What to Do—What to See in San Luis Obispo

By BANDOL BEARS

What do we do on the weekends? A good question. If you are a Poly student, you are one of the fortunate few who have the opportunity to visit various beaches, enjoy outdoor activities, and explore the beautiful Santa Maria Valley. Here are some of the best places to visit:

1. San Luis Obispo Beach
2. Pismo Beach
3. Avila Beach
4. Morro Bay
5. San Simeon

Aside from the beaches, there are many other activities to enjoy in the area, such as hiking, cycling, and visiting local wineries. San Luis Obispo is home to numerous parks and gardens, including the Tapia Gardens and the Bishop Museum of Natural History.

Registration Procedure Outlined for Students

California State Polytechnic is doing everything possible to accommodate the needs of its students. They have set up a procedure that will allow students to maintain the high level of instruction that has been characteristic of the school in the past. Students will be inconvenienced for a short period of time as far as housing is concerned. The following information will assist students who will become more familiar with registration procedures.

Assembly Set For Poly Field 10 AM Sept. 19

After conferencing with C. O. McCorlile, assistant to the president and Bill D. Smith, in charge of registration, student body president Leon Gardan and Dick Lavery, vice president, announced that present plans for social activities may be carried out and preliminary plans for classes will be devoted entirely to securing the release of each student for the purpose of eliminating any inconvenience to the students.

In addition to the academic activities of the Poly at San Luis Obispo, there will be a permit to register in the registration flow. This permit will form at the north entrance to the Administration Building on Sept. 11. New students, if not registered, are requested to report at that door at the time indicated below:

AF 8:00 AM
FG 9:00 AM
FH 10:00 AM
NQPR 1:00 PM
UWYZX 2:00 PM

Lucky Friday 18th

The 18th day of September will be devoted entirely to securing the release of students to register and taking examinations. New student examinations will be free on the 18th. During September 18th, old students or students who were in attendance last year, will not counting the number of the students will register and develop their schedules.

On September 14th, new students will plan their schedules. They should report, at the time indicated below, to the Administration Building, and advance to the appropriate floor in the following order:

CDE 8:00 AM
FGH 9:00 AM
IJKLM 10:00 AM
STUWY 11:00 AM

SVUWY

During Saturday, September 14, students will take the time to register and develop their schedules. Regular classes will begin on Monday, September 16, at 8 a.m.

We hope that you will make the most of your time at Poly and enjoy all that the campus has to offer.

What is Your Student Life Like at Poly?

At Poly, students have the opportunity to explore various academic and social opportunities. The campus is vibrant and full of energy, with a strong sense of community. Students are encouraged to participate in extracurricular activities, such as sports, clubs, and social events. Poly is known for its strong emphasis on academic achievement and offers a wide range of courses in various fields.

Dear John...

Letters expressing the opinion of students are welcomed by the EL MUSTANG. Unsigned letters can not be used, but the name of a contributor may be withheld upon request as long as the true identity of the writer is known by the editor. Letters should not exceed 150 words in length. Letters may be placed in the EL MUSTANG box in El Corral.

With the great influx of students starting school this quarter things are bound to be a little crowded and everything will take that much longer. This will be the greatest enrollment in Cal Poly's history, when three times the normal number are expected to register. As the present time the college is not well enough equipped to take care of all the problems and troubles that are bound to arise with so many students attending school.

The building program has been somewhat hampered due to the lack of building materials, new classrooms and housing units that were expected to be constructed by this fall will be delayed for a short time. The school safety staff has quite a problem finding a way to feed 1600 students three times a day. El Corral, the student's store will also be up against it trying to please everyone at the same time.

Such things as these can be expected. Your individual problems may not affect you at all, or it will all take time. It would be wise then to take a "positive" attitude towards everything; instead of having to go through the situation reach a state of normalcy.

J. M. P.

End-o the Line

By HARRY ENDO

A little crowded isn't it? Can't feel though. Course conditions won't improve. Of course you know it's the same everywhere.

If you've ever seen "Blanche" you know that it's going to be a big game. Are you ready to hit? You've never had it so good. You know that the long lines aren't new. So better get set.

Thank You Carmel Anderson.

"Time will tell" of your genuine concern for the students here. Wednesday night, the student newspaper—on your own time—was particularly gratifying. So long and best wishes from all of us.

While most of us are lying on the sands at Santa Monica, taking in the scenery at Yosemite, and generally having a grand time, the "big boys" will be sweating and striving through pre-game scrimmages. Special sympathies go to David Pfeil whose every thought throughout the season will be of "Blanche."

Now that he has his mother on his side, Bob Lazar is handsomely engaged in winning the affections of a sweet little brunette (name unknown). That's applied psychology for you.

"Don't fret though'Cause conditions won't improve. Of course you know it's the same everywhere.

SEPTEMBER 11, 1946.

Coach Mott Calls For Pre-Season Caspette Practice

All basketball players interested in pre-season warm-up and practice should contact Bob Mott, new head coach. Mott's plans for the coming season are only tentative at this moment but he says that practice will definitely start a few weeks after the beginning of the fall quarter. It will possibly be held at the S.L.O. High School, until the Cal Poly gym is again ready for sports use. A pre-season, inter-class tournament will be held in the near future to arouse interest in basketball and to bring out any latent talent that may be on the campus.

Mott is now negotiating for a conference schedule that will consist of ten games to be played up and down the coast. The first of these games will be played at Santa Barbara on the tenth of January.

As soon as known, the practice dates and the schedule of games will be printed. Watch your local paper.

Always Room for One More Good Player

Potential football stars are requested to contact Coach Edwin O'Daniels or Chuck Pavelko. With summer practices a thing of the past, the reality of more gridiron from spring practice, Bowls and Chucks have hopes of a good season on the gridiron this year.

Approximately fifty Techmen are undergoing intensive practice in preparation for the forthcoming season but according to Chuck Pavliko there will always be a spot for good ball players. Any man with talent will be a welcome addition to the list of good men already in suits.

The music department provides the best of entertainment for Cal Poly. All of its different groups perform for all special events the college has. One of these events is the annual Poly Royal. The music department has a very important job at this time providing music for the rodeos, bar-b-qus, dances, and the assembly.

The music department’s director, H. P. Davidson, is one of the best liked instructors on the campus. Darby, as he is popularly called, has built up a great musical organization.

Our marching band is a well uniforms outfit and it performs for all athletic events and often makes trips with the team when athletic events are away from the college. The band plays for all assemblies and other student functions.

The glee club is organized for music lovers and is the vocal end of music. It performs for assemblies, and many other outstanding activities. One of the big affairs is the annual homecoming put on during the spring. Every year the club takes a week-long tour to different high schools. Forty men are usually qualified to go on this trip.

Two quartets and soloists are picked out from the glee club. The quartets are called the ‘Varsity’ and the ‘Collegiate’. They perform for many of the different city clubs in the surrounding communities, and these clubs are always asking for more performances by the quartettes.

Our dance band is one music organization everyone really goes for. The orchestra plays for all dances here at the college and many other dances at the different surrounding schools. In the past year we have had terrificly fine dance bands and this coming year we will have the best we have ever had. The orchestra will play for weekly dances as they have always done.

Everyone has a chance to tryout for any or all of the organizations in the music department. Tryouts will be held Sept. 16 on Monday. If you have your instruments bring them with you. We also have some fine school instruments that can be used. The marching band tryout is at 9:00 p.m., the glee club at 6:00, and the dance band at 8:00 p.m. All tryouts will be held in the music room which is class room No. 1. Come out and help build an outstanding music department for the coming year.
