. Following lunch, George Ho. Cal Poly's dairy department, personally comforted the group on a tour of the campus.

VO-ED MEETINGS HELD AT POLY

Sports Roundup

BY BILL RUSH

In case any of you didn't know, our conference last week was the start of a meeting of the California Collegiate Athletic Association. In Santa Clara, Deans elected new members for the coming year, the coaches drafted a new basketball schedule for next season. The way it looks now, we'll have a smaller and more confining program of meets. The conference is still at the tentative stage so far due to the fact that coaches were not in attendance. According to Tom Recking, athletic director, it looks like the league will do away with most of the events at the annual spring carnival. In other words, instead of having such sports as swimming, tennis, track, etc., in the carnival, each school will compete against each other in these sports during the course of the year.

As has been stated on this page before and time and time before, this is the best break Polv could ever have in the way of improving her athletic standing. This will be a real test as to our athletic prowess here at Poly. As you all know, the competition will be very tough. But with the right kind of man and the right kind of equipment and the right kind of people on the student body, we can win. Sure we need support at the games in the way of rallies and cheers. But most important we will have to make more participation of the students in sports. Take for instance our basketball and baseball teams this year. Why the turnout for these sports was just pathetic. This can't go on. Of course, every one can't go out, for sports. But there that can, can come out and let usPoly on top of the league in December.

Data and Scores:

How about a trailer here at Poly? A lot of men around here are coming up with fences, cramps, beds, bars, and Shetland ponies. When football season comes around it will be a lot worse. Harry O'Dell has his hands full now with managing and coaching the football team among other things in speed time with alfalfa. It will be well worth the school's while to hire a trailer. After all, all the other colleges on the coast don't have a trailer. Why can't we have one? How about a little action on this subject?. If you want to see some cinema on this campus, Just drop in at the bell field some afternoon. Willorf "Any Position" Mayhew, Jackson Cyrus, and Mac "Sticky" Smith will have you in stitches with their antics. When finished picturesque the fun and the boys at bell begin to get serious. I wonder why, Mac?

In 1944, 150 sets of twins and two sets of triplets were born in San Francisco.
