Mustangs to Meet Gauchos Saturdays
by DON MOORE

This coming Saturday, September 24, Cal Poly will invade Santa Barbara with approximately 45 gridirons and possibly more than half of the student body. The Mustangs have been holding arduous scrimmages and drill in preparation for the game. Cal Poly’s squad roster of 80 men has been reduced to 16 men as of Sept. 22. However, Buck O’Daniels expects to pare the squad to about 44 so that he can travel with four full strings.

Bob Procell, lieutenant, said, "It’s cut with a dislocated elbow suffered in a recent practice session. George Tognetti, guard, is out with a badly bruised knee and Jerry Carter, quarterback, is cut with a strained right thigh during a simulated game. Gene Pimentel, fullback, will be switched to end when Larry Link, veteran halfback, is out for the game. Larry will be a welcome sight when Larry Link, veteran signal caller, returns. The Mustangs have all football to sustain Saturday’s game.

Poly has nine lettermen on the squad, with the exception of Lew Bewley, who played on the team last year, last year, and has been out of gear for several weeks. However, he is shaping up into a nice team with the Mustangs, and he is looking good going prospectively. Saturday’s game will be a battle of strength and speed, and the Mustangs will be a hot favorite.

Santa Barbara has had one scrimmage game with the Golden West and trimmed them 21 to 0. Nevertheless Cal Poly stands a more than even chance of beating the Gauchos this time. Poly’s team has a solid line averaging 210 pounds a line and a 247-pound quarterback. Poly weighs 187 pounds heavier than Santa Barbara.

Starting Lineup
The starting lineup for Poly includes, left end, Don Dillett, 205 pounds; left tackle, Bertram, 230 pounds; center, Bob Bolding, 240 pounds; right tackle, Byg­gins, 200 pounds; right end, Mackail, 230 pounds; right guard, Ed­ward, 190 pounds; left guard, John Manning at center weighing 200 pounds; Fiske, 200 pounds; Belcher, 190 pounds; left half, Ray Genrich, 185 pounds; right half, Jim Dillett, 200 pounds; and fullback, Bud Meth­gomery, 200 pounds. The Gauchos are at 170 pounds.

For his thesis, Bruce included a survey of crop raising methods in the Pacific Coast and their relation to different soil conditions, which he will present at the Poly Mechanics’ day on September 25. The theme of his thesis is "Raised Bed Farming." His recommendation in "Brooding and Growing Young Stock." "Poultry Manufac­turing," and "Hatchery Management and Farming" is 3107, Second Ave, San Luis Obispo.

Poly Teachers To Judge Show
Richard Leach, Poly poultry instructor, is scheduled to judge the Poultry Show at the Kermencount fair to be held in Bakersfield on September 26.

"This is one of the leading poultry men in the country, and both in number of birds exhibited and the quality of them, he is well known in the business," said Mr. Leach. This will be his fourth Poly poultry judging trip.

Chicken, turkeys, ducks, and turkeys will be divided, Kwen county, P.F.A., and the poly poultry judging. Under the management of Walter Stevens, who is in charge at Bakersfield High school.

Poly Mon Meets Degree Requirements

The requirements for graduation in poultry husbandry for his B.S. degree, which he has been on the Poly campus since December 1942, is well known among instructors and students.

When he receives his diploma with the next graduating class, he will receive excellent recommendation in "Breeding and Growing Young Stock." "Poultry Management," and "Hatchery Management and Farming." To succeed at these courses is not an easy task, he has a busy week of work, Saturdays, Sundays, and even in the evenings.

Married Life Lures Feather Merchant
Wedding bells will soon ring for a Poly student, who is to be married soon. It is the first Poly wedding for this year, and the wedding will be held Saturday.

According to Mr. Leach, who was up from Los Angeles last week, the marriage was arranged by phone, and the wedding will be held at the Poly on Saturday.

The newlyweds will return to Poly after the wedding, while Charles continues his studies at Poly.

Poor Man’s Singer
"Poor Man’s Singer" is open to any student enrolled for thePoly.

"It’s interesting," is the comment that thePoly students make as they pass by the Poly’s "Poor Man’s Singer" table.

Plan for Poly’s rooting section at Santa Barbara
Here are the plans for Poly’s rooting section at Santa Barbara.

To anyone who wants to be sure that Poly will be successful at the Poly game, here is a summary of the Poly rooting section at Santa Barbara.

Monte Makes Exciting Tour
"If we go into the wide blue yonder ..." It is rumored that Poly will go into the wide blue yonder, and everyone is wondering what will happen.

Spelman Collins, freshman all-amer, announced the Poly rooting section on Monday afternoon, "We are going to be the pride of Poly this year. Some speeches will be heard by the Poly rooting section, and perhaps someone will be surprised.

Admirers of Poly rooting section will be amazed at the Poly rooting section. Some Poly students have already promised Poly rooting section good times; they’ll make good.

Speed Work On Campus Construction
The administration announced this week that Poly’s bond issue is going to be used for urgent purposes. The Poly campus is going to be expanded rapidly. The Poly students are going to be amazed at the Poly campus construction.

Young Farmers Meet Tonight
A meeting of the Poly Young Farmers Club has been set for 7 p.m. this Friday. The Poly Young Farmers Club is going to be the Poly Young Farmers Club.

"I have been working with the Poly Young Farmers Club, and I can tell you that the Poly Young Farmers Club is going to be the Poly Young Farmers Club. You can tell by looking at the Poly Young Farmers Club that it is going to be the Poly Young Farmers Club.

Whodunnit?
(Ed. Note—He must have suffered a head injury, too.)

The Poly Young Farmers Club has a new director, Mr. C. O. Mc­Collum. Mr. McCollum is going to be the Poly Young Farmers Club.

The Poly Young Farmers Club is going to be the Poly Young Farmers Club.

Dear John...

Do you like to stand in lines? Do you feel run down when hit by a ton of lead? Do you believe the similarity between the two is that they bring the same sensations? You are not alone, my fellow human being who thought their life-willing time was coming.

Don't let it get you down, fellow Mustang. These lines are a little item you have to go through if you want any of what you are getting! Years of research by psychologists have shown that these lines have been compacted and bound, and it's all for the best.

Think of the poor fellow who only has one test to take. Which would you rather have? (stupid follow—ED.)

John Raymond

During the first week of school the following students in the California Polytechnic College—J. L. Lott, Martin, W. L. Miller, C. J. Taffera, L. E. Lihan, C. J. Taffera, E. L. Pembroke—were invited to join the staff of the Mustang.

The Student Wives and their families enjoyed a potluck supper in Poly Grove Sunday evening. The supply of food was so generous that it was spread out only by a wonderful collection of dessert squares. Each college milk were furnished by the committee to round out the meal.

In addition to the fine food, the guests witnessed an interesting collection of Poly Frescatos. The passing trains created an interesting backdrop for each student attempt to quiet the train whistle.

Following the dinner the group adjourned to a bowling alley where dancing and card games were enjoyed. The cost of the evening was given out.

MOSE ON SPORTS

By DON MOORE

This reporter couldn’t sleep the other night and while prowling the old tradition of mountain climbing, he learned that some of our more experienced men have started to climb a new mountain. It is looking a little like "F" on the hill overlooking the campus but the women believe it makes a much more beautiful "F",

It has been noticed that Dr. Carl D. Voltmer, sport’s staff ventures any predictions of sports, but would like to "al-pig-aize" a certain character. Perry Greenbraun, seen ambulating about the campus in possession of certain mysticism, noticed several instances of various sorts of events. This humble writer, being willing to serve all of his colleagues, is willing to stack up the "braine" with the estimable El Mustang sports men. Mind you, I have a cool clear evening. Here says, 

SECRETARY—\ Crawford Gym. Coach Mott is par-tampering with teaching assignments in related subjects. 

Dr. Voltmer Arrives On Poly Campus

Dr. Carl D. Voltmer, most recent addition to the staff of the athletic department, arrived on the campus Monday.

He has taken over his new duties as director of physical education and athletics. Dr. Voltmer was acting director of the athletic department the last two years. Meacham, a member of the student body card, is the director of athletics, including track and field. Cal Poly athletic department is sponsoring these events and hopes for a good turnout.

May Form League For Poly Bowlers

El Camino Bowling Alleys are interested in forming a league for Cal Poly rollers. The management announced that if enough students will sign up, they will reserve all of their alleys for Poly men every Monday evening. If a league is formed the bowling alley offers a price of 25 cents for those five times. A membership card could be offered. No standing average would be required.

An interested league, or individuals interested are urged to contact Bob Harris here at the college or to inquire at the desk. He is offering the "braine" with the bowlers for additional information. Here is the chance for all the ambitious and those of the knock-em-down, set-em-up sport to get together.

INTRAMURAL SOFTBALL

Initial call for all men interested in playing intramural softball was made yesterday by Baseball Coach Robert "Bob" Mott. An organizational meeting will be held tomorrow, Thursday, at 4 p.m., in Crandall Gym. Coach Mott is particularly interested in recruiting a team representation of as many new men as possible to ensure a flying start for the season’s intramural schedule.

POLY MEN ELIGIBLE FOR COUNTY TOURNEY

San Luis Obispo county is forming a men’s double’s and single’s tennis tournament which will start September 28. All play will be on Saturdays and Sundays only, for the duration of the tournament. An entry fee of $1.00 for singles and $2.00 per team for doubles is required. Each player furnishes his own scalps and the winner takes all. All fees will be used for prizes at the closing of the tournament. The amount of the winnings to be governed only by the number of entries.

Crops Men Limp Home From Lab. Session

By TED Laine

Twenty-five cereal crops 101 campus. Beginning from the age building the group bused the farm from

by Professor Paul Dougherty, undertook their lab session field 11 up in the southeast hill-est Saturday morning. In reality the morning turned out to be practical; the beef unit and on down to field the yields of GI country should.

It was a hot and weary bunch of boys who finally aligned at the age building at noon. The boys performed admirably between the fields, but "Youngster Dougherty" marched the lads about the be

a Cook's tour of the campus.

INLAND POST "BOMB"

WILD HORSES BY PLANK

WHITE SWAN, Wash. -- Indians of the Yakima Reservation, who are members of the Chief White Swan Post 101 of The American Legion, are raising a building fund for their new clubhouse in a novel manner. They are rounding up wild horses in the territory.

The round-up differs from those of the past in that the Indians are not going to sell the horses out of the hill, but will "bump" them out of the hill. The horses are made of paper bags filled with time. World War I and II veterans of the 90th Division will hold their annual reunion in Denver, Colo. September 25 to 29, 1946, with L. M. Uphoff as general arrangements chairman.

Spirited Men Needed Now

Starting this coming fall we are going to have the largest and toughest athletic schedule this college has ever had, and we need to have our team up with plenty of school spirit. To acquire this we should have a good rally committee.

We have a fine and much interested advisor, who will work up to things that will promote good college spirit. Mr. Meacham, rally committee advisor, is as follows: To have charge of selecting all athletic points, to set up those who keep special sections clear, to work towards stimulating and preserving school spirit, and many other duties along the same line as may be designated by the student affairs council. Each member will wear an identifying emblem when on duty.

If you are interested and want a part in this job let one of the following persons know: Gil Brown, yell leader, Mr. Meacham, advisor, Jack Shapley or Don Riley, assistant yell leaders. We need a good rally committee so let's start showing some of that college spirit from the very start.

The San Luis Obispo and the San Dimas units of Cal Poly have once again organized school papers.

The first copy of the Vorrheis unit paper, which is called the "Between the Tanks." San Luis Obispo, is "The place to shop for young men's clothing.
